# AGENDA

ORDINARY MEETING WARRNAMBOOL CITY COUNCIL 5:45 PM - MONDAY 6 JULY 2020

VENUE: Reception Room 25 Liebig Street Warrnambool

## **PLEASE NOTE:**

This meeting will be closed to members of the public in accordance with amendments to the Local Government Act 2020 with the meeting to be livestreamed via Council's Website - www.warrnambool.vic.gov.au

## COUNCILLORS

Cr. Tony Herbert (Mayor) Cr. Robert Anderson Cr. Sue Cassidy Cr. Kylie Gaston Cr. Michael Neoh Cr. David Owen Cr. Peter Sycopoulis

Copies of the Warrnambool City Council's Agendas & Minutes can be obtained online at www.warrnambool.vic.gov.au

Peter B. Schneider CHIEF EXECUTIVE OFFICER

## AUDIO RECORDING OF COUNCIL MEETINGS

All Open and Special Council Meetings will be audio recorded, with the exception of matters identified as confidential items in the agenda. This includes public participation sections of the meeting. Audio recordings of meetings will be made available for download on the internet via the Council's website by noon the day following the meeting and will be retained and publicly available on the website for 12 months following the meeting date. The recordings will be retained for the term of the current Council, after which time the recordings will be archived and destroyed in accordance with applicable public record standards. By participating in Open and Special Council meetings, individuals consent to the use and disclosure of the information that they share at the meeting (including any personal/sensitive information), for the purposes of Council carrying out its functions.

## **BEHAVIOUR AT COUNCIL MEETINGS**

Thank you all for coming – we really appreciate you being here. These meetings are the place where, we as Councillors, make decisions on a broad range of matters. These can vary greatly in subject, significance and the level of interest or involvement the community has. As part of making these decisions, we are presented with comprehensive information that helps us to form our position – you will find this in the agenda. It should also be remembered that the Council meeting is a "meeting of the Council that is open to the public", not a "public meeting with the Council." Each Council is required to have a local law that pertains to governance meeting procedures. Warrnambool City Council has followed best practice in this regard and its Local Law No.1 - Governance (Meeting Procedures) Local Law provides regulations and procedures for the governing and conduct of Council meetings. Copies of the Conduct and Behaviour excerpt from Warrnambool City Council Local Law No. 1 - Governance (Meeting Procedures) Local Law can be obtained online at <u>www.warrnambool.vic.gov.au</u> or are available from the table at the rear of the room

We thank you in anticipation of your co-operation in this matter.

## 1. OPENING PRAYER & ORIGINAL CUSTODIANS STATEMENT

Almighty God Grant to this Council Wisdom, understanding and Sincerity of purpose For the Good Governance of this City Amen.

#### **ORIGINAL CUSTODIANS STATEMENT**

I wish to acknowledge the traditional owners of the land on which we stand and pay my respects to their Elders past and present.

## 2. APOLOGIES

#### 3. CONFIRMATION OF MINUTES

#### RECOMMENDATION

That the Minutes of the Ordinary Meeting of Council held on 1 June 2020 and the Minutes of the Special Meeting of Council held on 6 July 2020, be confirmed.

## 4. DECLARATION BY COUNCILLORS AND OFFICERS OF ANY CONFLICT OF INTEREST IN ANY ITEM ON THE AGENDA

Pursuant to Sections 77, 78 and 79 of the Local Government Act 1989 (as amended) direct and indirect conflict of interest must be declared prior to debate on specific items within the agenda; or in writing to the Chief Executive Officer before the meeting. Declaration of indirect interests must also include the classification of the interest (in circumstances where a Councillor has made a Declaration in writing, the classification of the interest must still be declared at the meeting), i.e.

- (a) direct financial interest
- (b) indirect interest by close association
- (c) indirect interest that is an indirect financial interest
- (d) indirect interest because of conflicting duties
- (e) indirect interest because of receipt of an applicable gift
- (f) indirect interest as a consequence of becoming an interested party
- (g) indirect interest as a result of impact on residential amenity
- (h) conflicting personal interest

A Councillor who has declared a conflict of interest, must leave the meeting and remain outside the room while the matter is being considered, or any vote is taken. Councillors are also encouraged to declare circumstances where there may be a perceived conflict of interest.

## 5.1. WARRNAMBOOL CITY COUNCIL BUDGET 2020-2021

#### **PURPOSE:**

This report presents the proposed 2020/21 Budget for Warrnambool City Council, including a recommendation to adopt the Budget.

## EXECUTIVE SUMMARY

- Preparation and adoption of the Annual Budget in accordance with Section 127 of the Local Government Act is a major responsibility of Council.
- Council has proposed a \$91.9m budget which balances the ongoing services to the community (\$73.4m) with the infrastructure needs of Warrnambool (\$18.5m).
- Council has applied the rate cap under the Victorian Government's 'Fair Go Rates System' of a 2.0% increase to rates.
- In accordance with its Budget timetable, Council has worked through an extensive process to prepare a Proposed Budget for 2020/2021.
- Council advertised the preparation of the Budget at the Ordinary Council meeting held on May 4, 2020.
- Following the public notification of the Proposed Budget several submissions were received.
- A number of the items raised in the submissions have been referred to the Small Infrastructure Fund which will be evaluated and quantified by Council officers before being considered at a Council Briefing. An allocation of funding is proposed within this budget that allows for the progress of a number of these projects that meet the criteria. Council would the need to resolve at a future meeting of Council to allocate those funds to the evaluated and considered projects.
- Council is now required to adopt the 2020/2021 Budget and lodge the final document with the Minister for Local Government.

## RECOMMENDATION

- 1. THAT THE BUDGET BE ADOPTED
- a) That Council pursuant to Sections 127, 129, 130 and 223 of the Local Government Act 1989 as amended ("the Act") adopts the Budget for the financial year, being for the period 1 July 2020 to 30 June 2021 ("the Financial Year") attached as Attachment 1 and annexed to the recommendation.
- b) That the rate applicable in the budget has been calculated at a rate amount pursuant to section 185E(6) of the Local Government Act 1989(Vic) the applicable cap on rates in respect of the 2020-2021 financial year for the Warrnambool City Council is 2.0 per cent.
- c) Council give public notice of the adoption of the 2020/2021 Budget in accordance with Section 130(2) of the Act.
- d) That a copy of the adopted Budget be forwarded to the Minister for Local Government in accordance with Section 130(4) of the Act.
- e) That a copy of the adopted Budget be kept available at the Warrnambool Civic Centre for public inspection in accordance with Section 130(9) of the Act.

## 2. THAT THE AMOUNT TO BE RAISED IS

\$41,436,000 (or such greater amount as is lawfully levied as a consequence of the adoption of the Recommendations) be declared as the amount which Council intends to raise in general rates by the application of differential rates, application of the annual service charge (waste management charge) and the application of a municipal charge (all described later in this Recommendation), which amount is calculated as follows;

General Rates (including Recreational Lands & supplementary rates)	\$30,140,000
Annual Service Charge (waste management charge)	\$6,421,000
Municipal Charge	\$4,875,000
Total	\$41,436,000

## 3. THAT A GENERAL RATE BE DECLARED

- a) In respect of the Financial Year, being for the period 1 July 2020 to 30 June 2021.
- b) That it be further declared pursuant to Sections 158, 158A and 161 of the Act that the general rate be raised by the application of differential rates having regard to the objectives of each differential rate and characteristics of the land which are the criteria for declaring each differential rate as set out in the Proposed Budget report 2020/2021 of the Meeting of Council of 4 May 2020.
- c) That it be confirmed that the differential rates for all rateable land within the municipal district be determined by multiplying "Capital Improved Value" of each rateable land by a percentage specified as the percentage of each uniform rate (which percent may be alternatively expressed as cents in the dollar of the Capital Improved Value):

Type of Rate	Rate in the Dollar on Capital Improved Value
Industrial Land Rate	0.006200
Vacant Land Rate	0.006163
Commercial Land Rate	0.006641
Industrial 2 Land Rate	0.004830
Other Land Rate	0.003728
Farm Land Rate	0.002352
Recreation Land Category 1	\$23,438.73
Recreation Land Category 2	0.003623

## 4. THAT A MUNICIPAL CHARGE BE LEVIED

- a) Pursuant to Section 159 of the Act, a Municipal Charge be declared to cover some of the administrative costs of Council;
- b) The Municipal Charge be in the sum of \$277.13 per rateable land.
- 5. THAT AN ANNUAL SERVICE CHARGE (WASTE MANAGEMENT CHARGE) BE LEVIED
  - a) Pursuant to Section 162(1)(b) and Section 221(1)(b) of the Act, an Annual Service Charge in respect of rateable and non-rateable land (excluding vacant land, being land on which no buildings are erected) be declared in respect of the 2020/2021 Financial Year.
  - b) That the Annual Service Charge be declared

That this Charge be referred to as the "Waste Management Charge".

c) That the Annual Service Charge be based on \$379.09 per assessment.

## 6. THAT CULTURAL AND RECREATIONAL LAND BE LEVIED

In accordance with Section 4(1)(3) of the Cultural and Recreational Lands Act 1963, the amounts payable in respect of recreational lands under this act shall be in accordance with Appendix A of the Proposed Budget report 2020/2021.

## 7. THAT NO REBATES BE GRANTED

In respect of the 2020/2021 Rates and Charges.

## 8. THAT NO INCENTIVES BE OFFERED

Or declared for early payment of the general rates, annual service charge and municipal charge for 2020/2021.

## 9. THAT ALL CONSEQUENTIAL MATTERS

a) That may be recorded that Council requires any person to pay interest on any amounts or rates and charges which: that person is liable to pay; and,

have not been paid by the date specified for their payment.

- b) The interest rate fixed under Section 2 of the Penalty Interest Rates Act 1983 be noted as the rate set out in accordance with Section 172(2) of the Act.
- c) That the Director Corporate Strategies be authorised to levy and recover or defer the general rates, annual service charge, municipal charge and amounts payable under the Act and the Cultural and Recreational Lands Act 1963.

## BACKGROUND

At the Ordinary Council Meeting held on 4 May 2020, Council considered the 2020/2021 Proposed Budget and resolved to give public notice of the Proposed Budget and call for written submissions in accordance with Sections 129 and 223 of the Local Government Act 1989.

- a) Public notice was published in the Warrnambool Standard on Wednesday 6 May 2020. A number of articles appeared in the Warrnambool Standard focusing on the Proposed Budget 2020/2021 and the Proposed Budget was posted on Council's website and copies made available at the Civic Centre Customer Services desk.
- b) The 2020/2021 Budget is attached refer **Attachment 1**.

## SUBMISSIONS

Several submissions were lodged in response to the Proposed Budget 2020/2021.

They were lodged within the allocated timeframe and are discussed below for Council's consideration at this briefing. A written response will be provided to each submitter.

## SMALL INFRASTUCTURE FUND

A number of the submissions are suitable for referral to the Councils Community Small Infrastructure Fund. These will be reviewed through the Recreation Assets Working Group and presented back to Council for further consideration and potential adoption at an Ordinary Council Meeting in the future.

The preparation of the Annual Budget is an extensive process and incorporates the following budget principles:

- Council plan vision and objectives to be key strategic driver in resource allocation decisions.
- Service levels to be maintained at prior year levels where practicable.
- Retain existing levels of subsidy for user fees where practicable. (Excluding field sports users).
- Maintain and renew existing assets in accordance with Council's Asset Management Policy.
- Real savings and efficiencies to be identified and preserved wherever possible.
- Focus on advancing the liveability of Warrnambool.
- New Projects do not become recurrent items unless endorsed by Council.

Council uses the "Model Budget" format which was initiated by representatives of FinPro (local government finance professionals), Institute of Chartered Accountants, LGPro and the MAV. The Model Budget is the local government best practice guide, and is now mandated to ensure:

- All statutory requirements relating to budget preparation have been met.
- Budget preparation and reporting are at best practice standards.
- The budget has been developed in utilising an integrated strategic planning framework.

The Model Budget format is required to be used by all 79 Victorian councils and promotes consistency of budget reporting, enables comparison of budget information between councils and achieves a high level compliance with accounting standards.

Budget documents are complex and Councils financial statements which are prepared at the end of a financial year use the Budget as a starting base for comparison.

This is the final budget process that is governed by Sections 127, 129 and 130 of the Local Government Act 1989 which requires:

- Preparation of an annual budget containing prescribed information.
- Public notification of the prepared budget giving persons the right to make submissions.
- Adoption of the budget, with or without amendment, and public notification of same.
- Lodgement of the budget with the Minister for Local Government.

## LEGISLATION/POLICY/COUNCIL PLAN CONTEXT

## 5 Practice good governance through openness and accountability

5.2 Annual Budget

## **COMMUNITY IMPACT/CONSULTATION**

The budget process has again been an extensive review process that commenced in 2019 and has included:

- Review of the Capital Works & Projects evaluation criteria.
- Review and evaluation of submitted major capital works and projects budget bids.
- Adoption of budget principles.
- Councilor workshops to review proposed budget.
- Call for public submission to the proposed budget.

The budget considerations have concentrated on and responded to the Covid-19 Pandemic and has looked to ensure that Warrnambool is well placed to respond to emerging budget pressures.

The budget is also informed by the variety of projects and working groups that consider and refer items to budget from across the preceding year. The majority of these submissions are informed from strategic plans worked on by service areas in conjunction with extensive community consultation as to future service needs.

## Response to budget submissions

SUBMISSION	RESPONSE		
Submission 1 - John O'Brien – Japanese Gardens Is there provision for capital spending on the Japanese garden. In particular, access from Grieve St via the path that goes between the quarry and Wannon Water, solar power to the garden, water to the garden, signage to the garden from Grieve St? These are needed to make the garden more accessible and more attractive to the public.	Council has not directly allocated funding in the budget for capital improvements at the Japanese Gardens. However, this project is within the scope of the Community Small Infrastructure Fund which does have an unallocated budget component and will be considered by Councillors for funding in 2020-2021.		
Submission 2 - Lyn Burns – Lighting Upgrade between Heatherlie and the Uniting Church The angle parks used by our Heatherlie residents between Heatherlie and the Uniting Church, off Koroit St, are poorly lit, creating a safety issue for residents either going out or returning home in the dark	Council has not directly allocated funding for lighting upgrades between Heatherlie House and the Uniting Church. However, this project is within the scope of the Community Small Infrastructure Fund which does have an unallocated budget component and will be considered by Councillors for funding in 2020-2021.		
Submission 3 – AFL Western District League Fees and charges place a burden on clubs which seek business sponsorship to cover costs. Increased fees proposed by Council do not support the Council objective to "foster a healthy, welcoming city that is socially and culturally rich".	In 2017 Council reviewed seasonal fees for sports grounds users in order to recoup some of the cost of maintaining grounds. Council has 16 grounds to maintain for Australian Rules Football and recoups from clubs less than 25% of costs. Council is also looking to create a more equitable system of sports facility subsidies. Council has already waived fees for winter sports in response to COVID-19. Council will review summer season fees at the appropriate time. Council remains committed to supporting all sports however is unable to provide further support for Australian Rules football at this stage. There are a range of Victorian Government sports funding initiatives to which football clubs can apply.		
	In determining the subsidies that Council applies to its services – including sports grounds and facilities - consideration must be given to all Council objectives including to "Practice good governance through openness and accountability while balancing aspirations with sound financial management".		
Warrnambool Ratepayers Association Proposal - a rate freeze for all properties which would cost \$738,000.	The impact of a one-year rate freeze to all properties has a cumulative impact to the long-term financial position of Council. Over a 10-year period, the impact of a one-off rates freeze would reduce Council's income over the 10-year period by \$7.8m. This would have a significant impact on Council's ability to continue delivering services to the community into the future and maintaining and upgrading community assets.		
	Council has encouraged people to seek rate relief through hardship provisions which exist to assist those experiencing financial difficulties.		

Warrnambool Ratepayers Association	The proposed fees and charges scheduled for 2020-2021 are balanced around cost recovery and subsidy principles which
Proposal - waive all shop and community fees which would cost \$285,000.	seek to maintain current service levels. There are instances where fees are increasing by CPI or in some instances above CPI where cost recovery or commercial situations allow. A number of fees are not increasing.
	In its submission to the Essential Services Commission seeking a rate cap variation Council's case was predicated on using multiple levers to address the asset renewal shortfall. These levers included cost efficiencies, new revenue streams, borrowings and cost recovery through user fees and charges where possible.
Warrnambool Ratepayers Association Proposal - defer the Learning and Library Hub project by one year to save \$5.5 million and \$500,000 in operating costs.	Council has obligations under the joint agreement with South West TAFE and Department of Education to deliver the project within an agreed timeline. Council has also entered into an agreement with the Department of Treasury and Finance to obtain a low interest loan which contains terms and conditions around the timing of the project.
Has provision been made for additional parking at the new library?	The borrowing of funds is supported by Council's Borrowing Strategy with one of the principles being:
	• Borrow for major infrastructure projects which have long useful lives thereby applying equity of burden across ratepayers of different generations who would enjoy the benefits of the asset.
	Council successfully applied through the Community Infrastructure Loan Scheme (CILS) which enables Council to borrow funds at a lower than market rate through the Victorian Department of Treasury and Finance. Additionally, the low interest rate is reduced by 50% through the CILS. It is projected that this will save Council approximately \$280,000 over the 10- year life of the loan.
	The assumption that deferring the Library project would save Council \$5.5 million in borrowed funds and \$500,000 in operating costs is inaccurate. Council is planning to borrow \$1.25 million for this project in the 2020-2021 budget. The timing of the borrowings would be towards the end of the financial year, so the total savings in the 2020-2021 budget were the project deferred would be \$32,000.
	Delaying the construction of the Learning and Library Hub would adversely impact the overall cost of the project. The contractors would add cost escalations in line with the building construction index and as the income for this project is fixed (Victorian Government funding), to defer would create budgetary pressures in completing the project within the current scope.
	Construction of the new Learning and Library Hub will serve as an economic stimulus. Delaying the project would have an adverse impact on the local economy. This will be a major construction project in Warrnambool and provide employment opportunities for local industries. It is estimated that the project will create 14 ongoing jobs, 46 direct construction jobs and 83 indirect jobs (Remplan business case).
	Parking is being considered as part of the new library plan. It is worth noting that there is public car parking to the south of the TAFE including an additional car park in the railway precinct, opened in late 2018, with 179 spaces.

Warrnambool Ratepayers Association Proposal - provide free parking at a cost of \$1.4 million.	Parking is currently a user pays system. Eliminating paid parking reduces Council's capacity to manage and improve car parking in the city and means that the cost of car parking enforcement is paid by all residents.
Warrnambool Ratepayers Association Proposal - Reid Oval Redevelopment – complete the playing surface and lighting and defer construction of new change rooms, club rooms. This would save \$3 million in borrowings and leave	Council has obligations under the grant agreement with the Victorian Government to deliver the project within an agreed timeline. Council has also entered into an agreement with the Department of Treasury and Finance to obtain a low interest loan which contains terms and conditions around the timing of the project.
\$1.6 million in the Budget for stimulus measures.	The borrowing of funds is supported by Council's Borrowing Strategy with one of the principles being:
	• Borrow for major infrastructure projects which have long useful lives thereby applying equity of burden across ratepayers of different generations who would enjoy the benefits of the asset.
	Council successfully applied through the Community Sports Infrastructure Loans Scheme (CSILS) which enables Council to borrow funds at a lower than market rate through the Department of Treasury and Finance. Additionally, the low interest rate is reduced by 50% through the CSILS. It is estimated that this will save Council approximately \$335,000 over the 10-year life of the loan.
	In your submission, you state that by deferring the project Council could save \$3m in borrowings and leave \$1.6m as allocated in the budget for further stimulus measures. Council is intending to borrow the funds towards the back end of the financial year. By delaying the works and the matching borrowings, Council would save \$78k in the 2020/21 budget. By delaying the construction of the Reid Oval development this will impact the overall cost of the project. The contractors will add cost escalations in line with the building construction index and as the income for this project is fixed (ie. State Government Grant funding), this will present budgetary pressures in completing the project within the current scope.
	Delaying the project will also impact the local economy as this will be a major construction project in Warrnambool and provide employment opportunities for local industries. It is estimated that the project will create 37 direct construction jobs and ongoing employment of 27 (source: Reid Oval development business case). Over a 25-year period, the cumulative economic value added will total \$81.6m.
	It is unlikely the Victorian Government would provide additional funding for the Reid Oval project beyond the \$7 million in announced in 2018.
	The delaying of the Reid Oval redevelopment and the Learning and Library Hub would save a combined \$110,000 in the 2020-2021 year.
	Ultimately, these proposed steps are likely to present Council with additional costs in future years or require a reduction in the scope of these projects due to the cost escalations caused by a deferral.
	Similarly, the stimulus measures set out by the Warrnambool Ratepayers Association would come at a significant cost to

Proposal - wait 12 months and get \$1 million in extra funding for sports infrastructure.	Council for many years to come with a rate freeze alone having \$7.8m impact to Council's revenue over a 10-year period.
Warrnambool Ratepayers Association Proposal - cut senior management wages to save \$150,000.	Council has a number of vacant positions at the management level. A decision has been made to delay the appointment of these positions to align with the Organisational Review. This has also led to savings in salaries that will assist in meeting the shortfall that has been caused by the COVID-19 pandemic.
Warrnambool Ratepayers Association Proposal - allocate \$450,000 towards business support grant program.	<ul> <li>Council has budgeted a \$1.95m stimulus package in the 2020/21 budget which includes:</li> <li>Rent and Lease Assistance</li> <li>Permit Fee Assistance</li> <li>Eco Dev – extensive Business Support Plan including: <ol> <li>Concierge as well as contacting businesses</li> <li>Get Around Warrnambool Campaign</li> <li>Marketing and Mentor Assistance</li> <li>Consultation and planning for when restrictions lift</li> </ol> </li> </ul>
	<ol> <li>5. Business Initiative Grants (BIG) program</li> <li>6. Better Approvals Project</li> <li>7. Planning Approvals</li> <li>8. Mentoring and support</li> <li>9. Consultation with the business community</li> </ol>
	<ul> <li>Business Initiatives Grants (BIG) Program</li> <li>Guidelines ensure that grant money is then spent locally creating knock on effect further supporting further businesses in the city.</li> <li>Small application window is so we can start getting money into businesses asap to get their grants started</li> <li>Apart from gathering the businesses details the application form consists of four questions including a proposed budget. (Tell us about your business. Tell us how you have been impacted by COVID-19. Tell us your new project. Project budget.)</li> </ul>
	Council has fielded many inquiries about the Business Initiatives Grants program and expects the grant funding to be fully subscribed.
Warrnambool Ratepayers Association Comment - subsidising the operation of Flagstaff Hill Maritime Village is a waste	This Flagstaff Hill precinct includes the Visitor Information Centre which services in excess of 100,000 visitors annually to our city. A further 50,000-plus visitors enter the Flagstaff Hill Maritime
of money	Village each year to experience the day Maritime Village and Museum and the Evening Sound and Light Show 364 days per year (pre-pandemic).
	It is important to note that the financial line in Council's 2020- 2021 Draft Budget to which the WRA submission refers includes the operating cost of both the maritime village and Visitor Information Centre.
	These services play an important part in the growth objectives of our City's Visitor Economy:
	<ul> <li>promoting and creating tourism product;</li> <li>increasing visitor yield and overnight stays (length of stay and expenditure, including a tourism product to give visitors an offering in the evening);</li> <li>increasing visitor dispersal (geographically and seasonally);</li> <li>increasing visitor satisfaction; and</li> </ul>
	<ul> <li>Increasing visitor satisfaction; and</li> <li>increasing the capacity and capability of our Tourism industry.</li> </ul>

	Many of Warrnambool's visitor economy businesses benefit from the presence of the Flagstaff Hill attraction: accommodation providers, retailers, cafes, food and hospitality businesses, arts, cultural and recreation offerings.
	The co-location of the village and Visitor Information Centre creates staffing efficiencies with employees shared across both services.
	A stand-alone Visitor Information Centre situated elsewhere would come at a considerably larger financial cost than the existing arrangements.
	The precinct also benefits from a large pool of community volunteers who help deliver positive visitor experiences. The volunteers tirelessly and selflessly give time, skills and talents to promote Warrnambool without fanfare and expectation of reward.
	Council regularly undertakes strategic planning work across its 90-plus services to identify opportunities for operational efficiencies and revenue generation. Such work has been undertaken for the Flagstaff Hill precinct and continues to occur in consultation with key stakeholders including the landowner – the Victorian Government – and relevant departments including the Department of Environment, Land, Water and Planning, Regional Development Victoria, Traditional Owners and Great Ocean Road Regional Tourism.
	In terms of the broader Visitor Economy offering in our City, one of the challenges identified by the Great Ocean Road Regional Tourism Board is the lack of new tourism product across the region to further increase yield, overnight stays and dispersion across the region. The development of new products and services by the private sector is critical to servicing existing visitor and local communities and is imperative to changing consumer behaviour. Council continues to invest resources in the planning and development requirements that must be addressed to stimulate the private sector environment that will drive the required changes in visitor consumption patterns. Holistic planning needs to identify appropriate land and preferred development opportunities that facilitate proactive methods of sourcing desired private sector investment. Council acknowledges this work takes time, is often complex, and involves many stakeholders but is occurring for the long-term sustainable growth of the Warnambool Visitor Economy.
Warrnambool Ratepayers Association Comment - disappointing that Council plans to break the rate cap again within two years.	Council successfully applied for a multi-year rate cap variation to the Essential Service Commission (ESC) which covered the 2020-2021 financial year. Council has decided not to apply this rate cap variation to the budget; however, the underlying issues of asset renewal still remain. The assessment from the ESC and Deloittes was that a two-year rate cap variation was appropriate to assist in addressing the asset renewal backlog
	addressing the asset renewal backlog. One of the assessment criteria from the ESC is that there must be evidence of a proposed rate cap variation in strategic reports such as the Strategic Resource Plan.
	It is important to note that this would need to be the decision of a Council at the time as to whether it wished to seek a rate cap variation.

Submission 5 - Victorian Farmers Federation Ensure fair and equitable rates for farming properties and as the value of farm land increases the differential rate in the dollar applied to farming properties should decrease.	The rate in the dollar on farming properties in the Warrnambool municipality is comparable to other municipalities and would be determined as a fair contribution as a differential rate compared to other property types.
Submission 6 - D&C Thompson – Livestock Exchange Roof Why is Council borrowing money for this roof when the expense has been fully paid for by farmers and agents	Council successfully applied for grant funding to support construction of a roof at the South West Victoria Livestock Exchange (SWVLX). Council will not be required to borrow funds to complete this project.
through levies? The yard fees increased by \$2 per head of cattle sold in 2010 which was to fund capital improvements.	Yard fees have risen over time to cover capital costs and since 2010 Council has invested over \$1.6m into the facility. The saleyards are a commercial, for-profit operation.
Submission 7 – Community Clubs Victoria Provide rate relief for not-for-profit clubs for at least six months.	Council has waived fees or postponed rates for many local sports clubs in response to the COVID-19 situation and continues to provide support on a case by case basis. There are also a range of state government funding initiatives currently directed at sports that Council officers are encouraging and supporting clubs to apply for.
Submission 8 – Lisa McLeod Has money been set aside to review and develop critical and mandatory plans including the next Council Plan and Municipal Public Health and Wellbeing Plan?	An allocation has been made for the development of these plans which will include a deliberative consultation process.

## **OFFICERS' DECLARATION OF INTEREST**

No declaration.

## CONCLUSION

Council has worked through an extensive process and provided opportunity for the community to comment as part of developing the Council Budget for 2020/2021.

Council is required to adopt a Budget for 2020/2021 and lodge with the Minister for Local Government.

Financial Performance Indicators	50
Schedule of fees and charges	52

#### Introduction

Warrnambool City Council, along with the rest of the world, is preparing for a future of unprecedented uncertainty, this is reflected in the preparation of our 2020-2021 Budget.

The Local Government Act requires that Council prepare a Budget for each financial year and to undertake a formal process of preparing, advertising and calling for submissions before a finalised Budget is formally adopted by Council by June 30 each year. In acknowledgement of the extraordinary circumstances Councils have been allowed to extend this adoption to August 31, 2020.

Whilst understanding the fiscal damage this pandemic has wreaked on our local economy we must prepare and act for a Covid-19-free future. We must create a budget that allows for the downturn in service but that seeks to both stimulate and support our municipality into the future.

The draft Budget remains aligned to the vision in the Council Plan 2017-2021 and to the objectives in the long-term community plan, Warrnambool 2040. This Budget acknowledges the impact of the pandemic on our provision of services to the community and seeks to balance the reality of our current circumstances with a need to still maintain services and infrastructure as well as deliver projects and services that are needed and valued by our community.

We recommend that the Budget is read in conjunction with the Council Plan and we encourage you to provide feedback to Council on the draft Budget.

The vision for the four-year life of the Council Plan is for Warrnambool to be a Cosmopolitan City by the Sea. To support the vision Council developed the following five key objectives:

- 1. Sustain, enhance and protect the natural environment
- 2. Foster a healthy, welcoming city that is socially and culturally rich
- 3. Maintain and improve the physical places and visual appeal of the city
- 4. Develop a smarter economy with diverse and sustainable employment
- 5. Practice good governance through openness and accountability while balancing aspirations with sound financial management

These objectives align with the four key long-term visions contained within the community plan, Warrnambool 2040.

The four visions are:

- 1. People: in 2040 Warrnambool will be a city where all people thrive.
- 2. Environment: in 2040 Warrnambool will be most sustainable regional city in Australia.
- 3. Place: in 2040 Warrnambool will be Australia's most liveable regional city.
- 4. Economy: in 2040 Warrnambool will be Australia's most resilient and thriving regional economy.

The draft budget details the resources required over the next financial year to fund the services that remain operating that we provide to our community of 35,000 residents.

These services range from those which are about directly caring for people through facilities and programs including kindergartens, childcare centres, and home support services, to services which maintain or enhance our environment and surroundings including waste collection and our roads and footpath management maintenance.

The budget also includes details of a balanced program of capital expenditure including allocations to improve and renew our City's physical infrastructure, buildings and operational assets. We will use these capital projects to stimulate local employment and purchasing and leverage opportunities of funding from all levels of government to deliver for the future needs of our community.

Council's budget reflects a significant cut in services directly affected by the Pandemic and sadly encompasses stand downs to many valuable staff until we are able to reopen these services. These staff continue to be an important part of our future for Warrnambool's community.

Over 2020-2021, the Council will develop and utilise its existing resources and a community and business stimulus\recovery fund to develop and deliver initiatives to see our community regrow at the other side of this pandemic.

The allocation in 2020-2021 for community and business support in the wake of the coronavirus pandemic is \$1.951 million.

This figure is inclusive of an unallocated \$450,000 of community and business support funds and the focussing of existing resources to community and business stimulus and recovery efforts.

The community and business support component of the budget for 2020/21 includes the provision of the following resources of Council to be focused on our recovery and stimulus efforts for the community:

- Community and Business Support and Stimulus Fund \$450,000
- Small Infrastructure Fund 2020/21 \$891,000
- Economic development unit \$545,000
- Community development grants \$65,000

Council will review these efforts during the year and set a revised budget if required to best meet the needs of our local community and business. Council will roll out its recovery efforts in stages to determine where the areas of greatest need exist, filling gaps and leveraging on the efforts of all levels of government to maximise our recovery efforts for the community.

The budget includes a rate increase of 2.0 per cent, reduced from the 4.5% allowed for by the Essential Services Commission for this year. It also includes a reduction in the waste management charge meaning on the average property values rates and charges next year's forecast increase will be 1.2%.

Council will continue to advocate for support from other levels of government to improve the economic outlook for the municipality particularly in looking to attract stimulus funding at the end of this crisis and to ensure the impact on the region is recognised and information on support services to businesses and individuals is disseminated.

Council has proposed a substantial capital works program with an emphasis on asset renewal. We have allocated funding of \$18.5 million for asset renewals, upgrades and expansions.

Capital works highlights:

• Road renewals - \$3.8 million

- Completion of the Lake Pertobe Master Plan implementation (Stage I) \$2.9 million
- Completion of the Reid Oval \$11 million
- Library and Learning Centre \$1.3m
- Energy saving initiatives \$1 million
- Community Support Fund \$810,000
- Beach access renewal \$180,000

As part of Warrnambool's response to the global recycling issues, Council has implemented FOGO, a trial of kerbside glass collection and glass collection points. This is reducing Council's risk exposure to the recycling market. These measures are also helping Council to drive down the cost of the waste management fee. It is proposed to by 2.79% or \$11 per property to \$379.09.

This budget sees the average residential rate bill increase to \$2,053 from \$2,029 in 2019-20.

	2019-2020	Increase/(decrease)	2020-2021	% increase/decrease
Average residential rates	\$1,367	\$29	\$1,397	2.0%
Municipal charge	\$272	\$6	\$277	2.0%
Waste management fee	\$390	(\$11)	\$379	(2.8%)
Average residential rates and charges	\$2,029	\$23	\$2,053	1.2%

This Budget projects an underlying deficit of \$1.5 million for 2020/21 after adjusting for capital grants and contributions.

The main contribution to this underlying deficit is a reduction in the operating income form impacted services.

The underlying deficit is projected to be offset by the deferral of non-essential or non-strategic elements of our capital program.

#### Key figures

Total revenue: \$76.6 million (2019-20 forecast = \$86.6 million) Total expenditure: \$73.4 million (2019-20 forecast = \$78.4 million) Accounting surplus/(deficit): \$3.2 million (2019-20 forecast = \$8.2 million)

Underlying operating result: deficit of \$1.9 million (2019-20 forecast = Deficit of \$1.4 million)

(Refer Income Statement in Section 3.1)

(Note: Underlying operating result is an important measure of financial sustainability as it excludes income which is to be used for capital, from being allocated to cover operating expenses) This is the pet funding result after considering the funding requirements to meet loop principal repayments

This is the net funding result after considering the funding requirements to meet loan principal repayments and the reserve transfers.

Total Capital Works Program of \$18.5 million (2019-20 forecast = \$25.4 million)

- \$10.4 million from Council operations and reserves
- \$4.7 million from borrowings
- \$3.3 million from grants
- \$0.04 million from contributions

(Refer Statement of Statement of Capital Works in Section 3.5)

#### **Budget influences**

The preparation of this year's budget is primarily a response influenced by the advent of the Corona Virus Covid-19 Pandemic and the associated impacts to services and the community.

Council continues to balance the needs of the community and financial sustainability. Pressure to maintain infrastructure and maintain service levels constantly challenges the organisation to find more efficient and innovative methods to deliver services.

Councils across Australia raise approximately 3.5% of the total taxation collected by all levels of Government in Australia. In addition Councils are entrusted with the maintenance of more than 30% of the all Australian public assets including roads, bridges, parks, footpaths and public buildings. This means that a large proportion of Council's income must be allocated to the maintenance and replacement of these valuable public assets in order to ensure the quality of public infrastructure is maintained at satisfactory levels.

Cr Tony Herbert Mayor

Peter Schneider Chief Executive Officer

#### Link to the Council Plan

This section describes how the Annual Budget links to the achievement of the Council Plan within an overall planning and reporting framework. This framework guides the Council in identifying community needs and aspirations over the long term, medium term (Council Plan) and short term (Annual Budget) and then holding itself accountable (Annual Report).

#### Legislative Planning and accountability framework

The Strategic Resource Plan, part of and prepared in conjunction with the Council Plan, is a rolling fouryear plan that outlines the financial and non-financial resources that Council requires to achieve the strategic objectives described in the Council Plan. The Annual Budget is framed within the Strategic Resource Plan, considering the services and initiatives which contribute to achieving the strategic objectives specified in the Council Plan. The diagram below depicts the planning and accountability framework that applies to local government in Victoria.

Source: Department of Environment, Land, Water and Planning

Feeding in to the above, Council has a long term plan which articulates a community vision, mission and values. The Council Plan is prepared with reference to Council's long term Community Plan.

The timing of each component of the planning framework is critical to the successful achievement of the planned outcomes.

#### Key planning considerations

#### Service level planning

Although councils have a legal obligation to provide some services— such as animal management, local roads, food safety and statutory planning—most council services are not legally mandated, including some services closely associated with councils, such as libraries, building permits and sporting facilities. Further, over time, the needs and expectations of communities can change. Therefore councils need to have robust processes for service planning and review to ensure all services continue to provide value for money and are in line with community expectations. In doing so, councils should engage with communities to determine how to prioritise resources and balance service provision against other responsibilities such as asset maintenance and capital works.

#### Our purpose

Our Vision is for Warrnambool to be a Cosmopolitan City by the Sea.

A city that is open, welcoming, inclusive and diverse.

#### **Organisational values**

#### Accountability

We will be responsible and take ownership for our actions and decisions by being ethical, honest and transparent.

#### Collaboration

We will foster effective relationships through engagement, communication and cooperation; support in decisions and outcomes for the benefit of all.

#### Respectfulness

We will treat everyone with dignity, fairness and empathy; providing them with the opportunity to share views and to be heard.

#### Progressiveness

We will evolve and grow by encouraging development, change and continuous improvement in everything that we do.

#### Wellbeing

We will commit to providing a safe and healthy workplace that promotes staff engagement, performance and achievement allowing all employees to flourish for the benefit of themselves and the organisation.

#### Strategic objectives

Council has established five strategic objectives to deliver the vision of the Council Plan.

They are:

#### 1 Sustain, enhance and protect the natural environment

Council will work to protect our coast and waterways, preparing for climate change, minimising waste and encouraging environmentally sustainable business

#### 2 Foster a healthy, welcoming city that is socially and culturally rich

Council will encourage people to be healthy and well, to engage in learning, to be involved in cultural activities, to be connected and participating in the community, to be resilient in emergencies and maintaining a city that is a healthy and safe place to live and study.

#### 3 Maintain and improve the physical places and visual appeal of the city

Council will create more physical connections throughout the city, building more fit-for-purpose infrastructure, creating greater amenity and ease of movement and being proud of what we have within our municipality.

#### 4 Develop a smarter economy with diverse and sustainable employment

Council will foster population growth, a sustainable local economy, a more beneficial visitor economy and more modern infrastructure.

# 5 Practice good governance through openness and accountability while balancing aspirations with sound financial management

Council will advocate for the community and region; it will practice transparent decision-making while delivering services efficiently and effectively.

#### 2. Services and service performance indicators

This section provides a description of the services and initiatives to be funded in the Budget for the 2020/21 year and how these will contribute to achieving the strategic objectives outlined in the Council Plan. It also describes several initiatives and service performance outcome indicators for key areas of Council's operations. Council is required by legislation to identify major initiatives, initiatives and service performance outcome indicators in the Budget and report against them in their Annual Report to support transparency and accountability.

The relationship between these accountability requirements in the Council Plan, the Budget and the Annual Report is shown below.

Source: Department of Environment, Land, Water and Planning

#### Strategic Objective 1: Sustain, enhance and protect the natural environment

Warrnambool occupies a unique position as Victoria's largest coastal city outside Port Phillip Bay. Geographically the city is perched on gentle hills and flats by the stunning Lady Bay and between two important South West rivers, the Hopkins and the Merri.

Dunes along Lady Bay have been revegetated over the years by willing volunteers while similar efforts have been made to revegetate the banks of the Merri River to restore health to this waterway which is home to a growing number of platypus.

Each year thousands of people walk along a sealed promenade that meanders through the dunes the length of Lady Bay.

Warrnambool is renowned for using maremma dogs to protect a colony of Little Penguins which were nearly wiped out through predation by foxes. From a population of fewer than 10 penguins the number has recovered to more than 150.

Beyond Lady Bay and its famous Breakwater lies the Southern Ocean. A large section of water off the Breakwater lies within a marine park, which protects the marine flora and fauna.

Strategies to achieve Strategic Objective 1 are:

- 1.1 Protect and enhance our waterways, coast and land
- 1.2 Commit to being a carbon neutral organisation by 2040
- 1.3 Assess our climate change preparedness
- 1.4 Review options for managing waste
- 1.5 Educate and partner with the community on Council's sustainability initiatives

The service categories to deliver these key strategic objectives are described below.

#### Services

Service area	Description of services provided		2018/19 Actual \$'000	2019/20 Forecast \$'000	2020/21 Budget \$'000

Waste collection	Service cost	\$59.15	\$53.99	\$53.99
Waste collection	Waste diversion	47.78%	49.46%	49.46%

\* refer to table at end of section 2.5 for information on the calculation of Service Performance Outcome Indicators

#### 2.2 Strategic objective 2: Foster a healthy, welcoming city that is socially and culturally rich

A stroll through Warrnambool's streets reveals some excellent street art, much of which has been added in the past decade. The street art reflects a growing arts and culture scene in Warrnambool. Along with wellestablished institutions such as the Council-owned Warrnambool Art Gallery and Lighthouse Theatre there are private art galleries and an influential artists' co-operative, the F Project.

Moyjil-Point Ritchie, at the mouth of the Hopkins River, contains evidence of human activity dating from at least 40,000 years ago and possibly much earlier. Acknowledgement of the area's rich indigenous history and increasing the opportunities to recognise Warrnambool's first people are important for Council. Warrnambool is a university city, providing opportunities for students to come to the city from outside the region to study – and for the region's young people to obtain a qualification closer to home.

While the health and wellbeing of Warrnambool's residents fares well on some measures (e.g. rates of physical activity, volunteering and access to open space), like every community, there are issues which require continued effort (e.g. educational attainment, family violence). Council's health and wellbeing plan details the priorities for action and sets the following objectives:

- Promote healthy lifestyles
- · Seek equity, access, safety and inclusion for all
- · Improve access to economic resources

Recreation is a significant part of the Warrnambool lifestyle and the city's residents embrace many sporting pursuits. A range of sports can be played competitively in the city and there are also opportunities for people to be physically active in a non-competitive environment.

Strategies to achieve Objective 2 are:

- 2.1 Promote healthy lifestyles.
- 2.2 Increase participation, connection, equity, access and inclusion.
- 2.3 Increase community health and social connection.
- 2.4 Encourage and support participation in sport, recreation and physical activity.
- 2.5 Encourage and support more lifelong learning.
- 2.6 Engage a broader range of people in cultural activities.
- 2.7 Actively acknowledge of local Aboriginal culture.
- 2.8 Increase participation opportunities for disadvantaged members of the community.

The service categories to deliver these key strategic objectives are described below.

Recreational facilities	Satisfaction	73	72	72

\* refer to table at end of section 2.5 for information on the calculation of Service Performance Outcome Indicators

#### 2.3 Strategic objective 3: Maintain and improve the physical spaces and visual appeal of the city

Warrnambool residents take great pride in the appearance of their city, both the built environment and the open spaces. As key infrastructure is renewed or replaced and as new residential areas become available Council considers the connectedness to facilities such as shops, parks and public transport services. In recent years Council has worked on ensuring better connections for pedestrians and cyclists.

Shared pathways have been constructed along Moore and Koroit streets, pedestrian bridges have been built over Russells Creek along Daltons Road over the Merri River at Wellington Street. Pedestrian bridges at Lake Pertobe have also been progressively replaced and a number of bicycle lanes have been added to streets in the city centre.

Population forecasts and improved geographic and social mapping allow us to plan more effectively for the future. Council is committed to maintaining its road network and to obtain the best possible value through shared contracts and new maintenance techniques. Considerable effort is now focused on the lifetime cost of maintaining an asset through its serviceable life.

Strategies to achieve Objective 3 are:

- 1, Enhance movement in and around the city including better connections for cyclists and pedestrians.
- 2. Create a more vibrant city through activating high quality public places.
- 3. Build infrastructure that best meets current and future community needs.
- 4. Maintain and enhance existing Council infrastructure.
- 5. Advocate for better regional connections.

The service categories to deliver these key strategic objectives are described below."

Service area	Description of services provided		2018/19 Actual \$'000	2019/20 Forecast \$'000	2020/21 Budget \$'000

#### 2.4 Strategic Objective 4: Develop a smarter economy with diverse and sustainable employment

Warrnambool functions as the commercial, health care and educational centre of the South West. The city, which regularly records low unemployment levels, is a key service centre for a prosperous agricultural region that produces a third of the Victoria's dairy product, a third of its beef, a third of its lamb and a quarter of its wool. The city has a population of 34,713 and this figure is forecast to approach 46,762 by 2036.

Warrnambool is a highly liveable coastal regional city with a strong track record of steady and sustained population and economic growth. Warrnambool's ongoing economic challenge is to create employment opportunities in the City to keep pace with population growth. Based on population growth forecasts there will be a need for our city to create more than 4,000 new jobs over the next 20 years.

Challenges remain around the frequency, speed and reliability of rail services between Warrnambool and Melbourne however recent commitments from the Victorian Government have seen the addition of a fifth daily return service.

The Princes Highway West presents similar challenges. The single lane highway requires an upgrade to improve the quality of the road, safety and the speed at which traffic, including freight, can move.

Over the past five years considerable effort has gone in to planning for this increase with large tracts of land rezoned to provide the city with a residential land supply of more than 25 years. Land near the eastern entrance to the city was also rezoned to create a supply of industrial land.

The city offers excellent vocational and tertiary education options. It is home to the main campus of the South West Institute of TAFE and Deakin University's Warrnambool campus, provides opportunities for a unique education experience with a university ranked in the top two per cent of the world's universities.

The educational and employment opportunities within Warrnambool present opportunities to retain and attract a diverse mix of people to the city to ensure it remains vibrant and cosmopolitan.

Strategies to achieve Objective 4 are:

- 1. Grow the city's population through local economic growth.
- 2. Encourage more sustainable local business.
- 3. Enhance the visitor experience.
- 4. Advocate for an improve infrastructure including transport, services and digital infrastructure.
- 5. Create stronger links between education providers, business and industry.
- The service categories to deliver these key strategic objectives are described below."

## 2.5 Strategic objective 5: Practice good governance through openness and accountability while balancing aspirations with sound financial management

Council will provide strong advocacy for the community and region. It will practice transparent decisionmaking while delivering services efficiently and effectively. In delivering good governance Council has an opportunity to share with the community the challenges for future service planning and provision though increased engagement with the broader community.

Greater communication with the community also helps build community understanding of Council's role and provides insights into how engagement has helped inform decision-making.

Strategies to achieve Objective 5 are:

1. Provision of opportunities for the community to actively participate in Council's decision-making through effective promotion, communication and engagement.

2. Develop policies, strategic plans and processes to address local and regional issues, guide service provision and ensure operational effectiveness.

3. Ensure financial sustainability through effective use of Council's resources and assets and prudent management of risk.

4. Deliver customer-focused, responsive services.

5. Foster an encouraging and positive staff culture.

The service categories to deliver these key strategic objectives are described below.

# 3. Financial Statements

This section presents information in regard to the Financial Statements and Statement of Human Resources. The budget information for the year 2020/21 has been supplemented with projections to 2023/24 extracted from the Strategic Resource Plan.

This section includes the following financial statements prepared in accordance with the Local Government Act 1989 and the Local Government (Planning and Reporting) regulations 2014.

Comprehensive Income Statement Balance Sheet Statement of Changes in Equity Statement of Cash Flows Statement of Capital Works Statement of Human Resources

Pending Accounting Standards

The 2020-21 budget has been prepared based on the accounting standards applicable at the date of preparation. It has been updated to include the impact of AASB 16 Leases, AASB 15 Revenue from Contracts with Customers and AASB 1058 Income of Not-for-Profit Entities, but pending accounting standards that will be in effect from the 2020-21 financial year have not been considered in the development of the budget.

Standards that are likely to impact on the 2020-21 financial statements, not considered in the preparation of the budget include:

AASB 1059 Service Concession Arrangements: Grantors

Total staff	361				

#### 4. Notes to the financial statements

This section presents detailed information on material components of the financial statements. Council needs to assess which components are material, considering the dollar amounts and nature of these components.

4.1 Comprehensive Income Statement

4.1.1 Rates and charges

"Rates and charges are required by the Act and the Regulations to be disclosed in Council's annual budget.

In developing the Strategic Resource Plan, rates and charges were identified as an important source of revenue. Planning for future rate increases has therefore been an important component of the Strategic Resource Planning process. The Fair Go Rates System (FGRS) sets out the maximum amount councils may increase rates in a year. For 2020/21 the FGRS cap has been set at 2.0%. The cap applies to both general rates and municipal charges and is calculated on the basis of council's average rates and charges.

The level of required rates and charges has been considered in this context, with reference to Council's other sources of income and the planned expenditure on services and works to be undertaken for the community.

To achieve these objectives while maintaining service levels and a strong capital expenditure program, the average general rate and the municipal charge will increase by 2.0% in line with the rate cap.

<Insert other rate increases as applicable>.

This will raise total rates and charges for 2020/21 of \$41.52 million.

4.1.1(a) The reconciliation of the total rates and charges to the Comprehensive Income Statement is as follows:

	2019/20 Forecast Actual	2020/21 Budget	Change	%
	\$'000	\$'000	\$'000	
General rates*	29,235	29,932	697	2.38%
Municipal charge*	4,743	4,875	132	2.78%

Total Rates and charges	40,717	41,521	804	1.97%

# 4.1.1(I) Fair Go Rates System Compliance

Warrnambool City Council is required to comply with the State Government's Fair Go Rates System (FGRS). The table below details the budget assumptions consistent with the requirements of the Fair Go Rates System.

	201	9/20	202	20/21
Total Rates	\$	32,246	\$	34,129
Number of rateable properties		17,369		17,605
Base Average Rate	\$	1,857	\$	1,939
Maximum Rate Increase (set by the State Government)		4.50%		2.00%
Capped Average Rate	\$	1,940	\$	1,977
Maximum General Rates and Municipal Charges Revenue	\$	33,697	\$	34,812
Budgeted General Rates and Municipal Charges Revenue	\$	33,692	\$	34,807
Budgeted Supplementary Rates	\$	213	\$	133
Budgeted Total Rates and Municipal Charges Revenue	\$	33,905	\$	34,940

4.1.1(m) Any significant changes that may affect the estimated amounts to be raised by rates and charges

There are no known significant changes which may affect the estimated amounts to be raised by rates and charges. However, the total amount to be raised by rates and charges may be affected by:

- The making of supplementary valuations (2020/21: estimated \$133,000)
- The variation of returned levels of value (e.g. valuation appeals)
- Changes of use of land such that rateable land becomes non-rateable land and vice versa
- · Changes of use of land such that residential land becomes business land and vice versa.

#### 4.1.1(n) Differential rates

The rate and amount of rates payable in relation to land in each category of differential are:

• A general rate of 0.3728% (0.003728 cents in the dollar of CIV) for all rateable other land properties;

- A general rate of 0.2352% (0.002352 cents in the dollar of CIV) for all rateable farm land properties;
- A general rate of 0.6641% (0.006641 cents in the dollar of CIV) for all rateable commercial properties;
- A general rate of 0.6200% (0.006200 cents in the dollar of CIV) for all rateable industrial properties;
- A general rate of 0.6163% (0.006163 cents in the dollar of CIV) for all rateable vacant land properties; and
- A general rate of 0.4830% (0.004830 cents in the dollar of CIV) for all rateable industrial 2 properties.

Each differential rate will be determined by multiplying the Capital Improved Value of each rateable land (categorised by the characteristics described below) by the relevant percentages indicated above.

Council considers that each differential rate will contribute to the equitable and efficient carrying out of council functions. Details of the objectives of each differential rate, the types of classes of land, which are subject to each differential rate and the uses of each differential rate, are set out below.

Commercial land

Commercial land is any land, which is:

• Occupied for the principal purpose of carrying out the manufacture or production of, or trade in, goods or services; or

• Unoccupied but zoned commercial under the Warrnambool City Planning Scheme.

The objective of this differential rate is to ensure that all rateable land makes an equitable financial contribution to the cost of carrying out the functions of Council, including (but not limited to) the:

- Construction and maintenance of infrastructure assets;
- Development and provision of health and community services;

• Economic development and planning services, having direct benefit to the use of Commercial Land; and • Provision of general support services.

The types and classes of rateable land within this differential rate are those having the relevant characteristics described below.

1. Rateable property used for income generation from business and administrative purposes, including, but not limited to, properties used for:

• The sale or hire of goods by retail or trade sales, e.g. shops, auction rooms, milk bars, newsagents;

• The manufacture of goods where the goods are sold on the property;

• The provision of entertainment, e.g. theatres, cinemas, amusement parlours;

• Media establishments, e.g. radio stations, newspaper offices, television stations;

• The provision of accommodation other than residential, e.g. motels, caravan parks, camping grounds,

camps, accommodation houses, hostels, boarding houses;

• The provision of hospitality, e.g. hotels, bottle shops, restaurants, cafes, takeaway food establishments, tearooms;

• Tourist and leisure industry, e.g. flora and fauna parks, gymnasiums, boatsheds, indoor sports stadiums, gaming establishments;

• The provision of education, e.g. schools, museums, art galleries;

• Showrooms, e.g. display of goods;

• Religious purposes; and

• Public offices and halls.

2. Properties used for the provision of health services including, but not limited to, properties used for hospitals, nursing homes, rehabilitation, medical practices and dental practices."

3. Properties used as offices including, but not limited to, properties used for legal practices, real estate agents, veterinary surgeons, accounting firms and advertising agencies.

The money raised by the differential rate will be applied to the items of expenditure described in the Budget by Council. The level of the rate for land in this category is considered to provide for an appropriate contribution to Council's budgeted expenditure, having regard to the characteristics of the land.

The geographic location of the land within this differential rate is wherever located within the municipal district.

The use of the land within this differential rate, in the case of improved land, is any use of land permitted under the relevant Planning Scheme.

The characteristics of planning scheme zoning is the zoning applicable to each rateable land within this category as determined by consulting maps referred to in the relevant Planning Scheme.

The types of buildings on the land within this differential rate are all buildings which are now constructed on the land or which are constructed prior to the expiry of the 2020/21 financial year.

Farm Land

"Farm land is any land, which is:

• "farm land" as described in of Section 2 (1) of the Valuation of Land Act 1960.

The objective of this differential rate is to ensure that all rateable land makes an equitable financial contribution to the cost of carrying out the functions of Council, including (but not limited to) the:

- Construction and maintenance of infrastructure assets;
- Development and provision of health and community services;
- · Encouragement of sustainable and productive use and management of Farm Land; and
- Provision of general support services.

The types and classes of rateable land within this differential rate are those having the relevant characteristics of "farm land" as described in of Section 2 (1) of the Valuation of Land Act 1960.

The money raised by the differential rate will be applied to the items of expenditure described in the Budget by Council. The level of the rate for land in this category is considered to provide for an appropriate contribution to Council's budgeted expenditure, having regard to the characteristics of the land.

The geographic location of the land within this differential rate is wherever located within the municipal district.

The use of the land within this differential rate, in the case of improved land, is any use of land permitted under the relevant Planning Scheme.

The characteristics of planning scheme zoning is the zoning applicable to each rateable land within this category as determined by consulting maps referred to in the relevant Planning Scheme.

The types of buildings on the land within this differential rate are all buildings which are now constructed on the land or which are constructed prior to the expiry of the 2020/21 financial year.

#### Industrial land

Industrial land is any land, which is:

• Occupied for the principal purpose of carrying out the manufacture or production of, or trade in, goods or services; or

• Unoccupied but zoned Industrial under the Warrnambool City Planning Scheme.

The objective of this differential rate is to ensure that all rateable land makes an equitable financial contribution to the cost of carrying out the functions of Council, including (but not limited to) the:

- · Construction and maintenance of infrastructure assets;
- Development and provision of health and community services;
- Economic development and planning services, having direct benefit to the use of Industrial Land; and
- Provision of general support services.

The types and classes of rateable land within this differential rate are those having the relevant characteristics described but not limited to those below.

Rateable properties which are used in the process of income generation, including, but not limited to the following:

• The manufacture of goods, food and beverage which are generally not sold or consumed on site (but does preclude some warehouse sales);

- The storage of goods;
- The provision of services for the repair of goods;
- The storage of plant and machinery;
- The production of raw materials in the extractive and timber industries; and
- The treatment and storage of industrial waste materials.

The money raised by the differential rate will be applied to the items of expenditure described in the Budget by Council. The level of the rate for land in this category is considered to provide for an appropriate contribution to Council's budgeted expenditure, having regard to the characteristics of the land.

The geographic location of the land within this differential rate is wherever located within the municipal district.

The use of the land within this differential rate, in the case of improved land, is any use of land permitted under the relevant Planning Scheme.

The characteristics of planning scheme zoning is the zoning applicable to each rateable land within this category as determined by consulting maps referred to in the relevant Planning Scheme.

The types of buildings on the land within this differential rate are all buildings which are now constructed on the land or which are constructed prior to the expiry of the 2019/20 financial year.

#### Vacant land

Vacant land is any land, which is:

- Vacant unoccupied land within the Warrnambool City Council; or
- · Land on which no building designed or adapted for human occupation is erected

The objective of this differential rate is to ensure that all rateable land makes an equitable financial contribution to the cost of carrying out the functions of Council, including (but not limited to) the:

- · Construction and maintenance of infrastructure assets;
- Development and provision of health and community services;
- Encouragement for orderly planning through development of serviced urban properties;
- · Provision of municipal administrative services; and
- Provision of general support services.

The types and classes of rateable land within this differential rate are those having the relevant characteristics of vacant unoccupied land and on which no building designed or adapted for human occupation is erected within the Warrnambool City Council.

The money raised by the differential rate will be applied to the items of expenditure described in the Budget by Council. The level of the rate for land in this category is considered to provide for an appropriate contribution to Council's budgeted expenditure, having regard to the characteristics of the land.

The geographic location of the land within this differential rate is wherever located within the municipal district.

The use of the land within this differential rate is any use of land permitted under the relevant Planning Scheme.

The characteristics of planning scheme zoning is the zoning applicable to each rateable land within this category as determined by consulting maps referred to in the relevant Planning Scheme.

The types of buildings on the land within this differential rate are no buildings are constructed.

#### Industrial 2 land

Industrial 2 land is any land, which is:

• Occupied for the principal purpose of carrying out the manufacture or production of, milk products such as powdered milk.

The objective of this differential rate is to ensure that all rateable land makes an equitable financial contribution to the cost of carrying out the functions of Council, including (but not limited to) the:

- Construction and maintenance of infrastructure assets;
- Development and provision of health and community services;
- Encouragement for sustainable and economically beneficial milk production in the municipality; and
- Provision of general support services.

The types and classes of rateable land within this differential rate are those having the relevant characteristics described below.

• Rateable properties where each rateable property is used for the purpose of milk product production in the municipality;

• To fit within the classification the rateable property must be occupied and operating in the production of milk products; and

• For the purpose of this classification the rateable properties must be within an Industrial 1 Zoning under the Warrnambool Planning Scheme.

The money raised by the differential rate will be applied to the items of expenditure described in the Budget by Council. The level of the rate for land in this category is considered to provide for an appropriate contribution to Council's budgeted expenditure, having regard to the characteristics of the land.

The geographic location of the land within this differential rate is wherever located within the municipal district.

The use of the land within this differential rate, in the case of improved land, is any use of land permitted under the relevant Planning Scheme.

The characteristics of planning scheme zoning is the zoning applicable to each rateable land within this category as determined by consulting maps referred to in the relevant Planning Scheme.

The types of buildings on the land within this differential rate are all buildings which are now constructed on the land or which are constructed prior to the expiry of the 2020/21 financial year.

# Other land

Other land is any land, which is:

- Occupied for the principal purpose of human habitation including dwellings, flats and units;
- "residential use land" as described in of Section 2 (1) of the Valuation of Land Act 1960; and
- "urban farm land" as described in of Section 2 (1) of the Valuation of Land Act 1960.

The objective of this differential rate is to ensure that all rateable land makes an equitable financial contribution to the cost of carrying out the functions of Council, including (but not limited to) the:

- Construction and maintenance of infrastructure assets;
- Development and provision of health and community services; and
- Provision of general support services.

The types and classes of rateable land within this differential rate are those having the relevant characteristics of a property which is used for human habitation including dwellings, flats and units, or is residential use land or urban farm land as described in of Section 2 (1) of the Valuation of Land Act 1960.

The money raised by the differential rate will be applied to the items of expenditure described in the Budget by Council. The level of the rate for land in this category is considered to provide for an appropriate contribution to Council's budgeted expenditure, having regard to the characteristics of the land.

The geographic location of the land within this differential rate is wherever located within the municipal district.

The use of the land within this differential rate is any use of land permitted under the relevant Planning Scheme.

The characteristics of planning scheme zoning is the zoning applicable to each rateable land within this category as determined by consulting maps referred to in the relevant Planning Scheme.

The types of buildings on the land within this differential rate are all buildings which are now constructed on the land or which are constructed prior to the expiry of the 2020/21 financial year.

#### Cultural and Recreational land

The amounts listed are subject to change until the Valuer General Victoria has provided council with a Generally True and Correct Declaration for the 2020 General Revaluation.

# 4.1.2 Statutory fees and fines

	Forecast Actual 2019/20	Budget 2020/21		Change
	\$'000	\$'000	\$'000	%
Animal control	488	517	29	5.94%
Health and local laws	153	162	9	5.88%
Parking fines	552	425	(127)	(23.01%)
Permits and certificates	134	137	3	2.24%
Town planning and building	386	338	(48)	(12.44%)
Total statutory fees and fines	1,713	1,579	(134)	(7.82%)

"Statutory fees and fines are mainly levied in accordance with legislation and relate to income collected through parking fines, health registrations, animal registrations, planning permits and building permits. - Parking fines to decrease in 2020/21 as Council is currently offering a free parking intiative and the return

- Parking lines to decrease in 2020/21 as Council is currently offering a free parking initiative and the return to normal patrols will be phased in over time.

- Town Planning and Building fees are expected to return to its historical trajectory in 2020/21 following a number of large value applications in 2019/20 that are not expected to occur again in 2020/21."

#### 4.1.3 User fees

	Forecast Actual	Budget		Change
	2019/20	2020/21		
	\$'000	\$'000	\$'000	%
Property management	774	801	27	3.49%
Indoor aquatic centre	1,526	861	(665)	(43.58%)
Childrens services	3,227	3,254	27	0.84%
Multi purpose sports stadium	930	617	(313)	(33.66%)
Cultural centres	1,173	608	(565)	(48.17%)
Regulatory control	1,459	1,231	(228)	(15.63%)
Tourism and promotion	951	527	(424)	(44.58%)
Foreshore holiday parks	2,572	1,297	(1,275)	(49.57%)
Livestock exchange	1,175	1,261	86	7.32%
Aged services fees	681	650	(31)	(4.55%)
Other fees and charges	279	223	(56)	(20.07%)
Total user fees	14,747	11,330	(3,417)	(23.17%)

User fees relate to the wide range of services Council provides across its extensive service delivery programs and includes holiday park fees, leisure centre and performing arts centre user charges, fees for the provision of child care, family day care and home help, entrance fees at Flagstaff Hill, car parking fees and livestock exchange selling fees.

Council sets fees based on market conditions and the cost associated with running a service, while giving consideration to those who may be suffering financial hardship.

Large decreases across Councils operating business due to the current COVID19 restrictions are expected to be in place for some time.

# 4.1.4 Grants

Grants are required by the Act and the Regulations to be disclosed in Council's annual budget.

	Forecast Actual	Budget	c	hange
	2019/20	2020/21		
Create were received in respect of the following	\$'000	\$'000	\$'000	%
Grants were received in respect of the following:				
Summary of grants Commonwealth funded grants	4,962	6,382	1,420	28.62%
State funded grants	15,049	10,412	(4,637)	(30.81%)
Total grants received	20,011	16,794	(3,217)	(16.08%)

Environment initiatives	2,473		(2,409) (54)	(100.00%)
	54			(100.0070)

City Renewal	2,000	-	(2,000)	(100.00%)
Total non-recurrent grants	7,786	4,134	(3,652)	(46.90%)
Total capital grants	8,211	4,559	(3,652)	(44.48%)
Total Grants	20,011	16,794	(3,217)	(16.08%)

Grants include all monies received from Victorian and Commonwealth sources for the purposes of funding the delivery of Council's services to ratepayers and funding the capital works program.

Overall the level of grants will decrease by \$3.0 million compared to the 2019/20 forecast. This is mainly due to the large grants received in 2019/20 for the final City Renewal grant claims.

#### 4.1.5 Contributions

	Forecast Actual	Budget		Change
	2019/20	2020/21		
	\$'000	\$'000	\$'000	%
Monetary	4,154	801	(3,353)	(80.72%)
Non-monetary	4,000	4,000	-	0.00%
Total contributions	8,154	4,801	(3,353)	(41.12%)

Monetary contributions include monies paid to Council for works, including roads and drainage, required to be completed by developers in accordance with planning permits issued for property development. Also included are philanthropic donations and contributions by any organisations to specific projects.

This income can swing considerably between years as it is largely dependent on development activity driven by the housing market and developers. The 2019/20 forecast assumes contributions for the new Industrial Estate.

Non-monetary contributions occur when upon completion of new developments by external parties the Council takes ownership of the assets and recognises the value of the assets as non-cash contributions in its income statement. Council is expecting a similar level of subdivisions to be finalised in 2020/21.

# 4.1.6 Other income

	Forecast Actual	Budget		Change
	2019/20 \$'000	2020/21 \$'000	\$'000	%
Interest	284	284	\$ 000 -	0.00%
Infrastructure services	56	51	(5)	(8.93%)
Recreation and cultural programs	1	-	(1)	(100.00%)
Family and community	8	15	7	87.50%
Reimbursements	847	164	(683)	(80.64%)
Other income	88	105	17	19.32%
Total other income	1,284	619	(665)	(51.79%)

# 4.1.7 Employee costs

	Forecast Actual	Budget		Change
	2019/20	2020/21		
	\$'000	\$'000	\$'000	%
Wages and salaries	28,976	27,641	(1,335)	(4.61%)
WorkCover	816	920	104	12.75%
Superannuation	2,845	2,852	7	0.25%
Fringe benefit tax	303	326	23	7.59%
Total employee costs	32,940	31,739	(1,201)	(3.65%)

Employee benefits include all labour related expenditure such as wages, salaries and on-costs such as allowances, leave entitlements, and employer superannuation.

Employee costs are budgeted to decrease by \$1.4 million compared to the 2019/20 forecast. The major driver of of this is the stand down of employees at operations that are impacted by COVID19 closures.

#### 4.1.8 Materials and services

	Forecast Actual	Budget		Change
	2019/20	2020/21		
	\$'000	\$'000	\$'000	%
Infrastructure services	7,058	5,764	(1,294)	(18.33%)
Waste management	3,956	3,897	(59)	(1.49%)
Recreation and cultural services	3,818	2,869	(949)	(24.86%)
Children's services	2,387	1,444	(943)	(39.51%)
Corporate services	5,086	5,226	140	2.75%
Tourism and promotions	2,434	1,255	(1,179)	(48.44%)
Aged services	1,008	747	(261)	(25.89%)
Foreshore caravan parks	833	764	(69)	(8.28%)
Livestock exchange	458	487	29	6.33%
Planning and building services	1,457	302	(1,155)	(79.27%)
Health and local laws	1,166	1,245	79	6.78%
Other	1,510	2,605	1,095	72.52%
Total materials and services	31,171	26,605	(4,566)	(14.65%)

Materials and services include the purchases of consumables, payments to contractors for the provision of services and overhead costs including insurances and utilities.

Council's expenditure on materials and services is budgeted to decrease in 2020/21 due to the following: - a reduction in the number of funded projects

- a reduction in the number of projects where Council acts as auspice

Council is managing to tightly control expenditure in the face of rising costs through the continual revision of service delivery and ongoing pursuit of efficiencies in operations.

# 4.1.9 Depreciation

	Forecast Actual	Budget		Change
	2019/20	2020/21		
	\$'000	\$'000	\$'000	%
Property	2,198	2,270	72	3.28%
Plant & equipment	1,536	1,585	49	3.19%
Infrastructure	8,516	8,795	279	3.28%
Total depreciation and amortisation	12,250	12,650	400	3.27%

Depreciation is an accounting measure which attempts to allocate the value of an asset over its useful life for Council's property, plant and equipment including infrastructure assets such as roads and drains. The increase of \$0.40 million for 2020/21 will be due to the capitalisation of new infrastructure completed in 2019/20.

#### 4.1.10 Amortisation - Right of use assets

	Forecast Actual	Budget		Change
	2019/20	2020/21		
	\$'000	\$'000	\$'000	%
Right of use assets	200	200	-	0.00%
Total amortisation - right of use assets	200	200	-	0.00%

#### 4.1.11 Other expenses

Add additional tables for each material component of the Comprehensive Income Statement

	Forecast Actual	Budget		Change
	2019/20	2020/21		
	\$'000	\$'000	\$'000	%
Councillor Allowances	274	290	16	5.84%
Operating Lease Rentals	439	474	35	7.97%
Other Expenses	125	121	(4)	(3.20%)
Total other expenses	838	885	47	5.61%

Other expenditure relates to a range of unclassified items including audit fees, Councillor allowances, lease costs and miscellaneous items. A small increase is exptected in 2020/21 due to new gym and Information Technology equipment being leased in 2019/20.

#### 4.2 Balance Sheet

#### 4.2.1 Assets

"Cash assets include cash and investments such as cash held in the bank and in petty cash and the value of investments in deposits or other highly liquid investments with short term maturities of less than 90 days. Investments exceeding 90 days are classified as financial assets. These balances are projected to remain stable during the year.

Trade and other receivables are monies owed to Council by ratepayers and others. It is expected to increase at the end of the 2019/20 due a number of rate and rental deferrals being granted through the hardship provisions in repsonse to COVID19.

Property, infrastructure, plant and equipment is the largest component of Council's worth and represents the value of all the land, buildings, roads, drainage, plant and equipment, which has been built up by the

Council over many years. The increase in this balance is attributable to the net result of the capital works program, depreciation of assets, gifted assets and the sale and revaluation of assets.

#### 4.2.2 Liabilities

"Trade and other payables are those to whom Council owes money as at 30 June. No significant movement is expected in this category for 2020/21.

Provisions include accrued long service leave, annual leave owing to employees and rehabilitation costs for a cessed landfill site. These employee entitlements are only expected to increase marginally and are influenced by the outcome of the current Enterprise Agreement negotiation and active management of leave entitlements.

# 4.2.3 Borrowings

The table below shows information on borrowings specifically required by the Regulations.

	2019/20	2020/21
	\$	\$
Amount borrowed as at 30 June of the prior year	10,036	9,713
Amount proposed to be borrowed	1,400	5,950
Amount projected to be redeemed	(1,723)	(1,694)
Amount of borrowings as at 30 June	9,713	13,969

Interest-bearing loans and borrowings are liabilities of Council. The Council is budgeting to repay loan principal of \$1.7 million in 2020/21 and drawdown new loan funds of \$5.95 million to partially fund the Reid Oval upgrade, the Library & Learning Centre project, the Saleyards roof and invest in smart building projects to reduce energy costs.

#### 4.2.4 Leases by category

As a result of the introduction of AASB 16 Leases, right-of-use assets and lease liabilities have been recognised as outlined in the table below.

	Forecast Actual	Budget
	2019/20	2020/21
	\$	\$
Right-of-use assets	-	-
Plant and equipment	1,400,000	1,200,000
Total right-of-use assets	1,400,000	1,200,000
Lease liabilities		
Current lease Liabilities		
Plant and equipment	200,000	200,000
Total current lease liabilities	200,000	200,000
Non-current lease liabilities		
Plant and equipment	1,200,000	1,000,000
Total non-current lease liabilities	1,200,000	1,000,000
Total lease liabilities	1,400,000	1,200,000

Where the interest rate applicable to a lease is not expressed in the lease agreement, Council applies the average incremental borrowing rate in the calculation of lease liabilities. The current incremental borrowing rate is 2.75%.

4.3 Statement of changes in Equity

#### 4.3.1 Reserves

"Reserves contain both specific cash backed reserves and asset revaluation amounts. Cash backed reserves include statutory reserves, Councils drainage and Carparking/CBD funds. No significant variation is expected in 2020/21.

The asset revaluation reserve represents the difference between the previously recorded value of assets and their current valuations. Assets valuations are required to be considered annually and formally revalued if there is a material change.

#### 4.3.2 Equity

Accumulated surplus is the value of all net assets less specific reserve allocations and revaluations that have built up over financial years.

#### 4.4 Statement of Cash Flows

Budgeting cash flows for Council is a key factor in setting the level of rates and providing a guide to the level of capital expenditure that can be sustained with or without using existing cash reserves.

4.4.1 Net cash flows provided by/used in operating activities

The decrease in net cash from operating activities is mainly due to the closure of operating facilitties due to COVID19.

The net cash flows from operating activities does not equal the operating result for the year as the expected revenues and expenses of the Council include non-cash items which have been excluded from the Cash Flow Statement.

# 4.4.2 Net cash flows provided by/used in investing activities

The forecast for 2019/20 represents a higher level of capital expenditure with major works including the finalisation of the Reid Oval and funded road projects.

4.4.3 Net cash flows provided by/used in financing activities

Net borrowings (Loan funds less repayments) for the 2020/21 budget include new borrowings for the Reid Oval upgrade, the Library & Learning Centre project, Saleyards roof and Councils investment in energy saving initiatives.

# 4.5 Capital works program

This section presents a listing of the capital works projects that will be undertaken for the 2019/20 year, classified by expenditure type and funding source. Works are also disclosed as current budget or carried forward from prior year.

# 4.5.1 Summary

Council has more than 240 major buildings with a replacement cost of over \$133 million and includes buildings and improvements for community facilities, sports facilities and pavilions and municipal buildings.

These assets require renewal investment in addition to the new scheduled building projects. The majority of Councils building capital works program is focused on asset renewal rather than building new assets.

Plant and equipment includes plant, machinery and equipment, computers and telecommunications and art works. The majority of the spend in this category for 2020/21 relates to renewing Councils plant, machinery and equipment.

Infrastructure includes roads, bridges, footpaths and cycleways, drainage, recreation, leisure and community facilities, parks, open space and streetscapes, off street car parks and other structures.

In 2020/21, \$4.1 million will be spent on renewing the roads, \$3.5 million on recreational facilities, \$3.4 million on parks and open space.

	Forecast Actual	Budget	Change	
	2019/20	2020/21		%
	\$'000	\$'000	\$'000

# 5. Financial performance indicators

The following table highlights Council's current and projected performance across a range of key financial performance indicators. These indicators provide a useful analysis of Council's financial position and performance and should be interpreted in the context of the organisation's objectives.

	Measure	Notes	Forecast	Budget	Strategi	c Resource Plan	Projections	Trend
Indicator		Ň	2019/20	2020/21	2021/22	2022/23	2023/24	+/o/-
Operating position								
Adjusted underlying result	Adjusted underlying surplus (deficit) / Adjusted underlying revenue	1	(1.87%)	(2.79%)	0.80%	1.56%	1.87%	+
Liquidity								
Working Capital	Current assets / current liabilities	2	120.82%	105.80%	115.34%	120.18%	125.97%	+
Unrestricted cash	Unrestricted cash / current liabilities	3	71.08%	61.72%	71.20%	76.83%	83.65%	+
Obligations								
Loans and borrowings	Interest bearing loans and borrowings / rate revenue	4	23.87%	33.71%	30.71%	25.25%	26.93%	+
Loans and borrowings	Interest and principal repayments on interest bearing loans and borrowings / rate revenue		5.09%	4.88%	5.65%	4.71%	4.57%	+
Indebtedness	Non-current liabilities / own source revenue		16.81%	25.51%	20.83%	17.04%	17.92%	+
Asset renewal	Asset renewal expenses / Asset depreciation	5	135.37%	83.19%	72.41%	83.72%	90.58%	-
Stability								
Rates concentration	Rate revenue / adjusted underlying revenue	6	54.70%	60.93%	55.62%	56.27%	56.51%	-
Rates effort	Rate revenue / CIV of rateable properties in the municipality		0.58%	0.58%	0.58%	0.60%	0.60%	o

Indicator	Measure	otes	Forecast	Budget	Strategic Re	source Plan Pro	ojections	Trend
		ž	2019/20	2020/21	2021/22	2022/23	2023/24	+/o/-
Efficiency								
Expenditure level	Total expenses/ no. of property assessments		\$4,513	\$4,166	\$4,610	\$4,595	\$4,725	+
Revenue level	Residential rate revenue / no. of residential property assessments		\$2,029	\$2,053	\$2,094	\$2,178	\$2,221	+
Workforce turnover	No. of permanent staff resignations & terminations / average no. of permanent staff for the financial year		12.45%	14.20%	10.00%	10.00%	10.00%	-

Key to Forecast Trend:

+ Forecasts improvement in Council's financial performance/financial position indicator

o Forecasts that Council's financial performance/financial position indicator will be steady

- Forecasts deterioration in Council's financial performance/financial position indicator

#### Notes to indicators

#### 1. Adjusted underlying result

An indicator of the sustainable operating result required to enable Council to continue to provide core services and meet its objectives. Following the financial recovery from COVID19, the underlying result is expected to be around the breakeven amount in the Strategic Resource Plan period.

#### 2. Working Capital

The proportion of current liabilities represented by current assets. Working capital is shown to increase steadily over the Strategic Resource Plan.

# 3. Unrestricted Cash

The cash not associated to a particular use within Council or a legislative requirement. Council maintains a healthy ratio over the Strategic Resource Plan.

4. Debt compared to rates

Trend indicates Council's reducing reliance on debt against its annual rate revenue through redemption of long term debt. Councils debt is planned to peak in 2019/20 before reducing as existing loans are paid out.

#### 5. Asset renewal

This percentage indicates the extent of Council's renewals against its depreciation charge (an indication of the decline in value of its existing capital assets). A percentage greater than 100 indicates Council is maintaining its existing assets, while a percentage less than 100 means its assets are deteriorating faster than they are being renewed and future capital expenditure will be required to renew assets. Council has received significant grants over the last few years which have assisted in meeting this ratio, however, as the grant funding has reduced the asset renewal ratio is declining over time. This means that Council is unable to meet its asset demand and backlog. Council's position begins to improve in 2022/23 if Council is able to successfully apply a rate cap variation.

6. Rates concentration

Reflects extent of reliance on rate revenues to fund all of Council's on-going services. Trend indicates Councils reliance on rate revenue is to slightly increase over time.

# 6. Schedule of Fees and Charges

This appendix presents the fees and charges of a statutory/non-statutory nature which will be charged in respect to various goods and services during the FY 2020/21.

Fees and charges are based on information available at the time of publishing and may vary during the financial year subject to any changes in Council's policy or legislation. The fees listed are a maximum and Council has the discretion to charge a lesser amount if appropriate.

Description of Fees and Charges	Unit of Measure	GST Status	2019/20 Fee Inc GST	2020/21 Fee Inc GST	Fee Increase / Decrease	Fee Increase / Decrease	Basis of Fee

# Q2

Please write your feedback below

Has any provision been made for capital spending on the Japanese garden. In particular, access from Grieve St via the path that goes between the quarry & Wannon Water, solar power to the garden, water to the garden, signage to the garden from Grieve St. These are all aspects of the garden which in previous years have been brought to the attention of Council, and all are needed to make the garden both more accessible and more attractive to the public.

Budget 2020-2021

I wish to provide feedback on the

# Q2

Please write your feedback below

The angle parks used by our Heatherlie residents between Heatherlie and the Uniting Church, off Koroit St, are poorly lit, creating a safety issue for residents either going out or returning home in the dark

As well, opportunistic vandals have made nuisances of themselves by vandalising our residents' vehicles – breaking windscreen wipers, scratching/denting door panels, breaking rear view mirrors, smashing vehicle rear windows

If the area was better lit residents would feel safer accessing their cars of an evening, and possibly the would-be vandals might be less willing to do damage to other people's property

Whilst our security cameras cover our residents' vehicles, when an incident occurs the footage is too dim for the police to identify suspects or for residents to use for insurance claims.

We trust that you and your department might look on this area favourably and install lighting so that our residents and their property can feel safe.

Good morning Nick and Councillors

I wish to apologise that I will be unable to speak at tonight's Council meeting due to ill health (I have tested negative for Covid-19, Influenza A&B, Rhinovirus – but still suffer the effects of a yet unknown virus  $\bigotimes$ )

However, I was going to add the following to my submission, and wonder if it would be permissible for maybe Kylie or Sue to speak to the meeting on my behalf? If not, that's ok

- Some of the cars that park in the angle parks have been vandalised 2 and 3 times
- Damage incurred Wireless aerials bent or broken off (for one resident this happened 3 times)
  - Side window broken
  - Back window smashed
  - Rear badges on boot stolen from three different vehicles
  - Scratches on vehicle
  - Rear view mirror broken off

One lady is terrified to go out at night to go to the car; she is scared of the darkness and potential for people to hide in the bushes.

Thank you for the opportunity to speak on behalf of the residents at Heatherlie who use these spaces, but would enjoy the added security of lighting over their cars to help prevent vandalism.

### Regards

# Lyn Burns

Heatherlie Homes, PO Box 365 (103-111 Koroit Street)

Warrnambool VIC 3280

P: 03 5561 5565

AFL Western District PO Box 523 WARRNAMBOOL VIC 3280

Wednesday, 20 May 2020

Ms Alison Kemp, Manager – Recreation and Culture, Warrnambool City Council, 25 Liebig Street, Warrnambool VIC 3280

Dear Ms Kemp,

# Re: Budget Response - Warrnambool City Council Draft 2020-2021 Budget

On behalf of leagues and clubs participating in community football and netball at Warrnambool City Council ('Council') facilities, we wish to provide a response to the draft 2020-21 budget as presented at Council's ordinary meeting on 4 May 2020.<sup>1</sup>

### **Statistics on Participation Levels**

Leagues that ordinarily play a substantial number of matches and/or are based within Council boundaries are:

- 1. Hampden Football Netball League Inc ('HFNL')
- 2. Warrnambool & District Football Netball League ('WDFNL')
- 3. Western Victoria Female Football League ('WVFFL')

We outline the below summary of Council grounds and associated tenant clubs:

Council Sports Ground	Tenant/s
Allansford Recreation Reserve	Allansford Football Netball Club
Bushfield Recreation Reserve	North Warrnambool Eagles Football Netball Club
Davidson Oval	Old Collegians Football Netball Club
Dennington Recreation Reserve	Dennington Football Netball Club
Friendly Societies Park	South Warrnambool Football Netball Club
Mack Oval	Russells Creek Football Netball Club
Merrivale Recreation Reserve	Merrivale Football Netball Club
Reid Oval	Warrnambool Football Netball Club / East Warrnambool Football Netball Club
Walter Oval	South Rovers Football Netball Club

For additional context, we outline the below registered participants associated with each tenant club above in the year 2019. Please note that these figures include only registered players/officials with

<sup>&</sup>lt;sup>1</sup> <u>http://www.yoursaywarrnambool.com.au/budget-2020-2021-and-council-plan</u>

AFL Victoria and Netball Victoria. Social club members are not included or any unregistered associated club supporters. A La Trobe University study in 2015 found that for every player, clubs reached a further 10 people in their community.<sup>2</sup> Effectively, this would provide coverage over 30,000 people across the entire Council population of 34,000.<sup>3</sup>

### Focus Area 1 - Casual Ground Hire Fees

We have reviewed the draft casual ground charges in the 2020-2021 budget – with a particular focus being on Football/Netball League Finals day rates.

We note the following rates:

- 1. 2016/17: \$501.00
- 2. Proposed 2020/21: \$912.00

# This represents an 82.04% total increase across a period of 5 years. In the previous five-year period across 2011/12 – 2015/16 the same effective increase was 8.22% (\$450 increasing to \$487).

### Focus Area 2 - Sports Ground Seasonal Use Fee

We have reviewed the annual charges to clubs for seasonal use of Council facilities. We do note that no detail has been provided on the expected charges for 2020/21 in the draft budget. We understand a briefing was to occur in April 2020 that has not occurred - we understand that COVID-19 may have impacted this timeline.

We note the following rates (using HFNL club as example):

- 1. 2015/16: \$4,866.61
- 2. Actual 2019/20: \$10,084.00

### This represents an 107.21% increase across a period of 4 years.

### **Submission Discussion Points**

We wish to highlight the following discussion points in relation to these significant fee increases:

- The community club and league revenue available to pay these charges is predominantly sourced via business sponsorship. Sponsorship revenues of clubs have been heavily restricted in recent years owing to the economic conditions faced and will be exacerbated by the impacts of COVID-19 in coming years. Anecdotally, all club and league sponsorship revenue has either remained stagnant or decreased over the periods analysed above. Through increasing the fees and charges by such a substantial amount pressure is placed on clubs and leagues which is a ultimately a burden on club volunteers.
- 2. It is noted in the Council Plan 2017-2021 (revised 2020) that fostering a healthy, welcoming city that is socially and culturally rich is a key objective. We believe there is a disconnect between this objective and the substantial year-on-year increases in Council fees imposed on sporting clubs. Our clubs provide social hubs of connectivity for community members and avenues for participating in sport. We are cautious of the impacts that a high 'cost to play' has on the ability of clubs to continue to provide such vibrant opportunities for Council residents.
- In the 2018/19 Annual Report, the Aquazone leisure centre costed Council a net \$570k. The expected net cost of sport/recreation services in 2019/20 as identified in the draft budget is \$547k. On an assumed membership base of 3,000, it costs Council approximately \$190 for every member of Aquazone.

Applying the same logic to sport/recreation services and assuming that 100% of this cost was for football and netball facilities (where it actually includes other community sporting groups), the cost to Council per member (assuming 9,000 associated participants and social club members) is \$61.

We understand the importance of Council's endeavours to recoup costs of maintaining facilities but seek an equitable fashion of this cost distribution across all community facilities.

4. Community sporting clubs provide extensive social value to a community – for every \$1 spent, there is at least a \$4.40 return in social value (La Trobe University study, 2015). The benefits include social connectedness, wellbeing and mental health status, employment outcomes, personal development, physical health, civic pride and support of other community groups. AFL Western District is concerned with the pace of fee increases and the threat this is to our club's viability.

#### Recommendations

- 1. AFL Western District, associated leagues and clubs seek a 5-year freeze on casual and seasonal charges as they are to apply to community football and netball clubs based on the existing 2019/20 fee structure.
- 2. Council seek to ensure equitable spread of costs across all facilities on a basis of number of members associated with each and acknowledge the large social value of community sporting clubs within the Council.

We appreciate the consideration of Council in this respect.

Yours Sincerely,

Matthew Ross AFL Western District Commercial & Operations Manager

Tim Mason HFNL President

Kylie Murphy WDFNL President

Cc: Warrnambool City Council tenant club Presidents

To Warrnambool City Council,

It has been great to see the State and Federal governments offering assistance to the community. Over the past few weeks, Warrnambool City Council has started to offer some relief but the Ratepayers Association believes it could be doing more by making some changes to the current budget. Warrnambool is a global tourist destination, hospitality our 4<sup>th</sup> largest employer has been hit hard by the effects of this recession. According to the spatial profile of Warrnambool nearly 19% of jobs have been lost due to the effects of COVID-19, we believe all residents need relief from our council.

The Warrnambool Ratepayers Association would hope the Council would consider the following relief measures

- A rate freeze for all properties All residents and businesses are feeling the mental and financial pressures brought on by this pandemic. The Ratepayers Association believes the state and federal government are not raising tax revenue streams and instead are offering broad stimulus to the community, we believe Warrnambool City Council should be doing the same. According to the budget, this measure will cost 738K
- Waiver of all shop and community fees Our local businesses and community organisations have been hit the hardest by the COVID restrictions. The Warrnambool Ratepayers Association commends the current efforts of the Warrnambool City Council but believes that more could be done to offer relief. A refund of food registration and health premises fees for the entire 20/21 financial year would be beneficial to those struggling. Waiving of fees for community and sporting groups for use of City-owned land/grounds and buildings for the 20/21 budget would see a small reduction in revenue of around 145K. It is not just sporting groups but also community organisations that are affected by the current COVID recession. Warrnambool City Council can help businesses and community groups get back on their feet after the pandemic. According to the budget, these measures will cost around 285K
- Free Parking- We would like to see free parking for at least the entire 20/21 financial year. We need to see Council enforce time limits during this period to keep the spaces turning over for maximum impact for traders, this will also provide a source of revenue for the council. Even after the pandemic has passed, we believe the behaviour of shoppers will be changed forever. According to the budget, this measure will cost around 1.4m.

## The Total Stimulus measures proposed by the Warrnambool Ratepayers Association will cost 2.4m

These measures could be funded by showing restraint on large capital projects. We are not saying to cancel these projects we are suggesting a deferral for at least 12 months and then reassess the financial position of the council in 21/22.

- The Community Learning Hub- The Warrnambool Ratepayers Association would like to see this project deferred for 12 months. It isn't just the project that is going to cost the council but refurbishment of the library space when vacant. The Council is planning to borrow 3 million dollars to refurbish the old library space. If this project is deferred, it will save the budget 5.5million in borrowed funds and 500K in the council budget.
- The Reid Oval Redevelopment- The Warrnambool Ratepayers Association would like to see the groundworks and the lights finished with the money from the state government grant, but a deferral on the redevelopment of the clubrooms. The Ratepayers Association has been advocating with user groups involved in the redevelopment. The facility should suit all user groups and be the best in the region, not the best we can do on a limited budget. If this project is deferred it could save 3 million in borrowings and leave 1.6 million as allocated in the budget for further stimulus measures.
- Upper management pay decreases- According to the 18/19 Annual Report the top 9 employee salaries cost the Warrnambool City Council budget 1.5 million dollars per annum. The Ratepayers Association believes the Warrnambool City Council should

follow the lead of private boards, and take a 10% pay decrease with all bonuses being suspended until the 21/22 budget. This measure would see a saving of 150K to the budget.

If the Warrnambool City Council implements these measures, we could save 2.25million in the current budget and also save 8.5 million dollars in borrowings and interest. These savings in the budget are sufficient to implement all of the stimulus measures put forward by the Ratepayers Association.

The Association believes that all residents of the community need relief through council measures. Stimulus from the construction of these facilities will benefit a few, while the proposed measures we have put forward will support every single ratepayer in Warrnambool.

We find it very disappointing the Warrnambool City Council is planning to break the rate cap again within 2 years. It was made clear by 97% of respondents that **ratepayers don't want to be charged extra rates.** 

The Ratepayers Association would like to see the 450K of unallocated stimulus money be used in a grant program much like the Corangamite Shire. This program should be run by using current resources within the council so as not to utilise any of the funding. The local economy will be stimulated immediately by encouraging businesses to spend. This needs to be rolled out in July while restrictions are being eased, any later and these measures will not have the desired effect on the local economy. This will be critical to saving businesses and jobs in our city.

We need to reassess some of the council businesses that are creating unnecessary pressure on the Budget. One that stands out every year is the operation of Flagstaff Hill, it is projected to be running at an 800K deficit. The Ratepayers Association understands this is an important tourism hub but we need to look at it as a business. The council needs to find a way to make this icon break-even to ease pressure on the budget. One of the principles in this budget is offering good value for money, propping up Flagstaff Hill year after year is a complete waste of ratepayer's funds.

The Warrnambool Ratepayers Association hopes that using these measures the Warrnambool City Council can offer relief to all the residents of Warrnambool. Everyone has been affected by this pandemic in some way and we all need support from our governments to come out on the other side.

Regards

Benjamin Blain Vice President Warrnambool Ratepayers Association From: Sent: To: Subject: Charles Everist Mon, 18 May 2020 11:24:41 +1000 Warrnambool City Council 2020/21 Draft Budgets - Farm Rates

Cr Tony Herbert Mayor Warrnambool City Council 25 Liebig Street WARRNAMBOOL, VIC 3280

By email: therbert@warrnambool.vic.gov.au

18 May 2020

Dear Cr Herbert,

#### RE: 2020/21 Draft Budget - Farm Rates

Victorian agriculture cannot be expected to shoulder an even greater rating burden as we work to help rebuild the state's economy in the wake of COVID-19.

That's why I am writing to all Victorian local government councils to encourage a fair and balanced rating strategy, and to extend an invitation to partner with the Victorian Farmers Federation (VFF) in advocating for an overhaul to Victoria's rating system.

The VFF recognises the difficult position councils face when it comes to the resources available to them to develop a fair rating strategy. Victoria's rating system has created the situation whereby regional and rural ratepayers pay more in rates as a percentage of the value of their property than ratepayers in metropolitan Melbourne.

What's more, regional and rural ratepayers often receive and have access to fewer services from local government than ratepayers in the city.

The VFF is deeply concerned about the inequities that all regional and rural ratepayers face, not just farmers. Changes must be made to the state's rating strategy in the long term and we would welcome the opportunity to work with Warrnambool City Council to advocate for reform.

Document Set ID: 11015654 Version: 1, Version Date: 18/05/2020 However, our expectation remains that all councils will put forward a fair and equitable rating strategy this year, particularly in light of recent drought conditions, the bushfires and the COVID pandemic.

The VFF constantly monitors and reports on the rates set by all local government councils to promote fair rating strategies and to actively campaign against unfair and inequitable rate hikes.

The VFF will be vocal in calling out councils that unfairly shift the rating burden onto farmers and the agricultural sector, whilst acknowledging and publicly commending councils that strike balance in their rating strategy.

The current model of using land valuations for striking rates, places undue financial stress on farming businesses as the value attributed to farm land does not reflect farm businesses' revenue generation nor capacity to pay. Differential rates were introduced as a tool for councils to address equity issues arising from the land valuation method of determining rates.

The fundamental principle should be that as the value of farmland increases, the differential rate is adjusted to reduce the rate in the dollar so that the rate burden paid by the farm sector remains stable. The VFF expects that Warrnambool City Council will use the mechanisms it has available to maintain a balanced rating strategy.

The VFF is very happy to meet with your council to discuss your rating plans for 2020/21 and how we may work together to advocate for long term reform. To discuss further, please contact Luke Hooke, Manager, Stakeholder Policy and Advocacy, on 0428 288 909 or at Ihooke@vff.org.au.

Yours sincerely,

Victorian Farmers Federation

#### D & C THOMPSON

Mobile: 0428449921

#### 831 Koroit-Woolsthorpe Rd WOOLSTHORPE VIC. 3276

20<sup>TH</sup> May, 2020

We would like to submit the following on the Warrnambool City Council Budget 2020.

Our submission is focused on the issue of the Warrnambool Livestock Exchange.

We fail to understand why Warrnambool City Council is borrowing \$700,000 to be used to roof the C Pens at the Warrnambool Saleyards, when this expense has been fully covered by farmers and agents through levies imposed on them, over several years now, to cover Capital Improvements at the Warrnambool Saleyards.

In 2009 Warrnambool City Council had intentions to close the Warrnambool Saleyards. In 2010 farmers agreed to a \$2.00 levy per head of mature cattle sold through the saleyards to be applied to fund CAPITAL IMPROVEMENTS at the saleyards. NOTE: Capital Improvements not Repairs and Maintenance. Repairs and maintenance are normal operating costs which are funded through fees and charges such as Yard fees, Weigh fees, and Agents' fees etc.

Over the years the yard fees have normally increased by 20 to 50 cents at a time as you can see by the following:

Date	Yard Fees	Increase
2014	\$10.95	
2015	\$11.20	0.25 cents
2016	\$11.45	0.25 cents
2017	\$11.70	0.25 cents
2018	\$12.00	0.30 cents
2019	\$12.50	0.50 cents

So, you see a pattern here that the normal increase in yard fees is usually a matter of cents per head.

In November 2010 yard fees were \$8.80 per head, yet in February 2011 (after discussions with farmers) yard fees increased by \$2.53 per head to \$11.33. We believe this strongly supports the case that 0.53 cents was a normal price increase in yard fees at the time and that the \$2.00 per head was exactly the levy imposed on farmers to fund CAPITAL IMPROVEMENTS at the saleyards. I have attached evidence of this in our own account sale documents.

As the increase was, as we have stated above, \$2.53 it is a noticeably clear indication of the \$2.00 per head being a levy not a price increase.

So this brings us to our next point that the levy imposed should be spent on the purpose for which it was collected and not used as consolidate revenue as has been stated to us in the past.

In a letter sent to David Thompson from the Warrnambool City Council Director of Corporate Services, dated 8<sup>th</sup> May 2019, it states that over a ten year period Warrnambool City Council will have collected \$1,454,004 from this \$2.00 per head levy (not price increase). It also states that Capital Expenditure over these 10 years is expected to be \$1,639,000 which includes \$600,000 budgeted to roof the C pens at the Warrnambool Saleyards. We believe the expenditure figures to be flawed as they include normal repairs and maintenance at the Warrnambool Saleyards such as, replacement of railings and replacement of scanning equipment, which are NOT Capital Expenditure and as such should not be included in these figures.

The normal fees paid for by agents and farmers should well and truly cover these repairs and maintenance expenses, after all the Warrnambool Saleyards has always made a yearly profit for Warrnambool City Council.

We also fail to comprehend how the cost of roofing the C pens at the Saleyards has blown out to \$1.1 million from the \$600,000 budgeted for in 2019/2020 as stated in the Warrnambool City Council's own budget figures as stated in the letter referred to from the Warrnambool City Council Director of Corporate Services.

We believe the roofing of the C Pens at the Saleyards should have already been completed. We are in full agreement that the roof of the C Pens needs to happen and should not be delayed any further.

In conclusion the borrowing of \$700,000, we believe, should not form part of the funding for this roofing as this expense should already be accounted for within the \$2.00 levy paid by the farmers.

David Thompson

WARRNAMBOOL CITY COUNCIL

4 June 2019

**David Thompson** 831 Koroit-Woolsthorpe Road WOOLSTHORPE VIC 3276

Dear Mr Thompson

Thank you for your letter dated the 29 May 2019.

In response to your request for further information in relation to the Warrnambool Livestock Exchange, we did provide you with the total capital expenditure at the facility for the past 10 years this figure included items for asset renewal as well as for upgrade and improvements. We do not differentiate these aspects in the stewardship of the asset. We included along with this response a list of the key projects that were implemented. These were important investments from Council in asset renewal and asset improvement to ensure the yards remain competitively viable into the future.

Council also invests in annual maintenance of the yards to ensure the safety of the employees, agents and customers, the efficient operation of plant and machinery and meeting or extending the useful life of the asset. The annual investment varies from year to year with the 5 year average being approx. \$165,000 per annum.

Thank you for your enquiry, but unless you have a specific purpose in mind for your line of enquiry I consider the information provided as sufficient and that this matter is resolved. As you would understand each request of this nature requires resources to be diverted to answer the enquiry and does little to progress the issue from our prospective. We appreciate your interest in the yards and welcome your support.

The SWVLX sale yards are an important asset and business of Council, that Council continues to support and manage in a high highly efficient way, in a highly competitive commercial environment.

Yours sincerely

DHanne

WARRNAMBOOL

CITY COUNCIL

8 May 2019

David Thompson 831 Koroit-Woolsthorpe Road WOOLSTHORPE VIC 3276

Dear Mr Thompson

Thank you for your letter dated 6 May 2019.

In response to your request for further information in relation to the Warrnambool Livestock Exchange, I have attached the following table that sets out the sale numbers and the capital works expenditure.

Detail	10/11 Actual	11/12 Actual	12/13 Actual	13/14 Actual	14/15 Actual	15/16 Actual	16/17 Actual	17/18 Actual	18/19 Forecast	19/20 Budget	Total
Number of Cattle & Store Sales	43,833	85,873	78,676	79,970	98,590	<b>90</b> ,437	75,642	56,981	57,000	60,000	727,00
Income (\$2 per head price increase)	87.666	171,746	157,352	159,940	197,180	180,874	151,284	113,962	114,000	120,000	1,454,00
Capital Expenditure	219,920	64,049	244,559	139,336	48,991	148,743	23,629	50,374	99,400	600,000	1,639,00
Surplus/(Deficit) of Funds	(132,254)	107,697	(87,207)	20,604	148,189	32,131	127,655	63,588	14,600	(480,000)	(184,996

\*\$2 per head increase started from Dec 2010

Over the 10 years since the introduction of the \$2 per head price increase, the sale number have not been sufficient to fund the roof at the facility. The expected deficit after completion of the roof would be \$184,996. This also assumes that the roof can be constructed within the budgeted allowance of \$540,000.

The major capital works that have been completed over this time include:

- Soft flooring.
- Trade waste quality improvements.
- Installation of double decker ramps.
- Replacement of railings.
- Replacement of scanning equipment.
- Proposed construction of the roof.

If you have queries please do not hesitate to contact me.

Yours sincerely

#### 12/05/2020

Dear Mr Schneider, Chief Executive Officer,

I'm writing on behalf of Community Clubs Victoria, the peak body for the many not-for-profit clubs throughout Victoria, to seek your much-needed support.

As you can imagine, the Government's decision to close indoor venues in order to slow the spread of COVID-19 has had a dramatic impact on our clubs. While they come in all shapes and sizes, our member clubs are not-for-profit entities, and any surplus funds go right back into supporting their local communities. This makes them particularly vulnerable to interruptions of cashflow, and many will struggle to make it through this pandemic without some form of assistance.

Should these clubs be forced to close their doors, the ripple effect throughout the community would be dramatic. Hundreds of thousands of children and youths would be denied the opportunity of playing organised or casual sports, and a significant number of adults and older citizens would lose their community hub and opportunity to volunteer. With community clubs employing around 30,000 Victorians, the economic impact of clubs closing or downsizing would be significant.

To make sure that we weather this storm and ensure that these vital community hubs are here long into the future, we are writing to each LGA to seek their consideration of relief from rates for at least a six-month period. We hope we can add Warrnambool City Council to the growing list of LGAs that have indicated their willingness to come to the table and assist.

We have attached a brochure explaining the structure of not-for-profit clubs and the huge positive impact they have on your community.

While our staff are currently working in isolation, we have senior people rostered at CCV to respond to calls, so should you wish to discuss this matter further please call us on (03) 8851 4900.

Thank you for your consideration and we look forward to hearing from you at your earliest convenience.

Yours faithfully,

Leon Wiegard, OAM, President

Leon Wiegard, OAM, President

#### 5.2. ADOPTION OF COUNCIL PLAN 2017-2021 (REVISED)

#### PURPOSE:

#### That Council consider adoption of the Council Plan 2017-2021 (revised 2020).

#### EXECUTIVE SUMMARY

Section 125 of the Local Government Act (1989) requires a Council to prepare and approve a fouryear Council Plan by the June 30 following a general election. The plan is required to be reviewed annually.

The 1989 Act is in the process of being repealed and replaced with the Local Government Act (2020). The section in the new Act that address requirements for the Council Plan do not come into effect until October 2020.

In recognition of the State of Emergency declared earlier this year, all councils in the Victoria were granted until August 31, 2020, to adopt their revised Council Plans.

The Council Plan is the feature document in Council's suite of strategic planning documents, formulated to guide the work of Council over a four-year period.

The Council Plan retains Council's vision for Warrnambool to be a Cosmopolitan City by the Sea, which references our beautiful and unique location and proclaims that the city is striving to be more welcoming, open and inclusive.

Council will also continue with the theme for the Council Plan – Growing Pride and Confidence in the City, which emphasises the need to celebrate and promote our city, its attributes and its appeal to those in the region and beyond.

The key objectives are unchanged and remain:

- 1. Sustain, enhance and protect the natural environment.
- 2. Foster a healthy, welcoming city that is socially and culturally rich.
- 3. Maintain and improve the physical places and visual appeal of the city.
- 4. Develop a smarter economy with diverse and sustainable employment.
- 5. Practice good governance through openness and accountability while balancing aspirations with sound financial management.

The revision of the Council Plan lists key activities and initiatives Council will undertake over 2020-2021 to deliver on the five objectives described in the Plan.

At its May 4, 2020, meeting Council resolved to release a revised Council Plan for public comment. A public notice inviting feedback on the Council Plan was placed in The Standard on May 6, 2020.

One submission was received.

The points raised in the submission are addressed in this report for Council's consideration.

#### RECOMMENDATION

That Council, pursuant to Section 125 of the Local Government Act 1989 adopt the Draft Council Plan 2017-2021 (revised 2020) for the Warrnambool City Council as set out in Attachment 1 of this report.

#### BACKGROUND

The Council Plan 2017-2021 was developed in late 2016 and early 2017.

The consultation included a discussion document circulated within the community. The plan also drew on an extensive base of community engagement activities undertaken by Council over recent years. This includes engagement activities around public amenities, health and wellbeing, car parking, safer boating, economic investment, community services and infrastructure and coastal and open space management.

The revised plan strongly acknowledges the Community Plan, Warrnambool 2040. An extensive community engagement process for this 20-year Plan was undertaken in 2017 and 2018 and there is an ongoing effort to involve community partners in the delivery of Warrnambool 2040.

As required by the LGA the Plan includes Strategic Objectives, Strategies for achieving the Objectives and Strategic or Key Performance Indicators for monitoring the achievement of the Objectives.

The Council Plan is a statutory requirement of the Local Government Act and is used by a number of other audiences and purposes including:

- A reference for the community.
- A framework for Council staff to build the annual Activities & Initiatives adopted by Council.
- A reference for State Government departments.
- Support for grant applications.
- Support for advocacy positions taken by Council.

#### ISSUES

A number of the actions and initiatives outlined in this Plan respond to the current Covid-19 pandemic and to the ongoing reduced service outcomes projected for some areas of Council. The action and initiatives outlined in the Plan also seek to focus on recovery and stimulus efforts of Council for the community on the easing of pandemic restrictions.

#### **FINANCIAL IMPACT**

The resourcing of the actions and initiatives described in this plan is addressed in the Draft Budget 2020-2021.

#### LEGISLATION/POLICY/COUNCIL PLAN CONTEXT

## 5 Practice good governance through openness and accountability while balancing aspirations with sound financial management

5.2 Develop policies, strategic plans and processes to address local and regional issues, guide service provision and ensure operational effectiveness

#### COMMUNITY IMPACT/CONSULTATION

At the Council meeting on May 4 Council resolved to release its the Draft Council Plan 2017-2021 (revised 2020) for public comment.

One submission was received from Lisa McLeod. The points raised in this submission are addressed below:

Points raised in submission	Council response

	This will be spelt out in a new action added to the plan.
Has the preparation of these plans been allowed	

To develop the current health and wellbeing and Council plans an efficient and cost-effective engagement process was designed to inform these and other strategic plans. This was to be repeated in 2020-2021. There is no indication that this commitment is proceeding.	In developing Warrnambool 2040 with the community, Council anticipated that the development of a long-term "community vision" would become a requirement under the new Local Government Act. Council understands that resources are required to undertake community engagement and has allocated funding to do so. In accordance with the new Act Council will also adopt a new Community Engagement Policy and will be following advice from the community and Engage Victoria to ensure the new policy meets the expectations of the community and the Act. The new Community Engagement Policy must be adopted by March 1, 2021.
Council committed to "ongoing leadership to	In its dialogue with the community Council will

#### CONCLUSION

Additional actions have been added to the Council Plan in response to the points raised in this submission.

#### ATTACHMENTS

- 1. 11646926041 Submission to Warrnambool City Council Plan and Budget 202021 LMCLEOD [**5.2.1** 4 pages]
- 2. Council plan 2017-2021 (2020 revision) plus SRP June 30, 2020 [5.2.2 66 pages]

### Submissionto Warmambool City Council:

#### Revised Council Plan Budget & 2020/2021

#### Organisational Review and Values:

- The revised Council plan does not illustrate how the findings organisational review will be delivered as asserted in the Chief Executive Officers introduction.'
- A list of operations, actions, projects or initiatives which will implement the review are not apparent in the plan. In order to be transparent a report should be prepared to illustrate the what, how and when.
- It is very confusing has the organisational review been completed and its now being implemented, or is it still under development and up for consideration? In the budget papers in section 2.5 Pillar 5 Governance one of the "major initiatives" for expenditure is noted as:

2) Lead the delivery of an organisational structure review in order to remain a contemporary employer and provide the community best value service delivery.

• Are the recommendations of the organisational review undertaken last year still relevant and appropriate in this time of uncertainty and rapid change due to COVID-19 impacts on Council services, businesses and the community.

 Only a small proportion of staff have been provided with the details of changes recommended in the organisational review. It is unacceptable if recommendations are being implemented before all employees have been made aware of the changes. To implement the organisational review covertly and without sharing it with the whole organisation, Councillors and ratepayers, clearly contravenes the organisational values of:
 Accountability–We will be responsible and take ownership of our actions and decisions by being ethical, honest and transparent."
 Respectfulness–We will treat everyone with dignity, fairness and empathy, providing others

**Respectfulness**–We will treat everyone with dignity, fairness and empathy, <u>providing others</u> with the opportunity to share views and to be heard.

#### Actions and Initiatives:

- The Actions and Initiatives (A & Is) are supposed to be annual, guide budget commitments and enable monitoring of progress. The majority of actions identified in the 20/21 iteration have not been updated, are not specific enough to enable an understanding of the status or progress of projects spanning more than one financial year. The A & Is do not show the community that progress is being made on strategies, year on year.
- The A & Is do not include reference to the review of the Municipal Health and Wellbeing Plan, Warrnambool A Healthy City 2017–2021orthe community engagement processes needed to inform the review. The review and preparation of a new plan is mandatory under the Act.
- The A & Is do not include actions to review the current Council Plan or develop the new plan for 2021–2025. This is also mandatory, and the Local Government Act Amendment sets out expectations around increased community input, including the use of participatory processes.
- Is there budget set aside for the process to review and develop these critical and mandatory plans in the 20/21 year? These review processes take up to 12 months and so for new plans to be ready for adoption by October 2021 as required in the Local Government Act, the process and costs will commence during the 20/21 budget.
- To develop the current iteration of the health and wellbeing and Councilplans, an efficient and cost-effective engagement process was designed to inform these and many other strategic plans and decisions(Active Warrnambool, Green Warrnambool, Housing Diversity Strategy). This approach was to be repeated in 20/21to inform the next iteration of strategic plans and to enable the 2017 data (and in some cases 2013 data) to form a benchmark for reporting on progress (including the outcomes in the Council Plan and Warrnambool 2040). There is no indication that this commitment is proceeding.
- When adopting the Warrnambool 2040 plan in December 2018 Council committed to 'ongoing leadership to strengthen partnerships, engage the community and report on Warrnambool 2040 initiatives and outcomes' Through its resolution. There is no evidence of this activity in the 20/21 council plan or budget. See extracts overleaf.

#### Extract: Minutes 3 December 2018

#### 5.17. WARRNAMBOOL 2040 - COMMUNITY PLAN

#### PURPOSE:

To adopt the Warrnambool 2040 Community Plan (W2040) and commit to be a founding partner.

#### EXECUTIVE SUMMARY

- The Warrnambool 2040 Community Plan has been developed with input from the community and partner organisations over the past 18 months.
- The extensive community engagement process generated the biggest conversation Warrnambool has ever seen, with thousands of residents sharing their 'Wishes for Warrnambool' and the 'W2040 Community Panel' drafting the Visions and Goals for the 20-year plan.
- The W2040 Plan's outcomes and performance measures were developed with community partners and the plan was finalised by Council's W2040 Working Group, led by the Manager Community Planning and Policy.
- The draft plan/prospectus was distributed to more than 90 potential partners during October. A
  positive response has been received, with approximately 30 organisations of all sizes and from
  all sectors indicating their interest in being a W2040 founding partner.
- The partnership drive will extend into 2019 when the focus will move from organisational partners to a campaign to engage clubs, groups and residents.
- Council is invited to endorse the W2040 Plan and make a commitment as a W2040 founding
  partner by aligning the work of the organisation to support these shared aspirations.

MOVED: Cr. Peter Hulin SECONDED: Cr. Kylie Gaston

- 1. Council adopt the Warrnambool 2040 (W2040) Community Plan and pledge to support the W2040 vision and goals as a founding partner.
- 2. Council commits to ongoing leadership of the W2040 Plan to strengthen partnerships, engage the community, and report on W2040 initiatives and outcomes.

CARRIED - 6:0

#### Extract from Council report recommending adoption of W2040 - 3 December 2018

#### FINANCIAL IMPACT

The extensive community engagement learnings from the W2040 process have been utilised many times to inform the development of plans other than W2040, including: Warrnambool - A Healthy City 2017-2021; Green Warrnambool 2018; Active Warrnambool Strategy; Housing Diversity Strategy; Warrnambool Playspace Strategy and other service plans in development.

The investment in robust and inclusive community engagement delivered Council's strategic planning activities with significant savings in cost and officer time as it has avoided duplicating engagement processes many times over the past 12-18 months. These savings will continue into the future as the engagement survey undertaken in 2017 will be repeated in 2021 to inform the review of the Municipal Health and Wellbeing Plan offer updated insights for all planning processes.

This will deliver a significant and ongoing saving, and improved integration and alignment of Council's Strategic Plans going forward.

Whilst the process to develop the plan is now completed, Council needs to commit resources and build capacity to nurture and grow the W2040 partnerships (both internally and in the community) and undertake ongoing engagement and reporting to keep W2040 as a dynamic and influential plan.

These W2040 activities cannot be absorbed into current operational budgets and additional funding will be required in the future to maximise the returns to the community from the W2040 Plan.

Acknowledgingthat these are unprecedented times is necessary.

However, COVID–19 impacts should not be used as an excuse for neglecting good process, planning, and engagingopenly with the community about what challenges lie ahead for our community and understanding their priorities and how they are changing over time.

Working with the community and informing all Council decisions with data, evidence and community input is critical.

This is a time when transparent processes, engagement and decision making are needed more than ever.

#### Other matters for attention:

- There are no page numbers on the plan or budget, so it is exceedingly difficult to reference sections when making a submission.
- The wrong date is on the first page of the to the A & Is section (2019/20)suggesting the text may have been copied from last year.

Strategic Resource Plan 2020 - 2024	37

#### The Council Plan is a key local government document that sets the strategic direction for the city over the next four years.

t contains a vision and broad objectives that the Council wishes to see achieved for the city. It also describes strategies that will be pursued to achieve the objectives. Allocating resources to deliver on the actions proposed in the Council Plan is done through the development of a Strategic Resource Plan. The Strategic Resource Plan identifies the financial and non-financial resources required by Council over a four-year period. The Strategic Resource Plan is contained at the end of this Council Plan. Council also produces an annual budget which describes objectives and activities over a one-year period and the re-sources that will be allocated to achieve those objectives. This 2020 revision of the Council Plan 2017-2021 aligns Council action with the aspirations in the long-term community plan, Warrnambool 2040 or W2040 which was adopted by Council in December 2018. The visions and goals for Warrnambool's future in the W2040 Plan were developed by the community. These goals will be achieved in partnership with a diverse range of groups, clubs, families, individuals and organisations across the Warrnambool community. Council's role in W2040 is as one of these many partners and as a facilitator of partnership and reporting.

Progress of objectives in the Council Plan is described in quarterly reports at open Council meetings and through the Annual Report.

#### Why have a Council Plan?

Along with providing guidance and certainty around Council direction and actions over a four-year period, the Council Plan is also a requirement under the Local Government Act 1989.

he Local Government Act 2020 replaces the 1989 Act and the sections of the new Act pertaining to the Council Plan will come into effect in October 2020.

The Act states that the Council Plan must include objectives, strategies for achieving these objectives and strategic indicators for monitoring achievement around the objectives. The Council then develops actions and initiatives to deliver on the objectives in the plan. The Council plan is our overt statement to the community of what Council is committed to for the term of the plan. The Community is asked to review what is presented in the plan and Council engages in a comprehensive consultation process with our community to inform the priorities of the plan. This is done through different means over an extended period of time and includes data from many sources. The Council Plan also contains the four-year Strategic Resource Plan, a requirement under the Local Government Act 1989.

#### The role of Local Government

Council derives its role, powers and functions primarily from the Local Government Act (1989) and the new act to which councils are transitioning, the Local Government Act (2020).

he role of a Council is to provide good governance in its municipal district for the benefit and wellbeing of the municipal community.

The 2020 Act specifies the following governance principles and supporting principles:

(1) A Council must in the performance of its role give effect to the overarching governance principles.

(2) The following are the overarching governance principles(a) Council decisions are to be made and actions taken in accordance with the relevant law;

(b)priority is to be given to achieving the best outcomes for the municipal community, including future generations;

(c) the economic, social and environmental sustainability of the municipal district, including mitigation and planning for climate change risks, is to be promoted;

(d) the municipal community is to be engaged in strategic planning and strategic decision making;

(e) innovation and continuous improvement is to be pursued;(f) collaboration with other Councils and Governments and statutory bodies is to be sought;

(g) the ongoing financial viability of the Council is to be ensured;

(h) regional, state and national plans and policies are to be taken into account in strategic planning and decision making;

(i) the transparency of Council decisions, actions and information is to be ensured.

# The Council

## Warrnambool City Council is an unsubdivided municipality with each Councillor elected by all voters.

Seven Councillors were elected in October 2016 for a four-year term. In February 2020 Peter Hulin resigned as a Councillor. Following a countback of votes by the Victorian Electoral Commission Cr Peter Sycopoulis was elected to fill the vacancy. Council holds regular open meetings at which key decisions are made. The seven-member Council was elected in October, 2016. Cr Tony Herbert was elected mayor on October 28, 2019.

Cr Sue Cassidy

Cr Kylie Gaston

Cr Robert Anderson

Cr Peter Sycopoulis

Cr Michael Neoh

Cr David Owen

# The organisation

The Councillors are the decision-makers who, with input from the community, set the vision and strategic direction for the municipality.

The Council's operational staff, some 700 full-time, part-time and casual staff, headed by the Chief Executive Officer, Peter Schneider, help deliver the vision and goals of the Council.

The staff implement Council decisions, provide advice to the Council, help ensure compliance with relevant legislation and assist with the management of resources and assets to provide services to the community.

# The municipality

The Warrnambool municipality is 120sqkm in size and situated in the Great South Coast region of Victoria, 263km south-west of Melbourne.

t contains the coastal city of Warrnambool including Dennington and the towns of Allansford, Bushfield and Woodford.

Warrnambool has a growing population and over recent years has attracted people seeking a seachange and those from the region who are seeking professional and educational opportunities. Recent research by leading firms Deloitte Access Economics and Ipsos has revealed that Warrnambool is considered Victoria's most liveable city. This research considered factors including health and education services, access to natural attractions and housing affordability.

Stunning Lady Bay provides a focal point and major attraction for residents and visitors and in winter and spring the bay is home to southern right whales and their calves.

Warrnambool serves as a centre for a regional population of about 120,000 people. It contains a TAFE college, a Deakin University campus including a School of Medicine and a base hospital which is part of South West Healthcare.

# Our Vision A cosmopolitan city by the sea

A cosmopolitan city by the sec

# Our theme

Growing pride and confidence in the city

The major employment sectors are health care and social assistance, retail, manufacturing, education and training, accommodation and food services, professional services and construction. The Warrnambool Regional Airport accommodates emergency service aircraft including an Ambulance Victoria helicopter. Warrnambool has a moderate climate with an average maximum summer temperature of 24°C, while the average winter maximum is 14°C. The Great South Coast region features major visitor attractions including the 12 Apostles, Tower Hill and Budj Bim National Park. Along with the natural attractions, visi-tors are drawn to events including the speedway car racing, the May Racing Carnival and surf life-saving events.

The region also features some of Australia's most fertile agricultural land much of which is dedicated to dairy and beef production. Major dairy manufacturers and a large meat processor are situated in and around Warrnambool providing a major source of employment.

# Our Objectives

These five objectives support the Council's vision.

- Sustain, enhance and protect the natural environment
   Foster a healthy, welcoming city that is socially and culturally rich
- Maintain and improve the physical places and visual appeal of the city
- . Develop a smarter economy with diverse and sustainable employment
- Practice good governance through openness and accountability while balancing aspirations with sound financial management.

# Our values

In 2018, Council developed and adopted new organisational values. These describe the core ethics or principles which we abide by. They guide staff behaviour, as well as our strategic and operational de-cisions.

# Accountability

We will be responsible and take ownership of our actions and decisions by being ethical, honest and transparent.

### Collaboration

We will foster effective relationships through engagement, communication and co-operation, support-ing decisions and outcomes for the benefit of all.

### Respectfulness

We will treat everyone with dignity, fairness and empathy, providing others with the opportunity to share views and to be heard.

### Progressiveness

We will evolve and grow by encouraging development, change and continuous improvement in all that we do.

### Wellbeing

We will commit to providing a safe and healthy workplace that promotes staff engagement, performance and achievement, allowing all employees to flourish for the benefit of themselves and the organisation.

# OUR PLAN - OUR FUTURE W2D4D.COM.AU Small actions. Big difference.

# The Council Plan & Warmambool 2040

In 2018 Council adopted a long-term community plan for Warrnambool. Thousands of residents and hundreds of clubs, groups and organisations shared their aspirations for the future.

hrough this extensive community-led process, long term visions and goals for Warrnambool's environment, economy, place and people were developed

The plan comprises four key visions for Warrnambool.

### They are:

- 1. People. Warrnambool will be a city where all people thrive.
- 2. Economy. Warrnambool will be Australia's most resilient and thriving regional economy.
- 3. Place. Warrnambool will be Australia's most liveable regional city.
- 4. Environment. Warrnambool will be Australia's most sustainable city.

# A message from the Mayor

# Welcome to the 2020 revision of the Council Plan for 2017-2021

A n annual revision of a Council Plan usually involves some fine tuning with few significant changes.

The impact of COVID-19 on every part of our municipality, our state and our nation have meant that this year's revision does involve more change than would otherwise be anticipated.

While the primary objectives of our Council Plan have not changed, the actions we will take to achieve them have changed as a result of Council operations being profoundly impacted by COVID-19 precautions.

It is also appropriate to acknowledge the impact of COVID-19 on the whole community, with whom Council partners on many projects and initiatives.

The economic and social effects of the pandemic have been profound. Many people have lost work or had their hours reduced. Many businesses have experienced reduced activity and income and those isolating at home have had to overcome the challenges or working remotely and in some cases juggling work with parenting under the one roof. But throughout this enormous disruption the community has responded magnificently.

It has highlighted the caring attitudes and willingness on the part of residents to look out for their neighbours, friends and relatives.

COVID-19 has also seen many businesses start new approaches to delivering goods and services and accelerate the transition to using the digital world to remain viable.

The digital era has made connecting with people perhaps a little easier than before.

The other significant development is the new Local Government Act, adopted by the Victorian Government in March 2020. While the new laws relating to the Council Plan will not be proclaimed until October 2020, among other changes are the requirement for each municipality to have a long-term "community vision", developed by the community. This requirement was anticipated in Warrnambool and the community developed the Warrnambool 2040 long-term plan which has been influencing Council direction over the past two years.

Cr Tony Herbert Mayor

### Warrnambool City Council Agenda for Ordinary Meeting

# A message from the CEO

# The revised Council Plan will help Warrnambool continue to be Victoria's most liveable city.

Ver the coming year work will continue or commence on a number of key projects for which funding has been allocated from other levels of government. The implementation of works contained in the Lake Pertobe Master Plan is one that the community is looking forward to. Council received a Federal Government grant of \$1.45 million to complement Council funding to undertake this project. Work will also continue on the redevelopment of Reid Oval.

There are numerous stakeholders involved in this project and there is much to be done on the planning and scheduling in addition to the on-ground work that will transform this sportsground. Council will also be working with South West TAFE and the wider community on the new library-learning centre. This is an intergenerational project for which there are high expectations. It is anticipated that this project will have a positive impact on education attainment levels within Warrnambool while also continuing to meet the needs of those who are regular library users. On the sustainability front we will have a complete rollout of our Food Organics Garden Organics (FOGO) project. This is a more environmentally sound way to deal with our city's waste and will help reduce our city's greenhouse gas emissions.

The findings of an organisational review undertaken in 2019-2020 will be introduced in the first half of 2021. This review examined whether resourcing levels are appropriate and whether we are making the right efforts in the right areas of our operation. Council will continue to provide a wide range of quality services to the community including family and children's services and other community services including volunteer coordination, youth services and aged services.

Peter Schneider Chief Executive Officer

# Objective: Sustain, enhance and protect the natural environment

Protected waterways, coast and land Preparedness for climate change Options for waste minimisation

Benefit from eco-business

What it means: protected waterways, coast and land; preparedness for climate change; options for waste minimisation, benefit from eco-business.

Warrnambool occupies a unique position as Victoria's largest coastal city outside Port Phillip Bay. Geographically the city is perched on gentle hills and flats by the stunning Lady Bay and between two important South West rivers, the Hopkins and the Merri. Dunes along Lady Bay have been revegetated over the years by willing volunteers while similar efforts have been made to revegetate the banks of the Merri River to restore health to this waterway which is home to a growing number of platypus. Each year thousands of people walk along a sealed promenade that meanders through the dunes the length of Lady Bay.

Warrnambool is renowned for using maremma dogs to protect a colony of Little Penguins which were nearly wiped out through predation by foxes. From a population of fewer than 10 penguins the number has recovered to more than 150. Beyond Lady Bay and its famous Breakwater lies the Southern Ocean. A large section of water off the Breakwater lies within a marine park, which protects the marine flora and fauna. Warrnambool wants to have zero net greenhouse gas emissions by 2040.

This will be achieved through a combination of improving management of waste streams including the introduction of food organics, garden organics (FOGO) collection across the whole municipality and expanding the rollout of energyefficient LED street lighting. Our community also wants to be prepared for climate change with our institutions, agencies, university, industry, business and community leaders developing the response to this great environmental challenge. Our drive to be the most sustainable regional city will draw on the best scientific and Traditional Owner knowledge. Council will investigate the use of potable water and the capture and use of stormwater.

# **Strategies**

- Protect and enhance our waterways, coast and land
- 1.2 Commit to being a carbon neutral organisation by 2040
- Assess our climate change preparedness
- Review options for managing waste Educate and partner with the community on 1.5 Council's sustainability initiatives

# Strategic indicators

- Greenhouse gas emissions reduction of 30% from 2012 levels by 2020
- diverted from landfill
- Increased net visitation to natural attractions in the region
- Net increase in the number of new native plantings and revegetation areas
- 100% delivery of funded vermin control program

# **Existing Strategies and Plans that support** this objective:

- Green Warrnambool Plan
- Climate Change Action Plan
- **Open Space Strategy**
- Sustainable Transport Strategy
- Coastal Management Plan
- Domestic Waste Water Management Plan
- Merri River Restoration Strategy
- St James Park Masterplan
- Waste and Litter Education Strategy
- Port of Warrnambool Safer Boating Launching Master Plan

Alignment with Warrnambool 2040

# Our Environment: Warrnambool will be Australia's most sustainable city.

By 2040 the City of Warrnambool will have zero net greenhouse gas emissions.

arrnambool's energy is sourced from renewable sources.

Warrnambool is a "20 minute City" with a fully connected and comprehensive pedestrian and bicycle path system through the municipality. Vehicular transport is approaching 100% fuelled by renewables.

No neighbourhoods are car-dependent. All have alternative transport options to daily destinations. Warrnambool has continuous loops of off-road walking and cycling trails along all waterways and the coast.

Most children walk or cycle to school most days. Most adults walk or cycle for transport daily. Environmentally Sustainable Design (ESD) principles used for all new developments and upgrades. All new infrastructure designed for the changed and changing climate.

New Council buildings have greater than a 5 green star rating.

Zero Carbon Neighbourhood High level of community awareness about how to avoid and decrease the personal impacts of severe weather events and a changed climate. There are several 'climate resilient' playgrounds in Warrnambool.

Zero recoverable waste to landfill. No littering or pollution to our environment.

No single use, unrecyclable plastic items are used in Warrnambool. Warrnambool has developed a framework for a closed loop economy. Over 330,000 trees planted 90% of Warrnambool's biodiversity corridors planted Increased flora & fauna biodiversity.

No new pest or weed species have been introduced. No indigenous flora or fauna species have become extinct. Key cultural sites are managed by Traditional Owner Partnerships.

Urban Water Sensitive Design principles are used in all infrastructure and open space developments and upgrades. All new developments incorporate roof water harvesting infrastructure.

The Index of Stream Condition for the Hopkins River and Merri River is excellent. Wetlands and riparian areas are graze free zones.

Warrnambool's use of potable water is 20% less than 2019 levels.

The Merri River corridor is a connected series of parklands that support active transport, nature-based recreation and wildlife movement.

Warrnambool urban areas will have 30% canopy cover from vegetation. Over 50% of fresh produce, consumed in Warrnambool is sourced locally, from backyards, community gardens, farmers' markets and local businesses.

# Dojective

# Foster a healthy, welcoming city that is socially and culturally rich

More people healthy and well More people learning More people culturally involved More people connected and participating

Resilience in emergencies

A healthy and safe place to live and study

What it looks like: more people healthy and well; more people learning; more people culturally involved; more people connected and participating; resilience in emergencies; a healthy and safe place to live and study.

Arrnambool has an increasingly culturally diverse and growing population.

Making decisions in the best interest of our resident's health and wellbeing is a high priority for Council. The Warrnambool 2040 vision to be "a city where all people thrive" underpins this Council's strategies and actions. While the health and wellbeing of Warrnambool's residents fares well on some measures (eg rates of physical activity, volunteering and access to open space), like every community, there are issues which require continued effort.

The municipal health and wellbeing plan, Warrnambool - A Healthy City, details the priorities for action and sets the following objectives:

- Promote healthy lifestyles
- increase participation, connection, equity, access and inclusion
- Improve access to education and economic resources

Acknowledgement of the area's rich indigenous history and increasing the opportunities to recognise Warrnambool's first people are important for Council.

Council will seek opportunities to work in partnership with our indigenous community to better acknowledge local Aboriginal culture. Warrnambool is an education city, providing opportunities for students to come to the city from outside the region to study – and for the region's young people to obtain a qualification closer to home. The W2040 process found residents want the city to be welcoming and inclusive city, that is healthy, safe, and connected.

Living an active life is a significant part of the regional lifestyle and the city's residents have access many sporting and recreational pursuits, and the natural environment. The new Active Warrnambool Strategy aims to ensure residents have opportunities to participate in physical activity to stay healthy and socially connected into the next decade.

# Strategies to achieve this objective

- 2.1 Promote healthy lifestyles
- 2.2 Increase participation, connection, equity, access and inclusion
- 2.3 Increase community health and social connections
- 2.4 Encourage and support participation in sport, recreation and physical activity
- 2.5 Encourage and support more lifelong learning2.6 Engage a broader range of people in cultural
- 2.6 Engage a broader range of people in cultural activities
- 2.7 Actively acknowledge local Aboriginal culture
- 2.8 Increase participation opportunities for d isadvantaged members of the community

# Existing strategies and plans that support this objective:

- Warrnambool a Healthy City 2017-2021
- Community Services and Infrastructure Plan
- Sustainable Transport Strategy
- Active Warrnambool (under development)
- Open Space Strategy
- AquaZone Strategy 2025
- Brierly Recreation Reserve Master Plan

### **Strategic indicators**

- Improved health and wellbeing indicators above 2016 recorded levels
- Increased rates of volunteering above 2017-2018
   levels
- Education attainment indicators higher than 2017
   levels
- Tertiary education participation rates higher than
   2017 levels
- Participation in health and wellbeing campaigns/ initiatives
- Total numbers of Participation in community engagement activities
- High quality accreditation across Early Years
   Services maintained at current levels or better
- Improving Australian Early Years outcomes over the next 10 years
- Reducing inequity across key health and wellbeing domains in Warrnambool
- Immunisation rates at or above 2018 levels
- Botanic Gardens Master Plan
- Lake Pertobe Master Plan
- Allansford Recreation Reserve Master Plan
- Road Users Plan Municipal Emergency
- Management Plan
- Municipal Emergency Recovery Plan
- Heatwave Plan
- Pandemic Plan
- Public Art and Cultural Management Plan

# Our People: Warrnambool will be a city where all people thrive

By 2040 all residents are respectful, accepting and welcoming to people of all ages, abilities, cultures, races, ethnicities, sexual orientation and faiths or religions.

Il residents know their neighbours, feel safe walking on the street at night, volunteer and have attended a community event or activity in the past month. Family violence and all violent crime rates have dropped to be the lowest in Victoria. Health and well-being is a fundamental priority for all workplaces, community Plan Partners, clubs, groups, families and individuals.

All residents have a healthy diet, are sufficiently physically active and make informed and healthy choices about alcohol and drug use.

High quality and wide-ranging healthcare (physical and mental) and community services are more accessible to Warrnambool's residents than they were in 2017.

Aboriginal culture is respected and proudly celebrated by the local community and shared with visitors to the City. Health, educational, economic and social disadvantage no longer exists for Aboriginal people. Traditional Owners lead the City's environmental and cultural heritage management and have direct involvement in whole of community decision making and governance.

Learning about Indigenous culture, history and local language is commonplace in schools and workplaces. Most natural attractions and significant places are known by their Aboriginal names (where deemed appropriate by Traditional Owners). There are strong links between local business and industry and learning institutions of all types.

University and TAFE courses available in the city attract students from within and outside Warrnambool and offer recognised qualifications and training outcomes which meet the needs of the region's industries.

Warrnambool's rate of school completion (Year 12 or equivalent) is the highest in regional Victoria. All children are developmentally on track in all five domains of the Australian Early Years Census. All children attend early years' education and kindergarten before starting school. Lifelong learning opportunities are accessible to all residents. Attachment 5.2.2

# lobiective

# Maintain and improve the physical places and visual appeal of the city

More of our city connected

More vibrancy in our city More fit-for-purpose infrastructure Greater amenity and ease of movement Be proud of what we already have

What this looks like: more of our city connected; more vibrancy in our city; more fit-for-purpose infrastructure; greater amenity and ease of movement; and pride in what we have already

Arrnambool aims to have well-designed commercial, residential, cultural and recreational precincts that are attractive, activated, accessible, sustainable, adaptable, multi-use and safe.

Warrnambool residents take great pride in the appearance of their city, its built environment and open spaces. They want their city to be the most liveable in regional Australia.

As key infrastructure is renewed or replaced and as new residential areas become available Council considers connections to shops, parks and public transport services. In recent years Council has worked on ensuring better connections for pedestrians and cyclists.

Shared pathways have been constructed along Moore and Koroit streets, pedestrian bridges have been built over Russells Creek along Daltons Road and over the Merri River at Wellington Street. Pedestrian bridges at Lake Pertobe have also been progressively replaced and a number of bicycle lanes have been added to streets in the city centre. Population forecasts and improved geographic and social mapping allow us to plan more effectively for the future.

Council is committed to maintaining its road network and to obtain the best possible value through shared contracts and new maintenance techniques.

Considerable effort is now focused on the lifetime cost of maintaining an asset through its serviceable life.

# Strategies to achieve this objective

- 3.1 Enhance movement in and around the city including better connections for cyclists and pedestrians
- 3.2 Create a more vibrant city through activating high quality public places
- 3.3 Build infrastructure that best meets current and future community needs
- 3.4 Maintain and enhance existing Council infrastructure
- 3.5 Advocate for better regional connections

# **Strategic indicators**

- Reduced asset renewal gap from 2017
- Results of Community satisfaction survey in relation to appearance of public places
- Local Government Performance Reporting indicators (roads and animal management) at 2017 levels or better

# Existing strategies and plans that support this objective:

- AguaZone Strategy 2025
- Brierly Recreation Reserve Master Plan
- Active Warrnambool Strategy (under development)
- Open Space Strategy
- Botanic Gardens Master Plan
- Lake Pertobe Master Plan
- Community Services and Infrastructure Plan
- City Centre Structure Plan
- Retail Strategy
- Citywide Housing Strategy
- Housing Diversity Strategy Heritage Strategy
- Industrial Land Use Review
- Structure Plans (growth areas)

# Other policies which influence the way we work:

- Creative State Strategy, Victorian State Government, 2016
- VicHealth Action Agenda, 2013-2023

Attachment 5.2.2

Alignment with Warrnambool 2040

# Our Place: Warrnambool will be Australia's most liveable regional city

By 2040 Warrnambool is the most liveable regional city in Australia (according to the IPSOS Life in Australia Survey).

Arrnambool's liveability is a key feature of the city's identity across Victoria. Affordable, decent and appropriate housing is available for all.

No one is homeless.

Utility costs are negligible and affordable for all as all properties are self-sufficient for their energy and water needs. Warrnambool is an accessible place for people of all ages, genders and abilities.

Warrnambool is known as a leading World Health Organisation Age-Friendly City and continues to plan and invest to retain this reputation.

Warrnambool is recognised as an excelling member of the Welcoming Cities Network.

Warrnambool is a compact city whose population is accommodated within the growth boundary that existed in 2017. 10,000 residents will live in Central Warrnambool by 2040 (3800 in 2016).

No neighbourhoods are car-dependent. All have alternative, sustainable transport options, to daily destinations.

All daily destinations (work, school, shopping, recreation, health services) are all accessible in less than 20 minutes by sustainable travel.

Warrnambool has continuous loops of off-road walking and

cycling trails along all waterways and the coast.

Most adults walk or cycle for transport daily.

No road accidents in the City result in serious injury or death for drivers, cyclists or pedestrians. Shared, autonomous, electric vehicles (SAEVs) are operating effectively in the city.

Travelling time by train between Melbourne and Warrnambool has been reduced to two hours.

Road design and quality safely accommodates autonomous vehicles.

Warrnambool's Regional Airport meets the needs of business & industry, tourism and local residents. Warrnambool's population is accommodated within a compact city which has high quality commercial and public places and regional-level community facilities which are accessible to all residents.

Warrnambool has high-quality, regional-level arts, cultural and recreational facilities which are activated and programmed to meet the needs of the whole community and to attract visitors. Warrnambool's vast network of open space is valued, protected and enhanced and is recognised as vitally important for Warrnambool's residents and visitors.

Warrnambool's public spaces are thriving with activity and investment by the public and private sectors and the community.

Warrnambool's high quality community facilities and assets are well maintained and there is an agreed a strategy for renewal which is and funded to ensure their sustainability.

20

# <section-header>

More people

More sustainable local economy More beneficial visitor economy

More modern infrastructure

Warrnambool functions as the commercial, health care and educational centre of the South West.

The city, which regularly records low unemployment levels, is a key service centre for a prosperous agricultural region that produces a third of the Victoria's dairy product, a third of its beef, a third of its lamb and a quarter of its wool.

The city has a population of 35,000 and this figure is forecast to approach 50,000 by 2035. Warrnambool is a highly liveable coastal regional city with a strong track record of steady and sustained population and economic growth.

Our renowned liveability encourages population and workforce attraction, which in turn supports the economy. Warrnambool's ongoing economic challenge is to create employment opportunities in the City to keep pace with population growth.

Based on population growth forecasts there will be a need for our city to create more than 4,000 new jobs over the next 20 years. Some of the growth in our economy will be the result of thinking globally.

We need to work together to understand and develop capability around trading in global markets and to derive economic benefits from international tourism growth. Improvements have been made and continue around the frequency, speed and reliability of rail services between Warrnambool and Melbourne.

A \$10 million upgrade 20 rail crossings will assist travel times and reliability while a further \$114 million has been committed to improving the rail, building a passing loop and introducing faster VLocity trains.

The Princes Highway West continues to present challenges. The single lane highway requires an upgrade to improve the quality of the road, safety and the speed at which traffic, including freight, can move.

The rollout of NBN to Warrnambool was ahead of the original schedule, in part due to the installation of a new Telstra telecommunications exchange following a fire in 2012. The higher speed digital connections through the NBN provide opportunities for local business. The city has a residential land supply of more than 25 years. Land near the eastern entrance to the city was also rezoned to create a supply of industrial land.

The city offers excellent vocational and tertiary education options. It is home to the main campus of the South West Institute of TAFE and Deakin University's Warrnambool campus, provides opportunities for a unique education experience with a university ranked in the top two per cent of the world's universities and in the top 50 worldwide of universities under 50 years old. By 2040 the Warrnambool community wants its city to have Australia's most resilient and thriving regional economy.

# Strategies to achieve this objective

- 4.1 Grow the city's population through local economic growth
- 4.2 Encourage more sustainable local business
- 4.3 Enhance the visitor experience
- 4.4 Advocate for and improve infrastructure including transport, services and digital infrastructure
- 4.5 Create stronger links between education providers, business and industry

# **Strategic indicators**

- Investment from government and private sector
- Gross Regional Product
- Education attraction of international students
- Planning decisions decisions upheld at the Victorian Civil and Administrative Tribunal
- Visitation increase and yield overnight stays

### Existing strategies and plans that support this objective:

- Economic Development Strategy
- Great South Coast Food and Fibre Plan
- Flagstaff Hill Navigate 2017 Plan
- Surfside Holiday Park Development Plan

# Our Economy: Warrnambool will be Australia's most resilient & thriving

# By 2040 people living in and around Warrnambool have flexible work and enjoy the option to work globally from the city.

here is a vibrant digital technology sector that employs an increasing range of professional, creative and technical staff.

New and existing services are available that help the community and business build their digital capacity including public libraries, and community and adult education providers.

Achieve Gross Regional Product growth in line with Victoria state average.

Warrnambool attracts and trains enough skilled workers to meet the needs of local industry.

Regional programs that help supply the skill needs of regional employers are provided and promoted.

Achieve a minimum 15 years supply of undeveloped land (commercial, industrial and residential). An active and

sustainable peak body that provides a united voice for Warrnambool business and industry.

Maintain and grow collaborative arrangements between cross border, and regional councils and interest groups. Maintain upward trend in relation to Domestic and International Overnight Visitors to Warrnambool Great South Coast region generates the largest value (\$) of agricultural output (\$) by region in Aus-tralia Warrnambool is recognised as an excelling member of the Welcoming Cities Network.

Warrnambool is the most liveable regional city in Australia (according to the IPSOS Life in Australia Survey).

Warrnambool's liveability is a key element of the city's identity and brand nationally. Due to its high quality lifestyle, Warrnambool is recognised as the ideal regional location for flexible and remote workers who work globally. 99

# Objective Practice good governance through openness and accountability while balancing aspirations with sound financial management

# Council will provide strong advocacy for the community and region.

t will practice transparent decision-making while delivering services efficiently and effectively.

In delivering good governance Council has an opportunity to share with the community the challenges for future service planning and provision though increased engagement with the broader community.

Greater communication with the community also helps

build community understanding of Council's role and provides insights into how engagement has helped inform decision-making.

The successful delivery of the Council Plan depends on people and Council striving to ensure that the working environment at Council sites promotes a positive staff culture with people enjoying their work and provided with the appropriate level of resourcing to deliver on the objectives in the Council Plan. Council is also committed to working in partnership with the community to achieve the long-term visions set out in the Warrnambool 2040 Plan.

# Strategies to achieve this objective

- 5.1 Provision of opportunities for the community to actively participate in Council's decision-making through effective promotion, communication and engagement.
- 5.2 Develop policies, strategic plans and processes to address local and regional issues, guide service provision and ensure operational effectiveness.
- 5.3 Ensure financial sustainability through effective use of Council's resources and assets and prudent management of risk.
- 5.4 Deliver customer-focused, responsive services.
- 5.5 Foster an encouraging and positive staff culture.

# **Strategic indicators**

- Budget and Strategic Resource Plan outcomes at forecast levels
- Local Government Performance Reporting Framework - outcomes at 2017-2018 levels or better
- Annual Community Satisfaction Survey at 2018 levels or better

# Achieving our objectives Actions and initiatives 2020-2021

# Objective 1. Sustain, enhance and protect the natural environment

Strategy	Actions and initiatives
1.1 - Protect and enhance our wa- terways, coast and land.	1.1.1 Complete a Domestic Wastewater Management Plan.
	<b>1.1.2</b> Ensure all septic tanks meet EPA guidelines and requirements.
	<b>1.1.3</b> Review recycling practices in the city and develop short and long-term options for recycling processing.
	1.1.4 Ensure compliance with Local Laws relating to horses on Lady Bay.
1.2 - Commit to being a carbon	<b>1.2.1</b> Deliver street lighting energy efficiency replacement program.
neutral organisation by 2040.	<b>1.2.2</b> Continue to reduce reliance on landfill by diverting organic material from waste streams.
1.3 Assess our climate change preparedness	<b>1.3.1</b> Review and implement findings of the climate change adaptation audit.
1.4 - Review options for managing waste.	<b>1.4.1</b> Investigate opportunities for waste to energy to reduce reliance on landfill.

Strategy	Actions and initiatives				
2.1 - Promote healthy lifestyles.	<b>2.1.1</b> Encourage social connection and promote active living in public spaces.				
	<b>2.1.2</b> Increase understanding of priority health and wellbeing issues in the community.				
	<b>2.1.3</b> Ensure premises operating under the Food Act and Public Health Act are inspected before a renewal of registration is granted.				
	<b>2.1.4</b> Provide communications support to promote Council services and facilities.				
	2.1.5 Implement Warrnambool - A Healthy City 2017-2021.				
	2.1.6 Ensure compliance with the Tobacco Act and MAV Tobacco Agreement.				
	<b>2.2.1</b> Children with the highest needs within the community are identified and offered support through the Early Years Continuum.				
	<b>2.2.2</b> Strengthen and further develop the central enrolment process for kindergartens which respond to policy direction emerging from the Early Years Reform.				
	<b>2.2.3</b> Foster relationships between early years services and culturally diverse families, to make sure our services are safe and responsive to their cultural needs.				
	<b>2.2.4</b> Continue to develop a kiosk information centre for families to navigate children's services and activities within the community.				
	<b>2.2.5</b> Ensure that the Commonwealth Home Support program meets and maintains all quality service standards as established by the Commonwealth Government.				
	<b>2.2.6</b> Partner with local agencies and organisations to address health and wellbeing priorities.				
2.2 - Increase participation, con- nection, equity, access and inclu- sion.	<b>2.2.7</b> Support the collection and sharing of consistent data and evidence to inform strategic and service planning.				
SIOH.	<b>2.2.8</b> Encourage residents to be prepared for emergencies, increase awareness of local emergency alerts/warnings and share preparedness resources and information with residents.				
	<b>2.2.9</b> Embed child safety standards across the Early Years Learning and Development Unit.				
	<b>2.2.10</b> Ensure regional assessment targets are met and that quality processes are adhered to.				
	2.2.11 Implement Council's wellness, reablement and diversity plans.				
	<b>2.2.12</b> Continue to monitor and deliver agreed annual priorities of the State Government Early Childhood Reform Plan across all Early Years Learning and Development services and alliance networks.				
	<b>2.2.13</b> Complete the principle pedestrian network plan to inform future investment in our pathways and support sustainable transport.				
	2.2.14 Continue to implement Council's Disability Action Plan.				

# Objective 2. Foster a healthy, welcoming city that is socially and culturally rich

Strategy	Actions and initiatives
	<b>2.2.15</b> Establish a parenting program supporting the needs of fathers within the community.
	<b>2.2.16</b> Maintain and enhance child immunisation rates (from 95 per cent coverage).
	<b>2.2.17</b> Develop a proposal for the development of fit-for-purpose immunisation facilities.
	<b>2.3.1</b> Complete the Age Friendly Communities Project.
2.3 - Increase community health and social connection.	<b>2.3.2</b> Establish and deliver a Neighbourhood House program in the West Warrnambool Community.
	<b>2.3.3</b> Early childhood services know how to respond and reduce harm related to childhood trauma.
	<b>2.3.4</b> Provide increased services through the Enhanced Maternal and Child Health (MCH) Service to support children up to the age of three years.
	<b>2.3.5</b> Work with the system provider to further improve functionality within the KidsXap system for Outside School Hours Care.
	<b>2.3.6</b> Analyse impact of childcare subsidy and other sector reforms on the Outside School Hours Care operating model.
	<b>2.3.7</b> Review and further develop operational procedures and resources for Emergency Relief Centre Activation at Warrnambool Stadium.
	<b>2.3.8</b> Establish Archie Graham as a key provider of health and wellbeing information, activities and opportunities for older adults and other community groups.
	<b>2.3.9</b> Continue to support and grow active volunteerism within the local community.
	<b>2.3.10</b> Increase connectedness and build health and wellbeing knowledge of local people via social media.

# Objective 2. Foster a healthy, welcoming city that is socially and culturally rich

Strategy	Actions and initiatives				
	<b>2.4.1</b> Upgrade the gymnasium's strength equipment at AquaZone.				
	<b>2.4.2</b> Explore facility management software or web-based solution for Warrnambool Gymnastics Centre.				
	<b>2.4.3</b> Manage facilities and equipment to support domestic indoor sports competitions, tournaments and events at Warrnambool Stadium.				
2.4 - Encourage and support par- ticipation in sport, recreation and	<b>2.4.4</b> Coordinate and administer casual and seasonal tenancy use, including fees and charges for use of Council's outdoor sports grounds.				
physical activity.	<b>2.4.5</b> Coordinate the implementation of IMS Reserves Manager program with all of Council's sports ground user groups to manage and administer club seasonal allocations, licence agreements and casual sports ground bookings.				
	<b>2.4.6</b> Implement the Merrivale Recreation Reserve irrigation, electrical upgrade and lighting improvement project.				
	2.4.7 Implement Stage 1 of the Lake Pertobe Master Plan.				
	<b>2.4.8</b> Implement the AquaZone Operational Plan and make improvements to drive increased visitation.				
	2.4.9 Commence implementation of the Active Warrnambool Strategy.				
	2.4.10 Continue implementation of the Reid Oval Redevelopment Project.				
	2.4.11 Complete the upgrade to AquaZone's water treatment system.				
	<b>2.5.1</b> Review current kindergarten models in preparation of the govern- ments introduction for funded programs for three-year olds in line with the State Government's early years reform.				
	<b>2.5.2</b> Deliver Youth Leadership programs that a range of young people can access.				
2.5 - Encourage and support more lifelong learning.	<b>2.5.3</b> Continue implementation of the Library and Learning Centre project in conjunction with South West TAFE.				
	<b>2.5.4</b> Continue to provide high quality early years programs within early years services that prepare children to develop to their full potential.				
	<b>2.5.5</b> Continue to improve school readiness outcomes through the implementation of the DET School Readiness Funding.				

# Objective 2. Foster a healthy, welcoming city that is socially and culturally rich

# Objective 3. Maintain and improve the physical places and visual appeal of the city

Attachment 5.2.2

Strategy	Actions and initiatives		
3.1 - Enhance movement in and around the city including better connections for cyclists and pedes-trians.	<b>3.1.1</b> Consider the recommendations from the Cycling Reference Group and implement any actions adopted by Council.		
3.2 - Create a more vibrant city	3.2.1 Implement the key initiatives of the Open Space Strategy .		
through activating high quality pub- lic places.	3.2.2 Implement an Open Space Contributions Policy		
	<b>3.3.1</b> Complete a review of the City Centre Car Parking Strategy.		
	3.3.2 Complete the Changing Places Facility Project.		
	<b>3.3.3</b> Develop and expand off-street parking areas.		
3.3 - Build infrastructure that best meets current and future communi-ty needs.	<b>3.3.4</b> Develop and adopt a Playspace Strategy.		
	<b>3.3.5</b> Prepare a strategy and funding model for a long-term tree replacement program.		
	3.3.6 Progressively plan and renew City Centre streetscapes.		
	<b>3.3.7</b> Upgrade of one public amenities building.		
	<b>3.3.8</b> Develop "significant & heritage" tree renewal program.		
3.4 - Maintain and enhance existing Council infrastructure.	<b>3.4.1</b> Complete service level reviews for parks and gardens and roads and drainage services.		
	<b>3.4.2</b> Identify and regularly monitor condition of asset classes.		
	<b>3.4.3</b> Update asset management plans for asset classes including drainage, roads, open space, IT, buildings and monuments.		
	<b>3.4.4</b> Investigate funding opportunities to renew heritage assets such as Cannon Hill armaments, the Portuguese monument and Wollaston Bridge.		
3.5 - Advocate for better regional	<b>3.5.1</b> Advocate for essential safety and road improvements on the Princes Highway West.		
connections.	<b>3.5.2</b> Seek funding for and deliver road safety projects.		
	<b>3.5.3</b> Advocate for improved passenger and freight rail services.		

Strategy	Actions and initiatives
	<b>4.1.1</b> Deliver the Designated Area Migration Agreement (DAMA) representative role for the Great South Coast region and the Regional Certifying Body function on behalf of the Great South Coast.
	<b>4.1.2</b> Develop and circulate economic data and analysis to business and industry.
	4.1.3 Deliver Social Housing Planning Project.
4.1 - Grow the city's population through local economic growth.	<b>4.1.4</b> Provide executive support to implement the Great South Coast Food and Fibre Plan.
	<b>4.1.5</b> Implement Warrnambool - China Strategy to build local business capacity and capability.
	<b>4.1.6</b> Facilitate and promote business support initiatives to grow the local economy.
	<b>4.1.7</b> Plan for the development and implementation of precinct structure plans.
	<b>4.2.1</b> Continue to facilitate and implement place-making initiatives.
4.2 - Encourage more sustainable	<b>4.2.2</b> Support the development of new tourism and economic development proposals, including Crown Land proposals where appropriate.
4.2 - Encourage more sustainable local business.	<b>4.2.3</b> Deliver a business case for a Business Incubator/Accelerator to support growth of existing companies or start-ups in our region.
	<b>4.2.4</b> Implementation of Development Plans and Developer Contributions Plans.
	<b>4.3.1</b> Deliver a population attraction campaign supported by a Victorian Government grant.
	<b>4.3.2</b> Produce and implement a Strategic Plan for the Holiday Parks (Surfside & Shipwreck Bay).
4.3 - Enhance the visitor experi- ence.	<b>4.3.3</b> Partner with Great Ocean Road Regional Tourism (GORRT) and other stakeholders to implement the recommendations of the Warrnambool Destination Action Plan.
	<b>4.3.4</b> Support the activities of the Great Ocean Road Regional Tourism Board.
	<b>4.3.5</b> Support and advocate for the implementation of initiatives in the Shipwreck Coast Master Plan.
	<b>4.3.6</b> Continue to implement actions of the 2018-2022 Events Strategy.
4.4 - Advocate for and improve infrastructure including transport,	<b>4.4.1</b> Provide advocacy support material and report on advocacy out- comes.
services and digital infrastructure.	<b>4.4.2</b> Participate in regional leadership groups and alliances to advocate for improved transport, services and digital infrastructure.
4.5 - Create stronger links between education providers, business and	<b>4.5.1</b> Continue to partner on projects and initiatives with Deakin University Warrnambool and South West TAFE.
industry.	<b>4.5.2</b> Deliver education and advisory services to business and industry to raise awareness of building regulation requirements.

# Objective 4 - Develop a smarter economy with diverse and sustainable employment.

# **Objective 5. Practice good governance through openness and accountability while balancing aspirations with sound financial management.**

Strategy	Actions and initiatives				
	5.1.1 Prepare for the 2020 Council elections.				
5.1 - Provision of opportunities for the community to actively participate in Council's decision-	<b>5.1.2</b> Review the approach to Council meeting procedures to improve the accessibility and transparency of meetings.				
making through effective promotion, communication and engagement.	<b>5.1.3</b> Report on the extent and engagement with Council's communications measures.				
	<b>5.1.4</b> Provide community engagement opportunities relating to Council projects as required and funded.				
	<b>5.2.1</b> Identify and report on changes to Council operations, policies and procedures in line with the new Local Government Act.				
	<b>5.2.2</b> Support reviews of Council's Governance Framework (systems and policies)				
	<b>5.2.3</b> Undertake human resource function process mapping exercise in order to identify opportunities to enhance current HR practices.				
	<b>5.2.4</b> Demonstrate efficiencies via enhanced business processes and the improved utilisation of IT resources.

	<b>5.2.6</b> Embed and align Warrnambool 2040 (W2040) goals within Council's strategic planning and reporting processes.				
	5.2.7 Develop a Municipal Early Years Strategy.				
	<b>5.2.8</b> Lead the delivery of an organisational structure review in order to remain a contemporary employer and provide the community best value service delivery.				
tional effectiveness.	5.2.9 Refresh the IT Strategy.				
	5.2.10 Improve the resilience of IT Systems.				
	<b>5.2.11</b> Participate in shared services project - TechnologyOne - with Moyne and Corangamite shires.				
	<b>5.2.12</b> Partner with the community implement the W2040 Community Plan.				
	<b>5.2.13</b> Review and embed staff training, development and wellbeing programs in order to drive enhanced employee engagement and culture.				
	<b>5.2.14</b> Implement workplace actions to educate and build capacity of Council staff regarding gender and diversity equity and family violence issues.				
	<b>5.2.15</b> Improve record-keeping compliance by improving the use of Council's Electronic Content Management (ECM) system.				

Strategy	Actions and initiatives
	<b>5.2.16</b> Undertake community engagement to inform a new Municipal Public Health and Wellbeing Plan 2021-2025.
	<b>5.2.17</b> Undertake community engagement to inform a new four-year Council Plan.
5.3 - Ensure financial sustainability	<b>5.3.1</b> Collaborate with other Councils to explore in-house risk services or contracted services that can be shared at a regional level to minimise costs and maximise the value for money for the community.
through effective use of Councils resources and assets and prudent	5.3.2 Ensure effective Business Continuity Planning (BCP) is in place.
management of risk.	<b>5.3.3</b> Embed risk management within Council to influence key strategic and operational decision-making.
	<b>5.3.4</b> Review and update the Long Term Financial Plan to ensure Council remains financially sustainable into the future.
	5.3.5 Coordinate, prepare and have adopted Councils Annual Budget.
	<b>5.3.6</b> Review Council-owned property with consideration of rental agreements, property valuations and disposal of surplus land.
	<b>5.3.7</b> Coordinate, prepare and have adopted Councils Strategic Resource Plan.
	<b>5.4.1</b> Review Council's complaint handling processes in line the draft Local Government Act changes and Ombudsman's guidelines.
	<b>5.4.2</b> Enhance organisational awareness of Victoria's Child Safe Stan- dards.
5.4 - Deliver customer-focused, responsive services.	<b>5.4.3</b> Undertake a review of the Customer Service Strategy 2019-2020 to establish timeframes and responsibilities against the actions identified within the plan.
	<b>5.4.4</b> Conduct a review of community housing assets as they become vacant and undertake a broader review of Council's community housing program.
	<b>5.4.5</b> Maintain and implement the Home Support Program continuous improvement plan and self-assessment tool.
5.5 - Foster an encouraging and positive staff culture.	<b>5.5.1</b> Continue implementation of priority actions arising from the staff survey.

Warrnambool City Council Agenda for Ordinary Meeting

# Strategic Resource Plan 2020-2024

🌽 www.warrnambool.vic.gov.au 🛛 Connect to Council 🖪 🗹 🗟 🗃

### Purpose

The Strategic Resource Plan (SRP) has been developed to provide the following outcomes for Warrnambool City Council:

- establish a prudent and sound financial framework, combining and integrating financial strategies to achieve a planned outcome
- establish a financial framework against which Council's strategies, policies and financial performance can be measured against
- ensure that Council complies with sound financial management principles, as required by the Local Government Act (1989) and plan for the long-term financial sustainability of Council (Section 136)

The Strategic Resource Plan will be utilised to facilitate the strategic planning of projects and initiatives which deliver outcomes against the Council Plan and Community Plan (Warrnambool 2040).

### Background

The *Local Government Act 1989* (the Act) requires council to prepare a strategic resource plan (SRP) for at least the next four financial years that describes both the financial and non-financial resources required to achieve the strategic objectives in the council plan. In preparing the SRP, council must take into account services and initiatives contained in any plan adopted or proposed to be adopted by council.

The SRP forms part of Councils integrated planning framework as set out below.

The council plan includes the strategic objectives, strategies for achieving these for at least the next four years and strategic indicators for monitoring achievement of the strategic objectives. The SRP is a plan of the resources for at least the next four years required to achieve the strategic objectives in the council plan. The SRP informs the preparation of the budget which is a plan that describes the services and initiatives to be funded and how they will contribute to the achieving the strategic objectives in the council plan.

### Objectives of the plan

The overall objective of the SRP is to ensure financial sustainability in the medium to long term, while still providing sufficient resources to achieve the council plan strategic objectives. The key objectives which underpin the SRP over the next four years are:

- Achieve at a minimum a breakeven adjusted underlying result;
- Maintain existing services and service levels where practicable;
- Achieve a balanced budget on a cash basis;
- Meet councils asset renewal requirements;
- Hold sufficient cash and other assets to meet payment obligations as they fall due;
- Maintain debt at moderate levels to allow capacity to fund future infrastructure.

In preparing the SRP, council has also been mindful of the need to comply with the principles of sound financial management in the Act which requires council to:

- prudently manage financial risks relating to debt, assets and liabilities;
- provide reasonable stability in the level of rate burden;
- consider the financial effects of council decisions on future generations;
- provide full, accurate and timely disclosure of financial information.

### How the plan was developed

This SRP has been developed through a rigorous process and is based on the following key information:

- audited financial statements as at 30 June 2019;
- assumptions provided by council service providers about changes in future income and expenditure;
- assumptions provided by council capital works expenditure providers about requirements for future asset renewal, expansion, upgrade and new assets;
- assumptions provided by finance regarding future changes in assets, liabilities and equity;
- information provided by the executive management team and council;
- assumptions provided by the executive management team about the impact of COVID19,

The financial projections included in the SRP have been developed using a 'four-way' budget model. This methodology enables the linking of the comprehensive income statement, balance sheet, statement of cash flows and statement of capital works.

### Assessment of council's current financial position

An assessment has been undertaken of the council's current financial position to identify any significant matters which may impact on the SRP. A summary of the budgeted and forecast financial results for the 2019-20 year are in the following table.

Result	Adopted Budget 2020 \$'000	Forecast Actual 2020 \$'000	Variance Fav/ (Unfav) \$'000
Surplus/(deficit) for the year	6,434	8,159	1,725
Underlying Surplus/(deficit) for the year	968	(1,390)	(2,358)
Cash and investments	10,933	11,604	671
Capital works expenditure	19,394	25,384	(5,990)

An underlying deficit of \$1.39 million is forecast to be achieved, compared with an original budgeted underlying surplus of \$0.97 million. The main driver of this is the impact of COVID19 on the closure of Councils operating facilities. Council is reducing the amount of capital works to help offset the operating losses.

Cash and investments are forecast to be \$11.60 million compared with an original budget of \$10.93 million. The forecast \$0.67 million favourable variance is driven from the collection of grant monies for the City Centre renewal project in 2019/20, with the work being completed in prior financial years.

Capital works expenditure is forecast to be \$25.38 million compared with an original budget of \$19.39 million. The forecast \$5.99 million variance is mainly due to the timing of the Reid oval project.

Significant matters arising from the assessment of council's current financial position, which are expected to impact on the SRP includes:

- the ongoing impact and uncertainty of COVID19 on the Council and community will impact Council services, hardship provisions and recovery packages;
- the changes in the recycling industry continue to have a significant impact on Council;
- the joint project with TAFE for a new library and learning centre will substantially increase the size of floor space and service which will impact the ongoing operating costs;
- the upgrade of the Reid Oval to a premier sports field will impact the operating costs;
- it is expected that the value of the carried forward capital works expenditure would be approximately \$5.00 million.

### Key challenges in the SRP

The revision of the SRP represents a critical strategic document for Warrnambool City Council. The key challenges are Councils ability to continue to deliver a wide range of services to the region along with maintaining and upgrading assets to a regional standard whilst preserving the long-term financial sustainability.

In the face of a new legislative environment however, the challenges in this LTFP are very much around what actions Council can take to mitigate the very significant impacts of a restriction on Council's ability to raise revenue into the future.

The impacts and uncertainty of COVID19 presents a unique challenge to Council in attempting to balance the needs of the community, continue to provide service provision where possible, support the local economy and retain/rebuild a workforce when the restrictions are lifted.

### COVID-19

Council is directly impacted from the restrictions in place to control the spread of COVID19. In April 2020, a number of Council facilities have closed including Aquazone, Flagstaff Hill, Lighthouse Theatre and the Holiday Parks. Council is estimating that the closure of these facilities would have a direct impact in terms of lost revenue of more than \$10m until the end of the 2020 calendar year. To ensure Council remains financially sustainable a number of non-essential capital works and projects have been postponed to future years or will not proceed.

Council's major expense at the impacted facilities is salary and wages. Council has attempted to redeploy staff where possible, however without Federal or State Government assistance, staff stand downs will be required until the facilities are able to reopen.

### **Capping of Council rates**

The Victorian Government has established the Fair Go Rates System (FGRS), which restricts Council from increasing rate income in a year. Each year the Minister for Local Government will set the rate cap that will specify the maximum increase in councils' rates and charges for the forthcoming financial year. Where the level of income raised under the rate cap is insufficient to meet specific needs, councils can apply to the Essential Services Commission for a higher cap.

The Minister for Local Government announced that Victorian council rate rises would be capped to the rate of inflation in the 2020-2021 financial year. That is, the Consumer Price Index (CPI) as published by the Victorian Department of Treasury and Finance, which is 2.00 per cent for the 2020-2021 financial year.

Council did successfully apply to the Essential Services Commission for a variation to rate cap for the 2019/20 and 2020/21 financial years.

Given the current economic situation due to COVID19, Council is not applying the rate cap variation in 2020/21. However, the position of Council remains the same as per the business case submitted to the Essential Services Commission in 2019. Council has a backlog of asset renewal and the current funding towards asset renewal will see the backlog increase over time. The implication of this will be decreased asset quality levels and potentially the decommissioning of community assets.

Therefore, Council is anticipating a future rate cap variation in the 2022/23 financial year to assist with the asset renewal backlog.

	2021	2022	2023	2024
	%	%	%	%
General Rate	2.00	2.00	2.00	2.00
Growth	1.00	1.00	1.00	1.00
Rate cap variation	0	0.00	2.00	0.00
Waste Management Charge	(2.45)	3.00	3.00	3.00
Total Rates & Charges (\$'000)	41,436	42,766	44,763	46,106

The table below shows the assumed rate increases in the strategic resource plan.

### **Cost-shifting**

Recurrent grants (inclusive of the Grants Commission funding) form approximately 18 per cent of Council's total underlying operational revenue and hence are an important source of revenue for Council.

Recurrent grant revenue however has consistently failed to keep pace with the cost of providing these same services that the grant supports, therefore requiring council to continue to 'top-up' the Victorian and Australian government shortfall with rate funding in order to continue to provide the current levels of services to the community.

### **Key assumptions**

There are a number of assumptions underlying the forecasts for income, expenditure, assets, liabilities, equity, cash, capital works expenditure and human resources included in the SRP. These assumptions have been derived from the following sources:

- assessment of the current financial position;
- scan of the external economic environment;
- forecast changes in population and demographics;
- advice from officers responsible for service and capital works planning and delivery;
- services and initiatives contained in plans adopted or proposed to be adopted by council.

The key assumptions underlying the SRP are set out below.

### Population

The population of Warrnambool City is predicted to grow from 34,243 (2016) to 46,209 (2036) with growth rates in the first 5 years expected to be 1.68 per cent and slowing to 1.31 per cent by 2036.

#### Forecast population, households and average household size

Population and household forecasts, 2016 to 2036, prepared by .id the population experts, December 2017.

#### Consumer price index

For the purposes of developing the SRP, CPI has been set at 2.00 percent for the 2020-21 year as per the State Government rate cap. For all remaining years CPI is also assumed at 2.00 per cent which is consistent with Department of Treasury's budget update forecast.

#### Rate cap

The Victorian Government requires local government rates to be capped from 2016-17 onwards. The cap for the 2020-21 year is 2.00 percent and based on the state-wide CPI projections is likely to remain at 2.5 per cent for the remaining forecast period.

#### **Rating strategy**

Warrnambool City Council adopted its revised rating strategy in 2017.

Warrnambool City Council applies Capital Improved Value (CIV) rating methodology along with a differential rating system to ensure equitable distribution of rates and charge across each rating class.

#### Rate cap variation

Council has successfully applied to the Essential Services Commission to vary the rate cap to 4.5 per cent for the 2019-20 and 2020/21 financial years.

Given the current economic situation due to COVID19, Council is not applying the rate cap variation in 2020/21. However, the position of Council remains the same as per the business case submitted to the Essential Services Commission in 2019. Council has a backlog of asset renewal and the current funding towards asset renewal will see the backlog increase over time. The implication of this will be decreased asset quality levels and potentially the decommissioning of community assets.

Therefore, Council is anticipating a future rate cap variation in the 2022/23 financial year to assist with the asset renewal backlog.

#### Wages growth

Council has agreed a new enterprise agreement for the period covering July 2019 to June 2022. The new agreement allows for the following increases:

Payment	Effective date	Amount
First Payment	First Full Pay Period on or after 1 July 2019	2% of current pay rate or \$23.50 per week, whichever is greater
Second Payment	First Full Pay Period on or after 1 July 2020	2% of current pay rate or \$31.00 per week, whichever is greater
Third Payment	First Full Pay Period on or after 1 July 2021	2% of current pay rate or \$32.00 per week, whichever is greater

#### Grants (operating)

Council receives approximately \$12.23 million annually in operating grants from State and Commonwealth sources for the purposes of funding the delivery of services to ratepayers. This includes an estimated \$3.88 million for the 2020-21 year in financial assistance grants. Future increases in operating grants excluding the financial assistance grants have been set at CPI minus 0.5 percent in all years.

#### Statutory fees

Council raises approximately \$1.85 million in fees and fines which are imposed in line with legislation governing local government activities such as animal registrations and parking fines. Future increases in statutory fees have been set at CPI minus 0.5 percent in all years.

#### Investment return

The official cash rate is now 0.25 percent, following successive decreases by the Reserve Bank over time. Council has set its investment return at 1.0 per cent above the official cash rate for the forecast period.

#### Achieving cost savings

The SRP is a high level strategic plan that acts as a framework for future annual Budgets. Whilst this plan is based on the premise of continuing to deliver all present day operational services, it must be highlighted that Council intends to institute a savings approach against this framework, and will

continue to identify savings in the future. Council thoroughly reviews all draft operational budgets on an annual basis and identifies areas for further review and action.

Additional sources of revenue are also pursued when available or identified.

#### Service delivery

The assumptions affecting specific services provided by council are set out below:

- service levels to be maintained at prior year levels where practicable;
- retain existing levels of subsidy for user fees where practicable.

#### **Recycling Acceptance and Processing**

Following the recent market adjustment in the recycling industry, there is uncertainty around the pricing structure for the acceptance and processing of recycled materials. Council continues to investigate alternatives such as FOGO, kerbside glass recycling and glass deposit stations to mitigate the risk.

#### Aged and disability

The funding model for aged and disability services continues to evolve and Council will need to decide whether to compete with private organisations or transition out of the service. For the purposes of the SRP, the decision is that Council will remain providing the service with the exception of Assessment Services which is transitioning to a centralised model. This includes domestic care, personal care, respite care and meals.

#### **Property valuation**

Following a recent State Government legislation change, property valuations will occur on an annual basis. The State Revenue Office will now be responsible for this function with Council only required to coordinate with the Valuer General for the Supplementary Rate valuations.

#### **Election costs**

Council is required to fund the cost of the Council elections which occur every 4 years. The next Council election will be in October 2020 and is expected to cost \$0.28 million. An allowance of \$0.07m has been made every year to smooth the costs of the period.

#### Information Technology

Council recognises the need to achieve efficiencies and drive innovation throughout the organisation and to do this through the use of technology. As such Council is investing significant resources to achieve this. There is also an ongoing improvement program in the order of \$0.25 million per annum.

#### **Shared Services**

Council successfully applied for a shared services grant through the Rural Councils Transformation Program (RCTP) to align Information Technology infrastructure and processes with the Moyne and Corangamite Shires. The project will provide significant efficiencies for all 3 Councils whilst mitigating Information Technology risks.

#### Supplementary rates

The municipality is expected to continue growing based on current trends in property development and the forecast growth in population. This is expected to contribute an additional \$0.13 million in rate

revenue and indexed by the rate percentage increase in the following years.

#### **Developer contributions (non-cash)**

Council receives infrastructure assets from developers at no cost which are recognised as income in the comprehensive income statement. This normally occurs following the completion of a property development, where the developer agrees to construct the required infrastructure including roads, footpaths and drains. At the conclusion of the development, these assets are handed over to council. It is expected that council will receive infrastructure assets in the short to medium term from a number of new developments including North of the Merri, Hopkins Point Road, Horne Road Industrial Estate, North Dennington and North East Warrnambool. The expected value of these assets are approximately \$4.00 million per annum, however the timing of the contribution is dependent on a number of external factors such as economic growth, population growth and the discretion of developers. Therefore it is difficult to accurately forecast the contributions with the spread over the SRP being based on our current knowledge and conditions.

#### Grants (capital)

Council receives both recurrent and non-recurrent government funding for capital works projects. Significant capital grants are expected to be received in the near future to fund the upgrade of Lake Pertobe and Reid Oval. Both of these projects have a renewal element to them but also a significant upgrade component. Generally the State will not fund asset renewal and will focus their grant programs around new and upgraded infrastructure.

#### **General balance sheet**

The general assumptions affecting assets, liabilities and equity balances are set out below:

- 98 percent of the total rates and charges raised, is expected to be collected in the year levied, this is expected to be lower in 2019/20 due to COVID19;
- trade creditors is based on total capital and operating expenditure less written down value of assets sold, depreciation and employee costs. The payment cycle is 30 days;
- other debtors and creditors are expected to remain consistent with 2018-19 levels;
- employee entitlements will continue to increase in accordance with the collective wage agreement outcome offset by the impact of more active management of leave entitlements of staff.

#### Other balance sheet

The assumptions affecting specific balance sheet items are set out below.

#### Borrowings

In developing the long-term financial plan, borrowings were identified as an important funding source for capital works expenditure. Council has a borrowing strategy (Warrnambool City Council Borrowing Strategy 2017) that allows for borrowings towards financing large inter-generational infrastructure projects or for investments that will provide a financial return.

Council has analysed its debt position against other Regional City councils over a number of different indicators including the 'obligations' indicators that are part of the prescribed Local Government Performance Reporting Framework (LGPRF). The outcome of the analysis highlighted that the current debt levels could be accommodated.

The proposed borrowings are to be used for;

- Council's share of the contribution to the Reid Oval upgrade (\$3 million)
- Investment in energy saving initiatives (\$1.0 million) which has a positive cashflow from year 1 and a payback within 7 years
- Investment into the Livestock Exchange for the construction of a roof (\$0.7m)
- Council's contribution to the shared library and learning centre (\$2.5m)
- Council restoration and upgrade of the Civic Centre following the exit of the current library (\$3.0m)

Year	New Borrowings	Principal	Interest	Balance 30 June
	\$'000	\$'000	\$'000	\$'000
2021	5,950	1,694	328	13,957
2022	1,250	2,084	331	13,123
2023	0	1,834	275	11,289
2024	3,000	1,883	226	12,406

The following table summarises the level of forecast borrowings for the next ten years.

Council is working towards a longer term strategy based on the outcomes of Warrnambool 2040 and it's Council Plan which will identify the future inter-generational projects that will need to be loan funded.

#### Capital works

The assumptions affecting asset renewal, expansion, upgrade and new assets are set out below.

#### Asset renewal

Council has developed a 15 year renewal plan based upon Council's Asset Management Plans. The Plans, alongside asset data and analysis provide the basis for Council's management strategy, renewal program formulation and prediction of asset deterioration. When Council renews its assets in line with the aforementioned material, the desired service levels are maintained. If Council does not fund the renewal demand, Council's service levels are amended proportional to that difference in funding.

Council is committed to increasing the level of asset renewal funding over the coming 10 years and did successfully apply to the Essential Services Commission for a rate cap variation to help address the renewal gap.

Given the current economic situation due to COVID19, Council is not applying the rate cap variation in 2020/21. However, the position of Council remains the same as per the business case submitted to the Essential Services Commission in 2019. Council has a backlog of asset renewal and the current funding towards asset renewal will see the backlog increase over time. The implication of this will be decreased asset quality levels and potentially the decommissioning of community assets.

Therefore, Council is anticipating a future rate cap variation in the 2022/23 financial year to assist with the asset renewal backlog.

Predicting the deterioration and planning for the renewal of Council's assets is limited by the availability and accuracy of asset condition data. Presently Council has very limited condition data on the drainage network but has a program in place for regular updates of condition information for all other major asset classes.

#### Capital expenditure program

Councils focus into the future is on asset renewal and asset upgrade which generally occur as part of the same project. The asset upgrade component is dependent on a number of factors such as community expectations for the facility/service, regulations and service demand. Below is a chart which highlights Councils ongoing efforts into asset renewal and asset upgrade.

Even with the focus on asset renewal, Council is still not meeting the asset renewal funding ratio's, however the additional funding is allowing to achieve asset renewal ratios of mid to high 70's which is higher than the Regional Cities average as reported through the 'Know Your Council' website.

Council has an extensive array of strategic plans which provide evidence of the strategic needs for the improvement and upgrade of the community's assets.

#### Human resources

#### **Employee costs**

Council has agreed a new enterprise agreement for the period covering July 2019 to June 2022. The new agreement allows for the following increases:

Payment	Effective date	Amount
First Payment	First Full Pay Period on or after 1 July 2019	2% of current pay rate or \$23.50 per week, whichever is greater
Second Payment	First Full Pay Period on or after 1 July 2020	2% of current pay rate or \$31.00 per week, whichever is greater
Third Payment	First Full Pay Period on or after 1 July 2021	2% of current pay rate or \$32.00 per week, whichever is greater

#### **Employee numbers**

COVID19 will have a large impact on Council's employee numbers. As the restrictions in place for

COVID19 impact areas where Council has a number of staff (ie. Aquazone, Flagstaff Hill, Lighthouse Theatre, etc), this will lead to short term reduction in staff numbers. Council has attempted to redeploy staff where possible, however without Federal or State Government assistance, staff stand downs will be required until the facilities are able to reopen.

Staff numbers are expected to increase back to normal levels by 2021/22.

#### **Option analysis**

In order to achieve the overall objective of the SRP, it was necessary to model a number of different options by changing the assumptions underlying the long-term financial plan. In undertaking the analysis, council considered a number of options and modelled these over periods of 4 years, 10 years and 15 years. The 2 most realistic options are as follows:

#### Option 1 - Higher cap option (i.e. a rate increase above the rate cap)

- Defer the rate cap variation from 2020/21 to 2022/23 (Ministerial exemption required)
- Continue to provide the current services to the community (with ongoing service reviews)
- Utilise the additional income towards reducing the asset renewal gap in years one and two
- Maintain any additional income from a rate cap variation into asset renewal

#### Option 2 - No variation to the rate cap (i.e. base case)

- Review the current services offered to the community and Councils regional role
- Balance the need for renewing assets at a greater level and reducing or transitioning out of services to fund the asset renewal shortfall.

#### Option 1 - Higher cap option (2022/23)

#### **Net Operating Surplus**

The COVID19 restrictions are impacting the operating position of Council, this is partially offset in 2019/20 due to the high levels of one-off capital grants. Over time, Council begins to recover and meet its target of operating surpluses.

#### **Adjusted Underlying Surplus**

The impact of COVID19 is impacting the operating position of Council for the 2 years before Council begins to recover and meet its target of a breakeven underlying surplus.

#### **Cash Balances**

Council is able to sustain cash balances above the restricted cash requirements.

### Asset Renewal

The 2019/20 forecast includes large amounts of grant funded capital works including the Lake Pertobe project and Reid Oval. The impact of the second rate cap variation from 2022/23 sees the asset renewal ratio get closer to the target.

#### Option 2 - No variation to the rate cap

#### **Net Operating Surplus**

The net operating surplus drops below the target in the 4rd and 5th year without a rate cap variation.

#### **Underlying Adjusted Surplus**

The underlying adjusted surplus remains in positive in the  $4_{th}$  and  $5_{th}$  year but with a reduced underlying adjusted surplus.

#### **Asset Renewal**

The asset renewal funding remains below target for the foreseeable future, which will increase the backlog and may result in service level decreases or decommissioning of community assets.

#### Outcomes

Options 1 – a higher cap option (2022/23) is the preferred option as it allows Council to;

- 1. Move to resolve its asset renewal backlog and improves its renewal capacity
- Reduces the number of problem areas that Council needs to focus on its quest for financial sustainability
- 3. Allows time for Council to resolve additional sustainability issues
- 4. Allows for a permanent uplift that achieves financial sustainability in the short to mid-term

#### Achievement of SRP objectives

The overall objective of the SRP is financial sustainability in the medium to long term, while still providing sufficient resources to achieve the council plan strategic objectives. The financial outcomes of the SRP are set out below under each of the key objectives which underpin the long-term financial plan over the next ten years.

#### 1. Achieve at a minimum a breakeven adjusted underlying result (objective: achieved)

Following the impact of COVID19, Council is achieving a minimum breakeven adjusted underlying result

(measure: adjusted underlying result).

#### 2. Maintain existing services and service levels (objective: achieved)

Existing services have been maintained throughout the long-term financial plan period after allowing for the impact of inflation and other cost indexation (measure: net cost of services and expenditure level).

#### 3. Achieve a balanced budget on a cash basis (objective: achieved)

Council is forecasting that the overall cash balance will be greater than the restricted cash requirement in the plan (measure: unrestricted cash).

#### 4. Meet council's asset renewal requirements (objective: improving)

The renewal gap reduces over the long-term financial plan period. (measure: renewal gap).

# 5. Maintain debt at a moderate level to allow capacity to fund future infrastructure (objective: achieved)

Borrowings are planned for either inter-generational projects or investments that will provide a financial return. Council will continue to review this as a source of funding to achieve objectives from the Council Plan and Warrnambool 2040. (Measure: loans and borrowings).

Glossary	
Act	means the Local Government Act 1989
Annual report	means a report of the council's operations of the previous financial year and contains a report of operations, audited financial statements and an audited performance statement
Asset expansion expenditure	means expenditure that extends the capacity of an existing asset to provide benefits to new users at the same standard as is provided to existing beneficiaries
Asset expenditure type	<ul> <li>means the following types of asset expenditure:</li> <li>(a) asset renewal expenditure;</li> <li>(b) new asset expenditure;</li> <li>(c) asset upgrade expenditure;</li> <li>(d) asset expansion expenditure</li> </ul>
Asset renewal expenditure	means expenditure on an existing asset or on replacing an existing asset that returns the service capability of the asset to its original capability
Asset upgrade expenditure	means expenditure that: (a) enhances an existing asset to provide a higher level of service; or (b) increases the life of the asset beyond its original life
Australian Accounting Standards (AASB)	means the accounting standards published by the Australian Accounting Standards Board
Average rate cap	means an amount expressed as a percentage amount, based on the change to CPI over the financial year to which the cap relates, plus or minus any adjustment
Budget	means a plan setting out the services and initiatives to be funded for the financial year and how they will contribute to achieving the strategic objectives specified in the council plan
Capital works expenditure	means expenditure on non-current assets and includes new assets, asset renewal, asset expansion and asset upgrade
Council plan	means a plan setting out the medium-term strategic objectives, strategies, strategic indicators and resources reflecting vision and aspirations of the community for the next four year
Financial resources	means income, expenditure, assets, liabilities, equity, cash and capital works required to deliver the services and initiatives in the budget
Financial statements	means the financial statements and notes prepared in accordance with the Local Government Model Financial Report, Australian Accounting Standards and other applicable standards as they apply to the general purpose financial reports and a statement of capital works and included in the annual report

Warrnambool City Council Agenda for Ordinary Meeting

Financial year	means the period of 12 months ending on 30 June each year
General order	means an order made by the Minister under section 185D of the Act
Higher cap	means an amount expressed as the average rate cap specified in a general order plus an additional percentage amount in respect of that financial year
Human resources	means the staff employed by a council
Indicator	means what will be measured to assess performance
Initiatives	means actions that are one-off in nature and/or lead to improvements in service
Local Government Model Financial Report	means the model report published by the Department of Environment, Land, Water and Planning
Major initiatives	means significant initiatives that will directly contribute to the achievement of the council plan during the current year and have a major focus in the budget
Minister	means the Minister for Local Government
Model budget	means the Victorian City Council Model Budget prepared annually by the Chartered Accountants in Australia and New Zealand
New asset expenditure	means expenditure that creates a new asset that provides a service that does not currently exist
Non-financial resources	means the resources other than financial resources required to deliver the services and initiatives in the budget
Non-recurrent grant	means a grant obtained on the condition that it be expended in a specified manner and is not expected to be received again during the period covered by a council's strategic resource plan
Planning and accountability framework	means the key statutory planning and reporting documents that are required to be prepared by councils to ensure accountability to local communities in the performance of functions and exercise of powers under the Act
Performance statement	means a statement including the results of the prescribed service outcome indicators, financial performance indicators and sustainable capacity indicators for the financial year and included in the annual report
Recurrent grant	means a grant other than a non-recurrent grant
Regulations	means the Local Government (Planning and Reporting) Regulations 2014
Report of operations	means a report containing a description of the operations of the council during the financial year and included in the annual report

Warrnambool City Council Agenda for Ordinary Meeting

Services	means assistance, support, advice and other actions undertaken by a council for the benefit of the local community
Special order	means an order made by the ESC under section 185E of the Act
Statement of capital works	means a statement which shows all capital expenditure of a council in relation to non-current assets and asset expenditure type prepared accordance to the model statement of capital works in the Local Government Financial Report
Strategic objectives	means the outcomes a council is seeking to achieve over the next four years and included in the council plan
Strategic resource plan	means a plan of the financial and non-financial resources for at least the next four years required to achieve the strategic objectives in the council plan. Is also referred to as a long term financial plan
Strategies	means high level actions directed at achieving the strategic objectives in the council plan
Statement of human resources	means a statement which shows all council staff expenditure and numbers of full time equivalent council staff
Statements of non- financial resources	means a statement which describes the non-financial resources including human resources
Summary of planned capital works expenditure	means a summary of capital works expenditure in relation to non- current assets classified according to the model statement of capital works in the <i>Local Government Model Financial Report</i> , by asset expenditure type and funding source
Summary of planned human resources expenditure	means a summary of permanent council staff expenditure and numbers of full time equivalent council staff categorised according to the organisational structure of the council

# 5.3. POLICY & PROCEDURES REVIEW

# PURPOSE:

This report is to have Council consider the adoption of several important policies, procedures and the Audit and Risk Committee Charter that have been out for public feedback and to also seek community feedback on several updates to important Council policies and procedures.

### **EXECUTIVE SUMMARY**

Council is presented several polices for consideration that have been out for public comment. These include Councils Fraud and Corruption Control Policy and Procedure, the Councillor Gift Policy, Councils Public Interest Disclosure Procedure and the Audit and Risk Committee Charter.

Council in alignment with the transparency principles set out in the new Local government act is seeking input to a further suite of documents which includes Councils Draft Transparency Policy, the Draft Councillor Reimbursement of Expenses Policy, Councillor's Draft Resources and Facilities Policy.

Each of these documents is required to be adopted by Council in its final form by 1 September 2020. Council is putting these documents out for exhibition and is inviting feedback via **yoursaywarrnambool.com.au Feedback is sought by 5:00pm Wed 22 July 2020.** 

# RECOMMENDATIONS

- 1. That Council note the
  - i) Draft Transparency Policy refer Attachment 1.
  - ii) Draft Councillor Reimbursement of Expenses Policy refer Attachment 2.
- iii) Draft Resources and Facilities Policy refer Attachment 3.

attached and that Council seek Community feedback for their further consideration on these documents.

- 2. That Council adopt the following attached documents
  - i) Council's Fraud and Corruption Control Policy refer Attachment 4.
  - ii) Council's Fraud and Corruption Control Procedure refer Attachment 5.
  - iii) Councillor Gift Policy refer Attachment 6.
  - iv) Council's Public Interest Disclosure Procedure refer Attachment 7; and the
  - v) Warrnambool City Council Audit and Risk Committee Charter refer Attachment 8.

### BACKGROUND

Attached are draft documents that were put to the Audit and Risk Committee for review and input, in response to changes in the intent of the new Local Government Act. These changes see the Committees oversight of governance policy compliance grow. This initial suite are the most pertinent documents due for review with the Audit and Risk Committee's input. These policies procedures and the charter were presented to the Audit and Risk Committee on 19 May 2020 for feedback. These are policies and procedures requiring update and are public policies of Council that deal with the good governance of Council.

Whilst the Audit and Risk Committee Charter was last updated in 2019, the changes of the Act require a further update to reflect the changes in intent of the legislation.

This report responds to changes created in the proclamation of the new Victorian Local Government Act 2020. The report provides a copy of several updated draft policies procedures and the Council's Audit and Risk Committee Charter for the consideration of Council.

The policies, procedures and charter are returning to Council for adoption with community feedback considered.

The intent of this exhibition period is to provide for an extended level of both transparency and engagement in the development of these important Council documents. Both these elements reflect the changed emphasis that the new act envisages for Councils and the expanded role of the Audit and Risk Committee of Council. This process responds in an interim way to the legislation until a fully-fledged transparency policy is developed and the Community Engagement Policy reviewed in accordance with the intent of the changed legislation.

Council has received feedback on the first suite of documents presented for review and incorporated some of the feedback provided This report now recommends their adoption and the exhibition of a further suite of documents as outlined below for public exhibition comment and feedback.

The policies attached to this report seeking feedback from the community includes:

- Draft Transparency Policy.
- Draft Councillor Reimbursement of Expenses Policy.
- Draft Resources and Facilities Policy.

Councils Election Period Policy is procedural and will be presented directly to Council for consideration and adoption.

Councils Community Engagement Policy is due for review now. This policy will remain in hold over until the election of a new Council as the introduction of the new Local Government Act envisages a newly elected Councils involvement in the establishment of this policy in alignment with the Community Engagement Principles outlined in the Act. This policy is due for adoption by Council by March 2021 under the implementation provisions of the new Act.

Documents to be considered for adoption that have been out for comment and have been:

- Audit and Risk Committee Charter.
- Public Interest Disclosure Procedure.
- Gift Policy (Councillor).
- Fraud and Corruption Control Policy.
- Fraud and Corruption Control Procedure.

# CONSULTATION

Council has received feedback from two submitters.

# Mr Brian Kelson on behalf of the Warrnambool Ratepayer's Association

"Warrnambool Ratepayers Association Submission for Fraud and Corruption Policy, Audit and Risk Committee Charter and the Fraud and Corruption Procedures To Warrnambool City Council, We are writing to express our concerns around some of the policies in the draft documents. We are baffled by the fact that these policies fail to hold the chain of responsibility to account when fraud is discovered.

With the way the policy is currently written it is only, the employee that makes the fraudulent purchase held to account. The policy outlines the original purchase is checked by their manager, the finance department, and then the audit and risk committee. Disturbingly, it is only, the employee who makes the initial purchase that will be investigated and have action taken against. This shifts all responsibility from the managers and leaves these expenses open to being rubber-stamped by management. We witnessed this with the manager of the Visitor Economy when he resigned, no questions were asked of his manager who was responsible for reviewing all of his spendings.

It was also overlooked by the other checks and balances internally and was bought to the attention of the Warrnambool City Council through an FOI request. We request the policy be amended so all managers and officers involved in the checks and balances of public monies are also held to account. If these positions of responsibility are not subject to investigations or repercussions this could be seen as acting against the public interest. The Victorian Ombudsman additionally notes that using payment methods that require a review post-purchase like credit cards, create a system that is more open to potential fraud.

We request Warrnambool City Council to reduce the number of credit cards and their use. Limiting methods of payment that require checking after the purchase will help to protect the public from potential fraud of their funds. I am equally concerned with the current situation about the reporting, investigation, and actions taken by the council. Currently, one officer is involved in every step of this process which gives one person too much control of the reporting, audit, and disciplinary action taken by the council.

This could be seen from the outside as having an officer being able to control the actions taken by the council regarding fraud reporting. Bernadette Northeast has spoken openly about how she was treated going through the council process to report fraud. She felt like she was on trial and the council was seen to be protecting their own. I would like to see this changed so that these positions are held by three separate members of council staff and never by one individual as we have currently because they hold too much control over the corruption process. Kind Regards, Brian Kelson Warrnambool Ratepayers Association President"

# WCC COMMENTS

# Fraud and Corruption Policy

- There is no direct reference to credit card use in the Policy.
  - It is an overarching policy that highlights "the Council's commitment to the prevention, deterrence, detection and investigation of all forms of fraud and corrupt conduct".
  - The detail on the associated processes is in the procedures.
- The Policy lists the Procurement Policy as one of the 'Related Policy & Procedures'.
  - The Procurement Policy lists related policies and procedures and includes 'Corporate Card Policy'
  - Council will also add Corporate Card Policy to the list of Related Policy & Procedures in the Fraud and Corruption Policy.
- Council will expand the examples Under the definition of 'Fraud', to include some other risks identified in the Auditor-Generals report:
  - Using a council credit card for personal use
  - Using a council fuel card to fill-up their own vehicle
  - Seeking reimbursement for items not bought, or not for genuine council business.

# Fraud and Corruption Procedure

- Note that the Procedure lists examples of Fraud, including:
  - Credit card fraud involving the unauthorized use of a credit card or credit card number issued to another person, including use of purchasing card to buy goods or services for personal use
  - The 'Investigation' clause (page 11/12), provides:
    - "Upon receipt of a report of fraudulent or corrupt behaviour, or suspected behaviour, the Director Corporate Strategies and the Manager Governance will as soon as practicable ensure that an investigation is conducted into the alleged misconduct."

- The purpose of an investigation includes "to Identify the person(s) responsible for the fraudulent or corrupt behaviour"
- Under the purpose, Council has added an additional line.

Identify any gaps or weaknesses in the controls and systems associated with the activity that is subject to the investigation:

- The investigation can then raise matters associated with weaknesses in the oversight of the reported or suspected fraudulent activity.
- The 'Internal Investigation' clause (page 12) lists the steps for conducting an investigation.
- Under compile a report, council has added an additional line.

Report on any detected gaps or weaknesses in the controls and systems associated with the alleged activity.

- 'Responses to Investigations' clause (page 13) provides adequate scope to take action against any parties associated with any misconduct. It does not limit the actions to just the primary perpetrator.
- The 'Review of Internal Controls' clause (page 13) further strengthens the review of any detected weaknesses in controls/systems.
- Who conducts an investigation?

The Chief Executive Officer is responsible for the selection of the personnel to be involved in the Investigation team. This may include referring the investigation to the Internal Auditor for action.

- Contrary to the submission, no one officer is involved in every step reporting, investigation and action.
  - The Director Corporate Strategies & Manager Governance must ensure that an investigation is conducted.
  - $\circ~$  But they do not necessarily conduct the investigation. The CEO decides the personnel. The team would not include the CEO.

Council has added "the Chief Executive Officer will remain impartial to any investigation and not be a member of any Investigation Team"

• The CEO is ultimately responsible for deciding on the action to be taken. The CEO make delegate responsibility for implementing the action, but not making the decision of the actual action to be taken.

# Mr. Jim Burke Submitted comments and suggestions in relation to the Public Interest Disclosure procedures, the Councillor Gift Policy and the Fraud and Corruption Control Policy

# **Public Interest Disclosure Procedures**

1. Introduction

# **Definitions and Terminology**

**Assessable Disclosure:** Any disclosure either made directly to IBAC or the VI, or if received by the Council is required under s.21 of the Act to be notified by the Council to IBAC for assessment. Section 14 (e) of the Act makes it quite clear that if the disclosure relates to a Councillor the disclosure may be made to either IBAC or the Ombudsman. This definition needs to reflect this.

# WCC COMMENTS:

Noted and the definition now includes a reference to the Victorian Ombudsman, the section with the most pertinent reference to PROTECTED DISCLOSURE ACT 2012 (NO. 85 OF 2012) - SECT 16

Disclosures that must be made to the IBAC or the Ombudsman.

A disclosure under this Part that relates to any of the following must be made to the IBAC or the Ombudsman—

(a) a Councillor;

Section 14 of the Ombudsman Act refers general complaints that may be considered by the Ombudsman in

(e) any other person if, having regard to all the circumstances, the Ombudsman considers it is appropriate to deal with the complaint.

# 2. Council Principles and Structure

# Principles

Perhaps a better start to this paragraph might be:

'The Council supports a workplace culture of trust based on individual and corporate integrity and ethical behaviour ...'

Individual and corporate integrity, because it is a two way street, one won't work without the other. Ethical behaviour because the word 'ethics' alone here means little, I am not sure what it intended by the phrase 'ethics and authenticity', and I don't believe anyone else will either, but I do believe that <u>demonstrated</u> integrity and ethical behaviour engenders trust.

# WCC COMMENTS:

Ethical behaviour and integrity added

# **Public Interest Disclosure Coordinator**

The Act allows Council to devise its own scheme for handling Public Interest Disclosure within certain boundaries of course. The IBAC advice on this matter suggests the need for a Public Interest Disclosure Coordinator but identifies no other roles. It is within Council's powers to have both a PID Coordinator and a PID Officer.

I believe that it is not necessary to have the both, this only serves to increase the information security issues. It will also very likely muddy the waters for a potential discloser as to whom, in the first instance, he or she should make their disclosure.

I note that the Director Corporate Strategies is the position nominated for this role. It is marked 'temporary'; it is not clear whether this applies to the position or the person currently, or from time to time, occupying this position.

Any Manager or supervisor appointed as PID Officer will be subordinate to a Director and will very likely find themselves in a position of real or perceived conflict of interest. The most appropriate position to hold the function of PID Coordinator is Manager – Governance. This position is not beholden to any party other than the Chief Executive Officer.

There is no reference in this document to the need to avoid actual or perceived conflicts of interest. Perhaps, it might be appropriate to re-write the final sentence in this section to cover this issue. Perhaps: 'From time to time, it may be necessary to appoint other or additional PID Coordinators particularly where the risk of actual or perceived conflict of interest might arise.' An alternative might be to temporarily appoint an alternative PID Coordinator on a case by case basis where the PID Coordinator may have, or appear to have, a conflict of interest. This should not give rise to any information security issues and the alternative PID Coordinator would act only on the case specific to his or her temporary appointment. The temporary appointee would act independently of the substantive PID Coordinator.

'The conduct or action being disclosed about may be one which has taken place, is still occurring, or is believed is intended to be taken or engaged in.'

# Might be clearer if written as:

'The conduct or action being disclosed may be one that has taken place, is still occurring, or is conduct or action that the discloser believes is intended or proposed to be taken or engaged in.'

# WCC COMMENT:

Public interest disclosure officer removed. Council is in the process of recruiting a Governance Manager, the most appropriate interim arrangement is the Director of Corporate Strategies role which also has a direct reporting line to the CEO and overall corporate responsibility for organisational matters.

# **Detrimental Action**

Under this heading it is noted that it is a criminal offence to take detrimental action but this is not referred to again under the heading **Offences** where some criminal offences set out in the Act are listed along with the relevant maximum penalty.

Under s.45(1) of the Act 'A person must not take detrimental action against another person in reprisal for a public interest disclosure. Penalty: 240 penalty units or 2 years imprisonment or both. This should be added to your list of Offences but I think that it might be helpful if these offences and related penalties could also appear in those parts of this document where those offences are discussed.

# WCC Included

### **Records Management**

In the final sentence of the first paragraph, might I suggest:

'A Welfare Manager may be provided with information relevant to a welfare issue he or she is managing whenever it is in the interests of the supported officer for that to occur.'

# WCC Included

# **Gift Policy (Councillors)**

1. Introduction

# Purpose

'... and protecting Councillors from allegations of impropriety.'

Surely it is not the policy of Council to protect individual Councillors from allegations of impropriety; this assumes any allegation would be untrue. The policy should have as a purpose, providing Councillors with guidance on the ethics of receiving gifts. I suggest that the opening paragraphs might better read as:

The Council is committed to protecting its assets, its integrity and reputation by providing Councillors with clear guidance on ethical gift receiving so that they can be, and be seen to be, ethical, fair and scrupulous in their roles as Councillors.

The Council recognises that Councillors will on occasion be offered, gifts, benefits and hospitality.

# WCC Amended

# 2. Policy

# Acceptance of Gifts and Benefits

Token gifts: Who decides when a gift of \$100 is a token? If a Councillor goes out to dinner and another diner buys them a bottle of wine, value less than \$100, to go with their dinner just what is that a token of? Who gets to judge this? A \$25 bottle of wine at a restaurant is one thing, an \$80 bottle of Shiraz might be quite another.

In what circumstances would a Councillor countenance accepting a gift in excess of \$100 and in what circumstances would Council authorise this gift. This becomes problematic given Ordinary Meetings of Council occur only monthly and surely the Council would want this gift receiving approval to be out in the open.

These conventions depend entirely on Council being aware that a gift has been offered and whether or not it was accepted.

# WCC Noted, no change

# **Official Gifts**

The Chief Executive Officer will ensure that an Official Gift is recorded in the Gift Register (including details of possession where it has been determined that an individual Councillor could appropriately retain the gift).

### Note:

There is a reference to a Gifts Procedure (Councillors). This document is not visible to the public at this time nor is there any indication that it is under review or will become publicly available. Nowhere in this policy document is there an indication of how and when gifts must be reported, or to whom they must be reported.

### WCC COMMENT:

The Gifts procedure is to be drafted and will be made available to the public online along with the Policy when adopted. The creation of the procedure will address some of the queries posed and belongs best in the procedure rather than the policy.

# Hospitality

Replace: '... and provides an opportunity to network or undertake business of a common purpose ...' and replace with '... and provides an opportunity to promote Council's agenda or undertake business of a common purpose related to Council's agenda ...'.

This ties the activity to the needs of the Council and not the Councillor.

# WCC No change

# **Conflict of Interest**

'Councillors should be aware one or more Gifts or Hospitality with a total value of, or more than, \$500 received from one person, over a five year period, will give rise to a conflict of interest, which must be declared in accordance with the Local Government Act.'

This provision is weak and implies that the \$500 figure is prescribed by the Local Government Act when that is not the entire picture. Council may determine another figure; I would infer that this means a lower figure though the Act is not clear in this instance.

I would like to see a more comprehensive position. Council is limited to the five year period, nevertheless, I would be concerned if a Councillor, or a Councillor to be, had been in the habit of receiving repeated gifts from the same person or entity. That indicates, to me, that a relationship has developed, or is developing that might compromise a Councillor.

I would suggest a lower figure be attached to this provision, say \$250. Perhaps, in the procedures document related to this policy, some guidance could be given to Councillors relation to recognising and recording these situations. I foresee that hospitality could become difficult to define.

# WCC Noted no change the circumstances described are covered in the intent of the principles of this policy.

# Fraud and Corruption Control Policy <u>1. Introduction</u>

# Purpose

'The purpose of this Policy is to demonstrate the Council's commitment .....'

This is not the intention of this policy or, at least, should not be. Surely the purpose of this policy is to achieve an outcome not demonstrate a commitment. Weak wording weakens the policy giving it the appearance of window dressing.

# WCC Purpose passive language replaced

# "The purpose of this Policy is to provide a framework to ensure the prevention, deterrence, detection and investigation of all forms of fraud and corrupt conduct."

# References

Council Related Policy & Procedures

Some of these Policies and Procedures are out of date and should themselves be subject to review in this current round, or are not available to the public:

- Protected Disclosure Procedures currently out of date and under review as mandated by LGA 2020.
- Risk Management Policy & Procedures not reviewed since ratification in 2015.
- Councillor Code of Conduct was due for review in 2017.
- Staff Code of Conduct not available to the public.
- Recruitment & Selection Policy Not available to the public.
- Disciplinary Policy & Procedure not available to the public.
- Gifts & Benefits Policy currently under review.
- Audit & Risk Committee Charter currently under review as mandated by LGA 2020.
- Procurement Policy will soon be out of date...
- Acceptable Computer Use Policy not available to the public.

# WCC Councillor Code of Conduct is in date and was adopted by Council.

Council draft transparency policy (attached) is proposed for community review. This policy should resolve some of the concerns raised in this comment, as it sets out a policy of an increased availability of relevant documents an increased ease of access in line with the new Local Government Acts transparency principles transparency. The Procurement policy is in review.

# 2. Policy

# Commitment

'The Council's commitment to fraud and corruption control will be (managed) **achieved** by ensuring that ...': too much emphasis on hope over outcome.

# Principles

The Council will utilise available resources to:

• 'Conduct any investigations and analysis of fraudulent activities'

replace with:

• Investigate and analyse fraudulent or corrupt activity in order to improve Fraud & Corruption Procedures

- Investigate any reported fraudulent or corrupt activity to determine if:
  - The reported activity is a disciplinary matter for Council, or if
  - The reported activity is likely to have breach a law, in which case, the matter will be reported to the police.

# WCC No change

'All Councillors and Council staff (have a role assisting) **are obliged to assist** the Council to:' 'The Council is committed to detecting, investigating, reporting and prosecuting cases of fraud, theft, corruption or misconduct.'

Replace with:

# The Council will detect, investigate, report and prosecute all cases of fraud, theft, corruption or misconduct.

# WCC obliged to assist changed but not second part of the comment

The draft version is aspirational but should emphasise the Council's determination to achieve an outcome.

# **Reporting and Investigation**

If the conduct complained about refers to a Councillor; a Councillor or a member of staff may also make a public interest disclosure to the Victorian Ombudsman. I refer to S 14.(e) of the Protected Disclosures Act 2012.

# WCC believes references should be either The section with the most pertinent reference to PROTECTED DISCLOSURE ACT 2012 (NO. 85 OF 2012) - SECT 16 Disclosures that must be made to the IBAC or the Ombudsman

A disclosure under this Part that relates to any of the following must be made to the IBAC or the Ombudsman—

(a) a Councillor;

Section 14 of the Ombudsman Act refers general complaint that may be considered by the Ombudsman in

# (e) any other person if, having regard to all the circumstances, the Ombudsman considers it is appropriate to deal with the complaint.

'The Council will report appropriate matters to the police for prosecution.' What is an appropriate matter; this policy provides no guidance on that issue. Surely, the most appropriate policy is, where the evidence allows, all cases of corrupt or fraudulent activity be reported to the police. Further, these matters are not referred to the police 'for prosecution' neither the Council nor the police determine which case will be prosecuted. That is why all cases of suspected fraud should be referred to the police as soon as there is sufficient evidence that an act of fraud or corruption may have occurred.

Allowing a Councillor or a member of the Council staff to determine which cases will be handled internally and which warrant a report to the police allows space for real or perceived inappropriate behaviour. It begs the question as to why one officer should be allowed to, say, resign and another be reported to the police.

# WCC All matters of suspected fraud or corruption will be reported to the relevant integrity authority and acted upon on their advice.

### 3. Governance

**Compliance Responsibility** Council (add)

Responsible for acting with propriety at all times. Councillors must not use their position to gain personal advantage or to confer advantage, or disadvantage, on any other person or body.

# Chief Executive Officer (add)

Will report instances where Council investigations have revealed sufficient evidence of fraudulent or corrupt activity to the appropriate external authority.

# WCC Added

Council is now seeking feedback from the community in relation to several more key documents. It is doing this to improve its understanding of the views of the community in relation to these key governance documents.

The documents will be available for inspection and comments are being sought via Councils

# yoursaywarrnambool.com.au

website feedback forum. Comments or feedback may also be made in writing to Council addressed to:

Peter Utri Director Corporate Strategies PO Box 198 Warrnambool Victoria 3280.

Comments will be received for consideration until 5.00pm Wednesday 22 July 2020.

# LEGISLATION / POLICY / COUNCIL PLAN CONTEXT

# 5 Practice good governance through openness and accountability while balancing aspirations with sound financial management

5.1 Provision of opportunities for the community to actively participate in Council's decision-making through effective promotion, communication and engagement

5.2 Develop policies, strategic plans and processes to address local and regional issues, guide service provision and ensure operational effectiveness

# TIMING

A report will be returned for Council's consideration at a future briefing with any relevant community feedback. The final drafts with any amendments will then be presented for Council's consideration to be adopted before 1 September 2020.

### 1. PURPOSE

This policy supports Council in its ongoing drive for good governance and the importance of open and accountable conduct, and how council information is to be made publicly available.

Part 2 of the Victorian Local Government Act 2020 deals with the role of Council.

Particularly pertinent to the purpose of this policy are the overarching governance principles and supporting principles enshrined in the Local Government Act guide Councils in relation to the need for and role of transparency of Governance, and the reasons why information should be made available to our community-

(1) A Council must in the performance of its role give effect to the overarching governance principles.

(2) The following are the overarching governance principles—

(a) council decisions are to be made and actions taken in accordance with the relevant law;

(b) priority is to be given to achieving the best outcomes for the municipal community, including future generations;

(c) the economic, social and environmental sustainability of the municipal district, including mitigation and planning for climate change risks, is to be promoted;

(d) the municipal community is to be engaged in strategic planning and strategic decision making;

(e) innovation and continuous improvement is to be pursued;

(f) collaboration with other Councils and Governments and statutory bodies is to be sought;

(g) the ongoing financial viability of the Council is to be ensured;

(h) regional, state and national plans and policies are to be taken into account in strategic planning and decision making;

(i) the transparency of Council decisions, actions and information is to be ensured.

(3) In giving effect to the overarching governance principles, a Council must take into account the following supporting principles—

- (a) the community engagement principles;
- (b) the public transparency principles;
- (c) the strategic planning principles;
- d) the financial management principles;
- (e) the service performance principles.

Council must adopt and maintain a public transparency policy under section 57 of the *Local Government Act 2020* (the Act). This policy gives effect to the *Public Transparency Principles* outlined in section 58 of the Act.

#### These principles state

(a) Council decision making processes must be transparent except when the Council is dealing with information that is confidential by virtue of this Act or any other Act;

(b) Council information must be publicly available unless

Warning - Uncontrolled when printed.

Page 4 of 13

(i) the information is confidential by virtue of this Act or any other Act; or

(ii) public availability of the information would be contrary to the public interest;

(c) Council information must be understandable and accessible to members of the municipal community;

(d) public awareness of the availability of Council information must be facilitated.

# 2. OBJECTIVES

The objective of Council's Public Transparency Policy is to formalise its support for transparency in its decision-making processes and the public awareness of the availability of Council information. As a result, this policy seeks to promote:

- a) Greater clarity in Council's decision-making processes;
- b) Increased confidence and trust in the community of Council through greater understanding and awareness;
- c) Enhanced decision making by the community;
- d) Improved Council performance through greater accountability;
- e) Access to information that is current, easily accessible and disseminated in a timely manner;
- f) Reassurance to the community that Council is spending public monies wisely by being transparent as to its reasoning around decisions and resource allocation.

A transparency policy needs to cover both documentary information, process information and how information will be made available to the public, and is an integral part of Council's Good Governance Framework.

### 3. SCOPE

This policy applies to Councillors and Council staff of the Council.

Warning - Uncontrolled when printed.

Page 5 of 13

### 4. DEFINITIONS

For the purposes of this policy, Council adopts the following definitions:

Community is a flexible term used to define groups of connected people Community or all the peoples of a municipal district as a whole. We use it to describe people of a municipality generally and separately, including individuals or groups who live, work, play, study, visit, invest in or pass through the municipality. More specifically, it can refer to everyone affiliated with the municipality, or smaller groups defined by interest, identity or location, and not necessarily homogenous in composition or views. Different types of communities often overlap and extend beyond municipal boundaries. Communities may be structured, as in clubs or associations or unstructured, such as teens. Communities are flexible and temporary, subject individual identity and location Consultation The process of seeking input on a matter. **Public Participation** Public participation encompasses a range of ways to garner public involvement, from simply informing people about what government is doing, to delegating decisions to the public and community activity addressing the common good. Councils Public engagement policy will define when the different levels of participation are utilised in decision making. An individual or group with a strong interest in the decisions of Council Stakeholder and are directly impacted by their outcomes. **Closed Meetings** When Council resolves to close the meeting to the general public, in order to consider a confidential matter regarding issues of a legal, contractual or personnel nature and other issues deemed not in the public interest. Transparency A lack of hidden agendas or conditions, and the availability of all information needed in order to collaborate, cooperate and make decisions effectively. Importantly, "transparency" is also a human rights issue: the right to have the opportunity, without discrimination, to participate in public affairs (s.58 of The Act). **Public Interest** Council may refuse to release information if it determines that the harm Test likely to be created by releasing the information will exceed the public benefit in being transparent. When considering possible harm from releasing information, the Council will only concern itself with harm to the community or members of the community. Potential harm to the Council will only be a factor if it would also damage the community, such

Warning - Uncontrolled when printed.	Page 6 of 13
Policy Type: Council   Responsible Branch: Governance   Approved Date:   Review Date:	

as where it involves a loss of public funds or prevents the council from performing its functions.

The Act

The Victorian Local Government Act 2020

### 5. WHAT WILL COUNCIL BE TRANSPARENT WITH

**Decision Making at Council Meetings** 

- Will be undertaken in accordance with the Act and the Governance Rules.
- Will be conducted in an open and transparent forum, unless in accordance with the provisions in the Act and Governance Rules they are made in a closed meeting.
- Will be informed through community engagement, in accordance with the Community Engagement Principles of The Act and the Community Engagement Policy established by Council.
- Will be made fairly and on the merits of the information available, and where a person
  whose rights would reasonably be thought to be directly affected by a decision of the
  Council, should be entitled to an opportunity to communicate their views and have their
  interests considered.

### **Council Information**

This information includes but is not limited to:

- Plans and Reports adopted by Council;
- Policies;
- Project and service plans;
- Grant applications, tenders and tender evaluation methodology;
- Service agreements, contracts, leases and licences;
- Council leases, permits and notices of building and occupancy; and
- Relevant technical reports and / or research that informs decision making.

#### Process information such as:

- Practice notes and operating procedures;
- Application processes for approvals, permits, grants, access to Council services;
- Decision making processes;
- Guidelines and manuals;
- Community engagement processes;
- Complaints handling processes.
- Customer service charters

Warning - Uncontrolled when printed.

Page 7 of 13

Warning - Uncontrolled when printed.

Page 8 of 13

**Council records** will, at a minimum, be available on Council's website:

- Council meeting agendas;
- Reporting to Council;
- Minutes of Council meetings;
- Reporting from Advisory Committees to Council through reporting to Council;
- Audit and Risk Committee Performance Reporting;
- Terms of Reference or charters for Advisory Committees;
- Registers of gifts, benefits and hospitality offered to Councillors or Council Staff;
- Registers of interstate and overseas travel undertaken by Councillors or Council Staff;
- Registers of Conflicts of Interest disclosed by Councillors or Council Staff;
- Submissions made by Council;
- Registers of donations and grants made by Council;
- Registers of leases entered into by Council, as lessor and lessee;
- Register of Delegations;
- Register of Authorised officers;
- Register of Election campaign donations.
- Summary of Personal Interests
- Any other Registers or Records required by legislation or determined to be in the public interest.

#### Publications

In addition to formal reports Council publishes a wide range of newsletters, reports and handbooks for residents, businesses and visitors to council. You can download them from the website or call Council for a copy. Some of these publications are available at Council's Library.

### 6. ACCESS TO INFORMATION

- Information will be made available on the Council website, open data, at Council offices, or by request.
- Consideration will be given to accessibility and cultural requirements in accordance with the *Charter of Human Rights and Responsibilities Act 2006.*
- Consideration will be given to confidentiality in accordance with the *Local Government Act 2020* and public interest test where appropriate.
- Council will respond to requests for information in alignment with the relevant *Acts* including the Public Transparency Principles, and this policy.

# 7. INFORMATION NOT AVAILABLE

Some Council information may not be made publicly available. This will only occur if the information is confidential information or if its release would be contrary to the public interest or in compliance with the *Privacy and Data Protection Act 2014*.

"Confidential information" is defined in section 3 of the *Local Government Act 2020*. It includes the types of information listed in the following table.

Туре	Description
Council business information	Information that would prejudice the Council's position in commercial negotiations if prematurely released.
Security information	Information that is likely to endanger the security of Council property or the safety of any person if released.
Land use planning information	Information that is likely to encourage speculation in land values if prematurely released.
Law enforcement information	Information which would be reasonably likely to prejudice the investigation into an alleged breach of the law or the fair trial or hearing of any person if released.
Legal privileged information	Information to which legal professional privilege or client legal privilege applies.
Personal information	Information which would result in the unreasonable disclosure of information about any person or their personal affairs if released.
Private commercial information	Information provided by a business, commercial or financial undertaking that relates to trade secrets or that would unreasonably expose the business, commercial or financial undertaking to disadvantage if released.
Confidential meeting information	Records of a Council and delegated committee meetings that are closed to the public to consider confidential information
Internal arbitration information	Confidential information relating to internal arbitration about an alleged breach of the Councillor Code of Conduct.
Councillor Conduct Panel confidential information	Confidential information relating to a Councillor Conduct Panel matter
Confidential information under the 1989 Act	Information that was confidential information for the purposes of section 77 of the <i>Local Government Act 1989</i>

Warning - Uncontrolled when printed.

### 8. **RESPONSIBILITIES**

Party/parties	Roles and responsibilities	Timelines
Council	Champion the commitment and principles for public transparency through leadership, modelling practice and decision-making.	Ongoing
Executive Management Team	Champion behaviours that foster transparency and drive the principles through policy, process and leadership. Monitor implementation of this policy.	Ongoing
Senior Management Team	Manage areas of responsibility to ensure public transparency, good governance and community engagement is consistent with this policy.	Ongoing
All Staff	Public transparency is the responsibility of all employees as appropriate to their role and function. All staff respond to requests for information and facilitate provision of information in consultation with their manager and in alignment with the Policy.	Ongoing
Manager Governance	To monitor implementation of this policy and conduct periodic reviews to drive continuous improvement.	Ongoing
Communications Department	Monitor the currency of information on Councils website to improve community access to pertinent information	Ongoing

### 9. HUMAN RIGHTS CHARTER

This policy has been reviewed against and complies with section 13 of the *Charter of Human Rights and Responsibilities Act 2006,* as this Policy aligns with and provides for the protection of an individual's right not to have their privacy unlawfully or arbitrarily interfered with. It is also in line with section 18 which recognises a person's right to participate in the conduct of public affairs.

### 10. NON-COMPLIANCE WITH THIS POLICY

If a member of the community wishes to question a decision about the release of information, this should be raised directly with the officer handling the matter in the first instance. If still not satisfied and would like to contest the decision, this can be reported to the Councils FOI officer either by phone through our main switch numbers on 5559 4800 or 1300 003 280 or by e-mail at Contact@warrnambool.vic.gov.au.

If not satisfied with Council's response, the concerns can be raised directly with the Victorian Ombudsman's office on (03) 9613 6222. or via the website – <u>www.ombudsman.vic.gov.au</u>.

### 11. OTHER WAYS TO ACCESS INFORMATION

The *Freedom of Information Act 1982* gives you right of access to documents that Council holds. Council is committed to, where possible, proactive and informal release of information in accordance with the Freedom of Information Professional Standards issued by the Victorian Information Commissioner. Read more at <u>www.ovic.vic.gov.au</u>.

A list of available information is provided in the Part II Statement (Statement) published on Council's website in accordance with the *Freedom of Information Act 1982*. This Statement requires government agencies and local councils to publish a number of statements designed to assist members of the public in accessing the information it holds.

If you can't find the information you require, call Council directly so we may assist you.

### 12. MONITORING, EVALUATION AND REVIEW

Council commits to monitoring processes, information sharing and decision making to understand the overall level of success in the Policy's implementation.

A 4 yearly review of this policy will be undertaken to ensure any changes required to strengthen or update the policy are made in a timely manner.

### 13. RELATED POLICIES & LEGISLATION

Council's:

- Governance Rules
- Public Transparency Principles
- Governance Framework (Template available from LGV if required based on Geelong model)

# 1. INTRODUCTION

### Purpose

This policy supports Councillors and members of a Delegated Committee to perform their role, as defined undersection 41 of the *Local Government Act 2020,* by ensuring that expenses reasonably incurred in the performance of their role are reimbursed. The policy also provides guidance on:

- entitlements
- processes for reimbursement
- reporting requirements.

The policy is intended to ensure that Councillors and members of a Delegated Committee are supported to perform their duties without disadvantage.

### Scope

This policy applies to all Councillors and members of a Delegated Committee.

Councillor duties are those performed by a councillor as a necessary part of their role, in achieving the objectives of council.

These duties may include (but are not limited to):

- attendance at meetings of council and its committees
- attendance at briefing sessions, workshops, civic events or functions convened by council
- attendance at conferences, workshops and training programs related to the role of councillor, mayor or deputy mayor
- attendance at meetings, events or functions representing council
- duties in relation to constituents concerning council business.

Members of a Delegated Committee exercise the powers of councillors, under delegation. This policy also applies to those members in the course of undertaking their role as a member of a Delegated Committee.

### **Definitions and Terminology**

Term	Meaning	
Carer	A carer is defined under section 4 of the Carers Recognition Act 2012	
Delegated	Under the Local Government Act 2020 a <i>delegated committee means</i> :	
Committee	<ul> <li>a delegated committee established by a Council under section 63; or</li> </ul>	
	<ul> <li>a joint delegated committee established by 2 or more Councils under section 64; or</li> </ul>	
	<ul> <li>a committee, other than a Community Asset Committee, exercising any power of a Council under this Act or any other Act delegated to the committee under this Act or any other Act.</li> </ul>	
Accompanying	Spouse, partner or de facto or other person who has a close personal	
Person	relationship with or provides carer support to a councillor.

# 2. POLICY

Councillors and members of a Delegated Committee are entitled, under section 40 of the *Local Government Act 2020* (the Act), to the reimbursement of expenses reasonably incurred in the performance of their duties.

All expenses provided under this policy will be for a purpose specific to the functions of holding civic office. Allowances for general expenses are not permitted under this policy. *NOTE: Definitions to be included in Definitions & Terminology.* 

This policy ensures that the reimbursement of these expenses is in accordance with the Act and meets the Act's principles of public transparency; achieving the best outcomes for the municipal community; and ensuring the ongoing financial viability of the council.

Councillors and members of a Delegated Committee will be reimbursed for out-of-pocket expenses that are:

- Bona fide expenses; and
- Have been reasonably incurred in the performance of the role of councillor; and
- Are reasonably necessary for the councillor and member of a delegated committee to perform this role.

### **Principles**

The Council commits to the following principles:

- **Reasonable expenses** Councillors and Delegated Committee members should not be out of pocket as a result of performing their Council functions and duties;
- **Proper conduct** reimbursements claimed by Councillors and Delegated Committee members must be for expenses actually and necessarily incurred in performing their official Council functions and duties;

#### **Council Expenses Policy**

6 July 2020

Page | 235

**Participation and access -** enabling people from diverse backgrounds, underrepresented groups, those in carer roles and those with special needs to serve as a Councillor or as a Delegated Committee member;

- Accountability and transparency payment of any allowances, the reimbursement of expenses and the support provided to Councillors and Delegated Committee members must be accountable and transparent to the community;
- Equity there must be equitable access to expenses and facilities for Councillors and Delegated Committee members; and
- Appropriateness unless directly delegated by the Council or the Mayor to attend, any costs associated with attending community run and organised events will be met by Councillors or Delegated Committee members.

### **Travel and General Expenses**

Councillors and delegated Committee members will be eligible for the reimbursement of reasonable expenses associated with:

- Travel (including the use of private vehicles, taxi or public transport) involved in attending any
  meeting/briefing of the Council or a Council Committee, as a member of the Committee. All
  travel should be undertaken using the most direct route and the most practicable and
  economical mode of transport;
- Travel, accommodation, meals, fees and expenses incurred in representing Council at any meeting or function outside the municipality where the Councillor or Delegated Committee member is requested to attend by the Council or the Mayor;
- Travel expenses incurred in carrying out duties associated with representing Council as the delegated Council representative to another organisation and or community association; and
- For Councillors, travel expenses incurred in attending civic functions hosted by the Council, including but not limited to:
  - citizenship ceremonies;
  - official Council Australia Day celebrations;
  - o official Council welcome receptions for Ministers, Sister City officials; and
  - o other civic events.

The Council will not pay any traffic or parking fines or administrative charges for road toll accounts.

The Council will cover costs associated with a Councillor and accompanying person attending any Council run and organised event.

Councillors and Delegated Committee members must pay for all costs not provided for in this Policy, unless where extenuating circumstances exist, and the Council and/or Chief Executive Officer have approved payment of such expenses.

**Council Expenses Policy** 

### **Carer and Dependent-related Expenses**

The Council will provide reimbursement of costs where the provision of childcare is reasonably required for a Councillor or member of a Delegated Committee to perform their role (s 41(2)(c)).

This applies to the care of a dependent, while the Councillor or Delegated Committee member is undertaking their official duties; and may include expenses such as hourly fees and booking fees, if applicable.

The Council will provide reimbursement of costs where the provision of carer services is reasonably required when a Councillor or Delegated Committee member who is a Carer incurs reasonable expenses in the performance of their duties.

Payments for Carer and childcare services will not be made to a person who resides with the Councillor or Delegated Committee member; has any financial or pecuniary interest with the Councillor or Delegated Committee member; or has a relationship with the Councillor or Delegated Committee member or their partner.

Reimbursement of child and/or family care expenses shall in accordance with the following provisions:

- Reimbursement for childcare is available up to \$25 per hour for Council activities that are deemed claimable;
- Reimbursement will only be paid for services where a receipt from the caregiver is received showing the dates and times the care was provided;
- The care must be for a person who resides with the Councillor or Delegated Committee member, and for whom the Councillor or Delegated Committee member is the sole primary carer;
- The care must not be provided by a person who is an immediate family member and/or normally or regularly lives with the Councillor or Delegated Committee member; and
- When a need is identified the Councillor or Delegated Committee member involved can work with Council to develop appropriate care arrangements.

### **Claims and Payment of Expenses**

Claims for reimbursement:

- All claims must be made on the approved expense reimbursement form, available from the Executive assistant to the CEO and Mayor.
- Original receipts must be attached for all claims (credit card receipts will not be accepted).
- Where the provider of the goods or service is registered for GST a tax invoice must be obtained and provided (without this the GST component of the cost cannot be reimbursed).
- Claims must be lodged with the Chief Executive's office.

Payments:

- The rate of travel reimbursement for the use of a private vehicle will be per kilometre travelled and based on the rates determined the Australian Taxation Office for tax deduction purposes.
- Expenses, authorised under this Policy, can be booked and charged directly to the Council by prior arrangement with the Chief Executive's office.

- All claims for the reimbursement of expenses will be authorised for payment by the Chief Executive or his/her delegate.
- Reimbursements will be provided monthly by electronic funds transfer.

### **Monitoring and Reporting**

Quarterly reports of all Councillor and Delegated Committee member expenses will be submitted to:

- The Council as an inclusion in the Finance Report; and
- The Audit and Risk Committee.

The report will include:

- Expenses incurred during the quarter; and
- Reimbursement claims made during the quarter

The Council commits to monitoring processes and decision making to understand the overall success of the policy's implementation.

# **3. GOVERNANCE**

### Review

The Director Corporate Strategies is responsible for undertaking a periodical review of the policy to ensure any changes required to strengthen or update the policy are made in a timely manner.

The policy must be submitted to the Council for review no later than no later than six months after a general election.

### Compliance

Suspected breaches of this policy are to be reported to the Chief Executive Officer.

Alleged breaches of this policy shall be dealt with by following the processes outlined for breaches of the Councillors Code of Conduct.

The Audit and Risk Committee shall exercise an oversight function over compliance with this policy.

# **1. INTRODUCTION**

### Purpose

This policy outlines the range of resources and facilities provided to support Councillors to enable them to effectively carry out their role.

Resources and facilities include the provision of communication and computer equipment; and opportunities to participate in professional development activities and networks relevant to local government and public sector governance.

The policy does not include the following:

- o Out-of-pocket expenses, including private travel use covered in separate Council Expenses Policy
- o Allowances set by determination of the Victorian Independent Remuneration Tribunal.

### Scope

This policy applies to all Councillors.

This Policy is not intended to prescribe every possible situation that may arise. Should a situation arise that is not adequately covered by this policy, the matter will be referred to the Chief Executive Officer and if required to Council for determination by resolution.

# 2. POLICY

### **Principles**

This Policy establishes the resources, administrative and professional development support to be provided to elected Councillors to enable them to carry out their duties as representatives of the community, communicate with each other, Council staff and the community.

The development of this Policy was guided by the following principles:

• Ensuring that all Councillors have available to them the tools, services and facilities necessary to undertake their roles;

- Councillors should not be out of pocket as a result of performing their Council functions and duties:
- Achieving best practice governance by supporting Councillors in skill development and knowledge of issues effecting the local government sector;
- Assisting Councillors to improve skills necessary to perform their role and function as Councillors on a group or individual basis;
- Payment for the support provided to Councillors must be accountable and transparent to the community.

# **3. RESOURCES and FACILITIES**

### Transport

The Council pool vehicles may be booked by a Councillor, subject to availability of a vehicle and the Council's Light Fleet Policy, for travel to/from official meetings, conferences, seminars, training and events.

• The conditions of use of the Council vehicles shall be in accordance with Council's "Light Fleet Policy".

Pool car travel arrangements will be made for Councillors attending relevant functions, where Council staff are attending.

Councillors will be provided with car parking permissions to park in the designated Council parking bays adjacent to the Civic Centre Offices when attending for Council business.

### **Information Technology and Communications**

Councillors will be provided with the following information technology and communications equipment:

- A smartphone with voicemail facilities and hands free (Bluetooth) kit (if required). The account for this mobile telephone will be paid by the Council;
- A tablet/laptop computer/iPad with access to email and loaded with Council approved applications and anti-virus software;
- A suitable internet facility for the tablet/laptop/iPad;
- A multi-function colour printer/scanner/copier and fax device; and
- A case to protect the smartphone and tablet/iPad.

Councillors will be provided with a Warrnambool City Council (WCC) email address, which will be linked to the Council's electronic Mail (& Calendar) system to allow for diary management by the Chief Executive's office.

Council's IT department will provide support to Councillors for Council provided equipment and software.

Where a Councillor wishes to use their own equipment, full IT support may not be provided and/or expenses reimbursed by Council.

The configuration and use of Council provided IT and Communications equipment shall be in accordance with the *Councillors Information Technology and Communications Usage Standards* (Appendix 1).

# **Stationery & Printing**

Standard stationery shall be provided to carry out Council duties, including but not limited to, diaries, notebooks and pens.

Paper will be supplied for the printer on an 'as needs basis'. For large documents and print jobs Councillors may contact the Chief Executive's office to arrange printing at the Civic Centre Offices.

### **Administrative Support**

Relative to Council business, administrative support will be provided to Councillors through the Chief Executive's office. Staff will not provide non-Council business administrative services, run personal errands, or undertake non-Council business administrative tasks for Councillors.

### **Office Access & Meeting Rooms**

Each Councillor will receive a security pass allowing access to the Councillors meeting room and public areas of the Civic Centre Offices during business operating hours. After hour arrangements shall be made and approved the Chief Executive's office.

A Councillors meeting room is provided at the Civic Centre Offices for Councillor briefing/meetings and civic functions as arranged by.

Other meeting rooms at the Civic Centre Offices can be booked (subject to availability) by Councillors for meetings associated with their role as a Councillor. Bookings are made through the Chief Executive's office.

### **Meals and Refreshments**

The Council will provide reasonable refreshments during meetings on Council business and reasonable meals where Council or Committee meetings are to be held over extended periods or are likely to have a late conclusion time, at the discretion of the Chief Executive Officer and/or Mayor.

The nature of the meal and refreshments shall depend on the nature of the meeting, the timing and attendees and all arrangements are made through the Chief Executive's office.

### **Protective Clothing**

The Council shall, upon request, make available on loan protective clothing required to assist in carrying out the duties of office. This clothing is to be returned promptly upon the completion of the activity/duty for which the articles were required.

The clothing shall be limited to clothing held in store to meet the organisation's requirements.

6 July 2020

### Insurance

Councillors are covered by the following Council insurance policies while undertaking their Council duties.

- Public Liability
- Professional Indemnity
- Councillors and Officers Liability Insurance
- Personal Accident
- Motor Vehicle (while driving Council owned vehicles)
- Loss of No Claim Bonus/payment of excess in the event of an accident whilst using their own vehicle (subject to having comprehensive insurance), limit is \$1.000, no excess); and
- Loss or damage to personal property in excess of the policy excess
- Statutory Liability and Defence Costs Indemnity
- Cyber Risk

Council equipment provided to Councillors is covered for damage or theft under Council's insurance policies. Councillors are expected to exercise due care in protecting the equipment from damage or theft.

All policies have terms, conditions, exclusions and deductibles and specific information can be obtained by contacting the Manager Governance & Civic Support.

Council will pay any applicable policy excess in respect of claims made against a Councillor arising from Council business where any claim is accepted by Council's insurers.

### Workcover

A Councillor injured while carrying out their Council duties may be entitled to claim workers compensation under the *Workplace Injury Rehabilitation and Compensation Act 2013*.

Each workers compensation claim will be determined based on its individual circumstances and merit.

Councillors may make a workers compensation claim in accordance under *Workplace Injury Rehabilitation and Compensation Act 2013* and the relevant Council policies and procedures.

### Legal Expenses

Other than by specific Council resolution or in accordance with a Council policy, any legal expenses incurred by a Councillor will be the responsibility of that Councillor.

Councillors may discuss potential claims on a case by case basis with the Chief Executive Officer to determine if any insurance claim is applicable.

The Council may, if requested, indemnify or reimburse the reasonable legal expenses of:

a councillor defending an action arising from the performance in good faith of a function under the Local Government Act provided that the outcome of the legal proceedings is favourable to the councillor

- a councillor defending an action in defamation, provided the statements complained of were made in good faith in the course of exercising a function under the Act and the outcome of the legal proceedings is favourable to the councillor
- a councillor for proceedings before an appropriate investigative or review body, provided the subject of the proceedings arises from the performance in good faith of a function under the Act and the matter has proceeded past any initial assessment phase to a formal investigation or review and the investigative or review body makes a finding substantially favourable to the councillor.

In the case of a code of conduct complaint made against a councillor, legal costs will only be made available where the matter has been referred by the general manager to a conduct reviewer and the conduct reviewer has commenced a formal investigation of the matter and makes a finding substantially favourable to the councillor.

Legal expenses incurred in relation to proceedings arising out of the performance by a councillor of his or her functions under the Act are distinguished from expenses incurred in relation to proceedings arising merely from something that a councillor has done during his or her term in office. For example, expenses arising from an investigation as to whether a councillor acted corruptly would not be covered by this section.

The Council will not meet the legal costs:

- of legal proceedings initiated by a councillor under any circumstances
- of a councillor seeking advice in respect of possible defamation, or in seeking a non-litigious remedy for possible defamation
- for legal proceedings that do not involve a councillor performing their role as a councillor.

Reimbursement of expenses for reasonable legal expenses must have Council approval by way of a resolution of the Council prior to costs being incurred.

# **Other Support**

Councillors will be supplied upon request with a copy of the Local Government Act, the Planning and Environment Act and any other appropriate legislation as requested but are encouraged to access the electronic versions of these documents from <u>www.legislation.vic.gov.au</u>.

Councillors will be provided with a Warrnambool City Council name badge for use while on Council business.

### **Mayoral Resources**

In addition to the resources and facilities available to all Councillors, the Mayor will also be provided will:

- A furnished office with desktop computer connected to Council printers, a telephone, bookshelf and drawers; and
- Private use of a medium sized, executive vehicle with a five star safety rating, hands free (Bluetooth) kit and fuel card.

6 July 2020

Page | 246

### **Interstate and International Travel**

All interstate and international travel undertaken by Councillors must be in accordance with the achievement of Council's corporate objectives and goals and be approved by a resolution of the Council.

For interstate travel the class of air travel is economy class. For international travel, the class of air travel is to be premium economy if available. Otherwise, the class of travel is to be economy. All air travel bookings and payment will be made by the Council.

A register disclosing the details and costs relating to all interstate and international travel undertaken by Councillors (with the exception of interstate travel by land for less than three days) is made available for public inspection.

Councillors undertaking any approved travel under this clause must ensure that the final details on the travel expenses are provided to the Manager Governance & Risk within seven days of return from travel.

Where a conference or seminar involves interstate or international travel, Councillors attending must provide a written report on their attendance. The report must be submitted to a Council meeting as soon as practicable.

# 4. DISABILITY and CARER SUPPORT

The Council encourages wide participation and interest in civic office. It will ensure council premises and associated facilities are accessible, including provision for sight or hearing impaired councillors and those with other disabilities.

For any Councillor with a disability, the Council will provide reasonable additional resources and facilities in order to allow that Councillor to perform his/her duties as a Councillor.

Councillors who are the principal carer of a child or other elderly, disabled and/or sick immediate family member will be entitled to reimbursement of carer's expenses, as set out in the Council Expenses Policy.

# 5. PROFESSIONAL DEVELOPMENT/TRAINING

Councillor professional development is encouraged in order to develop and maintain Councillors' skills and abilities with regards to effective community representation, decision making and strategic Council planning.

Avenues for Councillors to utilise professional development opportunities include;

 Councillor Induction Program and regular in-house workshops arranged through the Chief Executive's office.

- Workshops, seminars, conferences, and other day training as offered by industry partners, local government networks and support organisations or participation in relevant formal study courses at appropriately recognised training facilities.
- Professional membership activities of peak Australian Local Government bodies and related organisations.

The costs associated with the Councillor Induction Program and in-house workshops will be borne by Council.

Access to professional development/training opportunities shall be at the discretion of each Councillor, who will be entitled to have paid (up to a set annual maximum allowance) the following professional development costs:

- Registration fees for attendance at conferences and seminars.
- Conference dinner/meals payment for the main conference dinner if not covered by registration fee costs together with all meals within reasonable limits for the duration of the conference or seminar.
- Accommodation appropriate accommodation form the day prior to registration day and each day on which the conference or seminar is held. Any additional costs as a result of the attendance of partners and/or children shall be borne by the Councillor.
- Transportation in the most appropriate mode to, from and during conferences and seminars. Car parking fees including airport and hotel parking.
- Professional Membership fees associated with any of the following bodies
  - Municipal Association of Victoria (MAV)
  - $\circ$   $\;$  Victorian Local Government Associations (VLGA)
  - o Australian Local Government Association (ALGA)
  - o Australian Local Government Women's Association (ALGWA)
  - Australian Institute of Company Directors (AICD)

The Mayor and/or delegated Councillor/s accompanied by the Chief Executive Officer will endeavour to regularly participate in the following key local government events, of which attendances costs will be covered by the Council:

- ALGA National General Assembly
- MAV Annual Session
- MAV Plenary Session

### Notes:

- The professional development fund allocation is set at \$3,000 per annum per Councillor for skills development programs and topics at the discretion of each Councillor approved in accordance with this Policy.
  - The Chief Executive Officer shall assess and decide on all Councillor professional development applications.
  - If the Chief Executive Officer refuses the application the Councillor may request that the application be referred to the Council for review.
- An additional \$500 allowance is available per annum per Councillor exclusively for access to governance related professional development and/or memberships approved in accordance with this Policy.

- The annual allocation shall be subject to annual review as part of the Council budget approval process.
- Registration and payment for conferences, seminars and memberships shall be organised through the Chief Executive's office.
- Unused annual allocations will not be carried forward to the following year.
- The Council may resolve to approve a higher annual cost for requests to undertake a formal relevant qualification, such as a certificate, diploma, or relevant units of an undergraduate or postgraduate degree.
- Appendix 1 outlines a recommended yearly program and examples of options available for Councillors to consider over their four year electoral term.

# **6. GOVERNANCE**

### **Review**

The Manager Governance and Risk is responsible for undertaking a periodical review of the policy to ensure any changes required to strengthen or update the policy are made in a timely manner.

The policy must be submitted to the Council for review no later than no later than six months after a general election.

### Compliance

The Director Corporate Strategies shall exercise an oversight function over compliance with this policy.

Where a Councillor fails to comply with this policy, the issue shall be dealt with in the same manner as disputes arising under the Councillor Code of Conduct.

# **Ownership of Property**

All equipment provided under this Policy remains the property of the Council and must be returned to the Council at the end of a Councillor's term of office or upon retirement/resignation of the Councillor.

Should a Councillor desire to keep any equipment allocated by the Council, then the councillor may make application to the Chief Executive Officer to purchase any such equipment. The Chief Executive Officer will determine an agreed fair market price or written down value for the item of equipment. This option does not include motor vehicles.

# APPENDIX 1 – INFORMATION TECHNOLOGY and COMMUNCATIONS USAGE STANDARDS for COUNCILLORS

### **IT RESOURCES**

- All laptops, tablets, iPads, mobile/smart phones and service numbers/addresses must be used in compliance with applicable licenses, notices, contracts and agreements.
- Councillors will be issued with a Council email address (.... @warrnambool.vic.gov.au). Due to the business email security requirements the address will not be linked to a personal email account.
- The email account will be linked to the Council's electronic Mail & Calendar to allow for diary management by the Chief Executive's office.
- The email account, internet access and web pages should not be used for any purpose other than Council/Councillor related communications.
- Any document received over the internet and by email is considered corporate information for which the Council is responsible. All corporate information must be appropriately registered through the Council's central records systems.
- The Council provided IT equipment and resources including email accounts, internet access and web pages must not be used for electioneering purposes. For further information refer to the *Election Period Policy*

### CONFIDENTIAL INFORMATION

• The confidentiality of correspondence via email cannot be guaranteed. Confidential emails should be sent with encryption or by traditional methods, not electronically.

### FREEDOM OF INFORMATION AND INFORMATION PRIVACY

- Freedom of Information, Privacy and Data Security legislation applies to all documents flowing through the organisation. This includes electronic documents received and produced through the internet and email.
- To maintain the original integrity of documents, no personal comments should be added or alterations made to the original document. Comments may be recorded on a separate memo, file note, or electronic copy, which can be separate from the original document.

### COMMUNICATIONS

• All communications produced by Councillors contribute to the community's perception of Council's image. This includes internet and email communications, which must conform to organisational standards to project the public image desired by Council. For further information refer to the *Media Policy and Councillor Code of Conduct*.

### SECURITY & MONITORING

• Use of the internet and email may be subject to monitoring for security or network management reasons. Councillors may also be subject to limitations on their use of such resources.

- Councillors must not share Council issued internet or email access or passwords with any other person. Each Councillor is responsible for all activity that takes place under his or her Council login.
- The distribution of any information through the internet, computer-based services, email and messaging systems is subject to the scrutiny of the Council. The Council reserves the right to determine the suitability of this information.
- Councillors must not download or transmit executable programs, screensavers, system components (e.g. fonts, patches) graphics, pictures, movies, audio files or similar files, without approval from the Manager Information Services.
- All internet and email use is monitored and results are reported to the Chief Executive Officer.

### PERSONAL USE

- Council provided internet and email privileges, like telephones, computer systems and networks, are considered corporate resources and are provided primarily for work purposes.
- Notwithstanding, limited personal use of the equipment is permitted. The Chief Executive Officer must approve (in advance) any use in excess of limited personal usage, as well as any arrangements to reimburse Council.

### LOST, STOLEN OR MISPLACED EQUIPMENT

- For security purposes and to avoid misuse of equipment after loss, the service must be cancelled immediately once it is determined missing.
- The theft or loss should be reported to the nearest police station and the Chief Executive's office must be contacted immediately in order to have the service barred.

### USE OF MOBILE/SMART PHONES WHILST DRIVING

• Mobile phones should not be used in any case when operating a vehicle. The user should safely park the vehicle before taking or making a call.

### CARE OF EQUIPMENT

- Key tips on care of equipment include:
  - Keep the equipment dry take care around liquids
  - Keep the equipment out of extreme cold or heat.
  - Do not attempt to open the housing, except to replace the battery according to User Guide instructions.
  - To clean, wipe only with a soft cloth slightly dampened in a mild-soap-and-water solution.
  - Handle the SIM card and all other components with care

### GENERAL CONDITIONS

- A case is provided to protect the tablet/iPad/smart phone from damage.
- With regard to use of internet and email, Councillors should not:
  - Visit internet sites that contain obscene, hateful or other objectionable materials; send or receive any material that is obscene or defamatory or which is intended to annoy, harass or intimidate another person or which contravenes the Equal Opportunity principles.

- Receive email without following records management procedures.
- Produce communications over the internet that do not conform to organisational standards. Solicit emails that are unrelated to business activities.
- Make or post indecent remarks, proposals, or materials.
- Upload, download, or otherwise transmit commercial software or any copyrighted materials belonging to parties outside of the Council, or the Council itself.
- Reveal or publicise confidential or proprietary information which includes, but is not limited to financial information, new business and product ideas, marketing strategies and plans, databases and the information contained therein, customer lists, technical product information, computer software source codes, computer/network access codes, and business relationships.
- Examine, change or use another person's files, output or user for which they do not have explicit authorisation.
- Councillors must report immediately to the Chief Executive's office any incorrect or inappropriate communications transmitted and or received.

# APPENDIX 2 - COUNCILLOR PROFESSIONAL DEVELOPMENT PROGRAM

Conferences, seminars and training courses are organised throughout the year by Council, local government related organisations, professional bodies and private sector providers on issues and events which may be relevant to the role of a Councillor.

The selection of conferences and training should be based on its relevance to the responsibilities and the specific training needs of a Councillor and Council's Council Plan goals and are likely to encompass but not limited to:

- Sessions organised by Local Government peak bodies including the Municipal Association of Victoria (MAV), the Victorian Local Governance Association (VLGA), the Australian Local Government Association (ALGA) and the Australian Local Government Women's Association (ALGWA).
- Specialist training related to the duties, responsibilities and competencies of a Councillor as organised by the Chief Executive's office.
- Australian Institute of Company Directors (AICD) or other courses approved by the Chief Executive related to governance and leadership.
- Sessions conducted inhouse as part of Council's annual Councillor training program, briefings and workshops.
- Specific needs based training as approved by the Chief Executive, including, but not limited to media and public speaking.

### Suggested Training Options:

Councillors are open to select their own professional development training program. The following is provided for illustrative/guidance purposes only.

Year	Professional Development/Training Program

# 1. INTRODUCTION

#### Purpose

The purpose of this Policy is to provide a framework to ensure the prevention, deterrence, detection and investigation of all forms of fraud and corrupt conduct.

The Council is committed to protecting its reputation and assets from any attempt by a Councillor, Council staff or any external person or parties to gain financial or other benefits by deceit or dishonest conduct.

The Council recognises that fraud and corruption have the potential to cause significant financial and non-financial harm and that the prevention and control of fraud and corruption should feature predominantly within the systems and procedures of Council.

#### Scope

This policy applies to all Councillors, Council staff, volunteers and contractors and any associated external parties of the Council. Procedures have been developed in support of this Policy

This policy does not cover general misconduct involving a Councillor and Council staff. These matters are dealt with in accordance with the Codes of Conduct and associated disciplinary policies and procedures.

# **Definitions and Terminology**

Term	Meaning
Fraud <sup>1</sup>	<ul> <li>Dishonest activity involving deception that causes actual or potential financial loss.</li> <li>Examples of fraud include: <ul> <li>theft of money or property</li> <li>falsely claiming to hold qualifications</li> <li>false invoicing for goods or services not delivered, or inflating the value of goods and services</li> <li>theft of intellectual property or confidential information</li> <li>falsifying an entity's financial statements to obtain an improper or financial benefit</li> <li>misuse of position to gain financial advantage.</li> <li>Using a council credit card for personal use</li> <li>Using a council fuel card to fill-up their own vehicle</li> <li>Seeking reimbursement for items not bought, or not for</li> </ul> </li> </ul>

<sup>1</sup> Meaning of 'Fraud' and 'Corruption' sourced from Victorian Auditor-General's Report on *Fraud and Corruption Control – Local Government*, June 2019.

# 2. POLICY

# Commitment

The Council is committed to developing and maintaining an organisational culture supported by appropriate controls, procedures and strategies, which prevent fraud and corrupt conduct.

The **Council**'s commitment to fraud and corruption control will be managed by ensuring that fraudulent or corrupt activity is prevented, conflicts of interest are avoided, and auditing systems are in place to deter and/or identify corrupt activities.

# **Principles**

- The Council has a zero tolerance to fraud, theft, corruption, or misconduct.
- The Council will implement effective controls to eliminate or reduce the possibility of fraud occurring, including Fraud & Corruption Control Procedure, fraud Risk Assessments and auditing. The Council will utilise available resources to:
  - Implement effective fraud controls;
  - Conduct any investigations and analysis of fraudulent activities; and,
  - Conduct appropriate awareness training for staff.
- The Council is committed to detecting, investigating, reporting and prosecuting cases of fraud, theft, corruption, or misconduct.
- All Councillors and Council staff have are obliged to assist the Council to:
  - Identify and detect suspected fraudulent or corrupt activities, and
  - Report any potential suspected fraudulent or corrupt activities.
- The Council will provide a fair mechanism to ensure that:
  - Those who have become aware of, or who suspect that fraudulent activity may be occurring, are not victimised or disadvantaged for making allegations in accordance with the Council's Public Interest Disclosure Procedure;
  - o There is a fair process in place for staff against whom allegations are made; and,
  - $\circ$   $\;$  All matters concerning the suspicion of fraud are treated with strictest of confidence.

# **Reporting and Investigation**

Councillors and staff are obligated to report all suspected incidents of fraudulent or corrupt activities.

- Councillors will report all suspected fraud, theft, corruption, or misconduct to the Chief Executive Officer, a Director or the Public Interest Disclosure Coordinator, except where it relates to a Councillor. If the matter relates to a Councillor, then a Councillor should follow the relevant provisions of the Councillor Code of Conduct, or if protected disclosure matter, report the matter to IBAC.
- Council staff can report to their supervisor, manager, Director, the Chief Executive Officer, Public Interest Disclosure Coordinator, Public Interest Disclosure Officers or IBAC.

Warning - Uncontrolled when printed. Page 6 of 8

Subject to the requirements of the *Public Interest Disclosures Act 2012* and *Independent Broad-based Anti-Corruption Commission Act 2011*, all reports of fraud, theft, corruption, and misconduct, will be assessed and, if appropriate, investigated, in accordance with the Fraud & Corruption Control Procedure.

The Chief Executive Officer will report:

- Any suspected corrupt conduct to IBAC (mandatory reporting) occurring
  - $\circ$  in the Council; and
  - in other organisations where it is connected with the Chief Executive Officer's duties, functions and exercise of powers.
- Confirmed incidences of fraud, theft, corruption, or misconduct to the Audit and Risk Committee (that are not protected disclosures).
  - Where a suspected fraud or corrupt behaviour is reported or detected and is deemed likely to have a material impact on Councils reputation or operations, in the opinion of the CEO. They will inform the Chair of the Audit and Risk Committee of the incident subject to the limitations on disclosure that may be imposed by external integrity bodies.

Appropriate disciplinary actions will be applied to persons found to be perpetrating fraudulent or corrupt activities or behaviours and include termination of employment.

The Council will report appropriate matters to the police for prosecution. Council will seek financial recovery of losses in all cases and civil proceedings may be initiated.

# **3. GOVERNANCE**

# Review

No later than three years after previous review.

# **Compliance Responsibility**

Body/Persons	Responsibilities
Council	As the body responsible for the good governance of the municipality it is responsible for setting the tone for honesty and integrity in the provision of services to the community and the management of the Council. Ensure that Management has appropriate systems in place to detect and prevent fraud. Councillors must not use their position to gain personal advantage or to confer advantage, or disadvantage, on any other person or body.
Audit and Risk Committee	<ul> <li>Monitor and provide advice on fraud prevention systems and controls. This includes:</li> <li>Reviewing processes in the prevention and management of fraudulent activity;</li> <li>Reviewing reports of fraud from management, the status of ongoing investigations and recommendations to improve fraud controls;</li> </ul>

Warning - Uncontrolled when printed.

Page 7 of 8

Body/Persons	Responsibilities
	<ul> <li>Assessing the operational effectiveness of the fraud prevention controls; and</li> <li>Ensuring that the internal audit program assists in identifying any potential fraud risks.</li> </ul>
Chief Executive Officer	Principal responsibility for fraud control and to ensure staff compliance with this Policy and associated Procedures. Ensure that appropriate governance structures are in place. Will report instances where Council investigations have revealed sufficient evidence of fraudulent or corrupt activity to the appropriate external authority.
Executive Management Team (EMT)	Responsible for the co-ordination, monitoring, ongoing review and communication of the Policy.
Council Staff	Responsible for acting with propriety in all council activities. Must not use their position with the Council to gain personal advantage or to confer advantage, or disadvantage, on any other person.

Warning - Uncontrolled when printed.

# 1. INTRODUCTION

#### Purpose

The Council is committed to providing an organisational culture supported by appropriate policies and procedures to prevent fraud and corruption. The desired outcome of this commitment is the minimisation and elimination of actual or perceived fraudulent and corrupt behaviours and acts throughout the Council operations.

This Procedure sets out the framework and approach to the implementation and review of fraud and corruption prevention, detection, monitoring and reporting.

## Scope

This Plan applies to Councillors, staff, contractors, sub-contractors, consultants, persons employed through a third party agency and volunteers of Council.

# **Definitions and Terminology**

Term	Meaning
Fraud <sup>1</sup>	<ul> <li>Dishonest activity involving deception that causes actual or potential financial loss.</li> <li>Examples of fraud include: <ul> <li>theft of money or property</li> <li>falsely claiming to hold qualifications</li> <li>false invoicing for goods or services not delivered, or inflating the value of goods and services</li> <li>theft of intellectual property or confidential information</li> <li>falsifying an entity's financial statements to obtain an improper or financial benefit</li> <li>misuse of position to gain financial advantage.</li> </ul> </li> </ul>

IBAC	Independent Broad-based Anti-corruption Commission

<sup>&</sup>lt;sup>1</sup> Meaning of 'Fraud' and 'Corruption' sourced from Victorian Auditor-General's Report on *Fraud and Corruption Control – Local Government*, June 2019.

# Examples of Fraud and Corruption

# Fraud

- General
- Theft of funds, assets, plant, equipment or information
- Unauthorised use of Council equipment or materials for personal benefit
- Causing a loss or avoiding creating a liability by deception
- False invoicing (involving a staff member creating a fictitious invoice claiming payment for goods or services not delivered or exaggerating the value of goods delivered or services provided)
- Accounts receivable fraud (misappropriation or misdirection of remittances received from a debtor)
- Credit card fraud involving the unauthorized use of a credit card or credit card number issued to another person, including use of purchasing card to buy goods or services for personal use
- Providing false or misleading information
- Making false or misleading financial reports
- Release or use of misleading or inaccurate information for the purposes of deceiving or misleading, or to hide wrongdoing
- Misuse of position in order to gain some form of financial advantage
- Theft of intellectual property or other confidential information
- Bribery or kickbacks.

#### Payroll/timesheet fraud

- Time in lieu claimed but not worked
- Overtime claimed but not worked
- Not recording leave taken on timesheet
- Forgery of manager's signature
- Fraudulent medical certificates.

#### Unauthorised use of Council assets

- Unauthorised private use of vehicles
- Taking supplies for private use
- Taking equipment for private use.

#### False claims for reimbursement

- Claiming for non work related costs
- Claiming for costs not actually incurred.

# Recruitment fraud

- Fake qualifications
- Fictitious former employers
- Fake references.

#### Corruption

Corruption includes Councillors, employees, volunteers and contractors:

- Being targeted by external parties seeking to gain an improper benefit
- Targeting external parties or other internal parties in seeking to gain an improper benefit.
- Payment or receipt of secret commissions (bribes), which may be paid in money or in some other form of value to the receiver (e.g. building projects completed at an employee's private residence)
- Release of confidential information for other than a proper business purpose in exchange for some form of non-financial benefit or advantage accruing to the employee releasing the information
- Solicitation of donations for an improper political purpose

- Senior personnel acting in their own self-interest rather than the interests of Council (e.g. failing to declare a conflict of interest in a decision)
- Serious nepotism and cronyism where the appointee is inadequately qualified to perform the role to which he or she has been appointed
- Manipulation of the procurement process by favouring one tenderer over others or selectively providing information to some tenderers. This may involve allowing tenderers to resubmit a 'non-complying' tender after being provided with the details of other bids
- Gifts or entertainment intended to achieve a specific or generic commercial outcome in the short or long-term in breach of Council's Gifts and Benefits procedure.

# 2. PLANNING AND RESOURCING

# Fraud and Corruption Control Documents

The Fraud & Corruption Control Policy and Procedure, the Staff Code of Conduct and the Councillor Code of Conduct are important documents for clearly articulating Council's objectives and expected outcomes in managing fraud and corruption.

The Fraud & Corruption Control Policy establishes Council's attitude and approach to fraud control, while the Staff Code of Conduct and Councillors Code of Conduct set out the high standards of ethical behaviour expected and Council's commitment to those standards.

The Fraud and Corruption Control Plan relates to a specific period in time. It outlines the Council's intended actions in implementing and monitoring its fraud and corruption prevention, detection and response initiatives. The key elements for a Fraud and Corruption Control Plan are listed in Appendix 1.

It describes Council's current fraud and corruption risk context, and its current fraud and corruption risks (as identified in a risk assessment). It contains detailed and specific information on fraud and corruption control activities, responsibilities and timelines in response to those risks.

# **Internal Audit Activity**

Internal audit supports fraud prevention by ensuring employees conform to internal controls, and by deterring potential perpetrators with the increased prospect of being caught. It has a key role in detection of fraud and provides necessary inputs into the Council's responses to fraud.

The Governance Manager, in consultation with the Director Corporate Strategies, should ensure that internal audit schedules or plans adequately address Council's fraud risk exposures and adequately test Council's fraud risk controls.

If deemed necessary the Council will utilise the role of the internal auditor in the investigation and reporting of any suspected fraud or corrupt activity.

# Monitoring

The Audit & Risk Committee provides a key role in monitoring the Council's fraud control processes. Any incident of fraud will be reported to the Committee as part of the risk Review report at the quarterly meeting of the Audit and Risk Committee. The Audit & Risk Committee reviews whole of organisation risk and determines the Annual Internal Audit Plan delivered by the Internal Auditor.

Internal review of controls (systems, processes and procedures) will be undertaken by Council staff as identified in the fraud risk assessment, and/or may be selected by the Audit & Risk Committee for internal audit as part of the Annual Internal Audit Plan.

An internal audit of the Risk Register will be undertaken annually.

Where a suspected fraud or corrupt behaviour is reported or detected and it is deemed likely to have a material impact on Councils reputation or operations, in the opinion of the CEO. They will inform the Chair of the Audit and Risk Committee within 10 working days of the incident subject to the limitations on disclosure that may be imposed by external integrity bodies.

# 3. FRAUD AND CORRUPTION PREVENTION

# **Ethical Culture**

All management and staff are responsible for the development and maintenance of an ethical culture. The Codes of Conduct detail the ethical values and principles that are expected of all staff and of the Council.

Senior Management will not be complacent and will treat fraud and corruption risks as a serious threat to the organisation

EMT and Managers will regularly be briefed on the following:

- Councils current fraud and corruption plan and policy
- Information on the program and robustness of the internal control environment in regard to preventing and detecting fraud
- The types of fraud and corruption common with the sector
- Incidence of fraud and corruption generally in Australia
- Information on the types of fraud and corruption that have been detected at Council over the previous five years
- Information of new or emerging trends in this area.

# Fraud and Corruption Policy and Procedure

The Council will ensure that it has Fraud and Corruption Policy and Procedures in place. Audit and Risk Committee will periodically review the effectiveness of the Fraud and Corruption Policy and Procedure.

Line Managers shall set the example in regard to exercising and demonstrating high levels of integrity in the execution of their roles and functions by regularly reminding employees of the importance of complying with the Code of Conduct, the Fraud and Corruption Control Policy and Fraud and Corruption Plan.

#### **Raising Awareness**

Corporate Induction and Fraud Awareness Training is Council's method for ensuring that all employees are aware of their responsibilities for fraud control and of the expectations for ethical behaviour in the workplace.

Fraud Awareness Training will be provided to all managers to ensure that they are aware of the additional responsibility as a manager, with regards to fraud control. A copy of the Fraud and Corruption policy and procedures will be made available to all Councillors, employees, contractors and volunteers.

The Learning & Development Officer in consultation with the Risk Management Coordinator is responsible for the development and delivery of fraud awareness training, which will be included in the induction program for all new staff, and delivered across the organisation as refresher training, every two years or as deemed necessary.

#### **Risk Identification**

The Risk Management Review Panel is responsible for the Council's overall management of risk. The Panel comprises the Chief Executive Officer, Directors, Manager Governance Projects and Risk and the Risk Management Coordinator.

The Panel meets quarterly to continually identify, review and manage the Council's risk exposure as recorded in the Risk Register, and reviews the Risk Management Strategy and processes.

Fraud has been identified as a high risk to the Council. In order to ensure that all aspects of fraud risk exposure are clearly understood and to effectively implement control measures, the Panel will make recommendations on further treatments that can be implemented in order to control the risk of fraud. These will be detailed within the Fraud Control Plan and implemented in due course.

The Risk Management Coordinator is responsible for coordination of fraud risk assessments. However, each Branch Manager is responsible for the identification of potential exposure of fraud and corruption in their work areas and the development, implementation and monitoring of internal controls (systems, processes and procedures) to minimise risks. The risks, treatments and controls identified through the risk assessment process will be recorded and reported through the Risk Register.

Risks identified will be reported in line with the Risk Management Framework.

Levels of accountability are detailed in all staff Position Descriptions. With general guidelines regarding the protection of Council assets detailed in the Staff Code of Conduct.

# Communication and Awareness of Fraud and Corruption

It is important that fraud and corruption is identified and reported at an early stage and that staff and Councillors have understanding and confidence in the system.

Staff and Councillors will be provided with information on the Fraud and Corruption Plan and Policy so that they have confidence in knowing how to respond if this type of activity is detected or suspected.

The awareness of Council's risk of fraud and corruption controls will be made available to staff and Councillors through the following:

- Copy of the Staff Code of Conduct and Fraud and Corruption Policy will be included in packs for all new staff
- A dedicated page will be maintained on the Council intranet in regard to fraud and corruption, this will include links to all relevant documents in particular the process for reporting allegations
- Staff will complete Fraud and Corruption Awareness Training every two years
- Any substantive changes in the Code, Plan or Policy will be communicated to all staff
- Councillors will complete relevant training with a focus on statutory requirements and Councillor Code of Conduct as required.

# Employment Screening

Employment screening will be undertaken for all new positions. This screening process will reduce the risk of a potential security breach and will provide a high level of assurance as to the integrity, identity and credentials of prospective employees.

The following screening shall be undertaken with the express consent of the individual concerned for all prospective employees:

- Verification of identity requiring at least two forms of identity (passport, birth certificate, drivers licence, rate certificate, at least one must include photo identification)
- Police criminal history check
- Working with children check relevant identified positions
- Reference checks with two most recent employers
- Consideration of any gaps on employment history and the reasons for the gaps
- Verification of formal qualifications claimed.

# Job Rotation and Excess Annual Leave

Individual Service Units will regularly consider job rotation for positions where there are multiple officers undertaking the same or similar functions and the position is deemed a high risk from a fraud or corruption perspective, local law enforcement, parking enforcement, planning officers, contract management, for example.

Excess annual leave will be monitored on a quarterly basis to ensure excess leave is managed.

# **Supplier Vetting**

The Council will continue to undertake supplier vetting for new and ongoing suppliers in accordance with existing practices.

Financial and/or Performance assessments will be undertaken where the contract poses a key financial risk to Council or where it is a new supplier that has never been used by Council before and the risk of poor performance or financial collapse is likely to adversely affect Council.

Financial and Performance assessment checks may also be undertaken where Council wishes to understand the financial and previous contract performance of the supplier or if no security is in place.

# 4. FRAUD AND CORRUPTION DETECTION

# **Detection Program**

The Council's detection program includes the annual internal audit plan, annual financial statement external audit, Audit and Risk Committee oversight, review of risk strategies and various reporting avenues. Other detection programs may also include:

- Post transactional reviews a review of transactions after they have been processed. This
  option may identify or uncover altered documents or missing documentation, falsified or
  altered authorisations or inadequate documentary support.
- Data mining the application of sophisticated (and sometimes unsophisticated) software applications and techniques where a series of suspect transactions can be identified and then investigated which can identify anomalies at an early stage.
- Analysis of management accounting reports using relatively straight forward techniques in analysing management accounting reports, trends can be examined and investigated which may be indicative of fraudulent of corrupt conduct.

# **External Audit**

External audit can detect material misstatements in Council's financial statements due to fraud or error.

The Council's external auditors meet with the Audit & Risk Committee:

- Prior to conducting audits, where they present the audit methodology
- After conducting the audit, where they present a closing report.

The Director Corporate Strategies should ensure that the external auditors are briefed about the Council's expectations on external audit to detect fraud, and appropriately supported by Council staff to enable this.

# **Reporting by Internal Parties**

The Council takes fraud and corruption very seriously and does not accept fraudulent or corrupt behaviour. It encourages all personnel to maintain awareness and vigilance in regard to fraud and corruption.

All Councillors and staff are encouraged to assist the Council by:

- identifying suspected or potential fraudulent and corrupt activities; and
  - reporting any such activities in order that those activities are investigated.

Internal reporting avenues include notifying:

- the Chief Executive Officer; or
- line Supervisors or Managers or Directors (for staff reporting only); or
- Manager, Governance; or
- Public Interest Disclosure Officer or Co-ordinator.

All reports involving corrupt conduct reported by staff must be forwarded to the Chief Executive Officer.

External reporting avenues include notifying:

- the Local Government Inspectorate on 1800 469 359, or
- the IBAC on 1300 735 135, or
- the Victorian Ombudsman on (03) 9613 6222.

Other reporting avenues include notifying:

- the Internal Auditor; or
- the Audit and Risk Committee Chair

The internal Auditor or Audit & Risk Committee Chair will refer the notification to an authorised external body and/or notify the Chief Executive Officer provided always that any request for non-identification of the discloser will be maintained.

Alleged criminal conduct will be reported to Victoria Police as appropriate, and serious improper conduct to IBAC as required by law.

# **Reporting by External Parties**

From time to time employees of external parties such as suppliers may become aware, or suspicious, that Council personnel are engaging in fraudulent or corrupt behaviour. Encouraging and enabling reporting of this behaviour is an important part of a fraud and corruption control program.

The Manager Fiance should ensure that procurement procedures include:

- making new suppliers aware of Council's fraud and corruption control program;
- encouraging them to report fraudulent or corrupt behaviour, or suspected behaviour; and
- providing them with the contact details of Council's Public Interest Disclosure Coordinator.

#### **Public Interest Disclosure**

Under the *Public Interest Disclosures Act 2012*, persons can make disclosures to the Council and IBAC about improper conduct and detrimental action in relation to the activities and functions of Council. This is encouraged where any person wishes to access the protections afforded by the Act. The Council's Public Interest Disclosure Procedures are available on the Council Web site.

Disclosures about improper conduct or detrimental action by Councillors should be made to the IBAC or to the Ombudsman. If Council receives a misdirected disclosure about a Councillor, such disclosures will be assessed and managed in accordance with Council's Public Interest Disclosure Procedures.

A public interest disclosure can be made to:

- The Council's Public Interest Disclosure Officer or Public Interest Disclosure Coordinator
- IBAC Level 1, North Tower
   459 Collins Street Melbourne Vic 3000 Postal address: GPO Box 24234, Melbourne VIC 3001 Telephone: 1300 735 135 Website: www.ibac.vic.gov.au

# 5. MANDATORY REPORTING

The Chief Executive Officer must notify IBAC of any matter they suspect on reasonable grounds to involve corrupt conduct occurring or having occurred. This obligation cannot be delegated. Where another person is acting as the Chief Executive Officer, the obligation applies to that person.

The Chief Executive Officer must notify IBAC of all instances of suspected corrupt conduct occurring in the Council, and suspected corrupt conduct occurring in other organisations where it is connected with the Chief Executive Officer's duties, functions and exercise of powers.

The notifications must be made as soon as practicable after the Chief Executive Officer has formed a reasonable suspicion that corrupt conduct may have occurred or may be occurring. An assessment as to whether a matter must be notified to IBAC should be made based on the material available to the Chief Executive Officer.

# 6. RESPONDING TO DETECTED FRAUD AND CORRUPTION INCIDENTS

For all matters subject to Mandatory Reporting to IBAC, no action will be taken until IBAC has assessed the matter and informed the Chief Executive Officer of its decision. Exceptions apply where the action is:

- necessary to lessen or prevent a serious threat to the life, health, safety or welfare of an individual or to public health or safety; or
- taken to comply with another legal obligation, such as a duty to report the matter under other legislation; or
- reporting the matter to Victoria Police.

For all other reports detected or suspected fraud or corruption and any matters subsequently referred back by IBAC for Council to consider, the Council will investigate first, and determine a course of action second, depending on the outcomes of the investigation. The Chief Executive Officer will remain impartial to any investigation and not be a member of any Investigation Team

# Investigation

All reported fraudulent or corrupt behaviour, or suspected behaviour, will be investigated by either by the Council, an external investigator or Victoria Police.

The purpose of an investigation is to:

- Determine if in fact fraudulent or corrupt behaviour has been committed;
- Identify the person(s) responsible for the fraudulent or corrupt behaviour;

- Discover the extent of the fraudulent or corrupt behaviour and determine the action to be taken;
- Provide the basis of any insurance claim; and
- Identify how long the fraudulent or corrupt behaviour has been occurring and thereby the extent of the breakdown of internal controls.
- Identify any gaps or weaknesses in the controls and systems associated with the activity that is subject to the investigation

Upon receipt of a report of fraudulent or corrupt behaviour, or suspected behaviour, the Director Corporate Strategies and the Manager Governance will as soon as practicable ensure that an investigation is conducted into the alleged misconduct.

The Chief Executive Officer will be consulted and decide whether the Police or any external assistance will be employed. The Chief Executive Officer is responsible for the selection of the personnel to be involved in the Investigation team. This may include referring the investigation to the Internal Auditor for action.

# **External Investigation**

The Chief Executive Officer may decide that the investigation should be conducted by an external party or the matter referred directly to Victoria Police. Any referral direct to Victoria Police will be coordinated by the Director Corporate Strategies.

The Director Corporate Strategies, in consultation with the Manager Governance, will consider the report from the external investigation and make recommendations to the Chief Executive Officer as to the most appropriate course of action as soon as practicable.

# Internal Investigation

The investigation should be conducted as quickly as practicable, including but not limited to the following steps:

- Develop the terms of reference, identifying:
  - Confirming who should conduct the investigation
  - Who should be interviewed
  - What records should be examined
  - Who should be kept informed, on a 'need to know' basis
- Conduct the investigation
  - Collect witness statements
  - Examine records
  - Conduct the interviews, on an innocent until proven guilty basis; persons against whom allegations are made should be made aware of the nature of the allegations and given an opportunity to respond within a reasonable timeframe; they should be allowed a support person in the interviews, but that person may not represent them or provide comment
  - All parties to maintain confidentiality and propriety at all times
- Compile a report
  - Conclusions as to the likely truth or otherwise of the allegations
  - Comment on the breadth and seriousness of the misconduct
  - Report on any detected gaps or weaknesses in the controls and systems associated with the alleged activity.

• Register the report in Records Management system using a highly restricted security classification.

The Director Corporate Strategies and the Manager Governance will consider the report and make recommendations to the Chief Executive Officer as to the most appropriate course of action as soon as practicable.

A Fraud Investigation Checklist is included in Appendix 2.

#### **Responses to Investigations**

The Chief Executive Officer, upon receipt of recommendations from the external or internal investigation, should decide on the most appropriate course of action, and act or delegate actions accordingly, as soon as practicable.

The Council's responses to investigations may include disciplinary action, reporting to Victoria Police, and/or civil action to recover losses.

• Disciplinary action

The Manager Organisational development will coordinate disciplinary action in accordance with Council's Disciplinary Policy and Procedure.

- Reporting to Victoria Police The Director Corporate Strategies will coordinate the reporting of the investigation outcome to Victoria Police.
- Civil action to recover losses

The Council will pursue recovery of any losses due to fraud or corruption where there is clear evidence of fraud and corruption and where the likely benefits of such recovery will exceed the funds and resources required to be invested in the recovery action. The Director Corporate Strategies will coordinate any civil action taken by Council to recover losses incurred as a result of the fraud or corruption.

# **Review of Internal Controls**

Where fraud or corruption is detected, the relevant service unit Manager, in consultation with the Manager Governance and/or the Risk-Management Co-ordinator, will review the findings and assess the adequacy of the relevant internal control environment and provide a report to the Director Corporate Strategies on any recommended improvements identified.

Where internal controls may be practicably improved, the relevant Responsible Officer should ensure as soon as practicable that those improvements are developed, documented and implemented, and understood by those who have roles and responsibilities in them.

# **Record Keeping**

The Manager Governance will maintain a record of reports of fraudulent and corrupt behaviour, or suspected behaviour, and investigation outcomes.

All investigative documentation will comply with relevant legislative provisions, will remain strictly confidential and will be retained in accordance with the Council's Information Privacy Policy and Records Management system controls.

#### **Insurance Covers**

The Council will maintain a fidelity guarantee insurance policy that insures the risk of loss arising from internal fraudulent conduct. The level of the policy will be determined as part of Council's annual insurance renewal program. This will be reported annually to the RMC alongside Council's other insurance policies.

Insurance for external fraud and corruption, in particular the theft of Council property, will also be maintained and reviewed annually by staff in conjunction with the normal annual reassessment of insurance policy cover and limits.

# 7. GOVERNANCE

#### **Review**

To be reviewed every three years unless required earlier by changes to legislation or systems.

# **Responsibilities and Accountabilities**

Position	Responsibilities/Accountabilities
Council	As the body responsible for the good governance of the municipality, setting the tone for honesty and integrity in the provision of services to the community and the management of the Council's organisation. Ensure that Management has appropriate measures in place to detect and prevent fraud.
Audit & Risk	Monitor and provide advice on fraud prevention systems and controls.
Committee	<ul> <li>This includes:</li> <li>Reviewing processes in the prevention and management of fraudulent activity;</li> <li>Reviewing reports of fraud from management, the status of ongoing</li> </ul>
	<ul> <li>investigations and recommendations to improve fraud controls;</li> <li>Assessing the operational effectiveness of the fraud prevention controls; and</li> <li>Ensuring that the internal audit program assists in identifying any potential fraud risks</li> </ul>
Chief Executive	Principal responsibility for fraud control and to ensure staff
Officer	compliance with the Fraud & Corruption Control Policy and these Procedures.
	<ul> <li>Decide on appropriate course(s) of action arising from investigations and act where required</li> </ul>
Executive Management Group (EMT)	<ul> <li>Co-ordination, monitoring, ongoing review and communication of the Fraud &amp; Corruption Control Policy and Procedure.</li> <li>Conform to fraud and corruption control policies and procedures</li> <li>Ensure others that report to them do likewise</li> <li>Maintain awareness of fraud and corruption risks</li> <li>Provide regular communication to the organisation about fraud and corruption</li> <li>Provide information for the risk context statement in the Fraud and Corruption Control Plan</li> </ul>

Co-ordinator	Record risks and associated risk treatment plans in the Risk Register	
Managers	Ensure procedures and local work instructions regarding activities for	
(Responsible Officers)	which they have operational responsibility adequately address fraud and corruption risk	
All councillors,	Conform to Council's policies and procedures regarding fraud and	
employees,	corruption control, including reporting fraudulent or corrupt	
volunteers and	behaviour, or suspected behaviour, as soon as practicable	
contractors		

# Administrative Updates

From time to time, circumstances may change leading to the need for minor administrative changes to this policy. Where an update does not materially alter this policy, such a change may be made administratively.

Examples of minor administrative changes include changes to names of the Council departments or a minor amendment to legislation that does not have material impact. Where any change or update may materially change the intent of this policy, it must be considered by Council.

# APPENDIX 2 – FRAUD INVESTIGATION CHECKLIST

# FRAUD INVESTIGATION CHECKLIST

- □ A complete description of the allegations or suspected events
- $\hfill\square$  The name and position of any public official/s alleged to be involved
- □ The name/s of the person/s who made the allegation/s
- $\hfill\square$  The name and role of any other person/s relevant to the matter
- □ The dates and/or time frames in which the alleged conduct occurred
- $\hfill\square$  A brief analysis of why the events in question may be corrupt conduct
- A brief analysis of the basis for forming a reasonable suspicion about the events in question
- An indication as to whether the conduct appears to be a one-off event or part of a wider pattern or scheme
- The date the allegation was made or the date you became aware of the conduct
- □ How you became aware of the conduct
- What your organisation has done about the suspected conduct, including notification to any other agency (e.g. the Police or the Victorian Ombudsman)
- □ What further action you propose
- □ The approximate amount of money or value of resources (if any) involved
- Any other indicators of seriousness
- Any other information deemed relevant to the matter
- Copies of any relevant documents
- □ The name of the relevant contact officer

# 1. INTRODUCTION

#### Purpose

The Council is committed to protecting its assets, its integrity and reputation by providing Councillors with clear guidance on ethical gift receiving so that they can be, and be seen to be, ethical, fair and scrupulous in their roles as Councillors.

The Council recognises that Councillors will on occasion be offered, gifts, benefits and hospitality

The purpose of this policy is to provide clear guidance to Councillors on their approach to the acceptance, or otherwise, of gifts, benefits or hospitality from individuals or other entities external to Council.

#### Scope

This policy applies to all Councillors.

The Local Government Act (the Act) sets out legislative requirements in relation to conflict of interest and Councillors are responsible to familiarise themselves with the provisions contained in the Act and the requirements of this Policy.

Nothing in this policy shall be construed to override the provisions of the Act. In the event of any apparent inconsistency, the provisions of the Act will prevail. Procedures have been developed in support of this Policy.

# **Definitions and Terminology**

Term	Meaning
Benefit	Something which is believed to be of value to the receiver, including access to
	sporting, cultural or social event, preferential treatment (queue jumping) and
	access to discounts or loyalty programs. While their value may sometimes be
	difficult to quantify in dollars, they may be highly valued by the intended recipient
	and therefore used to influence their behaviour.
Bribe	Money, reward or service offered to procure an action, decision or preferential
	treatment.
Gift	Gifts are unsolicited and mean to convey a feeling of goodwill on behalf of the giver
	and where there is no expectation of favours or repayment. Some examples of these
	types of gifts could include clothes, products and tickets.
Gift Register	A summary of gifts, benefits and hospitality received which will contain the
	following information; recipient details, providers details, date received,
	description and estimated value of the gift, benefit or hospitality.
Hospitality	Provision of food or beverages, travel, accommodation or entertainment, which is
	offered to convey goodwill on behalf of the giver, for which there is no expectation
	of favours or repayment. Hospitality is a form of Gift, but for the purpose of this
	Policy is considered separately.
Monetary	Cash, cheques, money orders, travellers' cheques, direct deposits or item
Benefit	which can easily be converted to cash.

Term	Meaning
Official Gift	A gift received by Councillors or Council officers as representatives of the City or
	the Council. Includes gifts from a Sister City, organisations or corporations that are
	bestowing a corporate gift (i.e. plaques, plates, vases, trophies, artwork) or
	souvenir to the City, or as a token of appreciation for a contribution to a
	conference or industry event.
Token	Is of such a nature and Value (less than \$100) that it could not reasonably be
Gift	regarded as capable of influencing any actions or decisions of the relevant person
	in relation to a matter. Does not create a sense of obligation in the receiver that
	will influence, or appear to influence, the exercise of their official duties. In the
	event that it might reasonably be perceived to influence, or appear to influence,
	the recipient, it cannot be defined as a Token Gift.
Value	Face value or estimate retail value.

# 2. POLICY

# **General Principles**

Councillors must:

- Not seek, solicit, or use their position with Council to obtain gifts, benefits or hospitality from external organisations or individuals for themselves or others;
- Ensure that a person, company or organisation is not placed in a position in which they feel obliged to offer gifts, benefits or hospitality in order to secure or retain Council business;
- Avoid circumstances where accepting any gift, benefit or hospitality could give the appearance of a past, present or future Conflict of Interest;
- Avoid circumstances where the offer of a gift, benefit or hospitality could be interpreted as having been made with the objective of securing, or in return for, a favour or preference;
- Under no circumstances accept or receive a monetary benefit, supplier's goods or services at no cost or at a non-commercial discount;
- Be fully accountable and responsible for their actions and ensure that the methods and processes they use to arrive at decisions are beyond reproach, do not create a conflict of interest and can withstand audit processes and proper scrutiny; and
- Report any incidences where a bribe or inducement is offered.

# Acceptance of Gifts and Benefits

The following conventions apply to Councillors in relation to the acceptance of Gifts, Benefits or Hospitality:

- Token Gifts (gift of value less than \$100) may be accepted provided they do not create a real or perceived sense of obligation that may lead to a perception of preferential service.
- Gifts and benefits with a value in excess of \$100 must only be accepted where they have been authorised and formerly declared in accordance with Gifts Procedure.
- Gifts and benefits are not to be accepted under any circumstance by a Councillor who is aware that the benefit is being offered by a supplier who is in the process of tendering for the supply of goods and services to the Council.

#### **Official Gifts**

From time to time individuals or organisations may offer Official Gifts to Councillors.

Individuals may be involved in conferences or social, cultural, community, industry events where Official Gifts are presented or exchanged. Where it would appear impolite or inappropriate to decline the offer, it is reasonable for official representatives of the Council to accept Official Gifts on behalf of the Council. Official Gifts shall be considered to be the property of the Council and may be displayed in an appropriate and secure location for public viewing.

Notwithstanding, in some circumstances, including where the item may not be suitable for public display or the gift is of a personal nature to the recipient, the Chief Executive Officer may use discretion as to the appropriate use of the Official Gift.

The Chief Executive Officer will ensure that an Official Gift is recorded in the Gift Register.

# Hospitality

Councillors in the normal course of their duties, will from time to time receive invitations of Hospitality to attend various functions and events.

Where such Hospitality is modest in nature and provides an opportunity to network or undertake business of a common purpose, it may be appropriate to accept such invitations. Where practical, approval should be obtained prior to the attendance.

If, however, acceptance of the Hospitality is likely to create the impression of compromised impartiality of the Councillor or could be perceived as a Conflict of Interest, the offer of Hospitality should be politely declined.

Any Hospitality estimated to be in excess of \$50 must be reported in the same manner as a Gift.

# **Conflict of Interest**

Councillors should be aware one or more Gifts or Hospitality with a total value of, or more than, \$500 received from one person, over a five year period, will give rise to a conflict of interest, which must be declared in accordance with the Local Government Act.

This does not include the value of any reasonable hospitality received by a Councillor at an event or function that they attended in an official capacity.

All other forms of Hospitality must be declared. Hospitality does not constitute a Gift if it is paid for by the Council, or by the person receiving the Hospitality.

# **3. GOVERNANCE**

#### Review

This policy is reviewed, in consultation with the Audit and Risk Committee, no later than six months after a general election.

#### **Compliance Responsibility**

The Audit and Risk Committee shall exercise an oversight function over compliance with this policy.

Where a Councillor fails to comply with this policy, the issue shall be dealt with in the same manner as disputes arising under the Councillor Code of Conduct.

# 1. INTRODUCTION

#### Purpose

These procedures form an essential part of the Council's commitment to the aims and objectives of the Public Interest Disclosure Act 2012 (the Act). The Council does not tolerate improper conduct by the organisation, Councillors, staff or contractors, nor the taking of reprisals against those who come forward to disclose such conduct.

The Council recognises the value of transparency and accountability in its administrative and management practices and supports the making of disclosures that reveal improper conduct or expose the taking of detrimental action against persons who come forward to report such improper conduct.

The Council will take all reasonable steps to protect people who make such disclosures from any detrimental action in reprisal for making the disclosure. It will also afford natural justice to any person who is the subject of a disclosure.

#### Scope

These procedures are a resource for disclosers and potential disclosers, whether they be a Councillor staff member, contractor, or an external member of the public; essentially, any individual who wants to find out how to make a disclosure, receive the protections available under the Act, and how a disclosure will be managed and handled by the Council.

All disclosures regarding local government Councillors must be made directly to IBAC or the Victorian Ombudsman. The Council is not permitted to receive disclosures about Councillors.

For complaints that do not meet the threshold for a public interest disclosure, a discloser should follow the process outlined in the Council's Complaint Handling Procedure.

Term	Meaning	
Act	Public Interest Disclosure Act 2012	
Assessable	Any disclosure either made directly to IBAC, The Ombudsman or the VI, or	
Disclosure	if received by the <b>Council</b> is required under s 21 of the <b>Act</b> to be notified by	
	the Council to IBAC for assessment.	
Co-operators People who have cooperated or intend to cooperate with the inves		
	of a public interest disclosure complaint.	
Council	Warrnambool City Council.	
CEO	Chief Executive Officer of the <b>Council</b> .	
Discloser	A person who (purports to) make(s) a complaint, allegation or disclosure	
	(however described) under the Act.	
Disclosure	Any complaint, concern, matter, allegation or disclosure (however	
	described) purported to be made in accordance with Part 2 of the Act.	
Guidelines	The Guidelines published by IBAC under s 57 of the Act.	
IBAC	Independent Broad-based Anti-corruption Commission.	

# **Definitions and Terminology**

Term	Meaning	
Investigative Entity	Any one of the bodies authorised to investigate a public interest disclosure	
	complaint.	
Ombudsman	Victorian Ombudsman	
Procedures	This version of the procedures, as established under s 58 of the Act by the	
	Council.	
Protected discloser	A person who makes a disclosure of improper conduct or detrimental action	
	in accordance with the requirements of Part 2 of the Act.	
Public Bodies	Defined in s. 6 of the Act.	
	Includes:	
	<ul> <li>a public sector body within the meaning of the Public Administration Act 2004;</li> </ul>	
	<ul> <li>a body, whether corporate or unincorporated, established by or under an Act for a public purpose;</li> </ul>	
	a Council;	
	<ul> <li>a body that is performing a public function on behalf of the State or a public body or public officer (whether under contract or otherwise).</li> </ul>	
Public Interest Complaint (PIC)	A public interest disclosure that has been determined <b>by IBAC</b> , the <b>VI</b> , or the Integrity and Oversight Committee to be a public interest complaint (previously a protected disclosure complaint).	
Public Interest Disclosure (PID)	Disclosure by a natural person of information that shows or tends to show, or information that the person reasonably believes shows or tends to show, improper conduct or detrimental action (previously known as protected disclosure).	
Public Officers	Defined in s. 6 of the Act. Includes:	
	<ul> <li>a person employed in any capacity or holding any office in the public sector;</li> <li>a Councillor;</li> </ul>	
	a member of Council staff;	
	• a person that is performing a public function on behalf of the State or	
	a public officer or public body (whether under contract or otherwise)	
Regulations	Public Interest Disclosure Regulations 2019	
VI	Victorian Inspectorate.

# Public Interest Disclosure Act 2012

The Protected Disclosure Act 2012 was renamed the Public Interest Disclosures Act 2012 (the Act) in March 2019. The new legislation introduced changes to support people making disclosures which are in the public interest. On 1 January 2020, these changes took effect replacing existing 'protected disclosure' arrangements with 'public interest disclosures' (PIDs).

The Act aims to:

- encourage and assist people to report improper conduct and detrimental action taken in reprisal for a public interest disclosure
- provide certain protections for people who make a disclosure or those who may suffer detrimental action in reprisal for a disclosure
- ensure that certain information about a disclosure is kept confidential the identity of the person making the disclosure and the content of that disclosure

# **Procedure Requirements**

The Council is required to establish and publish procedures under s 58 of the Act and in accordance with the Guidelines of IBAC published under s 57 of the Act. The Council is required to ensure that the procedures are readily available to members of the public as well as internally to all Councillors, staff and contractors.

These procedures cover:

- the Council's reporting structures
- how disclosures may be made to the Council;
- how the Council handles the receipt of disclosures;
- how the Council assesses disclosures it is able to receive under the Act;
- notifications the Council is required to make about disclosures, to both disclosers and to IBAC;
- how the Council protects certain people involved in the processes:
  - o disclosers,
  - persons who are the subject of public interest disclosures and public interest complaints, and
  - other persons connected to public interest disclosures, such as witnesses or persons cooperating with an investigation.

The procedures have been established to ensure the confidentiality of a person making a disclosure and their welfare is protected.

# 2. COUNCIL PRINCIPLES and STRUCTURE

# **Principles**

The Council supports a workplace culture based on trust, ethics and authenticity; where the making of public interest disclosures is valued by the organisation and the right of any individual to make a public interest disclosure is taken seriously. Councillor and Council staff are expected to act with integrity and demonstrate ethical behaviour.

The Council will:

- be visible, approachable, openly communicative and lead by example in establishing a workplace that supports the making of public interest disclosures and impartial. investigations;
- ensure these procedures, including information about how disclosures may be made and to whom, are accessible on its website and available internally and externally to Councillors, staff and any individual in the broader community;
- provide appropriate training at all levels of the organisation to raise awareness of how a
  public interest disclosure may be made and how disclosures are received and managed;
- ensure its reporting system is centralised and accessible only by appropriately authorised staff, allowing the flow of information to be tightly controlled to enhance confidentiality and minimising risks of reprisals being taken against disclosers;
- ensure the reporting system protects the confidentiality of information received or obtained in connection with a public interest disclosure and protects the identity of persons connected with a public interest disclosure;
- not tolerate the taking of detrimental action in reprisal against any person for making a
  public interest disclosure, including to take any reasonable steps to protect such persons
  from such action being taken against them;
- afford natural justice and treat fairly those who are the subject of allegations contained in disclosures; and
- take appropriate action against any Councillor or staff engaged in the taking of detrimental action.

# Councillors, Staff and Contractors

All Councillors, staff and contractors are encouraged to report known or suspected incidences of improper conduct or detrimental action in accordance with these procedures, whether such conduct or action has taken place, is still occurring or is suspected will take place.

All Councillors, staff and contractors have an important role to play in supporting those who have made a legitimate disclosure. All persons must refrain from any activity that is, or could be perceived to be, victimisation, harassment or bullying of a person who makes a disclosure.

Furthermore, they should protect and maintain the confidentiality of a person they know or suspect to have made a disclosure.

# Public Interest Disclosure Coordinator

The Council has appointed a Public Interest Disclosure Coordinator who has pivotal role in the internal reporting system and maintains oversight over the system.

The Public Interest Disclosure Coordinator will:

- be the primary contact point for general advice about the operation of the Act, for integrity agencies such as IBAC and for any person wishing to make a disclosure;
- liaise with the Public Interest Disclosure Officer and receive all disclosures forwarded from them;
- ensure that the Council carries out its responsibilities under the Act, any regulations made pursuant to the Act and any guidelines issued by IBAC;

- take all necessary steps to ensure information received or obtained in connection with a disclosure, including the identities of the discloser and the person(s) to whom the disclosure relates, are kept secured, private and confidential at all times;
- consider each disclosure impartially to determine whether it should be notified to IBAC for assessment under the Act;
- arrange any necessary and appropriate welfare support for the discloser, including appointing a Welfare Manager to support the discloser and to protect him or her from any reprisals;
- advise the discloser, appropriately and in accordance with the Act, the progress of the disclosure and the stage reached at a given time (whether it has been notified to IBAC for assessment etc);
- coordinate the Council's reporting system and establish and manage a confidential filing system for the disclosures;
- collate and publish statistics on disclosures, as required by the Act; and
- liaise with the CEO of the Council.

# The Council's Public Interest Disclosure Coordinator is: (temporary)

Position     Director Corporate Strategies       Address     25 Liebig street Warrnambool       Email     putri@warrnambool.vic.gov.au       Phone     0355594807	l	Name	<mark>Peter Utri</mark>
Email putri@warrnambool.vic.gov.au		Position	Director Corporate Strategies
		Address	25 Liebig street Warrnambool
Phone 0355594807	l	Email	putri@warrnambool.vic.gov.au
	l	<mark>Phone</mark>	<mark>0355594807</mark>

From time to time, it may be necessary to appoint other or additional Public Interest Disclosure Officers. The Council will take all reasonable steps to publicise the contact details of those persons.

# 3. MAKING a DISCLOSURE

# What is a Disclosure?

A disclosure under the Act may be made about:

- the improper conduct of public bodies or public officers (including corrupt conduct); and
- the detrimental action taken by public bodies or public officers in reprisal against a person for the making of a public interest disclosure or co-operating with the investigation of a public interest disclosure.

The term disclosure is interpreted under the Act in the ordinary sense of the word, for example, as a "revelation" to the person receiving it. IBAC considers that a complaint or allegation that is already in the public domain will not normally be a public interest disclosure. Such material would, for example, include matters which have already been subject to media or other public commentary.

The conduct or action being disclosed about may be one which has taken place, is still occurring, or is believed is intended to be taken or engaged in. Disclosures may also be made about conduct that occurred prior to the commencement of the Act (on 10 February 2013).

The following are not public interest disclosures under the Act:

- a disclosure that has not been made in accordance with all of the procedural requirements of Part 2 of the Act and the prescribed procedures in the Regulations;
- a disclosure made by a discloser who expressly states in writing, at the time of making the disclosure, that the disclosure **is not** a disclosure under the Act;
- a disclosure made by an officer or employee of an investigative entity in the course of carrying out his or her duties or functions under the relevant legislation, unless the person expressly states in writing that the disclosure is a disclosure and the disclosure is otherwise made in accordance with Part 2 of the Act.

If the Council receives any disclosures which do not meet all of the requirements of Part 2 of the Act or the prescribed procedures in the Regulations, the Council will not be required to consider whether it is a public interest disclosure under the Act. However, the Council will always consider whether it would be appropriate to inform the discloser how to make the disclosure in a way that would comply with the requirements of the Act and the Regulations in order to ensure that persons are properly afforded the opportunity to receive any appropriate protections available to them under the Act.

In addition, the Council is required to consider whether a disclosure that does not meet the requirements of the Act and the Regulations should be treated as a complaint, notification or referral to the Council in accordance with any other laws or internal policies and procedures.

# Who can make a Disclosure?

A disclosure may:

- only be made by a natural person (or a group of individuals making joint disclosures).
- be made anonymously;
- be made even where the discloser is unable to identify precisely the individual or the organisation to which the disclosure relates; and
- also be a complaint, notification or disclosure (however described) made under another law.

It should be noted that some of the protections set out in the Act protecting a discloser are available only to the person who makes a disclosure. As a consequence of this, if a person makes a disclosure by notifying the agency on behalf of another individual, then it is the notifier who may receive those protections, and not the person on whose behalf they have made the disclosure. The person on whose behalf the disclosure has been made will only be entitled to protections against detrimental taken against them in reprisal for the disclosure made by the notifier.

Anonymous disclosures may create difficulties for the Council. Some of the notification requirements imposed on the Council in relation to disclosures will not apply in relation to an anonymously made disclosure. In addition, it may impede the Council's ability to properly assess whether the complaint or allegation is a public interest disclosure for the purposes of the Act.

# What can a Disclosure be Made About?

A disclosure must be about the conduct of a person or organisation in their capacity as a Public Officer or a Public Body as outlined below:

The alleged conduct is either improper conduct or detrimental action taken against a person in reprisal for a protected disclosure AND

In assessing whether there is improper conduct or detrimental action, the Council will look critically at all available information about the alleged conduct and about the discloser.

Preliminary questions the Council may seek answers to, or consider, include:

- What is the discloser's connection to the alleged conduct is the discloser a victim, a witness, or a participant in the alleged conduct?
- How did the discloser come to know about the conduct was or is the discloser directly involved in it, did the discloser observe it happening to another person or did someone else tell the discloser about it?
- How detailed is the information provided is there sufficient information to enable the Council to consider whether there is improper conduct or detrimental action?
- How reliable is the information given to the Council is it supported by other information?

# Improper Conduct

Improper conduct includes corrupt conduct, criminal offences and other conduct specified in the Act. If the conduct is trivial, it will not meet the threshold of improper conduct. Improper conduct is defined in the Act to mean either:

- corrupt conduct;
- conduct by a public officer or public body in their capacity as a public officer or public body that constitutes:
  - a criminal offence;
  - serious professional misconduct;
  - o dishonest performance of public functions;
  - an intentional breach or reckless breach of public trust;
  - an intentional or reckless misuse of information or material acquired in the course of the performance of the functions of the public officer or public body;
  - a substantial mismanagement of public resources;
  - a substantial risk to the health of safety of one or more persons;
  - a substantial risk to the environment;
- conduct of any person that:
  - adversely affects the honest performance by a public officer or public body of their functions as a public officer or public body
  - is intended to adversely affect the effective performance or exercise by a public officer or public body of the functions or powers of the public officer or public body and results in the person or an associate of the person obtaining:
    - a licence, permit, approval, authority or other entitlement under any Act or subordinate instrument
    - an appointment to a statutory office or as a member of the board of any public body under any Act or subordinate instrument
    - a financial benefit or real or personal property

- any other direct or indirect monetary or proprietary gain,
- that the person or associate would not have otherwise obtained.
- conduct by a third party that could constitute a conspiracy or attempt to engage in any of the conduct referred to above.

Central to the notion of improper conduct is the notion of the "public trust". Public trust is a concept that provides the basis 'for obligations of honesty and fidelity in public officers that exist to serve, protect and advance the interests of the public'.

A person acting in their official capacity is exercising 'public power' that is derived from their public office holding and may be controlled or influenced by legislative provisions, administrative directions, or constitutional principles or conventions. There is an expectation that members of the community may rely on and trust their public bodies and officials to act honestly. The expectation is that public officers will not use their positions for personal advantage or use the influence of their public office for improper purposes where there is a duty to act objectively and impartially.

Disclosers or the Council will need to identify that there is a link between the alleged improper conduct of a person or an organisation and their function as a public officer or a public body.

#### Corrupt conduct

Corrupt conduct is defined in s 4 of the IBAC Act and includes:

- conduct of any person that adversely affects the honest performance by a public officer or public body of his or her or its functions as a public officer or public body;
- conduct of a public officer or public body that constitutes or involves the dishonest performance of his or her or its functions as a public officer or public body;
- conduct of a public officer or public body that constitutes or involves knowingly or recklessly breaching public trust;
- conduct of a public officer or a public body that involves the misuse of information or material acquired in the course of the performance of his or her or its functions as a public officer or public body, whether or not for the benefit of the public officer or public body or any other person; *or*
- conduct that could constitute a conspiracy or an attempt to engage in any of the conduct referred to above; *and*

if that conduct could be proved beyond reasonable doubt at a trial, amounts to:

- an indictable offence; or
- one of the following 3 types of common law offences committed in Victoria:
  - perverting the course of justice
    - o attempting to pervert the course of justice
    - $\circ \quad \text{bribery of an official.}$

# **Detrimental Action**

It is an offence under the Act for a Public Officer or a Public Body to take detrimental action against a discloser in reprisal for making a public interest disclosure. Detrimental action as defined by the Act includes:

- action causing injury, loss or damage;
- intimidation or harassment; and
- discrimination, disadvantage or adverse treatment in relation to a person's employment, career, profession, trade or business, including the taking of disciplinary action.

In addition, a person can have taken detrimental action without having taken the action itself, but just by threatening to take such action. Further, the detrimental action need not necessarily have been taken (or threatened to be taken) against a person making a public interest disclosure, but against any person connected with a public interest disclosure.

Examples of detrimental action prohibited by the Act include:

- threats to the discloser's personal safety or property, including intimidating, harassing a discloser or the discloser's family or friends, otherwise causing personal injury or prejudice to the safety or damaging property of a discloser or the discloser's family or friends;
- the demotion, transfer, isolation or change in duties of a discloser due to him or her having made a disclosure;
- discriminating or disadvantaging a discloser in their career, profession, employment, trade or business; or
- discriminating against the discloser or the discloser's family and associates in subsequent applications for promotions, jobs, permits or tenders resulting in financial loss or reputational damage.

The person (or the person incited to take detrimental action) must take or threaten the detrimental action, because, or in the belief that the:

- other person or anyone else has made, or intends to make the disclosure;
- other person or anyone else has co-operated or intends to cooperate with an investigation of the disclosure.

If the fact that a staff member has made a disclosure forms any part of the reason for which action is taken against them by their employer, it will constitute detrimental action. Said action is consequently reportable as a public interest disclosure as well as being a criminal offence.

How to Make a Disclosure?

# Disclosure to be Made to a Body Authorised to receive it

One of the most critical requirements of the Act is that disclosures are made to a body authorised under the Act to receive the disclosure. The Council can only deal with disclosures which concern the organisation and its staff.

Disclosures about improper conduct or detrimental action by Councillors should be made to IBAC or to the Ombudsman. Those disclosures cannot be made to the Council.

Disclosures about improper conduct or detrimental action by the Council or its staff may be made to the Council or one of four (4) external authorities:

- IBAC;
- Ombudsman in relation to limited types of disclosures;
- VI in relation to limited types of disclosures; or
- Chief Commissioner of Police in relation to limited types of disclosures.

In most circumstances, disclosures about the Council or its staff should be made to the Council or to IBAC.

A public interest disclosure made to the Council, when the Council is not the receiving entity to which the disclosure may or must be made under Part 2 of the Act, is a misdirected disclosure if the discloser honestly believed that the Council was the appropriate receiving entity. A misdirected disclosure may be redirected to another receiving entity without the discloser losing the protections contained in the Act.

The Council must notify the appropriate receiving entity of the disclosure within 28 days. Beyond this notification, the Council is prohibited from disclosing the content of the misdirected disclosure and from disclosing information likely to reveal the identity of the discloser.

## Making a Disclosure to the Council

#### **Oral disclosures**

An oral disclosure to the Council **must** be made in private and **may** be made:

- in person; or
- by telephone to one of the persons authorised to receive disclosures set out below, including by leaving a voicemail message on that telephone number; or
- by some other form of non-written electronic communication.

The oral disclosure **must** be made to one of the following persons:

- the CEO of the Council (Phone: 1300 003 280 (local call) or 5559 4800);
- the Public Interest Disclosure Officer identified in these procedures;
- the Public Interest Disclosure Coordinator identified in these procedures;
- to the direct or indirect manager of the discloser, if the discloser is a staff member of Council; or
- to the direct or indirect manager of the person to whom the disclosure relates, if that person is a staff member of Council.

If the disclosure is made orally, the person receiving the disclosure will make notes at the time recording the disclosure. Recording of the conversation will only be done with the disclosure's permission or by giving prior warning that the conversation will be recorded.

#### Written disclosures

A written disclosure to the Council **must** be:

- delivered personally to the office of the Council at 25 Liebig Street, Warrnambool; or
- sent by post marked "Confidential" and addressed to the Public Interest Disclosure Coordinator, Warrnambool City Council, PO Box 198, Warrnambool, Victoria 3280; or
- sent by email marked "Confidential" to the official email address of:
  - o the Public Interest Disclosure Officer identified in these procedures; or
  - the Public Interest Disclosure Coordinator specified these procedures.
- if the discloser is a staff member of the Council the disclosure may also be made to:
  - the direct or indirect supervisor or manager of the discloser; or
  - the direct or indirect supervisor or manager of the person to whom the disclosure relates.

The Council recommends that the discloser ensures, where a written disclosure is being provided personally or by post to the official office location or address of the Council, that the disclosure be sealed in an envelope which is clearly marked with one or more of the following:

- "Re: Public interest disclosure";
- "To the personal attention of the Chief Executive Officer";
- "To the personal attention of the Public Interest Disclosure Coordinator"; or
- "To the personal attention of the Public Interest Disclosure Officer".

In relation to a disclosure being emailed to the official email address of the Council, rather than to the email address of one of the individuals specified above the Council recommends that the

discloser insert in the email subject line one of the labels set out above applicable to personally delivered or posted items.

Disclosures cannot be made by fax. A disclosure made by email from an address from which the identity of the discloser cannot be ascertained will be treated as an anonymous disclosure.

#### **Disclosures to Council Supervisors or Managers**

A Council supervisor or manager receiving a disclosure from staff will:

- immediately bring the matter to the attention of the Public Interest Disclosure Coordinator or Public Interest Disclosure Officer for further action in accordance with the Act;
- commit to writing down any disclosures made orally;
- take all necessary steps to ensure the information disclosed, including the identity of the discloser and any persons involved, is secured, remains private and confidential; and
- offer to remain a support person for the discloser in dealing with the Public Interest Disclosure Coordinator or Public Interest Disclosure Officer.

#### Making a Disclosure to IBAC

#### Oral disclosures

An oral disclosure to IBAC **must** be made in private and **may** be made:

- in person;
- by telephone, to 1300 735 135;
- by leaving a voicemail message for one of the specified individuals below; or
- by some other form of non-written electronic communication.

The oral disclosure **must** be made to one of the following persons:

- the Commissioner of IBAC;
- the Deputy Commissioner of IBAC;
- the CEO of IBAC;
- an employee referred to in s 35(1) of the IBAC Act; or
- any staff referred to in s 35(2) of the IBAC Act.

Contact details are available from IBAC (telephone 1300 735 135).

#### Written disclosures

A written disclosure to IBAC must be:

- delivered personally to the office of IBAC, at Level 1, North Tower, 459 Collins Street, Melbourne, VIC 3001; or
- sent by post addressed to the office of IBAC, at GPO Box 24234, Melbourne, VIC 3000; or
- sent by email to the official email address of a person specified above to whom an oral disclosure may be made (i.e., the Commissioner, the Deputy Commissioner, the CEO, or employee or staff referred to in s 35 of the IBAC Act); or
- submitted by an online form available on the IBAC website

#### Making a Disclosure to Ombudsman

#### **Oral disclosures**

An oral disclosure to the Ombudsman **must** be made in private to an Ombudsman officer and **may** be made:

• in person;

- by telephone, to 9613 6222 or toll free (regional areas only) to 1800 806 314;
- by leaving a voicemail message on the telephone number of any Ombudsman officer; or
- by some other form of non-written electronic communication.

#### Written disclosures

A written disclosure to the Ombudsman must be:

- delivered personally to the office of the Ombudsman, at Level 9, North Tower, 459 Collins Street, Melbourne, VIC 3001; or
- sent by post addressed to the office of the Ombudsman, as above; or
- sent by email to the office of the Ombudsman at: ombudvic@ombudsman.vic.gov.au; or
- sent by email to the official email address of any Ombudsman officer; or
- submitted by an online form (if any) identified in the procedures established by the Ombudsman under s 58(1) of the Act.

# 4. HANDLING DISCLOSURES

# **Receiving a Disclosure**

When the Council receives a complaint, report or allegation of improper conduct or detrimental action, the first step will be to ascertain whether it has been made in accordance with Part 2 of the Act.

The Public Interest Disclosure Coordinator or Public Interest Disclosure Officer must ask the following questions about the disclosure:

- Has a natural person or persons made the disclosure?
- Does the disclosure relate to the conduct of a Public Officer or Public Body acting in their official capacity?
- Does the alleged conduct constitute either improper conduct or detrimental action taken against a person?
- Does the person making a disclosure have reasonable grounds for believing the alleged conduct has occurred or may occur?

If the answer to one or more of the above elements is yes, the disclosure satisfies Part 2 of the Act, and the discloser is entitled to receive protections under Part 6 of the Act.

# Assessing a Disclosure

If the disclosure satisfies the requirements of Part 2 of the Act, the Council is required to determine whether the disclosure may be a public interest disclosure by going through the two step assessment process recommended by IBAC.

This will be the case even if the discloser does not refer to the Act or require the protections of the Act. The initial assessment is made on the nature of the information disclosed or on the belief that the discloser has about the nature of the information, and not the discloser's intention.

First step

The first question the Public Interest Disclosure Coordinator/ Public Interest Disclosure Officer must answer is whether the information disclosed shows, or tends to show, that there is improper conduct or detrimental action taken in reprisal for the making of a public interest disclosure.

This requires the Public Interest Disclosure Coordinator/ Public Interest Disclosure Officer to ascertain whether the information satisfies the 'elements' of improper conduct or detrimental action, as defined in the Act and whether any of the relevant exceptions apply.

This may require the Public Interest Disclosure Coordinator/ Public Interest Disclosure Officer to:

- seek further information;
- conduct a discreet initial enquiry;
- seek (further) evidence from the discloser;
- ascertain whether there is sufficient supporting material to demonstrate that the conduct or actions covered by the Act have occurred, are occurring or are likely to occur.

If it is not clear that the information disclosed does show or tend to show that there is improper conduct or detrimental action, then the Council will go on to the second step below.

#### Second step

This requires the Public Interest Disclosure Coordinator/ Public Interest Disclosure Officer to ask whether the discloser believes on reasonable grounds that the information shows or tends to show there is improper conduct or detrimental action.

That is, does the person actually believe that the information shows, or tends to show, there is improper conduct or detrimental action? A reasonable belief requires the belief to be based on facts that would be sufficient to make a reasonable person believe there was improper conduct or detrimental action.

This reasonable belief does not have to be based on actual proof that the improper conduct or detrimental action in fact occurred, is occurring, or will occur, but there must be some information supporting this belief. The grounds for the reasonable belief can leave something to surmise or conjecture, but it must be more than just a reasonable suspicion, and the belief must be probable.

According to IBAC, simply stating that improper conduct or detrimental action is occurring, without providing any supporting information, would not be a sufficient basis for having a reasonable belief. In IBAC's view, a belief cannot be based on a mere allegation or conclusion unsupported by any further facts or circumstances.

Other matters that IBAC suggests the Public Interest Disclosure Coordinator/ Public Interest Disclosure Officer can consider are:

- the reliability of the information provided by the discloser, even if it is second- or third-hand. For example, how would the discloser have obtained the information?
- the amount of detail that has been provided in the information disclosed; and
- the credibility of the discloser, or of those people who have provided the discloser with information.

When making a decision as to whether the event or behaviours show or tends to show that there was improper conduct or detrimental action, the Public Interest Disclosure Coordinator/ Public Interest Disclosure Officer may seek guidance from IBAC.

# **Urgent Action**

In some circumstances, the disclosure may be about improper conduct that may pose an immediate threat to health and safety of individuals, preservation of property, or may consist of serious criminal conduct.

Examples of this provided by IBAC include where the disclosure may be about:

- a child protection worker allegedly sexually assaulting children in care;
- a council worker allegedly lighting bush fires; or
- a person threatening to poison the water supply.

In these cases, the Council can take immediate action while considering whether or not it is an assessable disclosure that must be notified to IBAC or awaiting IBAC's decision on a notified matter.

It may also be necessary to report criminal conduct to Victoria Police for immediate investigation or take appropriate action against a staff member, in accordance with existing organisational policy and procedure, to prevent further improper conduct.

The Act allows the Council to disclose the content of the disclosure by a person or body "to the extent necessary for the purpose of taking lawful action in relation to the conduct that is the subject of an assessable disclosure including disciplinary process or action". However, IBAC notes that this does not allow the identity of the discloser to be revealed.

#### Decision on Assessment

At the conclusion of the assessment, the Public Interest Disclosure Coordinator/ Public Interest Disclosure Officer must decide whether it considers the disclosure to be a public interest disclosure. If the Public Interest Disclosure Coordinator/ Public Interest Disclosure Officer decides it may be a public interest disclosure, it **must** notify IBAC of the disclosure. If the Public Interest Disclosure Coordinator/ Public Interest Disclosure Officer does not consider it to be a public interest disclosure, then it may be a matter that the Council otherwise deals with through any other relevant internal complaint or grievance management processes.

#### Decision that Disclosure may be a Public Interest Disclosure

If the Public Interest Disclosure Coordinator/ Public Interest Disclosure Officer considers the disclosure may be a public interest disclosure under the Act, the Council will, within 28 days of receiving the disclosure:

- notify IBAC that:
  - o the Council considers the disclosure may be a public interest disclosure; and
  - the Council is notifying the disclosure to IBAC for assessment; and
- notify the discloser that:
  - $\circ$  ~ the disclosure has been notified to IBAC for assessment; and
  - it is an offence under s74 of the Act to disclose that the disclosure has been notified to IBAC for assessment under the Act.

In addition, at the time of notifying IBAC or at any later time the Council may also provide IBAC with any information obtained by the Council regarding the disclosure in the course of its enquiries leading up to its notification of the disclosure to IBAC.

# Decision that Disclosure may Not be a Public Interest Disclosure

If the Public Interest Disclosure Coordinator/ Public Interest Disclosure Officer determines the disclosure is not a public interest disclosure, and the discloser has indicated to the Council (or it otherwise appears to the Council) that the discloser wishes to receive the protections that apply to a public interest disclosure under the Act, the discloser will be notified in writing, within 28 days of the Council receiving the disclosure, that:

- the Council considers the disclosure is not a public interest disclosure;
- the disclosure has not been notified to IBAC for assessment under the Act; and
- regardless of whether the disclosure is notified to IBAC for assessment under the Act, the protections under Part 6 of the Act apply.

Notifications to a discloser do not need to be provided by the Council in response to an anonymously made disclosure.

# **Protections for Public Officers**

A public officer is given specific protections under the Act to provide information to other public officers or to IBAC in dealing with a disclosure they have received. When a public officer acts in good faith and in accordance with the Act, Regulations and IBAC's Guidelines, the public officer does not commit an offence under laws imposing a duty to maintain confidentiality or restricting the disclosure of information.

# 5. IBAC ASSESSMENT

Once a disclosure has been notified to IBAC, it must determine whether it is a public interest disclosure complaint. Such a determination must be made within a reasonable time after the disclosure is notified to IBAC.

In making its assessment, IBAC may seek additional information from the Council or from the discloser if IBAC considers there is insufficient information to make a decision.

If IBAC is of the view that the assessable disclosure is not a public interest disclosure, then it is not a 'public interest disclosure complaint'. If IBAC is of the view that the assessable disclosure is a public interest disclosure, then it must determine that the public interest disclosure is a "public interest complaint".

IBAC must inform the Council of its determination as to whether or not the disclosure is a public interest disclosure complaint:

- in writing; and
- within a reasonable time after making the determination.

# If IBAC determines the Disclosure is Not a Public Interest Complaint

If IBAC determines the disclosure is not a public interest complaint, IBAC must advise the discloser in writing and within a reasonable time after the determination is made, that:

- IBAC has determined that the disclosure is not a public interest complaint; and
- as a consequence of that determination:
  - $\circ$   $\;$  the disclosure will not be investigated as a public interest complaint; and
  - the confidentiality provisions under Part7 of the Act no longer apply in relation to the disclosure; and
- regardless of whether IBAC has determined that the disclosure is a public interest complaint, the protections under Part 6 apply to a public interest disclosure.

In addition, if IBAC is of the view that the disclosure, although not a public interest complaint, may be able to be dealt with by another entity, IBAC may advise the discloser that:

- the matter which is the subject of the disclosure may be able to be dealt with by that entity other than as a public interest complaint; and
- if the discloser wishes to pursue the matter, to make a complaint directly to that entity.

If this is the case, IBAC will also advise the relevant notifying entity that the discloser has been given this advice.

IBAC is also able to consider whether it wishes to treat the assessable disclosure as a notification made to IBAC under the IBAC Act.

If IBAC determines the Disclosure is a Public Interest Complaint

#### Notification to Discloser

If IBAC determines the disclosure is a public interest complaint, IBAC must advise the discloser in writing and within a reasonable time after the determination is made, that:

• IBAC has determined that the disclosure is a public interest complaint;

- the protections available to a discloser of a public interest disclosure under Part 6 of the Act apply;
- the discloser has rights, protections and obligations under the Act as contained in ss 72, 74 and Parts 6 and 7 of the Act, including an explanation of the effect of those sections and Parts of the Act; and
- it is an offence under s 74 of the Act to disclose that IBAC has determined that the disclose is a public interest complaint.

Once IBAC has determined that a disclosure is a public interest complaint, the discloser cannot withdraw that disclosure. However, under the IBAC Act, IBAC can decide not to investigate a public interest complaint if the discloser requests that it not be investigated.

#### Further Actions IBAC may take

Once IBAC has established whether or not the assessable disclosure is a public interest complaint, then it decides what action it might take under the IBAC Act. IBAC may **dismiss**, **investigate**, or **refer** the matter.

- If it **dismisses** a public interest complaint, then it must do so on one of the grounds specifically set out in the IBAC Act.
- It may choose to **investigate** the alleged conduct if it is reasonably satisfied that it is "serious corrupt conduct".
- It may also choose to **refer** the public interest complaint to another appropriate and relevant investigating entity.

If IBAC determines that the disclosure is not a public interest disclosure, it may advise the discloser that they should make a complaint directly to the relevant public body.

At the conclusion of its investigation, IBAC must provide the discloser with information about the results of its investigation, including any action taken by IBAC and any recommendation by IBAC that action or further action be taken (subject to certain exceptions).

IBAC may provide written information about the commencement, conduct or result of an investigation, including any actions taken and any recommendation made that any action or further action be taken to the relevant principal officer. However, IBAC must not provide any information that is likely to lead to the identification of a discloser.

# 6. WELFARE MANAGEMENT

# Welfare Obligations

The Council is committed to the protection of genuine disclosers against detrimental action taken in reprisal for the making of public interest disclosures.

The protection of persons making genuine public interest disclosures about improper conduct or detrimental action is essential for the effective implementation of the Act. In addition, the Act extends the need for welfare management to people who have cooperated or intend to cooperate with an investigation of a public interest complaint (co-operators). Persons who are the subject of allegations are also entitled to have their welfare protected.

The Council must endeavour to ensure disclosers and co-operators are protected from direct and indirect detrimental action being taken against them in reprisal for the public interest disclosure. The Council will ensure its workplace culture supports disclosers and co-operators. Such support will extend to the relevant persons regardless of whether they are internal to the organisation (e.g., Councillors and staff) or external members of the public.

However, different legislative responsibilities apply to persons internal to the organisation, and to persons who may be clients or users of the Council's services.

Those derive from various legislative and administrative obligations to:

- ensure the health and wellbeing of employees of a public sector body under laws including those relating to Occupational Health and Safety, the Charter of Human Rights and Responsibilities Act 2006, the Staff Codes of Conduct; and
- comply with various relevant laws, policies and practices when making administrative and other decisions or taking particular actions affecting a customer, client or user of the public body's services.

Generally, for internal persons, the Council will ensure a supportive work environment and respond appropriately to any reports of intimidation or harassment against these persons. For external persons, the Council will take reasonable steps to provide appropriate support. The Council will discuss reasonable expectations with all persons receiving welfare management in connection with a public interest disclosure.

# Support available to Disclosers and Co-operators

The Council will support disclosers and co-operators by:

- keeping them informed, by providing:
  - o confirmation that the disclosure has been received;
  - the legislative or administrative protections available to the person;
  - a description of any action proposed to be taken;
  - if action has been taken by the Council, details about results of the action known to the Council;
- providing active support by:
  - acknowledging the person for having come forward
  - assuring the discloser or co-operator that they have done the right thing, and the Council appreciates it;
  - making a clear offer of support;
  - o assuring them that all reasonable steps will be taken to protect them;
  - giving them an undertaking to keep them informed as far as the Council is reasonably able to;
- managing their expectations by undertaking an early discussion with them about:
  - what outcome they seek;
  - whether their expectations are realistic;
  - what the Council will be able to deliver;
- maintaining confidentiality by:
  - ensuring as far as is possible that other people cannot infer the identity of the discloser or co-operator;
  - reminding the discloser or co-operator not to reveal themselves or to reveal any information that would enable others to identify them as a discloser or co-operator;
  - ensuring that hardcopy and electronic files relating to the disclosure are accessible only to those who are involved in managing disclosures in the Council;

- proactively assessing the risk of detrimental action being taken in reprisal (rather than reactively waiting for a problem to arise and a complaint made by the discloser or co-operator). That is, actively monitor the workplace, anticipating problems and dealing with them before they develop as far as is possible;
- protecting the discloser or co-operator by:
  - examining the immediate welfare and protection needs of the person and seeking to foster a supportive work environment;
  - listening and responding to any concerns the person may have about harassment, intimidation or victimisation in reprisal for their actions;
  - assessing whether the concerns the person may have about harassment, intimidation or victimisation might be due to other causes other than those related to the public interest disclosure;
- preventing the spread of gossip and rumours about any investigation into the public interest disclosure; and
- keeping thorough and complete records of all aspects of the case management of the person, including all contact and follow-up action.

# Appointment of Welfare Manager

In appropriate circumstances, the Council will appoint a suitable Welfare Manager to protect a discloser or a co-operator. The Welfare Manager may be sourced externally where disclosures are made by staff to avoid any potential conflicts of interest and to ensure an impartial, third party view is provided.

The following matters will be taken into consideration by the Council when deciding whether to appoint a Welfare Manager in a particular case:

- are there any real risks of detrimental action against the discloser or co-operator, taking into account their particular circumstances?
- whether the Council can or will take the discloser or co-operator seriously and will be able to treat them with respect?
- whether the Council will give the discloser or co-operator effective support, including keeping the discloser informed of the status of the disclosure?
- can the Council protect the person from suffering repercussions, by dealing with the matter discreetly and confidentially, and responding swiftly and fairly to any allegations that the discloser or co-operator has in fact suffered retribution?

If the answer to the first question is 'yes' then IBAC recommends the appointment of a dedicated Welfare Manager. If the answer to the first question is 'no' and the Council can meet the needs set out in the remainder of the questions IBAC suggests there may be no need for a dedicated Welfare Manager to be appointed for that particular case.

In most circumstances, a Welfare Manager will only be required where a public interest complaint proceeds to investigation, but each public interest disclosure received by the Council will be assessed on its own merits.

In particular, a Welfare Manager will be appointed where the Council believes that one is required to ensure that the appropriate support can be provided to the discloser or co-operator.

If appointed, the Welfare Manager will, in addition to providing the general support:

• advise the discloser or co-operator of the legislative and administrative protections available to him or her, including providing practical advice;

- listen and respond to any concerns of harassment, intimidation or victimisation in reprisal for making a disclosure;
- not divulge any details relating to the public interest disclosure to any person other than the Public Interest Disclosure Coordinator or the CEO;
- ensure all meetings between the Welfare Manager and the discloser or co-operator are conducted discreetly to protect the person from being identified as being involved in the public interest disclosure; and
- ensure the expectations of the discloser are realistic and reasonable, and that the discloser or co-operator understands the limits of the support the Council is able to reasonably provide in the particular circumstances.

# Welfare Management of Persons Subject of Public Interest Disclosure

The Council recognises that persons against whom disclosures are made must also be supported and afforded natural justice. It is important to remember that until a public interest complaint is resolved, the information about the person is only an allegation.

The Council will make a decision about whether or when the subject of a disclosure will be informed about a public interest disclosure involving an allegation made against him or her. It is possible that the subject of the disclosure may never be told about the disclosure if it is not determined to be a public interest complaint, or if a decision is made to dismiss the disclosure.

The Act limits the disclosure of information about the content of an assessable disclosure and the identity of the discloser to certain specified circumstances set out in Part 7 of the Act. The Council may give information about the disclosure to the subject of the disclosure if it is directed or authorised to do so by the investigative entity investigating the public interest complaint, or for the purpose of taking action with respect to the conduct alleged, including disciplinary action.

Investigative entities may also inform the subject of the public interest complaint in the course of their investigation for the purposes of conducting that investigation, or any actions that they propose to take as a result of the investigation.

#### Welfare services

A person the subject of a disclosure who is made aware of their status as such may have a Welfare Manager appointed by the Council. Alternatively, the Public Interest Disclosure Coordinator/Public Interest Disclosure Officer will provide support and advice to a person the subject of a disclosure, particularly in relation to their rights and obligations under the Act, the Council's internal reporting system as set out in these procedures, and any other relevant law or code of conduct.

The Council will consider each matter on a case by case basis, taking into account the particular circumstances of the person and the public interest complaint.

#### **Natural Justice**

The Council will afford natural justice to the subject of a disclosure prior to any decision being made about the allegations. If the matter has been investigated by an investigative entity, then the investigative entity will be responsible for ensuring consultations with the subject include the provision of natural justice to him or her.

IBAC has noted that affording a subject of a disclosure natural justice in this context means that if a decision is to be made about their conduct this person has the right to:

- be informed about the substance of the allegations against them;
- be given the opportunity to answer the allegations before a final decision is made;
- be informed about the substance of any adverse comment that may be included in any report arising from an investigation; and
- have his or her defence set out fairly in any report.

#### If the Allegations are Wrong or Unsubstantiated

The Council will provide support to a person who is the subject of a disclosure where the allegations contained in a disclosure have been found to be wrong or unsubstantiated.

In those circumstances, the Council and any investigative entity involved will ensure that there are no adverse consequences for this person arising out of the disclosure or its investigation. This is particularly crucial in a situation where there has been publicly disclosed information identifying the subject, but also where such information has become well-known across the Council and the subject is a Councillor or staff of the Council.

Further, if the matter has been publicly disclosed by the Council, the CEO will consider any request by that person to issue a statement of support setting out that the allegations were clearly wrong or unsubstantiated.

# If Detrimental Action is Reported

If any person reports an incident of harassment, discrimination or adverse treatment that may amount to detrimental action apparently taken in reprisal for a disclosure, the Welfare Manager, Public Interest Disclosure Coordinator or Public Interest Disclosure Officer must record details of the incident and advise the person of their rights under the Act.

Detrimental action taken against another person in reprisal for a public interest disclosure is:

- when the person takes, or threatens to take, detrimental action against the other person because, or in the belief that:
  - $\circ$  the other person or anyone else has made, or intends to make, the disclosure; or
  - the other person or anyone else has cooperated, or intends to cooperate, with an investigation of the disclosure; or
- for either of the reasons above, the person incites or permits someone else to take or threaten to take detrimental action against the other person.

It is a criminal offence to take detrimental action against another person in reprisal for a public interest disclosure under the Act.

In such circumstances, the Council will be careful about making preliminary enquiries or gathering information concerning such an allegation of detrimental action so that, to the extent it is reasonably able to, it protects the integrity of any evidence that might be later relied upon in a criminal prosecution.

In addition, the taking of detrimental action in reprisal for making a disclosure can be grounds for a person to make a further disclosure with respect to that conduct. The disclosure of this allegation will then be assessed by the Council as a new disclosure under Part 2 of the Act. Where the detrimental action is of a serious nature likely to amount to a criminal offence, the Council will also

consider reporting the matter to the police or IBAC (if the matter was not already the subject of a disclosure notified to IBAC).

A discloser of a public interest disclosure may also:

- take civil action against the person who took detrimental action against the discloser and seek damages;
- take civil action against the Council jointly and severally to seek damages if the person who took detrimental action against the discloser took that action in the course of employment with, or while acting as an agent of the Council; and
- apply for an order or an injunction from the Supreme Court.

# Protections available to Disclosers

Part 6 of the Act sets out the protections provided to persons who make a disclosure that is a 'public interest disclosure'.

In summary, they are as follows:

- the discloser is not subject to any civil or criminal liability for making the public interest disclosure;
- the discloser is not subject to any administrative action (including disciplinary action) for making the public interest disclosure;
- by making the public interest disclosure, the discloser is not committing an offence against the *Constitution Act 1975* or any other law that imposes obligations of confidentiality or otherwise restricts the disclosure of information;
- by making the public interest disclosure, the discloser is not breaching any other obligation (made by oath, rule of law or practice) requiring him or her to maintain confidentiality; and
- the discloser cannot be held liable for defamation in relation to information included in a public interest disclosure made by him or her.

The protections in Part 6 apply from the time at which the disclosure is made by the discloser. They apply even if the Council receiving the disclosure does not notify the disclosure to IBAC, and even if IBAC has determined that the public interest disclosure is not a public interest complaint.

# Limits on Protection

A number of the protections in the Act do not apply if a discloser:

- knowingly provides false or misleading information
- claims that a matter is the subject of a public interest disclosure knowing the claim to be false.

The Act also specifically states that a person is still liable for their own conduct even if they disclose that conduct.

A person who makes a disclosure is not protected against legitimate management action being taken in relation to them.

Where a discloser is implicated in improper conduct, the Council will protect the discloser from reprisals in accordance with the Act, IBAC's guidelines and these procedures. The Council acknowledges that the act of making a disclosure does not exclude the person making the disclosure from being subject to reasonable consequences flowing from any involvement in improper conduct.

In some circumstances, an admission may be a mitigating factor when considering disciplinary or other action.

Taking disciplinary or other action against a person who has made a public interest disclosure invariably creates the perception that it is being taken in reprisal for the disclosure.

The CEO will make the final decision as to whether disciplinary or other action will be taken against a discloser. Where disciplinary or other action relates to conduct that is the subject of the disclosure, the disciplinary or other action will only be taken after the disclosed matter has been appropriately dealt with.

In all cases where disciplinary or other action is being contemplated, the CEO must be satisfied that it has been clearly demonstrated that:

- the decision to proceed with disciplinary action is not causally connected to the making of the disclosure (as opposed to the content of the disclosure or other available information);
- there are good and sufficient grounds that would fully justify action against any other person not making a disclosure in the same circumstances;
- there are good and sufficient grounds that justify exercising any discretion to institute disciplinary or other action.

The Council will take all reasonable steps to thoroughly document its decision-making process, including recording the reasons why the disciplinary or other action is being taken, and the reasons why the action is not being taken in retribution against the discloser for making the disclosure, so that it will be able to clearly demonstrate that the disciplinary or other action was taken for the appropriate and permitted reasons under the Act.

The discloser will be clearly informed of any action proposed to be taken, be afforded natural justice, and be informed of any mitigating factors that have been taken into account.

# 7. CONFIDENTIALITY

# Confidentiality Obligations

Consistent with the Council's confidentiality obligations under the Act the fact that a disclosure has been made, whether it has been notified to IBAC for assessment, any information received from IBAC or another investigative entity and the identities of persons involved will not be divulged.

The Council will take all reasonable steps to protect the identity of a discloser and to ensure the confidentiality of the subject of a disclosure during any assessment and any ensuing investigation. Where the disclosure is dismissed or investigations do not substantiate the allegations made against the person, the fact that the investigation was undertaken, its results, and the identity of the person subject of the disclosure will still be kept confidential.

Maintaining confidentiality in relation to public interest disclosure matters is crucial in ensuring reprisals are not made against a discloser.

# Exceptions

The Act makes it a crime to disclose information connected with a disclosure made in accordance with the Act. Limited exceptions to the prohibition on disclosure are specified by the Act, include circumstances such as:

- where disclosure is required by the Council (or one of its staff) in the exercise of functions of the Council under the Act;
- where necessary for the purpose of the exercise of functions under the Act;
- by an investigating entity for the purpose of exercising that entity's functions under the IBAC Act;
- in accordance with a direction or authorisation given by the investigating entity that is investigating the disclosure;
- to the extent necessary for the purpose of taking lawful action in relation to the conduct that is the subject of an assessable disclosure including a disciplinary process or action;
- where IBAC or VI has determined that the assessable disclosure is not a public interest disclosure and the discloser or the Council subsequently discloses the information;
- when an investigative entity had published a report to Parliament, in accordance with its confidentiality obligations;
- for the purpose of obtaining legal advice in relation to matters specified in the Act;
- in order to enable compliance with the Act:
  - where a person does not have a sufficient knowledge of the English language, to obtain a translation from an interpreter;
  - $\circ$   $\;$  where a person is under 18 years of age, to a parent or guardian of a discloser;
  - where a person is suffering a disability and is not able to understand, to an independent person;
- in disciplinary actions or legal proceedings for certain offences in the Act or other specified Acts.

It is important to note that the Act prohibits the inclusion of any details, in any report or recommendation that is likely to lead to the identification of a discloser. The Act also prohibits the identification of the person who is the subject of the disclosure in any particulars included in an annual report or any reports to Parliament.

# Offences

The Act contains a number of offence provisions relating to unauthorised disclosure of information by either disclosers or persons who have received disclosures. The relevant penalties include imprisonment, financial payments or both.

The criminal offences set out in the Act relating to confidentiality include:

- divulging information obtained in connection or as a result of the handling or investigation of a public interest disclosure without legislative authority. Maximum penalty: 60 penalty units, six months imprisonment, or both.
- disclosing that a disclosure has been notified to IBAC for assessment under the Act. Maximum penalty: 60 penalty units, six months imprisonment, or both.
- disclosing that a disclosure has been assessed by IBAC or VI to be a public interest complaint under the Act. Maximum penalty: 60 penalty units, six months imprisonment, or both.
- A person must not take detrimental action against another person in reprisal for a public interest disclosure. Penalty: 240 penalty units or 2 years imprisonment or both.

# 8. RECORDS MANAGEMENT

The Council will ensure all files, whether paper or electronic, are kept securely. Those files will be accessible only by the Public Interest Disclosure Coordinator, Public Interest Disclosure Officer and CEO. A Welfare Manager may be able to gain access (where appropriate) to related welfare matters. A Welfare Manager may be provided with information relevant to a welfare issue he or she is managing whenever it is in the interests of the supported officer for that to occur.

All printed material will be kept in files that are clearly marked as a 'Public Interest Disclosure Matter' and warn of the criminal penalties that apply to any unauthorized divulging of information concerning a public interest disclosure.

All electronic files will be either password protected, stored separately or secured. All materials relevant to an investigation, such as tapes from interviews, will also be stored securely with access only by authorised officers, as listed above.

All phone calls and meetings will be conducted in private. Transmission of files containing sensitive information will not be sent to devices that have general staff access.

A person cannot obtain information about a public interest disclosure by application under the Freedom of Information Act 1982 (the 'FOI Act'). Although the FOI Act provides a general right of access for any person to seek documents in the possession of the Council, it provides that certain information related to public interest disclosures as contained in documents in the possession of the Council will be exempt from the application of the FOI Act.

Such information excluded from the operation of the FOI Act includes:

- any information relating to a disclosure made in accordance with the Act;
- any information relating to a disclosure notified to IBAC by the Council under s 21 of the Act for assessment; and
- any information that is likely to lead to the identification of a discloser.

The Council is required to contact IBAC prior to providing any document originating from IBAC or relating to a public interest disclosure, if that document is sought under the FOI Act.

# 9. TRAINING for COUNCILLORS and STAFF

The Council will:

- ensure that Councillors and staff have access to a copy of these procedures in hard or soft copy;
- incorporate into its induction procedures training about the Council's general obligations under the Act and the rights and obligations of all Councillors and staff;
- introduce periodic refresher courses for Councillors and staff about their rights and obligations under the Act;
- provide additional training and assistance to:
  - any staff of the Council with specific responsibilities and functions to handle and manage public interest disclosures under the Act, including the Public Interest Disclosure Coordinator, Public Interest Disclosure Officer and people involved in welfare management;
  - its complaint handling staff to ensure that any complaints received will be dealt with consistently and in accordance with the Act as required;

- any staff with functions and duties under the FOI Act or with responsibilities for information management, to ensure that no prohibited information is disclosed under the Act and to ensure there is appropriate liaising with the staff of IBAC or other investigative agencies where required in response to a request for access under the FOI Act; and
- all staff dealing with customers to ensure any potential disclosures received from external sources can be handled appropriately in accordance with the Act and these procedures.

# 10. GOVERNANCE

#### Review

This procedure will be reviewed every three years or upon significant change to the Act, the Regulations or IBAC's guidelines to ensure they comply with the requirements of the Act, the Regulations and IBAC's guidelines.

From time to time, circumstances may change leading to the need for minor administrative changes to this procedure. Where an update does not materially alter this procedure, such a change may be made administratively.

Examples of minor administrative changes include changes to Council personnel, change to names of Government departments and agencies or a minor amendment to legislation that does not have material impact. Where any change or update may materially change the intent of this procedure, it must be considered by the Council

# **Compliance Responsibility**

The Council is required to publish certain statistics about the Act in its annual reports. That information relates mainly to how these procedures may be accessed and the number of disclosures notified to IBAC for assessment under s 21 of the Act during the financial year.

The Public Interest Disclosure Coordinator will establish a secure register to record such information, and to generally keep account of the status of disclosures made under the Act.

## 1. PURPOSE

The Audit and Risk Committee (*the Committee*) is an independent advisory committee to Council established under section 54 of the Local Government Act 2020.

The purpose of *the Committee* is to advise Council on the effectiveness of the organisation's systems, processes and culture for complying with its legal and financial obligations and the management of risk. In fulfilling this role, *the Committee* is to aid in the implementation of the Council Plan.

The Committee is accountable to and reports directly to Council.

The Committee's work is to be informed by the requirements of *the Act* and best practice in audit, risk and governance principles and processes.

# 2. AUTHORITY

*The Committee* does not have executive powers or authority to implement actions in areas over which management has responsibility and does not have any delegated financial responsibility. *The Committee* does not have any management functions and is therefore independent of management.

The Committee's role is to report to Council and provide appropriate advice and recommendations on matters relevant to this Charter in order to facilitate decision-making by Council in relation to the discharge of its responsibilities.

The Committee has the authority to:

- Seek resolution on any disagreements between management and the external auditors on financial reports;
- Review all auditing, planning and outcomes;
- Seek any information it requires from Council members, officers and external parties via the Chief Executive.
- Formally meet with Council officers, internal and external auditors as necessary.
- Address issues brought to the attention of *the Committee*, including responding to requests from Council for advice which is within the parameters of *the Committee's* terms of reference.
- The Chair has no executive authority on behalf of Council but can be consulted as required, as a sounding board by the Chief Executive or his/her delegate on matters that arise regarding audit, risk management or governance related issues.

#### 3. MEMBERSHIP

*The Committee* will be comprised of five members:

- One (1) independent Chairperson;
- Two (2) independent members; and
- Two (2) Councillors

All members shall have full and equal voting rights unless a member is unable to vote due to a conflict of interest.

The following requirements will apply to members and the Committee Chairperson

- a) Council will appoint Committee members and *the Committee* Chairperson;
- b) A quorum of any meeting will be a least two independent members (which may include the Chairperson) and at least one Councillor member.

c) The Chairperson shall be an independent member of *the Committee* and shall have a casting vote on occasions where there is an equal tally of votes on a matter. In the absence of the appointed Chairperson form a meeting, the meeting will appoint an acting Chairperson from the independent members present.

# 4. TERM OF APPOINTMENT

- a) Appointments of external members shall be made by Council by way of public notice inviting expressions of interest and be for a maximum term of four years. Options for reappointment, subject to successful performance reviews, are also available and a maximum of two extensions is considered reasonable.
- b) Where possible, the terms of external members should be arranged to ensure an orderly rotation and of overlap appointment membership, relative to the elected Council's quadrennial terms.
- c) The independent members will, collectively, have expertise in financial management and risk, experience in public sector management and be conversant with the financial and other reporting requirements. The evaluation of potential members will be undertaken initially by the Chair utilising officer input as required and subsequently by the Mayor and Chief Executive, taking account the experience of applicants and their likely ability to apply appropriate analytical and strategic management skills, and a recommendation for appointment put to Council.
- d) Council members (councillors) shall be appointed annually at Council's Annual (Statutory) Meeting.
- e) If the Council proposes to remove an external member of *the Committee*, it must give written notice to the external member of its intention to do so and provide that external member with the opportunity to be heard at a Council meeting which is open to the public, if that external member so requests.
- f) Remuneration will be paid to each external member of *the Committee* on the basis of an annual fee, with an additional amount paid to the Chairperson. Annual increases in the remuneration of Committee members will be limited to increases in the Consumer Price Induct (CPI All Groups Melbourne) and adjusted annually on July 1.
- g) The Chairperson shall be appointed by Council from the external members of *the Committee*. In the absence of the appointed Chairperson from a meeting, the meeting will appoint an acting Chairperson from the external members present.

# 5. MEETINGS

The following requirements shall apply to meetings of *the Committee*:

- a) *The Committee* shall meet as required, but at least quarterly each year.
- b) The Chief Executive, Director Corporate Strategies, Manager Financial Services, Manager Governance Projects & Risk Manager Organisational Development and the internal auditor (whether a member of staff or contractor) should attend all meetings, except when *the Committee* chooses to meet in camera. Other members of Council or Council staff may be invited to attend at the discretion of *the Committee* to advise and provide information when required.
- c) *The Committee*, without management present, will meet separately with the internal auditor and the external auditor, at least annually, to discuss issues of relevant interest.

- d) Representatives of the external auditor will attend a meeting to consider the draft annual standard statements, financial statements and the results of the external audit and may be invited to attend other meetings at the discretion of *the Committee*.
- e) A schedule of meetings and annual work plan will be developed and agreed by members. As an indicative guide, meetings would be arranged to coincide with relevant Council reporting deadlines.
- f) Additional meetings shall be convened at the discretion of the Chairperson or at the written request of any two (2) members of *the Committee*, the Chief Executive, the internal or external auditor.
- g) The agenda for each meeting shall take a structured format to comply with *the Act* and Council's Governance (Meeting Procedures) Local Law No. 1. In addition, the agenda format shall reflect *the Committee's* annual work plan or matters where regular reports should be presented or identified.
- h) The agenda and supporting documentation will be circulated to members of *the Committee* at least one (1) week in advance of each meeting.
- i) Minutes will be reported to the Committee of the Whole of Council after every meeting inclusive of any report(s) to explain any specific recommendations and key outcomes.
- j) The Corporate Strategies directorate shall provide secretarial and administrative support to *the Committee*.

#### 6. **REPORTING**

- a) The Committee will prepare a biannual (twice a year) audit and risk report that describes the activities of the Committee and includes its findings and recommendations and provide a copy of the report to the Chief Executive Officer for tabling at the next Council meeting.
- b) *The Committee* may report, at any time, to Council on any matters of significance as determined by the Committee.
- c) *The Committee* Chairperson, will attend a briefing meeting of Councillors annually (in the period late October-mid November each year) to:
  - Summarise the activities of *the Committee* during the previous financial year;
  - Provide any recommendations to councillors in relation to the functioning of *the Committee*; and
  - Brief Council on key aspects of the Committee's proposed annual work plan for the following calendar year; and
  - Draw councillors' attention to any other matters which the Chairperson or Committee see as appropriate
- d) The Chairperson is entitled to attend any briefing of Councillors' meeting at any other time to bring any particular matters to the attention to Council which the Chairperson or Committee sees fit. Such meetings may be held with or without management present at the election of the Chairperson following consultation with the Mayor.
- e) *The Committee* Charter and details of its members will be published on Council's website.
- f) Council's Annual Report will contain information on the makeup of the Committee, number of meetings held and attended by Committee members, audit processes, details of any remuneration paid to independent members during the reporting period and a summary of work completed by the Internal and External Auditor during the year.

#### 7. FUNCTIONS AND RESPONSIBILITIES

The functions and responsibilities of *the Committee* include:

#### 7.1 External Reporting

- a) Review Council's draft annual financial report, focusing on:
  - Accounting policies and Approved Accounting Standards;
  - Changes to accounting policies and Approved Accounting Standards;
  - The process used in making significant accounting estimates;
  - Significant adjustments to the financial report (if any) arising from the audit process;
  - Compliance with accounting standards and other reporting requirements of financial and nonfinancial information; and
  - Significant variances (with explanations thereof) from prior year's figures.
- b) Review and recommend adoption of the Annual Financial and Performance Statements to Council and review any significant changes and the reasons for the changes that may arise subsequent to any such recommendation but before the financial report is signed.
- c) Review the completeness of management reporting on the legislative performance indicators and the governance and management checklist as prescribed in the Local Government (Planning and Reporting) Regulations 2014.

#### 7.2 External Audit

The Committee will:

- a) Oversee the external audit function
- b) Be briefed by the external auditor on the audit engagement and the overall audit strategy of the Victorian Auditor General's Office (VAGO) at the commencement of each year's audit process;
- c) Discuss and review with the external auditor the scope of the audit and the planning of the audit;
- d) Discuss and review with the external auditor issues arising from the audit, including all Management Letters issued by the auditor for completeness and appropriateness;
- e) Ensure significant findings and recommendations made by the external auditor and management's proposed responses are received, discussed and appropriately actioned by management;
- f) Review on an annual basis the performance of the external auditors; and
- g) Maintain an awareness of local government performance audits undertaken by VAGO and any other relevant reviews undertaken by bodies such as IBAC and consider recommendations for action or implementation where appropriate.

#### 7.3 Internal Audit

*The Committee* will:

- a) Oversee the internal audit function
- b) Be kept informed by Council officers of any process to appoint or terminate Council's internal audit service provider and provide advice to Council with respect to appointment of internal auditor services;
- c) Review the level of resources allocated to internal audit and the scope of its authority;
- d) Review the scope of the internal audit plan and programme and the effectiveness of the function. This review should consider whether, over a period of 3 years the internal audit plan systematically addresses:
  - Internal controls over significant areas of risk, including non-financial management control systems;

- Internal controls over revenue, expenditure, assets and liability processes;
- The efficiency, effectiveness and economy of significant Council programmes; and
- Compliance with regulations, policies, best practice guidelines, instructions and contractual arrangements;
- e) Review the appropriateness of special internal audit assignments undertaken by internal audit at the request of Council or the Chief Executive;
- f) Review internal audit reports and monitor the implementation by management of recommendations made by internal audit.
- g) Monitor the implementation of recommendations by management;
- h) Facilitate liaison between the internal and external auditors to promote compatibility, to the extent appropriate, between their audit programmes;
- i) Critically analyse and follow up any internal or external audit report that raises significant issues relating to risk management, internal control, financial reporting and other accountability or governance issues, and any other matters relevant under the Committee's Charter. Review management's response to, and actions taken as a result of, the issues raised; and
- j) Review on an annual basis the performance of the internal auditor, including adherence to appropriate professional and quality standards, and where performance is not considered satisfactory, report to Council and make recommendations, which may, in extreme cases, include a recommendation that Council terminate the internal audit contract and undertake a tender process for the appointment of a new internal auditor.

#### 7.4 Risk Management and Fraud Prevention

The Committee will:

- a) Monitor the risk exposure of Council by determining if management has appropriate risk management frameworks, processes and adequate management information systems;
- b) Monitor reported breaches of ethical standards and related party transactions and monitor the implementation of recommendations arising from reports presented and review the effectiveness of Council's internal control systems.
- c) Monitor the progress of any major lawsuits facing the Council.
- Provide oversight of Council's risk management framework (including Council's health and safety management system) and activities conducted by the internal and external auditors and any other assurance providers, to give assurance over that framework;
- e) Escalate to Council when *the Committee* feels that management is not responding as it wishes/should on concerns about the risk management framework.
- f) Monitor and provide advice on fraud prevention systems and controls, including:
  - Reviewing processes in the prevention and management of fraudulent activity;
  - Reviewing reports of fraud from management, the status of ongoing investigations and recommendations to improve fraud controls;
  - Assessing the operational effectiveness of the fraud prevention controls; and
  - Ensuring that the internal audit program assists in identifying any potential fraud risks.

#### 7.5 Ethical Behaviour

The Committee will:

a) Receive updates from management of any suspected cases of fraud, corruption or serious misconduct impacting Council;

- b) Recommend any specific measures or investigations identified as necessary or desirable by the Committee to the Council;
- c) Identify and refer specific projects or investigations deemed necessary though the Chief Executive, the internal auditor and the Council, if appropriate.
- d) Monitor any subsequent investigation, including the investigation of any suspected cases of fraud, corruption, serious misconduct or breaches of conflict of interest; and
- e) Review the findings of any examinations by regulatory agencies (eg VAGO), and any auditor (registered internal or external auditors) observations. Other audits/investigation may also be reviewed if relevant to this committee.
- f) Where a suspected fraud or corrupt behaviour is reported or detected and is deemed likely to have a material impact on Councils reputation or operations, in the opinion of the CEO. The CEO will inform the Chair of the Audit and Risk Committee of the incident subject to the limitations on disclosure that may be imposed by external integrity bodies, this may occur outside of the regular quarterly updates on ethical behavior.

#### 7.6 Financial Reporting and Financial Matters

- a) The Committee will monitor Council financial reporting and performance.
- b) The Committee will receive details of all reimbursements (for out-of-pocket expenses) for Councillors and delegated committee members
- c) The Committee wil exercise an oversight function over compliance with Gifts Policy.

#### 7.7 Council Policies and Procedures

The Committee will monitor the compliance of the Council's policies and procedures with:

- a) The overarching governance principles set out in s. 9 Local Government Act 2020, viz:
  - i. Council decisions are to be made and actions taken in accordance with the relevant law;
    - ii. priority is to be given to achieving the best outcomes for the municipal community, including future generations;
  - iii. the economic, social and environmental sustainability of the municipal district, including mitigation and planning for climate change risks, is to be promoted;
  - iv. the municipal community is to be engaged in strategic planning and strategic decision making;
  - v. innovation and continuous improvement is to be pursued;
  - vi. collaboration with other Councils and Governments and statutory bodies is to be sought;
  - vii. the ongoing financial viability of the Council is to be ensured;
  - viii. regional, state and national plans and policies are to be taken into account in strategic planning and decision making;
  - ix. the transparency of Council decisions, actions and information is to be ensured.
- b) The Local Government Act 2020 and the regulations (made for or with respect to any matter or thing required or permitted by the Act to be prescribed) and any Ministerial directions.

#### 7.8 Matters Referred to the Committee by Council

*The Committee* will address issues brought to its attention, including responding to requests from Council for advice.

#### 7.9 CEO Employment and Remuneration Policy

*The Committee* will oversee adherence of Council to the CEO Employment and Remuneration Policy.

#### 8. ANNUAL WORKS PROGRAM

The Committee must adopt an annual works program, by no later than 1 May each year.

#### 9. PERFORMANCE EVALUATION

- a) *The Committee*, in conjunction with Council, and the Chief Executive, should develop the Committee's performance indicators.
- b) *The Committee* will assess its own performance on an annual basis using a Self-Assessment tool which will be reviewed, adopted and completed by the Committee.
- c) The Committee provide a copy of the annual assessment to the Chief Executive Officer for tabling at the next Council meeting.

#### **10. CONFLICT OF INTEREST AND REGISTER OF INTERESTS**

- a) Sections 123 (misuse of position) and 125 (confidential information) and Division 2 of Part 6 (conflict of interest) of the Act apply to any member of the Committee who is not a Councillor as if the member were a member of a delegated committee.
- b) Members of *the Committee* must be fully aware of their responsibilities with regard to the management of interests in relation to the discharge of their duties as a member of the Committee. Management of interests includes the proper management of any conflicts of interest as and when they may arise.
- c) Members of *the Committee* must also be fully aware of the statutory definitions of direct and indirect interests which may give rise to a conflict of interest. These are set out in the Act.
- d) Failure to comply with the provisions of the Act with regard to conflicts of interest may result in prosecution and the member's appointment being terminated by the Council.

#### **11. REVIEW OF THE COMMITTEE CHARTER**

*The Committee* will review the Committee Charter on a biennial basis and recommend any changes to Council for approval.

The next review date will be: May 2023.

## 5.4. TIMOR STREET POWER UPGRADE

## PURPOSE:

## To seek Council approval to fund overhead powerline works which will allow property owners in Timor Street between Liebig Street and Kepler Street to undertake façade improvement works.

## **EXECUTIVE SUMMARY**

- The proximity of the High Voltage (HV) and Low Voltage (LV) power lines in Timor Street between Liebig Street and Kepler Street limit the ability of property owners to carry out maintenance on their building facades.
- The Energy Safety Victoria 'No Go Zones' apply within 3 metres of any powerline and require spotters for works within 3 metres and 6.4 metres of a powerline.
- The proximity of cables in this section of roadway to building facades is generally less than 3 metres, or equipment required for works would place them within the 3-metre zone.
- Council has facilitated discussions between property owners and Powercor to understand the
  options available to address the restrictions.
- Options explored previously had identified project costs of up to \$750,000 to underground the overhead powerlines.
- In conjunction with Powercor a solution has been found which will allow works to occur over a period of 90 days for a cost of \$40,000. A Powercor options assessment is provided as Attachment 1.
- Council should also consider funding a project manager to coordinate the complicated scheduling and approvals processes.

## RECOMMENDATION

## That Council:

- i. Accept the Option 3 proposal provided by Powercor and agree to fund the \$40,000 cost to install the switching infrastructure.
- ii. Engage with property owners and Powercor to determine the most suitable 90-day time period in which to provide the opportunity for property owners to undertake façade works.
- iii. Agree to provide coordination, permit and programming support through a contracted project officer, with estimated costs of \$20,000.
- iv. Direct that offices identify suitable budgetary options available to fund these works and present these as part of the next monthly budget update.

## BACKGROUND

Property owners in Timor Street between Liebig Street and Kepler Street have been seeking Council's assistance to find a solution to 'No Go Zone' restrictions which prevent them from maintaining property facades.

Over many years' council has been looking for a solution which would allow the deteriorating façades on the north side of Timor Street to be rectified.

Approaches to Powercor in 2018-2019 provided options to address these issues which included:

- (i) the Aerial Bundling of Low Voltage Cables at an approximate cost of \$45,000.
- (ii) the Aerial Bundling of High Voltage Cables at an approximate cost of \$80,000.

## (iii) Undergrounding of HV and LV cables at a cost of approximately \$750,000.

These options would have required both options (i) and (ii) to be jointly implemented as a minimum.

## ISSUES

The proximity of the High Voltage (HV) and Low Voltage (LV) power lines in Timor Street between Liebig Street and Kepler Street limit the ability of property owners to carry out maintenance on their building facades.

The proximity of overhead cables in this section of roadway to building facades is generally less than 3 metres, or equipment required for works would place them within the 3-metre zone.

The high cost of the 2018-2019 as outlined in the background section when considered jointly had made earlier attempts to resolve this issue difficult. However, due to a recent line failure there is now an opportunity to address this problem for approximately \$40,000, plus project management costs.

This opportunity would provide a 90-day window of in which property owners could program and complete works, while High Voltage Power was isolated.

This is an opportunity that Council should consider carefully due to the circumstances which have been offered by the line failure.

Council has previously offered a Shopfront Façade Improvement and Access Fund as part of the Liebig Street City Centre Renewal Project. This program was developed for the renewal period and provided an opportunity for businesses to improve the presentation of properties and to provide all abilities access to private buildings in Liebig Street to complement Council's upgrade of the public streetscape infrastructure.

Through the fund, property owners and business operators could apply for grants which provided \$1:\$1 matching grants up to \$3,000 for shopfront improvements or improvement to internal all abilities access.

Over the two years of the program 54 successful applications were approved with Council committing \$105,702.81 and the total improvement works completed in the street estimated at \$306,544.

The section of Timor Street to which this issue applies has 26 properties and at a cost of \$40,000 could achieve similar outcomes to the earlier program. It is expected that property owners in the project area would be undertaking more substantial and costly works due to the condition of the buildings.

Property owners would need to coordinate their works programs to ensure they could complete all works within the 90-day isolation period. This would also involve negotiation with the group as a collective to ensure that adequate lead times were provided to secure contractors and materials.

## FINANCIAL IMPACT

Council should take this opportunity and instruct the CEO and executive team to identify budgetary provisions in which to accommodate the \$40,000 Powercor works cost.

Consideration should also be provided for the engagement of a project officer to coordinate the various works programs and to facilitate all necessary permits. This is estimated to be approximately \$20,000 and would involve coordination of building, planning, heritage and road occupation permits.

## LEGISLATION/POLICY/COUNCIL PLAN CONTEXT

This report responds to the following Council Plan initiatives:

## 4 Develop a smarter economy with diverse and sustainable employment

- 4.2 Encourage more sustainable local business.
- 4.3 Enhance the visitor experience.

## 5 Practice good governance through openness and accountability while balancing aspirations with sound financial management

5.4 Deliver customer-focused, responsive service

## TIMING

Whilst there is not an immediate need to resolve this issue, there will become a point at which property facades will become dangerous and will require repair.

## **COMMUNITY IMPACT/CONSULTATION**

Council has received strong support from 6 of the property owners in this area, each of whom have committed to undertaking improvement works during a shutdown period.

If Council makes a commitment to funding these works, it could then convene a meeting with property owners and Powercor to expand the engagement.

## LEGAL RISK/IMPACT

This report is seeking to find a solution to a significant and ongoing community risk.

There is a significant risk for Council in attempting to facilitate an outcome that it will create an expectation that the problem is 'owned by Council'.

While local government has previously facilitated the undergrounding or bundling of overhead power this has usually occurred as part of co funded streetscape improvement project.

## **OFFICERS' DECLARATION OF INTEREST**

No officer involved in the development of this report has declared a conflict.

## CONCLUSION

Although the management of power infrastructure is not a Council function, leadership is required to address the ongoing façade access issue that exists in Timor Street between Liebig Street and Kepler Street.

This report recommends that Council fund a low-cost option that has only recently become available. This option will provide a 90-day window of opportunity in which property owners could undertake façade improvement works.

## ATTACHMENTS

1. Timor St Powerline Isolation Options - May 20 v 2 [**5.4.1** - 5 pages]

Agenda for Ordinary Meeting Attachment 5.4.1

# Powercor HV Isolation Options – Timor Street WARRNAMBOOL

**Building Access Options** 

CITIPOWER POWERCOF energy ()

6 July 2020

Page | 330

## **HV Isolation Points and Building Access Locations**

## **Options Description** (1)

<b>Option 1</b> — Timor St including Whalers Hotel				
Option Description:	To install temporary mid span isolators ( <b>MSI's</b> ) on the corner of Liebig and Timor Streets ( <b>B</b> ) and at the Kepler Street end of Timor Street ( <b>A</b> ). This would allow for access to all of the Timor Street Buildings in including the Whalers Hotel			
Option Estimated Costs (GST inc):	Powerline Isolation MSI's set-up and recovery cost \$24,000 Per day operational cost - isolation and restoration \$2,000			
PRO	Access to all of Timor St buildings including the Whalers Hotel			
CON Access can only be provided on a daily basis. Electricity supply to the Whalers Hotel is interrupted for each day of access				

## **Option 2** – Timor St excluding the Whalers Hotel

Option Description:	To install MSI's at the Kepler Street end of Timor Street <b>(A)</b> and west of the Powercor substation outside of the Whalers Hotel <b>(C)</b>			
Option Estimated	Powerline Isolation MSI's set-up and recovery	Per day operational cost - isolation and restoration		
Costs (GST inc):				
PRO	Access to buildings can remain continuous for up to 90 days – subject to Powercor operational requirements			
CON	No access to the Whalers Hotel			

## **Options Description** (2)

<b>Option 3</b> – Timor St and Whalers Hotel					
Option Description:	To install temporary mid span isolators (MSI's) on the corner of Liebig and Timor Streets <b>(B)</b> , the Kepler Street end of Timor Street <b>(A)</b> and west of the Powercor substation outside of the Whalers Hotel <b>(C)</b>				
Option Estimated	Powerline Isolation MSI's set-up and recovery Per day operational cost - isolation and restoration				
Costs (GST inc):	\$36,000 \$2,000				
PRO	Efficiencies with the installation all 3 MSI's at once.				
CON	Individual access limitations may apply to specific buildings as per Options 1 and 2				

## **Other Constraints and Considerations**

- Powercor LVABC replacement works in Timor Street to be completed
- Individual building access arrangements still subject to full Powercor Permit to Work (PTW) assessment and individual permit conditions
- MSI's can only be installed for a period of 90 days
- Access subject to wider Powercor network operational constraints

## 5.5. OPEN SPACE ASSET MANAGEMENT PLAN

## PURPOSE:

## For information and to introduce the draft Open Space Asset Management Plan (AMP).

## EXECUTIVE SUMMARY

- It is a requirement of the Local Government Act 2020 that councils have in place Asset Management Plans (AMP) to strategically manage their assets.
- AMPs are a key document in Council's Asset Management Framework, sitting under the Policy and Strategy.
- Council does not currently have an Open Space Asset Management Plan
- This AMP has been developed in accordance with industry best practice and principles, informed by the Open Space Strategy, known condition information and existing operational and maintenance practices.
- The plan outlines what it costs to deliver the current level of service, if this is being met and what the risks are of not meeting these requirements.
- As this is the first Open Space AMP to go through this process, some assumptions are made. These will be refined along with completing other Improvement Actions on future iterations of the Plan.
- This Plan has been endorsed by the Asset Management Steering Committee.
- The AMP must go through community consultation prior to adoption by Council.

## RECOMMENDATION

## That Council:

- 1. Agrees to advertise the draft Open Space Asset Management Plan 2020 for public comment for a period of not less than 28 days.
- 2. Receives a future report to adopt the Open Space Asset Management Plan which summarizes any submissions and amendment made to the document.

## BACKGROUND

Until recently it has been best practice for councils to have Asset Management Plans (AMPs) which guide infrastructure investment in a sustainable way that also meets the community's needs. However, this has now become a legislated requirement with the Local Government Act 2020.

The historic barrier to creating the Open Space AMP has been lack of data, or confidence in the data. However, through ongoing condition audits and development of an Open Space Strategy our confidence is ever increasing.

Some assumptions are still required where data is not complete, but these gaps have been identified throughout the Plan and inform the Improvement Actions plan at the end of the document.

This AMP has been developed in accordance with current best practice principles guided by IPWEA and NAMS, a large component being the formation of an internal stakeholder group to provide technical and historical knowledge, this group also and assisted with the reviewing assumptions.

The aim of the AMP is to combine risk management, financial, engineering and technical practices to ensure that the required levels of service are met with consideration for Council's financial limitation over a 15-year planning period.

## ISSUES

Council currently doesn't have an adopted Open Space Asset Management Plan.

## **FINANCIAL IMPACT**

There is no financial impact in adopting this AMP. However, the plan will optimize council's investment in future in relation to Open Space asset management.

## LEGISLATION / POLICY / COUNCIL PLAN CONTEXT

This Plan is a legislated requirement under the Local Government Act 2020, and responds to following Council Plan initiatives:

## 2 Foster a healthy, welcoming city that is socially and culturally rich

2.2 Increase participation, connection, equity, access and inclusion.

## 3 Maintain and improve the physical places and visual appeal of the City

3.2 Create a more vibrant City through activating high quality public places.

3.3 Build Infrastructure that best meets current and future community needs.

3.4 Maintain and enhance existing Council infrastructure

## 5 Practice good governance through openness and accountability while balancing aspirations with sound financial management

5.2 Develop policies, strategic plans and processes to address local and regional issues, guide service provision and ensure operational effectiveness

## TIMING

The final adoption of the plan is likely to occur in mid to late 2020.

## **COMMUNITY IMPACT / CONSULTATION**

Community consultation will follow Council's endorsement of this plan

## LEGAL RISK / IMPACT

The plan is the requirement of the Local Government Act 2020.

## OFFICERS' DECLARATION OF INTEREST

No officer involved in this report has declared a conflict of interest.

## CONCLUSION

Council should agree to advertise the Open Space Asset Management Plan 2020 for the purpose of community engagement.

## WARRNAMBOOL CITY COUNCIL

## Open Space Asset Management Plan

## June 2020

This document has been prepared for Warrnambool City Council only. @ 2020 SPM Assets Pty Ltd

Warrnambool City Council

### **Executive Summary**

#### The Purpose of this Asset Management Plan

The purpose of this Open Spaces Asset Management Plan is to provide a robust planning process to facilitate the delivery of services through effective provision and management of Council's Open Spaces assets. The AMP is based on evidence, service requirements, risk management principles and has been aligned with ISO 55000. It documents asset management practices and procedures that are being implemented by Council in managing the Open Spaces portfolio and records how assets are being managed effectively from a whole of life perspective to deliver the best outcomes to all stakeholders in the most cost effective manner.

Objectives of the Open Spaces Asset Management Plan are to:

- 1. Analyse the existing asset data
- 2. Provide recommendations for any data cleansing opportunities identified
- 3. Provide recommendations on best practice asset management practice to manage Council's current assets
- 4. Alignment of assets to Service Needs, which was completed as part of the workshops in February 2020, to identify service planning gaps
- 5. Address functionality needs, compliance requirements for current users and potential future use, asset criticality and alignment with service delivery
- 6. Address changes to future demand
- 7. Provide a lifecycle management plan
- 8. Address the risk management and criticality of assets
- 9. Articulate all tasks and responsibilities associated with managing and maintaining the asset portfolio
- 10. Provide a long-term financial forecast integrated into a Long Term Financial Plan

#### Alignment with ISO 55000

Council is considering the following as part of the ISO 55000 alignment:

- To effectively govern an organisation, An asset management system includes:  $\geq$ the governing body needs assurance that their assets are well managed
- Leadership and commitment from all 2. The asset mgt objectives managerial levels is essential to successful asset management
- "What to do" rather than "How to do it"  $\geq$ (IIMM, IPWEA/NAMS Practice Note 3 and NAMS Property manual provide the guidance on how to effectively manage the assets)
- Your organisation determines which assets are to be included

- 1. The asset mgt policy
- 3. The Strategic Asset Mgt Plan (SAMP)
- 4. The Asset Mgt Plans implemented in:
  - Operational planning and control /•///
  - Supporting activities
  - Control activities
  - Other related processes
- It is good business practice and always think about continuous improvement

#### SPM Assets' 7 Point Asset Planning Framework – How to be Aligned

#### Warrnambool City Council

The below figure illustrates a framework on how to achieve alignment and manage assets efficiently and effectively. In summary:

- 1. Know your services
- 2. Know the assets and costs needed to deliver those services
- 3. Know what you need (both now and into the future)
- 4. Know what's possible asset and non-asset solutions
- 5. Know what to do now (budgets, risks and prioritisation) and what's sustainable over the longer term
- 6. Know your funding options recognising that the first step is to determine the investment needed to address the current and future shortfalls
- 7. Make decisions and deliver outcomes

#### Asset Management Objectives

It is recommended that Council implements the following asset management objectives that are aligned with ongoing best-practice over the next three (3) years:

- 80% of work done is planned If you only react to symptoms, the problems will build up over time to a level that could be too costly to address. The expenditure will be more controllable when you plan and think long term. Recognising there will always be a level of 'reactive works' or ad-hoc works that just can't be planned.
- 80% of the works programme is driven from the planning process. Making good decisions on evidence that's scientifically based rather than making ad-hoc decisions that may only consider part of the organisation's strategies getting this right will provide a greater level of success when competing for annual budgets. Again, recognising that there will always be a level of projects identified outside of the planning process.
- 20% of your asset register is updated, maintained, improved and changed every year. Good decisions require good data - manage the information strategically by targeting efforts in areas that provide key information that feeds into the planning process.

WARRNAMBOOI

### Asset Management Plan

#### Warrnambool City Council

The longer-term value of this solution would be:

- Reduction in the premium paid for reactive maintenance leading to re-allocation of funds to planned works
- Having a more robust planned approach to your works-programme evidence based using scientific methods
- Better knowing and managing current and future risk
- > Having a well-maintained component level asset register with good confidence

#### **Overall Condition**

Overall the assessed components of the Open Spaces are in a very good condition, in which 56% of components in very good condition (by value - \$4.7 million) and 33% of components in good condition (by value - \$2.8 million) as illustrated in the figure below. A further 8% are in moderate condition (by value - \$633K) while 4% of components are in a poor or very poor condition (by value - \$296K).

The \$296K of components in poor or very poor condition largely relates to the following component groups:

- Open Space \$237K
- Exterior & Sundries \$35K
- Sporting \$19K

#### **Renewals and Replacements**

The figure below shows the forecast 15-year renewals expenditure required for all Open Spaces subcategories, including the possible backlog. It shows that over the next 15 years \$9.3 million is required (an annual average of \$617K) to address both the backlog (a total value of \$532K), and annual lifecycle expenditure. The three highest peaks of expenditure occur in 2027, 2028 and 2031.

### **Planned Upgrade Projects**

The table below lists the planned upgrade projects for Play Spaces over the next 10 years as outlined in the Draft Play Space Strategy 2019-2028.

Renewal Projects – Play Spaces				
Year	Name of Play Space	Classification	Action	
	Pappas Drive	3	Includes upgrades to meet community expectations.	
2019/20	Mahogany Gardens	4	Includes upgrades to meet community expectations.	
	E Johnson Reserve/Lake Pertobe	1	Includes upgrades to meet community expectations.	
	Fletcher Jones Gardens	3	Includes upgrades to meet community expectations.	
2020/21	Pecten Avenue Reserve	3	Includes upgrades to meet community expectations.	
	Brierly Recreation Reserve	3	Includes upgrades to meet community expectations.	
2022/23	Lake Pertobe Central	1	Includes upgrades to meet community expectations.	
2022/23	Breton Street	3	Includes upgrades to meet community expectations.	
	Kings Park	3	Includes upgrades to meet community expectations.	
2023/24	Bradley/Archibald Street	4	Includes upgrades to meet community expectations.	
	Botanic Gardens	2	Includes upgrades to meet community expectations.	
2024/25	Ponting Reserve	3	Includes upgrades to meet community expectations.	

## Warrnambool City Council

Renewal Projects – Play Spaces			
	Auty Street North Reserve	4	Includes upgrades to meet community expectations.
	Nicholls Drive	3	Includes upgrades to meet community expectations.
2025/26	Jubilee Park	2	Includes upgrades to meet community expectations.
2023/20	Wendy Matthews	3	Includes upgrades to meet community expectations.
2026/27	Laurina Close/Baeckea Reserve	2	Includes upgrades to meet community expectations.
2027/28	Wendy Matthews	3	Includes upgrades to meet community expectations.
2027/28	Hickford Reserve	3	Includes upgrades to meet community expectations.
2020/20	Shirley Grove	3	Includes upgrades to meet community expectations.
2028/29	Natalie Court	3	Includes upgrades to meet community expectations.

The table below outlines the immediate (to be rectified within the next year) and high (to be rectified within the next 1-3 years) priority projects from the Lake Pertobe Masterplan 2018.

Upgrade Projects – Lake Pertobe			
Priority	Year	Theme	Description
Immediate		Infrastructure Included in wayfinding	Investigate feasible options for replacement of the swing bridge feature in Play Area 3.
			Creative and innovative design will be included in all new projects (e.g. wayfinding and signage, shelters, functional art, picnic decks, play features etc.).
	2020	Connectivity and Wayfinding	Install wayfinding maps of the reserve in selected high traffic locations to facilitate easy navigation of the reserve and raise awareness of the variety of experiences and activities on offer.
		Play Infrastructure	Design and construct an exciting, unique, inclusive, challenging and innovative play space in Play Area 2 for 0 to 12 years.
		Arts and Culture	As 'Pertobe' is derived from the word 'pirtupp' meaning small sandpiper in Aboriginal language, include the bird as a theme where appropriate, to acknowledge local aboriginal culture and identity within the reserve.
High	2021 - 2023	Infrastructure	Prepare an infrastructure style guide to create a consistent and appropriate character. The guide should include seats,

## Warrnambool City Council

Upgrade Projects – Lake Pertobe			
		waste receptacles (rubbish/recycle), drinking fountains/water bottle refilling stations, bike racks, lighting and picnic tables.	
		Install additional seating and picnic tables which meet the needs of all users (including some seats with arm rests, back rests and wheelchair accessible tables).	
		Develop an App to increase engagement and enjoyment.	
		Develop and implement a wayfinding strategy for areas within and adjacent to Lake Pertobe.	
		Name all walking paths/loops, play areas and barbecue shelters to improve navigation and wayfinding.	
	Connectivity and Wayfinding	Construct new shared path across the southern side of Lake Pertobe Reserve to link all pedestrian crossing points on Pertobe Road as well as create raised crossing points.	
		Construct a new (shared) path to create pedestrian and cycle-friendly connections across the southern boundary of the reserve linking with path on the northern side of Pertobe Road.	
	Accessibility	Include information about accessible destination points and infrastructure (paths, play, social, toilets etc.) in the wayfinding information.	
		Design and develop a diverse range of exciting, unique, challenging and innovative play for all ages by designating specific user groups for each play area: Play Area 1 - Youth/Adventure - Ages 12 years plus Play Area 3 - Slides etc All ages/Mixed Area	
	Play Infrastructure	Provide additional challenging adventure play opportunities in Play Area 1.	
		Include additional inclusive play elements and improve accessibility in all Play Areas by removing barriers such as raised timber edges and sand soft fall and replacing with accessible pathways and surfaces, as appropriate.	
	Arts and Culture	Include and share stories about Lake Pertobe's heritage, indigenous culture, stormwater/drainage functions and environmental values through	

WARRNAMBOOI

## **Asset Management Plan**

Upgrade Projects – Lake Pertobe			
		improvements, wayfinding, precinct names and other on-site information.	
	Recreation and Social Use –	Install clear signage at entry points and along pathways, and communicate via other channels available, to indicate where dogs are permitted and not permitted at Lake Pertobe.	
		Investigate the formation of a Friends of Lake Pertobe group to increase community involvement in the implementation of the Masterplan.	

The table below outlines the high (to be rectified within the next year) and medium priority (within the next 1-3 years) upgrade projects for the Botanic Gardens as outlined in the Warrnambool Botanic Gardens Master Plan 2017.

Upgrade P	Upgrade Projects – Botanic Gardens			
Priority	Year	Theme	Description	
			Construct an elevated walkway to the north side of the Fernery to avoid the Moreton Bay Fig tree's root buttress.	
		Connectivity and	Construct a concrete footpath on the northern perimeter (along Botanic Road).	
		Wayfinding	Install boardwalks or flexible surfacing to create accessible and safe paths where tree roots are affecting internal pathways.	
			Design and construct an arbour and new garden beds to Entrance no. 5 (Botanic Road) to improve its sense of arrival	
	2020	2020 Accessibility Accessibility the sundial and parterre. Increase the width of the paths to southeast side of the lake and the northwest of the existing toilets. Construct a DDA compliant surface existing drinking fountain near En no. 7. Construct a path between Entrances stile opening at the school crossing the gardens loop path and the ne toilets. Provide an accessible drinking	Remove the narrow asphalt path between the sundial and parterre.	
High			Increase the width of the paths to the southeast side of the lake and the northwest of the existing toilets.	
			Construct a DDA compliant surface to the existing drinking fountain near Entrance no. 7.	
			Construct a path between Entrance no. 6 stile opening at the school crossing to link the gardens loop path and the new public toilets.	
			fountain/bottle refill tap near entrance no.	
		Heritage and Art	Install additional interpretive signage describing Guilfoyle's design philosophy, plant names and horticultural features.	

## Warrnambool City Council

Upgrade Projects – Botanic Gardens				
		Gardens and	Link Swan Reserve and the Botanic Gardens through the provision of signage at both the gardens and Swan Reserve,	
		Landscaping	Add additional planting of low shrubs within the garden beds particularly under groups of existing trees.	
		Infrastructure	Install seating under selected trees, avoiding palms and pine trees.	
			Install picnic platforms.	
		Connectivity and Wayfinding	Design and install wayfinding signage to Russell's Creek Walking Trail and to Swan Reserve.	
			Design and install information at entrances no. 1, 5, 6 and 8 to provide a site map and indicate walking distances/times to other destinations near the gardens.	
Medium	2021 - 2023	Accessibility	Install tactile bands on the footpath at the corner of Botanic Road and Queens Road.	
		Heritage and Art	Implement a program to design and install sculptures/artworks throughout the gardens.	
			Retain some sections of the limestone edging to the asphalt pathways as a heritage feature.	
			Retain and refurbish the giraffe swing.	
		Play	Design and develop sensory and nature play areas.	

The upgrade projects that are part of Great South Coast Regional AFL, Cricket and Netball Strategy 2019 are included in the table below. These projects are expected to be completed in 2020 with a total expenditure of \$3.5 million.

Upgrade Projects – AFL, Cricket & Netball		
Open Space	Expenditure	
Allansford Recreation Reserve	183,000	
Bushfield Recreation Reserve	233,000	
Davidson Oval	173,000	
Dennington Recreation Reserve	433,000	
Mack Oval	23,000	
Merrivale Recreation Reserve	73,000	
Reid Oval	323,000	
Walter Oval	173,000	
Brierly Reserve	183,000	
Harris Street Reserve	50,000	
Jetty Flat Reserve	50,000

Jones Oval	150,000	
Warrnambool Stadium (Outdoors)	1,500,000	
Total	\$3,547,000	

#### **Growth Projects**

The growth projects listed in the table below are solely for the creation of new assets as part of the Open Spaces portfolio. There is currently one new growth project for Play Spaces.

Growth F	Growth Projects – Play Spaces				
Year	Name of Play Space	Classification	Action		
2019/20	Victoria Park Central/Hopkins	2	New play space (in line with RTOS of Victoria Park East & West)		

#### **Condition Forecasting – Assessed Component**

Although knowing the current condition is important, a component is likely to remain in a good to very good condition for the next 10 years. While critical components will be proactively maintained to ensure the condition is kept within a defined standard. The following figure shows the forecasted condition (if the 'deferred' is addressed) over the next 15 years assuming that the components are replaced/renewed when required – the black line indicates the weighted average of condition and replacement cost.

### **Component Risk Matrix**

A component risk score is a measure of the consequence of failure against and the likelihood of failure. The table below shows the proportion of the Open Spaces components by their GRC and risk score in a risk matrix. It shows that approximately \$248K of components are at extreme risk and \$371K are at high risk.

WARRNAMBOOI

## **Asset Management Plan**

## Warrnambool City Council

Risk Consequence / Likelihood	Unlikely (1)	Possible (2)	Likely (3)	Probable (4)	Almost Certain (5)
Catastrophic	Medium (5)	High (10)	High (15)	Extreme (20)	Extreme (25)
(5)	-	-	-	-	-
Major	Medium (4)	Medium (8)	High (12)	High (16)	Extreme (20)
(4)	\$1,294,375	\$2172,192	\$26,584	\$108,720	\$248,400
Moderate	Low (3)	Medium (6)	Medium (9)	High (12)	High (15)
(3)	\$4,225,740	\$1,085,112	\$462,457	\$236,015	-
Minor	Low (2)	Medium (4)	Medium (6)	Medium (8)	High (10)
(2)	\$407,877	\$62,711	\$84,187	\$9,729	-
Insignificant	Low (1)	Low (2)	Low (3)	Medium (4)	Medium (5)
(1)	-	_	-	-	-

#### **Investment Scenario**

As seen within the figure below, over the next 15-year period (between 2020 and 2034) an estimated \$63.1 million is required (\$4.2 million on average per year) to address all expenditure requirements. As the total allocated budget for the next 15 years is \$34.2 million if Council addresses all condition-based shortfalls and completes the upgrade projects an additional \$28.8 million will be required.

#### **Improvement Actions**

The key actions resulting from this Open Spaces Asset Management Plan are:

#### Data

- 1. Review the 11 Open Spaces sites where the subcategory (local, municipal, neighbourhood or regional) is not known and update with the correct subcategory
- 2. Review and update the current component references and components. In particular:

#### Warrnambool City Council

- a. Review criticalities of component references appearance, consequence and safety
- Review the list of components that are included within future iterations of the AMP
   Complete condition assessments of the play space sites to capture the assets and current condition
- 5. Review the list of components that have been identified as 'extreme risk'
- 6. Data needs to be continuously updated to provide confidence in the long-term planning. The following tasks are recommended:
  - a. Update data form with completed works
  - b. Regular staff inspections
  - c. Three-year rolling condition surveys targeting high importance areas
- 7. Review the current PQS statements and determine if they meet Council's requirements in terms of functionality, performance and compliance
- 8. Complete valuations for all 193 Open Space sites or include the valuation information in the next iteration of this AMP
- 9. Obtain quotes to complete the list of upgrade and growth projects to ensure accurate financial projections

#### People

- 10. Identify who is responsible for managing and maintaining the Asset Management Plan
- 11. Confirmation of roles and responsibilities for Asset Owners, Asset Maintainers and Service Managers

#### Processes

- 12. Develop levels of service for Play Spaces based on the provision, development, operations, levels of usage and servicing and maintenance requirements by hierarchy level
- 13. Review and update the maintenance levels of service for Parks, Gardens and Environment
- 14. Review the list of components that have been identified as extreme risk
- 15. Implement the 80/80/20 asset management objective over the next three years
  - a. 80% of the work completed is planned
  - b. 80% of the works program is driven from the planning process
  - c. 20% of the asset register is updated, maintained, improved and changed every year
- 16. Review the assumptions adopted for determining the operational and maintenance budgets or in future iterations of this AMP include Council's operational and maintenance budgets.

#### Systems

17. Consider further implementation and potential integrations e.g. uploading works history data into the SPM Assets database to better inform future decisions based on historical data and decisions

Warrnambool City Council

Warrnambool City Council

## **1** Introduction

#### 1.1 Purpose

Warrnambool City Council (Council) engaged SPM Assets Pty Ltd (SPM Assets) in December 2019 to work in a collaborative approach to improve the supporting documentation associated with sound asset management, which includes the preparation of Asset Management Plan (AMP) for the Open Spaces sites.

An Open Space has been defined as publicly owned land set aside for leisure, recreation and nature conservation purposes. It includes pockets of natural landscape within the urban area, sports reserves, and areas of high scenic, cultural or conservation value.

The purpose of this Open Spaces AMP is to provide a robust planning process to facilitate the delivery of services through effective provision and management of Council's Open Spaces assets. The AMP is based on evidence, service requirements, risk management principles and has been aligned with ISO 55000. It documents asset management practices and procedures that are being implemented by Council in managing the portfolio and records how assets are being managed effectively from a whole of life perspective to deliver the best outcomes to all stakeholders in the most cost effective manner.

This AMP demonstrates proactive management of assets, records the current and future quality shortfalls and lists the projects and initiatives required to address the shortfalls in a way that is affordable and delivers the services required by Council. The AMP is used as a tool to provide information that decisions can be based on – this is an evidence-based asset plan. It also addresses compliance with regulatory requirements and communicates forecast shortfalls or surplus in funding used to provide the required levels of service.

Objectives of the Asset Management Plan are to:

- 1. Analyse the existing asset data
- 2. Provide recommendations for any data cleansing opportunities identified
- 3. Provide recommendations on best practice asset management practice to manage Council's current assets
- 4. Alignment of assets to Service Needs, which was completed as part of the workshops in March 2020, to identify service planning gaps
- 5. Address functionality needs, compliance requirements for current users and potential future use, asset criticality and alignment with service delivery
- 6. Address changes to future demand
- 7. Provide a lifecycle management plan
- 8. Address the risk management and criticality of assets
- 9. Articulate all tasks and responsibilities associated with managing and maintaining the asset portfolio
- 10. Provide a long-term financial forecast integrated into a Long Term Financial Plan

#### 1.2 Background

Council first licenced the SPM Assets software application in April 2014. Council undertakes cyclic visual condition assessments and manages all Open Spaces assets using the SPM Assets software application. Since then SPM Assets has been engaged by Council for several projects since then

#### Warrnambool City Council

including completing condition assessments and the development of maintenance plans and 5 year works programmes.

On 5 March 2020, a workshop was held between SPM Assets and Council representatives to discuss the current and future service specific requirements for Open Spaces. The attendees included:

- > Manager Infrastructure Services
- > Acting Coordinator Strategic Assets
- > Team Leader Parks, Gardens and Environment

Attachment 5.5.1

- Coordinator Municipal Operations
- Service Manager
- Engineer

#### 1.3 Alignment with ISO 55000

ISO 55000 is a series of international standards that have been created by the International Standard Organisation (ISO) for the ongoing management of physical assets. These standards have been developed from the previously published PAS 55 standards which were developed in 2002-2004 and edited in 2008.

The ISO 55000 suite includes three standards:

the hierarchy of plans and processes is essential -

remembering that the ISO is more about

implementing a process rather than writing an AMP

Know your reason why - what are the

services being delivered through the

Policies and objectives signed off by the governing body will make the process

- the AMP is the output of the process:

assets

work

 $\geq$ 

 $\geq$ 

- ISO 55000 overview, principles and terminology
- > ISO 55001 management system & requirements
- ISO 55002 guidelines on the application of ISO 55001

Important considerations:

- To effectively govern an organisation, the governing body needs assurance that their assets are well managed
- Leadership and commitment from all managerial levels is essential to successful asset management
- "What to do" rather than "How to do it" (IIMM, IPWEA/NAMS Practice Note 3 and NAMS Property manual provide the guidance on how to effectively manage the assets)
- Your organisation determines which assets are to be included
- > It is good business practice and always think about continuous improvement

An asset management system includes:

- Figure 1-1 lists some of the elements of an ISO 55000 Asset Management System. Understanding 1. The asset mgt policy
  - 2. The asset mgt objectives
  - 3. The Strategic Asset Mgt Plan (SAMP)
  - 4. The Asset Mgt Plans implemented in:
    - Operational planning and control
    - Supporting activities
    - Control activities
    - Other related processes

Figure 1-1 Elements of an ISO 55000 Asset Management System

#### Warrnambool City Council

- Strategic AMP looking long term and considering capital concepts through to disposal
- AMPs can also be longer term and more aligned with a specific service being delivered and can focus more on maintenance and renewal
- Implementation of the AMP and works-programmes all roads lead to the works programme as this is what you do to make a difference
- Evaluate performance and improve processes, systems and data

Furthermore, section 2.5.3.1 of ISO 55000 states:

"An asset management system impacts the whole organisation, including its stakeholders and external service providers, and can use, link or integrate many of the organisation's activities and functions that would otherwise be managed or operated in isolation. The process of establishing an asset management system requires a thorough understanding of each of its elements and the policies, plans and procedures that integrate them. The asset management system requirements described in ISO 55001 are grouped in a way that is consistent with the fundamentals of asset management:

- 1. Context of the organisation (ISO 55001:2014, Clause 4)
- 2. Leadership (ISO 55001:2014, Clause 5)
- 3. Planning (ISO 55001:2014, Clause 6)
- 4. Support (ISO 55001:2014, Clause 7)
- 5. Operation (ISO 55001:2014, Clause 8)
- 6. Performance evaluation (ISO 55001:2014, Clause 9)
- 7. Improvement (ISO 55001:2014, Clause 10)

Council follows the 'asset management system' that the ISO 55000 describes. Therefore, this Asset Management Plan (AMP) summarises the outputs resulting from the process and describes the associated key inputs, assumptions, practices and systems.

#### 1.4 Asset Management Framework

#### 1.4.1 Overview

Warrnambool City Council has stated the following vision as outlined in their Council Plan (2017-2021):

#### To make Warrnambool Australia's most liveable city

The following five objectives support Council's vision:

- 1. Sustain, enhance and protect the natural environment
- 2. Foster a healthy, welcoming city that is socially and culturally rich
- 3. Maintain and improve the physical places and visual appeal of the city
- 4. Develop a smarter economy with diverse and sustainable employment
- 5. Practice good governance through openness and accountability while balancing aspirations with sound financial advice

Specifically, for Open Spaces, Council has the following overarching vision as outlined in the Open Space Strategy:

#### Warrnambool City Council

*Warrnambool will have a high quality, diverse, accessible open space network that reflects community needs and enhances social connection, environmental protection and economic benefit* 

In order to archive this vision, the following principles have been developed to guide the planning and management of the Open Spaces:

- Accessible a variety of open spaces that are accessible to all residents, regardless of age, ability and culture. Residents should have at least one open space within walking distance of their home.
- Adaptable be flexible, multi-use and provide opportunities for passive and active recreation that is responsive to community needs.
- Connected open space corridors and shared trails that improve the connectivity of the network and provide links for walking, cycling and biodiversity movement.
- Diverse provide a variety of experiences and cater for a range of recreational needs.
- Efficient consider adaptability and maintenance in the development and management of open space.
- > Equitable access to open space will be distributed as fairly as possible across the municipality.
- Protective for the environment preserve and enhance areas with environmental values and provide appropriate public access to waterways and coastal environments

#### 1.4.2 Asset Management Objectives

On 2 December 2019, Council adopted the following goals and commitments as part of their Asset Management Policy:

- Asset management will be service driven and will align with the strategic priorities and directions of the Council
- > To achieve and sustain a high level of asset management maturity
- > To achieve certification with ISO 55000, International Standards for Asset Management
- Asset management will be integrated into corporate governance including enterprise planning, reporting and risk management frameworks and practices
- Maximise the value of Council's capital, operations and maintenance expenditures within current revenues, to optimise agreed levels of service, service delivery potential and manage related risks and costs over the entire life of infrastructure assets
- Decommission and dispose of assets that are under-utilised and no longer economically, socially or sustainably viable
- Involve and consult with the community and key stakeholders on determining service standards
- Service delivery assets will be created, acquired, maintained and rehabilitated to enable the organisation to meet its strategic service delivery goals efficiently and effectively
- Service/Asset Management Strategies and Plans will include processes which provide accountability to the community
- Allocate appropriate resources to ensure Asset Management practices can be undertaken and the timely maintenance and renewal of those assets so that 'life cycle' costs are optimised
- Accurately report on all aspects of Councils assets in terms of Operations, Maintenance, Renewal, Upgrade, Expansion and New
- Ensure that the roles and responsibilities of all asset owners, managers and users are well defined and understood. Reinforce and support asset management roles and responsibilities across the organisation at a functional level. The various key roles,

#### Warrnambool City Council

responsibilities and delegations associated with service delivery and asset management is documented in the Asst Management Strategy

- Invest in appropriate and timely asset management training and development program for staff and Councillors as required
- Council will support the implementation of the Asset Management Strategy and foster a strong asset management culture across Council through a cross functional Asset Management Steering Committee

In addition to the above objectives, it is recommended that Council implements the following asset management objectives that are aligned with ongoing best-practice over the next three (3) years:

- 80% of work done is planned If you only react to symptoms, the problems will build up over time to a level that could be too costly to address. The expenditure will be more controllable when you plan and think long term. Recognising there will always be a level of 'reactive works' or ad-hoc works that just can't be planned.
- 80% of the works programme is driven from the planning process. Making good decisions on evidence that's scientifically based rather than making ad-hoc decisions that may only consider part of the organisation's strategies getting this right will provide a greater level of success when competing for annual budgets. Again, recognising that there will always be a level of projects identified outside of the planning process.
- 20% of your asset register is updated, maintained, improved and changed every year. Good decisions require good data - manage the information strategically by targeting efforts in areas that provide key information that feeds into the planning process.

The longer-term value of this solution would be:

- Reduction in the premium paid for reactive maintenance leading to re-allocation of funds to planned works
- Having a more robust planned approach to your works-programme evidence based using scientific methods
- Better knowing and managing current and future risk
- > Having a well-maintained component level asset register with good confidence

#### 1.4.3 SPM Assets' 7 Point Asset Planning Framework

SPM Assets' 7 Point Asset Management Planning Framework involves all areas of business and planning processes and is aligned with ISO55000 and the International Infrastructure Management Manual (IIMM).

Figure 1-2 below illustrates the Framework, which is a service-led planning approach, i.e. it is the health service needs that define the quality standards required now and into the future. The framework is founded on the IIMM principles and is structured to proactively minimise shortfalls by implementing appropriate well thought out asset management strategies. The framework is founded on a culture of continual improvement which focuses on determining the degree of criticality of the assets, to minimise the risk of failure and is based on the following:

#### 1. Know your services

- A mixture of coastal, commercial, industrial, residential, road, rural, township, viewpoint and waterway services.
- 2. Know the assets and costs needed to deliver those services

### Warrnambool City Council

Having a good knowledge of the existing assets provides the planning platform. Realising that the data can have 80% confidence and still be useful, i.e. target the high-quality information management to critical and/or high value assets.

- 3. Know what you need (both now and into the future) Recognising the difference between the Levels of Service and site related Quality Standards. It's about knowing the current standards and what they could be in the future
- and defining and measuring the lowest level.
  Know what's possible asset and non-asset solutions
  Comparing the current situation with the desired levels of service and quality standards
  will identify the current and future shortfalls that need to be addressed. Creating a range
  of 'possible projects' to address the shortfalls moves the process from asset planning to
  project planning and eventual Capital Asset Management.
- 5. Know what to do now (budgets, risks and prioritisation) and what's sustainable over the longer term

Knowing which 'possible project' is more important than another, needs to consider its outcomes after completion, its affordability, and the risks its managing.

 Know your funding options – recognising that the first step is to determine the investment needed to address the current and future shortfalls

Allocation of budgets to funded programmes ensures projects are being funded appropriately and that the renewals funding is specifically used to address replacements and renewals, thus avoiding fiscal surprises.

#### 7. Make decisions and deliver outcomes

Decisions are made every day and the right people should be making the right decisions based on information that they can rely on. This is where the real value of capital asset management is realised, i.e. the organisation has the confidence that it is making the right decisions.

#### Warrnambool City Council

Figure 1-2 SPM Assets' 7 Point Asset Planning Framework

## 1.5 Relationship with Other Planning Documents

The AMP considers the following documents:

- Asset Management Policy 2019
- Council Plan 2017-2021 (2019 revision)
- > Draft Play Space Strategy 2019-2028
- Lake Pertobe Masterplan 2018
- > Open Space Strategy 2014
- > Parks, Gardens and Environment Maintenance Levels of Service 2013
- Risk Management Policy 2015
- Warrnambool Botanic Gardens Masterplan 2017
- Warrnambool City Council Budget 2019 2020

#### 1.6 AMP Structure

The AMP is the output of the asset management planning process. It documents the associated procedures, objectives, policies, standards, drivers, future renewal projects, lifecycle replacement projections and improvement tasks.

The AMP has been written so that any reader can understand how the assets are being considered and managed. Commentaries on renewal theories and the reasoning of renewal and maintenance policies provide the reader with the context or reason why certain practices have been implemented.

## Warrnambool City Council

The AMP is a communication document first and foremost. It summarises the vast information held in the supporting computer systems and provides the reasoning of why maintenance and lifecycle expenditure is needed in the future. The 'nuts and bolts' detail is available directly from the management systems if the reader needs further detail of a specific asset or asset group.

Council's objectives and policies are the primary driver for the asset management process and dictate all aspects of the asset management approach. This document recognises these requirements and uses SPM Assets' 7 Point Planning Framework and software applications as the primary implementation tools. In its simplest form, the asset register is populated, it is analysed, and a program of works is produced based on providing a defined 'level of service'.

Key sections of the AMP are based on the International Infrastructure Management Manual (IIMM) and are summarised as follows:

- > Asset Description summary of assets and current condition
- > Levels of Service specifies the services and levels of service to be provided by Council
- Lifecycle Management how Council will manage its existing and future assets to provide the required services
- > Risk Management applying a risk-based analysis to the lifecycle results
- Financial Summary what funds are required to provide the required services
- Asset Management Practices documenting the practices that are required to maintain best practice in asset management going forward
- > Asset Management Improvement Plan what are the next steps?

Warrnambool City Council

## 2 Asset Description

#### 2.1 Overview

A total of 1,687 visually assessed components have been picked up during the onsite condition assessments of the 193 Open Spaces sites. The Gross Replacement Cost (GRC) of the assessed components has been identified as \$8.4 million. Table 2-1 summarises the number of sites, properties and components for the Open Spaces category.

Table 2-1 Open Spaces – Overview					
Subcategory	No. Sites	No. Property Records	No. Components	GRC	
Local	110	124	245	477,346	
Municipal	26	26	376	3,216,914	
Neighbourhood	29	34	305	1,000,261	
Regional	17	27	679	2,916,670	
Unknown	11	11	82	812,908	
Total	193	222	1,687	\$8,424,099	

Improvement Action: There are currently 11 sites which have not been classified to a subcategory (local, municipal, neighbourhood, regional). It is recommended that these sites are included within the correct subcategory before the next iteration of this AMP.

Improvement Action: It is recommended that Council completes condition assessments of the play space sites to update the Open Space asset register as the total number of components excludes any playground equipment.

#### 2.2 Survey Methodology

#### 2.2.1 Site Assessment

A total of 193 Open Spaces sites have been assessed between 2013 and 2019. Most of the onsite condition assessments have been completed by Council staff using the Mobile application of the SPM Assets software on a tablet PC device. The assessment approach that was implemented, and the SPM Assets software, have been directly aligned with ISO 55000, IIMM, NAMS Property Manual and IPWEA/NAMS Practice Note 3. The condition assessments were conducted to identify the current condition of components, update property level information including capturing any space changes and refurbishments and answering Property Quality Standards (PQS).

#### 2.2.2 Data Model

The data model for the Open Spaces sites has been broken down into grounds and properties so that components can be assigned to a level that work can be carried out e.g. the replacement of the bollards at the Foreshore Reserve grounds.

This AMP focuses on Open Spaces owned or managed by Council and includes the following assets:

- Fences
- > Art features including bollards, flagpoles, monuments and sculptures
- > Hard courts

#### Warrnambool City Council

- Play equipment including cricket, ovals and nets
- Roadside furniture
- Sprinklers (irrigation)
- Turf & garden beds

The following assets have been excluded from this AMP:

- Tree surrounds
- > Seawalls/breakwater
- Buildings included within the Building AMPs for Community Facilities, Corporate & City Growth and Infrastructure
- Infrastructure/drainage included within the Drainage AMP

Improvement Action: These assets will be reviewed and may be included in future iterations of this AMP. Any projects associated with these assets will be included within the relevant board in the SPM Assets Programs application.

#### 2.3 Property Level Information

#### 2.3.1 Valuations

Council currently does not hold any valuation information in the SPM Assets software. It is recommended that Council either completes valuations of its Open Spaces assets or includes this information in the next iteration of this AMP.

Improvement Action: It is recommended that Council completes valuations of all Open Spaces assets prior to the next iteration of this AMP.

#### 2.3.2 Condition Grade Index by Subcategory

#### Definition

The Condition Grade Index (CGI) is the average condition grade of assessed components weighted by their Gross Replacement Cost (GRC). A low CGI e.g. 1.5 means that the components have been assessed to be in good to very good condition whereas a high grade such as 2.3 means that the components are mainly in a poor to very poor condition. The overall CGI for the Open Spaces assets is 1.60 which indicates that most of the Open Spaces are in a good condition.

#### Result

Table 2-3 lists the number of Open Spaces assets by subcategory for each of the CGI ranges and suggests that 73% of the assets are considered to be in either a good or very good condition and only 5% of Open Spaces assets have a CGI greater than 2.6.

Table 2-2 CGI of Open	Spaces					
Subcategory	CGI Ranges					
	<- Very Good		Very Poor ->		Total	
	1.0-1.4	1.4-1.7	1.7-2.2	2.2- 2.6	>2.6	
Local	20	8	20	14	6	68

# Warrnambool City Council

Table 2-2 CGI of Open Spaces						
	CGI Ranges				Total	
Subcategory	<- Very Good Very Poor ->					
	1.0-1.4	1.4-1.7	1.7-2.2	2.2- 2.6	>2.6	
Municipal	8	5	5	4	-	22
Neighbourhood	10	2	9	3	1	25
Regional	5	3	3	1	-	12
Unknown	1	1	2	1	-	55
Total	44	19	39	23	7	132
Proportion	33%	14%	30%	17%	5%	100%

Improvement Action: The total number of sites where a CGI has been calculated is 132. While there are 193 sites included in the Open Spaces, 61 sites have been excluded from the CGI calculations as these sites have no components. It is recommended that these sites are assessed to ensure that all relevant components have been captured.

#### 2.4 Description of Components

#### 2.4.1 Component Groups and Types

Table 2-4 provides a breakdown of the number of components by subcategory for the Open Spaces sites. A total of 150 unique components have been assessed that identify 1,687 assets, i.e. a component can have multiple assets within a property.

Table 2-3 Subcategory Component Breakdown				
Subcategory	No. Components	Proportion (%)		
Local	245	15%		
Municipal	376	22%		
Neighbourhood	305	18%		
Regional	679	40%		
Unknown	82	5%		
Total	1,687	100%		

The Gross Replacement Cost (GRC) of the assessed components has been identified as \$8.4 million. Table 2-5 and Table 2-6 summarises the GRC by component group and component type respectively. The Open Space and Exterior components have the highest GRC of \$6.7 million and \$1.1 million respectively while the Playgrounds components have the lowest GRC of \$17K.

Table 2-4 GRC by Component Group

#### 2.4.2 Condition

≻

≻

>

Overall the assessed components of the Open Spaces sites are in a very good condition, in which 56% of components in very good condition (by value - \$4.7 million) and 33% of components in good condition (by value - \$2.8 million) as illustrated in Figure 2-1. A further 8% are in moderate condition (by value - \$633K) while 4% of components are in a poor or very poor condition (by value - \$296K).

The \$296K of components in poor or very poor condition largely relates to the following component groups:

Figure 2-1 Condition Profile of Open Spaces

#### Warrnambool City Council

The component criticality criteria established within the SPM Assets Reference library provides a consistent framework to prioritise works at a component level and aggregate up to a component group and project level. It is based on the following criteria:

- Consequence of Failure the impact failure of a component will have on the asset overall and business continuity
- Occupational Health and Safety the importance of a component in relation to the health and safety of users and occupants of the site or asset
- > **Appearance** the importance of a component appearance

A component is classified as critical by considering the following criteria:

- > Consequence of Failure of medium-high to high criticality
- > Occupational Health and Safety of medium-high to high criticality
- Appearance of high criticality

In total there are 429 components that fit the above criteria with a total GRC of \$3.7 million. Table 2-7 lists the critical assets by component group and type, the number of components and GRC.

A further 3% are in moderate condition (by value - \$27K) and less than 1% are in a poor or very poor condition (\$4K).

Figure 2-6 Condition Profile of Unknown

#### 2.5 PQS Assessment Results

The functionality and performance of the sites within Council's Open Spaces portfolio has been reviewed and measured using the Property Quality Standard (PQS) process, described in IPWEA/NAMS Practice Note #3. Adopting the PQS mechanism enables the measurement of 'level of service' statements and identification of backlogs. Future scoped projects would address these backlogs and as such, the PQS mechanism will provide a way to prioritise works.

Each PQS question has an 'answer definition' that allows the surveyor to determine the level of service, which will in turn produce a cost if the question fails the standard. This means that the Council can vary the standards so that the cost to achieve a desired standard can easily be modelled.

Applying PQS to properties and keeping the data up to date will identify quality shortfalls that will need to be addressed through asset and non-asset initiatives.

Table 2-12 lists the PQS Statements that have been created to determine the compliance, functionality and performance of Council's Open Space assets.

Warrnambool City Council

Table 2-12 PQS Results by Category						
PQS Category 1	PQS Category 2 Statement					
		Are regulatory signs legible?				
		Are there enough bins?				
		Are there hidden safety issues?				
		Are wayfinding signs legible?				
		Drinking taps are adequate?				
Open Spaces	Quality of Reserve	Is lighting adequate?				
		Is shade adequate?				
		Is the level of maintenance provided adequate?				
		Play equipment is adequate?				
		Seating is adequate?				
		What percentage of the park trees appear to be healthy?				

Improvement Action: It is recommended that PQS assessments are carried out across all 193 Open Space sites to identify potential functionality and performance shortfalls. It also recommended that costs are calculated to rectify any issues identified by the PQS assessments.

Warrnambool City Council

# **3** Levels of Service

#### 3.1 Overview

Understanding the desired levels of service of the Open Spaces portfolio is fundamental in order to match assets to service delivery objectives. These asset related requirements are documented in a 'Level of Service Statement' which should align with the organisation's objectives.

The factors affecting levels of service of any organisation can be broken into three broad categories.

- 1. **Customer requirements**: The expectations of the customer served by the organisation through the utilisation of the asset.
- 2. **Legislative requirements**: The mandatory provisions or standards set by local, national or international bodies that govern asset utilisation, particularly in terms of various issues affecting the general public.
- 3. **Strategic goals**: Broad framework-based management directives consistent with the organisation goals and values stated in policies, objectives, and the user asset management plans

The Level of Service statement is the basis for the assessment of the portfolio and the long-term financial planning of operational and capital expenditure. According to this statement, the asset plan targets expenditure to address immediate shortfalls (deferred renewals / backlog) and future requirements as planned expenditure.

The key principles are: **Strategic Objectives** Level of Service Statements Customer Technical Tactical **Operational Implementation** Strategic Measures Measures Measures Measures Targets Targets Targets Targets Level of Service Shortfalls Identified Internal/External Strategy Consultation with What to do... Stakeholders Iterative Process Programme Guidance & Budgets.. Project Expenditure. Yes No Implement Achievable?

Figure 3-1 Level of Service Process Flow

## Warrnambool City Council

- Clearly defined strategic objectives
- In support of the strategic objectives, an understanding of the difference between technical and customer related objectives
- Defined targets
- Statement of how the performance will be measured against the targets
- > Current performance measurement against the level of service to identify the shortfalls

#### 3.2 Alignment with Council's Level of Service Measures

In the 'service-led asset planning' context, the assets are in place to provide for the people that deliver the service. For example, to deliver health and wellbeing services to the community, a local government needs to provide Open Spaces sites. This section defines the services being provided by the organisation.

Establishing both customer and technical level of service standards is a challenging process that often takes several years to complete. Council will need to undertake customer surveys to identify the community's expectations and use this information to establish the 'customer' level of service standards for the provision of community services associated with Open Spaces.

The customer level of service standard identifies the type and number of Open Spaces sites required to deliver community services and achieve strategic objectives, whereas the technical level of service standards identify the quality of the individual Open Spaces sites considering function, condition and energy efficiency as examples.

#### 3.3 Customer Levels of Service

#### 3.3.1 Open Spaces Levels of Service

As outlined in Council's Open Space Strategy, the following Table 3-1 summarises the current strategic levels of service. The open space network was assessed on five principles (provision, accessibility, connectivity, diversity and protection) to determine if the network meets the open space vision. For further details of how each of the twelve planning precincts meet the same criterion, refer to the Open Space Strategy 2014.

Table 3-1 Strategic Levels of Service							
Open Space Principle	Criteria	Result	Explanation				
Provision	Meets or exceeds industry standards or benchmarks for proportion of area as open space and per capita provision (overall, for recreation and for sport).	Meets or exceeds assessment criteria	Overall provision of open space in Warrnambool is very good at 32.5 hectares per thousand people. The per capita rate of 14.2 hectares per thousand people for open space with a recreation function compares well with industry benchmarks, as does active open space at 3.5 hectares per thousand people.				
Accessibility	Neighbourhood or above open space within 500 metres or local open space within 300 metres of	Some gaps in meeting the assessment criteria	Accessibility to open space in general is very good in Warrnambool with over 95% of properties in residential areas being within a 'walkable' 500m of a				

# Warrnambool City Council

Table 3-1 Strategic Levels of Service

Criteria

#### Warrnambool City Council

**Open Space** 

Principle	Criteria	Result	Explanation
Environmental Protection	Protection of known environmental features and proportion of open space with conservation as the primary function.	Some gaps in meeting the assessment criteria	At present 42% of open space by area has conservation as its primary function, consisting of 443 hectares of open space. Recent biodiversity mapping undertaken for Warrnambool indicates that most sites of high environmental value currently fall within the open space network and are being actively managed for their conservation value.

#### 3.3.2 Play Space Levels of Service

Council previously used the following as a guide as outlined in the Warrnambool City Council Planning Scheme 56.05-2 Clause 13 for the location of play spaces:

Play spaces within 400 metres of 95% of all residents.

However, this has not been a reliable standard of measure as some place spaces service the entire Warrnambool City and beyond and have a greater walkable catchment of 400 metres e.g. Lake Pertobe. This statement has also resulted in the over production of play spaces at a similar level. As Council owns or manages 60 play spaces with a limited renewal budget it has become difficult to maintain all existing play spaces within a 20 year lifespan, excluding the construction of any new play spaces.

As recommended in the Draft Play Space Strategy, Council needs to adopt a level of service in regards to play spaces which should consider the following factors:

- > Provision the number, distribution and scale (hierarchy) of play spaces provided
- Development the components and opportunities to be provided in play spaces according to the hierarchy in which they fit
- Operations the standards to which the different levels of play spaces are maintained and operated, taking into account resource availability

Other factors that will need to be considered in determining the levels of service for play spaces includes:

- Level of usage
- > Servicing and maintenance requirements by hierarchy level

Improvement Action: It is recommended that Council develops levels of service for Play Spaces based on the provision, development, operations, levels of usage and servicing and maintenance requirements by hierarchy level.

#### 3.3.3 Future Strategic Levels of Service

The following section lists a number of factors that may influence Council's future planning decisions in regard to the management of its Open Space network.

#### **Population Growth**

## Warrnambool City Council

As the population of Warrnambool City is expected to grow over the next 16 years, from a forecast of 36,575 in 2020 to 46,210 in 2036 (Source: .id the population experts), there will be greater demand for access to the Open Spaces assets provided by Council. Figure 3-2 below illustrates the expected population growth of Warrnambool City over a 20-year period (2016-2036).

Figure 3-2 Forecasted Population for Warrnambool City (2016-2036)

As stated in the Community Services and Infrastructure Plan (CSIP) 2012, there is expected to be an increase (34%) in the number of people across all age groups. Table 3-2 lists the expected changes in the age groups of Warrnambool City between 2016 and 2036.

Table 3-2 Warrnambool City - Total Persons <sup>1</sup> between 2016 and 2036									
Age group	2016	;	2026	2026		2026 2036		Change between 2016 and 2036	
(years)	Number	%	Number	%	Number	%	Number	%	
0 to 4	2,085	6.1	2,679	6.6	3,053	6.6	968	46.4%	
5 to 9	2,196	6.4	2,696	6.7	3,084	6.7	888	40.4%	
10 to 14	2,080	6.1	2,587	6.4	3,063	6.6	983	47.3%	
15 to 19	2,286	6.7	2,579	6.4	2,993	6.5	707	30.9%	
20 to 24	2,355	6.9	2,504	6.2	2,879	6.2	524	22.3%	
25 to 29	2,315	6.8	2,426	6.0	2,688	5.8	373	16.1%	
30 to 34	1,984	5.8	2,456	6.1	2,724	5.9	740	37.3%	
35 to 39	1,939	5.7	2,522	6.3	2,825	6.1	886	45.7%	
40 to 44	2,069	6.0	2,445	6.1	2,849	6.2	779	37.7%	
45 to 49	2,251	6.6	2,361	5.9	2,807	6.1	556	24.7%	
50 to 54	2,207	6.4	2,343	5.8	2,687	5.8	480	21.7%	
55 to 59	2,182	6.4	2,382	5.9	2,571	5.6	389	17.8%	
60 to 64	2,032	5.9	2,259	5.6	2,454	5.3	422	20.8%	

 $^{1}% \left( \text{Source: .id, the population experts}\right)$ 

# Warrnambool City Council

Table 3-2 Warrnambool City - Total Persons <sup>1</sup> between 2016 and 2036								
Age group (years)	2016 2026		2026 2036		Change betwee and 20			
(years)	Number	%	Number	%	Number	%	Number	%
65 to 69	1,893	5.5	2,147	5.3	2,384	5.2	491	25.9%
70 to 74	1,451	4.2	1,920	4.8	2,176	4.7	725	50.0%
75 to 79	1,098	3.2	1,660	4.1	1,915	4.1	817	74.4%
80 to 84	857	2.5	1,181	2.9	1,521	3.3	663	77.4%
85 and over	964	2.8	1,175	2.9	1,537	3.3	573	59.4%
Total	34,243	100	40,323	100	46,209	100	11,966	34.9

Therefore, with the expected increase in the population Council will need to provide more recreational opportunities and open spaces for all age groups. As Warrnambool is also the largest regional city in southwest Victoria, there will also be an increase in the number of visitors to Warrnambool's open spaces network.

The expected increase in the population will result in increased demand for access to Open Spaces assets and therefore Council will need to adopt a strategic level of service to ensure that its assets are well-designed, accessible, sustainable, adaptable and safe.

#### **Housing Densities**

According to the Warrnambool City-Wide Housing Strategy there is expected to be an increase in the housing density in many areas of Warrnambool. An increase in housing densities will result in greater demand for open spaces as places for residents to relax, recreate and produce food.

#### Participation of Informal Exercise

Local and national participation trends have suggested that there is an increase in the popularity of informal exercise and recreational activities such as walking, jogging, cycling and other fitness-related activities. Higher participation in informal exercise will cause more residents and visitors to rely on the existing open spaces.

#### **Environmental Awareness in the Community**

As the majority of the natural environment in Warrnambool has been highly modified, with less than 10% of native vegetation remaining, the open space network plays an important role in protecting the remaining vegetation. The open space network also provides sites for reintroduction of beneficial habitat and biodiversity corridors.

Community attitudes are changing with an increase in environmental awareness. Demand has increased for non-motorised transport along with access to well-connected off-road trails and increased interest in community gardens and using local food produce. Demand for these resources and activities should be monitored and new sites only supported where demand comes from the grass-roots level.

Climate change is also expected to be an issue faced by all Councils and will impact the lifestyle enjoyed by the local community as there will be new challenges such as more extreme weather patterns, more serve storm surges and coastal erosion.

#### Warrnambool City Council

There are several benefits of open spaces in terms of community health and wellbeing including:

- Supporting childhood development through unstructured play
- Enhanced social connection
- Access to organised sport
- A place for informal exercise
- > Improved mental and physical health
- Relief from the built environment
- Spaces to relax, reflect and unwind
- > A setting for socialising and volunteerism
- Local identity and civic pride
- > A place to express and experience creativity
- > Opportunities to connect with the natural world
- Provision of community facilities

These benefits are maximised through providing a diverse range of open spaces and recreational opportunities close to where people live, work and recreate.

#### 3.4 Technical Levels of Service

#### 3.4.1 Legislative Requirements

There are several local, state and federal legislation, standards and policies that influence the planning and management of Open Spaces including:

- Building Code of Australia
- Disability Discrimination Act 1992
- Environmental Protection Act 1970
- Flora & Fauna Act
- Heritage Age 1995
- Local Government Act 1989
- Marine & Coastal Act
- Occupational Health and Safety Act 2004
- Road Management Act

#### 3.4.2 Critical Assets in a Poorer Condition

A further generic quality standard can be applied to all Open Space sites that relates to the condition of critical components. In order to meet the quality standard an Open Space site will be required to have all critical components in a moderate condition or better. No functional or compliance targets have been included in this standard.

Table 3-3 summarises the results of applying the Quality Standard based on the definition described above. See APPENDIX B for detailed results relating to each site.

All subcategories have critical components in poor and very poor condition as shown in Table 3-3 below. A total of 43 critical components have been assessed to be in a poor or very poor condition with a replacement cost of \$632K. The most significant category in terms of critical components identified to be in a poor or very poor condition by replacement cost are Municipal at \$434K and Regional at \$52K.

Table 3-3 Result of Quality Standard for Critical Components						
Subcategory	No. Critical Components		mponents in Poor or Poor Condition			
	components	No.	GRC			
Local	63	2	10,723			
Municipal	116	19	434,090			
Neighbourhood	79	11	98,33			
Regional	146	9	52,228			
Unknown	25	2 36,514				
Total	429	43	\$631,891			

#### 3.5 Maintenance Levels of Service

The maintenance of Open Spaces is the responsibility of the Parks, Gardens and Environment department within Council. The maintenance levels of service are broken down into five key areas: horticultural environment, road reserve responsibilities, built environment, cleaning operations and miscellaneous. The specific levels of service are included within Council's Parks, Gardens and Environment Maintenance Levels of Service October 2013 document.

Improvement Action: It is recommended that Council reviews and updates the maintenance levels of service for Parks, Gardens and Environment to reflect the current maintenance requirements as the last version was adopted in October 2013.

Warrnambool City Council

# 4 Lifecycle Management

## 4.1 Overview

The lifecycle management strategy is to maintain the assets to a level that meets the quality standards and asset management objectives in a way that minimises risk. Council achieves this through the following traditional lifecycle management process:

- Renewal and replacements informed by the lifecycle analysis reports from the SPM Assets software. The Project-Planning module would be used to apply levels of service standards at each site resulting in planned-projects. Moving from a component level analysis to a project level decision making process. This includes resulting risk ratings to prioritise the timing of future projects.
- Upgrades the resulting projects that have been included within the 'Open Spaces Renewal/Replacement Board – 2020' board in the SPM Assets Program application. These projects are based on Council's policies and budgets.
- Growth these are likely to be driven by the 'future demand' analysis and at this stage, and simply list any new Open Spaces sites or extensions that are identified in current Council planning documents. These projects are included in the 'Open Spaces Growth and Improvement Board – 2020 AMP' board within the SPM Assets Program application.
- Operations servicing and inspections of essential services driven by the Building Code of Australia, and annual cost components such as power usage and cleaning.
- Maintenance Council developed preventative maintenance regimes plus reactive maintenance budgets – both balanced with lifecycle renewals to optimise the overall cost of caring for the Open Space.
- Disposals consider implementing a business rule for disposals plus current Council strategy documents that may identify future strategic disposals. The business rule could be for example if the calculated renewal costs plus maintenance and operational costs (over 10 years) are more than 30% of the Capital Replacement Value of the Open Space asset, then consider the asset for disposal or major refurbishment.

Section 4.2.1 details the methods in which an asset's lifecycle is calculated within the SPM Assets database.

## 4.2 Renewal and Replacements

#### 4.2.1 Predictive Deterioration Models Applied

The data collected through the condition survey process has been analysed using 'age', 'condition' and 'condition-age' based analysis to determine the likely remaining life of each component. The analysis considers the parameters illustrated in Figure 4-1 and is largely influenced by the base life range, the KPI score, age and the assessed condition grade. It is important that the analysis theory as detailed below is understood.

- Condition Based: An asset has a base life range, i.e. it's expected to be fully renewed or totally replaced at some point within this range. The calculated base life is determined by applying the resulting KPI score to the base life range, i.e. if the asset is critical then the calculated base life is likely to be closer to the lower end of the range whereas if it is non-critical, then it will be closer to the upper end of the range.
- Condition-Age Based: the remaining life generated by the condition-age algorithm is influenced by the age of the component, i.e. if an asset has been assessed to be in a very

## Warrnambool City Council

good condition and is old then the remaining life is calculated from the end of the condition grade 1 band. This significantly influences the remaining life of assets assessed to be in a very good and good condition. This algorithm has been applied to various structural and mechanical services assets.

Age Based: - Determines the remaining life considering the base life range, criticality and component age. Condition or the assessed remaining life is not considered. This can be the most effective algorithm for plant and equipment style components. This has been applied to the mechanical, fire, lift and electrical components due to the challenges inherent with assessing an accurate condition grade. The likely replacement year equals the construction year plus calculated base life. For example, a component that was installed in 1998 with a 15-year calculated base life would most likely require replacement in 2013. As it is currently 2020, it would be 7 years overdue for replacement. However, if the component is non-critical, this could be acceptable, and it could be allowed to run to failure.

Of the 1,687 components for the Open Spaces sites in the SPM Assets database, the following breakdown of deterioration models has been applied:

- > 1,624 components use the Condition based model
- 62 components use the Condition-Age based model
- > 1 component uses the Age based model

Figure 4-1 Principles of the predictive model

#### 4.2.2 Determining Backlog Renewals

The backlog renewal position has been determined based on any component that has a calculated year of replacement that is prior to 2020. There are a large number and value of assets that are in a backlog position based on this rule, which is summarised in Table 4-1 by component group and component type. The total calculated backlog for the Open Spaces is \$532K, with the majority being associated with Exterior & Sundries (\$253K) and Open Space (\$160K) component groups. The majority of the assets with a calculated year of replacement prior to 2020 are those that were

# Warrnambool City Council

assessed as being in a poor or very poor condition, while some are in good or moderate condition but have a short overall base life. Refer to APPENDIX C for details relating to each category (local, municipal, neighbourhood, regional, unknown).

Table 4-1 Potential Backlog by Component Group and Type							
Component Group	Component Type	No. of Instances	Calculated Backlog				
	Misc.	3	3,600				
Exterior & Sundries	Paving	3	248,400				
	Sundries	4	1,600				
Interior Finishes	Floor Finishes	1	83,460				
	Access	6	68,420				
	Bins & Surrounds	3	500				
	Electrical	5	38,472				
Open Space	Fences & Walls	1	11,400				
	Furniture	3	1,110				
	Roads and Pavements	4	39,935				
	Signs	1	550				
Services	Electrical	4	34,377				
Services	Sanitary Plumbing	1	180				
То	tal	39	\$532,003				

#### 4.2.3 Portfolio Renewal Forecast

Figure 4-2 shows the forecast 15-year renewals expenditure required for all Open Spaces subcategories, including the possible backlog. It shows that over the next 15 years \$9.3 million is required (an annual average of \$617K) to address both the backlog (a total value of \$532K as detailed in Section 4.5.2), and annual lifecycle expenditure. The three highest peaks of expenditure occur in 2027, 2028 and 2031. Refer to APPENDIX D for a detailed breakdown of the renewal expenditure over the next 15 years by category (local, municipal, neighbourhood, regional, unknown).

Improvement Action: An additional \$350K has been added to the 15-year lifecycle forecast to accommodate the replacement of the playground equipment. As part of the Improvement Plan, it is recommended that Council completes assessments of the play spaces across the Open Space portfolio to update the asset register and determine the lifecycle renewal and replacement program of these assets.

Figure 4-2 Renewal Forecasts over 15 years for All Subcategories

It is important to recognise that the lifecycle projections are the raw results from the predictive model in the SPM Assets software and will need to be further modelled to determine pragmatic projects that align with the available funding.

#### 4.2.4 Condition Forecasting

Although the Condition Grade Index (CGI) provides a good measure at the time of survey, the condition grades will change over time as components deteriorate further and are replaced. While critical components will be proactively maintained to ensure the condition is kept within the defined standards, other components have a reactive maintenance requirement meaning that they will be repaired or replaced when they fail.

Figure 4-3 shows the forecasted condition over the next 15 years for the Open Spaces assuming that the components are replaced/renewed when required. It shows that replacing all components at their forecasted renewal date is required to maintain the CGI at the current levels. Figure 4-4 shows a 'worst-case scenario'; the forecasted condition assuming no renewals or replacements of components for the same period of 15 years.

The black line indicates the overall CGI of the assets at that point in time based on the condition, assigned base life, criticality factors and the unit rate of the individual component. The coloured sections from green to red represent the proportion of components in the five condition grades.

# 4.3 Upgrades

As outlined in Section 4.1 upgrade projects are based on Council's policies and budgets. Table 4-2 lists the planned renewal projects for Play Spaces over the next 10 years as outlined in the Draft Play Space Strategy 2019-2028.

Table 4-2 Renewal Projects – Play Spaces			
Year	Name of Play Space	Classification	Action
	Pappas Drive	3	Includes upgrades to meet community expectations.
2019/20	Mahogany Gardens	4	Includes upgrades to meet community expectations.
	E Johnson Reserve/Lake Pertobe	1	Includes upgrades to meet community expectations.
	Fletcher Jones Gardens	3	Includes upgrades to meet community expectations.
2020/21	Pecten Avenue Reserve	3	Includes upgrades to meet community expectations.
	Brierly Recreation Reserve	3	Includes upgrades to meet community expectations.

# Warrnambool City Council

Table 4-2 Renewal Projects – Play Spaces			
2022/23	Lake Pertobe Central	1	Includes upgrades to meet community expectations.
2022/23	Breton Street	3	Includes upgrades to meet community expectations.
	Kings Park	3	Includes upgrades to meet community expectations.
2023/24	Bradley/Archibald Street	4	Includes upgrades to meet community expectations.
	Botanic Gardens	2	Includes upgrades to meet community expectations.
	Ponting Reserve	3	Includes upgrades to meet community expectations.
2024/25	Auty Street North Reserve	4	Includes upgrades to meet community expectations.
	Nicholls Drive	3	Includes upgrades to meet community expectations.
2025/26	Jubilee Park	2	Includes upgrades to meet community expectations.
2023/20	Wendy Matthews	3	Includes upgrades to meet community expectations.
2026/27	Laurina Close/Baeckea Reserve	2	Includes upgrades to meet community expectations.
2027/20	Wendy Matthews	3	Includes upgrades to meet community expectations.
2027/28	Hickford Reserve	3	Includes upgrades to meet community expectations.
2028/20	Shirley Grove	3	Includes upgrades to meet community expectations.
2028/29	Natalie Court	3	Includes upgrades to meet community expectations.

Table 4-3 outlines the immediate (to be rectified within the next year) and high (to be rectified within the next 1-3 years) priority projects from the Lake Pertobe Masterplan 2018. These upgrades aim to strengthen the city's reputation as a family-friendly destination for both residents and visitors by improving connections between Lake Pertobe, the CBD and foreshore area, improving access within the reserve, adding to the play opportunities for all ages and abilities, encouraging more people to explore the whole reserve and enjoy the lakeside environment.

Table 4-3 Upgrade Projects – Lake Pertobe				
Priority	Year	Theme	Description	
Immediate	2020	Infrastructure	Investigate feasible options for replacement of the swing bridge feature in Play Area 3.	
Ininediate	2020	Innastructure	Creative and innovative design will be included in all new projects (e.g. wayfinding and signage, shelters,	

# Warrnambool City Council

Table 4-3 Upgrade Projects – Lake Pertobe			
		Design and develop a diverse range of exciting, unique, challenging and innovative play for all ages by designating specific user groups for each play area: Play Area 1 - Youth/Adventure - Ages 12 years plus Play Area 3 - Slides etc All ages/Mixed Area	
	Play Infrastructure	Provide additional challenging adventure play opportunities in Play Area 1.	
		Include additional inclusive play elements and improve accessibility in all Play Areas by removing barriers such as raised timber edges and sand soft fall and replacing with accessible pathways and surfaces, as appropriate.	
	Arts and Culture	Include and share stories about Lake Pertobe's heritage, indigenous culture, stormwater/drainage functions and environmental values through improvements, wayfinding, precinct names and other on-site information.	
	Recreation and Social	Install clear signage at entry points and along pathways, and communicate via other channels available, to indicate where dogs are permitted and not permitted at Lake Pertobe.	
	USC .	Investigate the formation of a Friends of Lake Pertobe group to increase community involvement in the implementation of the Masterplan.	

Table 4-4 outlines the high (to be rectified within the next year) and medium priority (within the next 1-3 years) upgrade projects for the Botanic Gardens as outlined in the Warrnambool Botanic Gardens Master Plan 2017 which aims to guide the development, management and operation and use of the gardens for the next 15 years.

Table 4-4 Upgrade Projects – Botanic Gardens				
Priority	Year	Theme	Description	
		Connectivity and Wayfinding	Construct an elevated walkway to the north side of the Fernery to avoid the Moreton Bay Fig tree's root buttress.	
			Construct a concrete footpath on the northern perimeter (along Botanic Road).	
High	2020		Install boardwalks or flexible surfacing to create accessible and safe paths where tree roots are affecting internal pathways.	
			Design and construct an arbour and new garden beds to Entrance no. 5 (Botanic Road) to improve its sense of arrival	

Table 4-4 Upgrade Projects – Botanic Gardens			
			Remove the narrow asphalt path between the sundial and parterre.
			Increase the width of the paths to the southeast side of the lake and the northwest of the existing toilets.
		Accessibility	Construct a DDA compliant surface to the existing drinking fountain near Entrance no. 7.
			Construct a path between Entrance no. 6 stile opening at the school crossing to link the gardens loop path and the new public toilets.
			Provide an accessible drinking fountain/bottle refill tap near entrance no. 5.
		Heritage and Art	Install additional interpretive signage describing Guilfoyle's design philosophy, plant names and horticultural features.
		Gardens and	Link Swan Reserve and the Botanic Gardens through the provision of signage at both the gardens and Swan Reserve,
		Landscaping	Add additional planting of low shrubs within the garden beds particularly under groups of existing trees.
	2021 - 2023	Infrastructure	Install seating under selected trees, avoiding palms and pine trees.
			Install picnic platforms.
		Connectivity and Wayfinding	Design and install wayfinding signage to Russell's Creek Walking Trail and to Swan Reserve.
			Design and install information at entrances no. 1, 5, 6 and 8 to provide a site map and indicate walking distances/times to other destinations near the gardens.
Medium		Accessibility	Install tactile bands on the footpath at the corner of Botanic Road and Queens Road.
		Heritage and Art	Implement a program to design and install sculptures/artworks throughout the gardens.
			Retain some sections of the limestone edging to the asphalt pathways as a heritage feature.
			Retain and refurbish the giraffe swing.
		Play	Design and develop sensory and nature play areas.

Improvement Action: It is recommended that Council reviews the list of upgrade projects and obtains quotes to complete the projects and works listed above.

Jones Oval	Playing surface improvements	50,000
Warrnambool	Netball court upgrade	1,000,000
Stadium (Outdoors)	Netball court lighting upgrade	500,000
	Total	\$3,547,000

# 4.4 Growth

As outlined in Section 3.4.1, there is expected to be an increase in the future demand for Open Spaces. In order to meet the increased demand, a list of projects were developed during the workshops held between Council and SPM Assets in March 2020 and from Council planning documents. These projects are solely for new assets to be included within the Open Spaces or extensions that have been identified as 'wish list' items as part of Council's strategic planning. Table 4-6 lists the growth projects for play spaces as outlined in the Draft Play Space Strategy.

Table 4-6 Growth Projects – Play Spaces			
Year Name of Play Space Classification Action			
2019/20	Victoria Park Central/Hopkins	2	New play space (in line with RTOS of Victoria Park East & West)

Warrnambool City Council

#### 4.5 Operations Plan

The operational expenditure budget allows for costs associated with the use of the Open Spaces such as salaries and wages, cleaning, security, property management, insurance, council rates, water usage and power usage. Council's existing operations budget for Parks and Gardens has been provided and included in Table 4-7 below. The total annual operational budget is \$291K.

Table 4-7 Council's Operations Budget			
Activity	Adopted Budget		
1013 - Operations	55,800		
1014 - Plant Operating Costs	74,416		
1070 - Management	161,254		
Total	\$291,471		

## 4.6 Maintenance Plan

The current maintenance policy is mainly reactive alongside the routine maintenance of selected services. Council's existing maintenance budget for Parks and Gardens has been provided and included in Table 4-8 below. The total annual maintenance budget is \$3.1 million.

Table 4-8 Council's Maintenance Budget			
Activity	Adopted Budget		
1023 - Maintenance General	44,455		
1101 - Highway Medians Watering	23,771		
1105 - Vandalism Expenditure	30,970		
1153 - Off Street Car Park Maintenance	9,308		
1154 - Power Line Vegetation Clearance	111,616		
1155 - Weed Treatment	166,532		
1162 - Playgrounds - Inspections	40,571		
1163 - Playgrounds - Maintenance & Materials	201,992		
1164 - Sport Facility Infrastructure Maintenance	48,000		
1167 - Storm Damage Response	28,616		
1221 - Litter Collection	174,020		
1283 - Minor Improvements	81,647		
1347 - Fire Hazard Eradication	23,462		
1715 - Planting of Annuals & Shrubs	44,602		
1716 - Care of Shrubs	85,855		
1717 - Garden Maintenance	217,571		
1718 - Grass Mowing Parks & Open Space	1,010,781		
1719 - Grass Watering	67,673		

## Warrnambool City Council

Table 4-8 Council's Maintenance Budget		
Activity	Adopted Budget	
1722 - Care of Grass & Turf	130,590	
1723 - Wetland and Water Features	26,262	
1724 - Edging Kerb & Footpaths	129,838	
1725 - Mowing in Road Reserves	113,083	
2090 - City Centre Renewal Stage 1	130,583	
Irrigation - Reserves	117,430	
Total	\$3,059,228	

## 4.7 Disposals

As outlined in the Draft Play Space Strategy 2019-2028, play spaces may be retired and converted back to open spaces based on the following assessment criteria:

- Unsuitability of the existing site possibly due to a safety issue such as a railway line, very busy road or a court with limited access to surrounding residences
- An over-supply of play spaces in that area possibly due to a high number of local play spaces already in existence or due to the development of a much larger play space in the area that includes the local population within its catchment
- Insufficient funding to replace the equipment as is sometimes the case on public land when committees of management or sports clubs cannot afford to upgrade facilities
- Lack of usage possibly due to a decline in the population in that area or a change in the demographics of that community

In such situations, it is imperative that:

- An assessment is undertaken to determine whether or not there are any actions that could improve usage of the site
- > The community be notified prior to any works occurring and involved in decisions regarding the future use of the site if appropriate
- Wherever possible the site should remain as public open space, even if play space equipment is removed
- > If the site is sold, the funds from the sale are used to improve an existing play space in that general precinct or develop a new play space in that precinct
- Any salvageable play equipment (i.e. in good condition and not past the end of its lifespan) is relocated to another play space within the play precinct if possible

Table 4-9 lists the play spaces that are expected to be disposed over the next 10 years.

Table 4-9 List of Open Spaces Disposal			
Year	Name of Play Space	Action	
2019/20	Victoria Park East	Conversion to open space (in line with new play space at Victoria Park Central/Hopkins)	
	Victoria Park West	Conversion to open space (in line with new play space at Victoria Park Central/Hopkins)

Warrnambool City Council

## 5 Risk Management

#### 5.1 Principles

The Standard AS/NZS ISO 31000: 2009 has been referred to in establishing a Risk Matrix to determine the risk associated with the Open Spaces portfolio. Risks can include financial, environmental, social, operational and health and safety considerations. Typical risks relevant to Council Open Spaces sites are:

- Asset Management
- > Environmental Hazards
- Financial, Funding Fraud
- Customer Services
- Contracting Performance
- Environmental Hazards
- Governance

- Human Resources
- Information Management
- Legislative Compliance
- Planning, Strategy, Growth
- Project / Programme Management
- Public Health & Safety

The following options are available for mitigating risks to reduce the cause, probability or impact of failure:

- 1. Do nothing Accept the risk
- 2. Management Strategies Implement enhanced strategies for demand management, contingency planning, quality processes, staff training, data analysis and reporting, reduce the desired level of service, etc.
- 3. Operational Strategies Actions to reduce peak demand or stresses on the asset, operator training, documentation of operational procedures, etc.
- 4. Maintenance Strategies Modify the maintenance regime to make the asset more reliable or to extend its life
- 5. Asset Renewal Strategies Rehabilitation or replace assets to maintain service levels
- Development Strategies Investment to create a new asset or augment an existing asset
   Asset Disposal / Rationalisation Divestment of assets surplus to needs due to a service
- being determined as a non-core activity or assets can be reconfigured to better meet needs

#### 5.2 Predictive Deterioration Model

The lifecycle replacement model is inherently risk based and therefore can be used as the risk analysis platform. The following factors are considered at a component level:

- > Asset naming convention related to the failure event
- Criticality criteria and the Importance rating of a site (Functional Weighting) the consequence of failure
- Base life range the statistical model that provides a 90% likelihood that the asset will need to be renewed or replaced within the range
- > The predictive model the likelihood of failure
- > The unit replacement rate the cost to mitigate the risk and best aggregated into a project or a procurement

These parameters are used in the following way:

1. To reduce the risk of failures to service delivery

#### Warrnambool City Council

- 2. Influences the predicted time of replacement or renewal
- 3. Smooths the longer-term projections, i.e. with limited budgets, the result will ensure assets that have higher criticality will be considered first
- 4. Prioritisation of projects, i.e. the aggregation of criticality factors combined with the Importance rating will ensure the more important projects are implemented first

#### 5.3 Council's Risk Management Framework

Council's Risk Management Framework is outlined within the Risk Management Policy 2015. Council's policy is to identify and manage risk in accordance with approved standards and continually improving practices.

Council commits to the following risk management objectives/statements:

- We will apply a coordinated and integrated approach to risk management across Council. Consistent with the principles of AS/NZS ISO Standards
- Council through its Audit and Risk committee shall ensure the establishment, implementation and ongoing review of the Councils risk management framework, internal compliance and control systems
- Risk management will be an integral part of planning and decision-making processes
- We will adopt risk management strategies which promote confidence in the achievement of optimal business & community outcomes
- > We will establish a culture of risk consciousness within our organisation and promote risk awareness with our stakeholders
- Communication within the stakeholder community in relation to the identification and management of risk is encouraged
- We will develop and continually improve risk management practices based on established standards and industry practice
- > We will apply a coordinated and integrated approach to risk management
- There is accountability assigned to all those with risk management responsibilities
- Council staff will be provided with the necessary training to allow them to undertake their risk management duties

#### 5.4 Current Component Risk Matrix

A component risk score is a measure of the consequence of failure against and the likelihood of failure. An explanation of how the risk ratings have been calculated can be found in APPENDIX E. Table 5-1 shows the proportion of the Open Spaces components by their GRC and risk score in a risk matrix. The likelihood is shown in the columns of the table with consequence being shown in the rows. The risk matrix, developed by SPM Assets, uses the raw outputs of the SPM Assets database at a component level. It shows that approximately \$248K of components are at extreme risk and \$371K are at high risk.

Table 5-1 Component Risk Matrix and GRC						
Risk Consequence	Unlikely	Possible	Likely	Probable	Almost Certain	
/ Likelihood	(1)	(2)	(3)	(4)	(5)	
Catastrophic	Medium (5)	High (10)	High (15)	Extreme (20)	Extreme (25)	
(5)	-	-	-	-	-	

# Warrnambool City Council

Table 5-1 Compon	Table 5-1 Component Risk Matrix and GRC					
Risk Consequence	Unlikely	Possible	Likely	Probable	Almost Certain	
/ Likelihood	(1)	(2)	(3)	(4)	(5)	
Major	Medium (4)	Medium (8)	High (12)	High (16)	Extreme (20)	
(4)	\$1,294,375	\$2172,192	\$26,584	\$108,720	\$248,400	
Moderate	Low (3)	Medium (6)	Medium (9)	High (12)	High (15)	
(3)	\$4,225,740	\$1,085,112	\$462,457	\$236,015	-	
Minor	Low (2)	Medium (4)	Medium (6)	Medium (8)	High (10)	
(2)	\$407,877	\$62,711	\$84,187	\$9,729	-	
Insignificant	Low (1)	Low (2)	Low (3)	Medium (4)	Medium (5)	
(1)	-	_	-	_	-	

Improvement Action: As part of the Improvement Plan, the components that have been identified as extreme risk may need to be further verified by Council prior to any planning of works as well as a review of the component criticalities.

#### 5.5 Project Prioritisation Based on Risk

The list of priority projects will be considered annually to ensure that decisions are made based on evidence from the AMP rather than judgement.

Warrnambool City Council

# **6** Financial Summary

#### 6.1 Overview

Where Section 4: Lifecycle Management identified the range of possible expenditure that needs consideration to achieve the Quality Standards and performance shortfall, the Financial Summary section provides the recommended total expenditure budgets for the next 15 years, including both capital expenditure (capex) and operational expenditure (opex).

#### 6.2 Assumptions

As outlined in Section 4.5 and 4.6 the adopted budget for operational and maintenance expenditure is \$291K ad \$3.1 million respectively. These expenditure amounts will be used as the estimated annual operational and maintenance expenditure over the next 15 years (2020 – 2034).

Table 6-1 list the estimated annual budgets by category for the next 15 years. The playground budget in 2020 has been extracted from the Warrnambool City Council Budget 2019 – 2020 while the new, renewal and upgrade budgets for 2020 – 2023 have been taken from the Council Plan 2017 – 2021 (Revised 2019). The budget for new, renewal and upgrade for all remaining years (2024 – 2034) has been calculated as an average of the previous four years.

Table 6-1 Budget Estimates							
		Expenditure (\$'000)					
Budget Category	2020	2021	2022	2023	2024 - 2034		
Playground	1,931	-	-	-	-		
New	-	40	500	2,600	785		
Renewal	3,332	415	426	436	1,152		
Upgrade	192	192	192	292	217		
Total	\$5,455	\$647	\$1,117	\$3,328	\$2,154		

Improvement Action: The stated assumptions have been included within the following sections of the AMP. Considering this, Council should carefully review these assumptions and resulting forecasts and update accordingly with a more accurate set of data as required.

#### 6.3 Estimated Forecast

Table 6-2 and Figure 6-1 summarise the total 15 year expenditure for the Open Spaces portfolio considering the renewal expenditure based on lifecycle, planned upgrade projects and the estimated operational and maintenance costs. The upgrade projects only include the AFL, Cricket and Netball projects as all other upgrade projects have not been scoped. A total of \$63.1 million is estimated to be required over the next 15 years, of which \$12.8 million is related to capital expenditure and \$50.3 million to operational expenditure.

Figure 6-1 Estimated 15 Year Financial Forecast for all Open Spaces Sites

#### 6.4 Funding Required for Maintaining Current Assets

Table 6-3 shows the results of applying the current budgets to maintain and operate the current Open Spaces while only considering addressing the condition-based shortfalls and the planned upgrade projects. As seen within Table 6-3 and Figure 6-2, over the next 15-year period (between 2020 and 2034) an estimated \$63.1 million is required (\$4.2 million on average per year) to address all expenditure requirements. As the total allocated budget for the next 15 years is \$34.2 million if Council addresses all condition-based shortfalls and completes the upgrade projects an additional \$28.8 million will be required.

# Asset Management Plan Warrnambool City Council

Figure 6-2 Current Financial Summary

# Warrnambool City Council

#### 7 Asset Management Practices

#### 7.1 Overview

This section summarises the Asset Management Processes, Systems, Data and People. Figure 7-1, a "Hierarchy of Care" of Asset Management practices, should be considered when developing them:

- Operating Energy and Water Use, Waste Disposal, Insurance and Rates
- Maintaining Safety Compliance, Maintenance and Servicing Schedules
- Maintaining a Healthy Environment Cleaning, Security, Pest Control and Waste Removal
- > Expectations Reactive Maintenance
- Extending the Life Planning the Preventative Maintenance
- Sustainability Renewals, Refurbishments and Replacements
- Adapting to its Environment Planning for the Extensions, Upgrades and Reconfigurations

Figure 7-1 Asset Management Hierarchy of Care

#### 7.2 Processes

Warrnambool City Council establishes the roles and responsibilities for all corporate assets (including Open Spaces assets) as Asset Owner, Asset Maintainer and Service Manager, with the respective responsibilities listed in Table 7-1 below.

Consistent with this model the Parks, Gardens and Environment department is both Asset Owner and Maintainer for all assets owned and/or managed by Council, with Service Manager's responsibility distributed throughout the organisation based on the Open Spaces category.

Table 7-1 Responsibility for Asset Management Processes					
Specific Responsibility	Service Manager	Maintainer	Asset Owner		
Plan for the acquisition, creation, modification and disposal of Assets	Support	Support	Lead role		
Establish the Level of Service delivery	Lead role	Support	Support

Responsible for monitoring and reporting on their specific assets	Support	Support	Lead role
Establish the level of maintenance required to keep the asset at an acceptable standard and availability	Support	Lead role	Support

#### 7.3 Systems

Council uses the following system for long term capital planning and operational management purposes.

> SPM Assets software for condition assessment and lifecycle modelling

The SPM Assets software application has been used to undertake condition assessments of the Open Spaces portfolio, analyse the resulting data and to produce various reports. The resulting data remains the property of Council.

#### 7.4 Data

Asset Management practices associated with the collection, maintenance and use of data will be documented as part of an improvement activity. Council should aim to update 20% of the asset register each year as documented in Section 1.4.2.

Warrnambool City Council

# 8 Improvement Plan

This AMP is, put simply, a snapshot of asset planning practices and capabilities and a status of current assets at a point in time. An improvement plan is a mechanism used to enhance and develop planning capabilities and processes between editions of AMPs. Often covering a 12-month period between annual AMP updates an effective improvement plan is prioritised with responsibilities for each task specified.

This Improvement Plan primarily addresses issues identified during the development of this AMP.

#### 8.1 Improvement Programme

The improvement tasks detailed in Table 9-1 have been developed throughout the process of documenting this initial AMP. This Improvement Plan and overall AMP document is to be treated as a live document - continuously amended and updated when improvements in asset management planning practices and capabilities are developed. Fundamentally, this Improvement Plan should be reviewed on a quarterly basis and revised annually. All high priority tasks should be completed in the short term if not immediately.

Table 8-1	Improvement Plan			
Section	Improvement Activity	Priority	Responsible Officer	Review and Timing for Completion
Data				
2.1	Determine the subcategory for the 11 sites currently included under 'Unknown'.	High	Coordinator City Strategy	Short term
2.1 4.2.3	Complete condition assessments of all play space sites to identify the playground equipment and current condition.	High	Coordinator Strategic Asset Management	Ongoing
2.2.2	Determine which components to include within future iterations of this AMP. Currently the following components have been excluded: Breakwater/seawalls Tree surrounds	Medium	Coordinator Strategic Asset Management	Ongoing
2.3.1	Complete valuations for each Open Space site or include valuation information in the next iteration of this AMP.	Medium	Coordinator Strategic Asset Management	Short term
2.3.2 7.4	Complete condition assessments of all Open Spaces sites to identify the current condition. Sites could be prioritised based on importance or value to the community.	High	Coordinator Strategic Asset Management	Ongoing
2.5	Review the current PQS statements and determine if they meet Council's requirements in terms of functionality, performance and compliance. Complete PQS assessments for all Open Space sites.	Medium	Coordinator Strategic Asset Management (Service Managers?)	Medium term

WARRNAMBOOL

# **Asset Management Plan**

Table 8-1 I	mprovement Plan			
Section	Improvement Activity	Priority	Responsible Officer	Review and Timing for Completion
6.2	Review the assumptions adopted for determining the operational and maintenance budgets or in future iterations of this AMP include Council's operational and maintenance budgets.		Coordinator Municipal Operations	Short term
1.4.2	<ul> <li>Implement the 80/80/20 asset management objective over the next three (3) years:         <ul> <li>80% of work done is planned – moving from a reactive to proactive approach by planning and thinking long term. This recognises that some works may be ad-hoc or reactive.</li> <li>80% of the works program is driven from the planning process             – projects should be based on Council's annual business plan and other planning documents. Projects should be included in the Open Spaces Growth and Improvement board in Programs</li> <li>20% of the asset register is updated, maintained, improved and changed every year – train Council staff on how to update data in the SPM Assets database. SPM Assets will also provide Council with a half yearly report which summarises the number of properties surveyed, number of new components and number of updated components</li> </ul> </li> </ul>	High	Coordinator Strategic Asset Management	Ongoing
Systems				
7.3	Consider further implementation and potential integrations e.g. uploading works history data into the SPM Assets database to better inform future decisions based on historical data and decisions	Low	Coordinator Strategic Asset Management	Long term

# **Appendices**

APPENDIX A G	lossary
Active Open Space	Land set aside for the specific purpose of formal outdoor sports by the community.
Asset Management Plan	An AMP is a report that summarises the end outcomes of the asset planning process. It documents the current and projected asset status and considers options to achieve strategic objectives through using asset solutions.
Asset Register	A record of asset information including some or all of; inventory, historical, service, financial, condition, construction, technical and financial information about each asset.
Base Life	The physical life of a building component expected considering its local environment. The life is measured from time of installation to time of its anticipated replacement, renewal or disposal.
Capital Expenditure (Capex)	Expenditure used to create new assets (through addition or renewal) or to increase the capacity of existing assets beyond their original design capacity or potential. Capex increases the value of asset stock.
Component	The specific asset at the lowest level of detail, i.e. solid door, aluminium window, etc.
Component Group	High level categorisation of a component, i.e. roof, floor coverings, etc.
Component Type	Mid-level categorisation of components that fit under Component Group, i.e. roof drainage, lights, extinguishers, etc.
Component Criticality	This is the measure of the relative importance of a component by identifying which components are more critical to the site/asset. Criticality factors include likelihood of failure, risk to service delivery, appearance, health and safety impacts.
Condition	The state of an asset or component at a particular time.
Condition Assessment	Periodic inspection, measurement and interpretation of the resultant data of a specific component so as to determine the need for some preventative or remedial action. Condition is graded from condition grades of 1 (excellent) to 6 (end of life).
Condition Grade Index (CGI)	An overall condition rating of an asset that take into account each individual components assessed condition against its identified Gross Replacement Cost (GRC). A CGI figure that is close to 1.0 represents an asset to be in a very good condition overall whilst a CGI of 2.3 means that some of the components have been assessed to be in a poor to very poor condition.
Critical Assets	Assets for which the financial, business or service level consequences of failure are sufficiently severe to justify proactive

 $\ensuremath{\mathbb{C}}$  2020 SPM Assets Pty Ltd, March 2020 Warrnambool City Council, 7584

## Warrnambool City Council

Varrnambool City Counci	1
	inspection and rehabilitation. Critical assets have a lower threshold for action than non-critical assets.
Capital Replacement Value (CRV)	The cost to replace the structure, which is a combination of the Gross Replacement Cost and the Residual Structural Value. Cost is expressed in today's (2020) dollar value.
Depreciated Replacement Cost (DRC)	The replacement cost of an existing asset less an allowance for wear or consumption having regard for the economic life of the existing asset. Cost is expressed in today's (2020) dollar value.
Economic Life	The total useful life of a component based on its Level of Service. The life is measured from time of installation to time of its expected replacement, renewal or disposal.
Facility Condition Index (FCI)	Facility Condition Index (FCI) is a percentage figure, used as a condition standard, that identifies the works required for an asset based upon the component currently in a poorer condition and any component that have a remaining life of less than 5 years.
Greenfield	Undeveloped land (generally used for agriculture) which is being considered for residential, commercial or industrial development.
Gross Replacement Cost (GRC)	The identified cost of the assessed assets and components that are to be replaced within the lifespan of the structure. Cost value does not include the Residual Structural Value (RSV). Cost is expressed in today's (2020) dollar value.
Key Performance Indicators (KPI)	A qualitative or quantitative measure of a service or activity used to compare actual performance against a standard or other target. Performance indicators commonly relate to statutory limits, safety, responsiveness, cost, comfort, asset performance, reliability, efficiency, environmental protection and customer satisfaction.
Level of Service	The defined service quality for a particular activity or service area against which service performance may be measured. Service levels usually relate to quality, quantity, reliability, responsiveness, environmental acceptability and cost.
Lifecycle	The cycle of activities that an asset (or facility) goes through while it retains an identity as a particular asset i.e. from planning and design to decommissioning or disposal.
Lifecycle Cost	The total cost of an asset throughout its life including planning, design, construction, acquisition, operation, maintenance, rehabilitation, and disposal costs. Cost is expressed in today's (2020) dollar value.
Lifecycle Cost Analysis	Any technique which allows assessment of a given solution, or choice from among alternative solutions, on the basis of all relevant economic consequences over the service life of the asset. Cost is expressed in today's (2020) dollar value.
Linear/Off-road Trail	A continuous stretch of land incorporating a pedestrian pathway, sometimes also designed for cycling use.
Maintenance	All actions necessary for retaining an asset as near as practicable to its original condition but excluding rehabilitation or renewal.

 $\ensuremath{\mathbb{C}}$  2020 SPM Assets Pty Ltd, March 2020 Warrnambool City Council, 7584

\_\_\_\_\_

## Asset Management Plan

## Warrnambool City Council

Open Space	Publicly owned land set aside for leisure, recreation, and nature conservation purposes. It includes pockets of natural landscape within the urban area, sports reserves, and areas of high scenic, cultural or conservation value.
Operation	The active process of using an asset or service that consumes resources such as manpower, energy, chemicals and materials.
Operational Expenditure	Operational expenditure refers to day-to-day operational costs associated with the site itself to deliver the general services. This specifically refers to the; gas, water, sewerage, and electricity services.
Passive Open Space	Open space that is set aside for parks, gardens, linear corridors, conservation bushlands, nature reserves, public squares and community gardens that are made available for passive recreation, play and unstructured physical activity.
Planned Maintenance	Planned maintenance activities fall into three categories: i) Periodic – necessary to ensure the reliability or to sustain the design life of an asset. ii) Predictive – condition monitoring activities used to predict failure. iii) Preventative – maintenance that can be initiated without routine or continuous checking and is not condition based.
Planned Scheduled Maintenance	Scheduled maintenance tasks are established to prolong the useful life of their associated assets. These related tasks can be daily, weekly, and monthly in occurrence to keep assets operational and at the required standard.
Property Quality Standard (PQS)	A desired level of performance, measured by pre-defined factors, relating to an overall characteristic of a property portfolio.
Reactive Maintenance	Reactive maintenance tasks focus solely on the unknown maintenance that is required for the site and related infrastructure assets which are generally due to unforeseen breakages, damage, and vandalism.
Remaining Life (Assessed)	The remaining life (measured in number of years) of a component as assessed by a property surveyor, e.g. carpet has an assessed remaining life of 10 years.
Remaining Life (Calculated)	The remaining life (measured in number of years) of a component as calculated by an analysis considering deterioration, functionality and utilisation.
Renewal	Works to upgrade, refurbish or replace existing assets with assets of equivalent capacity or performance capability using Capex.
Repairs & Maintenance Budget	The repairs and maintenance budget refers to the allocated expenditure that has been set aside for the unexpected/unforeseen maintenance and renewal works that may arise.
Replacement	The complete replacement of an asset that has reached the end of its life.
Residual Structural Value (RSV)	The difference between the CRC and the replacement cost sum of the assessed components (GRC). Refers to components that are not able to be replaced through lifespan of asset, i.e. concrete

 $\ensuremath{\mathbb{C}}$  2020 SPM Assets Pty Ltd, March 2020 Warrnambool City Council, 7584

	foundation slab, concrete support columns, etc. Cost is expressed
	in today's (2020) dollar value.
Risk Management	The application of a formal process to the range of possible values relating to key factors associated with a risk in order to determine the resultant ranges of outcomes and their probability of occurrence.
Restricted Open Space	A subset of open space that requires a fee, membership to a club, or special permission to gain access.
Special Use	A category of open space, referring to sites set aside for a particular purpose other than public recreation, including utility sites and restricted sporting sites e.g. golf courses, swimming pools, race course, showgrounds.
Useful Life	Either:
	(a) the period over which an asset is expected to be available for use by an entity, or
	(b) the number of production or similar units expected to be obtained from the asset by the entity.
	It is estimated or expected time between placing the asset into service and removing it from service, or the estimated period of time over which the future economic benefits embodied in a depreciable asset, are expected to be consumed by the hospital. It is the same as the economic life.

Warrnambool City Council

# APPENDIX B Critical Components in a Poor or Very Poor Condition

There are three component criticality criteria established within the SPM Assets Reference library which provides a consistent framework to prioritise works at a component level and aggregate up to a component group and project level.

- > Consequence of Failure the impact failure of a component will have on the asset overall and business continuity
- Occupational Health and Safety the importance of a component in relation to the health and safety of users and occupants of the site or asset
- > Appearance the importance of a component appearance

A component is classified as critical by considering the following criteria:

- > Consequence of Failure of medium-high to high criticality
- > Occupational Health and Safety of medium-high to high criticality
- Appearance of high criticality

The condition of a component is the assessed state of a component at a particular time. Condition grades range from C1 (very good) to C5 (very poor).

The table below shows the complete list of sites, number of critical components, the number of critical components in a poor (C4) or very poor condition (C5) and the Gross Replacement Cost (GRC) reported against the standards applied in Section 3.5.

#### Warrnambool City Council

# APPENDIX D 15 Year Lifecycle by Category and Site

The tables below list the expected lifecycle expenditure for the next 15 years (2020 – 2034) by category, site, component group and component type.

Note: An additional \$350K per annum has been included in the Section 4.2.3 to accommodate the renewal and replacement of the playground equipment.

#### Local

# Warrnambool City Council

# APPENDIX E Risk Matrix - Likelihood and Consequence

The risk matrix included in Section 5.4 has been taken directly from the SPM Assets software which displays the total replacement cost of the components by the risk rating. Replacement cost figures within the matrix correspond to components that are flagged for replacement within the lifecycle expenditure forecast. Therefore, any component due to be replaced within the period of the forecast will be included within the 5 x 5 risk matrix.

The risk rating considers the likelihood of failure and the consequence of failure to produce an overall generic risk rating for each component.

#### **Calculation of Risk**

Risk = Likelihood X Consequence

The risk rating is calculated simply by multiplying the likelihood and consequence ratings.

The table below details the resulting risk scores.

Risk Consequence / Likelihood	Unlikely (1)	Possible (2)	Likely (3)	Probable (4)	Almost Certain (5)
Catastrophic (5)	Medium (5)	High (10)	High (15)	Extreme (20)	Extreme (25)
Major (4)	Medium (4)	Medium (8)	High (12)	High (16)	Extreme (20)
Moderate (3)	Low (3)	Medium (6)	Medium (9)	High (12)	High (15)
Minor (2)	Low (2)	Medium (4)	Medium (6)	Medium (8)	High (10)
Insignificant (1)	Low (1)	Low (2)	Low (3)	Medium (4)	Medium (5)

#### Calculation of Likelihood

Likelihood of failure is calculated on the proportion of a component's expected life remaining. The parameters used to determine the likelihood of failure are:

- Base life
- Base life upper
- Base life lower
- > Assessed remaining life
- Assessed condition
- Construction year
- Survey year
- > Consequence of failure criticality
- Health and Safety criticality
- > Appearance criticality
- Property importance rating

Warrnambool City Council

# WARRNAMBOOL CITY COUNCIL

# Lifecycle analysis method

The likelihood of failure result is translated into a quantitative score using the table below.

Likelihood of Failure	Quantitative Score	Likelihood
> 95%	5	Almost Certain
80 - 95%	4	Probably
55 - 80%	3	Likely
35 - 55%	2	Possible
< 35%	1	Unlikely

#### **Calculation of Consequence**

The consequence rating is determined by the component criticality factors and the property importance factor. The consequence rating is a number from 1 to 25 which is translated into a qualitative score between 1 and 5 as shown in the table below.

Consequence Rating	Qualitative Score	Consequence
1 - 1.99	5	Catastrophic
2 - 4.99	4	Major
5 - 11.99	3	Moderate
12 - 19.99	2	Minor
20 - 25	1	Insignificant

# Warrnambool City Council

# APPENDIX F Disclaimer

WARRNAMBOOL

All figures and values within this AMP are only accurate at the time of creating the plan. The existing condition data and renewal requirements are based on the information included within the SPM Assets software (including Programs). All renewal projects are revised annually to cater for any changes in budget, risk and service requirements.

# 5.6. BUILDINGS ASSET MANAGEMENT PLAN

# PURPOSE:

# For information and to introduce the draft Buildings Asset Management Plan (AMP).

# **EXECUTIVE SUMMARY**

- It is a requirement of the Local Government Act 2020 that councils have in place Asset Management Plans (AMP) to strategically manage their assets.
- AMPs are a key document in Council's Asset Management Framework, sitting under the Policy and Strategy.
- Council does not currently have a Buildings Asset Management Plan
- This AMP has been developed by an industry leading consultant in accordance with best practice and principles, informed by the workshops identifying service manager needs, known condition information and existing operational and maintenance practices.
- The plan outlines what it costs to deliver the current level of service, if this is being met and what the risks are of not meeting these requirements.
- The recently adopted Sustainable Building Policy will likely increase all future capital costs for buildings, these impacts will be measured during the project planning stage of the asset lifecycle.
- As this is the first Buildings AMP, some assumptions are made. These will be refined along with completing other Improvement Actions on future iterations of the Plan.
- This Plan has been endorsed by the Asset Management Steering Committee.
- The AMP must go through community consultation prior to adoption by Council.

# RECOMMENDATION

# That Council:

- 1. Agrees to advertise the draft Buildings Asset Management Plan 2020 for public comment for a period of not less than 28 days.
- 2. Receives a future report to adopt the Buildings AMP which summarizes any submissions and amendment made to the document.

# BACKGROUND

Until recently it has been best practice for councils to have Asset Management Plans (AMPs) which guide infrastructure investment in a sustainable way that also meets the community's needs. However, this has now become a legislated requirement with the Local Government Act 2020.

The historic barrier to creating a Buildings AMP has been the range of services that use this asset class, the varied requirements of each service, and numerous applicable standards, much of which was undocumented. Although the condition of Council's buildings has been well-monitored since 2013 providing a higher level of confidence in renewal programs, it was not well-known if each building would be needed into the future, if it was fit-for-purpose as is, or what upgrades and improvements are required.

This AMP has been developed in accordance with current best practice principles and begins to introduce alignment to ISO55000, the international standard to Asset Management., a large component being a council-wide service led plan.

Multiple stakeholder workshops were held to document existing service manager needs and potential future requirements. Some assumptions around timing and cost are still made where there is no supporting strategy or Council resolution, but these have been identified throughout the AMP and inform the Improvement Actions plan at the end of the document.

To streamline the stakeholder engagement, this was done at each directorate and resulted in three separate volumes of the AMP. The three volumes are prefaced by a high order executive summary which reflects on buildings as an entire portfolio. But each volume also has its own executive summary, investment needs and improvement plan applicable to that service area, intended to be more valuable to each service manager.

The aim of the AMP is to combine risk management, criticality, financial, engineering and technical practices to ensure that the required levels of service are met with consideration for Council's financial limitation over a 15-year planning period. This is done by producing three sections defined by key service leaders which outline the services to be provided and to what standard, and what funds are required.

# ISSUES

Council currently doesn't have an adopted Buildings Asset Management Plan.

Uninformed and undocumented strategic decisions often reduce the confidence in reporting asset requirements. The first step is to identify these assumptions as improvement actions and work towards strengthening this confidence.

Service Manager consultation identified that:

- Many "behind-the-scenes" or mechanical components were missing from the asset register
- Some asset replacement costs may be under-estimated.
- Service Manager priorities may not align with proposed renewal programs
- Fit-for-purpose assessments are also required to inform capital upgrades

# **FINANCIAL IMPACT**

There is no financial impact in adopting this AMP. However, the plan outlines existing investment decisions, and should be used to inform future investment decisions and the impacts this has on accepted levels of service.

# LEGISLATION / POLICY / COUNCIL PLAN CONTEXT

This Plan is a legislated requirement under the Local Government Act 2020, and responds to following Council Plan initiatives:

# 2 Foster a healthy, welcoming city that is socially and culturally rich

2.2 Increase participation, connection, equity, access and inclusion.

# 3 Maintain and improve the physical places and visual appeal of the City

3.3 Build Infrastructure that best meets current and future community needs.

3.4 Maintain and enhance existing Council infrastructure

# 5 Practice good governance through openness and accountability while balancing aspirations with sound financial management

5.2 Develop policies, strategic plans and processes to address local and regional issues, guide service provision and ensure operational effectiveness

# TIMING

Community consultation will follow Council's endorsement of the plan. Proposed changes and feedback will be reported back to Council for the final adoption of the plan late-2020.

# **COMMUNITY IMPACT / CONSULTATION**

Community consultation will follow Council's endorsement of this plan.

# **LEGAL RISK / IMPACT**

The plan is the requirement of the Local Government Act 2020.

# **OFFICERS' DECLARATION OF INTEREST**

No officer involved in the preparation of this report or the plan has declared a conflict of interest.

# CONCLUSION

Council should agree to advertise the draft Building Asset Management Plan for public comment

# **ATTACHMENTS**

- 1. Attachment 1 Executive Summary Asset Management Plans [5.6.1 13 pages]
- 2. Attachment 2 Corporate & City Growth Asset Management Plan [5.6.2 90 pages]

- 4. Attachment 4 Infrastructure Buildings Asset Management Plan [5.6.4 77 pages]

# WARRNAMBOOL CITY COUNCIL

# Executive Summary – Building Asset Management Plans

# June 2020

This document has been prepared for Warrnambool City Council only. @ 2020 SPM Assets Pty Ltd

Warrnambool City Council

# **Executive Summary**

#### Purpose

The purpose of the Building Asset Management Plan is to provide a robust planning process to facilitate the delivery of services through effective provision and management of Council's building assets. Council currently divides its buildings assets into three service categories – Community Facilities, Corporate & City Growth and Infrastructure. This Executive Summary report has been produced to summarise the findings of the three AMPs and to highlight the potential issues and expenditure required over the next 15 years.

The AMPs demonstrate proactive management of assets, records the current and future quality shortfalls and lists the projects and initiatives required to address the shortfalls in a way that is affordable and delivers the services required by Council. The AMP is used as a tool to provide information that decisions can be based on – this is an evidence-based asset plan. It also addresses compliance with regulatory requirements and communicates forecast shortfalls or surplus in funding used to provide the required levels of service.

Objectives of the AMP are to:

- 1. Analyse the existing asset data
- 2. Provide recommendations for any data cleansing opportunities identified
- 3. Provide recommendations on best practice asset management practice to manage Council's current assets
- 4. Alignment of assets to Service Needs, which was completed as part of the workshops in February 2020, to identify service planning gaps
- 5. Address functionality needs, compliance requirements for current users and potential future use, asset criticality and alignment with service delivery
- 6. Address changes to future demand
- 7. Provide a lifecycle management plan
- 8. Address the risk management and criticality of assets
- 9. Articulate all tasks and responsibilities associated with managing and maintaining the building asset portfolio
- 10. Provide a long-term financial forecast integrated into a Long Term Financial Plan

# Asset Description

A total of 38,632 visually assessed components have been picked up during the onsite building condition assessments of the 368 buildings. The Gross Replacement Cost (GRC) of these components is \$96.8 million. The Capital Replacement Value (CRV) for these buildings has been calculated as \$152.0 million. Table 1 summarises the number of sites, properties and components for each of the three building categories – Community Facilities, Corporate & City Growth and Infrastructure.

Table 1 - Overv	iew

#### Condition

Overall, the assessed components of the buildings are in a very good condition, in which 71% of components in very good condition (by value - \$68.9 million) and 23% of components in good condition (by value - \$22.0 million) as illustrated in Figure 1. A further 4% are in moderate condition (by value - \$4.3 million) while 2% of components are in a poor or very poor condition (by value - \$1.6 million).

WARRNAMBOOI

# Executive Summary

Figure 1 - Condition Profile

# Levels of Service

Understanding the desired Levels of Service of a building within a fixed asset portfolio is fundamental in order to match assets to service delivery objectives. These asset related requirements are documented in a 'Level of Service Statement' which should align with the organisation's objectives.

The factors affecting levels of service of any organisation can be broken into three broad categories.

- 1. **Customer requirements**: The expectations of the customer served by the organisation through the utilisation of the asset.
- 2. **Legislative requirements**: The mandatory provisions or standards set by local, national or international bodies that govern asset utilisation, particularly in terms of various issues affecting the general public.
- 3. **Strategic goals**: Broad framework-based management directives consistent with the organisation goals and values stated in policies, objectives, and the user asset management plans

The Level of Service statement is the basis for the assessment of the portfolio and the long-term financial planning of operational and capital expenditure. According to this statement, the asset plan targets expenditure to address immediate shortfalls (deferred renewals / backlog) and future requirements as planned expenditure.

The key principles are:

- > Clearly defined strategic objectives
- In support of the strategic objectives, an understanding of the difference between technical and customer related objectives
- Defined targets
- > Statement of how the performance will be measured against the targets
- > Current performance measurement against the level of service to identify the shortfalls

Council currently does not have a defined customer level of service. It is recommended that Council develops, defines and implements a customer level of service.

Warrnambool City Council

# **Future Demand**

As the population of Warrnambool City is expected to grow over the next 16 years, from a forecast of 36,575 in 2020 to 46,210 in 2036, there will be greater demand for access to Community Facilities. Figure 2 below illustrates the expected population growth of Warrnambool City over a 20-year period (2016-2036).

#### Figure 2 - Forecasted Population for Warrnambool City (2016- 2036)

As stated in the Community Services and Infrastructure Plan (CSIP) 2012, there is expected to be an increase in the number of children, young people which will cause an increase in the demand for early years facilities and youth spaces. With an expected increase in the older population as well, there will be greater demand for access to Community Services facilities from this age group.

In order to meet the increased demand for Community Facilities, Council will need to adopt a strategic level of service to increase the number of early years facilities as well as building new integrated community hubs, shared or multipurpose facilities that are located in suitable areas.

# Lifecycle Management

#### Lifecycle Expenditure

Figure 3 shows the forecast 15 year renewal expenditure for all building categories (Community Facilities, Corporate & City Growth and Infrastructure), including the possible backlog – defined by any component that has a calculated year of replacement prior to 2020. Over the next 15 years a total of \$44.9 million will be required (an annual average of \$3.0 million) to address both the backlog of \$4.4 million and annual lifecycle expenditure. The three highest years of expenditure are the backlog, 2032 and 2034.

The renewal expenditure figures are for a like-for-like replacement of components and is not considerate of Council's Sustainable Council Buildings Policy. This policy states that in order to meet green targets, capital renewal projects up to a value of \$100,000 should consider improvements to sustainability, ranging from education on facility use, to the selection of lighter materials to improve the solar reflectance index. These initiatives could see an increase in expenditure up to 20% however these are identified and costed at the project planning stage with impacts not identified here.

Figure 3 - 15 Year Renewal Forecast for all Building Categories

#### **Condition Forecasting**

Figure 4 shows the forecasted condition over the next 15 years assuming that the components are replaced/renewed when required. It shows that replacing all components at their forecasted renewal date is required to maintain the Condition Grade Index (CGI), which is the average condition of the assessed components weighted by their gross replacement cost, at the current levels. While Figure 5 shows a 'worst-case scenario' of the forecasted condition assuming no components are replaced or renewed over the same period of 15 years. In this scenario there is a significantly larger proportion of components in a poorer condition (C4 and C5) at the end of the 15 year period which is reflected in the worsening of the Condition Grade Index)

Figure 4 - Forecasted condition over the next 15 years assuming components are renewed

Figure 5 - Forecasted condition over the next 15 years assuming no renewal of components

#### **Upgrade Projects**

Table 3 lists the 116 planned upgrade projects by building category and subcategory for the next five years. These projects have been compiled from the workshops held between Council and SPM Assets in February 2020, the Long Term Financial Plan, audit reports and Council renewal planning documents.

The total expenditure required to complete the upgrade projects has been estimated as \$13.6 million. However, these project estimates are pre-adoption of the Sustainable Council Buildings Policy and therefore likely to be under-representing the true cost of works required.

Table 3 - List of Upgrade Projects by Building Category

#### **Growth Projects**

As the population in Warrnambool is expected to grow over the next 30 years there will be an increase in the access and use of Council's Community Facilities, Corporate & City Growth and Infrastructure buildings. In order to meet this increased demand, Council has identified a 'wish list' of projects as part of its strategic planning. Table 4 lists the 13 projects by building category and subcategory for the next 5 years. The total expenditure required to complete these projects has been estimated as \$11.6 million. Note: some projects have not been scoped and therefore the total expenditure required will be higher that stated in the table below.

Table 4 - List of Growth Projects by Building Category

WARRNAMBOOI

# **Executive Summary**

Warrnambool City Council

# Risk Management

#### **Risk Matrix**

A component risk score is a measure of the consequence of failure against and the likelihood of failure. Table 5 shows the proportion of the building components by their GRC and risk score in a risk matrix. It shows that approximately \$268K of components are at 'extreme risk' and \$3.4 million are at 'high risk'. The extreme and high risk components should be renewed or replaced as a priority as these components are either in a poorer condition or were due to be renewed prior to 2020.

Table 5 - Component Risk Matrix for all Building Categories												
<b>Risk Consequence</b>	Unlikely	Possible	Likely	Probable	Almost Certain							
/ Likelihood	(1)	(2)	(3)	(4)	(5)							
Catastrophic	Medium (5)	High (10)	High (15)	Extreme (20)	Extreme (25)

(1)	-	-	-	-	-							

# **Financial Summary**

Table 6 shows the results of applying the current budgets to maintain and operate the current buildings while only considering addressing the condition-based shortfalls and the planned upgrade projects. As seen within Table 6 and Figure 6, over the next 15-year period (between 2020 and 2034) an estimated \$170.3 million is required (\$11.4 million on average per year) to address all expenditure requirements. As the total allocated budget for the next 10 years is \$97.5 million if Council addresses all condition-based shortfalls and completes all of the upgrade projects an additional \$72.8 million will be required.

# **Improvement Programme**

The improvement tasks detailed below have been developed throughout the process of documenting the three AMPs. The Improvement Plan and overall AMP document is to be treated as a live document - continuously amended and updated when improvements in asset management planning practices and capabilities are developed. Fundamentally, this Improvement Plan should be reviewed on a quarterly basis and revised annually. All immediate and short term tasks should be completed within the next 2 years.

Immediate

Review and update the current component references and components, in particular the criticalities (appearance, consequence and safety) to improve the confidence and accuracy of lifecycle projections

#### Short Term

- > Review the list of components that have been identified as 'extreme risk'
- Complete valuations for 18 buildings
- > Identify who is responsible for managing and maintaining the Asset Management Plan
- Confirmation of the roles and responsibilities for Asset Owners, Asset Maintainers and Service Managers
- Agree on a list of primary Levels of Service statements to ensure Council focuses on immediate and important needs. The statements should consider strategic objectives, statutory requirements and public expectations.

#### Ongoing

- Complete new condition assessments of all buildings to identify the current condition. Assessments could be prioritised based on building importance or value to the community.
- Determine which components to include within future iterations of the Asset Management Plans
- > Continuously update data to provide confidence in long-term planning by:
  - Updating data with completed works
  - Regular staff inspections
  - Three-year rolling condition surveys

# WARRNAMBOOL CITY COUNCIL

# Asset Management Plan – Corporate & City Growth

# June 2020

This document has been prepared for Warrnambool City Council only. @ 2020 SPM Assets Pty Ltd

Warrnambool City Council

## **Executive Summary**

## The Purpose of this Asset Management Plan

The purpose of this Corporate & City Growth Asset Management Plan is to provide a robust planning process to facilitate the delivery of services through effective provision and management of Council's Corporate & City Growth building assets. The AMP is based on evidence, service requirements, risk management principles and has been aligned with ISO 55000. It documents asset management practices and procedures that are being implemented by Council in managing the building portfolio and records how assets are being managed effectively from a whole of life perspective to deliver the best outcomes to all stakeholders in the most cost effective manner.

Objectives of the Building Asset Management Plan are to:

- 1. Analyse the existing asset data
- 2. Provide recommendations for any data cleansing opportunities identified
- 3. Provide recommendations on best practice asset management practice to manage Council's current assets
- 4. Alignment of assets to Service Needs, which was completed as part of the workshops in February 2020, to identify service planning gaps
- 5. Address functionality needs, compliance requirements for current users and potential future use, asset criticality and alignment with service delivery
- 6. Address changes to future demand
- 7. Provide a lifecycle management plan
- 8. Address the risk management and criticality of assets
- 9. Articulate all tasks and responsibilities associated with managing and maintaining the building asset portfolio
- 10. Provide a long-term financial forecast integrated into a Long Term Financial Plan

#### Alignment with ISO 55000

Council is considering the following as part of the ISO 55000 alignment:

- $\geq$ To effectively govern an organisation, the governing body needs assurance that their assets are well managed
- Leadership and commitment from all 2. The asset mgt objectives managerial levels is essential to successful asset management
- "What to do" rather than "How to do it"  $\geq$ (IIMM, IPWEA/NAMS Practice Note 3 and NAMS Property manual provide the guidance on how to effectively manage the assets)
- Your organisation determines which assets are to be included

#### An asset management system includes:

- 1. The asset mgt policy
- 3. The Strategic Asset Mgt Plan (SAMP)
- 4. The Asset Mgt Plans implemented in:
  - Operational planning and control /4///
  - Supporting activities
  - Control activities
  - Other related processes
- It is good business practice and always think about continuous improvement

SPM Assets' 7 Point Asset Planning Framework – How to be Aligned

## Warrnambool City Council

The below figure illustrates a framework on how to achieve alignment and manage assets efficiently and effectively. In summary:

- 1. Know your services
- 2. Know the assets and costs needed to deliver those services
- 3. Know what you need (both now and into the future)
- 4. Know what's possible asset and non-asset solutions
- 5. Know what to do now (budgets, risks and prioritisation) and what's sustainable over the longer term
- 6. Know your funding options recognising that the first step is to determine the investment needed to address the current and future shortfalls
- 7. Make decisions and deliver outcomes

#### **Asset Management Objectives**

It is recommended that Council implements the following asset management objectives that are aligned with ongoing best-practice over the next three (3) years:

- 80% of work done is planned If you only react to symptoms, the problems will build up over time to a level that could be too costly to address. The expenditure will be more controllable when you plan and think long term. Recognising there will always be a level of 'reactive works' or ad-hoc works that just can't be planned.
- 80% of the works programme is driven from the planning process. Making good decisions on evidence that's scientifically based rather than making ad-hoc decisions that may only consider part of the organisation's strategies getting this right will provide a greater level of success when competing for annual budgets. Again, recognising that there will always be a level of projects identified outside of the planning process.
- 20% of your asset register is updated, maintained, improved and changed every year. Good decisions require good data - manage the information strategically by targeting efforts in areas that provide key information that feeds into the planning process.

## Warrnambool City Council

The longer-term value of this solution would be:

- Reduction in the premium paid for reactive maintenance leading to re-allocation of funds to planned works
- Having a more robust planned approach to your works-programme evidence based using scientific methods
- Better knowing and managing current and future risk
- Having a well-maintained component level asset register with good confidence

#### **Overall Condition**

Overall the assessed building components of the Corporate & City Growth buildings are in a very good condition, in which 64% of components in very good condition (by value - \$16.9 million) and 29% of components in good condition (by value - \$7.6 million) as illustrated in the figure below. A further 4% are in moderate condition (by value - \$1.2 million) while 2% of components are in a poor or very poor condition (by value - \$550K).

The \$550K of components in poor or very poor condition largely relates to the following component groups:

- External Fabric at \$171K
- Interior Finishes at \$152K
- Exterior & Sundries at \$114K
- Services at \$76K
- Open Space at \$34K

#### **Renewals and Replacements**

The figure below shows the forecast 15-year renewals expenditure required for all Corporate & City Growth building subcategories, including the possible backlog. It shows that over the next 15 years \$12.7 million is required (an annual average of \$849K) to address both the backlog (a total value of \$1.8 million as detailed in Section 4.5.2), and annual lifecycle expenditure. The three highest peaks of expenditure are the backlog, 2022 and 2032.

## **Planned Upgrade Projects**

The table below summarises the planned upgrade projects with an estimated expenditure of \$7.2 million over the next five years (2020 – 2024) by source. These projects have been compiled from the workshops held between Council and SPM Assets in February 2020, the Long Term Financial Plan (LTFP) and Council's renewal planning documents.

Years

Project Information			E	xpenditure (	\$ Millions)		
Subcategory	Source	2020	2021	2022	2023	2024	Total
Commercial Property	Renewal Planning	116,500	-	-	-	-	116,500
Fioperty	Workshop	-	30,000	30,000	10,000	10,000	80,000
Holiday Parks	LTFP	143,647	146,879	150,551	154,315	158,173	753,565
HUHUdy Parks	Workshop	-	200,000	200,000	120,000	-	520,000
	LTFP	-	1,900,000	2,050,000	300,000	-	4,250,000
Municipal Buildings	Renewal planning	181,803	-	-	-	-	181,803
	Workshop	-	10,000	10,000	-	-	20,000
	LTFP	597,459	58,752	60,221	61,726	63,269	841,427
Saleyards	Renewal Planning	30,000	-	-	-	-	30,000
	Workshop	-	10,000	5,000	-	-	15,000
Tourist Facilities	Renewal Planning	107,000	-	-	-	-	107,000
	Workshop	-	100,000	100,000	50,000	-	250,000
Tota	al	\$1,176,409	\$2,455,631	\$2,605,772	\$696,041	\$231,442	\$7,165,294

**Growth Projects** 

In order to meet the increased demand, a list of projects were developed during the workshops held between Council and SPM Assets in February 2020. These projects are solely for new buildings or extensions that have been identified as 'wish list' items as part of Council's strategic planning. The table below lists the two growth projects which are currently at a concept status.

Project Information					
Subcategory	Project Name	Project Description	Community Value	Status	
Municipal Buildings	New Library	Current library is located within the Municipal Offices building. Expected to move out of building in next two years. A new library building is estimated to cost \$3 million over the next two to three years plus \$0.5 million for design and development documentation. Cost and year to be confirmed.	Very High	Concept	
	Library - Lift	New lift to be installed after library is relocated. Cost and year to be confirmed.	Very High	Concept	

**Condition Forecasting – Assessed Component** 

Although knowing the current condition is important, a component is likely to remain in a good to very good condition for the next 10 years. While critical components will be proactively maintained to ensure the condition is kept within a defined standard. The following figure shows the forecasted condition (if the 'deferred' is addressed) over the next 15 years assuming that the components are replaced/renewed when required – the black line indicates the weighted average of condition and replacement cost.

#### **Component Risk Matrix**

A component risk score is a measure of the consequence of failure against and the likelihood of failure. The table below shows the proportion of the Corporate & City Growth components by their GRC and risk score in a risk matrix. It shows that approximately \$127K of components are at extreme risk and \$1.5 million are at high risk.

WARRNAMBOOI

# Asset Management Plan

# Warrnambool City Council

Risk Consequence / Likelihood	Unlikely (1)	Possible (2)	Likely (3)	Probable (4)	Almost Certain (5)
Catastrophic	Medium (5)	High (10)	High (15)	Extreme (20)	Extreme (25)
(5)	-	-	-	-	-
Major	Medium (4)	Medium (8)	High (12)	High (16)	Extreme (20)
(4)	\$4,002,359	\$273,902	\$79,615	\$276,737	\$126,787
Moderate	Low (3)	Medium (6)	Medium (9)	High (12)	High (15)
(3)	\$16,656,587	\$1,046,266	\$337,212	\$637,323	\$379,420
Minor	Low (2)	Medium (4)	Medium (6)	Medium (8)	High (10)
(2)	\$2,170,387	\$84,923	\$59,489	\$85,816	\$17,536
Insignificant	Low (1)	Low (2)	Low (3)	Medium (4)	Medium (5)
(1)	-	-	-	-	-

## **Investment Scenario**

As seen within the figure below, over the next 15-year period (between 2020 and 2034) an estimated \$52.8 million is required (\$3.5 million on average per year) to address all expenditure requirements. As the total allocated budget for the next 15 years is \$30.8 million, if Council addresses all condition-based shortfalls and completes the upgrade projects an additional \$22.0 million will be required.

#### **Improvement Actions**

The key actions resulting from this Corporate & City Growth Asset Management Plan are:

#### Data

Review and update the current component references and components. In particular:
 a. Review criticalities of component references – appearance, consequence and safety

## Warrnambool City Council

- 2. Review the list of components that are included within future iterations of the AMP
- 3. Review the list of components that have been identified as 'extreme risk'
- 4. Review the property hierarchy and structure in the SPM Assets database to ensure the correct property type has been assigned
- 5. Data needs to be continuously updated to provide confidence in the long-term planning. The following tasks are recommended:
  - a. Update data form with completed works
  - b. Regular staff inspections
  - c. Three-year rolling condition surveys targeting high importance areas
- 6. Review the current PQS statements and determine if they meet Council's requirements in terms of functionality, performance and compliance
- 7. Complete valuations for the 6 buildings that currently do not have any valuation information
- 8. Review the assumptions adopted for determining the operational and maintenance budgets or in future iterations of this AMP include Council's operational and maintenance budgets.

#### People

- 10. Identify who is responsible for managing and maintaining the Asset Management Plan
- 11. Confirmation of roles and responsibilities for Asset Owners, Asset Maintainers and Service Managers

#### Processes

- 12. Agreeing on a list of primary Level of Service statements will ensure Council focuses on immediate and important needs. The list should consist of approximately 5 statements and up to 10 measures. The process in determining which statements are more important should consider strategic objectives, statutory requirements and public expectations.
- 13. Establishment of Quality Standard
- 14. Review the list of components that have been identified as extreme risk
- 15. Implement the 80/80/20 asset management objective over the next three years
  - a. 80% of the work completed is planned
  - b. 80% of the works program is driven from the planning process
  - c. 20% of the asset register is updated, maintained, improved and changed every year

#### Systems

 Consider further implementation and potential integrations e.g. uploading works history data into the SPM Assets database to better inform future decisions based on historical data and decisions

Warrnambool City Council

# **1** Introduction

## 1.1 Purpose

Warrnambool City Council (Council) engaged SPM Assets Pty Ltd (SPM Assets) in December 2019 to work in a collaborative approach to improve the supporting documentation associated with sound asset management, which includes the preparation of Building Asset Management Plans (AMP) for each of its building categories – Community Facilities, Corporate & City Growth and Infrastructure. This AMP specifically focuses on the buildings owned and managed by Council that are included within the Corporate & City Growth category.

The purpose of this Corporate & City Growth Asset Management Plan is to provide a robust planning process to facilitate the delivery of services through effective provision and management of Council's Corporate & City Growth building assets. The AMP is based on evidence, service requirements, risk management principles and has been aligned with ISO 55000. It documents asset management practices and procedures that are being implemented by Council in managing the building portfolio and records how assets are being managed effectively from a whole of life perspective to deliver the best outcomes to all stakeholders in the most cost effective manner.

This AMP demonstrates proactive management of assets, records the current and future quality shortfalls and lists the projects and initiatives required to address the shortfalls in a way that is affordable and delivers the services required by Council. The AMP is used as a tool to provide information that decisions can be based on – this is an evidence-based asset plan. It also addresses compliance with regulatory requirements and communicates forecast shortfalls or surplus in funding used to provide the required levels of service.

Objectives of the Building Asset Management Plan are to:

- 1. Analyse the existing asset data
- 2. Provide recommendations for any data cleansing opportunities identified
- 3. Provide recommendations on best practice asset management practice to manage Council's current assets
- 4. Alignment of assets to Service Needs, which was completed as part of the workshops in February 2020, to identify service planning gaps
- 5. Address functionality needs, compliance requirements for current users and potential future use, asset criticality and alignment with service delivery
- 6. Address changes to future demand
- 7. Provide a lifecycle management plan
- 8. Address the risk management and criticality of assets
- 9. Articulate all tasks and responsibilities associated with managing and maintaining the building asset portfolio
- 10. Provide a long-term financial forecast integrated into a Long Term Financial Plan

#### 1.2 Background

Council first licenced the SPM Assets software application in April 2014. Council undertakes cyclic visual condition assessments and manages all building assets using the SPM Assets software application. Since then SPM Assets has been engaged by Council for several projects including completing condition assessments and the development of maintenance plans and 5 year works programmes.

#### Warrnambool City Council

On 6 February 2020, two workshops were held between SPM Assets and Council representatives from the Corporate & City Growth team to discuss the current and future service specific building requirements. The attendees included:

- $\geq$ **Director Corporate Strategies**
- Director City Growth  $\triangleright$
- Manager Information Services  $\triangleright$
- Manager City Strategy & Development

#### 1.3 Alignment with ISO 55000

ISO 55000 is a series of international standards that have been created by the International Standard Organisation (ISO) for the ongoing management of physical assets. These standards have been developed from the previously published PAS 55 standards which were developed in 2002-2004 and edited in 2008.

The ISO 55000 suite includes three standards:

- $\geq$ ISO 55000 - overview, principles and terminology
- ISO 55001 management system & requirements  $\geq$
- ISO 55002 guidelines on the application of ISO 55001  $\geq$

Important considerations:

- To effectively govern an organisation, the governing body needs assurance that their assets are well managed
- Leadership and commitment from all managerial levels is essential to successful asset management
- "What to do" rather than "How to do it" (IIMM, IPWEA/NAMS Practice Note 3 and NAMS Property manual provide the guidance on how to effectively manage the assets)
- Your organisation determines which assets are to be included
- $\geq$ It is good business practice and always think about continuous improvement

Figure 1-1 lists some of the elements of an ISO 55000 Asset Management System. Understanding the hierarchy of plans and processes is essential - remembering that the ISO is more about implementing a process rather than writing an AMP – the AMP is the output of the process:

- Know your reason why what are the An asset management system includes:  $\geq$ services being delivered through the assets
- Policies and objectives signed off by the governing body will make the process 3. The Strategic Asset Mgt Plan (SAMP) work
- Strategic AMP looking long term and considering capital concepts through to disposal
- AMPs can also be longer term and more aligned with a specific service being delivered and can focus more on maintenance and renewal

- 1. The asset mgt policy
- 2. The asset mgt objectives
- 4. The Asset Mgt Plans implemented in:
  - Operational planning and control
  - Supporting activities
  - Control activities
  - Other related processes

Figure 1-1 Elements of an ISO 55000 Asset Management System

## Warrnambool City Council

- Implementation of the AMP and works-programmes all roads lead to the works programme as this is what you do to make a difference
- > Evaluate performance and improve processes, systems and data

Furthermore, section 2.5.3.1 of ISO 55000 states:

"An asset management system impacts the whole organisation, including its stakeholders and external service providers, and can use, link or integrate many of the organisation's activities and functions that would otherwise be managed or operated in isolation. The process of establishing an asset management system requires a thorough understanding of each of its elements and the policies, plans and procedures that integrate them. The asset management system requirements described in ISO 55001 are grouped in a way that is consistent with the fundamentals of asset management:

- 1. Context of the organisation (ISO 55001:2014, Clause 4)
- 2. Leadership (ISO 55001:2014, Clause 5)
- 3. Planning (ISO 55001:2014, Clause 6)
- 4. Support (ISO 55001:2014, Clause 7)
- 5. Operation (ISO 55001:2014, Clause 8)
- 6. Performance evaluation (ISO 55001:2014, Clause 9)
- 7. Improvement (ISO 55001:2014, Clause 10)

Council follows the 'asset management system' that the ISO 55000 describes. Therefore, this Asset Management Plan (AMP) summarises the outputs resulting from the process and describes the associated key inputs, assumptions, practices and systems.

#### **1.4 Asset Management Framework**

#### 1.4.1 Overview

Warrnambool City Council has stated the following vision as outlined in their Council Plan (2017-2021):

#### A cosmopolitan city by the sea

The following five objectives support Council's vision:

- 1. Sustain, enhance and protect the natural environment
- 2. Foster a healthy, welcoming city that is socially and culturally rich
- 3. Maintain and improve the physical places and visual appeal of the city
- 4. Develop a smarter economy with diverse and sustainable employment
- 5. Practice good governance through openness and accountability while balancing aspirations with sound financial advice

#### 1.4.2 Asset Management Objectives

On 2 December 2019, Council adopted the following goals and commitments as part of their Asset Management Policy:

- Asset management will be service driven and will align with the strategic priorities and directions of the Council
- To achieve and sustain a high level of asset management maturity

#### Warrnambool City Council

- To achieve certification with ISO 55000, International Standards for Asset Management
- Asset management will be integrated into corporate governance including enterprise planning, reporting and risk management frameworks and practices
- Maximise the value of Council's capital, operations and maintenance expenditures within current revenues, to optimise agreed levels of service, service delivery potential and manage related risks and costs over the entire life of infrastructure assets
- Decommission and dispose of assets that are under-utilised and no longer economically, socially or sustainably viable
- Involve and consult with the community and key stakeholders on determining service standards
- Service delivery assets will be created, acquired, maintained and rehabilitated to enable the organisation to meet its strategic service delivery goals efficiently and effectively
- Service/Asset Management Strategies and Plans will include processes which provide accountability to the community
- Allocate appropriate resources to ensure Asset Management practices can be undertaken and the timely maintenance and renewal of those assets so that 'life cycle' costs are optimised
- Accurately report on all aspects of Councils assets in terms of Operations, Maintenance, Renewal, Upgrade, Expansion and New
- Ensure that the roles and responsibilities of all asset owners, managers and users are well defined and understood. Reinforce and support asset management roles and responsibilities across the organisation at a functional level. The various key roles, responsibilities and delegations associated with service delivery and asset management is documented in the Asst Management Strategy
- Invest in appropriate and timely asset management training and development program for staff and Councillors as required
- Council will support the implementation of the Asset Management Strategy and foster a strong asset management culture across Council through a cross functional Asset Management Steering Committee

In addition to the above objectives, it is recommended that Council implements the following asset management objectives that are aligned with ongoing best-practice over the next three (3) years:

- 80% of work done is planned If you only react to symptoms, the problems will build up over time to a level that could be too costly to address. The expenditure will be more controllable when you plan and think long term. Recognising there will always be a level of 'reactive works' or ad-hoc works that just can't be planned.
- 80% of the works programme is driven from the planning process. Making good decisions on evidence that's scientifically based rather than making ad-hoc decisions that may only consider part of the organisation's strategies getting this right will provide a greater level of success when competing for annual budgets. Again, recognising that there will always be a level of projects identified outside of the planning process.
- 20% of your asset register is updated, maintained, improved and changed every year. Good decisions require good data - manage the information strategically by targeting efforts in areas that provide key information that feeds into the planning process.

The longer-term value of this solution would be:

Reduction in the premium paid for reactive maintenance – leading to re-allocation of funds to planned works

## Warrnambool City Council

 $\triangleright$ 

- Having a more robust planned approach to your works-programme evidence based using scientific methods
- Better knowing and managing current and future risk
- > Having a well-maintained component level asset register with good confidence

#### 1.4.3 SPM Assets' 7 Point Asset Planning Framework

SPM Assets' 7 Point Asset Management Planning Framework involves all areas of business and planning processes and is aligned with ISO55000 and the International Infrastructure Management Manual (IIMM).

Figure 1-2 below illustrates the Framework, which is a service-led planning approach, i.e. it is the service needs that define the quality standards required now and into the future. The framework is founded on the IIMM principles and is structured to proactively minimise shortfalls by implementing appropriate well thought out asset management strategies. The framework is founded on a culture of continual improvement which focuses on determining the degree of criticality of the assets, to minimise the risk of failure and is based on the following:

#### 1. Know your services

A mixture of commercial, holiday parks, municipal buildings, saleyards and tourist facilities.

2. Know the assets and costs needed to deliver those services

Having a good knowledge of the existing assets provides the planning platform. Realising that the data can have 80% confidence and still be useful, i.e. target the high-quality information management to critical and/or high value assets.

 Know what you need (both now and into the future) Recognising the difference between the Levels of Service and building related Quality Standards. It's about knowing the current standards and what they could be in the future and defining and measuring the lowest level.

## 4. Know what's possible – asset and non-asset solutions

Comparing the current situation with the desired levels of service and quality standards will identify the current and future shortfalls that need to be addressed. Creating a range of 'possible projects' to address the shortfalls moves the process from asset planning to project planning and eventual Capital Asset Management.

#### Know what to do now (budgets, risks and prioritisation) and what's sustainable over the longer term

Knowing which 'possible project' is more important than another, needs to consider its outcomes after completion, its affordability, and the risks it's managing.

6. Know your funding options – recognising that the first step is to determine the investment needed to address the current and future shortfalls Allocation of budgets to funded programmes ensures projects are being funded appropriately and that the renewals funding is specifically used to address replacements

# and renewals, thus avoiding fiscal surprises.7. Make decisions and deliver outcomes

Decisions are made every day and the right people should be making the right decisions based on information that they can rely on. This is where the real value of capital asset management is realised, i.e. the organisation has the confidence that it is making the right decisions.

## Warrnambool City Council

Figure 1-2 SPM Assets' 7 Point Asset Planning Framework

## 1.5 Relationship with Other Planning Documents

The AMP considers the following documents:

- Council Plan 2017-2021 (2019 revision)
- Asset Management Policy 2019
- Risk Management Policy 2015
- Community Services and Infrastructure Plan 2013 (CSIP)

## 1.6 AMP Structure

The AMP is the output of the asset management planning process. It documents the associated procedures, objectives, policies, standards, drivers, future renewal projects, lifecycle replacement projections and improvement tasks.

The AMP has been written so that any reader can understand how the assets are being considered and managed. Commentaries on renewal theories and the reasoning of renewal and maintenance policies provide the reader with the context or reason why certain practices have been implemented.

The AMP is a communication document first and foremost. It summarises the vast information held in the supporting computer systems and provides the reasoning of why maintenance and lifecycle expenditure is needed in the future. The 'nuts and bolts' detail is available directly from the management systems if the reader needs further detail of a specific asset or asset group.

Council's objectives and policies are the primary driver for the asset management process and dictate all aspects of the asset management approach. This document recognises these requirements and uses SPM Assets' 7 Point Planning Framework and software applications as the primary implementation tools. In its simplest form, the asset register is populated, it is analysed, and a program of works is produced based on providing a defined 'level of service'.

Key sections of the AMP are based on the International Infrastructure Management Manual (IIMM) and are summarised as follows:

- Asset Description summary of assets and current condition
- > Levels of Service specifies the services and levels of service to be provided by Council
- Lifecycle Management how Council will manage its existing and future assets to provide the required services
- > Risk Management applying a risk-based analysis to the lifecycle results
- Financial Summary what funds are required to provide the required services
- Asset Management Practices documenting the practices that are required to maintain best practice in asset management going forward
- Asset Management Improvement Plan what are the next steps?

Warrnambool City Council

## 2 Asset Description

#### 2.1 Overview

A total of 10,884 visually assessed building components have been picked up during the onsite building condition assessments of the 110 Corporate & City Growth buildings. The Gross Replacement Cost (GRC) of the assessed components has been identified as \$26.2 million. Table 2-1 summarises the number of sites, properties and components for the Corporate & City Growth category.

Table 2-1 Corporate & City Growth – Overview						
		Build	ding Subcate	gory		
	Commercial Property	Holiday Parks	Municipal Buildings	Saleyards	Tourist Facility	Total
No. Sites	6	2	2	1	1	12
No. Buildings	8	49	2	5	46	110
No. Property Records	85	247	124	28	208	692
No. Components	1,333	4,364	1,954	418	2,815	10,884
Gross Replacement Cost (GRC)	2,823,385	8,931,860	5,649,582	1,202,751	7,620,480	\$26,228,057
Capital Replacement Value (CRV)	4,687,420	13,618,356	12,960,980	2,123,702	11,318,474	\$44,708,932

Improvement Action: The total number of buildings (110) includes both buildings and properties. As part of the Improvement Plan, the property type of the Corporate & City Growth buildings may need to be reviewed to distinguish the difference between a 'block' (building) and a property, e.g. some sheds are classified as 'blocks' (buildings) and others are a 'property'.

## 2.2 Survey Methodology

#### 2.2.1 Site Assessment

A total of 110 Corporate & City Growth building assets have been assessed between 2012 and 2019. The majority of onsite building condition assessments have been completed by experienced SPM Assets surveyors and updated and maintained by Council staff using the Mobile application of the SPM Assets software on a tablet PC device. The assessment approach that was implemented, and the SPM Assets software, have been directly aligned with ISO 55000, IIMM, NAMS Property Manual and IPWEA/NAMS Practice Note 3. The building condition assessments were conducted to identify the current condition of components, update property level information including capturing any space changes and refurbishments and answering Property Quality Standards (PQS).

## 2.2.2 Data Model

The data model for Council's Corporate & City Growth building assets has been broken down into grounds, buildings, floors and room locations (ground, block, floor, and unit) so that components

## Warrnambool City Council

can be assigned to a level that work can be carried out e.g. the refurbishment of the offices on level 1.

It should be noted that the following components have been excluded from this AMP:

#### > Loose furniture

Improvement Action: These assets will be reviewed and may be included in future iterations of this AMP. Any projects associated with these assets will be included within the relevant board in the SPM Assets Programs application.

#### 2.3 Property Level Information

#### 2.3.1 Building Valuations

Table 2-2 below summarises the valuation figures for the Corporate & City Growth building assets. The Capital Replacement Value (CRV), which is based on the rate per square metres as recommended in the Rawlinsons Australian Construction Handbook, has been calculated as \$44.7 million.

Table 2-2 Capital Replacement Values					
Building Subcategory	No. Buildings	CRV			
Commercial Property	5	4,687,420			
Holiday Parks	48	13,618,356			
Municipal Buildings	2	12,960,980			
Saleyards	4	2,123,702			
Tourist Facility	45	11,318.474			
Total	104	\$44,708,932			

Improvement Action: A total of 6 buildings have no valuation data. As an improvement activity, a valuation for these buildings should be calculated or completed by an experienced building valuer.

#### 2.3.2 Condition Grade Index by Building

#### Definition

The Condition Grade Index (CGI) is the average condition grade of assessed components weighted by their Gross Replacement Cost (GRC). A low CGI e.g. 1.5 means that the components have been assessed to be in good to very good condition whereas a high grade such as 2.3 means that the components are mainly in a poor to very poor condition. The overall CGI for the Corporate & City Growth buildings is 1.45 which indicates that the majority of the buildings are in a good or very good condition.

#### Result

Table 2-3 lists the number of Corporate & City Growth building assets by building subcategory for each of the CGI ranges and suggests that 73% of the building assets are considered to be in either a good or very good condition and only 5% of building assets have a CGI greater than 2.6.

Table 2-3 CGI of Corporate & City Growth							
		CGI Ranges					
Building Subcategory	<- Ve	ery Good		Very Poo	Total		
	1.0-1.4	1.4-1.7	1.7-2.2	2.2- 2.6	>2.6		
Commercial Property	2	2	1	0	0	5	
Holiday Parks	12	24	9	1	2	48	
Municipal Buildings	1	1	0	0	0	2	
Saleyards	1	1	1	0	1	4	
Tourist Facility	21	12	4	5	2	44	
Total	37	40	15	6	5	103	
Proportion	36%	39%	15%	6%	5%	100%	

Improvement Action: The total number of buildings where a CGI has been calculated is 103. While there are 110 buildings included in the Corporate & City Growth, 7 buildings have been excluded from the CGI calculations as these buildings have no components. It is recommended that these buildings are reassessed to ensure that all relevant components have been captured.

## 2.4 Description of Components

#### 2.4.1 Component Groups and Types

Table 2-4 provides a breakdown of the number of components by building subcategory for the Corporate & City Growth buildings. A total of 336 unique components have been assessed that identify 10,884 assets, i.e. a component can have multiple assets within a building.

Table 2-4 Building Subcategory Component Breakdown					
Building Subcategory No. Components Proportion (%					
Commercial Property	1,333	12%			
Holiday Parks	4,364	40%			
Municipal Buildings	1,954	18%			
Saleyards	418	4%			
Tourist Facility	2,815	26%			
Total	10,884	100%			

The Gross Replacement Cost (GRC) of the assessed components has been identified as \$26.2 million. Table 2-5 and Table 2-6 summarises the GRC by component group and component type respectively. The Interior Finishes and External Fabric components have the highest GRC of \$10.3 million and \$7.6 million respectively while the Sporting components have the lowest GRC of \$2K.

То	tal	10,884	\$26,228,057			

#### 2.4.2 Condition

Overall the assessed building components of the Corporate & City Growth buildings are in a very good condition, in which 64% of components in very good condition (by value - \$16.9 million) and 29% of components in good condition (by value - \$7.6 million) as illustrated in Figure 2-1. A further 4% are in moderate condition (by value - \$1.2 million) while 2% of components are in a poor or very poor condition (by value - \$550K).

The \$550K of components in poor or very poor condition largely relates to the following component groups:

- External Fabric at \$171K
- Interior Finishes at \$152K
- Exterior & Sundries at \$114K
- Services at \$76K
- Open Space at \$34K

Figure 2-1 Condition Profile of Corporate & City Growth Buildings

The component criticality criteria established within the SPM Assets Reference library provides a consistent framework to prioritise works at a component level and aggregate up to a component group and project level. It is based on the following criteria:

- Consequence of Failure the impact failure of a component will have on the asset overall and business continuity
- Occupational Health and Safety the importance of a component in relation to the health and safety of users and occupants of the building or asset
- > **Appearance** the importance of a component appearance

A component is classified as critical by considering the following criteria:

- > Consequence of Failure of medium-high to high criticality
- > Occupational Health and Safety of medium-high to high criticality
- Appearance of high criticality

In total there are 5,315 components that fit the above criteria with a total GRC of \$15.0 million. Table 2-7 lists the critical assets by component group and type, the number of components and GRC.

Table 2-7 List of Critical Components				
Component Group	Component Type	No. Components	GRC

#### 2.4.4 Commercial Property

There are 173 unique components that describe the 1,333 assets associated with the Commercial Property subcategory. The Gross Replacement Cost (GRC) of the assessed components is \$2.8 million. Table 2-8 details the replacement cost of assets by component group and type.

Table 2-8 GRC By Component Group and Type – Commercial Property			
Component Group	Component Type	No. Components	GRC
	Misc.	4	17,776
Exterior & Sundries	Paving	5	21,100

	Sanitary Plumbing	86	136,911		
	Special Services	4	856		
Tot	al	1,333	\$2,823,385		

Overall the components are in a very good condition with 74% of components in very good condition (by value - \$2.1 million) and 20% of components in good condition (by value - \$555K) as illustrated in Figure 2-2. A further 3% are in moderate condition (by value - \$89K) and 3% in poor or very poor condition (by value - \$78K).

Figure 2-2 Condition Profile of Commercial Property

The \$78K of components in poor or very poor condition largely relate to the following component groups.

- Services \$42K
  - o R.S.L. Clubrooms \$34K
- External Fabric \$19K
  - R.S.L. Clubrooms \$11K

#### 2.4.5 Holiday Parks

There are 201 unique components that describe the 4,364 assets associated with the Holiday Parks subcategory. The Gross Replacement Cost (GRC) of the assessed components is \$8.9 million. Table 2-9 details the replacement cost of assets by component group and type.

WARRNAMBOO

То	tal	4,364	\$8,931,860

Overall the components are in a very good condition with 54% of components in very good condition (by value - \$4.8 million) and 38% of components in good condition (by value - \$3.4 million) as illustrated in Figure 2-3. A further 6% are in moderate condition (by value - \$517K) and 2% in poor or very poor condition (by value - \$203K).

Figure 2-3 Condition Profile of Holiday Parks

The \$203K of components in poor or very poor condition largely relate to the following component groups.

- External Fabric \$71K
  - Surfside Holiday Park Residence \$17K
  - Surfside Holiday Park Former Amenities Block 1 (Storage Building) \$11K
- Interior Finishes \$68K
  - Shipwreck Bay Holiday Park Kiosk/Flat \$17K
  - Shipwreck Bay Holiday Park Amenities Block 6 \$10K
- Exterior & Sundries \$44K
  - Surfside Holiday Park Grounds \$24K
  - Surfside Holiday Park BBQ Shelter 2 (Opp. Workshop) \$12K

## 2.4.6 Municipal Buildings

There are 182 unique components that describe the 1,954 assets associated with the Municipal Buildings subcategory. The Gross Replacement Cost (GRC) of the assessed components is \$5.6 million. Table 2-10 details the replacement cost of assets by component group and type.

Table 2-10 GRC By Component Group and Type – Municipal Buildings							
Component Group	Component Type No. Components GRC						
	Misc.	4	111,349				
Exterior & Sundries	Paving	6	25,082				
	Sundries	4	2,400				

## Warrnambool City Council

Table 2-10 GRC By Component Group and Type – Municipal Buildings				
Component Group	Component Type	No. Components	GRC	
	External Stairs	19	172,742	
External Fabric	External Walls	27	536,211	
	Roof	39	239,102	
	Windows & Doors	83	519,226

Т	otal	1,954	\$5,649,582	

Overall the components are in a very good condition with 73% of components in very good condition (by value - \$4.1 million) and 25% of components in good condition (by value - \$1.4 million) as illustrated in Figure 2-4. A further 2% are in moderate condition (by value - \$109K) and 1% in a poor or very poor condition (by value - \$55K).

Figure 2-4 Condition Profile of Municipal Buildings

The \$55K of components in poor or very poor condition largely relate to the following component groups.

- Interior Finishes \$35K
  - Old Post Office \$19K
  - Municipal Offices \$16K
- External Fabric \$14K
  - Old Post Office \$12K

#### 2.4.7 Saleyards

There are 104 unique components that describe the 418 assets associated with the Saleyards subcategory. The Gross Replacement Cost (GRC) of the assessed components is \$1.2 million. Table 2-11 includes a breakdown of the replacement cost of assets by component group and type.

Table 2-11 GRC By Component Group and Type – Saleyards				
Component Group	Component Type	No. Components	GRC	
Exterior & Sundries	Paving	5	20,000	
Exterior & Sunaries	Sundries	3	3,480	
	External Stairs	2	3,136	
External Cobrig	External Walls	19	138,294	
External Fabric	Roof	30	51,726	
	Windows & Doors	34	128,793	
Interior Finishes	Ceiling Finishes	40	102,320	
	Fixtures & Fittings	46	119,804	

## **Asset Management Plan**

Table 2-11 GRC By Component Group and Type – Saleyards				
Component Group	Component Type	No. Components	GRC	
	Floor Finishes	11	25,768	
	Interior Doors	44	32,613	
	Interior Walls	24	231,431

## 2.5 PQS Assessment Results

The functionality and performance of each building asset within Council's Corporate & City Growth portfolio has been reviewed and measured using the Property Quality Standard (PQS) process, described in IPWEA/NAMS Practice Note #3. Adopting the PQS mechanism enables the measurement of 'level of service' statements and identification of backlogs. Future scoped projects would address these backlogs and as such, the PQS mechanism will provide a way to prioritise works.

Each PQS question has an 'answer definition' that allows the surveyor to determine the level of service, which will in turn produce a cost if the question fails the standard. This means that the Council can vary the standards so that the cost to achieve a desired standard can easily be modelled. Refer to APPENDIX B for the full list of PQS questions.

Applying PQS to buildings and keeping the data up to date will identify quality shortfalls that will need to be addressed through asset and non-asset initiatives.

For Council's building assets, the following set list of categories of PQS statements were used to identify potential shortfalls associated with the following categories:

- Risk
  - Injury/Illness
  - Risk Exposures
- Services
  - o Accessible
  - Functional
  - o Healthy
  - o Quality
  - o Safety
  - Sustainability

Note: All PQS statements are aligned to today's standards. Any failures of PQS statements needs to take into consideration that building assets would have been built in accordance with standards at that time.

#### 2.5.1 PQS Assessment Results

A total of 108 Corporate & City Growth buildings underwent the PQS assessment. Table 2-13 summarises the results of by statement category. Overall, the buildings comply with 95.4% of the PQS statements.

## Warrnambool City Council

PQS Category 1	PQS Category 2	Fail	Pass	Total	Pass %	
Risk	Injury/Illness	13	472	485	97.3%	
Risk	Risk Exposures	1	290	291	99.7%	
Services	Accessible	42	346	388	89.2%	
Services	Functional	28	554	582	95.2%	
Services	Healthy	6	672	678	99.1%	
Services	Quality	47	514	561	91.6%	
Services	Safety	9	88	97	90.7%	
Services	Sustainable	26	653	679	96.2%	
Тс	otal	172	3,589	3,761	95.4%	

Improvement Action: It is recommended that PQS assessments are carried out on all Corporate & City Growth buildings to identify potential functionality and performance shortfalls. It also recommended that costs are calculated to rectify any issues identified by the PQS assessments.

Warrnambool City Council

# **3** Levels of Service

#### 3.1 Overview

Understanding the desired levels of service of a building within a fixed asset portfolio is fundamental in order to match assets to service delivery objectives. These asset related requirements are documented in a 'Level of Service Statement' which should align with the organisation's objectives.

The factors affecting levels of service of any organisation can be broken into three broad categories.

- 1. **Customer requirements**: The expectations of the customer served by the organisation through the utilisation of the asset.
- 2. **Legislative requirements**: The mandatory provisions or standards set by local, national or international bodies that govern asset utilisation, particularly in terms of various issues affecting the general public.
- 3. **Strategic goals**: Broad framework-based management directives consistent with the organisation goals and values stated in policies, objectives, and the user asset management plans

The Level of Service statement is the basis for the assessment of the portfolio and the long-term financial planning of operational and capital expenditure. According to this statement, the asset plan targets expenditure to address immediate shortfalls (deferred renewals/backlog) and future requirements as planned expenditure.

Figure 3-1 Level of Service Process Flow

#### Warrnambool City Council

The key principles are:

- Clearly defined strategic objectives
- In support of the strategic objectives, an understanding of the difference between technical and customer related objectives
- Defined targets
- > Statement of how the performance will be measured against the targets
- Current performance measurement against the level of service to identify the shortfalls

## **3.2** Alignment with Council's Level of Service Measures

In the 'service-led asset planning' context, the assets are in place to provide for the people that deliver the service. For example, to deliver services to the community, a local government needs operational buildings. This section defines the services being provided by the organisation.

Establishing both customer and technical level of service standards is a challenging process that often takes several years to complete. Council will need to undertake customer surveys to identify the community's expectations and use this information to establish the 'customer' level of service standards for the provision of community services associated with buildings.

The customer level of service standard identifies the type and number of buildings required to deliver community services and achieve strategic objectives, whereas the technical level of service standards identify the quality of the individual buildings considering function, condition and energy efficiency as examples.

## **3.3 Customer Levels of Service**

#### 3.3.1 Current Strategic Levels of Service

Council has not established customer strategic levels of service for its building assets.

Improvement Action: It is recommended that Council develops customer strategic levels of service which includes items such as service level agreements, response timeframes for rectifying issues, cleaning agreements etc.

#### 3.3.2 Future Strategic Levels of Service

As the population of Warrnambool City is expected to grow over the next 16 years, from a forecast of 36,575 in 2020 to 46,210 in 2036 (Source: .id the population experts), there will be greater demand for access to the Corporate & City Growth buildings provided by Council. Figure 3-2 below illustrates the expected population growth of Warrnambool City over a 20-year period (2016-2036).

Figure 3-2 Forecasted Population for Warrnambool City (2016- 2036)

As stated in the Community Services and Infrastructure Plan 2013 (CSIP), there is expected to be a 35% increase in the number of people across all age groups. Table 3-2 lists the expected changes in the age groups of Warrnambool City between 2016 and 2036.

Table 3-1 Warrnambool City - Total Persons <sup>1</sup> between 2016 and 2036								
Age group (years)	2016		2026		2036		Change between 2016 and 2036	
	Number	%	Number	%	Number	%	Number	%
0 to 4	2,085	6.1	2,679	6.6	3,053	6.6	968	46.4
5 to 9	2,196	6.4	2,696	6.7	3,084	6.7	888	40.4
10 to 14	2,080	6.1	2,587	6.4	3,063	6.6	983	47.3
15 to 19	2,286	6.7	2,579	6.4	2,993	6.5	707	30.9
20 to 24	2,355	6.9	2,504	6.2	2,879	6.2	524	22.3
25 to 29	2,315	6.8	2,426	6.0	2,688	5.8	373	16.1
30 to 34	1,984	5.8	2,456	6.1	2,724	5.9	740	37.3
35 to 39	1,939	5.7	2,522	6.3	2,825	6.1	886	45.7
40 to 44	2,069	6.0	2,445	6.1	2,849	6.2	779	37.7
45 to 49	2,251	6.6	2,361	5.9	2,807	6.1	556	24.7
50 to 54	2,207	6.4	2,343	5.8	2,687	5.8	480	21.7
55 to 59	2,182	6.4	2,382	5.9	2,571	5.6	389	17.8
60 to 64	2,032	5.9	2,259	5.6	2,454	5.3	422	20.8
65 to 69	1,893	5.5	2,147	5.3	2,384	5.2	491	25.9
70 to 74	1,451	4.2	1,920	4.8	2,176	4.7	725	50.0
75 to 79	1,098	3.2	1,660	4.1	1,915	4.1	817	74.4
80 to 84	857	2.5	1,181	2.9	1,521	3.3	663	77.4

 $^{1}% \left( \text{Source: .id, the population experts}\right)$ 

 $\ensuremath{\textcircled{C}}$  2020 SPM Assets Pty Ltd, June 2020 Warrnambool City Council, 7584

# Warrnambool City Council

Table 3-1 Warrnambool City - Total Persons <sup>1</sup> between 2016 and 2036										
Age group	2016		2026		2036		Change between 2016 and 2036			
(years)	Number	%	Number	%	Number	%	Number	%		
85 and over	964	2.8	1,175	2.9	1,537	3.3	573	59.4		
Total	34,243	100%	40,323	100%	46,209	100%	11,966	34.9%		

The expected increase in the population will result in increased demand for access to Corporate & City Growth building assets and their related services and therefore Council will need to adopt a customer level of service to ensure that its assets are well-designed, accessible, sustainable, adaptable and safe.

#### 3.4 Technical Levels of Service

#### 3.4.1 Setting a Building Quality Standard

In Table 3-3 below, an indicative building quality standard for Council's 110 Corporate & City Growth building assets has been established. This indicative standard includes both a CGI target and a maintenance target, measured in an annual percentage spend against the Capital Replacement Value (CRV).

Improvement Action: The building standard assigned to the buildings is for the purpose of the analysis of this report. The actual quality standard needs to be reviewed and assigned to each buildings based on Council's policies and standards and the level of service for each of the buildings.

Table 3-2 B	uilding Quality Standar	d Definition					
Standard	Building Type	Definitions					
	Heritage/Local	CGI < 1.7, Maintenance > 0.5%					
A	Significance	No backlog. Noncritical assets can be in a moderate condition. Regular preventative maintenance.					
	Administration	CGI < 2.0, Maintenance > 0.4%					
В	Aquatic Centres Childcare Commercial Community Centres Libraries Public Halls	No backlog. Noncritical assets can be in a moderate to poor condition. Regular preventative maintenance.					
		CGI < 2.2, Maintenance > 0.3%					
с	Recreational Toilet Blocks	Some backlog allowed for non-critical assets. Selected assets will undergo reactive maintenance, preventative planned maintenance to be utilised otherwise.					
	Depot	CGI < 2.5, Maintenance > 0.25					
D	Storage Utilities	High backlog allowed for non-critical assets. The majority of assets will undergo reactive maintenance, preventative planned maintenance to be limited.					

Table 3-4 lists the buildings which have not met the building quality standard as outlined in Table 3-3. The results for all Corporate & City Growth buildings have been included in APPENDIX C.

Table 3-3 Cond	ition of Community Facility Buildings			
Subcategory	Building Name	Standard	CGI	Result
	Shipwreck Caravan Park Playground	С	4.96	Fail
Holiday Parks	Surfside Holiday Park - Former Amenities Block 1 (Storage Building)	С	2.41	Fail
	Surfside Holiday Park: BBQ Shelter 2 (Opp. Workshop)-	С	3.54	Fail
Saleyards	Warrnambool Livestock Exchange: Pump Shed	D	3.19	Fail
	Flagstaff Hill - Craft Shops - Instrument repairer external	С	2.24	Fail
	Flagstaff Hill - Gaol (near barracks)	С	2.34	Fail
	Flagstaff Hill - Garrison Communal Mess Hall	С	2.25	Fail
Tourist Facility	Flagstaff Hill - Garrison Huts (Old Armoury 5)	С	3.32	Fail
	Flagstaff Hill - Steam Workshop	С	2.86	Fail
	Flagstaff Hill - Store Shed (Bottom of Lower Lighthouse)	С	2.42	Fail
	Flagstaff Hill - The Barn	С	2.57	Fail

#### 3.4.2 Critical Assets in a Poorer Condition

A further generic quality standard can be applied to all Corporate & City Growth buildings that relates to the condition of critical components. In order to meet the quality standard a building is required to have all critical components in a moderate condition or better. No functional or compliance targets have been included in this standard.

Table 3-5 summarises the results of applying the Quality Standard based on the definition described above. See APPENDIX D for detailed results relating to each Corporate & City Growth building.

All building subcategories have critical components in a poor and very poor condition as shown in Table 3-3 below. A total of 244 critical components have been assessed to be in a poor or very poor condition with a replacement cost of \$327K. The most significant subcategories in terms of critical components identified to be in a poor or very poor condition by replacement cost are the Tourist Facilities at \$122K and the Holiday Parks at \$89K.

Table 3-4 Result of Quality Standard for Critical Components									
Building Subcategory	No. Critical Components	Critical Components in Poor or Very Poor Condition							
	components	No.	GRC						
Commercial Property	646	30	66,878						
Holiday Parks	2,259	57	89,379

# 4 Lifecycle Management

#### 4.1 Overview

The strategy of lifecycle management is to maintain the assets to a level that meets the quality standards and asset management objectives in a way that minimises risk. Council achieves this through the following traditional lifecycle management process:

- Renewal and replacements informed by the lifecycle analysis reports from the SPM Assets software. The Project-Planning module would be used to apply levels of service standards at each site resulting in planned-projects. Moving from a component level analysis to a project level decision making process. This includes resulting risk ratings to prioritise the timing of future projects.
- Upgrades the resulting projects that have been included within the 'Building Renewal/Replacement Board – 2020' board in the SPM Assets Program application. These projects are based on Council's policies and budgets.
- Growth these are likely to be driven by the 'future demand' analysis and at this stage, and simply list any new buildings or extensions that are identified in current Council planning documents. These projects are included in the 'Building Growth and Improvement Board – 2020 AMP' board within the SPM Assets Program application.
- Operations servicing and inspections of essential services driven by the Building Code of Australia, and annual cost components such as power usage and cleaning.
- Maintenance Council developed preventative maintenance regimes plus reactive maintenance budgets – both balanced with lifecycle renewals to optimise the overall cost of caring for the building.
- Disposals consider implementing a business rule for building disposals plus current Council strategy documents that may identify future strategic disposals. The business rule could be for example – if the calculated renewal costs plus maintenance and operational costs (over 10 years) are more than 30% of the Capital Replacement Value of the building, then consider the building for disposal or major refurbishment.

Section 4.2.1 details the methods in which an asset's lifecycle is calculated within the SPM Assets database.

#### 4.2 Renewal and Replacements

#### 4.2.1 Predictive Deterioration Models Applied

The data collected through the condition survey process has been analysed using 'age', 'condition' and 'condition-age' based analysis to determine the likely remaining life of each component. The analysis considers the parameters illustrated in Figure 4-1 and is largely influenced by the base life range, the KPI score, age and the assessed condition grade. It is important that the analysis theory as detailed below is understood.

Age Based: - Determines the remaining life considering the base life range, criticality and component age. Condition or the assessed remaining life is not considered. This can be the most effective algorithm for plant and equipment style components. The likely replacement year equals the construction year plus calculated base life. For example, a component that was installed in 1998 with a 15-year calculated base life would most likely require replacement in 2013. As it is currently 2020, it would be 7 years overdue

#### Warrnambool City Council

for replacement. However, if the component is non-critical, this could be acceptable, and it could be allowed to run to failure.

- Condition Based: An asset has a base life range, i.e. it's expected to be fully renewed or totally replaced at some point within this range. The calculated base life is determined by applying the resulting KPI score to the base life range, i.e. if the asset is critical then the calculated base life is likely to be closer to the lower end of the range whereas if it is non-critical, then it will be closer to the upper end of the range.
- Condition-Age Based: the remaining life generated by the Condition-Age algorithm is influenced by the age of the component, i.e. if an asset has been assessed to be in a very good condition and is old then the remaining life is calculated from the end of the condition grade 1 band. This significantly influences the remaining life of assets assessed to be in a very good and good condition. This algorithm has been applied to various structural and mechanical services assets.

Of the 10,884 components for the Corporate & City Growth building assets in the SPM Assets database, the following breakdown of deterioration models has been applied:

- > 10,798 components use the Condition based model
- > 17 components use the Condition-Age based model
- > 69 components use the Age based model

Figure 4-1 Principles of the predictive model

#### 4.2.2 Determining Backlog Renewals

The backlog renewal position has been determined based on any component that has a calculated year of replacement prior to 2020. There are a large number and value of assets that are in a backlog position based on this rule, which is summarised in Table 4-1 by component group and component type. The total calculated backlog for the Corporate & City Growth buildings is \$1.8 million, with the majority being associated with Exterior & Sundries (\$436K), Services (\$369K) and Interior Finishes (\$358K).

# Warrnambool City Council

The majority of the assets with a calculated year of replacement prior to 2020 are those that were assessed as being in a poor or very poor condition, while some are in good or moderate condition but have a short overall base life.

Table 4-1 Potential B	acklog by Component G	iroup and Type					
Component Group	Component Type	No. of Instances	Calculated Backlog				
	Misc.	22	240,790				
Exterior & Sundries	Paving	5	44,700				
	Sundries	18	150,402				
	Electrical	66	108,027				
Services	Fire Services	8	7,216				
Services	Mechanical	38	143,423				
	Sanitary Plumbing	70	110,762				
	Ceiling Finishes	45	52,461				
	Fixtures & Fittings	38	45,619				
Interior Finishes	Floor Finishes	60	52,505				
Interior Finishes	Interior Doors	109	49,450				
	Interior Walls	8	47,083				
	Wall Finishes	145	110,849				
	External Stairs	9	19,444				
External Fabric	External Walls	52	67,724				
	Roof	39	173,935				
	Windows & Doors	52	48,686				
	Access	15	112,083				
Onen Crase	Fences & Walls	24	153,096				
Open Space	Gates	1	15,018				
	Signs	3	1,007				
Sporting	Poles & Goals	1	2,154				
Total 828 \$1,756,434							

#### 4.2.3 Portfolio Renewal Forecast

Figure 4-2 shows the forecast 15-year renewals expenditure required for all Corporate & City Growth building subcategories, including the possible backlog. It shows that over the next 15 years \$12.7 million is required (an annual average of \$849K) to address both the backlog (a total value of \$1.8 million as detailed in Section 4.5.2), and annual lifecycle expenditure. The three highest peaks of expenditure are the backlog, 2022 and 2032.

Figure 4-2 Renewal Forecasts over 15 years for all Corporate & City Growth Buildings

It is important to recognise that the lifecycle projections are the raw results from the predictive model in the SPM Assets software and will need to be further modelled to determine pragmatic projects that align with the available funding.

#### 4.2.4 Renewal Forecasts by Building Subcategory

#### **Commercial Property**

Figure 4-3 shows the forecast 15-year renewals expenditure required for the Commercial Property subcategory, including possible backlog. The forecast renewal expenditure is \$1.5 million over the next 15 years, with an average annual expenditure of \$97K. The backlog for this building subcategory is \$224K. There are four main peaks over the next 15 years: backlog, 2023 and 2026.

Figure 4-3 Renewal Forecasts for Commercial Property

# Warrnambool City Council

The main contributors to the top three annual peaks in lifecycle expenditure are the following:

- Backlog:
  - o R.S.L. Clubrooms
    - The replacement of the metal roofing \$31K
    - The replacement of the air-cooled package unit (ceiling unit) \$28K
    - The replacement of the asphalt/sealed areas \$26K
    - The replacement of the Colorbond roofing \$12K
    - The replacement of the internal wall paint \$10K
  - Proudfoots Boathouse
    - The replacement of the timber lining \$26K
- Year 2023:
  - Myrtle Bar & Kitchen (formerly Deakin on Timor)
    - The replacement of the ceiling paint \$24K
    - The replacement of the internal wall paint \$19K
  - Proudfoots Boathouse
    - The replacement of the ceiling paint \$21K
  - o R.S.L. Clubrooms
    - The replacement of the ceiling paint \$22K
    - The replacement of the internal wall paint \$14K
  - McGennans Toilet Block (Near Kiosk)
    - The replacement of the stainless-steel urinal \$11K
- > Year 2026:
  - o R.S.L. Clubrooms
    - The replacement of the cool room structure \$37K
    - The replacement of the kitchen joinery \$25K
  - Proudfoots Boathouse
    - The replacement of the cool room structure \$19K
    - The replacement of the kitchen joinery \$17K
    - The replacement of the decking \$13K
  - Main Beach Kiosk
    - The replacement of the cool room structure \$19K
    - The replacement of the metal roofing \$12K

#### **Holiday Parks**

Figure 4-4 shows the forecast 15-year renewals expenditure required for the Holiday Parks subcategory, including possible backlog. The forecast renewal expenditure is \$6.1 million over the next 15 years, with an average annual expenditure of \$407K. The backlog for this building subcategory is \$642K. Like the overall renewals for the portfolio, the largest peaks of expenditure are the backlog, 2022 and 2032.

Figure 4-4 Renewal Forecasts for Holiday Parks

The main contributors to the top three annual peaks in lifecycle expenditure are the following:

- Backlog:
  - Surfside Holiday Park Grounds
    - The replacement of the electric BBQ \$24K
    - The replacement of the flood lights \$23K
    - The replacement of the pole top lights (external) \$18K
    - The replacement of the boom gate \$15K
    - The replacement of the timber staircase \$14K
  - Shipwreck Bay Holiday Park Amenities Block 4
    - The replacement of the concrete tiled roofing \$34K
    - The replacement of the toilet partition doors \$12K
  - Shipwreck Bay Holiday Park Kiosk/Flat
  - The replacement of the ducted split air conditioning unit \$13K
  - Surfside Holiday Park Former Amenities Block 4 Disused Female
    - The replacement of the internal brick wall \$21K
  - Surfside Holiday Park Amenities Block 6 (Bream)
    - The replacement of the stainless-steel urinal \$11K
    - The replacement of the metal roofing \$15K
- Year 2022:

0

- Surfside Holiday Park Grounds
  - The replacement of the tap single \$171K
  - The replacement of the caravan power hook up \$80K
- Shipwreck Bay Holiday Park Grounds
  - The replacement of the tap single \$122K
    - The replacement of the caravan power hook up \$54K
- Surfside Holiday Park Residence
  - The replacement of the aluminium windows \$14K
- Surfside Holiday Park Amenities Block 3

.

# Warrnambool City Council

- The replacement of the shower head and mixer \$12K
- The replacement of the internal wall paint \$10K
- The replacement of the internal wall paint Shipwreck Bay Holiday Park Amenities Block 1
  - The replacement of the toilet partition doors \$10K
- Year 2032:
  - Surfside Holiday Park Grounds
    - The replacement of the caravan power hook up \$80K
    - The replacement of the flood lights \$23K
    - The replacement of the pole top lights (external) \$18K
  - Surfside Holiday Park Amenities Block 2
    - The replacement of the concrete tile roofing \$41K
    - The replacement of the stainless-steel kitchen bench \$35K
  - Shipwreck Bay Holiday Park Grounds
  - The replacement of the caravan power hook up \$56K
  - Shipwreck Bay Holiday Park Amenities Block 2
    - The replacement of the concrete tile roofing \$28K

  - The replacement of the concrete tile roofing \$15K
     Surfside Holiday Park Amenities Block 7 (Flathead)
  - The replacement of the stainless-steel kitchen bench \$11K
  - Shipwreck Bay Holiday Park Amenities Block 4
  - The replacement of the concrete tile roofing \$27K
  - Shipwreck Bay Holiday Park Managers Office
    - The replacement of the concrete tile roofing \$17K
    - The replacement of the ceiling paint \$11K
  - Surfside Holiday Park Residence
    - The replacement of the concrete tile roofing \$18K
    - Surfside Holiday Park Amenities Block 6 (Bream)
    - The replacement of the stainless-steel kitchen bench \$13K
  - Surfside Holiday Park Amenities Block 5 (Snapper)
    - The replacement of the stainless-steel kitchen bench \$26K
  - Shipwreck Bay Holiday Park Kiosk/Flat
  - The replacement of the ducted split air conditioning unit \$13K
  - o Surfside Holiday Park Kiosk
    - The replacement of the concrete tile roofing \$10K
  - Surfside Holiday Park Amenities Block 3
    - The replacement of the internal wall paint \$10K
  - Shipwreck Bay Holiday Park Amenities Block 1
    - The replacement of the toilet partition doors \$10K
  - Shipwreck Bay Holiday Park Laundry (Store & Workshop)
    - The replacement of the concrete tile roofing \$10K

#### **Municipal Buildings**

0

Figure 4-5 shows the forecast 15-year renewals expenditure required for the Municipal Buildings subcategory, including possible backlog. The forecast renewal expenditure is \$1.8 million over the next 15 years, with an average annual expenditure of \$119K. The backlog for this building subcategory is \$77K. The largest annual peaks for this subcategory are in 2026, 2031 and 2032.

Figure 4-5 Renewal Forecasts for Municipal Buildings

The main contributors to the top three annual peaks in lifecycle expenditure are the following:

- Year 2023:
  - Municipal Offices
    - The replacement of the centrifugal ventilation fans \$57K
    - The replacement of the internal wall paint \$43K
    - The replacement of the CCTV monitor/cameras \$16K
    - Old Post Office
      - The replacement of the internal wall paint \$14K
- Year 2031:

0

- Municipal Offices
  - The replacement of the kitchen joinery \$63K
  - The replacement of the cabinetry \$54K
  - The replacement of the cliplock roofing \$43K
  - The replacement of the fluorescent lights \$36K
  - The replacement of the automatic opening doors \$16K
  - The replacement of the exit signs (illuminated) \$10K
- Old Post Office
  - The replacement of the exit signs (illuminated) \$10K
  - The replacement of the fluorescent lights \$10K
- Year 2032:
  - Municipal Offices
    - The replacement of the carpet tiles \$61K
    - The replacement of the centrifugal ventilation fans \$57K
    - The replacement of the blinds/curtains \$10K
  - Old Post Office
    - The replacement of the carpet tiles \$58K

#### Saleyards

Figure 4-6 shows the forecast 15-year renewals expenditure required for the Saleyards subcategory, including possible backlog. The forecast renewal expenditure is \$429K over the next 15 years, with an average annual expenditure of \$29K. The backlog for this building subcategory is \$141K. The backlog accounts for the highest peak of expenditure as all other years are below \$40K.

Figure 4-6 Renewal Forecasts for Saleyards

The main contributors to backlog are the following:

Backlog:

0

• Saleyards – Grounds

.

- The replacement of the timber post & rail fence \$78K
  - The replacement of the block wall \$10K
- Saleyards Agent Offices/Canteen
  - The replacement of the internal brick wall \$25K

#### **Tourist Facilities**

Figure 4-7 shows the forecast 15-year renewals expenditure required for the Tourist Facilities subcategory, including possible backlog. The forecast renewal expenditure is \$2.9 million over the next 15 years, with an average annual expenditure of \$197K. The highest peaks of expenditure are the backlog and 2032.

Figure 4-7 Renewal Forecasts for Recreation Assets

The main contributors to the top two annual peaks in lifecycle expenditure are the following:

- Backlog:
  - Flagstaff Hill Grounds
    - The replacement of the bluestone paving \$188K
    - The replacement of the timber jetty \$126K
    - The replacement of the asphalt/sealed areas \$78K
    - The replacement of the concrete paths/ramps \$35K
    - The replacement of the post & rail fence \$33K
    - The replacement of the pole top lights (external) \$32K
    - The replacement of the picket fence \$17K
  - Flagstaff Hill Entrance Building
    - The replacement of the water pump \$9K
      - The replacement of the carpet \$9K
      - The replacement of the timber ramp \$8K
    - The replacement of the internal wall paint \$8K
  - Restoration/Boat Builder Workshop
    - The replacement of the metal cladding \$10K
    - Flagstaff Hill Garrison Communal Mess Hall
      - The replacement of the metal cladding \$11K
- Year 2032:

0

- Flagstaff Hill Entrance Building
  - The replacement of the steel handrail \$197K
  - The replacement of the CCTV camera/monitor \$23K
  - The replacement of the internal wall paint \$22K
  - The replacement of the low voltage down lights \$20K
  - The replacement of the ceiling paint \$15K
  - The replacement of the lamipanel \$12K
  - The replacement of the air handler units \$10K
- Flagstaff Hill Grounds

# Warrnambool City Council

- The replacement of the asphalt/sealed areas \$56K
- The replacement of the pole top lights (external) \$18K

#### 4.2.5 Condition Forecasting

Although the Condition Grade Index (CGI) provides a good measure at the time of survey, the condition grades will change over time as components deteriorate further and are replaced. While critical components will be proactively maintained to ensure the condition is kept within the defined standards, other components have a reactive maintenance requirement meaning that they will be repaired or replaced when they fail.

Figure 4-8 shows the forecasted condition over the next 15 years for the Corporate & City Growth buildings assuming that the components are replaced/renewed when required. It shows that replacing all components at their forecasted renewal date is required to maintain the CGI at the current levels. Figure 4-9 shows a 'worst-case scenario'; the forecasted condition assuming no renewals or replacements of components for the same period of 15 years.

The black line indicates the overall CGI of the assets at that point in time based on the condition, assigned base life, criticality factors and the unit rate of the individual component. The coloured sections from green to red represent the proportion of components in the five condition grades.

Figure 4-8 Forecasted Condition over the next 15 years assuming components are renewed

Figure 4-9 Forecasted Condition over the next 15 years assuming no renewal of components

© 2020 SPM Assets Pty Ltd, June 2020 Warrnambool City Council, 7584

#### 4.3 Upgrades

Table 4-2 below lists a total of 30 planned upgrade projects with an estimated expenditure of \$7.2 million over the next five years. These projects have been compiled from the workshops held between Council and SPM Assets in February 2020, the Long Term Financial Plan (LTFP) and Council's renewal planning documents. Further details about the projects developed during the workshops can be found within the 'Building Renewal/Replacement Board – 2020 AMP' in the SPM Assets Programs application.

#### 4.4 Growth

As outlined in Section 3.3.1, there is expected to be an increase in the future demand for Corporate & City Growth buildings. In order to meet the increased demand, a list of projects were developed during the workshops held between Council and SPM Assets in February 2020. These projects are solely for new buildings or extensions that have been identified as 'wish list' items as part of Council's strategic long term planning. Table 4-3 lists the projects by project name and the estimated annual expenditure. Currently there are only two growth projects for the Corporate & City Growth buildings which are still in the concept stage. Further details of these projects can be found within the 'Building Growth and Improvement Board – 2020 AMP' board in the SPM Assets Programs application.

Subcategory	Project Name	Project Description	Source	2020	2021	2022	2023	2024	Total		
Municipal Buildings	New Library	Current library is located within the Municipal Offices building. Expected to move out of building in next two years. A new library building is estimated to cost \$3 million over the next two to three years plus \$0.5 million for design and development documentation. Cost and year to be confirmed.	Workshop								
	Library – Lift	New lift to be installed after library is relocated. Cost and year to be confirmed.	Workshop								
		Total									

#### 4.5 Operations Plan

The operational expenditure budget allows for costs associated with the use of the building such as salaries and wages, cleaning, security, property management, insurance, council rates, water usage and power usage. Council's existing operations budget has not been provided for the purposes of this report. As such, a generic percentage of the total building valuation will be used in the Financial Summary in Section 6.

# 4.6 Maintenance Plan

The current maintenance policy is mainly reactive alongside the routine maintenance of selected services. Council's existing maintenance budget has not been provided for the purposes of this report. As such, a generic percentage of the total building valuation will be used for both cyclical and reactive maintenance in the Financial Summary in Section 6.

#### 4.7 Disposals

The Old Post Office may be disposed, however this requires further discussion within Council.

Warrnambool City Council

# 5 Risk Management

#### 5.1 Principles

The Standard AS/NZS ISO 31000: 2009 has been referred to in establishing a Risk Matrix to determine the risk associated with the building portfolio. Risks can include financial, environmental, social, operational and health and safety considerations. Typical risks relevant to Council buildings are:

- Asset Management
- Environmental Hazards
- Financial, Funding Fraud
- Customer Services
- Contracting Performance
- > Environmental Hazards
- > Governance

- Human Resources
- Information Management
- Legislative Compliance
- Planning, Strategy, Growth
- Project / Programme Management
- Public Health & Safety

The following options are available for mitigating risks to reduce the cause, probability or impact of failure:

- 1. Do nothing Accept the risk
- 2. Management Strategies Implement enhanced strategies for demand management, contingency planning, quality processes, staff training, data analysis and reporting, reduce the desired level of service, etc.
- 3. Operational Strategies Actions to reduce peak demand or stresses on the asset, operator training, documentation of operational procedures, etc.
- 4. Maintenance Strategies Modify the maintenance regime to make the asset more reliable or to extend its life
- 5. Asset Renewal Strategies Rehabilitation or replace assets to maintain service levels
- 6. Development Strategies Investment to create a new asset or augment an existing asset
- Asset Disposal/Rationalisation Divestment of assets surplus to needs due to a service being determined as a non-core activity or assets can be reconfigured to better meet needs

#### 5.2 Predictive Deterioration Model

The lifecycle replacement model is inherently risk based and therefore can be used as the risk analysis platform. The following factors are considered at a component level:

- > Asset naming convention related to the failure event
- Criticality criteria and building importance (functional weighting) the consequence of failure
- Base life range the statistical model that provides a 90% likelihood that the asset will need to be renewed or replaced within the range
- > The predictive model the likelihood of failure
- > The unit replacement rate the cost to mitigate the risk and best aggregated into a project or a procurement

These parameters are used in the following way:

1. To reduce the risk of failures to service delivery

#### Warrnambool City Council

- 2. Influences the predicted time of replacement or renewal
- 3. Smooths the longer-term projections, i.e. with limited budgets, the result will ensure assets that have higher criticality will be considered first
- 4. Prioritisation of projects, i.e. the aggregation of criticality factors combined with building importance will ensure the more important projects are implemented first

#### 5.3 Council's Risk Management Framework

Council's Risk Management Framework is outlined within the Risk Management Policy 2015. Council's policy is to identify and manage risk in accordance with approved standards and continually improving practices.

Council commits to the following risk management objectives/statements:

- We will apply a coordinated and integrated approach to risk management across Council. Consistent with the principles of AS/NZS ISO Standards
- Council through its Audit and Risk committee shall ensure the establishment, implementation and ongoing review of the Council's risk management framework, internal compliance and control systems
- Risk management will be an integral part of planning and decision-making processes
- We will adopt risk management strategies which promote confidence in the achievement of optimal business & community outcomes
- > We will establish a culture of risk consciousness within our organisation and promote risk awareness with our stakeholders
- Communication within the stakeholder community in relation to the identification and management of risk is encouraged
- We will develop and continually improve risk management practices based on established standards and industry practice
- > We will apply a coordinated and integrated approach to risk management
- There is accountability assigned to all those with risk management responsibilities
- Council staff will be provided with the necessary training to allow them to undertake their risk management duties

#### 5.4 Current Component Risk Matrix

A component risk score is a measure of the consequence of failure against and the likelihood of failure. An explanation of how the risk ratings have been calculated can be found in APPENDIX E. Table 5-1 shows the proportion of the Corporate & City Growth components by their GRC and risk score in a risk matrix. The likelihood is shown in the columns of the table with consequence being shown in the rows. The risk matrix, developed by SPM Assets, uses the raw outputs of the SPM Assets database at a component level. It shows that approximately \$127K of components are at extreme risk and \$1.5 million are at high risk.

Table 5-1 Component Risk Matrix and GRC										
Risk Consequence	Unlikely	Possible	Likely	Probable	Almost Certain					
/ Likelihood	(1)	(2)	(3)	(4)	(5)					
Catastrophic	Medium (5)	High (10)	High (15)	Extreme (20)	Extreme (25)					
(5)	-	-	-	-	-					

# WARRNAMBOOL CITY COUNCIL

# Asset Management Plan

## Warrnambool City Council

Table 5-1 Compon	Table 5-1 Component Risk Matrix and GRC						
Risk Consequence	Unlikely	Possible	Likely	Probable	Almost Certain		
/ Likelihood	(1)	(2)	(3)	(4)	(5)		
Major	Medium (4)	Medium (8)	High (12)	High (16)	Extreme (20)		
(4)	\$4,002,359	\$273,902	\$79,615	\$276,737	\$126,787		
Moderate	Low (3)	Medium (6)	Medium (9)	High (12)	High (15)		
(3)	\$16,656,587	\$1,046,266	\$337,212	\$637,323	\$379,420		
Minor	Low (2)	Medium (4)	Medium (6)	Medium (8)	High (10)		
(2)	\$2,170,387	\$84,923	\$59,489	\$85,816	\$17,536		
Insignificant	Low (1)	Low (2)	Low (3)	Medium (4)	Medium (5)		
(1)	-	-	-	-	-		

Improvement Action: As part of the Improvement Plan, the components that have been identified as extreme risk may need to be further verified by Council prior to any planning of works as well as a review of the component criticalities.

#### 5.5 Project Prioritisation Based on Risk

The list of priority projects will be considered annually to ensure that decisions are made based on evidence from the AMP rather than judgement.

Warrnambool City Council

# **6** Financial Summary

#### 6.1 Overview

Where Section 4: Lifecycle Management identified the range of possible expenditure that needs consideration to achieve the Quality Standards and performance shortfall, the Financial Summary section provides the recommended total expenditure budgets for the next 15 years, including both capital expenditure (capex) and operational expenditure (opex).

#### 6.2 Assumptions

As neither the actual nor historical operational expenditure have been received from Council, estimates have been applied using the assumptions stated within Table 6-1. This has been applied to the total Capital Replacement Value of \$86.5 million to provide an estimated annual cost to include in the financial forecast in Section 6.3.

Table 6-1 Operational Expenditure Estimates						
Expenditure Category	Estimated Annual % of CRV	Estimated Annual Expenditure				
Operations	3.00%	1,341,268				
Cyclical Maintenance	0.40%	178,836				
Reactive Maintenance	1.50%	670,634				
Total	4.90%	\$2,190,738				

Improvement Action: The stated assumptions have been included within the following sections of the AMP. Considering this, Council should carefully review these assumptions and resulting forecasts and update accordingly with a more accurate set of data as required.

It is recommended that these forecasts should be reviewed prior to the adoption of the final 10-year budgets.

#### 6.3 Estimated Forecast

Table 6-2 and Figure 6-1 summarise the total 15 year expenditure for the building portfolio considering the renewal expenditure based on lifecycle, planned upgrade projects and the estimated operational and maintenance costs. The growth projects have been excluded from these figures as there is no budget set aside to implement the projects. A total of \$52.8 million is estimated to be required over the next 15 years, of which \$19.9 million is related to capital expenditure and \$32.9 million to operational expenditure.

Figure 6-1 Estimated 15 Year Financial Forecast for all Corporate & City Growth Buildings

#### 6.4 Funding Required for Maintaining Current Assets

Table 6-3 shows the results of applying the current budgets to maintain and operate the current buildings while only considering addressing the conditionbased shortfalls and the planned upgrade projects. As seen within Table 6-3 and Figure 6-2, over the next 15-year period (between 2020 and 2034) an estimated \$52.8 million is required (\$3.5 million on average per year) to address all expenditure requirements. As the total allocated budget for the next 15 years is \$30.8 million, if Council addresses all condition-based shortfalls and completes the upgrade projects an additional \$22.0 million will be required.

### 7 Asset Management Practices

#### 7.1 Overview

This section summarises the Asset Management Processes, Systems, Data and People. Figure 7-1, a "Hierarchy of Care" of Asset Management practices, should be considered when developing them:

- Operating Energy and Water Use, Waste Disposal, Insurance and Rates
- Maintaining Safety Compliance, Maintenance and Servicing Schedules
- Maintaining a Healthy Environment Cleaning, Security, Pest Control and Waste Removal
- > Expectations Reactive Maintenance
- Extending the Life Planning the Preventative Maintenance
- Sustainability Renewals, Refurbishments and Replacements
- Adapting to its Environment Planning for the Extensions, Upgrades and Reconfigurations

Figure 7-1 Asset Management Hierarchy of Care

#### 7.2 Processes

Warrnambool City Council establishes the roles and responsibilities for all corporate assets (including building assets) as Asset Owner, Asset Maintainer and Service Manager, with the respective responsibilities listed in Table 7-1 below.

Consistent with this model the Community Development & Recreation Culture department is both Asset Owner and Maintainer for all buildings owned and/or managed by Council, with Service Manager's responsibility distributed throughout the organisation based on the building category.

Table 7-1 Responsibility for Asset Management Processes					
Specific Responsibility	Service Manager	Maintainer	Asset Owner		
Plan for the acquisition, creation, modification and disposal of assets	Support	Support	Lead role		
Establish the Level of Service delivery	Lead role	Support	Support		
Determine asset utilisation	Lead role	Support	Support		
Record/supply the data pertaining to asset use	Lead role	-	-		
Maintain the asset to the agreed standard	Support	Lead role	Support		

# Warrnambool City Council

Table 7-1 Responsibility for Asset Management Processes						
Specific Responsibility	Service Manager	Maintainer	Asset Owner			
Advise of any issues relating to the performance of the asset and any opportunities to improve the efficiency of the asset	Lead role	Support	Support			
Record/supply the data pertaining to asset maintenance	Support	Lead role	Support			
Develop and implement the Asset Management Plan	Lead role	Support	Support			
Establish the Level of Service for the asset	Lead role	Support	Support			
Record/supply the data for inventory, valuation & condition	Support	Support	Lead role			
Responsible for monitoring and reporting on their specific assets	Support	Support	Lead role			
Establish the level of maintenance required to keep the asset at an acceptable standard and availability	Support	Lead role	Support			

#### 7.3 Systems

Council uses the following system for long term capital planning and operational management purposes.

> SPM Assets software

The SPM Assets software application has been used to undertake condition assessments of the building portfolio, analyse the resulting data, lifecycle modelling and to produce various reports. The resulting data remains the property of Council.

#### 7.4 Data

Asset management practices associated with the collection, maintenance and use of data will be documented as part of an improvement activity. Council should aim to update 20% of the asset register each year as documented in Section 1.4.2.

Warrnambool City Council

# 8 Improvement Plan

This AMP is, put simply, a snapshot of asset planning practices and capabilities and a status of current assets at a point in time. An improvement plan is a mechanism used to enhance and develop planning capabilities and processes between editions of AMPs. Often covering a 12-month period between annual AMP updates an effective improvement plan is prioritised with responsibilities for each task specified.

This Improvement Plan primarily addresses issues identified during the development of this AMP.

#### 8.1 Improvement Programme

The improvement tasks detailed in Table 9-1 have been developed throughout the process of documenting this initial AMP. This Improvement Plan and overall AMP document is to be treated as a live document - continuously amended and updated when improvements in asset management planning practices and capabilities are developed. Fundamentally, this Improvement Plan should be reviewed on a quarterly basis and revised annually. All high priority tasks should be completed in the short term if not immediately.

Table 8-1 I	Table 8-1 Improvement Plan				
Section	Improvement Activity	Priority	Responsible Officer	Review and Timing for Completion	
Data					
2.1	Review the property hierarchy and structure in the SPM Assets database to ensure the correct property type has been assigned	Medium	Coordinator Building Services & Strategy	Medium term	
2.2.2	Determine which components to include within future iterations of this AMP. Currently the following components have been excluded: Loose furniture	Medium	Coordinator Strategic Asset Management	Ongoing	
2.3.1	Complete valuations for the 6 buildings that currently do not have any valuation information	Medium	Coordinator Strategic Asset Management	Short term	
2.3.2 4.2.1	<ul> <li>Review and update the current component references and components. In particular:</li> <li>Review criticalities of component references – appearance, consequence and safety</li> </ul>	High	Coordinator Strategic Asset Management	Immediate	
2.5.1	Review the current PQS statements and determine if they meet Council's requirements in terms of functionality, performance and compliance	Medium	Coordinator Strategic Asset Management (Service Managers?)	Medium term	
5.4	Review the list of components that have been identified as 'extreme risk'	High	Coordinator Building Services & Strategy	Short term	

# Warrnambool City Council

Table 8-1	Improvement Plan			
Section	Improvement Activity	Priority	Responsible Officer	Review and Timing for Completion
7.4	Complete new condition assessments of all buildings to identify the current condition. Buildings could be prioritised based on importance or value to the community.	High	Coordinator Strategic Asset Management	Ongoing
7.4	Data needs to be continuously updated to provide confidence in the long-term planning. The following tasks are recommended: Update data form with completed works Regular staff inspections	High	Coordinator Building Services & Strategy	Ongoing
7.4	Continuously update data to provide confidence in long-term planning: Three-year rolling condition surveys – targeting high importance areas	High	Coordinator Strategic Asset Management	Ongoing
People	· · · · · · · · · · · · · · · · · · ·			
7.2	Identify who is responsible for managing and maintaining the Asset Management Plan	Medium	Manager Facilities & Projects	Short term
7.2	Confirmation of roles and responsibilities for Asset Owners, Asset Maintainers and Service Managers	Medium	Manager Infrastructure Services	Short term
Processes	· · · · · · · · · · · · · · · · · · ·			
3.3.1	Agreeing on a list of primary Level of Service statements will ensure Council focuses on immediate and important needs. The list should consist of approximately 5 statements and up to 10 measures. The process in determining which statements are more important should consider strategic objectives, statutory requirements and public expectations.	High	Manager Facilities & Projects	Short term
3.5	Establishment of Quality Standard	High	Manager Facilities & Projects	Medium term
5.4	Review the list of components that have been identified as extreme risk in Section 5.4	High	Coordinator Building Services & Strategy	Short term
4.6	Review maintenance planning activities and schedules	Medium	Coordinator Building Services & Strategy	Medium Term

# **Appendices**

APPENDIX A	lossary
Asset Management Plan	An AMP is a report that summarises the end outcomes of the asset planning process. It documents the current and projected asset status and considers options to achieve strategic objectives through using asset solutions.
Asset Register	A record of asset information including some or all of; inventory, historical, service, financial, condition, construction, technical and financial information about each asset.
Base Life	The physical life of a building component expected considering its local environment. The life is measured from time of installation to time of its anticipated replacement, renewal or disposal.
Building	A permanent structure with walls and a roof. Examples of buildings include shelters, clubrooms, community centres, kiosks, grandstands, residential houses, offices, pavilions, storage facilities. Buildings do not include open spaces such as parks, reserves, playgrounds.
Capital Expenditure (Capex)	Expenditure used to create new assets (through addition or renewal) or to increase the capacity of existing assets beyond their original design capacity or potential. Capex increases the value of asset stock.
Component	The specific asset at the lowest level of detail, i.e. solid door, aluminium window, etc.
Component Group	High level categorisation of a component, i.e. roof, floor coverings, etc.
Component Type	Mid-level categorisation of components that fit under Component Group, i.e. roof drainage, lights, extinguishers, etc.
Component Criticality	This is the measure of the relative importance of a building component by identifying which components are more critical to the building. Criticality factors include likelihood of failure, risk to service delivery, appearance, health and safety impacts.
Condition	The state of an asset or component at a particular time.
Condition Assessment	Periodic inspection, measurement and interpretation of the resultant data of a specific component so as to determine the need for some preventative or remedial action. Condition is graded from condition grades of 1 (excellent) to 6 (end of life).
Condition Grade Index (CGI)	An overall condition rating of an asset that take into account each individual components assessed condition against its identified Gross Replacement Cost (GRC). A CGI figure that is close to 1.0 represents an asset to be in a very good condition overall whilst a CGI of 2.3 means that some of the components have been assessed to be in a poor to very poor condition.

#### Asset Management Plan

#### Warrnambool City Council

Critical Assets	Assets for which the financial, business or service level consequences of failure are sufficiently severe to justify proactive inspection and rehabilitation. Critical assets have a lower threshold for action than non-critical assets.
Capital Replacement Value (CRV)	The cost to replace the structure, which is a combination of the Gross Replacement Cost and the Residual Structural Value. Cost is expressed in today's (2020) dollar value.
Depreciated Replacement Cost (DRC)	The replacement cost of an existing asset less an allowance for wear or consumption having regard for the economic life of the existing asset. Cost is expressed in today's (2020) dollar value.
Economic Life	The total useful life of a building component based on its Level of Service. The life is measured from time of installation to time of its expected replacement, renewal or disposal.
Facility Condition Index (FCI)	Facility Condition Index (FCI) is a percentage figure, used as a building condition standard, that identifies the works required for an asset based upon the component currently in a poorer condition and any component that have a remaining life of less than 5 years.
Gross Replacement Cost (GRC)	The identified cost of the assessed assets and components that are to be replaced within the lifespan of the building structure. Cost value does not include the Residual Structural Value (RSV). Cost is expressed in today's (2020) dollar value.
Key Performance Indicators (KPI)	A qualitative or quantitative measure of a service or activity used to compare actual performance against a standard or other target. Performance indicators commonly relate to statutory limits, safety, responsiveness, cost, comfort, asset performance, reliability, efficiency, environmental protection and customer satisfaction.
Level of Service	The defined service quality for a particular activity or service area against which service performance may be measured. Service levels usually relate to quality, quantity, reliability, responsiveness, environmental acceptability and cost.
Lifecycle	The cycle of activities that an asset (or facility) goes through while it retains an identity as a particular asset i.e. from planning and design to decommissioning or disposal.
Lifecycle Cost	The total cost of an asset throughout its life including planning, design, construction, acquisition, operation, maintenance, rehabilitation, and disposal costs. Cost is expressed in today's (2020) dollar value.
Lifecycle Cost Analysis	Any technique which allows assessment of a given solution, or choice from among alternative solutions, on the basis of all relevant economic consequences over the service life of the asset. Cost is expressed in today's (2020) dollar value.
Maintenance	All actions necessary for retaining an asset as near as practicable to its original condition but excluding rehabilitation or renewal.
Operation	The active process of using an asset or service that consumes resources such as manpower, energy, chemicals and materials.

 $\ensuremath{\mathbb{C}}$  2020 SPM Assets Pty Ltd, March 2020 Warrnambool City Council, 7584

Operational Expenditure	Operational expenditure refers to day-to-day operational costs associated with the site itself to deliver the general services. This specifically refers to the; gas, water, sewerage, and electricity services.
Planned Maintenance	Planned maintenance activities fall into three categories: i) Periodic – necessary to ensure the reliability or to sustain the design life of an asset. ii) Predictive – condition monitoring activities used to predict failure. iii) Preventative – maintenance that can be initiated without routine or continuous checking and is not condition based.
Planned Scheduled Maintenance	Scheduled maintenance tasks are established to prolong the useful life of their associated assets. These related tasks can be daily, weekly, and monthly in occurrence to keep assets operational and at the required standard.
Property Quality Standard (PQS)	A desired level of performance, measured by pre-defined factors, relating to an overall characteristic of a property portfolio.
Reactive Maintenance	Reactive maintenance tasks focus solely on the unknown maintenance that is required for the building and related infrastructure assets which are generally due to unforeseen breakages, damage, and vandalism.
Remaining Life (Assessed)	The remaining life (measured in number of years) of a building component as assessed by a property surveyor, e.g. carpet has an assessed remaining life of 10 years.
Remaining Life (Calculated)	The remaining life (measured in number of years) of a building component as calculated by an analysis considering deterioration, functionality and utilisation.
Renewal	Works to upgrade, refurbish or replace existing assets with assets of equivalent capacity or performance capability using Capex.
Repairs & Maintenance Budget	The repairs and maintenance budget refers to the allocated expenditure that has been set aside for the unexpected/unforeseen maintenance and renewal works that may arise.
Replacement	The complete replacement of an asset that has reached the end of its life.
Residual Structural Value (RSV)	The difference between the CRC and the replacement cost sum of the assessed components (GRC). Refers to components that are not able to be replaced through lifespan of asset, i.e. concrete foundation slab, concrete support columns, etc. Cost is expressed in today's (2020) dollar value.
Risk Management	The application of a formal process to the range of possible values relating to key factors associated with a risk in order to determine the resultant ranges of outcomes and their probability of occurrence.
Service	For building assets, Council divides its assets into three service groups: Community Facilities Corporate and City Growth

Asset Manager	Asset Management Plan Warrnambool City Council				
Warrnambool City					
	Infrastructure				
Useful Life	Either:				
	(a) the period over which an asset is expected to be available for use by an entity, or				
	(b) the number of production or similar units expected to be obtained from the asset by the entity.				
	It is estimated or expected time between placing the asset into service and removing it from service, or the estimated period of time over which the future economic benefits embodied in a depreciable asset, are expected to be consumed by the hospital. It is the same as the economic life.

#### APPENDIX B Property Quality Standards Results

The following table lists the PQS statements for the Corporate & City Growth buildings by category and result.

PQS Category 1	PQS Category 2	PQS Statement	Fail	Pass	Total	Pass %
		•	-			
Risk	Injury/Illness	Are there any conditions that would impede an emergency evacuation?	2	95	97	97.9%
Risk	Injury/Illness	Are there any conditions/hazards that could cause a slip, trip or fall?	6	91	97	93.8%
Risk	Injury/Illness	Is there any evidence of inappropriate items being manually handled?	0	97	97	100.0%
Risk	Injury/Illness	Is there evidence of inadequate ventilation and/or lighting?	2	95	97	97.9%
Risk	Injury/Illness	Is there evidence of inappropriate storage or use of hazardous materials or dangerous goods?	3	94	97	96.9%
Risk	Risk Exposures	Are there any exposures to fire or arson present?	0	97	97	100.0%
Risk	Risk Exposures	Are there any exposures to security, theft or vandalism present?	1	96	97	99.0%
Risk	Risk Exposures	Are there any exposures to water and/or storm water damage?	0	97	97	100.0%
Services	Accessible	Does disability access to and through the premises appear adequate?	35	62	97	63.9%
Services	Accessible	Does there appear to be sufficient accessible carparks available?	1	96	97	99.0%
Services	Accessible	Is there at least one unisex accessible toilet per occupied building level?	5	92	97	94.8%
Services	Accessible	What percentage of carparks are accessible?	1	96	97	99.0%
Services	Functional	Are Baby Changing & Nappy disposal facilities available?	8	89	97	91.8%
Services	Functional	Are there sharps disposal units provided?	10	87	97	89.7%
Services	Functional	Does the facility have mirrors?	2	95	97	97.9%
Services	Functional	Does the premises have appropriate directional signage?	4	93	97	95.9%
Services	Functional	Does there appear to be adequate power and data points?	0	97	97	100.0%
Services	Functional	Is there a sanitary disposal unit available?	4	93	97	95.9%
Services	Healthy	Are the toilets and bathrooms adequately ventilated?	1	96	97	99.0%

PQS Category 1	PQS Category 2	PQS Statement	Fail	Pass	Total	Pass %
Services	Healthy	Are the toilets/bathrooms free of nasty odours?	0	97	97	100.0%
Services	Healthy	Are walls, ceilings, curtains and cupboards free from dampness or mould/mildew?	1	96	97	99.0%
Services	Healthy	Can you wash and dry hands with soap in toilets and kitchen?	1	96	97	99.0%
Services	Healthy	Is the building clear of graffiti, inside and out?	0	96	96	100.0%
Services	Healthy	Is the building free of evidence of pests/birds that may affect health?	1	96	97	99.0%
Services	Healthy	Is there a secure designated rubbish storage area?	2	95	97	97.9%
Services	Quality	Do change areas and/or showers appear adequate?	1	96	97	99.0%
Services	Quality	Does the storage appear adequate?	2	95	97	97.9%
Services	Quality	Is the building being used for its intended purpose?	13	84	97	86.6%

Warrnambool City Council

### APPENDIX C Building Quality Standard Results

As outlined in Section 3.4.1 an indicative building quality standard has been applied to Council's Corporate & City Growth buildings. The table below indicates which buildings meet the CGI target of the building quality standard.

Subcategory	Building Name	Standard	CGI	Result
	Main Beach Kiosk	С	1.44	Pass
	McGennans Toilet Block (Near Kiosk)	С	1.78	Pass
Commercial Property	Myrtle Bar on Timor	В	1.02	Pass
	Proudfoots Boathouse	С	1.37	Pass
	R.S.L. Clubrooms	В	1.48	Pass
	Shipwreck Bay Holiday Park - Amenities Block 1	С	1.28	Pass
	Shipwreck Bay Holiday Park - Amenities Block 2	С	1.45	Pass
	Shipwreck Bay Holiday Park - Amenities Block 4	С	1.33	Pass
	Shipwreck Bay Holiday Park - Amenities Block 5	С	1.09	Pass
	Shipwreck Bay Holiday Park - Amenities Block 6	С	1.52	Pass
	Shipwreck Bay Holiday Park - BBQ Shelter (Opp. Workshop)	С	1.28	Pass

Warrnambool City Council

#### APPENDIX D Critical Components in a Poor or Very Poor Condition

There are three component criticality criteria established within the SPM Assets Reference library which provides a consistent framework to prioritise works at a component level and aggregate up to a component group and project level.

- > Consequence of Failure the impact failure of a component will have on the asset overall and business continuity
- Occupational Health and Safety the importance of a component in relation to the health and safety of users and occupants of the building or asset
- > **Appearance** the importance of a component appearance

A component is classified as critical by considering the following criteria:

- > Consequence of Failure of medium-high to high criticality
- > Occupational Health and Safety of medium-high to high criticality
- Appearance of high criticality

The condition of a component is the assessed state of a component at a particular time. Condition grades range from C1 (very good) to C5 (very poor).

The table below shows the complete list of properties, number of critical components, the number of critical components in a poor (C4) or very poor condition (C5) and the Gross Replacement Cost (GRC) reported against the standards applied in Section 3.5.

Building Subcategory	Building Name	No. Critical Components	No. Critical Components in Poor or Very Poor Condition

#### Warrnambool City Council

#### APPENDIX E Risk Matrix - Likelihood and Consequence

The risk matrix included in Section 5.4 has been taken directly from the SPM Assets software which displays the total replacement cost of the components by the risk rating. Replacement cost figures within the matrix correspond to components that are flagged for replacement within the lifecycle expenditure forecast. Therefore, any component due to be replaced within the period of the forecast will be included within the 5 x 5 risk matrix.

The risk rating considers the likelihood of failure and the consequence of failure to produce an overall generic risk rating for each component.

#### **Calculation of Risk**

Risk = Likelihood X Consequence

The risk rating is calculated simply by multiplying the likelihood and consequence ratings.

The table below details the resulting risk scores.

Risk Consequence / Likelihood	Unlikely (1)	Possible (2)	Likely (3)	Probable (4)	Almost Certain (5)
Catastrophic (5)	Medium (5)	High (10)	High (15)	Extreme (20)	Extreme (25)
Major (4)	Medium (4)	Medium (8)	High (12)	High (16)	Extreme (20)
Moderate (3)	Low (3)	Medium (6)	Medium (9)	High (12)	High (15)
Minor (2)	Low (2)	Medium (4)	Medium (6)	Medium (8)	High (10)
Insignificant (1)	Low (1)	Low (2)	Low (3)	Medium (4)	Medium (5)

#### Calculation of Likelihood

Likelihood of failure is calculated on the proportion of a component's expected life remaining. The parameters used to determine the likelihood of failure are:

- Base life
- Base life upper
- Base life lower
- > Assessed remaining life
- Assessed condition
- Construction year
- Survey year
- > Consequence of failure criticality
- Health and Safety criticality
- > Appearance criticality
- Property importance rating

#### Warrnambool City Council

Lifecycle analysis method

The likelihood of failure result is translated into a quantitative score using the table below.

Likelihood of Failure	Quantitative Score	Likelihood
> 95%	5	Almost Certain
80 - 95%	4	Probably
55 - 80%	3	Likely
35 - 55%	2	Possible
< 35%	1	Unlikely

#### **Calculation of Consequence**

The consequence rating is determined by the component criticality factors and the property importance factor. The consequence rating is a number from 1 to 25 which is translated into a qualitative score between 1 and 5 as shown in the table below.

Consequence Rating	Qualitative Score	Consequence
1 - 1.99	5	Catastrophic
2 - 4.99	4	Major
5 - 11.99	3	Moderate
12 - 19.99	2	Minor
20 - 25	1	Insignificant

#### Warrnambool City Council

#### APPENDIX F **Disclaimer**

All figures and values within this AMP are only accurate at the time of creating the plan. The existing condition data and renewal requirements are based on the information included within the SPM Assets software (including Programs). All renewal projects are revised annually to cater for any changes in budget, risk and service requirements.

## WARRNAMBOOL CITY COUNCIL

### Asset Management Plan – Community Facilities

#### June 2020

This document has been prepared for Warrnambool City Council only. @ 2020 SPM Assets Pty Ltd

Warrnambool City Council

#### **Executive Summary**

The Purpose of this Asset Management Plan

The purpose of this Community Facilities Asset Management Plan is to provide a robust planning process to facilitate the delivery of services through effective provision and management of Council's Community Facilities building assets. The AMP is based on evidence, service requirements, risk management principles and has been aligned with ISO 55000. It documents asset management practices and procedures that are being implemented by Council in managing the building portfolio and records how assets are being managed effectively from a whole of life perspective to deliver the best outcomes to all stakeholders in the most cost effective manner.

Objectives of the Building Asset Management Plan are to:

- 1. Analyse the existing asset data
- 2. Provide recommendations for any data cleansing opportunities identified
- 3. Provide recommendations on best practice asset management practice to manage Council's current assets
- 4. Alignment of assets to Service Needs, which was completed as part of the workshops in February 2020, to identify service planning gaps
- 5. Address functionality needs, compliance requirements for current users and potential future use, asset criticality and alignment with service delivery
- 6. Address changes to future demand
- 7. Provide a lifecycle management plan
- 8. Address the risk management and criticality of assets
- 9. Articulate all tasks and responsibilities associated with managing and maintaining the building asset portfolio
- 10. Provide a long-term financial forecast integrated into a Long Term Financial Plan

#### Alignment with ISO 55000

Council is considering the following as part of the ISO 55000 alignment:

- $\triangleright$ To effectively govern an organisation, the governing body needs assurance that their assets are well managed
- Leadership and commitment from all 2. The asset mgt objectives managerial levels is essential to successful asset management
- "What to do" rather than "How to do it"  $\geq$ (IIMM, IPWEA/NAMS Practice Note 3 and NAMS Property manual provide the guidance on how to effectively manage the assets)
- Your organisation determines which assets are to be included

#### An asset management system includes:

- 1. The asset mgt policy
- 3. The Strategic Asset Mgt Plan (SAMP)
- 4. The Asset Mgt Plans implemented in:
  - Operational planning and control /4///
  - Supporting activities
  - Control activities
  - Other related processes
- It is good business practice and always think about continuous improvement

#### Asset Management Objectives

#### Warrnambool City Council

It is recommended that Council implements the following asset management objectives that are aligned with ongoing best-practice over the next three (3) years:

- 80% of work done is planned If you only react to symptoms, the problems will build up over time to a level that could be too costly to address. The expenditure will be more controllable when you plan and think long term. Recognising there will always be a level of 'reactive works' or ad-hoc works that just can't be planned.
- 80% of the works programme is driven from the planning process. Making good decisions on evidence that's scientifically based rather than making ad-hoc decisions that may only consider part of the organisation's strategies getting this right will provide a greater level of success when competing for annual budgets. Again, recognising that there will always be a level of projects identified outside of the planning process.
- 20% of your asset register is updated, maintained, improved and changed every year. Good decisions require good data - manage the information strategically by targeting efforts in areas that provide key information that feeds into the planning process.

The longer-term value of this solution would be:

- Reduction in the premium paid for reactive maintenance leading to re-allocation of funds to planned works
- Having a more robust planned approach to your works-programme evidence based using scientific methods
- > Better knowing and managing current and future risk
- > Having a well-maintained component level asset register with good confidence

SPM Assets' 7 Point Asset Planning Framework – How to be Aligned

The below figure illustrates a framework on how to achieve alignment and manage assets efficiently and effectively. In summary:

- 1. Know your services
- 2. Know the assets and costs needed to deliver those services
- 3. Know what you need (both now and into the future)
- 4. Know what's possible asset and non-asset solutions
- 5. Know what to do now (budgets, risks and prioritisation) and what's sustainable over the longer term
- 6. Know your funding options recognising that the first step is to determine the investment needed to address the current and future shortfalls
- 7. Make decisions and deliver outcomes

#### Warrnambool City Council

#### **Overall Condition**

A total of 21,675 components for the Community Facilities buildings were visually identified and assessed with a Gross Replacement Cost (GRC) of \$59.4 million. The overall condition of these components is very good, in which 74% of components in very good condition (by value - \$44.0 million) and 20% of components in good condition (by value - \$11.9 million) as illustrated in the figure below. A further 4% are in moderate condition (by value - \$2.6 million) while 1% of components are in a poor or very poor condition (by value - \$867K). The "residual structure" has been excluded from the data model and analysis.

The \$867K worth of components in poor or very poor condition largely relates to the following component groups:

© 2020 SPM Assets Pty Ltd, June 2020 Warrnambool City Council, 7584 Final 1.3 iii

#### Warrnambool City Council

- External Fabric at \$347K
- Interior Finishes at \$307K
- Services at \$118K
- Open Space at \$45K
- Exterior & Sundries at \$37K

**Renewals and Replacements** 

The figure below shows the forecast 15-year renewals expenditure required for all Community Facilities building subcategories, including the possible backlog. It shows that over the next 15 years \$27.4 million is required (an annual average of \$1.8 million) to address both the backlog (a total value of \$2.2 million) and annual lifecycle expenditure. The three highest peaks of expenditure are the backlog, 2030 and 2034.

#### **Planned Upgrade Projects**

The table below lists the planned upgrade projects with an estimated expenditure of \$5.8 million over the next five years (2020 – 2024) by source. These projects have been compiled from the workshops held between Council and SPM Assets in February 2020, the Long Term Financial Plan (LTFP), audit reports and Council's renewal planning document.

Upgrade Projects									
Project Information			Expenditure						
Subcategory	Source	2020	2021	2022	2023	2024	Total		
Community	LTFP	119,153	19,584	20,074	20,575	21,090	200,476		
Centres	Renewal Planning	35,000	-	-	-	-	35,000		
Community Halls	Renewal Planning	151,000	-	-	-	-	151,000		
	Workshop	-	30,000	30,000	30,000	10,000	100,000		

WARRNAMBOOI

#### **Asset Management Plan**

Upgrade Projects									
Project Info	ormation		Expenditure						
Subcategory	Source	2020	2021	2022	2023	2024	Total		
	LTFP	320,000	20,450	20,961	21,485	22,022	404,919

Recreational Assets	Renewal Planning	459,860	-	-	-	-	459,860		
	Workshop	-	250,000	250,000	100,000	50,000	650,000		
Total		\$2,068,205	\$590,777	\$1,384,547	\$1,388,410	\$322,370	\$5,754,309		

**Growth Projects** 

In order to meet the increased demand, a list of projects were developed during the workshops held between Council and SPM Assets in February 2020. These projects are solely for new buildings or extensions that have been identified as 'wish list' items as part of Council's strategic planning for the next 5 years (2020 – 2024). The table below lists the projects by project name and the estimated annual expenditure. The total estimated expenditure for the growth projects is \$9.9 million.

<b>Growth Projects</b>								
Project Information		Expenditure						
Project Name	2020	2021	2022	2023	2024	Total		
Central Warrnambool Childcare Extension	-	500,000	-	-	-	500,000		
East Warrnambool Childcare Extension	-	-	-	500,000	-	500,000		
New Brierly Community Services Hub	-	-	-	-	8,000,000	8,000,000		
South Warrnambool Childcare Extension	-	-	500,000	-	-	500,000		
Upgrade Existing Childcare Centres	-	100,000	100,000	100,000	100,000	400,000		
Total	\$0	\$600,000	\$600,000	\$600,000	\$8,100,000	\$9,900,000		

**Condition Forecasting – Assessed Component** 

WARRNAMBOOI

#### Asset Management Plan

Although knowing the current condition is important, a component is likely to remain in a good to very good condition for the next 10 years. While critical components will be proactively maintained to ensure the condition is kept within a defined standard. The following figure shows the forecasted condition (if the 'deferred' is addressed) over the next 15 years assuming that the components are replaced/renewed when required – the black line indicates the weighted average of condition and replacement cost.

**Component Risk Matrix** 

A component risk score is a measure of the consequence of failure against and the likelihood of failure. The table below shows the proportion of the Community Facilities components by their GRC and risk score in a risk matrix. It shows that approximately \$137K of components are at extreme risk and \$1.7 million are at high risk.

Risk Consequence / Likelihood	Unlikely (1)	Possible (2)	Likely (3)	Probable (4)	Almost Certain (5)
Catastrophic	Medium (5)	High (10)	High (15)	Extreme (20)	Extreme (25)
(5)	-	-	-	-	-
Major	Medium (4)	Medium (8)	High (12)	High (16)	Extreme (20)
(4)	\$10,229,970	\$1,148,793	\$178,073	\$391,340	\$137,244
Moderate	Low (3)	Medium (6)	Medium (9)	High (12)	High (15)
(3)	\$37,885,723	\$2,120,666	\$1,034,188	\$693,298	\$400,544
Minor	Low (2)	Medium (4)	Medium (6)	Medium (8)	High (10)
(2)	\$4,259,054	\$345,491	\$406,951	\$170,553	\$34,170
Insignificant	Low (1)	Low (2)	Low (3)	Medium (4)	Medium (5)
(1)	-	-	-	-	-

**Investment Scenario** 

As seen within the figure below, over the next 15-year period (between 2020 and 2034) an estimated \$96.7 million is required (\$6.4 million on average per year) to address all expenditure requirements.

#### Warrnambool City Council

As the total allocated budget for the next 15 years is \$30.8 million if Council addresses all conditionbased shortfalls and completes all upgrade projects an additional \$66.0 million will be required.

#### **Improvement Actions**

The key actions resulting from this Community Facilities Asset Management Plan are:

#### Data

- 1. Review and update the current component references and components. In particular:
- 2. Review components with a quantity of zero
- 3. Review criticalities of component references appearance, consequence and safety
- 4. Review the list of components that are included within future iterations of the AMP
- 5. Review the list of components that have been identified as 'extreme risk'
- 6. Review the property hierarchy and structure in the SPM Assets database to ensure the correct property type has been assigned
- 7. Data needs to be continuously updated to provide confidence in the long-term planning. The following tasks are recommended:
  - a. Update data form with completed works
  - b. Regular staff inspections
  - c. Three-year rolling condition surveys targeting high importance areas
- 8. Review the current PQS statements and determine if they meet Council's requirements in terms of functionality, performance and compliance
- 9. Complete valuations for the 10 buildings that currently do not have any valuation information
- Review the assumptions adopted for determining the operational and maintenance budgets or in future iterations of this AMP include Council's operational and maintenance budgets.

WARRNAMBOOI

#### Asset Management Plan

#### Warrnambool City Council

#### People

- 11. Identify who is responsible for managing and maintaining the Asset Management Plan
- 12. Confirmation of roles and responsibilities for Asset Owners, Asset Maintainers and Service Managers

#### Processes

- 13. Agreeing on a list of primary Level of Service statements will ensure Council focuses on immediate and important needs. The list should consist of approximately 5 statements and up to 10 measures. The process in determining which statements are more important should consider strategic objectives, statutory requirements and public expectations.
- 14. Establishment of Quality Standard
- 15. Review the list of components that have been identified as extreme risk
- 16. Implement the 80/80/20 asset management objective over the next three yearsa. 80% of the work completed is planned
  - b. 80% of the works program is driven from the planning process
  - c. 20% of the asset register is updated, maintained, improved and changed every year

#### Systems

17. Consider further implementation and potential integrations e.g. uploading works history data into the SPM Assets database to better inform future decisions based on historical data and decisions

Warrnambool City Council

Warrnambool City Council

#### **1** Introduction

#### 1.1 Purpose

Warrnambool City Council (Council) engaged SPM Assets Pty Ltd (SPM Assets) in December 2019 to work in a collaborative approach to improve the supporting documentation associated with sound asset management, which includes the preparation of Building Asset Management Plans (AMP) for each of its building categories – Community Facilities, Corporate and City Growth and Infrastructure. This AMP specifically focuses on the buildings owned and managed by Council that are included within the Community Facilities category.

The purpose of this Community Facilities Asset Management Plan is to provide a robust planning process to facilitate the delivery of services through effective provision and management of Council's Community Facilities building assets. The AMP is based on evidence, service requirements, risk management principles and has been aligned with ISO 55000. It documents asset management practices and procedures that are being implemented by Council in managing the building portfolio and records how assets are being managed effectively from a whole of life perspective to deliver the best outcomes to all stakeholders in the most cost effective manner.

This AMP demonstrates proactive management of assets, records the current and future quality shortfalls and lists the projects and initiatives required to address the shortfalls in a way that is affordable and delivers the services required by Council. The AMP is used as a tool to provide information that decisions can be based on – this is an evidence-based asset plan. It also addresses compliance with regulatory requirements and communicates forecast shortfalls or surplus in funding used to provide the required levels of service.

Objectives of the Building Asset Management Plan are to:

- 1. Analyse the existing asset data
- 2. Provide recommendations for any data cleansing opportunities identified
- 3. Provide recommendations on best practice asset management practice to manage Council's current assets
- 4. Alignment of assets to Service Needs, which was completed as part of the workshops in February 2020, to identify service planning gaps
- 5. Address functionality needs, compliance requirements for current users and potential future use, asset criticality and alignment with service delivery
- 6. Address changes to future demand
- 7. Provide a lifecycle management plan
- 8. Address the risk management and criticality of assets
- 9. Articulate all tasks and responsibilities associated with managing and maintaining the building asset portfolio
- 10. Provide a long-term financial forecast integrated into a Long Term Financial Plan

#### 1.2 Background

Council first licenced the SPM Assets software application in April 2014. Council undertakes cyclic visual condition assessments and manages all building assets using the SPM Assets software application. Since then SPM Assets has been engaged by Council for several projects including completing condition assessments and the development of maintenance plans and 5 year works programmes.

#### Warrnambool City Council

On 6 February 2020, two workshops were held between SPM Assets and Council representatives from the Community Development and Recreation & Culture teams to discuss the current and future service specific building requirements. The attendees included:

- **Director Community Development**  $\geq$
- $\geq$ Manager Recreation and Culture
- Manager Capacity Access & Inclusion  $\geq$
- Manager Children's & Family Services
- Service Manager Community Support, Active Aging & Inclusion
- Service Manager Early Years Learning & Development

#### 1.3 Alignment with ISO 55000

ISO 55000 is a series of international standards that have been created by the International Standard Organisation (ISO) for the ongoing management of physical assets. These standards have been developed from the previously published PAS 55 standards which were developed in 2002-2004 and edited in 2008.

The ISO 55000 suite includes three standards:

- ISO 55000 overview, principles and terminology  $\geq$
- ISO 55001 management system & requirements  $\geq$
- ISO 55002 guidelines on the application of ISO 55001  $\geq$

Important considerations:

- To effectively govern an organisation, the governing body needs assurance that their assets are well managed
- Leadership and commitment from all managerial levels is essential to successful asset management
- "What to do" rather than "How to do it" (IIMM, IPWEA/NAMS Practice Note 3 and NAMS Property manual provide the guidance on how to effectively manage the assets)
- Your organisation determines which assets are to be included
- $\geq$ It is good business practice and always think about continuous improvement

Figure 1-1 lists some of the elements of an ISO 55000 Asset Management System. Understanding the hierarchy of plans and processes is essential - remembering that the ISO is more about implementing a process rather than writing an AMP – the AMP is the output of the process:

- Know your reason why what are the An asset management system includes:  $\triangleright$ services being delivered through the assets
- Policies and objectives signed off by the governing body will make the process work
- Strategic AMP looking long term and considering capital concepts through to disposal
- AMPs can also be longer term and more aligned with a specific service being delivered and can focus more on maintenance and renewal

- 1. The asset mgt policy
- 2. The asset mgt objectives
- 3. The Strategic Asset Mgt Plan (SAMP)
- 4. The Asset Mgt Plans implemented in:
  - Operational planning and control
  - Supporting activities
- Control activities

Figure 1-1 Elements of an ISO 55000 Asset Management System

#### Warrnambool City Council

- Implementation of the AMP and works-programmes all roads lead to the works programme as this is what you do to make a difference
- > Evaluate performance and improve processes, systems and data

Furthermore, section 2.5.3.1 of ISO 55000 states:

"An asset management system impacts the whole organisation, including its stakeholders and external service providers, and can use, link or integrate many of the organisation's activities and functions that would otherwise be managed or operated in isolation. The process of establishing an asset management system requires a thorough understanding of each of its elements and the policies, plans and procedures that integrate them. The asset management system requirements described in ISO 55001 are grouped in a way that is consistent with the fundamentals of asset management:

- 1. Context of the organisation (ISO 55001:2014, Clause 4)
- 2. Leadership (ISO 55001:2014, Clause 5)
- 3. Planning (ISO 55001:2014, Clause 6)
- 4. Support (ISO 55001:2014, Clause 7)
- 5. Operation (ISO 55001:2014, Clause 8)
- 6. Performance evaluation (ISO 55001:2014, Clause 9)
- 7. Improvement (ISO 55001:2014, Clause 10)

Council follows the 'asset management system' that the ISO 55000 describes. Therefore, this Asset Management Plan (AMP) summarises the outputs resulting from the process and describes the associated key inputs, assumptions, practices and systems.

#### **1.4 Asset Management Framework**

#### 1.4.1 Overview

Warrnambool City Council has stated the following vision as outlined in their Council Plan (2017-2021):

#### A cosmopolitan city by the sea

The following five objectives support Council's vision:

- 1. Sustain, enhance and protect the natural environment
- 2. Foster a healthy, welcoming city that is socially and culturally rich
- 3. Maintain and improve the physical places and visual appeal of the city
- 4. Develop a smarter economy with diverse and sustainable employment
- 5. Practice good governance through openness and accountability while balancing aspirations with sound financial advice

#### 1.4.2 Asset Management Objectives

On 2 December 2019, Council adopted the following goals and commitments as part of their Asset Management Policy:

- Asset management will be service driven and will align with the strategic priorities and directions of the Council
- To achieve and sustain a high level of asset management maturity

#### Warrnambool City Council

- > To achieve certification with ISO 55000, International Standards for Asset Management
- Asset management will be integrated into corporate governance including enterprise planning, reporting and risk management frameworks and practices
- Maximise the value of Council's capital, operations and maintenance expenditures within current revenues, to optimise agreed levels of service, service delivery potential and manage related risks and costs over the entire life of infrastructure assets
- Decommission and dispose of assets that are under-utilised and no longer economically, socially or sustainably viable
- Involve and consult with the community and key stakeholders on determining service standards
- Service delivery assets will be created, acquired, maintained and rehabilitated to enable the organisation to meet its strategic service delivery goals efficiently and effectively
- Service/Asset Management Strategies and Plans will include processes which provide accountability to the community
- Allocate appropriate resources to ensure Asset Management practices can be undertaken and the timely maintenance and renewal of those assets so that 'life cycle' costs are optimised
- Accurately report on all aspects of Councils assets in terms of Operations, Maintenance, Renewal, Upgrade, Expansion and New
- Ensure that the roles and responsibilities of all asset owners, managers and users are well defined and understood. Reinforce and support asset management roles and responsibilities across the organisation at a functional level. The various key roles, responsibilities and delegations associated with service delivery and asset management is documented in the Asst Management Strategy
- Invest in appropriate and timely asset management training and development program for staff and Councillors as required
- Council will support the implementation of the Asset Management Strategy and foster a strong asset management culture across Council through a cross functional Asset Management Steering Committee

In addition to the above objectives, it is recommended that Council implements the following asset management objectives that are aligned with ongoing best-practice over the next three (3) years:

- 80% of work done is planned If you only react to symptoms, the problems will build up over time to a level that could be too costly to address. The expenditure will be more controllable when you plan and think long term. Recognising there will always be a level of 'reactive works' or ad-hoc works that just can't be planned.
- 80% of the works programme is driven from the planning process. Making good decisions on evidence that's scientifically based rather than making ad-hoc decisions that may only consider part of the organisation's strategies getting this right will provide a greater level of success when competing for annual budgets. Again, recognising that there will always be a level of projects identified outside of the planning process.
- 20% of your asset register is updated, maintained, improved and changed every year. Good decisions require good data - manage the information strategically by targeting efforts in areas that provide key information that feeds into the planning process.

The longer-term value of this solution would be:

Reduction in the premium paid for reactive maintenance – leading to re-allocation of funds to planned works >

#### Asset Management Plan

#### Warrnambool City Council

- Having a more robust planned approach to your works-programme evidence based using scientific methods
- Better knowing and managing current and future risk
- > Having a well-maintained component level asset register with good confidence

#### 1.4.3 SPM Assets' 7 Point Asset Planning Framework

SPM Assets' 7 Point Asset Management Planning Framework involves all areas of business and planning processes and is aligned with ISO55000 and the International Infrastructure Management Manual (IIMM).

Figure 1-2 below illustrates the Framework, which is a service-led planning approach, i.e. it is the service needs that define the quality standards required now and into the future. The framework is founded on the IIMM principles and is structured to proactively minimise shortfalls by implementing appropriate well thought out asset management strategies. The framework is founded on a culture of continual improvement which focuses on determining the degree of criticality of the assets, to minimise the risk of failure and is based on the following:

- 1. Know your services
  - A mixture of community, cultural, early years and recreational services.
- Know the assets and costs needed to deliver those services
   Having a good knowledge of the existing assets provides the planning platform. Realising
   that the data can have 80% confidence and still be useful, i.e. target the high-quality
   information management to critical and/or high value assets.
- Know what you need (both now and into the future) Recognising the difference between the Levels of Service and building related Quality Standards. It's about knowing the current standards and what they could be in the future and defining and measuring the lowest level.
- 4. Know what's possible asset and non-asset solutions Comparing the current situation with the desired levels of service and quality standards will identify the current and future shortfalls that need to be addressed. Creating a range of 'possible projects' to address the shortfalls moves the process from asset planning to project planning and eventual Capital Asset Management.
- Know what to do now (budgets, risks and prioritisation) and what's sustainable over the longer term Knowing which 'possible project' is more important than another, needs to consider its

outcomes after completion, its affordability, and the risks it's managing. Know your funding options – recognising that the first step is to determine the investment

- 6. Know your funding options recognising that the first step is to determine the investment needed to address the current and future shortfalls Allocation of budgets to funded programmes ensures projects are being funded appropriately and that the renewals funding is specifically used to address replacements and renewals, thus avoiding fiscal surprises.
- 7. Make decisions and deliver outcomes Decisions are made every day and the right people should be making the right decisions based on information that they can rely on. This is where the real value of capital asset management is realised, i.e. the organisation has the confidence that it is making the right decisions.

#### Warrnambool City Council

Figure 1-2 SPM Assets' 7 Point Asset Planning Framework

#### 1.5 Relationship with Other Planning Documents

The AMP considers the following documents:

- Council Plan 2017-2021 (2019 revision)
- Asset Management Policy 2019
- Risk Management Policy 2015
- Community Services and Infrastructure Plan 2013 (CSIP)

#### **1.6 AMP Structure**

The AMP is the output of the asset management planning process. It documents the associated procedures, objectives, policies, standards, drivers, future renewal projects, lifecycle replacement projections and improvement tasks.

The AMP has been written so that any reader can understand how the assets are being considered and managed. Commentaries on renewal theories and the reasoning of renewal and maintenance policies provide the reader with the context or reason why certain practices have been implemented.

The AMP is a communication document first and foremost. It summarises the vast information held in the supporting computer systems and provides the reasoning of why maintenance and lifecycle expenditure is needed in the future. The 'nuts and bolts' detail is available directly from the management systems if the reader needs further detail of a specific asset or asset group.

#### Warrnambool City Council

Council's objectives and policies are the primary driver for the asset management process and dictate all aspects of the asset management approach. This document recognises these requirements and uses SPM Assets' 7 Point Planning Framework and software applications as the primary implementation tools. In its simplest form, the asset register is populated, it is analysed, and a program of works is produced based on providing a defined 'level of service'.

Key sections of the AMP are based on the International Infrastructure Management Manual (IIMM) and are summarised as follows:

- Asset Description summary of assets and current condition
- > Levels of Service specifies the services and levels of service to be provided by Council
- Lifecycle Management how Council will manage its existing and future assets to provide the required services
- > Risk Management applying a risk-based analysis to the lifecycle results
- Financial Summary what funds are required to provide the required services
- Asset Management Practices documenting the practices that are required to maintain best practice in asset management going forward
- Asset Management Improvement Plan what are the next steps?

Warrnambool City Council

#### 2 Asset Description

#### 2.1 Overview

A total of 21,675 visually assessed building components have been picked up during the onsite building condition assessments of the 210 Community Facilities buildings. The Gross Replacement Cost (GRC) of the assessed components has been identified as \$59.4 million. Table 2-1 summarises the number of sites, properties and components for the Community Facilities category.

Table 2-1 Community Facilities – Overview							
		Buildi	ng Subcateg	Jory			
	Community Centres	Community Halls	Cultural Facilities	Early Years Facilities	Recreation Assets	Total	
No. Sites	1	4	4	11	42	62	
No. Buildings	2	6	6	14	182	210	
No. Property Records	109	44	136	207	958	1,454	
No. Components	1,946	707	2,271	3,308	13,469	21,675	
Gross Replacement Cost (GRC)	5,935,534	1,895,495	7,208,354	6,395,286	38,001,388	\$59,436,057	
Capital Replacement Value (CRV)	1,442,977	1,980,824	7,873,560	9,617,062	65,534,700	\$86,449,123	

Improvement Action: The total number of buildings (210) includes both buildings and properties. As part of the Improvement Plan, the property type of the Community Facilities buildings may need to be reviewed to distinguish the difference between a 'block' (building) and a property, e.g. some sheds are classified as 'blocks' (buildings) and others are a 'property'.

#### 2.2 Survey Methodology

#### 2.2.1 Site Assessment

A total of 210 Community Facilities building assets have been assessed between 2012 and 2019. The majority of onsite building condition assessments have been completed by experienced SPM Assets surveyors and updated and maintained by Council staff using the Mobile application of the SPM Assets software on a tablet PC device. The assessment approach that was implemented, and the SPM Assets software, have been directly aligned with ISO 55000, IIMM, NAMS Property Manual and IPWEA/NAMS Practice Note 3. The building condition assessments were conducted to identify the current condition of components, update property level information including capturing any space changes and refurbishments and answering Property Quality Standards (PQS).

#### 2.2.2 Data Model

The data model for Council's Community Facilities building assets has been broken down into grounds, buildings, floors and room locations (ground, block, floor, and unit) so that components

### Warrnambool City Council

can be assigned to a level that work can be carried out e.g. the refurbishment of the offices on level 1.

It should be noted that the following components have been excluded from this AMP:

- Loose furniture
- Aquatic pool plant and equipment
- Specialised equipment including the lighting, sound and fly systems at the Light House Theatre

Improvement Action: These assets will be reviewed and may be included in future iterations of this AMP. Any projects associated with these assets will be included within the relevant board in the SPM Assets Programs application.

#### 2.3 Property Level Information

#### 2.3.1 Building Valuations

Table 2-2 below summarises the valuation figures for the Community Facilities building assets. The Capital Replacement Value (CRV), which is based on the rate per square metres as recommended in the Rawlinsons Australian Construction Handbook, has been calculated as \$86.4 million.

Table 2-2 Capital Replacement Values			
Building Subcategory	No. Buildings	CRV	
Community Centres	2	1,442,977	
Community Halls	6	1,980,824	
Cultural Facilities	6	7,873,560	
Early Years Facilities	13	9,617,062	
Recreation Assets	173	65,534,700	
Total	200	\$86,449,123	

Improvement Action: A total of 10 buildings have no valuation data. As an improvement activity, a valuation for these buildings should be calculated or completed by an experienced building valuer.

#### 2.3.2 Condition Grade Index by Building

#### Definition

The Condition Grade Index (CGI) is the average condition grade of assessed components weighted by their Gross Replacement Cost (GRC). A low CGI e.g. 1.5 means that the components have been assessed to be in good to very good condition whereas a high grade such as 2.3 means that the components are mainly in a poor to very poor condition. The overall CGI for the Community Facilities buildings is 1.34 which indicates that most of the buildings are in a good or very good condition.

#### Result

Table 2-3 lists the number of Community Facilities building assets by building subcategory for each of the CGI ranges and suggests that 81% of the building assets are considered to be in either a good or very good condition and only 2% of building assets have a CGI greater than 2.6.

## Warrnambool City Council

Table 2-3 CGI of Community Facilities						
	CGI Ranges					
Building Subcategory	<- Very Good		Very Poor ->		Total	
,	1.0-1.4	1.4-1.7	1.7-2.2	2.2- 2.6	>2.6	
Community Centres	2	-	-	-	-	2
Community Halls	2	-	2	1	1	6
Cultural Facilities	5	-	-	-	-	5
Early Years Facilities	10	1	2	-	-	13
Recreation Assets	107	32	22	6	3	170
Total	126	33	26	7	4	196
Proportion	64%	17%	13%	4%	2%	100%

Improvement Action: The total number of buildings where a CGI has been calculated is 196. While there are 210 buildings included in the Community Facilities, 14 buildings have been excluded from the CGI calculations. These 14 buildings have been excluded as two buildings have components with no quantities and 10 buildings have no components. It is recommended that these buildings are reassessed to ensure that all relevant components have been captured.

### 2.4 Description of Components

#### 2.4.1 Component Groups and Types

Table 2-4 provides a breakdown of the number of components by building subcategory for the Community Facilities buildings. A total of 417 unique components have been assessed that identify 21,675 assets, i.e. a component can have multiple assets within a building.

Table 2-4 Building Subcategory Component Breakdown					
Building Subcategory	Building Subcategory No. Components Proportion (9				
Community Centres	1,946	9%			
Community Halls	681	3%			
Cultural Facilities	2,271	11%			
Early Years Facilities	3,308	15%			
Recreation Assets	13,469	62%			
Total	21,675	100%			

The Gross Replacement Cost (GRC) of the assessed components has been identified as \$59.4 million. Table 2-5 and Table 2-6 summarises the GRC by component group and component type respectively. The Interior Finishes and External Fabric components have the highest GRC of \$24.0 million and \$16.5 million respectively while the Clinical Equipment components have the lowest GRC of \$38K.

## Warrnambool City Council

Table 2-5 GRC by Component Group			
Component Group	No. Components	GRC	
Exterior & Sundries	480	3,192,542

То	tal	21,675	\$59,436,057

#### 2.4.2 Condition

Overall the assessed building components of the Community Facilities are in a very good condition, in which 74% of components in very good condition (by value - \$44.0 million) and 20% of components in good condition (by value - \$11.9 million) as illustrated in Figure 2-1. A further 4% are in moderate condition (by value - \$2.6 million) while 1% of components are in a poor or very poor condition (by value - \$867K).

The \$867K of components in poor or very poor condition largely relates to the following component groups:

- External Fabric at \$347K
- Interior Finishes at \$307K
- Services at \$118K
- > Open Space at \$45K
- > Exterior & Sundries at \$37K

Figure 2-1 Condition Profile of Community Facilities Buildings

#### 2.4.3 Critical Assets

The component criticality criteria established within the SPM Assets Reference library provides a consistent framework to prioritise works at a component level and aggregate up to a component group and project level. It is based on the following criteria:

- Consequence of Failure the impact failure of a component will have on the asset overall and business continuity
- Occupational Health and Safety the importance of a component in relation to the health and safety of users and occupants of the building or asset
- > Appearance the importance of a component appearance

A component is classified as critical by considering the following criteria:

- > Consequence of Failure of medium-high to high criticality
- > Occupational Health and Safety of medium-high to high criticality
- Appearance of high criticality

In total there are 10,059 components that fit the above criteria with a total GRC of \$36.1 million. Table 2-7 lists the critical assets by component group and type, the number of components and GRC.

Table 2-7 List of Critical Components			
Component Group	Component Type	No. Components	GRC
	Misc.	25	73,123

Το	tal	1,946	\$5,935,534

Improvement Action: The associated component costs for the Archie Graham Community Centre need to be updated to reflect today's pricing.

Overall the components are in a very good condition with 85% of components in very good condition (by value - \$5.1 million) and 13% of components in good condition (by value - \$797K) as illustrated in Figure 2-2. A further 1% are in moderate condition (by value - \$35K) and less than 1% in poor or very poor condition (by value - \$29K).

WARRNAMBOO

## Asset Management Plan

Figure 2-2 Condition Profile of Community Centres

The \$29K of components in poor or very poor condition largely relate to the following component groups.

- > Interior Finishes \$14K
  - Archie Graham Community Centre \$14K

#### 2.4.5 Community Halls

There are 147 unique components that describe the 681 assets associated with the Community Halls subcategory. The Gross Replacement Cost (GRC) of the assessed components is \$1.9 million. Table 2-9 details the replacement cost of assets by component group and type.

Table 2-9 GRC By Component Group and Type – Community Halls			
Component Group	Component Type	No. Components	GRC
	Paving	7	32,900
Exterior & Sundries	Sundries	3	4,425
	Tanks	1	2,100
	External Stairs	10	64,886
External Fabric	External Walls	48	306,744
	Roof	48	112,536
	Windows & Doors	52	122,078
	Ceiling Finishes	54	136,643

	Signs	1	510
	Electrical	466	554,568
	Fire Services	114	314,658
	Lifts / Hoist	4	721,300
Services	Mechanical	181	899,593
	Sanitary Plumbing	116	150,154
	Special Services	12	44,745
Sporting	Seating	1	53,431
Clinical Equipment	First Aid	1	320
	Total	2,271	\$7,208,354

## Warrnambool City Council

Overall the components are in a very good condition with 79% of components in very good condition (by value - \$5.7 million) and 16% of components in good condition (by value - \$1.2 million) as illustrated in Figure 2-4. A further 4% are in moderate condition (by value - \$317K) and 1% in a poor or very poor condition (by value - \$40K).

Figure 2-4 Condition Profile of Cultural Facilities

The \$40K of components in poor or very poor condition largely relate to the following component groups.

- Interior Finishes \$31K
  - Art Gallery \$18K
  - Lighthouse Theatre \$13K

#### 2.4.7 Early Years Facilities

There are 229 unique components that describe the 3,308 assets associated with the Early Years Facilities subcategory. The Gross Replacement Cost (GRC) of the assessed components is \$6.4 million. Table 2-11 includes a breakdown of the replacement cost of assets by component group and type.

Table 2-11 GRC By Component Group and Type – Early Years Facilities						
Component Group	Component Type	No. Components	GRC

### 2.5 PQS Assessment Results

The functionality and performance of each building asset within Council's Community Facilities portfolio has been reviewed and measured using the Property Quality Standard (PQS) process, described in IPWEA/NAMS Practice Note #3. Adopting the PQS mechanism enables the measurement of 'level of service' statements and identification of backlogs. Future scoped projects would address these backlogs and as such, the PQS mechanism will provide a way to prioritise works.

Each PQS question has an 'answer definition' that allows the surveyor to determine the level of service, which will in turn produce a cost if the question fails the standard. This means that the Council can vary the standards so that the cost to achieve a desired standard can easily be modelled. Refer to APPENDIX B for the full list of PQS questions.

Applying PQS to buildings and keeping the data up to date will identify quality shortfalls that will need to be addressed through asset and non-asset initiatives.

For Council's building assets, the following set list of categories of PQS statements were used to identify potential shortfalls associated with the following categories:

- Risk
  - Injury/Illness
  - Risk Exposures
- Services
  - Accessible
  - Functional
  - Healthy
  - Quality
  - o Safety
  - Sustainability

Note: All PQS statements are aligned to today's standards. Any failures of PQS statements needs to take into consideration that building assets would have been built in accordance with standards at that time.

#### 2.5.1 PQS Assessment Results

A total of 205 Community Facilities buildings underwent the PQS assessment. Table 2-13 summarises the results of by statement category. Overall, the buildings comply with 96.7% of the PQS statements.

Table 2-13 PQS Results by Category							
PQS Category 1	PQS Category 2	Fail	Pass	Total	Pass %		
Risk	Injury/Illness	6	929	935	99.4%		
Risk	Risk Exposures	3	558	561	99.5%		
Services	Accessible	34	714	748	95.5%		
Services	Functional	67	1,055	1,122	94.0%		
Services	Healthy	19	1,290	1,309	98.5%		

## Warrnambool City Council

Table 2-13 PQS Results by Category							
PQS Category 1	PQS Category 2	Fail	Pass	Total	Pass %		
Services	Quality	61	1,061	1,122	94.6%		
Services	Safety	2	185	187	98.9%		
Services	Sustainable	52	1,263	1,315	96.0%		
Τα	244	7,055	7,299	96.7%			

Improvement Action: It is recommended that PQS assessments are carried out on all Community Facilities buildings to identify potential functionality and performance shortfalls. It also recommended that costs are calculated to rectify any issues identified by the PQS assessments.

Warrnambool City Council

## **3** Levels of Service

#### 3.1 Overview

Understanding the desired levels of service of a building within a fixed asset portfolio is fundamental in order to match assets to service delivery objectives. These asset related requirements are documented in a 'Level of Service Statement' which should align with the organisation's objectives.

The factors affecting levels of service of any organisation can be broken into three broad categories.

- 1. **Customer requirements**: The expectations of the customer served by the organisation through the utilisation of the asset.
- 2. **Legislative requirements**: The mandatory provisions or standards set by local, national or international bodies that govern asset utilisation, particularly in terms of various issues affecting the general public.
- 3. **Strategic goals**: Broad framework-based management directives consistent with the organisation goals and values stated in policies, objectives, and the user asset management plans

The Level of Service statement is the basis for the assessment of the portfolio and the long-term financial planning of operational and capital expenditure. According to this statement, the asset plan targets expenditure to address immediate shortfalls (deferred renewals/backlog) and future requirements as planned expenditure.

Figure 3-1 Level of Service Process Flow

#### Warrnambool City Council

The key principles are:

- Clearly defined strategic objectives
- In support of the strategic objectives, an understanding of the difference between technical and customer related objectives
- Defined targets
- > Statement of how the performance will be measured against the targets
- > Current performance measurement against the level of service to identify the shortfalls

### **3.2** Alignment with Council's Level of Service Measures

In the 'service-led asset planning' context, the assets are in place to provide for the people that deliver the service. For example, to deliver services to the community, a local government needs operational buildings. This section defines the services being provided by the organisation.

Establishing both customer and technical level of service standards is a challenging process that often takes several years to complete. Council will need to undertake customer surveys to identify the community's expectations and use this information to establish the 'customer' level of service standards for the provision of community services associated with buildings.

The customer level of service standard identifies the type and number of buildings required to deliver community services and achieve strategic objectives, whereas the technical level of service standards identify the quality of the individual buildings considering function, condition and energy efficiency as examples.

### **3.3 Customer Levels of Service**

#### 3.3.1 Current Strategic Levels of Service

Council has not established customer strategic levels of service for its building assets.

Improvement Action: It is recommended that Council develops customer strategic levels of service which includes items such as service level agreements, response timeframes for rectifying issues, cleaning agreements etc.

#### 3.3.2 Future Strategic Levels of Service

As the population of Warrnambool City is expected to grow over the next 16 years, from a forecast of 36,575 in 2020 to 46,210 in 2036 (Source: .id the population experts), there will be greater demand for access to Community Facilities. Figure 3-2 below illustrates the expected population growth of Warrnambool City over a 20-year period (2016-2036).

Figure 3-2 Forecasted Population for Warrnambool City (2016-2036)

As stated in the Community Services and Infrastructure Plan 2013 (CSIP), there is expected to be a 35% increase in the number of children and young people which will cause an increase in the demand for early years facilities and youth spaces. With an expected increase in the older population as well, there will be greater demand for access to community services facilities from this age group. Table 3-2 lists the expected changes in the age groups of Warrnambool City between 2016 and 2036.

Table 3-1 Warrnambool City - Total Persons <sup>1</sup> between 2016 and 2036								
Age group	201	6	202	6	203	6	Change b 2016 an	
(years)	Number	%	Number	%	Number	%	Number	%

## Warrnambool City Council

Table 3-1 Warrnambool City - Total Persons <sup>1</sup> between 2016 and 2036								
Age group	201	2016 2026		2026 2036		Change b 2016 and		
(years)	Number	%	Number	%	Number	%	Number	%
80 to 84	857	2.5	1,181	2.9	1,521	3.3	663	77.4
85 and over	964	2.8	1,175	2.9	1,537	3.3	573	59.4
Total	34,243	100%	40,323	100%	46,209	100%	11,966	34.9%

In order to meet the increased demand for Community Facilities, Council will need to adopt a strategic level of service to increase the number of early years facilities as well as building new integrated community hubs, shared or multipurpose facilities that are located in suitable areas.

#### 3.4 Technical Levels of Service

#### 3.4.1 Setting a Building Quality Standard

In Table 3-3 below, an indicative building quality standard for Council's 210 Community Facilities building assets has been established. This indicative standard includes both a CGI target and a maintenance target, measured in an annual percentage spend against the Capital Replacement Value (CRV).

Improvement Action: The building standard assigned to the buildings is for the purpose of the analysis of this report. The actual quality standard needs to be reviewed and assigned to each buildings based on Council's policies and standards and the level of service for each of the buildings.

Table 3-2 B	Table 3-2 Building Quality Standard Definition					
Standard	Building Type	Definitions				
	Haritago/Local	CGI < 1.7, Maintenance > 0.5%				
A	Heritage/Local Significance	No backlog. Noncritical assets can be in a moderate condition. Regular preventative maintenance.				
	Administration	CGI < 2.0, Maintenance > 0.4%				
В	Aquatic Centres Childcare Commercial Community Centres Libraries Public Halls	No backlog. Noncritical assets can be in a moderate to poor condition. Regular preventative maintenance.				
		CGI < 2.2, Maintenance > 0.3%				
С	Recreational Toilet Blocks	Some backlog allowed for non-critical assets. Selected assets will undergo reactive maintenance, preventative planned maintenance to be utilised otherwise.				
	Depot	CGI < 2.5, Maintenance > 0.25				
D	Storage Utilities	High backlog allowed for non-critical assets. The majority of assets will undergo reactive maintenance, preventative planned maintenance to be limited.				

Table 3-4 lists the 10 buildings which have not met the building quality standard as outlined in Table 3-3. The results for all Community Facilities buildings have been included in APPENDIX C.

Table 3-3 Condition of Community Facilities Buildings							
Subcategory	Building Name	Standard	CGI	Result			
	Merri View Art Gallery	В	2.06	Fail			
Community Halls	Merri View Art Gallery Shed	D	2.73	Fail			
	Merri View Art Gallery Toilet Block	В	2.41	Fail			
	Allansford Angling Club	С	2.24	Fail			
	Allansford Recreation Reserve - Scoreboard	С	3.00	Fail			
	Botanic Gardens - Residence Shed (metal)	D	2.87	Fail			
Recreation Assets	Breakwater - Offshore Fishing Club	С	2.21	Fail			
	Brierly Recreation Reserve - Tennis Shed (West)	D	4.62	Fail			
	Reid Oval - Football Shelter (Centre)	С	2.45	Fail			
	Warrnambool Angling Club - Wharf Shed	D	2.58	Fail			

#### 3.4.2 Critical Assets in a Poorer Condition

A further generic quality standard can be applied to all Community Facilities buildings that relates to the condition of critical components. In order to meet the quality standard a building is required to have all critical components in a moderate condition or better. No functional or compliance targets have been included in this standard.

Table 3-5 summarises the results of applying the Quality Standard based on the definition described above. See APPENDIX D for detailed results relating to each property.

All of the building subcategories have critical components in a poor and very poor condition as shown in Table 3-5 below. A total of 339 critical components have been assessed to be in a poor or very poor condition with a replacement cost of \$514K. The most significant subcategories in terms of critical components identified to be in a poor or very poor condition by replacement cost are the Recreation Assets at \$407K and Community Halls at \$40K.

Table 3-4 Result of Quality Standard for Critical Components						
Building Subcategory	No. Critical Components	Critical Components in Poor or Very Poor Condition				
	components	No.	GRC			
Community Centres	966	14	12,391			
Community Halls	329	23	40,235			
Cultural Facilities	1,050	20	18,163			
Early Years Facilities	1,527	52	35,972			
Recreation Assets	6,187	230	407,382			
Total	10,059	339	\$514,143			

Warrnambool City Council

## 4 Lifecycle Management

### 4.1 Overview

The strategy of lifecycle management is to maintain the assets to a level that meets the quality standards and asset management objectives in a way that minimises risk. Council achieves this through the following traditional lifecycle management process:

- Renewal and replacements informed by the lifecycle analysis reports from the SPM Assets software. The Project-Planning module would be used to apply levels of service standards at each site resulting in planned-projects. Moving from a component level analysis to a project level decision making process. This includes resulting risk ratings to prioritise the timing of future projects.
- Upgrades the resulting projects that have been included within the 'Building Renewal/Replacement Board – 2020' board in the SPM Assets Program application. These projects are based on Council's policies and budgets.
- Growth these are likely to be driven by the 'future demand' analysis and at this stage, and simply list any new buildings or extensions that are identified in current Council planning documents. These projects are included in the 'Building Growth and Improvement Board – 2020 AMP' board within the SPM Assets Program application.
- Operations servicing and inspections of essential services driven by the Building Code of Australia, and annual cost components such as power usage and cleaning.
- Maintenance Council developed preventative maintenance regimes plus reactive maintenance budgets – both balanced with lifecycle renewals to optimise the overall cost of caring for the building.
- Disposals consider implementing a business rule for building disposals plus current Council strategy documents that may identify future strategic disposals. The business rule could be for example – if the calculated renewal costs plus maintenance and operational costs (over 10 years) are more than 30% of the Capital Replacement Value of the building, then consider the building for disposal or major refurbishment.

Section 4.2.1 details the methods in which an asset's lifecycle is calculated within the SPM Assets database.

### 4.2 Renewal and Replacements

#### 4.2.1 Predictive Deterioration Models Applied

The data collected through the condition survey process has been analysed using 'age', 'condition' and 'condition-age' based analysis to determine the likely remaining life of each component. The analysis considers the parameters illustrated in Figure 4-1 and is largely influenced by the base life range, the KPI score, age and the assessed condition grade. It is important that the analysis theory as detailed below is understood.

Age Based: - Determines the remaining life considering the base life range, criticality and component age. Condition or the assessed remaining life is not considered. This can be the most effective algorithm for plant and equipment style components. The likely replacement year equals the construction year plus calculated base life. For example, a component that was installed in 1998 with a 15-year calculated base life would most likely require replacement in 2013. As it is currently 2020, it would be 7 years overdue

### Warrnambool City Council

for replacement. However, if the component is non-critical, this could be acceptable, and it could be allowed to run to failure.

- Condition Based: An asset has a base life range, i.e. it's expected to be fully renewed or totally replaced at some point within this range. The calculated base life is determined by applying the resulting KPI score to the base life range, i.e. if the asset is critical then the calculated base life is likely to be closer to the lower end of the range whereas if it is non-critical, then it will be closer to the upper end of the range.
- Condition-Age Based: the remaining life generated by the Condition-Age algorithm is influenced by the age of the component, i.e. if an asset has been assessed to be in a very good condition and is old then the remaining life is calculated from the end of the condition grade 1 band. This significantly influences the remaining life of assets assessed to be in a very good and good condition. This algorithm has been applied to various structural and mechanical services assets.

Of the 21,671 components for the Community Facilities building assets in the SPM Assets database, the following breakdown of deterioration models has been applied:

- 21,820 components use the Condition based model
- > 82 components use the Condition-Age based model
- > 161 components use the Age based model

Improvement Action: In Section 2 of the AMP there were 21,675 components. However, there are four components in the database with a quantity of zero which will not appear within the lifecycle forecast. It is recommended that as part of the Improvement Plan the components with a quantity of zero should be reviewed and updated to the correct quantity or removed.

Figure 4-1 Principles of the predictive model

## Warrnambool City Council

### 4.2.2 Determining Backlog Renewals

The backlog renewal position has been determined based on any component that has a calculated year of replacement prior to 2020. There are a significant number and value of assets that are in a backlog position based on this rule, which is summarised in Table 4-1 by component group and component type. The total calculated backlog for the Community Facilities is \$2.2 million, with the majority being associated with External Fabric (\$868K), Interior Finishes (\$679K) and Services (\$312K).

The majority of the assets with a calculated year of replacement prior to 2020 are those that were assessed as being in a poor or very poor condition, while some are in good or moderate condition but have a short overall base life.

Table 4-1 Potential Backlog by Component Group and Type						
Component Group	Component Type	No. of Instances	Calculated Backlog			
	Misc.	9	18,233			
Exterior & Sundries	Paving	8	58,168			
	Sundries	19	107,202			
	External Stairs	5	82,646			
External Fabric	External Walls	107	218,023

Т	otal	1,054	\$2,234,755			

Warrnambool City Council

# 4.2.3 Portfolio Renewal Forecast

Figure 4-2 shows the forecast 15-year renewals expenditure required for all Community Facilities building subcategories, including the possible backlog. It shows that over the next 15 years \$27.4 million is required (an annual average of \$1.8 million) to address both the backlog (a total value of \$2.2 million as detailed in Section 4.5.2), and annual lifecycle expenditure. The three highest peaks of expenditure are the backlog, 2030 and 2034.

Figure 4-2 Renewal Forecasts over 15 years for all Community Facilities Buildings

It is important to recognise that the lifecycle projections are the raw results from the predictive model in the SPM Assets software and will need to be further modelled to determine pragmatic projects that align with the available funding.

#### 4.2.4 Renewal Forecasts by Building Subcategory

#### **Community Centres**

Figure 4-3 shows the forecast 15-year renewals expenditure required for the Community Centres subcategory, including possible backlog. The forecast renewal expenditure is \$3.0 million over the next 15 years, with an average annual expenditure of \$197K. The backlog for this building subcategory is \$16K. Unlike the overall portfolio, the lifecycle expenditure is relatively flat before reaching a peak in 2034.

Figure 4-3 Renewal Forecasts for Community Centres

- Year 2034:
  - Archie Graham Community Centre
    - The replacement of the EWIS system \$1.5 million
    - The replacement of the smoke detectors \$45K
    - The replacement of the roof anchor points \$36K

#### **Community Halls**

Figure 4-4 shows the forecast 15-year renewals expenditure required for the Community Halls subcategory, including possible backlog. The forecast renewal expenditure is \$711K over the next 15 years, with an average annual expenditure of \$47K. The backlog for this building subcategory is \$115K which is the largest peak of expenditure.

Figure 4-4 Renewal Forecasts for Community Halls

## Warrnambool City Council

The main contributors to the top three annual peaks in lifecycle expenditure are the following:

- Backlog:
  - Girl Guide Hall

- The replacement of the ceiling and internal wall paint \$15K
- The replacement of the gas ducted heating unit \$13K
- o Merri View Art Gallery
  - The replacement of the metal roofing \$15K
- > Year 2025:
  - o Girl Guide Hall
    - The replacement of kitchen joinery \$32K
- Year 2028:
  - Mechanics Institute Hall
    - The replacement of the ceiling and internal wall paint \$30K
    - The replacement of the vinyl flooring \$14K

#### **Cultural Facilities**

Figure 4-5 shows the forecast 15-year renewals expenditure required for the Cultural Facilities subcategory, including possible backlog. The forecast renewal expenditure is \$2.7 million over the next 15 years, with an average annual expenditure of \$178K. The backlog for this building subcategory is \$5K. The largest annual peaks for this subcategory are in 2028 and 2032.

Figure 4-5 Renewal Forecasts for Cultural Facilities

The main contributors to the top two annual peaks in lifecycle expenditure are the following:

- > Year 2028:
  - Lighthouse Theatre

## Warrnambool City Council

- The replacement of the internal wall paint \$92K
- The replacement of the ceiling paint \$89K
- The replacement of the ducted split air conditioning units \$76K
- The replacement of the vinyl floor \$23K
- The replacement of the flick mixer taps \$15K
- The replacement of the toilet partition doors \$13K
- The replacement of the door paint \$10K
- Art Gallery
  - The replacement of the ceiling paint \$94K
  - The replacement of the vinyl floor \$36K
  - The replacement of the internal wall paint \$18K
- History House
  - The replacement of the boilers \$117K
- Year 2032:
  - Lighthouse Theatre
    - The replacement of the centrifugal ventilation fans \$86K
    - The replacement of the pneumatic grandstand seating machine \$53K
    - The replacement of the blinds/curtains \$51K
    - The replacement of the down lights \$10K
    - The replacement of the ventilation grills \$10K

#### **Early Years Facilities**

Figure 4-6 shows the forecast 15-year renewals expenditure required for the Early Years Facilities subcategory, including possible backlog. The forecast renewal expenditure is \$2.5 million over the next 15 years, with an average annual expenditure of \$167K. The backlog for this building subcategory is \$17K. The annual expenditure generally increases over the 20-year period with a peak in 2028.

Figure 4-6 Renewal Forecasts for Early Years Facilities

The main contributors to the top three annual peaks in lifecycle expenditure are the following:

### Warrnambool City Council

- Year 2028:
  - Florence Collins Child Care Centre
    - The replacement of the vinyl floor \$34K
    - The replacement of the wall mounted gas heater \$21K
  - o Allansford Preschool
    - The replacement of the vinyl floor \$17K
    - The replacement of the ceiling paint \$12K
  - Matron Swinton Child Care Centre
    - The replacement of the ceiling paint \$12K
    - The replacement of the vinyl floor \$11K
  - East Warrnambool Preschool
    - The replacement of the internal wall paint \$14K
    - The replacement of the vinyl floor \$12K
  - o Dennington Preschool
    - The replacement of the vinyl floor \$14K
  - Beamish Street Preschool
    - The replacement of the shade structure \$15K
    - The replacement of the kitchen joinery \$14K
- Year 2031:

0

- Florence Collins Child Care Centre
  - The replacement of the kitchen joinery \$47K
  - The replacement of the automatic opening doors \$16K
- South Warrnambool Preschool
  - The replacement of the kitchen joinery \$31K
  - The replacement of the cabinetry \$13K
  - Sherwood Park Child Care Centre
    - The replacement of the kitchen joinery \$45K
- Matron Swinton Child Care Centre
  - The replacement of the kitchen joinery \$27K
  - The replacement of the timber frame/metal roof covered way \$20K
- o Dennington Preschool
  - The replacement of the kitchen joinery \$14K
  - The replacement of the cabinetry \$12K
  - East Warrnambool Preschool
    - The replacement of the kitchen joinery \$11K
- Year 2034:

0

- Sherwood Park Child Care Centre
  - The replacement of the EWIS system \$196K
  - The replacement of the automatic opening doors \$16K
- Florence Collins Child Care Centre
  - The replacement of the split air conditioning units \$37K
  - The replacement of the ceiling paint \$12K
- Lion Hopkins Preschool
  - The replacement of the cliplock roofing \$8K

#### **Recreation Assets**

## Warrnambool City Council

Figure 4-7 shows the forecast 15-year renewals expenditure required for the Recreation Assets subcategory, including possible backlog. The forecast renewal expenditure is \$18.6 million over the next 15 years, with an average annual expenditure of \$1.2 million. The backlog for this building subcategory is \$2.1 million. The forecast expenditure for this subcategory is higher than the other subcategories with a peak of expenditure associated with the backlog and 2030.

Figure 4-7 Renewal Forecasts for Recreation Assets

The main contributors to the top three annual peaks in lifecycle expenditure are the following:

- Backlog:
  - Surf Club
    - The replacement of the concrete roof slabs \$122K
    - The replacement of the cliplock roofing \$57K
    - The replacement of the internal wall paint \$31K
    - The replacement of the meter boxes \$20K
    - The replacement of the polyurethane floor finish \$15K
    - The replacement of the ceiling paint \$12K
    - The replacement of the plasterboard lining \$10K
  - Friendly Societies Recreation Reserve S. W. Club Rooms
    - The replacement of the metal roofing \$72K
    - The replacement of the suspended panel ceiling \$25K
    - The replacement of the asbestos guttering \$20K
    - The replacement of the fibrolite soffits \$15K
    - The replacement of the vinyl floors \$11K
  - Reid Oval Grounds
    - The replacement of the post & rail fence \$71K
    - The replacement of the chain wire fence \$27K
    - The replacement of the fixed seating \$18K
    - The replacement of the flood lights \$16K
    - The replacement of the external pole top lights \$12K
  - Reid Oval Warrnambool Club Social Club Rooms
    - The replacement of the external block walls \$28K
    - The replacement of the accordion/folding doors \$24K

- Reid Oval Toilet Block (Rear of Pavilion Male)
- The replacement of the stainless steel urinal \$25K
- Friendly Societies Recreation Reserve Toilet Block
  - The replacement of the stainless steel urinal \$25K
- Gem Club Pump House
  - The replacement of the ceiling and internal wall paint \$24K
- Botanic Gardens Residence
- The replacement of the ceiling and internal wall paint \$20K
- Reid Oval Henri J. Worland Pavilion
  - The replacement of the stainless steel urinal \$11K
- Year 2030:
  - Hockey Club
    - The replacement of the Astroturf \$764K
  - $\circ$  ~ Aquazone Indoor Pool and Gyms
    - The replacement of the centrifugal ventilation fans \$57K
    - The replacement of the bench seating \$39K
    - The replacement of the high bay lights \$23K
    - The replacement of the split air conditioning units \$17K
    - The replacement of the lockers- \$13K
  - Hopkins River Rowing Club Rooms
    - The replacement of the fire extinguishers \$104K
  - Reid Oval Warrnambool Club Social Rooms
    - The replacement of the Colorbond roofing \$64K
  - Pony Club
  - The replacement of the timber post & rail fence \$74K
  - $\circ$  R. W. Mack Oval Grounds
    - The replacement of the timber post & rail fence \$70K
  - J. D. E. Walter Oval Grounds

  Bushfield Recreation Reserve Keith E Fisher Pavilion
- The replacement of the Colorbond roofing \$29K
- Jetty Flat Pavilion
  - The replacement of the Colorbond roofing \$27K
  - R. W. Mack Oval Pavilion
    - The replacement of the Colorbond roofing \$32K

### 4.2.5 Condition Forecasting

Although the Condition Grade Index (CGI) provides a good measure at the time of survey, the condition grades will change over time as components deteriorate further and are replaced. While critical components will be proactively maintained to ensure the condition is kept within the defined standards, other components have a reactive maintenance requirement meaning that they will be repaired or replaced when they fail.

Figure 4-8 shows the forecasted condition over the next 15 years for the Community Facilities buildings assuming that the components are replaced/renewed when required. It shows that replacing all components at their forecasted renewal date is required to maintain the CGI at the current levels. Figure 4-9 shows a 'worst-case scenario'; the forecasted condition assuming no renewals or replacements of components for the same period of 15 years.

The black line indicates the overall CGI of the assets at that point in time based on the condition, assigned base life, criticality factors and the unit rate of the individual component. The coloured sections from green to red represent the proportion of components in the five condition grades.

Figure 4-8 Forecasted Condition over the next 15 years assuming components are renewed

Figure 4-9 Forecasted Condition over the next 15 years assuming no renewal of components

## 4.3 Upgrades

Table 4-2 below lists a total of 66 planned upgrade projects with an estimated expenditure of \$5.8 million over the next five years. These projects have been compiled from the workshops held between Council and SPM Assets in February 2020, the Long Term Financial Plan (LTFP), audit reports and Council's renewal planning document. Further details of the projects from the workshops can be found within the 'Building Renewal/Replacement Board – 2020 AMP' in the SPM Assets Programs application.

#### 4.4 Growth

As outlined in Section 3.3.1, there is expected to be an increase in the future demand for Community Facilities. In order to meet the increased demand, a list of projects were developed during the workshops held between Council and SPM Assets in February 2020. These projects are solely for new buildings or extensions that have been identified as 'wish list' items as part of Council's strategic long term planning. Table 4-3 lists the projects by project name and the estimated annual expenditure. The total estimated expenditure for the growth projects is \$9.9 million. Further details of these projects can be found within the 'Building Growth and Improvement Board – 2020 AMP' board in the SPM Assets Programs application.

	Project I	nformation				Expe	enditure		
Subcategory	Project Name	Project Description	Source	2020	2021	2022	2023	2024	Total
	Central Warrnambool Childcare Extension	Extension of childcare facilities in Central Warrnambool.	Workshop	-	500,000	-	-	-	500,000

	Upgrade Existing Childcare Centres	\$100K per year - might be more based on Capacity Assessment Report.	Workshop	-	100,000	100,000	100,000	100,000	400,000
	Total			\$0	\$600,000	\$600,000	\$600,000	\$8,100,000	\$9,900,000

#### 4.5 Operations Plan

The operational expenditure budget allows for costs associated with the use of the building such as salaries and wages, cleaning, security, property management, insurance, council rates, water usage and power usage. Council's existing operations budget has not been provided for the purposes of this report. As such, a generic percentage of the total building valuation will be used in the Financial Summary in Section 6.

## 4.6 Maintenance Plan

The current maintenance policy is mainly reactive alongside the routine maintenance of selected services. Council's existing maintenance budget has not been provided for the purposes of this report. As such, a generic percentage of the total building valuation will be used for both cyclical and reactive maintenance in the Financial Summary in Section 6.

#### 4.7 Disposals

There are currently no plans for any Community Facilities buildings to be disposed.

Warrnambool City Council

## 5 Risk Management

#### 5.1 Principles

The Standard AS/NZS ISO 31000: 2009 has been referred to in establishing a Risk Matrix to determine the risk associated with the building portfolio. Risks can include financial, environmental, social, operational and health and safety considerations. Typical risks relevant to Council buildings are:

- Asset Management
- Environmental Hazards
- Financial, Funding Fraud
- Customer Services
- Contracting Performance
- > Environmental Hazards
- > Governance

- Human Resources
- Information Management
- Legislative Compliance
- Planning, Strategy, Growth
- Project / Programme Management
- Public Health & Safety

The following options are available for mitigating risks to reduce the cause, probability or impact of failure:

- 1. Do nothing Accept the risk
- 2. Management Strategies Implement enhanced strategies for demand management, contingency planning, quality processes, staff training, data analysis and reporting, reduce the desired level of service, etc.
- 3. Operational Strategies Actions to reduce peak demand or stresses on the asset, operator training, documentation of operational procedures, etc.
- 4. Maintenance Strategies Modify the maintenance regime to make the asset more reliable or to extend its life
- 5. Asset Renewal Strategies Rehabilitation or replace assets to maintain service levels
- 6. Development Strategies Investment to create a new asset or augment an existing asset
- Asset Disposal/Rationalisation Divestment of assets surplus to needs due to a service being determined as a non-core activity or assets can be reconfigured to better meet needs

#### 5.2 Predictive Deterioration Model

The lifecycle replacement model is inherently risk based and therefore can be used as the risk analysis platform. The following factors are considered at a component level:

- > Asset naming convention related to the failure event
- Criticality criteria and building importance (functional weighting) the consequence of failure
- Base life range the statistical model that provides a 90% likelihood that the asset will need to be renewed or replaced within the range
- > The predictive model the likelihood of failure
- The unit replacement rate the cost to mitigate the risk and best aggregated into a project or a procurement

These parameters are used in the following way:

1. To reduce the risk of failures to service delivery

#### Warrnambool City Council

- 2. Influences the predicted time of replacement or renewal
- 3. Smooths the longer-term projections, i.e. with limited budgets, the result will ensure assets that have higher criticality will be considered first
- 4. Prioritisation of projects, i.e. the aggregation of criticality factors combined with building importance will ensure the more important projects are implemented first

#### 5.3 Council's Risk Management Framework

Council's Risk Management Framework is outlined within the Risk Management Policy 2015. Council's policy is to identify and manage risk in accordance with approved standards and continually improving practices.

Council commits to the following risk management objectives/statements:

- We will apply a coordinated and integrated approach to risk management across Council. Consistent with the principles of AS/NZS ISO Standards
- Council through its Audit and Risk committee shall ensure the establishment, implementation and ongoing review of the Council's risk management framework, internal compliance and control systems
- Risk management will be an integral part of planning and decision-making processes
- We will adopt risk management strategies which promote confidence in the achievement of optimal business & community outcomes
- > We will establish a culture of risk consciousness within our organisation and promote risk awareness with our stakeholders
- Communication within the stakeholder community in relation to the identification and management of risk is encouraged
- We will develop and continually improve risk management practices based on established standards and industry practice
- > We will apply a coordinated and integrated approach to risk management
- There is accountability assigned to all those with risk management responsibilities
- Council staff will be provided with the necessary training to allow them to undertake their risk management duties

#### 5.4 Current Component Risk Matrix

A component risk score is a measure of the consequence of failure against and the likelihood of failure. An explanation of how the risk ratings have been calculated can be found in APPENDIX C. Table 5-1 shows the proportion of the Community Facilities components by their GRC and risk score in a risk matrix. The likelihood is shown in the columns of the table with consequence being shown in the rows. The risk matrix, developed by SPM Assets, uses the raw outputs of the SPM Assets database at a component level. It shows that approximately \$137K of components are at extreme risk and \$1.7 million are at high risk.

Table 5-1 Component Risk Matrix and GRC							
Risk Consequence	Unlikely	Possible	Likely	Probable	Almost Certain		
/ Likelihood	(1)	(2)	(3)	(4)	(5)		
Catastrophic	Medium (5)	High (10)	High (15)	Extreme (20)	Extreme (25)		
(5)	-	-	-	-	-		

# WARRNAMBOOI

#### **Asset Management Plan**

#### Warrnambool City Council

Table 5-1 Compon	Table 5-1 Component Risk Matrix and GRC							
<b>Risk Consequence</b>	Unlikely	Possible	Likely	Probable	Almost Certain			
/ Likelihood	(1)	(2)	(3)	(4)	(5)			
Major	Medium (4)	Medium (8)	High (12)	High (16)	Extreme (20)			
(4)	\$10,229,970	\$1,148,793	\$178,073	\$391,340	\$137,244			
Moderate	Low (3)	Medium (6)	Medium (9)	High (12)	High (15)			
(3)	\$37,885,723	\$2,120,666	\$1,034,188	\$693,298	\$400,544			
Minor	Low (2)	Medium (4)	Medium (6)	Medium (8)	High (10)			
(2)	\$4,259,054	\$345,491	\$406,951	\$170,553	\$34,170			
Insignificant	Low (1)	Low (2)	Low (3)	Medium (4)	Medium (5)			
(1)	-	-	-	-	-			

Improvement Action: As part of the Improvement Plan, the components that have been identified as extreme risk may need to be further verified by Council prior to any planning of works as well as a review of the component criticalities.

#### 5.5 Project Prioritisation Based on Risk

The list of priority projects will be considered annually to ensure that decisions are made based on evidence from the AMP rather than judgement.

Warrnambool City Council

## **6** Financial Summary

#### 6.1 Overview

Where Section 4: Lifecycle Management identified the range of possible expenditure that needs consideration to achieve the Quality Standards and performance shortfall, the Financial Summary section provides the recommended total expenditure budgets for the next 15 years, including both capital expenditure (capex) and operational expenditure (opex).

#### 6.2 Assumptions

As neither the actual nor historical operational expenditure have been received from Council, estimates have been applied using the assumptions stated within Table 6-1. This has been applied to the total Capital Replacement Value of \$86.4 million to provide an estimated annual cost to include in the financial forecast in Section 6.3.

Table 6-1 Operational Expenditure Estimates							
Expenditure Category	Estimated Annual % of CRV	Estimated Annual Expenditure					
Operations	3.00%	2,593,474					
Cyclical Maintenance	0.40%	345,797					
Reactive Maintenance	1.50%	1,296,737					
Total	4.90%	\$4,236,007					

Improvement Action: The stated assumptions have been included within the following sections of the AMP. Considering this, Council should carefully review these assumptions and resulting forecasts and update accordingly with a more accurate set of data as required.

It is recommended that these forecasts should be reviewed prior to the adoption of the final 15-year budgets.

#### 6.3 Estimated Forecast

Table 6-2 and Figure 6-1 summarise the total 15 year expenditure for the building portfolio considering the renewal expenditure based on lifecycle, planned upgrade projects and the estimated operational and maintenance costs. The growth projects have been excluded from these figures as there has been no budget set aside to implement the projects. A total of \$96.7 million is estimated to be required over the next 15 years, of which \$33.2 million is related to capital expenditure and \$63.5 million to operational expenditure.

Figure 6-1 Estimated 15 Year Financial Forecast for all Community Facilities Buildings

#### 6.4 Funding Required for Maintaining Current Assets

Table 6-3 shows the results of applying the current budgets to maintain and operate the current buildings while only considering addressing the conditionbased shortfalls and the planned upgrade projects. As seen within Table 6-3 and Figure 6-2, over the next 15-year period (between 2020 and 2034) an estimated \$96.7 million is required (\$6.4 million on average per year) to address all expenditure requirements. As the total allocated budget for the next 15 years is \$30.8 million if Council addresses all condition-based shortfalls and completes all upgrade projects an additional \$66.0 million will be required.

Warrnambool City Council

Figure 6-2 Current Financial Summary

## Warrnambool City Council

## 7 Asset Management Practices

#### 7.1 Overview

This section summarises the Asset Management Processes, Systems, Data and People. Figure 7-1, a "Hierarchy of Care" of Asset Management practices, should be considered when developing them:

- Operating Energy and Water Use, Waste Disposal, Insurance and Rates
- Maintaining Safety Compliance, Maintenance and Servicing Schedules
- Maintaining a Healthy Environment Cleaning, Security, Pest Control and Waste Removal
- > Expectations Reactive Maintenance
- Extending the Life Planning the Preventative Maintenance
- Sustainability Renewals, Refurbishments and Replacements
- Adapting to its Environment Planning for the Extensions, Upgrades and Reconfigurations

Figure 7-1 Asset Management Hierarchy of Care

#### 7.2 Processes

Warrnambool City Council establishes the roles and responsibilities for all corporate assets (including building assets) as Asset Owner, Asset Maintainer and Service Manager, with the respective responsibilities listed in Table 7-1 below.

Consistent with this model the Community Development & Recreation Culture department is both Asset Owner and Maintainer for all buildings owned and/or managed by Council, with Service Manager's responsibility distributed throughout the organisation based on the building category.

Table 7-1 Responsibility for Asset Management Processes						
Specific Responsibility	Service Manager	Maintainer	Asset Owner			
Plan for the acquisition, creation, modification and disposal of assets	Support	Support	Lead role			
Establish the Level of Service delivery	Lead role	Support	Support			
Determine asset utilisation	Lead role	Support	Support			
Record/supply the data pertaining to asset use	Lead role	-	-			
Maintain the asset to the agreed standard	Support	Lead role	Support			

## Warrnambool City Council

Table 7-1 Responsibility for Asset Management Processes						
Specific Responsibility	Service Manager	Maintainer	Asset Owner			
Advise of any issues relating to the performance of the asset and any opportunities to improve the efficiency of the asset	Lead role	Support	Support			
Record/supply the data pertaining to asset maintenance	Support	Lead role	Support			
Develop and implement the Asset Management Plan	Lead role	Support	Support			
Establish the Level of Service for the asset	Lead role	Support	Support			
Record/supply the data for inventory, valuation & condition	Support	Support	Lead role			
Responsible for monitoring and reporting on their specific assets	Support	Support	Lead role			
Establish the level of maintenance required to keep the asset at an acceptable standard and availability	Support	Lead role	Support			

#### 7.3 Systems

Council uses the following system for long term capital planning and operational management purposes.

> SPM Assets software

The SPM Assets software application has been used to undertake condition assessments of the building portfolio, analyse the resulting data, lifecycle modelling and to produce various reports. The resulting data remains the property of Council.

#### 7.4 Data

Asset management practices associated with the collection, maintenance and use of data will be documented as part of an improvement activity. Council should aim to update 20% of the asset register each year as documented in Section 1.4.2.

Warrnambool City Council

## 8 Improvement Plan

This AMP is, put simply, a snapshot of asset planning practices and capabilities and a status of current assets at a point in time. An improvement plan is a mechanism used to enhance and develop planning capabilities and processes between editions of AMPs. Often covering a 12-month period between annual AMP updates an effective improvement plan is prioritised with responsibilities for each task specified.

This Improvement Plan primarily addresses issues identified during the development of this AMP.

#### 8.1 Improvement Programme

The improvement tasks detailed in Table 9-1 have been developed throughout the process of documenting this initial AMP. This Improvement Plan and overall AMP document is to be treated as a live document - continuously amended and updated when improvements in asset management planning practices and capabilities are developed. Fundamentally, this Improvement Plan should be reviewed on a quarterly basis and revised annually. All high priority tasks should be completed in the short term if not immediately.

Table 8-1 I	mprovement Plan			
Section	Improvement Activity	Priority	Responsible Officer	Review and Timing for Completion
Data				
2.1	Review the property hierarchy and structure in the SPM Assets database to ensure the correct property type has been assigned	Medium	Coordinator Building Services & Strategy	Medium term
2.2.2	Determine which components to include within future iterations of this AMP. Currently the following components have been excluded: Aquatic pool plant and equipment Loose furniture Specialised assets including lighting, sound and fly systems at the Light House Theatre	Medium	Coordinator Strategic Asset Management	Ongoing
2.3.1	Complete valuations for the 10 buildings that currently do not have any valuation information	Medium	Coordinator Strategic Asset Management	Short term
2.3.2 4.2.1	Review and update the current component references and components. In particular: Review components with a quantity of zero Review criticalities of component references – appearance, consequence and safety	High	Coordinator Strategic Asset Management	Immediate

Table 8-1 I	mprovement Plan			
Section	Improvement Activity	Priority	Responsible Officer	Review and Timing for Completion
2.4.4	Update the component costs for the Archie Graham Community Centre to reflect today's pricing.	Medium	Coordinator Building Services & Strategy	Short term
2.5.1	Review the current PQS statements and determine if they meet Council's requirements in terms of functionality, performance and compliance	Medium	Coordinator Strategic Asset Management (Service Managers?)	Medium term
5.4	Review the list of components that have been identified as 'extreme risk'	High	Coordinator Building Services & Strategy	Short term
7.4	Data needs to be continuously updated to provide confidence in the long-term planning. The following tasks are recommended:	High	Coordinator Building Services & Strategy	Ongoing
7.4	Complete new condition assessments of all buildings to identify the current condition. Buildings could be prioritised based on importance or value to the community.	High	Coordinator Strategic Asset Management	Ongoing
7.4	Continuously update data to provide confidence in long-term planning: Three-year rolling condition surveys – targeting high importance areas	High	Coordinator Strategic Asset Management	Ongoing
People				
7.2	Identify who is responsible for managing and maintaining the Asset Management Plan	Medium	Manager Facilities & Projects	Short term
7.2	Confirmation of roles and responsibilities for Asset Owners, Asset Maintainers and Service Managers	Medium	Manager Infrastructure Services	Short term
Processes				
3.3.1	Agreeing on a list of primary Level of Service statements will ensure Council focuses on immediate and important needs. The list should consist of approximately 5 statements and up to 10 measures. The process in determining which statements are more important should consider strategic objectives, statutory requirements and public expectations.	High	Manager Facilities & Projects	Short term

	Improvement Plan			
ection	Improvement Activity	Priority	Responsible Officer	Review and Timing for Completior
3.4	Establishment of Quality Standard	High	Manager Facilities & Projects	Medium term
5.4	Review the list of components that have been identified as extreme risk in Section 5.4	High	Coordinator Building Services & Strategy	Short term
4.6	Review maintenance planning activities and schedules	Medium	Coordinator Building Services & Strategy	Medium Tern
6.2	Review the assumptions adopted for determining the operational and maintenance budgets or in future iterations of this AMP include Council's operational and maintenance budgets.			
1.4.2	<ul> <li>Implement the 80/80/20 asset management objective over the next three (3) years:</li> <li>80% of work done is planned – moving from a reactive to proactive approach by planning and thinking long term. This recognises that some works may be ad-hoc or reactive.</li> <li>80% of the works program is driven from the planning process – projects should be based on Council's annual business plan and other planning documents. Projects should be included in the Building Growth and Improvement board in Programs</li> <li>20% of the asset register is updated, maintained, improved and changed every year – train Council staff on how to update data in the SPM Assets database. SPM Assets will also provide Council with a half yearly report which summarises the number of properties surveyed, number of new components and number of updated components</li> </ul>	High	Coordinator Strategic Asset Management	Ongoing

Table 8-1 I				
Section	Improvement Activity	Priority	Responsible Officer	Review and Timing for Completion
7.3	Consider further implementation and potential integrations e.g. uploading works history data into the SPM Assets database to better inform future decisions based on historical data and decisions	Low	Coordinator Strategic Asset Management	Long term

## **Appendices**

APPENDIX A	ilossary
Asset Management Plan	An AMP is a report that summarises the end outcomes of the asset planning process. It documents the current and projected asset status and considers options to achieve strategic objectives through using asset solutions.
Asset Register	A record of asset information including some or all of; inventory, historical, service, financial, condition, construction, technical and financial information about each asset.
Base Life	The physical life of a building component expected considering its local environment. The life is measured from time of installation to time of its anticipated replacement, renewal or disposal.
Building	A permanent structure with walls and a roof. Examples of buildings include shelters, clubrooms, community centres, kiosks, grandstands, residential houses, offices, pavilions, storage facilities. Buildings do not include open spaces such as parks, reserves, playgrounds.
Capital Expenditure (Capex)	Expenditure used to create new assets (through addition or renewal) or to increase the capacity of existing assets beyond their original design capacity or potential. Capex increases the value of asset stock.
Component	The specific asset at the lowest level of detail, i.e. solid door, aluminium window, etc.
Component Group	High level categorisation of a component, i.e. roof, floor coverings, etc.
Component Type	Mid-level categorisation of components that fit under Component Group, i.e. roof drainage, lights, extinguishers, etc.
Component Criticality	This is the measure of the relative importance of a building component by identifying which components are more critical to the building. Criticality factors include likelihood of failure, risk to service delivery, appearance, health and safety impacts.
Condition	The state of an asset or component at a particular time.
Condition Assessment	Periodic inspection, measurement and interpretation of the resultant data of a specific component to determine the need for some preventative or remedial action. Condition is graded from condition grades of 1 (excellent) to 6 (end of life).
Condition Grade Index (CGI)	An overall condition rating of an asset that consider each individual components assessed condition against its identified Gross Replacement Cost (GRC). A CGI figure that is close to 1.0 represents an asset to be in a very good condition overall whilst a CGI of 2.3 means that some of the components have been assessed to be in a poor to very poor condition.

## Asset Management Plan

## Warrnambool City Council

Critical Assets	Assets for which the financial, business or service level consequences of failure are sufficiently severe to justify proactive inspection and rehabilitation. Critical assets have a lower threshold for action than non-critical assets.
Capital Replacement Value (CRV)	The cost to replace the structure, which is a combination of the Gross Replacement Cost and the Residual Structural Value. Cost is expressed in today's (2020) dollar value.
Depreciated Replacement Cost (DRC)	The replacement cost of an existing asset less an allowance for wear or consumption having regard for the economic life of the existing asset. Cost is expressed in today's (2020) dollar value.
Economic Life	The total useful life of a building component based on its Level of Service. The life is measured from time of installation to time of its expected replacement, renewal or disposal.
Facility Condition Index (FCI)	Facility Condition Index (FCI) is a percentage figure, used as a building condition standard, that identifies the works required for an asset based upon the component currently in a poorer condition and any component that have a remaining life of less than 5 years.
Gross Replacement Cost (GRC)	The identified cost of the assessed assets and components that are to be replaced within the lifespan of the building structure. Cost value does not include the Residual Structural Value (RSV). Cost is expressed in today's (2020) dollar value.
Key Performance Indicators (KPI)	A qualitative or quantitative measure of a service or activity used to compare actual performance against a standard or other target. Performance indicators commonly relate to statutory limits, safety, responsiveness, cost, comfort, asset performance, reliability, efficiency, environmental protection and customer satisfaction.
Level of Service	The defined service quality for a particular activity or service area against which service performance may be measured. Service levels usually relate to quality, quantity, reliability, responsiveness, environmental acceptability and cost.
Lifecycle	The cycle of activities that an asset (or facility) goes through while it retains an identity as a particular asset i.e. from planning and design to decommissioning or disposal.
Lifecycle Cost	The total cost of an asset throughout its life including planning, design, construction, acquisition, operation, maintenance, rehabilitation, and disposal costs. Cost is expressed in today's (2020) dollar value.
Lifecycle Cost Analysis	Any technique which allows assessment of a given solution, or choice from among alternative solutions, based on all relevant economic consequences over the service life of the asset. Cost is expressed in today's (2020) dollar value.
Maintenance	All actions necessary for retaining an asset as near as practicable to its original condition but excluding rehabilitation or renewal.
Operation	The active process of using an asset or service that consumes resources such as manpower, energy, chemicals and materials.

 $\ensuremath{\mathbb{C}}$  2020 SPM Assets Pty Ltd, March 2020 Warrnambool City Council, 7584

Operational Expenditure	Operational expenditure refers to day-to-day operational costs associated with the site itself to deliver the general services. This specifically refers to the; gas, water, sewerage, and electricity services.
Planned Maintenance	Planned maintenance activities fall into three categories: i) Periodic – necessary to ensure the reliability or to sustain the design life of an asset. ii) Predictive – condition monitoring activities used to predict failure. iii) Preventative – maintenance that can be initiated without routine or continuous checking and is not condition based.
Planned Scheduled Maintenance	Scheduled maintenance tasks are established to prolong the useful life of their associated assets. These related tasks can be daily, weekly, and monthly in occurrence to keep assets operational and at the required standard.
Property Quality Standard (PQS)	A desired level of performance, measured by pre-defined factors, relating to an overall characteristic of a property portfolio.
Reactive Maintenance	Reactive maintenance tasks focus solely on the unknown maintenance that is required for the building and related infrastructure assets which are generally due to unforeseen breakages, damage, and vandalism.
Remaining Life (Assessed)	The remaining life (measured in number of years) of a building component as assessed by a property surveyor, e.g. carpet has an assessed remaining life of 10 years.
Remaining Life (Calculated)	The remaining life (measured in number of years) of a building component as calculated by an analysis considering deterioration, functionality and utilisation.
Renewal	Works to upgrade, refurbish or replace existing assets with assets of equivalent capacity or performance capability using Capex.
Repairs & Maintenance Budget	The repairs and maintenance budget refers to the allocated expenditure that has been set aside for the unexpected/unforeseen maintenance and renewal works that may arise.
Replacement	The complete replacement of an asset that has reached the end of its life.
Residual Structural Value (RSV)	The difference between the CRC and the replacement cost sum of the assessed components (GRC). Refers to components that are not able to be replaced through lifespan of asset, i.e. concrete foundation slab, concrete support columns, etc. Cost is expressed in today's (2020) dollar value.
Risk Management	The application of a formal process to the range of possible values relating to key factors associated with a risk in order to determine the resultant ranges of outcomes and their probability of occurrence.
Service	For building assets, Council divides its assets within three service groups: Community Facilities Corporate and City Growth

Asset manayer	Asset Management Flam				
Warrnambool City	Warrnambool City Council				
	Infrastructure				
Useful Life	Either:				
	(a) the period over which an asset is expected to be available for use by an entity, or				
	(b) the number of production or similar units expected to be obtained from the asset by the entity.				
	It is estimated or expected time between placing the asset into service and removing it from service, or the estimated period of time over which the future economic benefits embodied in a depreciable asset, are expected to be consumed by the hospital. It is the same as the economic life.

## APPENDIX B Property Quality Standards Results

The following table lists the PQS statements for the Community Facilities by category and result.

PQS Assessment Results						
PQS Category 1	PQS Category 2	PQS Statement	Fail	Pass	Total	Pass %
		Are there any conditions that would impede an emergency evacuation?	1	186	187	99.5%
		Are there any conditions/hazards that could cause a slip, trip or fall?	4	183	187	97.9%
	Injury/Illness	Is there any evidence of inappropriate items being manually handled?	1	186	187	99.5%
	1.1jul // 1.1.1000	Is there evidence of inadequate ventilation and/or lighting?	0	187	187	100.0%
Risk		Is there evidence of inappropriate storage or use of hazardous materials or dangerous goods?	0	187	187	100.0%
	Risk Exposures	Are there any exposures to fire or arson present?	0	187	187	100.0%
		Are there any exposures to security, theft or vandalism present?	2	185	187	98.9%
		Are there any exposures to water and/or storm water damage?	1	186	187	99.5%
	Accessible	Does disability access to and through the premises appear adequate?	13	174	187	93.0%
		Does there appear to be sufficient accessible carparks available?	0	187	187	100.0%
		Is there at least one unisex accessible toilet per occupied building level?	12	175	187	93.6%
		What percentage of carparks are accessible?	9	178	187	95.2%
		Are Baby Changing & Nappy disposal facilities available?	14	173	187	92.5%
Services		Are there sharps disposal units provided?	30	157	187	84.0%
	Functional	Does the facility have mirrors?	5	182	187	97.3%
	Functional	Does the premises have appropriate directional signage?	4	183	187	97.9%
		Does there appear to be adequate power and data points?	3	184	187	98.4%
		Is there a sanitary disposal unit available?	11	176	187	94.1%
	Healthy	Are the toilets and bathrooms adequately ventilated?	1	186	187	99.5%

S Category 1	PQS Category 2	PQS Statement	Fail	Pass	Total	Pass %
		Are the toilets/bathrooms free of nasty odours?	1	186	187	99.5%
		Are walls, ceilings, curtains and cupboards free from dampness or mould/mildew?	0	187	187	100.0%
		Can you wash and dry hands with soap in toilets and kitchen?	4	183	187	97.9%
		Is the building clear of graffiti, inside and out?	4	183	187	97.9%
		Is the building free of evidence of pests/birds that may affect health?	2	185	187	98.9%
		Is there a secure designated rubbish storage area?	7	180	187	96.3%
		Do change areas and/or showers appear adequate?	4	183	187	97.9%
		Does the storage appear adequate?	7	180	187	96.3%
		Is the building being used for its intended purpose?	5	182	187	97.3%
	Quality	Is the interior aesthetically suited to purpose?	5	182	187	97.3%
		Is the structure purpose built or collection of add-ons?	5	182	187	97.3%
		What percentage of the interior requires refurbishment?	35	152	187	81.3%
	Safety	Does the building have adequate lighting to all external access points?	2	185	187	98.9%
		Are there facilities for recycling? (wheelie bin)	10	178	188	94.7%
		Are toilet cisterns dual flush?	5	182	187	97.3%
		Are urinals water efficient?	7	181	188	96.3%
	Sustainable	Are water saving taps installed?	27	161	188	85.6%
		Is the hot water system energy efficient?	0	188	188	100.09
		Is there modern efficient lighting?	1	187	188	99.5%
		Main switchboard is a modern style with RCD?	2	186	188	98.9%
		Total	244	7,055	7,299	96.7%

Warrnambool City Council

## APPENDIX C Building Quality Standard Results

As outlined in Section 3.4.1 an indicative building quality standard has been applied to Council's Community Facilities buildings. The table below indicates which buildings meet the CGI target of the building quality standard.

Subcategory	Building Name	Standard	CGI	Result
	Archie Graham Community Centre	A	1.16	Pass
Community Centres	Archie Grahame Shed	D	1.00	Pass
	City Band Hall	В	1.11	Pass
	Girl Guide Hall	В	1.96	Pass
Community Hollo	Mechanics Institute Hall	В	1.31	Pass
Community Halls	Merri View Art Gallery	В	2.06	Fail
	Merri View Art Gallery Shed	D	2.73	Fail
	Merri View Art Gallery Toilet Block	В	2.41	Fail
	34 Koroit St (Sports Assembly)	В	1.33	Pass
	34 Koroit St (Sports Assembly) Shed	D	1.23	Pass
Cultural Facilities	Art Gallery	В	1.26	Pass
	History House	В	1.26	Pass
	Lighthouse Theatre	В	1.27	Pass
	Allansford Preschool	В	1.13	Pass
	Beamish Street Preschool	В	1.19	Pass
	Central Preschool	В	1.26	Pass
	Dennington Preschool	В	1.39	Pass
	East Warrnambool Preschool	В	1.22	Pass
	Florence Collins Child Care Centre	В	1.76	Pass
Early Years Facilities	Lions/Hopkins Preschool	В	1.27	Pass
	Lions/Hopkins Preschool Shed	D	1.31	Pass
	Matron Swinton Child Care Centre	В	1.44	Pass
	Sherwood Park Child Care Centre	В	1.38	Pass
	South Warrnambool Preschool	В	1.77	Pass
	South Warrnambool Preschool Shed	D	1.13	Pass
	Swan Reserve Buildings - Children's Services Centre	В	1.26	Pass
	A. H. Davidson Oval - Football Shelter (North)	С	1.15	Pass
	A. H. Davidson Oval - Football Shelter (South)	С	1.24	Pass
Recreation Assets	A. H. Davidson Oval - Netball Shelter	С	1.46	Pass

# APPENDIX D Critical Components in a Poor or Very Poor Condition

There are three component criticality criteria established within the SPM Assets Reference library which provides a consistent framework to prioritise works at a component level and aggregate up to a component group and project level.

- > Consequence of Failure the impact failure of a component will have on the asset overall and business continuity
- Occupational Health and Safety the importance of a component in relation to the health and safety of users and occupants of the building or asset
- > **Appearance** the importance of a component appearance

A component is classified as critical by considering the following criteria:

- > Consequence of Failure of medium-high to high criticality
- > Occupational Health and Safety of medium-high to high criticality
- > Appearance of high criticality

The condition of a component is the assessed state of a component at a particular time. Condition grades range from C1 (very good) to C5 (very poor).

The table below shows the complete list of properties, number of critical components, the number of critical components in a poor (C4) or very poor condition (C5) and the Gross Replacement Cost (GRC) reported against the standards applied in Section 3.5.

# APPENDIX E Risk Matrix - Likelihood and Consequence

The risk matrix included in Section 5.4 has been taken directly from the SPM Assets software which displays the total replacement cost of the components by the risk rating. Replacement cost figures within the matrix correspond to components that are flagged for replacement within the lifecycle expenditure forecast. Therefore, any component due to be replaced within the period of the forecast will be included within the 5 x 5 risk matrix.

The risk rating considers the likelihood of failure and the consequence of failure to produce an overall generic risk rating for each component.

#### **Calculation of Risk**

Risk = Likelihood X Consequence

The risk rating is calculated simply by multiplying the likelihood and consequence ratings.

The table below details the resulting risk scores.

Risk Consequence / Likelihood	Unlikely (1)	Possible (2)	Likely (3)	Probable (4)	Almost Certain (5)
Catastrophic (5)	Medium (5)	High (10)	High (15)	Extreme (20)	Extreme (25)
Major (4)	Medium (4)	Medium (8)	High (12)	High (16)	Extreme (20)
Moderate (3)	Low (3)	Medium (6)	Medium (9)	High (12)	High (15)
Minor (2)	Low (2)	Medium (4)	Medium (6)	Medium (8)	High (10)
Insignificant (1)	Low (1)	Low (2)	Low (3)	Medium (4)	Medium (5)

#### Calculation of Likelihood

Likelihood of failure is calculated on the proportion of a component's expected life remaining. The parameters used to determine the likelihood of failure are:

- Base life
- Base life upper
- Base life lower
- > Assessed remaining life
- Assessed condition
- Construction year
- Survey year
- > Consequence of failure criticality
- Health and Safety criticality
- > Appearance criticality
- Property importance rating

Warrnambool City Council

# WARRNAMBOOL

# Lifecycle analysis method

The likelihood of failure result is translated into a quantitative score using the table below.

Likelihood of Failure	Quantitative Score	Likelihood
> 95%	5	Almost Certain
80 - 95%	4	Probably
55 - 80%	3	Likely
35 - 55%	2	Possible
< 35%	1	Unlikely

#### **Calculation of Consequence**

The consequence rating is determined by the component criticality factors and the property importance factor. The consequence rating is a number from 1 to 25 which is translated into a qualitative score between 1 and 5 as shown in the table below.

Consequence Rating	Qualitative Score	Consequence
1 - 1.99	5	Catastrophic
2 - 4.99	4	Major
5 - 11.99	3	Moderate
12 - 19.99	2	Minor
20 - 25	1	Insignificant

# **Asset Management Plan**

# Warrnambool City Council

# APPENDIX F **Disclaimer**

All figures and values within this AMP are only accurate at the time of creating the plan. The existing condition data and renewal requirements are based on the information included within the SPM Assets software (including Programs). All renewal projects are revised annually to cater for any changes in budget, risk and service requirements.

# WARRNAMBOOL CITY COUNCIL

# Asset Management Plan – Infrastructure Buildings

# June 2020

This document has been prepared for Warrnambool City Council only. @ 2020 SPM Assets Pty Ltd

Warrnambool City Council

# **Executive Summary**

The Purpose of this Asset Management Plan

The purpose of this Infrastructure Asset Management Plan is to provide a robust planning process to facilitate the delivery of services through effective provision and management of Council's Infrastructure building assets. The AMP is based on evidence, service requirements, risk management principles and has been aligned with ISO 55000. It documents asset management practices and procedures that are being implemented by Council in managing the building portfolio and records how assets are being managed effectively from a whole of life perspective to deliver the best outcomes to all stakeholders in the most cost effective manner.

Objectives of the Building Asset Management Plan are to:

- 1. Analyse the existing asset data
- 2. Provide recommendations for any data cleansing opportunities identified
- 3. Provide recommendations on best practice asset management practice to manage Council's current assets
- 4. Alignment of assets to Service Needs, which was completed as part of the workshops in February 2020, to identify service planning gaps
- 5. Address functionality needs, compliance requirements for current users and potential future use, asset criticality and alignment with service delivery
- 6. Address changes to future demand
- 7. Provide a lifecycle management plan
- 8. Address the risk management and criticality of assets
- 9. Articulate all tasks and responsibilities associated with managing and maintaining the building asset portfolio
- 10. Provide a long-term financial forecast integrated into a Long Term Financial Plan

Alignment with ISO 55000

Council is considering the following as part of the ISO 55000 alignment:

- $\geq$ the governing body needs assurance that their assets are well managed
- Leadership and commitment from all 2. The asset mgt objectives managerial levels is essential to successful asset management
- "What to do" rather than "How to do it"  $\geq$ (IIMM, IPWEA/NAMS Practice Note 3 and NAMS Property manual provide the guidance on how to effectively manage the assets)
- Your organisation determines which assets are to be included

To effectively govern an organisation, An asset management system includes:

- 1. The asset mgt policy
- 3. The Strategic Asset Mgt Plan (SAMP)
- 4. The Asset Mgt Plans implemented in:
  - Operational planning and control /•///
  - Supporting activities
  - Control activities
  - Other related processes
- It is good business practice and always think about continuous improvement

SPM Assets' 7 Point Asset Planning Framework – How to be Aligned

# Warrnambool City Council

The below figure illustrates a framework on how to achieve alignment and manage assets efficiently and effectively. In summary:

- 1. Know your services
- 2. Know the assets and costs needed to deliver those services
- 3. Know what you need (both now and into the future)
- 4. Know what's possible asset and non-asset solutions
- 5. Know what to do now (budgets, risks and prioritisation) and what's sustainable over the longer term
- 6. Know your funding options recognising that the first step is to determine the investment needed to address the current and future shortfalls
- 7. Make decisions and deliver outcomes

#### **Asset Management Objectives**

It is recommended that Council implements the following asset management objectives that are aligned with ongoing best-practice over the next three (3) years:

- 80% of work done is planned If you only react to symptoms, the problems will build up over time to a level that could be too costly to address. The expenditure will be more controllable when you plan and think long term. Recognising there will always be a level of 'reactive works' or ad-hoc works that just can't be planned.
- 80% of the works programme is driven from the planning process. Making good decisions on evidence that's scientifically based rather than making ad-hoc decisions that may only consider part of the organisation's strategies getting this right will provide a greater level of success when competing for annual budgets. Again, recognising that there will always be a level of projects identified outside of the planning process.
- 20% of your asset register is updated, maintained, improved and changed every year. Good decisions require good data - manage the information strategically by targeting efforts in areas that provide key information that feeds into the planning process.

#### Warrnambool City Council

The longer-term value of this solution would be:

- Reduction in the premium paid for reactive maintenance leading to re-allocation of funds to planned works
- Having a more robust planned approach to your works-programme evidence based using scientific methods
- Better knowing and managing current and future risk
- > Having a well-maintained component level asset register with good confidence

#### **Overall Condition**

A total of 6,073 components for the Infrastructure buildings were visually identified and assessed with a Gross Replacement Cost (GRC) of \$11.2 million. The overall condition of these components is very good, in which 71% of components in very good condition (by value - \$8.0 million) and 22% of components in good condition (by value - \$2.4 million) as illustrated in the figure below. A further 5% are in moderate condition (by value - \$525K) while 2% of components are in a poor or very poor condition (by value - \$225K). The "residual structure" has been excluded from the data model and analysis.

The \$225K worth of components in poor or very poor condition largely relates to the following component groups:

- Interior Finishes at \$101K
- > External Fabric at \$68K
- Exterior & Sundries at \$26K
- Services at \$15K
- Open Space at \$15K

#### **Renewals and Replacements**

The figure below shows the forecast 15-year renewals expenditure required for all Infrastructure building subcategories, including the possible backlog. It shows that over the next 15 years \$4.8 million is required (an annual average of \$318K) to address both the backlog (a total value of \$384K)

© 2020 SPM Assets Pty Ltd, June 2020 Warrnambool City Council, 7584 Draft 1.1 iii

and annual lifecycle expenditure. The three highest peaks of expenditure are the backlog, 2023 and 2033.

# **Planned Upgrade Projects**

The table below summarises the planned upgrade projects with an estimated expenditure of \$694K over the next five years (2020 – 2024) by source. These projects have been compiled from the workshops held between Council and SPM Assets in February 2020, the Long Term Financial Plan (LTFP) and Council's renewal planning documents.

Project Information		Expenditure (\$ Millions)					
Program Name	Source	2020	2021	2022	2023	2024	Total
Housing -	Renewal Planning	25,000	-	-	-	-	25,000
Community & Residential	Workshop	-	50,000	50,000	-	-	100,000
	LTFP	125,000	125,000	-	-	-	250,000
Other Buildings	Renewal Planning	23,980	-	-	-	-	23,980
	Workshop	-	10,000	10,000	10,000	10,000	40,000
Public Toilets	Renewal Planning	10,000	-	-	-	-	10,000
Public Tollets	Workshop	-	50,000	-	-	-	50,000
	LTFP	28,729	29,375	30,110	30,863	31,634	150,711
Strategic Property	Renewal Planning	24,482	-	-	-	-	24,482
	Workshop	-	20,000	-	-	-	20,000
Т	otal	\$237,191	\$284,375	\$90,110	\$40,863	\$41,634	\$694,173

**Growth Projects** 

In order to meet the increased demand, a list of projects were developed during the workshops held between Council and SPM Assets in February 2020. These projects are solely for new buildings or extensions that have been identified as 'wish list' items as part of Council's strategic planning. The

# Warrnambool City Council

table below lists the projects by project name and the estimated annual expenditure. The total estimated expenditure for the growth projects is \$1.7 million.

Project Inform	ation	Expenditure				
Project Name	Source	2020	2021	2022	2023	Total
Extension Lake Pertobe Public Toilet	Workshop	220,000	-	-	-	220,000
Future McGennans Public Toilet	Workshop	-	-	-	600,000	600,000
New Woodford Public Toilet	Workshop	200,000	-	-	-	200,000
Refurb Albert Park/Crammer St Public Toilet	Workshop	-	350,000	-	-	350,000
Airport Aeroclub Room Upgrade	Workshop	-	-	350,000	-	350,000
Airport - Main Hanger Renewal	Workshop	ТВС	ТВС	TBC	ТВС	ТВС
Total		\$420,000	\$350,000	\$350,000	\$600,000	\$1,720,000

**Condition Forecasting – Assessed Component** 

Although knowing the current condition is important, a component is likely to remain in a good to very good condition for the next 10 years. While critical components will be proactively maintained to ensure the condition is kept within a defined standard. The following figure shows the forecasted condition (if the 'deferred' is addressed) over the next 15 years assuming that the components are replaced/renewed when required – the black line indicates the weighted average of condition and replacement cost.

#### **Component Risk Matrix**

A component risk score is a measure of the consequence of failure against and the likelihood of failure. The table below shows the proportion of the Infrastructure components by their GRC and risk score in a risk matrix. It shows that approximately \$4K of components are at extreme risk and \$301K are at high risk.

© 2020 SPM Assets Pty Ltd, June 2020 Warrnambool City Council, 7584

WARRNAMBOOI

# Asset Management Plan

# Warrnambool City Council

Risk Consequence / Likelihood	Unlikely (1)	Possible (2)	Likely (3)	Probable (4)	Almost Certain (5)
Catastrophic	Medium (5)	High (10)	High (15)	Extreme (20)	Extreme (25)
(5)	-	-	-	-	-
Major	Medium (4)	Medium (8)	High (12)	High (16)	Extreme (20)
(4)	\$1,581,278	\$192,380	\$30,727	\$36,689	\$3,606
Moderate	Low (3)	Medium (6)	Medium (9)	High (12)	High (15)
(3)	\$6,837,180	\$403,475	\$259,392	\$175,872	\$57,561
Minor	Low (2)	Medium (4)	Medium (6)	Medium (8)	High (10)
(2)	\$1,450,643	\$46,205	\$41,022	\$53,177	-
Insignificant	Low (1)	Low (2)	Low (3)	Medium (4)	Medium (5)
(1)	-	-	-	-	-

#### **Investment Scenario**

As seen within the figure below, over the next 10-year period (between 2020 and 2029) an estimated \$14.0 million is required (\$1.4 million on average per year) to address all expenditure requirements. As the total allocated budget for the next 10 years is \$24.0 million, if Council addresses all conditionbased shortfalls and completes the upgrade projects there will be a surplus of \$10.0 million.

#### **Improvement Actions**

The key actions resulting from this Infrastructure Asset Management Plan are:

#### Data

1. Review and update the current component references and components. In particular:

#### Warrnambool City Council

- a. Review criticalities of component references appearance, consequence and safety
- 2. Review the list of components that are included within future iterations of the AMP
- 3. Review the list of components that have been identified as 'extreme risk'
- 4. Review the property hierarchy and structure in the SPM Assets database to ensure the correct property type has been assigned
- 5. Data needs to be continuously updated to provide confidence in the long-term planning. The following tasks are recommended:
  - a. Update data form with completed works
  - b. Regular staff inspections
  - c. Three-year rolling condition surveys targeting high importance areas
- 6. Review the current PQS statements and determine if they meet Council's requirements in terms of functionality, performance and compliance
- 7. Complete valuations for the 2 buildings that currently do not have any valuation information
- Review the assumptions adopted for determining the operational and maintenance budgets or in future iterations of this AMP include Council's operational and maintenance budgets.

#### People

- 10. Identify who is responsible for managing and maintaining the Asset Management Plan
- 11. Confirmation of roles and responsibilities for Asset Owners, Asset Maintainers and Service Managers

#### Processes

- 12. Agreeing on a list of primary Level of Service statements will ensure Council focuses on immediate and important needs. The list should consist of approximately 5 statements and up to 10 measures. The process in determining which statements are more important should consider strategic objectives, statutory requirements and public expectations.
- 13. Establishment of Quality Standard
- 14. Review the list of components that have been identified as extreme risk
- 15. Implement the 80/80/20 asset management objective over the next three years
  - a. 80% of the work completed is planned
  - b. 80% of the works program is driven from the planning process
  - c. 20% of the asset register is updated, maintained, improved and changed every year

#### Systems

16. Consider further implementation and potential integrations e.g. uploading works history data into the SPM Assets database to better inform future decisions based on historical data and decisions

Warrnambool City Council

# **1** Introduction

#### 1.1 Purpose

Warrnambool City Council (Council) engaged SPM Assets Pty Ltd (SPM Assets) in December 2019 to work in a collaborative approach to improve the supporting documentation associated with sound asset management, which includes the preparation of Building Asset Management Plans (AMP) for each of its building categories – Community Facilities, Corporate & City Growth and Infrastructure. This AMP specifically focuses on the buildings managed and owned by Council that are included within the Infrastructure category.

The purpose of this Asset Management Plan is to provide a robust planning process to facilitate the delivery of services through effective provision and management of Infrastructure building assets. The AMP is based on evidence, service requirements, risk management principles and has been aligned with ISO 55000. It documents asset management practices and procedures that are being implemented by Council in managing the building portfolio and records how assets are being managed effectively from a whole of life perspective to deliver the best outcomes to all stakeholders in the most cost effective manner.

This AMP demonstrates proactive management of assets, records the current and future quality shortfalls and lists the projects and initiatives required to address the shortfalls in a way that is affordable and delivers the services required by Council. The AMP is used as a tool to provide information that decisions can be based on – this is an evidence-based asset plan. It also addresses compliance with regulatory requirements and communicates forecast shortfalls or surplus in funding used to provide the required levels of service.

Objectives of the Building Asset Management Plan are to:

- 1. Analyse the existing asset data
- 2. Provide recommendations for any data cleansing opportunities identified
- 3. Provide recommendations on best practice asset management practice to manage Council's current assets
- 4. Alignment of assets to Service Needs, which was completed as part of the workshops in February 2020, to identify service planning gaps
- 5. Address functionality needs, compliance requirements for current users and potential future use, asset criticality and alignment with service delivery
- 6. Address changes to future demand
- 7. Provide a lifecycle management plan
- 8. Address the risk management and criticality of assets
- 9. Articulate all tasks and responsibilities associated with managing and maintaining the building asset portfolio
- 10. Provide a long-term financial forecast integrated into a Long Term Financial Plan

#### 1.2 Background

Council first licenced the SPM Assets software application in April 2014. Council undertakes cyclic visual condition assessments and manages all building assets using the SPM Assets software application. Since then SPM Assets has been engaged by Council for several projects including completing condition assessments and the development of maintenance plans and 5 year works programmes.

#### Warrnambool City Council

On 6 February 2020, two workshops were held between SPM Assets and Council representatives from the Community Development and Recreation & Culture teams to discuss the current and future service specific building requirements. The attendees included:

- $\triangleright$ Manager Infrastructure Services
- $\triangleright$ Manager Facilities and Projects
- Coordinator Building Strategy & Services  $\triangleright$
- **Director Corporate Strategies**  $\triangleleft$

#### 1.3 Alignment with ISO 55000

ISO 55000 is a series of international standards that have been created by the International Standard Organisation (ISO) for the ongoing management of physical assets. These standards have been developed from the previously published PAS 55 standards which were developed in 2002-2004 and edited in 2008.

The ISO 55000 suite includes three standards:

- $\geq$ ISO 55000 - overview, principles and terminology
- ISO 55001 management system & requirements  $\geq$
- ISO 55002 guidelines on the application of ISO 55001  $\geq$

Important considerations:

- To effectively govern an organisation, the governing body needs assurance that their assets are well managed
- Leadership and commitment from all managerial levels is essential to successful asset management
- "What to do" rather than "How to do it" (IIMM, IPWEA/NAMS Practice Note 3 and NAMS Property manual provide the guidance on how to effectively manage the assets)
- Your organisation determines which assets are to be included
- $\geq$ It is good business practice and always think about continuous improvement

Figure 1-1 lists some of the elements of an ISO 55000 Asset Management System. Understanding the hierarchy of plans and processes is essential - remembering that the ISO is more about implementing a process rather than writing an AMP – the AMP is the output of the process:

- $\triangleright$ services being delivered through the assets
- Policies and objectives signed off by the governing body will make the process 3. The Strategic Asset Mgt Plan (SAMP) work
- Strategic AMP looking long term and considering capital concepts through to disposal
- AMPs can also be longer term and more aligned with a specific service being delivered and can focus more on maintenance and renewal

Know your reason why – what are the An asset management system includes:

- 1. The asset mgt policy
- 2. The asset mgt objectives
- 4. The Asset Mgt Plans implemented in:
  - Operational planning and control
  - Supporting activities
  - Control activities
  - . Other related processes

Figure 1-1 Elements of an ISO 55000 Asset Management System

#### Warrnambool City Council

- Implementation of the AMP and works-programmes all roads lead to the works programme as this is what you do to make a difference
- > Evaluate performance and improve processes, systems and data

Furthermore, section 2.5.3.1 of ISO 55000 states:

"An asset management system impacts the whole organisation, including its stakeholders and external service providers, and can use, link or integrate many of the organisation's activities and functions that would otherwise be managed or operated in isolation. The process of establishing an asset management system requires a thorough understanding of each of its elements and the policies, plans and procedures that integrate them. The asset management system requirements described in ISO 55001 are grouped in a way that is consistent with the fundamentals of asset management:

- 1. Context of the organisation (ISO 55001:2014, Clause 4)
- 2. Leadership (ISO 55001:2014, Clause 5)
- 3. Planning (ISO 55001:2014, Clause 6)
- 4. Support (ISO 55001:2014, Clause 7)
- 5. Operation (ISO 55001:2014, Clause 8)
- 6. Performance evaluation (ISO 55001:2014, Clause 9)
- 7. Improvement (ISO 55001:2014, Clause 10)

Council follows the 'asset management system' that the ISO 55000 describes. Therefore, this Asset Management Plan (AMP) summarises the outputs resulting from the process and describes the associated key inputs, assumptions, practices and systems.

#### **1.4 Asset Management Framework**

#### 1.4.1 Overview

Warrnambool City Council has stated the following vision as outlined in their Council Plan (2017-2021):

#### A cosmopolitan city by the sea

The following five objectives support Council's vision:

- 1. Sustain, enhance and protect the natural environment
- 2. Foster a healthy, welcoming city that is socially and culturally rich
- 3. Maintain and improve the physical places and visual appeal of the city
- 4. Develop a smarter economy with diverse and sustainable employment
- 5. Practice good governance through openness and accountability while balancing aspirations with sound financial advice

#### 1.4.2 Asset Management Objectives

On 2 December 2019, Council adopted the following goals and commitments as part of their Asset Management Policy:

- Asset management will be service driven and will align with the strategic priorities and directions of the Council
- To achieve and sustain a high level of asset management maturity

#### Warrnambool City Council

- To achieve certification with ISO 55000, International Standards for Asset Management
- Asset management will be integrated into corporate governance including enterprise planning, reporting and risk management frameworks and practices
- Maximise the value of Council's capital, operations and maintenance expenditures within current revenues, to optimise agreed levels of service, service delivery potential and manage related risks and costs over the entire life of infrastructure assets
- Decommission and dispose of assets that are under-utilised and no longer economically, socially or sustainably viable
- Involve and consult with the community and key stakeholders on determining service standards
- Service delivery assets will be created, acquired, maintained and rehabilitated to enable the organisation to meet its strategic service delivery goals efficiently and effectively
- Service/Asset Management Strategies and Plans will include processes which provide accountability to the community
- Allocate appropriate resources to ensure Asset Management practices can be undertaken and the timely maintenance and renewal of those assets so that 'life cycle' costs are optimised
- Accurately report on all aspects of Councils assets in terms of Operations, Maintenance, Renewal, Upgrade, Expansion and New
- Ensure that the roles and responsibilities of all asset owners, managers and users are well defined and understood. Reinforce and support asset management roles and responsibilities across the organisation at a functional level. The various key roles, responsibilities and delegations associated with service delivery and asset management is documented in the Asst Management Strategy
- Invest in appropriate and timely asset management training and development program for staff and Councillors as required
- Council will support the implementation of the Asset Management Strategy and foster a strong asset management culture across Council through a cross functional Asset Management Steering Committee

In addition to the above objectives, it is recommended that Council implements the following asset management objectives that are aligned with ongoing best-practice over the next three (3) years:

- 80% of work done is planned If you only react to symptoms, the problems will build up over time to a level that could be too costly to address. The expenditure will be more controllable when you plan and think long term. Recognising there will always be a level of 'reactive works' or ad-hoc works that just can't be planned.
- 80% of the works programme is driven from the planning process. Making good decisions on evidence that's scientifically based rather than making ad-hoc decisions that may only consider part of the organisation's strategies getting this right will provide a greater level of success when competing for annual budgets. Again, recognising that there will always be a level of projects identified outside of the planning process.
- 20% of your asset register is updated, maintained, improved and changed every year. Good decisions require good data - manage the information strategically by targeting efforts in areas that provide key information that feeds into the planning process.

The longer-term value of this solution would be:

Reduction in the premium paid for reactive maintenance – leading to re-allocation of funds to planned works >

#### Asset Management Plan

#### Warrnambool City Council

- Having a more robust planned approach to your works-programme evidence based using scientific methods
- Better knowing and managing current and future risk
- > Having a well-maintained component level asset register with good confidence

#### 1.4.3 SPM Assets' 7 Point Asset Planning Framework

SPM Assets' 7 Point Asset Management Planning Framework involves all areas of business and planning processes and is aligned with ISO55000 and the International Infrastructure Management Manual (IIMM).

Figure 1-2 below illustrates the Framework, which is a service-led planning approach, i.e. it is the service needs that define the quality standards required now and into the future. The framework is founded on the IIMM principles and is structured to proactively minimise shortfalls by implementing appropriate well thought out asset management strategies. The framework is founded on a culture of continual improvement which focuses on determining the degree of criticality of the assets, to minimise the risk of failure and is based on the following:

- 1. Know your services
  - A mixture of community and residential housing, public toilets and storage facilities.
- Know the assets and costs needed to deliver those services
   Having a good knowledge of the existing assets provides the planning platform. Realising
   that the data can have 80% confidence and still be useful, i.e. target the high-quality
   information management to critical and/or high value assets.
- Know what you need (both now and into the future) Recognising the difference between the Levels of Service and building related Quality Standards. It's about knowing the current standards and what they could be in the future and defining and measuring the lowest level.
- 4. Know what's possible asset and non-asset solutions Comparing the current situation with the desired levels of service and quality standards will identify the current and future shortfalls that need to be addressed. Creating a range of 'possible projects' to address the shortfalls moves the process from asset planning to project planning and eventual Capital Asset Management.
- Know what to do now (budgets, risks and prioritisation) and what's sustainable over the longer term Knowing which 'possible project' is more important than another, needs to consider its

outcomes after completion, its affordability, and the risks it's managing.

- 6. Know your funding options recognising that the first step is to determine the investment needed to address the current and future shortfalls Allocation of budgets to funded programmes ensures projects are being funded appropriately and that the renewals funding is specifically used to address replacements and renewals, thus avoiding fiscal surprises.
- 7. Make decisions and deliver outcomes Decisions are made every day and the right people should be making the right decisions based on information that they can rely on. This is where the real value of capital asset management is realised, i.e. the organisation has the confidence that it is making the right decisions.

# Warrnambool City Council

Figure 1-2 SPM Assets' 7 Point Asset Planning Framework

# 1.5 Relationship with Other Planning Documents

The AMP considers the following documents:

- Council Plan 2017-2021 (2019 revision)
- Asset Management Policy 2019
- Risk Management Policy 2015
- Community Services and Infrastructure Plan 2013 (CSIP)

#### **1.6 AMP Structure**

The AMP is the output of the asset management planning process. It documents the associated procedures, objectives, policies, standards, drivers, future renewal projects, lifecycle replacement projections and improvement tasks.

The AMP has been written so that any reader can understand how the assets are being considered and managed. Commentaries on renewal theories and the reasoning of renewal and maintenance policies provide the reader with the context or reason why certain practices have been implemented.

The AMP is a communication document first and foremost. It summarises the vast information held in the supporting computer systems and provides the reasoning of why maintenance and lifecycle expenditure is needed in the future. The 'nuts and bolts' detail is available directly from the management systems if the reader needs further detail of a specific asset or asset group.

# Warrnambool City Council

Council's objectives and policies are the primary driver for the asset management process and dictate all aspects of the asset management approach. This document recognises these requirements and uses SPM Assets' 7 Point Planning Framework and software applications as the primary implementation tools. In its simplest form, the asset register is populated, it is analysed, and a program of works is produced based on providing a defined 'level of service'.

Key sections of the AMP are based on the International Infrastructure Management Manual (IIMM) and are summarised as follows:

- Asset Description summary of assets and current condition
- > Levels of Service specifies the services and levels of service to be provided by Council
- Lifecycle Management how Council will manage its existing and future assets to provide the required services
- > Risk Management applying a risk-based analysis to the lifecycle results
- Financial Summary what funds are required to provide the required services
- Asset Management Practices documenting the practices that are required to maintain best practice in asset management going forward
- Asset Management Improvement Plan what are the next steps?

Warrnambool City Council

# 2 Asset Description

#### 2.1 Overview

A total of 6,073 visually assessed building components have been picked up during the onsite building condition assessments of the 48 Infrastructure buildings. The Gross Replacement Cost (GRC) of the assessed components has been identified as \$11.2 million. Table 2-1 summarises the number of sites, properties and components for the Infrastructure category.

Table 2-1 In	Table 2-1 Infrastructure – Overview							
		Building Sub	category					
	Housing – Community & Residential	Other Buildings	Public Toilets	Strategic Property	Total			
No. Sites	16	10	7	1	34			
No. Buildings	16	17	7	8	48			
No. Property Records	177	157	38	41	413			
No. Components	2,747	2,242	464	620	6,073			
Gross Replacement Cost (GRC)	3,149,732	5,924,515	850,626	1,244,334	\$11,169,207			
Capital Replacement Value (CRV)	6,141,282	10,831,512	1,730,200	2,182,026	\$20,885,020			

Improvement Action: The total number of buildings (48) includes both buildings and properties. As part of the Improvement Plan, the property type of the Infrastructure buildings may need to be reviewed to distinguish the difference between a 'block' (building) and a property, e.g. some sheds are classified as 'blocks' (buildings) and others are a 'property'.

# 2.2 Survey Methodology

#### 2.2.1 Site Assessment

A total of 48 Infrastructure building assets have been assessed between 2012 and 2019. The majority of onsite building condition assessments have been completed by experienced SPM Assets surveyors and updated and maintained by Council staff using the Mobile application of the SPM Assets software on a tablet PC device. The assessment approach that was implemented, and the SPM Assets software, have been directly aligned with ISO 55000, IIMM, NAMS Property Manual and IPWEA/NAMS Practice Note 3. The building condition assessments were conducted to identify the current condition of components, update property level information including capturing any space changes and refurbishments and answering Property Quality Standards (PQS).

#### Warrnambool City Council

#### 2.2.2 Data Model

The data model for Council's Infrastructure building assets has been broken down into grounds, buildings, floors and room locations (ground, block, floor, and unit) so that components can be assigned to a level that work can be carried out e.g. the refurbishment of the offices on level 1.

It should be noted that the following components have been excluded from this AMP:

#### Loose furniture

Improvement Action: These assets will be reviewed and may be included in future iterations of this AMP. Any projects associated with these assets will be included within the relevant board in the SPM Assets Programs application.

#### 2.3 Property Level Information

#### 2.3.1 Building Valuations

Table 2-2 below summarises the valuation figures for the Infrastructure building assets. The Capital Replacement Value (CRV), which is based on the rate per square metres as recommended in the Rawlinsons Australian Construction Handbook, has been calculated as \$20.9 million.

Table 2-2 Capital Replacement Values						
Building Subcategory No. Buildings CRV						
Housing – Community & Residential	16	6,141,282				
Other Buildings	15	10,831,512				
Public Toilets	7	1,730,200				
Strategic Property	8	2,182,026				
Total	46	\$20,885,020				

Improvement Action: A total of two buildings have no valuation data. As an improvement activity, a valuation for these buildings should be calculated or completed by an experienced building valuer.

#### 2.3.2 Condition Grade Index by Building

#### Definition

The Condition Grade Index (CGI) is the average condition grade of assessed components weighted by their Gross Replacement Cost (GRC). A low CGI e.g. 1.5 means that the components have been assessed to be in good to very good condition whereas a high grade such as 2.3 means that the components are mainly in a poor to very poor condition. The overall CGI for Infrastructure buildings is 1.38 which indicates that most of the buildings are in a good or very good condition.

#### Result

Table 2-3 lists the number of Infrastructure building assets by building subcategory for each of the CGI ranges and suggests that 86% of the building assets are considered to be in either a good or very good condition and there are no Infrastructure building assets with a CGI greater than 2.6.

Table 2-3 CGI of Infrastructure Buildings						
		C	GI Ranges			
Building Subcategory	<- Ve	ery Good		Very Poo	Total	
	1.0-1.4	1.4-1.7	1.7-2.2	2.2- 2.6	>2.6	
Housing – Commercial & Residential	7	5	2	2	0	16
Other Buildings	11	3	1	0	0	15
Public Toilets	4	1	1	0	0	6
Strategic Property	7	1	0	0	0	8
Total	29	10	4	2	0	45
Proportion	64%	22%	9%	4%	0%	100%

Improvement Action: The total number of buildings where a CGI has been calculated is 45. While there are 48 buildings included in the Infrastructure, three buildings have been excluded from the CGI calculations as they have no components. It is recommended that these buildings are reassessed to ensure that all relevant components have been captured.

#### 2.4 Description of Components

#### 2.4.1 Component Groups and Types

Table 2-4 provides a breakdown of the number of components by building subcategory for the Infrastructure buildings. A total of 285 unique components have been assessed that identify 6,073 assets, i.e. a component can have multiple assets within a building.

Table 2-4 Building Subcategory Component Breakdown					
Building Subcategory No. Components Proportion (%)					
Housing – Community & Residential	2,747	45%			
Other Buildings	2,242	37%			
Public Toilets	464	8%			
Strategic Property	620	10%			
Total	6,073	100%			

The Gross Replacement Cost (GRC) of the assessed components has been identified as \$11.2 million. Table 2-5 and Table 2-6 summarises the GRC by component group and component type respectively. The Interior Finishes and External Fabric components have the highest GRC of \$4.5 million and \$3.8 million respectively while the Clinical Equipment components have the lowest GRC of \$2K.

Table 2-5 GRC by Component Group

#### 2.4.2 Condition

Overall the assessed building components of the Infrastructure buildings are in a very good condition, in which 71% of components in very good condition (by value - \$8.0 million) and 22% of components in good condition (by value - \$2.4 million) as illustrated in Figure 2-1. A further 5% are in moderate condition (by value - \$525K) while 2% of components are in a poor or very poor condition (by value - \$225K).

The \$225K of components in poor or very poor condition largely relates to the following component groups:

- Interior Finishes at \$101K
- External Fabric at \$68K
- Exterior & Sundries at \$26K
- Services at \$15K
- Open Space at \$15K

Figure 2-1 Condition Profile of Infrastructure Buildings

The component criticality criteria established within the SPM Assets Reference library provides a consistent framework to prioritise works at a component level and aggregate up to a component group and project level. It is based on the following criteria:

- Consequence of Failure the impact failure of a component will have on the asset overall and business continuity
- Occupational Health and Safety the importance of a component in relation to the health and safety of users and occupants of the building or asset
- > **Appearance** the importance of a component appearance

A component is classified as critical by considering the following criteria:

- > Consequence of Failure of medium-high to high criticality
- > Occupational Health and Safety of medium-high to high criticality
- Appearance of high criticality

In total there are 2,668 components that fit the above criteria with a total GRC of \$6.2 million. Table 2-7 lists the critical assets by component group and type, the number of components and GRC.

	Sanitary Plumbing	175	186,278				
Special Services 5 1							
Tot	al	2,747	\$3,149,732				

Overall the components are in a very good condition with 59% of components in very good condition (by value - \$1.9 million) and 28% of components in good condition (by value - \$879K) as illustrated in Figure 2-2. A further 9% are in moderate condition (by value - \$297K) and 4% in poor or very poor condition (by value - \$116K).

Figure 2-2 Condition Profile of Housing – Community & Residential

The \$116K of components in poor or very poor condition largely relate to the following component groups.

- Interior Finishes \$48K
  - Comm House Residence Unit 2/14 Henry St \$28K
- Exterior & Sundries \$26K
  - Comm House Residence Unit 2/14 Henry St \$8K
  - Comm House Residence 84 Landmann St \$7K
- External Fabric \$23K
  - Residence 36 Koroit St \$7K

#### 2.4.5 Other Buildings

There are 226 unique components that describe the 2,242 assets associated with the Other Buildings subcategory. The Gross Replacement Cost (GRC) of the assessed components is \$5.9 million. Table 2-9 details the replacement cost of assets by component group and type.

т	otal	620	\$1,244,334		

Overall the components are in a very good condition with 80% of components in very good condition (by value - \$994K) and 14% of components in good condition (\$172K) as illustrated in Figure 2-5. A further 4% are in moderate condition (by value - \$44K) and 3% in a poor or very poor condition (by value - \$35K).

Figure 2-5 Condition Profile of Strategic Property

The \$35K of components in poor or very poor condition largely relate to the following component groups.

- External Fabric \$19K
  - Airport Hanger (Leased to Airapply) \$18K
- Interior Finishes \$14K
  - Airport Residence (Rate Payer Warrnambool Aerodrome Committee) \$13K

#### 2.5 PQS Assessment Results

The functionality and performance of each building asset within Council's Infrastructure portfolio has been reviewed and measured using the Property Quality Standard (PQS) process, described in IPWEA/NAMS Practice Note #3. Adopting the PQS mechanism enables the measurement of 'level of service' statements and identification of backlogs. Future scoped projects would address these backlogs and as such, the PQS mechanism will provide a way to prioritise works.

Each PQS question has an 'answer definition' that allows the surveyor to determine the level of service, which will in turn produce a cost if the question fails the standard. This means that the Council can vary the standards so that the cost to achieve a desired standard can easily be modelled. Refer to APPENDIX B for the full list of PQS questions.

Applying PQS to buildings and keeping the data up to date will identify quality shortfalls that will need to be addressed through asset and non-asset initiatives.

For Council's building assets, the following set list of categories of PQS statements were used to identify potential shortfalls associated with the following categories:

- Risk

  Injury/Illness
  Risk Exposures
- © 2020 SPM Assets Pty Ltd, June 2020 Warrnambool City Council, 7584

# Warrnambool City Council

- Accessible
- Functional
- o Healthy
- Quality
- o Safety
- o Sustainability

Note: All PQS statements are aligned to today's standards. Any failures of PQS statements needs to take into consideration that building assets would have been built in accordance with standards at that time.

#### 2.5.1 PQS Assessment Results

A total of 45 Infrastructure buildings underwent the PQS assessment. Table 2-12 summarises the results of by statement category. Overall, the buildings comply with 96.6% of the PQS statements.

Table 2-12 PQS Results by Category							
PQS Category 1	PQS Category 2	Total	Pass %				
Risk	Injury/Illness	1	209	210	99.5%		
RISK	Risk Exposures	1	125	126	99.2%		
	Accessible	10	158	168	94.0%		
	Functional	13	239	252	94.8%		
Services	Healthy	7	287	294	97.6%		
Services	Quality	8	244	252	96.8%		
	Safety	1	41	42	97.6%		
	Sustainable	14	280	294	95.2%		
То	Total		1,583	1,638	96.6%		

Improvement Action: It is recommended that PQS assessments are carried out on all Infrastructure buildings to identify potential functionality and performance shortfalls. It also recommended that costs are calculated to rectify any issues identified by the PQS assessments.

Warrnambool City Council

# **3** Levels of Service

#### 3.1 Overview

Understanding the desired levels of service of a building within a fixed asset portfolio is fundamental in order to match assets to service delivery objectives. These asset related requirements are documented in a 'Level of Service Statement' which should align with the organisation's objectives.

The factors affecting levels of service of any organisation can be broken into three broad categories.

- 1. **Customer requirements**: The expectations of the customer served by the organisation through the utilisation of the asset.
- 2. **Legislative requirements**: The mandatory provisions or standards set by local, national or international bodies that govern asset utilisation, particularly in terms of various issues affecting the general public.
- 3. **Strategic goals**: Broad framework-based management directives consistent with the organisation goals and values stated in policies, objectives, and the user asset management plans

The Level of Service statement is the basis for the assessment of the portfolio and the long-term financial planning of operational and capital expenditure. According to this statement, the asset plan targets expenditure to address immediate shortfalls (deferred renewals/backlog) and future requirements as planned expenditure.

Figure 3-1 Level of Service Process Flow

#### Warrnambool City Council

The key principles are:

- Clearly defined strategic objectives
- In support of the strategic objectives, an understanding of the difference between technical and customer related objectives
- Defined targets
- > Statement of how the performance will be measured against the targets
- Current performance measurement against the level of service to identify the shortfalls

#### **3.2** Alignment with Council's Level of Service Measures

In the 'service-led asset planning' context, the assets are in place to provide for the people that deliver the service. For example, to deliver services to the community, a local government needs operational buildings. This section defines the services being provided by the organisation.

Establishing both customer and technical level of service standards is a challenging process that often takes several years to complete. Council will need to undertake customer surveys to identify the community's expectations and use this information to establish the 'customer' level of service standards for the provision of community services associated with buildings.

The customer level of service standard identifies the type and number of buildings required to deliver community services and achieve strategic objectives, whereas the technical level of service standards identify the quality of the individual buildings considering function, condition and energy efficiency as examples.

#### **3.3 Customer Levels of Service**

#### 3.3.1 Current Strategic Levels of Service

Council's current strategic levels of service are outlined in Table 3-1 below.

Table 3-1 Strategic Levels of Service							
Strategic Goal Outcomes Activities Measures Benchman							

#### 3.3.2 Future Strategic Levels of Service

As the population of Warrnambool City is expected to grow over the next 16 years, from a forecast of 36,575 in 2020 to 46,210 in 2036 (Source: .id the population experts), there will be greater demand for access to Council's Infrastructure building assets. Figure 3-2 below illustrates the expected population growth of Warrnambool City over a 20-year period (2016-2036).

Figure 3-2 Forecasted Population for Warrnambool City (2016- 2036)

As stated in the Community Services and Infrastructure Plan 2013 (CSIP), there is expected to be a 35% increase in the number of people across all age groups. Table 3-1 lists the expected changes in the age groups of Warrnambool City between 2016 and 2036.

Table 3-2	Table 3-2 Warrnambool City - Total Persons <sup>1</sup> between 2016 and 2036

# Warrnambool City Council

Table 3-2 Warrnambool City - Total Persons <sup>1</sup> between 2016 and 2036								
Age group	2016		2026 2036		2026 203		Change b 2016 and	
(years)	Number	%	Number	%	Number	%	Number	%
85 and over	964	2.8	1,175	2.9	1,537	3.3	573	59.4
Total	34,243	100%	40,323	100%	46,209	100%	11,966	34.9%

In order to meet the increased demand for Infrastructure building assets and access to their related services, Council will need to adopt a customer level of service to increase the number of housing, public toilets and strategic property buildings or update the current buildings to be multi-purpose.

#### 3.4 Technical Levels of Service

#### 3.4.1 Setting a Building Quality Standard

In Table 3-3 below, an indicative building quality standard for Council's 48 Infrastructure building assets has been established. This indicative standard includes both a CGI target and a maintenance target, measured in an annual percentage spend against the Capital Replacement Value (CRV).

Improvement Action: The building standard assigned to the buildings is for the purpose of the analysis of this report. The actual quality standard needs to be reviewed and assigned to each buildings based on Council's policies and standards and the level of service for each of the buildings.

Table 3-3 B	uilding Quality Standar	d Definition
Standard	Building Type	Definitions
	Heritage/Local	CGI < 1.7, Maintenance > 0.5%
A	Significance	No backlog. Noncritical assets can be in a moderate condition. Regular preventative maintenance.
	Administration	CGI < 2.0, Maintenance > 0.4%
В	Aquatic Centres Childcare Commercial Community Centres Libraries Public Halls	No backlog. Noncritical assets can be in a moderate to poor condition. Regular preventative maintenance.
		CGI < 2.2, Maintenance > 0.3%
С	Recreational Toilet Blocks	Some backlog allowed for non-critical assets. Selected assets will undergo reactive maintenance, preventative planned maintenance to be utilised otherwise.
	Depot	CGI < 2.5, Maintenance > 0.25
D	Storage Utilities	High backlog allowed for non-critical assets. The majority of assets will undergo reactive maintenance, preventative planned maintenance to be limited.

Table 3-4 lists the two Infrastructure buildings which have not met the building quality standards as outlined in Table 3-3. The results for all Infrastructure buildings have been included in APPENDIX C.

# Warrnambool City Council

Table 3-4 Condition of Community Facility Buildings										
Subcategory	Subcategory Building Name Sta									
Housing - Community	Comm House Residence - Unit 2/14 Henry St	В	2.50	Fail						
& Residential	Residence - 26 Garden St	В	2.45	Fail						

#### 3.4.2 Critical Assets in a Poorer Condition

For the purpose of this AMP a further generic quality standard has been applied to all Infrastructure buildings that relates to the condition of critical components. In order to meet the quality standard a building is required to have all critical components in a moderate condition or better. No functional or compliance targets have been included in this AMP. Each building considered has had this Quality Standard applied so that the level of works required to achieve the standard can be determined.

Table 3-3 summarises the results of applying the Quality Standard based on the definition described above. See APPENDIX D for detailed results relating to each Infrastructure building.

All building subcategories have critical components in a poor and very poor condition as shown in Table 3-3 below. A total of 83 critical components have been assessed to be in a poor or very poor condition with a replacement cost of \$135K. The most significant subcategories in terms of critical components identified to be in a poor or very poor condition by replacement cost are the Housing – Community & Residential at \$61K and the Strategic Property at \$31K.

Table 3-5 Result of Quality	Table 3-5 Result of Quality Standard for Critical Components

Warrnambool City Council

# 4 Lifecycle Management

#### 4.1 Overview

The strategy of lifecycle management is to maintain the assets to a level that meets the quality standards and asset management objectives in a way that minimises risk. Council achieves this through the following traditional lifecycle management process:

- Renewal and replacements informed by the lifecycle analysis reports from the SPM Assets software. The Project-Planning module would be used to apply levels of service standards at each site resulting in planned-projects. Moving from a component level analysis to a project level decision making process. This includes resulting risk ratings to prioritise the timing of future projects.
- Upgrades the resulting projects that have been included within the 'Building Renewal/Replacement Board – 2020' board in the SPM Assets Program application. These projects are based on Council's policies and budgets.
- Growth these are likely to be driven by the 'future demand' analysis and at this stage, and simply list any new buildings or extensions that are identified in current Council planning documents. These projects are included in the 'Building Growth and Improvement Board – 2020 AMP' board within the SPM Assets Program application.
- Operations servicing and inspections of essential services driven by the Building Code of Australia, and annual cost components such as power usage and cleaning.
- Maintenance Council developed preventative maintenance regimes plus reactive maintenance budgets – both balanced with lifecycle renewals to optimise the overall cost of caring for the building.
- Disposals consider implementing a business rule for building disposals plus current Council strategy documents that may identify future strategic disposals. The business rule could be for example – if the calculated renewal costs plus maintenance and operational costs (over 10 years) are more than 30% of the Capital Replacement Value of the building, then consider the building for disposal or major refurbishment.

Section 4.2.1 details the methods in which an asset's lifecycle is calculated within the SPM Assets database.

# 4.2 Renewal and Replacements

#### 4.2.1 Predictive Deterioration Models Applied

The data collected through the condition survey process has been analysed using 'age', 'condition' and 'condition-age' based analysis to determine the likely remaining life of each component. The analysis considers the parameters illustrated in Figure 4-1 and is largely influenced by the base life range, the KPI score, age and the assessed condition grade. It is important that the analysis theory as detailed below is understood.

Age Based: - Determines the remaining life considering the base life range, criticality and component age. Condition or the assessed remaining life is not considered. This can be the most effective algorithm for plant and equipment style components. The likely replacement year equals the construction year plus calculated base life. For example, a component that was installed in 1998 with a 15-year calculated base life would most likely require replacement in 2013. As it is currently 2020, it would be 7 years overdue

#### Warrnambool City Council

for replacement. However, if the component is non-critical, this could be acceptable, and it could be allowed to run to failure.

- Condition Based: An asset has a base life range, i.e. it's expected to be fully renewed or totally replaced at some point within this range. The calculated base life is determined by applying the resulting KPI score to the base life range, i.e. if the asset is critical then the calculated base life is likely to be closer to the lower end of the range whereas if it is non-critical, then it will be closer to the upper end of the range.
- Condition-Age Based: the remaining life generated by the Condition-Age algorithm is influenced by the age of the component, i.e. if an asset has been assessed to be in a very good condition and is old then the remaining life is calculated from the end of the condition grade 1 band. This significantly influences the remaining life of assets assessed to be in a very good and good condition. This algorithm has been applied to various structural and mechanical services assets.

Of the 6,073 components for the Infrastructure building assets in the SPM Assets database, the following breakdown of deterioration models has been applied:

- > 5,972 components use the Condition based model
- > 63 components use the Condition-Age based model
- > 38 components use the Age based model

Figure 4-1 Principles of the predictive model

#### 4.2.2 Determining Backlog Renewals

The backlog renewal position has been determined based on any component that has a calculated year of replacement prior to 2020. There are a large number and value of assets that are in a backlog position based on this rule, which is summarised in Table 4-1 by component group and component type. The total calculated backlog for the Infrastructure buildings is \$384K, with the majority being associated with Interior Finishes (\$187K), External Fabric (\$92K) and Services (\$42K). The majority of the assets with a calculated year of replacement prior to 2020 are those that were

# Warrnambool City Council

assessed as being in a poor or very poor condition, while some are in good or moderate condition but have a short overall base life.

Table 4-1 Potential B	acklog by Component G	iroup and Type	
Component Group	Component Type	No. of Instances	Calculated Backlog
	Misc.	5	13,784
Exterior & Sundries	Paving	2	4,500
	Sundries	6	13,860
	External Stairs	1	1,152
External Fabric	External Walls	19	49,814
	Roof	20	34,522

	Gates	2	8,007
	Electrical	4	918
	Fire Services	3	1,287
Services	Mechanical	19	24,073
	Sanitary Plumbing	27	15,827
	Special Services	2	356
Т	otal	288	\$383,874

#### 4.2.3 Portfolio Renewal Forecast

Figure 4-2 shows the forecast 15-year renewals expenditure required for all Infrastructure building subcategories, including the possible backlog. It shows that over the next 15 years \$4.8 million is required (an annual average of \$318K) to address both the backlog (a total value of \$384K as detailed in Section 4.5.2), and annual lifecycle expenditure. The three highest peaks of expenditure are the backlog, 2023 and 2033.

Figure 4-2 Renewal Forecasts over 15 years for all Infrastructure Buildings

It is important to recognise that the lifecycle projections are the raw results from the predictive model in the SPM Assets software and will need to be further modelled to determine pragmatic projects that align with the available funding.

#### 4.2.4 Renewal Forecasts by Building Subcategory

#### Housing – Community & Residential

Figure 4-3 shows the forecast 15-year renewals expenditure required for the Housing – Community & Residential subcategory, including possible backlog. The forecast renewal expenditure is \$1.7 million over the next 15 years, with an average annual expenditure of \$113K. The backlog for this building subcategory is \$134K. The three highest years of expenditure are 2023, 2026 and 2033.

Figure 4-3 Renewal Forecasts for Housing – Community & Residential

# Warrnambool City Council

The main contributors to the top three annual peaks in lifecycle expenditure are the following:

- Year 2023:
  - Comm House Residence Unit 1/14 Henry St
    - The replacement of the ceiling paint \$6K
    - The replacement of the internal wall paint \$6K
  - Comm House Residence 45 Merrivale Dr
    - The replacement of the ceiling paint \$8K
    - The replacement of the internal wall paint \$7K
- Year 2026:
  - Residential Property 36 Koroit St
    - The replacement of the garden/tool shed \$11K
  - $\circ$  Comm House Residence 2 Vickers Dr
  - The replacement of the kitchen joinery \$11K
  - Comm Residence 8 Henry St
    - The replacement of the sliding wardrobe doors \$9K
  - Comm House Residence Unit 1/14 Henry St
    - The replacement of the kitchen joinery \$10K
  - $\circ$  Comm House Residence 82 Landmann St
    - The replacement of the kitchen joinery \$11K
    - Comm House Residence 137 Morriss Rd
      - The replacement of the kitchen joinery \$10K
- Year 2033:

0

- Comm House Residence 12 Henry St
  - The replacement of the concrete tile roofing \$10K
- Comm House Residence 15 McKiernan Rd
  - The replacement of the concrete tile roofing \$11K
- Comm House Residence 41 Merrivale Dr
  - The replacement of the concrete tile roofing \$10K

#### **Other Buildings**

Figure 4-4 shows the forecast 15-year renewals expenditure required for the Other Buildings subcategory, including possible backlog. The forecast renewal expenditure is \$2.2 million over the next 15 years, with an average annual expenditure of \$148K. The backlog for this building subcategory is \$195K which is the largest peak of expenditure. The three highest peaks of expenditure occur in 2023, 2030 and 2033.

# Warrnambool City Council

The main contributors to the top three annual peaks in lifecycle expenditure are the following:

- Year 2023:
  - o Alveston
    - The replacement of the boilers \$117K
    - The replacement of the internal wall paint \$54K
    - The replacement of the ceiling paint \$35K
    - The replacement of the vinyl flooring \$27K
  - o RSPCA
    - The replacement of the vinyl flooring \$9K
  - SES Building
    - The replacement of the internal wall paint \$15K
- > Year 2030:
  - o Alveston
    - The replacement of the Colorbond roofing \$45K
  - SES Building
    - The replacement of the Colorbond roofing \$45K
  - o RSPCA
    - The replacement of the Colorbond roofing \$13K
    - The replacement of the shelving \$11K
  - $\circ \quad \mbox{Scott St Depot-Workshop Store Building}$ 
    - The replacement of the hoist \$16K
    - The replacement of the metal roller doors \$10K
  - o Mozart Hall
    - The replacement of the bench seating \$19K
- Year 2033:
  - Alveston

# Warrnambool City Council

- The replacement of the internal wall paint \$54K
- The replacement of the ceiling paint \$35K
- o RSPCA
  - The replacement of the ducted split air conditioning unit \$26K
    - The replacement of the chain wire fence \$22K
    - The replacement of the asphalt/sealed areas \$15K
- Scott St Depot Amenities Building
  - The replacement of the vinyl flooring \$28K
  - The replacement of the card readers \$14K
- Scott St Depot Parks & Gardens Shed
  - The replacement of the Colorbond Roofing \$35K
- Lyndoch Jetty Shed
  - The replacement of the balustrade \$24K
- SES Building
  - The replacement of the internal wall paint \$15K

#### **Public Toilets**

Figure 4-5 shows the forecast 15-year renewals expenditure required for the Public Toilets subcategory, including possible backlog. The forecast renewal expenditure is \$313K over the next 15 years, with an average annual expenditure of \$21K. The backlog for this building subcategory is \$10K. The largest annual peaks for this subcategory are in 2020, 2029 and 2031.

Figure 4-5 Renewal Forecasts for Public Toilets

The main contributors to the top three annual peaks in lifecycle expenditure are the following:

- Year 2020:
  - Toilet Block Stingray Bay
    - The replacement of the Colorbond roofing \$22K
- Year 2029:

# Warrnambool City Council

- Toilet Block Stingray Bay
   The replacement of the stainless steel urinal \$8K
- Year 2031:
  - Toilet Block Albert Park
     The replacement of the stainless steel toilet \$20K

#### **Strategic Property**

Figure 4-6 shows the forecast 15-year renewals expenditure required for the Strategic Property subcategory, including possible backlog. The forecast renewal expenditure is \$546K over the next 15 years, with an average annual expenditure of \$36K. The backlog for this building subcategory is \$44K. The largest annual peaks for this subcategory are in 2023, 2027 and 2033.

Figure 4-6 Renewal Forecasts for Strategic Property

The main contributors to the top three annual peaks in lifecycle expenditure are the following:

- Year 2023:
  - Airport Hanger (Leased to Airapply)
    - The replacement of the metal cladding \$18K
- Year 2027:
  - Airport Grounds
    - The replacement of the light pole \$19K
    - The replacement of the automatic opening doors \$16K
- Year 2033:
  - Airport Residence (Rate Payer Warrnambool Aerodrome Committee)
    - The replacement of the concrete tile roofing \$13K
    - The replacement of the block wall \$10K

# Warrnambool City Council

#### 4.2.5 Condition Forecasting

Although the Condition Grade Index (CGI) provides a good measure at the time of survey, the condition grades will change over time as components deteriorate further and are replaced. While critical components will be proactively maintained to ensure the condition is kept within the defined standards, other components have a reactive maintenance requirement meaning that they will be repaired or replaced when they fail.

Figure 4-7 shows the forecasted condition over the next 15 years for the Infrastructure buildings assuming that the components are replaced/renewed when required. It shows that replacing all components at their forecasted renewal date is required to maintain the CGI at the current levels. Figure 4-8 shows a 'worst-case scenario'; the forecasted condition assuming no renewals or replacements of components for the same period of 15 years.

The black line indicates the overall CGI of the assets at that point in time based on the condition, assigned base life, criticality factors and the unit rate of the individual component. The coloured sections from green to red represent the proportion of components in the five condition grades.

Figure 4-7 Forecasted Condition over the next 15 years assuming components are renewed

Figure 4-8 Forecasted Condition over the next 15 years assuming no renewal of components

Warrnambool City Council

#### 4.3 Upgrades

Table 4-2 below lists a total of 15 planned upgrade projects with an estimated expenditure of \$694K over the next five years. These projects have been compiled from the workshops held between Council and SPM Assets in February 2020, the Long Term Financial Plan (LTFP) and Council's renewal planning documents. Further details about the projects compiled during the workshops can be found within the 'Building Renewal/Replacement Board – 2020 AMP' in the SPM Assets Programs application. Any new upgrade projects that were not discussed during the workshops are included in Table 4-3 below.

Table 4-2 List	of Upgrade Proje	ects							
	Expenditure								
Subcategory	Project Name	Project Description	Source	2020	2021	2022	2023	2024	Total
	15 McKiernan Rd - Renovations	Complete internal and external renovations.	Renewal Planning	25,000	-	-	-	-	25,000
Housing - Community & Residential	Housing Renewal and Replacement Allowance	Derived from the Lifecycle analysis of assessed components - an annual allowance. #### 4.4 Growth

As outlined in Section 3.3.1, there is expected to be an increase in the future demand for Infrastructure buildings. In order to meet the increased demand, a list of projects were developed during the workshops held between Council and SPM Assets in February 2020. These projects are solely for new buildings or extensions that have been identified as 'wish list' items as part of Council's strategic long term planning. Table 4-4 lists the projects by project name and the estimated annual expenditure while Table 4-5 lists any additional projects that were not discussed during the workshops. The

#### Warrnambool City Council

total estimated expenditure for the growth projects is \$1.7 million. Further details of these projects can be found within the 'Building Growth and Improvement Board – 2020 AMP' board in the SPM Assets Programs application.

Warrnambool City Council

#### 4.5 Operations Plan

The operational expenditure budget allows for costs associated with the use of the building such as salaries and wages, cleaning, security, property management, insurance, council rates, water usage and power usage. Council's existing operations budget has not been provided for the purposes of this report. As such, a generic percentage of the total building valuation will be used in the Financial Summary in Section 6.

# 4.6 Maintenance Plan

The current maintenance policy is mainly reactive alongside the routine maintenance of selected services. Council's existing maintenance budget has not been provided for the purposes of this report. As such, a generic percentage of the total building valuation will be used for both cyclical and reactive maintenance in the Financial Summary in Section 6.

#### 4.7 Disposals

There are currently no plans for any Infrastructure buildings to be disposed.

Warrnambool City Council

# 5 Risk Management

#### 5.1 Principles

The Standard AS/NZS ISO 31000: 2009 has been referred to in establishing a Risk Matrix to determine the risk associated with the building portfolio. Risks can include financial, environmental, social, operational and health and safety considerations. Typical risks relevant to Council buildings are:

- Asset Management
- Environmental Hazards
- Financial, Funding Fraud
- Customer Services
- Contracting Performance
- Environmental Hazards
- Governance

- > Human Resources
- Information Management
- Legislative Compliance
- Planning, Strategy, Growth
- Project / Programme Management
- Public Health & Safety

The following options are available for mitigating risks to reduce the cause, probability or impact of failure:

- 1. Do nothing Accept the risk
- 2. Management Strategies Implement enhanced strategies for demand management, contingency planning, quality processes, staff training, data analysis and reporting, reduce the desired level of service, etc.
- 3. Operational Strategies Actions to reduce peak demand or stresses on the asset, operator training, documentation of operational procedures, etc.
- 4. Maintenance Strategies Modify the maintenance regime to make the asset more reliable or to extend its life
- 5. Asset Renewal Strategies Rehabilitation or replace assets to maintain service levels
- 6. Development Strategies Investment to create a new asset or augment an existing asset
- Asset Disposal/Rationalisation Divestment of assets surplus to needs due to a service being determined as a non-core activity or assets can be reconfigured to better meet needs

#### 5.2 Predictive Deterioration Model

The lifecycle replacement model is inherently risk based and therefore can be used as the risk analysis platform. The following factors are considered at a component level:

- > Asset naming convention related to the failure event
- Criticality criteria and building importance (functional weighting) the consequence of failure
- Base life range the statistical model that provides a 90% likelihood that the asset will need to be renewed or replaced within the range
- > The predictive model the likelihood of failure
- > The unit replacement rate the cost to mitigate the risk and best aggregated into a project or a procurement

These parameters are used in the following way:

1. To reduce the risk of failures to service delivery

#### Warrnambool City Council

- 2. Influences the predicted time of replacement or renewal
- 3. Smooths the longer-term projections, i.e. with limited budgets, the result will ensure assets that have higher criticality will be considered first
- 4. Prioritisation of projects, i.e. the aggregation of criticality factors combined with building importance will ensure the more important projects are implemented first

#### 5.3 Council's Risk Management Framework

Council's Risk Management Framework is outlined within the Risk Management Policy 2015. Council's policy is to identify and manage risk in accordance with approved standards and continually improving practices.

Council commits to the following risk management objectives/statements:

- We will apply a coordinated and integrated approach to risk management across Council. Consistent with the principles of AS/NZS ISO Standards
- Council through its Audit and Risk committee shall ensure the establishment, implementation and ongoing review of the Council's risk management framework, internal compliance and control systems
- Risk management will be an integral part of planning and decision-making processes
- We will adopt risk management strategies which promote confidence in the achievement of optimal business & community outcomes
- > We will establish a culture of risk consciousness within our organisation and promote risk awareness with our stakeholders
- Communication within the stakeholder community in relation to the identification and management of risk is encouraged
- We will develop and continually improve risk management practices based on established standards and industry practice
- > We will apply a coordinated and integrated approach to risk management
- > There is accountability assigned to all those with risk management responsibilities
- Council staff will be provided with the necessary training to allow them to undertake their risk management duties

#### 5.4 Current Component Risk Matrix

A component risk score is a measure of the consequence of failure against and the likelihood of failure. An explanation of how the risk ratings have been calculated can be found in APPENDIX E. Table 5-1 shows the proportion of the Infrastructure building components by their GRC and risk score in a risk matrix. The likelihood is shown in the columns of the table with consequence being shown in the rows. The risk matrix, developed by SPM Assets, uses the raw outputs of the SPM Assets database at a component level. It shows that approximately \$4K of components are at extreme risk and \$301K are at high risk.

Table 5-1 Compon	Table 5-1 Component Risk Matrix and GRC											
Risk Consequence	Unlikely	Possible	Likely	Probable	Almost Certain							
/ Likelihood	(1)	(2)	(3)	(4)	(5)							
Catastrophic	Medium (5)	High (10)	High (15)	Extreme (20)	Extreme (25)							
(5)	-	-	-	-	-							

# Warrnambool City Council

Table 5-1 Component Risk Matrix and GRC										
Risk Consequence	Unlikely	Possible	Likely	Probable	Almost Certain					
/ Likelihood	(1)	(2)	(3)	(4)	(5)					
Major	Medium (4)	Medium (8)	High (12)	High (16)	Extreme (20)					
(4)	\$1,581,278	\$192,380	\$30,727	\$36,689	\$3,606					
Moderate	Low (3)	Medium (6)	Medium (9)	High (12)	High (15)					
(3)	\$6,837,180	\$403,475	\$259,392	\$175,872	\$57,561					
Minor	Low (2)	Medium (4)	Medium (6)	Medium (8)	High (10)					
(2)	\$1,450,643	\$46,205	\$41,022	\$53,177	-					
Insignificant	Low (1)	Low (2)	Low (3)	Medium (4)	Medium (5)					
(1)	-	-	-	-	-					

Improvement Action: As part of the Improvement Plan, the components that have been identified as extreme risk may need to be further verified by Council prior to any planning of works as well as a review of the component criticalities.

# 5.5 Project Prioritisation Based on Risk

The list of priority projects will be considered annually to ensure that decisions are made based on evidence from the AMP rather than judgement.

Warrnambool City Council

# **6** Financial Summary

#### 6.1 Overview

Where Section 4: Lifecycle Management identified the range of possible expenditure that needs consideration to achieve the Quality Standards and performance shortfall, the Financial Summary section provides the recommended total expenditure budgets for the next 10 years, including both capital expenditure (capex) and operational expenditure (opex).

#### 6.2 Assumptions

As neither the actual nor historical operational expenditure have been received from Council, estimates have been applied using the assumptions stated within Table 6-1. This has been applied to the total Capital Replacement Value of \$20.9 million to provide an estimated annual cost to include in the financial forecast in Section 6.3.

Table 6-1 Operational Expenditure Estimates									
Expenditure Category	Estimated Annual Expenditure								
Operations	3.00%	626,551							
Cyclical Maintenance	0.40%	83,540							
Reactive Maintenance	1.50%	313,275							
Total	4.90%	\$1,023,366							

Improvement Action: The stated assumptions have been included within the following sections of the AMP. Considering this, Council should carefully review these assumptions and resulting forecasts and update accordingly with a more accurate set of data as required.

It is recommended that these forecasts should be reviewed prior to the adoption of the final 10-year budgets.

# 6.3 Estimated Forecast

Table 6-2 and Figure 6-1 summarise the total 10 year expenditure for the building portfolio considering the renewal expenditure based on lifecycle, planned upgrade projects and the estimated operational and maintenance costs. The growth projects have been excluded from these figures as there is no budget set aside to implement the projects. A total of \$60.5 million is estimated to be required over the next 10 years, of which \$18.1 million is related to capital expenditure and \$42.4 million to operational expenditure.

Table 6-2 Financial Forecast for the Assessed Buildings											
Expenditure by Expenditure (\$ Millions)											
Category	2020	2021	2022	2023	2024	2025	2026	2027	2028	2029	Total

Total Expenditure	1.8	1.4	1.3	1.7	1.2	1.2	1.4	1.3	1.3	1.2	14.0	

Figure 6-1 Estimated 10 Year Financial Forecast for all Infrastructure Buildings

# 6.4 Funding Required for Maintaining Current Assets

Table 6-3 shows the results of applying the current budgets to maintain and operate the current buildings while only considering addressing the condition-based shortfalls and the planned upgrade projects. As seen within Table 6-3 and Figure 6-2, over the next 10-year period (between 2020 and 2029) an estimated \$14.0 million is required (\$1.4 million on average per year) to address all expenditure requirements. As the total allocated budget for the next 10 years is \$24.0 million, if Council addresses all condition-based shortfalls and completes the upgrade projects there will be a surplus of \$10.0 million.

#### 7 Asset Management Practices

#### 7.1 Overview

This section summarises the Asset Management Processes, Systems, Data and People. Figure 7-1, a "Hierarchy of Care" of Asset Management practices, should be considered when developing them:

- Operating Energy and Water Use, Waste Disposal, Insurance and Rates
- Maintaining Safety Compliance, Maintenance and Servicing Schedules
- Maintaining a Healthy Environment Cleaning, Security, Pest Control and Waste Removal
- > **Expectations** Reactive Maintenance
- Extending the Life Planning the Preventative Maintenance
- Sustainability Renewals, Refurbishments and Replacements
- Adapting to its Environment Planning for the Extensions, Upgrades and Reconfigurations

Figure 7-1 Asset Management Hierarchy of Care

## 7.2 Processes

Warrnambool City Council establishes the roles and responsibilities for all corporate assets (including building assets) as Asset Owner, Asset Maintainer and Service Manager, with the respective responsibilities listed in Table 7-1 below.

Consistent with this model the Community Development & Recreation Culture department is both Asset Owner and Maintainer for all buildings owned and/or managed by Council, with Service Manager's responsibility distributed throughout the organisation based on the building category.

Table 7-1 Responsibility for Asset Management Processes									
Specific Responsibility	Service Manager	Maintainer	Asset Owner						
Plan for the acquisition, creation, modification and disposal of assets	Support	Support	Lead role						
Establish the Level of Service delivery	Lead role	Support	Support						
Determine asset utilisation	Lead role	Support	Support						
Record/supply the data pertaining to asset use	Lead role	-	-						
Maintain the asset to the agreed standard	Support	Lead role	Support						

## Warrnambool City Council

Table 7-1 Responsibility for Asset Management Processes						
Specific Responsibility	Service Manager	Maintainer	Asset Owner			
Advise of any issues relating to the performance of the asset and any opportunities to improve the efficiency of the asset	Lead role	Support	Support			
Record/supply the data pertaining to asset maintenance	Support	Lead role	Support			
Develop and implement the Asset Management Plan	Lead role	Support	Support			
Establish the Level of Service for the asset	Lead role	Support	Support			
Record/supply the data for inventory, valuation & condition	Support	Support	Lead role			
Responsible for monitoring and reporting on their specific assets	Support	Support	Lead role			
Establish the level of maintenance required to keep the asset at an acceptable standard and availability	Support	Lead role	Support			

### 7.3 Systems

Council uses the following system for long term capital planning and operational management purposes.

> SPM Assets software

The SPM Assets software application has been used to undertake condition assessments of the building portfolio, analyse the resulting data, lifecycle modelling and to produce various reports. The resulting data remains the property of Council.

#### 7.4 Data

Asset management practices associated with the collection, maintenance and use of data will be documented as part of an improvement activity. Council should aim to update 20% of the asset register each year as documented in Section 1.4.2.

Warrnambool City Council

## 8 Improvement Plan

This AMP is, put simply, a snapshot of asset planning practices and capabilities and a status of current assets at a point in time. An improvement plan is a mechanism used to enhance and develop planning capabilities and processes between editions of AMPs. Often covering a 12-month period between annual AMP updates an effective improvement plan is prioritised with responsibilities for each task specified.

This Improvement Plan primarily addresses issues identified during the development of this AMP.

### 8.1 Improvement Programme

The improvement tasks detailed in Table 9-1 have been developed throughout the process of documenting this initial AMP. This Improvement Plan and overall AMP document is to be treated as a live document - continuously amended and updated when improvements in asset management planning practices and capabilities are developed. Fundamentally, this Improvement Plan should be reviewed on a quarterly basis and revised annually. All high priority tasks should be completed in the short term if not immediately.

Table 8-1	Improvement Plan			
Section	Improvement Activity	Priority	Responsible Officer	Review and Timing for Completion
Data				
2.1	Review the property hierarchy and structure in the SPM Assets database to ensure the correct property type has been assigned	Medium	Coordinator Building Services & Strategy	Medium term
2.2.2	Determine which components to include within future iterations of this AMP. Currently the following components have been excluded:	Medium	Coordinator Strategic Asset Management	Ongoing
2.3.1	Complete valuations for the two buildings that currently do not have any valuation information	Medium	Coordinator Strategic Asset Management	Short term
2.3.2 4.2.1	Review and update the current component references and components. In particular: Review criticalities of component references – appearance, consequence and safety	High	Coordinator Strategic Asset Management	Immediate
2.5.1	Review the current PQS statements and determine if they meet Council's requirements in terms of functionality, performance and compliance	Medium	Coordinator Strategic Asset Management, Service Managers	Medium term
5.4	Review the list of components that have been identified as 'extreme risk'	High	Coordinator Building Services & Strategy	Short term

## Warrnambool City Council

Table 8-1	Improvement Plan			
Section	Improvement Activity	Priority	Responsible Officer	Review and Timing for Completion
7.4	Data needs to be continuously updated to provide confidence in the long-term planning. The following tasks are recommended: Update data form with completed works Regular staff inspections	High	Coordinator Building Services & Strategy	Ongoing
7.4	Continuously update data to provide confidence in long-term planning: Three-year rolling condition surveys – targeting high importance areas	High	Coordinator Strategic Asset Management	Ongoing
7.4	Complete new condition assessments of all buildings to identify the current condition. Buildings could be prioritised based on importance or value to the community.	High	Coordinator Strategic Asset Management	Ongoing
People				
7.2	Identify who is responsible for managing and maintaining the Asset Management Plan	Medium	Manager Facilities & Projects	Short term
7.2	Confirmation of roles and responsibilities for Asset Owners, Asset Maintainers and Service Managers	Medium	Manager Infrastructure Services	Short term
Processes	· · · · · · · · · · · · · · · · · · ·			
3.3.1	Agreeing on a list of primary Level of Service statements will ensure Council focuses on immediate and important needs. The list should consist of approximately 5 statements and up to 10 measures. The process in determining which statements are more important should consider strategic objectives, statutory requirements and public expectations.	High	Manager Facilities & Projects	Short term
3.4	Establishment of Quality Standard	High	Manager Facilities & Projects	Medium term
4.6	Review maintenance planning activities and schedules	Medium	Coordinator Building Services & Strategy	Medium Term
5.4	Review the list of components that have been identified as extreme risk in Section 5.4	High	Coordinator Building Services & Strategy	Short term

## **Appendices**

APPENDIX A	lossary
Asset Management Plan	An AMP is a report that summarises the end outcomes of the asset planning process. It documents the current and projected asset status and considers options to achieve strategic objectives through using asset solutions.
Asset Register	A record of asset information including some or all of; inventory, historical, service, financial, condition, construction, technical and financial information about each asset.
Base Life	The physical life of a building component expected considering its local environment. The life is measured from time of installation to time of its anticipated replacement, renewal or disposal.
Building	A permanent structure with walls and a roof. Examples of buildings include shelters, clubrooms, community centres, kiosks, grandstands, residential houses, offices, pavilions, storage facilities. Buildings do not include open spaces such as parks, reserves, playgrounds.
Capital Expenditure (Capex)	Expenditure used to create new assets (through addition or renewal) or to increase the capacity of existing assets beyond their original design capacity or potential. Capex increases the value of asset stock.
Component	The specific asset at the lowest level of detail, i.e. solid door, aluminium window, etc.
Component Group	High level categorisation of a component, i.e. roof, floor coverings, etc.
Component Type	Mid-level categorisation of components that fit under Component Group, i.e. roof drainage, lights, extinguishers, etc.
Component Criticality	This is the measure of the relative importance of a building component by identifying which components are more critical to the building. Criticality factors include likelihood of failure, risk to service delivery, appearance, health and safety impacts.
Condition	The state of an asset or component at a particular time.
Condition Assessment	Periodic inspection, measurement and interpretation of the resultant data of a specific component so as to determine the need for some preventative or remedial action. Condition is graded from condition grades of 1 (excellent) to 6 (end of life).
Condition Grade Index (CGI)	An overall condition rating of an asset that take into account each individual components assessed condition against its identified Gross Replacement Cost (GRC). A CGI figure that is close to 1.0 represents an asset to be in a very good condition overall whilst a CGI of 2.3 means that some of the components have been assessed to be in a poor to very poor condition.

\_\_\_\_\_

## Asset Management Plan

## Warrnambool City Council

Critical Assets	Assets for which the financial, business or service level consequences of failure are sufficiently severe to justify proactive inspection and rehabilitation. Critical assets have a lower threshold for action than non-critical assets.
Capital Replacement Value (CRV)	The cost to replace the structure, which is a combination of the Gross Replacement Cost and the Residual Structural Value. Cost is expressed in today's (2020) dollar value.
Depreciated Replacement Cost (DRC)	The replacement cost of an existing asset less an allowance for wear or consumption having regard for the economic life of the existing asset. Cost is expressed in today's (2020) dollar value.
Economic Life	The total useful life of a building component based on its Level of Service. The life is measured from time of installation to time of its expected replacement, renewal or disposal.
Facility Condition Index (FCI)	Facility Condition Index (FCI) is a percentage figure, used as a building condition standard, that identifies the works required for an asset based upon the component currently in a poorer condition and any component that have a remaining life of less than 5 years.
Gross Replacement Cost (GRC)	The identified cost of the assessed assets and components that are to be replaced within the lifespan of the building structure. Cost value does not include the Residual Structural Value (RSV). Cost is expressed in today's (2020) dollar value.
Key Performance Indicators (KPI)	A qualitative or quantitative measure of a service or activity used to compare actual performance against a standard or other target. Performance indicators commonly relate to statutory limits, safety, responsiveness, cost, comfort, asset performance, reliability, efficiency, environmental protection and customer satisfaction.
Level of Service	The defined service quality for a particular activity or service area against which service performance may be measured. Service levels usually relate to quality, quantity, reliability, responsiveness, environmental acceptability and cost.
Lifecycle	The cycle of activities that an asset (or facility) goes through while it retains an identity as a particular asset i.e. from planning and design to decommissioning or disposal.
Lifecycle Cost	The total cost of an asset throughout its life including planning, design, construction, acquisition, operation, maintenance, rehabilitation, and disposal costs. Cost is expressed in today's (2020) dollar value.
Lifecycle Cost Analysis	Any technique which allows assessment of a given solution, or choice from among alternative solutions, on the basis of all relevant economic consequences over the service life of the asset. Cost is expressed in today's (2020) dollar value.
Maintenance	All actions necessary for retaining an asset as near as practicable to its original condition but excluding rehabilitation or renewal.
Operation	The active process of using an asset or service that consumes resources such as manpower, energy, chemicals and materials.

 $\ensuremath{\mathbb{C}}$  2020 SPM Assets Pty Ltd, March 2020 Warrnambool City Council, 7584

## Warrnambool City Council

Operational Expenditure	Operational expenditure refers to day-to-day operational costs associated with the site itself to deliver the general services. This specifically refers to the; gas, water, sewerage, and electricity services.
Planned Maintenance	Planned maintenance activities fall into three categories: i) Periodic – necessary to ensure the reliability or to sustain the design life of an asset. ii) Predictive – condition monitoring activities used to predict failure. iii) Preventative – maintenance that can be initiated without routine or continuous checking and is not condition based.
Planned Scheduled Maintenance	Scheduled maintenance tasks are established to prolong the useful life of their associated assets. These related tasks can be daily, weekly, and monthly in occurrence to keep assets operational and at the required standard.
Property Quality Standard (PQS)	A desired level of performance, measured by pre-defined factors, relating to an overall characteristic of a property portfolio.
Reactive Maintenance	Reactive maintenance tasks focus solely on the unknown maintenance that is required for the building and related infrastructure assets which are generally due to unforeseen breakages, damage, and vandalism.
Remaining Life (Assessed)	The remaining life (measured in number of years) of a building component as assessed by a property surveyor, e.g. carpet has an assessed remaining life of 10 years.
Remaining Life (Calculated)	The remaining life (measured in number of years) of a building component as calculated by an analysis considering deterioration, functionality and utilisation.
Renewal	Works to upgrade, refurbish or replace existing assets with assets of equivalent capacity or performance capability using Capex.
Repairs & Maintenance Budget	The repairs and maintenance budget refers to the allocated expenditure that has been set aside for the unexpected/unforeseen maintenance and renewal works that may arise.
Replacement	The complete replacement of an asset that has reached the end of its life.
Residual Structural Value (RSV)	The difference between the CRC and the replacement cost sum of the assessed components (GRC). Refers to components that are not able to be replaced through lifespan of asset, i.e. concrete foundation slab, concrete support columns, etc. Cost is expressed in today's (2020) dollar value.
Risk Management	The application of a formal process to the range of possible values relating to key factors associated with a risk in order to determine the resultant ranges of outcomes and their probability of occurrence.
Service	For building assets, Council divides its assets within three service groups: Community Facilities Corporate and City Growth

Asset Management Plan						
Warrnambool City	Council					
	Infrastructure					
Useful Life	Either:					
	(a) the period over which an asset is expected to be available for use by an entity, or					
	(b) the number of production or similar units expected to be obtained from the asset by the entity.					
	It is estimated or expected time between placing the asset into service and removing it from service, or the estimated period of time over which the future economic benefits embodied in a depreciable asset, are expected to be consumed by the hospital. It is the same as the economic life.

## APPENDIX B Property Quality Standards Results

The following table lists the PQS statements for the Infrastructure buildings by category and result.

PQS Category 1	PQS Category 2	PQS Statement	Fail	Pass	Total	Pass %
		Are there any conditions that would impede an emergency evacuation?	1	41	42	97.6%
		Are there any conditions/hazards that could cause a slip, trip or fall?	0	42	42	100.0%
	Injury/Illness	Is there any evidence of inappropriate items being manually handled?	0	42	42	100.0%
	injury/inness	Is there evidence of inadequate ventilation and/or lighting?	0	42	42	100.0%
Risk		Is there evidence of inappropriate storage or use of hazardous materials or dangerous goods?	0	42	42	100.0%
		Are there any exposures to fire or arson present?	0	42	42	100.0%
	Risk Exposures	Are there any exposures to security, theft or vandalism present?	1	41	42	97.6%
		Are there any exposures to water and/or storm water damage?	0	42	42	100.0%
	Accessible	Does disability access to and through the premises appear adequate?	6	36	42	85.7%
		Does there appear to be sufficient accessible carparks available?	1	41	42	97.6%
		Is there at least one unisex accessible toilet per occupied building level?	2	40	42	95.2%
		What percentage of carparks are accessible?	1	41	42	97.6%
		Are Baby Changing & Nappy disposal facilities available?	3	39	42	92.9%
Services		Are there sharps disposal units provided?	4	38	42	90.5%
	Functional	Does the facility have mirrors?	1	41	42	97.6%
	Functional	Does the premises have appropriate directional signage?	1	41	42	97.6%
		Does there appear to be adequate power and data points?	0	42	42	100.0%
		Is there a sanitary disposal unit available?	4	38	42	90.5%
	Healthy	Are the toilets and bathrooms adequately ventilated?	0	42	42	100.0%

Warrnambool City Council

QS Category 1	PQS Category 2	PQS Statement	Fail	Pass	Total	Pass %
		Are the toilets/bathrooms free of nasty odours?	0	42	42	100.0%

## APPENDIX C Building Quality Standard

As outlined in Section 3.4.1 an indicative building quality standard has been applied to Council's Infrastructure buildings. The table below indicates which buildings meet the CGI target of the building quality standard.

Subcategory	Building Name	Standard	CGI	Result
	Comm House Residence - 8 Henry St	В	1.25	Pass
	Comm House Residence - 2 Granter St	В	1.25	Pass
	Comm House Residence - 82 Landmann St	В	1.28	Pass
	Comm House Residence - 84 Landmann St	В	1.33	Pass
	Comm House Residence - 15 McKiernan Rd	В	1.37	Pass
	Comm House Residence - 41 Merrivale Dr	В	1.39	Pass
	Comm House Residence - 12 Henry St	В	1.41	Pass
	Comm House Residence - 45 Merrivale Dr	В	1.43	Pass
Housing - Community	Comm House Residence - 137 Morriss Rd	В	1.44	Pass
& Residential	Comm House Residence - 2 Vickers Dr	В	1.49	Pass
	Comm House Residence - Unit 1/14 Henry St	В	1.49	Pass
	Comm House Residence - 23 McKiernan Rd	В	1.57	Pass
	Residence - 38 Koroit St	В	1.89	Pass
	Residence - 36 Koroit St	В	1.95	Pass
	Residence - 26 Garden St	В	2.45	Fail
	Comm House Residence - Unit 2/14 Henry St	В	2.50	Fail
	SES Building	В	1.03	Pass
	Alveston	В	1.21	Pass
	RSPCA	В	1.33	Pass
	RSPCA - Outside Runs	В	1.35	Pass
	RSPCA - Dog/Cat Runs	В	1.57	Pass
	Mozart Hall	В	1.59	Pass
	Scott St Depot - Amenities Building	С	1.12	Pass
Other Buildings	C.W.A. Club Rooms	С	1.37	Pass
	Alveston: Garden Shed 1	D	1.00	Pass
	Morriss Rd Storm Water Pump Station	D	1.01	Pass
	Scott St Depot Parks & Gardens Shed	D	1.02	Pass
	Ozone Square Carpark - Storage Shed	D	1.17	Pass
	Scott St Depot - Bus Garage	D	1.23	Pass
	Scott St Depot - Workshop Store Building	D	1.59	Pass
	Lyndoch Jetty Shed	D	1.82	Pass

Draft 1.1 A-IV

## Asset Management Plan Warrnambool City Council

APPENDIX D Critical Components in a Poor or Very Poor Condition

There are three component criticality criteria established within the SPM Assets Reference library which provides a consistent framework to prioritise works at a component level and aggregate up to a component group and project level.

- > Consequence of Failure the impact failure of a component will have on the asset overall and business continuity
- Occupational Health and Safety the importance of a component in relation to the health and safety of users and occupants of the building or asset
- > **Appearance** the importance of a component appearance

A component is classified as critical by considering the following criteria:

- > Consequence of Failure of medium-high to high criticality
- > Occupational Health and Safety of medium-high to high criticality
- Appearance of high criticality

The condition of a component is the assessed state of a component at a particular time. Condition grades range from C1 (very good) to C5 (very poor).

The table below shows the complete list of properties, number of critical components, the number of critical components in a poor (C4) or very poor condition (C5) and the Gross Replacement Cost (GRC) reported against the standards applied in Section 3.5.

Building Subcategory	Building Name	No. Critical	Critical Components in Poor or Very Poor Condition		
		Components	No.	GRC	
	Comm House Residence - 12 Henry St	59	4	1,653	
Housing - Community &	Comm House Residence - 137 Morriss Rd	64	2	969

## **Asset Management Plan**

## Warrnambool City Council

## APPENDIX E Risk Matrix - Likelihood and Consequence

The risk matrix included in Section 5.4 has been taken directly from the SPM Assets software which displays the total replacement cost of the components by the risk rating. Replacement cost figures within the matrix correspond to components that are flagged for replacement within the lifecycle expenditure forecast. Therefore, any component due to be replaced within the period of the forecast will be included within the 5 x 5 risk matrix.

The risk rating considers the likelihood of failure and the consequence of failure to produce an overall generic risk rating for each component.

#### **Calculation of Risk**

Risk = Likelihood X Consequence

The risk rating is calculated simply by multiplying the likelihood and consequence ratings.

The table below details the resulting risk scores.

Risk Consequence / Likelihood	Unlikely (1)	Possible (2)	Likely (3)	Probable (4)	Almost Certain (5)
Catastrophic (5)	Medium (5)	High (10)	High (15)	Extreme (20)	Extreme (25)
Major (4)	Medium (4)	Medium (8)	High (12)	High (16)	Extreme (20)
Moderate (3)	Low (3)	Medium (6)	Medium (9)	High (12)	High (15)
Minor (2)	Low (2)	Medium (4)	Medium (6)	Medium (8)	High (10)
Insignificant (1)	Low (1)	Low (2)	Low (3)	Medium (4)	Medium (5)

#### Calculation of Likelihood

Likelihood of failure is calculated on the proportion of a component's expected life remaining. The parameters used to determine the likelihood of failure are:

- Base life
- Base life upper
- Base life lower
- > Assessed remaining life
- Assessed condition
- Construction year
- Survey year
- Consequence of failure criticality
- Health and Safety criticality
- Appearance criticality
- Property importance rating

© 2020 SPM Assets Pty Ltd, June 2020 Warrnambool City Council, 7584

Warrnambool City Council

# WARRNAMBOOL

## Lifecycle analysis method

The likelihood of failure result is translated into a quantitative score using the table below.

Likelihood of Failure	Quantitative Score	Likelihood
> 95%	5	Almost Certain
80 - 95%	4	Probably
55 - 80%	3	Likely
35 - 55%	2	Possible
< 35%	1	Unlikely

#### **Calculation of Consequence**

The consequence rating is determined by the component criticality factors and the property importance factor. The consequence rating is a number from 1 to 25 which is translated into a qualitative score between 1 and 5 as shown in the table below.

Consequence Rating	Qualitative Score	Consequence
1 - 1.99	5	Catastrophic
2 - 4.99	4	Major
5 - 11.99	3	Moderate
12 - 19.99	2	Minor
20 - 25	1	Insignificant

## **Asset Management Plan**

## Warrnambool City Council

## APPENDIX F **Disclaimer**

All figures and values within this AMP are only accurate at the time of creating the plan. The existing condition data and renewal requirements are based on the information included within the SPM Assets software (including Programs). All renewal projects are revised annually to cater for any changes in budget, risk and service requirements.

## 5.7. ASSET MANAGEMENT STRATEGY 2020 - POST COMMUNITY CONSULTATION

## PURPOSE:

## *To adopt a key document relating to asset management within Council, being the draft Asset Management Strategy 2020.*

## EXECUTIVE SUMMARY

- At its 4 May 2020 Ordinary Meeting Council resolved to release the draft Asset Management Strategy for public consultation.
- The strategy was advertised on Council's website from 7 May to 8 June, and in The Standard on the 9<sup>th</sup>, 16<sup>th</sup>, 23<sup>rd</sup>, 30<sup>th</sup> May.
- No submissions have been received in relation to the draft Asset Management Strategy.

## RECOMMENDATION

## That Council adopt the Asset Management Strategy.

## BACKGROUND

At its 4 May 2020 Ordinary Meeting Council resolved that it:

1. Agrees to advertise the draft Asset Management Strategy 2020 for public comment for a period of not less than 28 days.

2. Receives a future report to adopt the draft strategy which summarises any submissions and amendment made to the document, following the consultation period.

## ISSUES

The purpose of the Asset Management (AM) Strategy is to establish guiding principles and to provide a sound basis for decisions on the procurement, management, utilisation and disposal of assets in accordance with our business needs and in line with our strategic and operational plans.

The AM Strategy intends to deliver sustainability by integrating service planning, asset planning, and financial planning.

The AM Strategy is an important document which supports our Asset Management Policy and outlines:

- Our current position in relation to our asset management practices and maturity;
- Our current capacity to manage our assets;
- The actions we will implement to help us improve upon our asset management practices which are consistent with our Council Plan and budget objectives; and
- Our performance monitoring processes to ensure that we are accountable.

This strategy applies to all infrastructure assets owned or controlled by Council and is supported by a 5-year improvement road map. The AM Strategy has been developed with the long-term goal of aligning with ISO:55000 certification when Council is ready to take the next step.

## FINANCIAL IMPACT

The Action Plan, which is a key element of the strategy, sets out the priority, resource impacts, implementation costs and timeframes for each action. The Action Plan was established by identifying the opportunity areas to improve Council's core competency in asset management based on the NAMAF (National Asset Management Assessment Framework) guidelines.

In total, the action plan calls for an investment in Strategic Asset Management of \$435,000, as the Strategy is identified to be reviewed within a five (5) year time frame, this equates to an investment need of more than \$87,000 per year for Council to establish core competency.

The financial investment required would be new budget allocations, as Council's current budget allocations and investment in strategic asset management does not enable reallocation of existing funding to target these requirements.

## LEGISLATION/POLICY/COUNCIL PLAN CONTEXT

This report responds to the following Council Plan initiatives:

## 3 Maintain and improve the physical places and visual appeal of the City

3.3 Build Infrastructure that best meets current and future community needs.

3.4 Maintain and enhance existing Council infrastructure

## 5 Practice good governance through openness and accountability while balancing aspirations with sound financial management

5.1 Provision of opportunities for the community to actively participate in Council's decision-making through effective promotion, communication and engagement

5.2 Develop policies, strategic plans and processes to address local and regional issues, guide service provision and ensure operational effectiveness

5.3 Ensure financial sustainability through effective use of Council's resources and assets and prudent management of risk

## TIMING

Formal reporting against the strategy will commence upon adoption by Council. Council officers are continuing to undertake works in line with the action plan. For example, the actions relating to the Policy and Strategy (Section 4 and 5) are nearly completed and will be largely achieved following the final adoption of the Policy and Strategy by Council.

## COMMUNITY IMPACT/CONSULTATION

The Asset Management Strategy has been advertised for community comment and no submissions were received.

## LEGAL RISK/IMPACT

A comprehensive review of the Asset Management Strategy should be carried out prior to December 2024, as the strategy is identified to be reviewed within a five (5) year time frame.

It is considered beneficial to intermediary reviews from time to time as improvements are implemented and to make sure that it retains consistency with our strategic goals and objectives, following the development (and review) of the Council Plan and Asset Management Policy.

## OFFICERS' DECLARATION OF INTEREST

No officer involved in the preparation of the strategy has declared any conflict.

## CONCLUSION

Council should now adopt the Asset Management Strategy.

## ATTACHMENTS

## 1 INTRODUCTION

#### 1.1 What is Asset Management?

In its simplest terms, asset management is about the way in which we look after our assets, both on a day-to-day basis (i.e. maintenance and operations) and in the medium to long term (i.e. strategic and forward planning).

#### 1.2 Why is Asset Management Important?

Council has over **\$830 million** in assets under its management. This includes buildings, our network of roads, footpaths, pits and pipes associated with stormwater drainage, playground equipment and other park furniture, and other assets which have been built up progressively over many years.

We budget approximately **\$19 million** per year for renewing, improving and growing our assets. We also budget around **\$12 million** each year to operate and maintain assets. These costs include staff, security, cleaning, utilities, insurance and general repairs and maintenance.

Combined, around **34 per cent** of our total annual expenditure is asset related.

These assets are predominantly used to provide services and amenity to our community. The standard to which we maintain our assets, and the extent of expansion and improvement, are key considerations in setting and delivering our Council Plan

Given this sizeable investment and the importance of these assets to achieving community outcomes, it is vital that we are good asset managers.

#### 1.3 What is the Purpose of the Asset Management Strategy?

The purpose of the Asset Management Strategy is to establish guiding principles and to provide a sound basis for decisions on the procurement, management, utilisation and disposal of assets in accordance with our business needs and in line with our strategic and operational plans.

The Asset Management (AM) Strategy intends to deliver sustainability by integrating service planning, asset planning, and financial planning.

The AM Strategy is an important document which supports our Asset Management Policy and outlines:

- Our current position in relation to our asset management practices;
- Our desired future asset management State;
- Our current capacity to manage our assets;
- The actions we will implement to help us improve upon our asset management practices
- which are consistent with our Council Plan and budget objectives; and
- Our performance monitoring processes to ensure that we are accountable.

This strategy applies to all infrastructure assets owned or controlled by Council and is supported by a **5 year** improvement road map. The AM Strategy has been developed with the view to being ready for *ISO:55000* certification when we are ready to achieve this.

Figure 1 - Asset Value by Type

#### 1.4 Scope

This Asset Management Strategy includes the physical assets, systems, and processes that are required for the provision of the wide range of services that we provide to our community.

This Asset Management Strategy is focused on enhancing asset management capability and has been developed in line with the Asset Management Policy. It applies to all physical assets, systems, and processes that support the delivery of services to our stakeholders and the community in accordance with the direction set in the Council Plan.

#### 1.5 Outcomes

Strategic asset management underpins all activities related to managing our assets for optimal outcomes.

This document will provide an effective and integrated strategic and operational framework for all classes of our assets leveraging their inherent capabilities to assist us to achieve our strategic objectives and service priorities.

For this to occur, we must develop and implement strategies that match the quality, quantity, and type of assets with the defined service requirements, and a vertical perspective that ensures the decisions taken about each asset or group of assets are supported with structured methodologies and decision making tools that take into account the total life of the asset.

## 2 ASSET MANAGEMENT FRAMEWORK

Strategic asset management provides a framework for better practice in the planning, provision, management, and eventual disposal or adaptation of assets for a new use.

Council's asset management framework is being developed to follow the principles of the *ISO:55000* series of asset management standards with the aim of achieving the following benefits:

- Lower asset management costs over the long term;
- Alignment of strategic initiatives across the asset management framework;
- Increased engagement of our people, including leadership, communications and crossdisciplinary teamwork;
- Alignment of processes, resources, and functional contributions;
- Better understanding and use of data and information to provide consistent and informed decisions;
- Consistent, prioritised and auditable risk management; and
- Improved asset management planning.

Our asset management framework is presented in Figure 2. This framework has been developed following good practice principles and in particular the relationship between the key elements of an *ISO:55000* asset management system.

The asset management framework aims to ensure that a systematic approach to asset management delivers prudent and efficient outcomes that meet both corporate and asset management objectives.

Our asset management framework allows the organisation to develop strategies that match the quality, quantity and type of assets with the defined service need, while also making sure that decisions that are made about assets are supported with structured methodologies and decision making tools that take into account the total lifecycle of the asset.

#### 2.1 Scope of the Asset Management Framework

Key elements of Councils Asset Management Framework include the following:

- Asset Management Leadership and Governance;
- Asset Management Policy and other related policies;
- Asset Management Strategy;
- Asset Management Plans; and
- Roles and Responsibilities.

Figure 2 - Asset Management Framework

#### 2.1.1 Leadership and Governance

The Council and executive officers are collectively responsible for leading the planning, implementation, operation and continuous improvement of asset management, including the systems and culture.

Council recognises the importance of effective integration with various stakeholders (both internal and external to Council). In doing so, it is important that all parties understand each other's expectations.

#### 2.1.2 Asset Management Policy

To aid alignment of our asset management activities to our strategic goals, Council has adopted an Asset Management (AM) policy.

The AM policy applies to all of our assets and associated activities and is the overarching document that guides our asset management framework.

The AM policy provides a critical platform for us to deliver our vision to be a thriving organisation known for inspiring, motivating and equipping people for success.

Key aspects of the AM policy are that it:

- Is consistent with Council's vision and strategic objectives;
- Applies to all assets owned or managed by Council;
- Applies to all stages of the asset lifecycle (i.e. planning, design, construction, operation, maintenance, renewal, and disposal); and
- Is dependent on demonstrated leadership from our staff.

The AM policy and the framework that supports it will ensure that:

- We understand the services that we deliver, and the assets required to meet these services;
- All our assets are adequately documented;
- Service and asset related risks are identified and managed appropriately;
- We strive for the sustainable management of assets;
- Roles and responsibilities of Council and our staff are clearly defined;
- We comply with our legislative and regulatory requirements; and
- We give consideration to environmental impacts, including climate change when making decisions about our assets.

## 2.1.3 Asset Management Strategy

This AM Strategy outlines how we will deliver our asset management policy intentions.

It does so by establishing the direction and actions necessary for improvement of relevant asset management practices to achieve the Council's vision and organisational objectives.

#### 2.1.3.1 Asset Management Vision

Our vision for asset management is:

Council will provide assets that are responsive and adaptable to demand and service needs in a manner that minimises risk and optimises value to our community.

The AM Policy establishes the core principles to achieve our asset management vision and to guide our practices.

These principles will be achieved through the following strategies that span the life cycle of our assets:

Asset Management Strategies	Objectives
To provide for the service needs of our community	<ul> <li>We will achieve this by:</li> <li>Ascertaining service level needs through a community consultation process</li> <li>Focussing on outputs and outcomes with a view to continuously improving the match between service requirements and service delivery</li> <li>Ensuring our assets are appropriately used and maintained</li> </ul>
To optimise the service potential of our assets	<ul> <li>We will achieve this through:</li> <li>Effective management of our existing assets</li> <li>Flexibility of our asset base</li> <li>Rigorous planning, evaluation and budgetary processes</li> <li>Using economies of scale to deliver cost effective services</li> </ul>
To maximise value for money	<ul> <li>We will achieve this by:</li> <li>Taking account of the full costs of holding, using and disposing of assets throughout their life cycles</li> <li>Ensuring asset management decisions are responsive to performance measurement and monitoring</li> <li>Producing costed options for the delivery of asset services.</li> </ul>
To contribute to economic growth	<ul> <li>We will achieve this by:</li> <li>Appropriate matching of assets to meet service delivery demands</li> <li>Ensuring that all asset management decisions are made within the context of council's overall resource allocation and management framework</li> </ul>
To assign responsibility and accountability	<ul> <li>We will achieve this by:</li> <li>Clearly defining ownership and control of assets through asset information systems that meet both government and management decision making requirements</li> <li>Determining and communicating accountability and reporting responsibilities throughout each step of the integrated approach to asset management</li> </ul>
To promote balance between development and sustainability	<ul> <li>We will achieve this by:</li> <li>Balancing the demand for new assets through the use of non-asset service delivery alternatives where appropriate</li> <li>Making asset decisions that consider and protect the needs of future generations having regard to natural environment</li> <li>Considering alternative asset renewal and rehabilitation options wherever feasible</li> </ul>

Asset Management Strategies	Objectives
To minimise risks to the community and to Council's financial viability	<ul> <li>We will achieve this through:</li> <li>The application of risk assessment and reduction strategies</li> <li>Regular condition audits consistent with the criticality of the various asset categories</li> <li>Delivery of appropriate asset maintenance and renewal programs</li> </ul>

Table 1 - Asset Management Strategies

#### 2.1.4 Asset Management Plans

The majority of our asset management activities are managed at an asset category level. It is our intention to prepare AM Plans for each major asset category to assist in the management of our assets over their lifecycle and will cover a period of no less than **15 years**.

Our Asset Management Plans will demonstrate alignment with the Council Plan, the Long Term Financial Plan, Annual Budget, and our Asset Management Policy.

They will identify the performance issues and risks presented by each asset type within the category and define specific actions that must be undertaken to sustain asset performance.

The AM Plans will also summarise the asset operating and capital expenditure requirements for each asset category.

The AM Plans will be supported by detailed condition assessments and maintenance standards to ensure that our assets are appropriately maintained and the detailed condition, and associated risk, of selected assets is well defined and understood.

AM Plans are a central pillar to our asset management framework and will cover the following asset classes:

- Roads;
- Bridges;
- Footpaths and Cycle ways;
- Buildings (inclusive of major facilities (e.g. Aqua Zone, Flagstaff Hill, Aerodrome), fixtures and fittings)
- Stormwater drainage;
- Open space (includes water way infrastructure, active recreation areas);
- Ports
- Plant and Fleet;
- ICT Equipment;
- Art, Heritage, Collections and Monuments,
- Significant Trees,
- Waste Management, and
- Land

#### 2.2 Service Planning

Delivery of our extensive range of services occurs in an increasingly dynamic environment, with ever changing community expectations, mandatory obligations, increasing costs, and ageing infrastructure.

We are committed to ongoing financial sustainability and providing services that are accessible, safe, outcome focussed, and meet the needs of the community by making efficient and effective use of our limited resources.

To do this we need to work in partnership with our community to ensure the services we provide are important to them and meet their needs, and that they are satisfied with the quality of our services.

With collaboration from the community we aim to establish levels of service which will inform our longterm asset and financial planning. This will enable us to develop, integrate, and deliver services which are affordable and sustainable.

## **3 ORGANISATIONAL CONTEXT**

The needs of our community, local business, and industry all place demands on us for better services, higher quality infrastructure, value for money services, and innovative solutions. The challenge for us is to balance expectations with the best use of our limited resources.

Our capacity to respond to the demands for services depends largely on our financial resources. As part of our budget processes, resources are allocated to achieve the objectives and priorities according to our strategic priorities that are set in response to these demands.

Strategic asset management is the concept of aligning our assets with service delivery needs and guides decision-making processes over the entire life of the asset.

The challenge for us is to balance expectations with the best use of our limited resources while considering growth and changing service delivery models and needs.

#### 3.1 Relationship with Organisational Strategic Objectives

Our Council Plan 2017 - 2021 defines the overarching goals and specific targets to direct organisational focus and resources towards the broad objectives that we wish to see achieved for the city.

In order to effectively contribute to these outcomes, our assets must meet the current and future needs of the wider communities with which we engage.

This Asset Management Strategy has been prepared under the direction of Council's vision and strategic objectives.

#### Council's Vision:

'A cosmopolitan city by the sea'

#### Council's Strategic Objectives:

The objectives that support achieving Council's vision are:

- Sustain and enhance the natural environment
- Foster a healthy city that is socially and culturally rich
- Maintain and improve the physical fabric of the city
- Develop a modern economy with diverse and sustainable employment
- Practice good governance through openness and accountability

#### 3.2 The Regulatory Framework

The principal legislation in Victoria governing the establishment and operation of councils is the *Local Government Act 1989*, along with various Regulations made under that Act. This defines the purposes and functions of local government as well as providing the legal framework for establishing and administering Councils.

As well as the general powers and responsibilities given under the Local Government Act, local councils are responsible for a wide range of services and functions under various other Act of Parliament. In fact we have responsibilities under more than 120 different Victorian pieces of legislation.

Examples of Victorian Acts and Regulations which our operations are subject to include (without limitation):

- Local Government Act 1989
- Local Government (General) Regulations 2015
- Local Government (Planning and Reporting) Regulations 2014
- Planning and Environment Act 1987
- Public Health and Wellbeing Act 2008
- Occupational Health and Safety Act 2004
- Public Records Act 1973
- Victorian Charter of Human Rights and Responsibilities Act 2006
- Freedom of Information Act 1982
- Building Act 1993
- Disability Act 2006

#### 3.3 Other Strategies

Other strategies and plans which we rely upon to help inform future asset planning and community expectations through their implementation include:

- Warrnambool 2040;
- Open Space Strategy;
- City Wide Housing Strategy;
- Various Growth Area Structure Plans;
- Eastern Activity Precinct Structure Plan;
- Strategic Framework Plans;
- Municipal Strategic Statement;
- City Centre Structure Plan; and
- Development / Infrastructure Contributions Plan(s).

#### 3.4 Stakeholder Requirements

Key stakeholders with respect to managing our assets to ensure sustainable service delivery are summarised in Table 2.

	Key Stakeholder	Expectation/Requirements
	State Government	<ul> <li>The State expects Council to:</li> <li>Comply with legislative and regulatory responsibilities;</li> <li>Maintain public assets as a reliable and sustainable system;</li> <li>Be cost effective with capital delivery (that facilitates community growth);</li> <li>Performance – demonstrate that we meet the needs of our community; and</li> <li>Be honest and open in our dealings.</li> </ul>
	Community	<ul> <li>The Community expects that Council will:</li> <li>Be a cost effective service provider;</li> <li>Make prudent decisions and be financially responsible;</li> <li>Be transparent and provide information on Councils activities and outcomes; and</li> <li>Provide safe, reliable and responsible services (measured by a community that has confidence in us).</li> </ul>

Key Stakehol	Expectation/Requirements	
Business and Developers	<ul> <li>Business and Developers expect Council to:</li> <li>Be responsive and timely in providing advice;</li> <li>Be transparent and provide information on Councils activities ar outcomes;</li> <li>Be timely with capital delivery (that facilitates growth and development); and</li> <li>Provide safe, reliable and responsible services.</li> </ul>	nd

Table 2 - Stakeholder Summary

To achieve stakeholder requirements, we have developed the following strategic goals:

- Understand our customers by making them central to all we do;
- Enable our people to deliver value;
- Care for our assets, delivering safe and reliable services; and
- Deliver sustainable outcomes.

#### 3.5 Stakeholder Engagement

We recognise that decision making, and service provision are enhanced when the community has an opportunity to provide input and express its expectations, aspirations and ideas.

We work with our stakeholders to:

- Understand the issues we face;
- Help to identify options to address these issues;
- Influence what changes we make to our assets, facilities and service delivery;
- Help to clarify the decisions we must make; and
- Gain support for the decisions that we make.

We have a broad group of stakeholders who have many different contact points across our organisation. We have yet to define customer levels of service for our assets and facilities, although we have acknowledged that we need to define these so that we are able to reflect demand and to balance asset standards with the expectations of our stakeholders and financial resources.

Our Community Engagement Policy provides the framework when we talk to and involve our stakeholders in guiding our decision making.

## 4 ASSET MANAGEMENT INFORMATION SYSTEM

Our Asset Management Information System (AMIS) is a combination of people, processes, information, and the technology applied to provide the essential outputs for effective asset management.

These outputs include; reduced risk; enhanced performance; enhanced compliance; effective knowledge management; effective resource utilisation; and optimum infrastructure investment.

AMIS is a tool that interlinks asset management processes through the entire asset lifecycle (refer Figure 7).

## 4.1 Our Systems Environment

Table 3 provides an overview of the various applications and solutions which we use in the strategic, tactical, and operational management of Council's assets.

Component	Supporting System
Customer request	Open Office
Financial/Accounting	TechnologyOne - Finance1
Records management	TechnologyOne – ECM
Mapping (GIS)	<ul> <li>Exponare (corporate)</li> <li>MapInfo and QGIS (business unit analytics)</li> </ul>
Asset register	<ul><li>Conquest (Infrastructure)</li><li>TechOne Assets (Fleet)</li></ul>
Strategic asset management	<ul><li>SPM Assets (Buildings)</li><li>Assetic MyPredictor (Roads)</li></ul>
Mobile solutions	Fulcrum and inhouse produced mobile app (Trassetto)
Maintenance management	<ul><li>Conquest</li><li>Fulcrum</li><li>Trassetto</li></ul>

Table 3 - Asset Management Information System

## 4.2 AMIS Objectives

The key objectives of the AMIS are to assist us in sustaining and improving, where needed, overall performance of our asset portfolio, in order that our organisational and asset management objectives are achieved, by undertaking the following activities:

- Ensuring holistic asset information is collected, maintained and readily accessible to support evidence-based asset management decision making;
- Enhancing the visibility of, accessibility to, and trust in asset information across the organisation; and
- Developing effective AMIS improvement practices that support the life cycle asset management business functions in accordance with ISO:55000 and the International Infrastructure Management Manual.

Subsequently, addressing these is expected to result in significant improvements across the following aspects:

- Enhance asset performance;
- Reduce asset related risk;
- Improve asset knowledge management;
- Enhance regulatory compliance;
- Optimise resource use; and
- Optimise infrastructure investment.

Successfully achieving these objectives will enable compliance with the requirements of the Council Plan and Asset Management Policy by significantly improving the quality, completeness, integrity and consistency of asset information, systems and processes at all levels.

#### 4.3 Asset Data

One of the underpinning principles of good asset management is the creation, maintenance and analysis of accurate asset data.

Good quality asset data will enhance evidence-based asset management planning and decision making but even if data is not fully accurate or complete it still contributes to the planning process.

Asset data is stored in a number of systems including Conquest (infrastructure) and TechOne Assets (plant and fleet).

We are committed to continuously improving the accuracy and completeness of asset data to support the achievement of our corporate and asset management objectives.

#### 4.4 Future Strategies for AMIS

Future strategies to manage the AMIS include, but are not limited to:

- Developing a road map for improving our current systems, tools, applications and processes to enable our transition to greater asset management maturity and capability;
- Develop asset information management and analysis capabilities across the organisation to enable effective evidence-based decision making;
- Identifying the system and process improvements that are required to realise the full functionality of Conquest to generate future works programs and cash flows;
- Continue to work closely with the organisation to understand emerging and future asset management requirements and ensuring sound governance over AMIS development and utilisation; and
- Developing a data management strategy to ensure that our asset information supports the achievement of our business objectives.

## 5 ORGANISATIONAL ROLES AND RESPONSIBILITIES

This chapter discusses the organisational management structure and their roles and responsibilities.

#### 5.1 Organisational Structure

Figure 3 shows our organisational management structure.

Council								
Chief Executive, Peter Schneider Executive Assistant, Wendy Clark Manager Governance, Anne-Maree Neal								
Director Corporate Strategies Peter Utri	Director City Infrastructure Scott Cavanagh	<b>Director Community</b> <b>Development</b> Vikki King	Director City Growth Andrew Paton					
Manager Communications Nick Higgins Manager Financial Services David Harrington Manager Information Services Peter Newell	ommunications s     Manager Infrastructure Services Luke Coughian       inancial Services ngton     Manager City Amenity Gienn Reddick       information Services ill     Manager Facilities & Projects Ben Storey	Manager Community Planning & Policy Lisa McLeod Manager Recreation & Culture John Finnerty (acting) Manager Capacity, Access and Inclusion Richard Stone	Manager Economic Development and Investment Shaun Miller Manager City Strategy & Development Jodie McNamara Manager Visitor Economy Vacant					
Manager Organisation Development Simon Fleming	Manager Children's and Family Services Tina McLeod							
Manager South-West Victorian Livestock Exchange Paul White								

### 5.2 Roles and Responsibilities

Asset management requires a whole-of-organisation approach. The roles and responsibilities of the key stakeholders involved in managing assets are shown in Table 4.

Group	Roles and Responsibilities
Councillors	<ul> <li>Act as stewards for infrastructure assets on behalf of the community.</li> <li>To ensure appropriate resources and funding for asset management activities are made available to integrate policies, strategies and plans into the Council governance framework.</li> <li>Provide consistent and transparent decision making based on adopted criteria.</li> </ul>
Executive Management Team (Chief Executive and Directors)	<ul> <li>To continually promote AM across the organisation and with Council and the community.</li> <li>To validate and challenge proposals to ensure they meet the Council Plan objectives.</li> <li>To adequately budget funding of asset renewal in accordance with the Policy</li> </ul>
All Directorates	<ul> <li>Develop and implement strategies and plans that deliver the outcomes required by Council;</li> <li>Deliver safe, reliable, responsive and affordable services to the community; and</li> <li>Support the community</li> </ul>

Group	Roles and Responsibilities
All Employees	<ul> <li>To provide the correct technical and professional advice to Council so that they may make the best decisions.</li> <li>Implementation of the Strategy and AMP.</li> <li>Continually seek innovative ways of meeting service needs.</li> <li>Identify "levels of service" for implementation.</li> <li>To develop and implement maintenance and refurbishment capital works programs in accordance with AMP.</li> <li>Ensure the asset database is maintained and updated.</li> <li>Provide reports to Council.</li> <li>Promote and raise awareness of asset management to Council and staff.</li> </ul>

Table 4 - Organisational Responsibilities

#### 5.2.1 Asset Management Steering Committee

We have established an Asset Management Steering Committee (AMSC) to ensure that there is a coordinated and integrated approach to asset management across the organisation. The AMSC is also responsible for promoting an understanding of asset management issues across the organisation and to make sure that investment into physical infrastructure supports Council's strategic planning objectives.

The AMSC will also take responsibility for the development and implementation of the Asset Management Improvement Plan.

The AMSC will monitor and report on the progress of the asset management improvement actions to the Executive Management Team as set out in the AMSC Terms of Reference.

#### 5.3 Service Driven Asset Planning

We are striving to realise greater integration between the way we plan our services and assets which underpin them.

To create a stronger nexus, and to provide clarity within our organisation, we have established a *Services and Assets Relationship Framework* as described in Figure 4. This assists us to clearly define the parts of our organisation that are responsible for determining levels of service and for managing the assets through the delivery lifecycle.

Figure 4 - Services and Assets Relationship Framework

#### 5.4 Leadership and Culture

Building a high-performance culture and high levels of employee engagement is essential to supporting the achievement of our strategic objectives and to enable us to be sustainable.

To drive our culture, we invest in the development of our people at all levels to build self-awareness and leadership capability, focusing on communication, teamwork, business improvement, and change.

We offer professional development through our Staff Learning and Development Policy.

Our capacity to implement the AM Strategy and framework will rely on the continued leadership, commitment, and involvement of our management and staff. Leadership will form the major influence in the development and application of this AM Strategy together with strategic and operational continuous improvement plans.

To ensure success and a positive change in our asset management practices, leadership will be paramount across the entire organisation.

The CEO, management team, and all leaders aim to champion our ongoing commitment to sustainable asset management in their actions and messages to our staff, as well as effective mentoring.

#### 5.5 Training and Developing our People

To ensure that Council's asset management capabilities are best appropriate practice, we are committed to:

- Clearly defining asset management roles, and continuously recruit staff accordingly;
- Continuously encourage innovation to improve the way we manage our assets;
- Reviewing skills and development needs in asset management related areas as part of employee performance planning and providing appropriate development opportunities;
- Providing relevant staff with appropriate briefings in relevant asset and financial management principles, practices, and processes; and
- Providing and allocating resources for training to support asset management across the organisation.

## 6 RISK MANAGEMENT

The effective management of risk is central to the core business and efficient management of Council.

Our approach to risk management involves managing to achieve an appropriate balance between realising opportunities for gains while minimising adverse impacts. Risk management is viewed as an integral part of good management practice and an essential element of good corporate governance.

An integral part of how we operate is the identification and treatment of risk, so our stakeholders prosper. Our ability to deliver quality assets and services is significantly influenced by the effectiveness of our management of risk. We aim for risk management to become part an integral part of culture, embedded into our operating philosophy, business practices and processes.

Our *Risk Management Policy* is the overarching document that provides guidance on risk management practices. It is a high-level document that clearly establishes expectations in relation to risk management.

#### 6.1 Risk Management Procedure

The responsibilities, structures and processes established to ensure we achieve our risk management objectives are detailed within our *Risk Management Procedure*. This provides us with the principles and processes to make sure we consistently apply good risk management practice to our assets.

The risk management framework sets out our management of the effects that uncertainty has on achieving our vision and strategic objectives. The framework also facilitates compliance with legislation, rules, codes, guidelines and various industry standards.

#### 6.2 Operational Risk Management

In accordance with AS/NZS ISO:31000 Risk Management – Principles and Guidelines, Figure 5 shows the operational process we undertake when managing risk.

Figure 5 - Risk Management Operational Process

#### 6.3 Asset Condition and Risk

Our assets are ageing and are at various stages of their lifecycle. A key focus for us is to manage the associated asset risk due to poor condition effectively to achieve our asset management, service, and cost performance objectives.

Regarding asset condition and risk, we will continue to set service-based targets for assets to balance the risk of asset failure and the associated reliability impacts with cost. We are also pursuing strategies to:

- 1. Implement the use of condition-based risk management across key asset categories; and
- 2. Develop and implement processes for capturing, registering, assessing, and tracking asset related risks and associated risk controls and treatments to better match service performance with our stakeholder requirements.

5

## 7 FUTURE DEMAND

We face a number of challenges and opportunities that have the potential to significantly impact service delivery and asset management.

Challenge	What does this mean for asset management?
Population Change Population will change at different rates across Victoria over the coming decades. Population growth will be minimal for small shire councils and is forecast to decline in many of the local government areas in Victoria's west. These councils will face challenges in maintaining revenue raising capacity in the future.	Convergence of populations to regional centres such as Warrnambool increases pressure on our assets and service provision. Warrnambool continues to provide services to the broader areas, many of which are experiencing population decline.
<b>Diminishing Own Source Income</b> We are experiencing a significant reduction of our own source revenue. This had previously contributed to the consolidated revenue of Council and was able to be utilised for the cross-subsidy of other services or had minimised the impact of the net cost to the community.	Loss of own source income due to commercial competition and changed patterns of use has materially affected Council's financial sustainability. This will impact the manner in which we invest in our assets and services in the future.
Ageing Infrastructure One of the biggest financial challenges facing us is the cost of renewing our ageing infrastructure. Council's assets have been built and developed in the past. Many years on, this period of development has created a large peak in the need to invest in asset maintenance and renewal.	There is a critical need to introduce systems and processes to ensure that our spending on our existing assets is optimised. As our assets continue to age, more investment in maintenance and renewal expenditure will be required to ensure that the current levels of service enjoyed by the community continue to be delivered.

Warrnambool City Council Asset Management Strategy

Challenge	What does this mean for asset management?
<b>Climate Change</b> We are already experiencing the impacts of climate change. In the future, we can expect; increased flooding of coastal properties and public facilities; storm damage to infrastructure; beach erosion; decreased water quality and security of water supply; reduced summer outdoor activities; and hotter urban spaces.	Ageing infrastructure that is not designed for climate extremes, and higher density urban environments, are especially vulnerable to increasing natural strains. This will have an impact on Council services and assets.
Rapid Technological Change The world is becoming more connected. People, businesses and governments are increasingly moving online to connect, deliver and access services, obtain information and to perform day to day activities. These changes will affect how we deliver services and how we manage our assets.	We will also have the capability to share our data on our assets to others enabling them to interact with our services digitally. We will also be able to enable a more mobile workforce.
<ul> <li>Legislative and Policy Influence</li> <li>We operate in a complex legislative and policy environment that directly influences the way we do business:</li> <li>There is an expectation that Council will continue to deliver services, even when State and Federal government funding is withdrawn</li> <li>The cap on rate increases means our ability to control revenue is constrained</li> <li>Compliance and reporting requirements are increasing</li> </ul>	We need to meet our statutory obligations while being conscious of maintaining affordability and financial sustainability. This requires good decisions to be made to manage competing funding demands across a broad range of projects, programs, and services.
Table 5 -	Future Challenges

#### 7.1 Investment Forecasts

Current projections indicate that Council has an asset renewal gap of over **\$19** *million*.

Many major assets are reaching the end of their useful life and no longer meet the needs of a growing and aspirational Regional City.

Our Long Term Financial Plan indicates that without assistance, our asset renewal shortfall will grow from the current figure to be in excess of **\$40** *million* over the coming decade.

Our imperative is to reduce this renewal backlog and to sustainably fund the renewal of our assets in the future. This is to reduce the impact to our community of the costs of unsustainable asset provision by proactively renewing and maintaining our assets.

The growing asset renewal gap facing us was the major driver behind us applying to the Essential Services Commission for a variation to the current council rate cap. Our application was approved in part.

The higher rate cap variation will slow the growth of the renewal gap and see it halt in around 10 years' time, increasing funding further will see this happen sooner and begin to close the renewal gap so that our assets remain safe and are able to support the delivery of quality services.

#### Asset Renewal Gap

In simple terms, this is the difference between the current level of actual expenditure on replacing existing assets and the level of funding necessary to maintain our assets to meet minimum levels of service.

#### Council Rate Cap

The Minister for Local Government sets local council rate caps. The cap is the maximum amount a council can increase its general rates and municipal charges within a financial year. The current rate cap is 2.5%

#### 7.1 Investment Evaluation

As an organisation which relies on assets to deliver our services, we have developed a *Capital Evaluation Framework* that:

- Ensures that capital investment for infrastructure assets aids in the achievement of our strategic objectives;
- Aids the development of a service needs directed long-term capital works program, to better inform Council's Long-Term Financial Plan;
- Ensures capital investment delivers best value;
- Ensures that capital investment is financially sustainable, and in accordance with asset management principles for the whole life cycle costs of our infrastructure;
- Builds a robust capital infrastructure asset investment system, that is impartial and prioritybased for allocating Council resources; and
- Enhances transparency and public confidence in our capital investment decision-making process.

#### 7.2 Timing and Deliverability of Works Program

We attempt to optimise our proposed works program in terms of capital and maintenance tasks.

In particular, the optimisation of the timing and sequencing of asset renewal projects considers a number of factors, including the costs and benefits of aligning asset renewal with improvement projects or with maintenance activities. Were possible, we try to coordinate our works to:

- Take full advantage of our asset investment;
- Ensure the achievement of our strategic goals;
- Maintain performance, safety, and compliance of our assets;
- Ensure an acceptable risk profile across all assets; and
- Ensure delivery of the works program.

Timely delivery of the capital works program is essential to minimising the likelihood of additional operating expenditure to sustain our assets beyond their expected service lives where run-to-failure is not employed.

## 8 LIFECYCLE STRATEGIES

This section discusses our lifecycle approach to asset management and the resulting key asset strategies aimed at achieving our asset management objectives and corresponding corporate goals.

#### 8.1 Lifecycle Approach

The goal of asset management is to meet a required level of service in the most cost-effective manner, through the prudent and efficient management of assets for present and future customers.

The key elements of infrastructure asset management are:

- Adopting a life-cycle approach;
- Developing cost-effective management strategies for the long term;
- Providing defined and agreed levels of service;
- Monitoring performance;
- Understanding and meeting the impact of changing service needs through demand management and infrastructure investment;
- Managing risk associated with asset failures;
- Sustainably using physical resources; and
- Continually improving asset management processes and practices.

Ageing and potentially unreliable assets are managed as part of our overall asset management planning. The focus of this planning is to ensure that replacement of assets is determined on asset condition and risk rather than age alone.

In developing strategies in relation to potentially unreliable assets we take a holistic approach to asset renewals, improvements, and disposal across our asset portfolio. We aim ensure that our asset

management plans align with our service plans to drive the most efficient outcome with a balance between cost, risk, and performance.

A formal approach to the management of assets is essential to providing our services in the most cost-effective manner. This enhances our ability to demonstrate our approach to asset management to our stakeholders

Our approach to asset management is centred on asset lifecycle management. There are five stages in the asset lifecycle as shown in Figure 7.

Figure 7 - Asset Management Lifecycle

#### 8.2 Lifecycle Strategies

Each phase of the lifecycle has a corresponding lifecycle strategy, which describes our approach to the particular activities in that stage, objectives relevant to that stage, and strategies for providing performance to required levels.

The five lifecycle strategies (Planning, Delivery, Maintenance, Operations, and Disposal) are summarised in Table 6.

Lifecycle Phase	Strategy Description
Planning	Covers CAPEX planning, from need identification, evaluation and approval, through to handover to delivery for implementation.
Delivery	Covers implementing capital works (including detailed design, procurement, installation, and commissioning) and the dismantling and disposal of assets.
Maintenance	Covers our approach to maintaining assets, including the types of maintenance employed and a discussion of how the work is managed.
Operations	Covers operation of the assets, including operational control, situational awareness, and contingency planning.
Disposal	Covers activities relating to the disposal and divestment of assets and the disposal of waste material.

Table 6 - Asset Management Lifecycle Strategies

## 9 PERFORMANCE MONITORING AND EVALUATION

A key element of this AM Strategy is to review the current status of asset management practices in order to identify key gaps and opportunities for improvement.

#### 9.1 Asset Management Maturity

We use the National Asset Management Assessment Framework (NAMAF) to measure our asset management maturity.

The framework is a self-assessment against 11 elements (refer to Appendix 1). This benchmark is used to evaluate our current practices and to understand the improvements that we need to make.

The objective of the maturity assessment was to determine the current level of our asset management process and system sophistication.

#### 9.2 Assessment Findings

The assessment enabled a baseline competency level to be established for our organisational approach to our asset management functions.

Our current level of maturity is approaching 'Core' capability, with a score of 744.

Figure 8 shows how we score on each of the maturity elements. 'Core' maturity is recognised as having a score of 1,100 as assessed under the NAMAF.

#### **NAMAF - Maturity Assessment**

#### 9.3 Our Desired Asset Management Future

In moving forward, we desire greater consistency and improved skills with respect to our asset management practices. Our particular areas of focus will be to:

• Further develop a whole of organisational approach to asset management by integrating asset management workflows across the business.

- Preparing our asset management practices, systems, tools, and processes to achieve certification under ISO:55000.
- Making asset management service driven using asset information to support the optimisation
  of activities and programs to meet agreed service levels.
- Implementing systems to enhance capability and to support asset and service management related decisions.
- Document and implement supporting asset management processes.
- Comply with external drivers.
- Facilitate a strong connection between this strategy and operational activity.

#### 9.3.1 Asset Management Improvement Program

The asset management improvement program elements and activities have been structured to ensure alignment with the NAMAF and using ISO:55000 as good practice guidance.

In moving forward, we desire greater consistency and improved skills with respect to our asset management practices.

Our goal is to reach 'Core' maturity by December 2024.

We will assess our maturity each year to track and report on the progress we are making towards achieving our goal.

Reaching a 'Core' level of asset management maturity will mean that quality systems, processes, and data will support the development of long-term cash flow predictions and will drive our decision making.

## 9.4 Performance Monitoring and Reporting

Implementation of actions under this strategy will be monitored by the AMSC and reported back to the Management Executive Group on an annual basis.

#### 9.5 Review

A comprehensive review of this AM Strategy should be completed no later than December 2024.

Intermediary reviews of the strategy may be undertaken from to time as improvements are implemented and to make sure that it retains consistency with our strategic goals and objectives.

## **APPENDIX 1: NATIONAL ASSET MANAGEMENT ASSESSMENT FRAMEWORK**

There are eleven core elements of asset management under the National Asset Management Assessment Framework (NAMAF). These elements are defined as:

Strategic Planning	Council's process of defining its strategy, or direction, and making decisions on allocating its resources to pursue this strategy; including its capital and people.
Annual Budget	Council's budget prepared for a 12-month period. The Annual Budget outlines both the income and expenditures that are expected to be received and paid over the coming year.
Annual Report	A comprehensive report on Council's activities throughout the preceding year. Local Government annual reports are intended to give ratepayers and other interested parties information about the Council's activities and financial performance.
Asset Management Policy	A high-level document that describes how Council intends to approach asset management within the organisation.
Asset Management Strategy	A strategy for the implementation and documentation of asset management practices, plans, processes and procedures within an organisation.
Asset Management Plans	Plans developed for the management of one or more infrastructure asset classes with a view to operating, maintaining and renewing the class in most cost-effective manner possible, whilst providing a specific level of service
Governance and Management	A set of rules and policies designed to ensure that responsibilities within an organisation are well defined, and that the business runs smoothly. While Management are the staff in charge of authorising and delivering such rules. It is very important that Asset Management is intertwined into this framework.
Levels of Service	Defined as the service quality for a given activity. Levels of Service are often documented as a commitment to carry out a given action or actions within a specified time, or the provision of infrastructure to mee a desired level.
Data and Systems	Asset Data is qualitative and/or quantitative information used to identify and describe an asset group or group of assets. The Systems are the framework in which the data is processed and stored.
Skills and Processes	The level of skill and knowledge within the organisation in regards to Asset Management, along with a set of interrelated tasks that endeavour to increase awareness and learning.
Evaluation	How Council internally evaluates and monitors its performance in Asse Management.
$\mathbf{\vee}$	Table 7 - NAMAF Assessment Elements

## APPENDIX 2: ASSET MANAGEMENT IMPROVEMENT PROGRAM

Ref.	Improvement Opportunities	Priority	By Whom	Resource Implications	By When	Cost (\$)
1	Strategic Long Term Plan					
1.05	<ul> <li>To enhance the future funding projections in Council's Long Term Financial Plan it must: <ul> <li>Complete the development of Asset Management Plans for all key asset classes</li> <li>Develop service plans which identify future costs that are based on agreed service levels</li> <li>Ensure that future Strategic Plans include costed and prioritised initiatives for direct input</li> <li>Incorporate whole of life costs that are associated with approved capital works projects and gifted assets.</li> </ul> </li> </ul>	High	EMT	Existing with external support	December 2024	Costs included in various other actions below
4	Asset Management Policy					
4.01	Include linkage to Council Plan and LTFP in updated AM Policy	High	MIS	Existing	In progress June 2020	\$7,000
4.02	Include adoption of AM Plans which are informed by community consultation as a statement within AM Policy	High	MIS	Existing	In progress June 2020	Included ir above
4.03	Review and update roles and responsibilities to reflect current business practices and incorporate into AM Policy	High	MIS	Existing	In progress June 2020	Included ir above
4.04	Include Council commitment to training and professional development in financial and asset management practices as a statement within AM Policy	High	MIS	Existing	In progress June 2020	Included ir above
4.05	Include linkage to Council Plan and LTFP in updated AM Policy	High	MIS	Existing	In progress June 2020	Included ir above
5	Asset Management Strategy					
5.01	Prepare new AM Strategy with organisational vision for AM, current status, desired future state, and improvement plan	High	MIS	External	In progress June 2020	\$16,000
5.02	Include linkage to AM Policy and Council Plan in new AM Strategy	High	MIS	External	In progress June 2020	Included ii above
5.03	Document current organisational systems, processes, and practices in new AM Strategy	High	MIS	External	In progress June 2020	Included in above
6	Asset Management Plans					

Warrnambool City Council Asset Management Strategy

Ref.	Improvement Opportunities	Priority	By Whom	Resource Implications	By When	Cost (\$)
6.01	Document Asset Management Plans for all significant asset categories following a good practice approach and to meet NAMAF requirements	High	MIS	Existing with external support	December 2022	\$150,000
7	Governance and Management					
7.01	Prepare a communication framework which outlines AM reporting and organisational engagement requirements	High	MIS AMSC	Existing	December 2020	
7.02	Document roles and responsibilities for asset management and service planning	High	AMSC	Existing	In progress June 2020	
7.03	Review current PDs for asset management functions and update accordingly to articulate responsibility for asset management.	Medium	MOD	Existing	June 2021	
7.05	Continue to promote the importance and benefits of good asset management, service, and financial planning practices as opportunities arise	High	EMT AMSC	Existing	Ongoing	
7.06	<ul> <li>Re-establish the Asset Management Steering Committee including Terms of Reference</li> <li>Ensure suitable meeting frequency is defined and adhered to</li> </ul>	Very High	MIS	Existing	Complete	
7.07	Prepare and implement communication strategy to raise corporate awareness of the fundamentals and importance of good asset management.	Medium	MIS AMSC	Existing	Dec 2021	
8	Levels of Service					
	<ul> <li>Document and confirm the list of services provided by Council.</li> </ul>	High	EMT	Existing with external support	June 2023	\$100,000
8.01	<ul> <li>Develop service plans to document present levels of service based on existing Council plans, strategies, etc to facilitate further engagement with the community</li> </ul>	High	EMT	Existing with external support	June 2023	Included in above
8.02	Include review process within service plans to define, quantify and document current community levels of service and technical levels of service, and costs of providing the current levels of service.	Medium	EMT	Existing with external support	June 2023	Included in above
8.03	Include community and technical levels of service within relevant AMPs	High	MIS	Existing	Dec 2024	

Ref.	Improvement Opportunities	Priority	By Whom	Resource Implications	By When	Cost (\$)
8.04	Technical levels of service, once developed, to be embedded into service agreements and other relevant asset management planning procedures.	High	EMT	Existing	Dec 2024	
9	Data and Systems					
	<ul> <li>Document standard operating procedures for data maintenance activities</li> </ul>	Medium	MIS	Existing	June 2023	
9.01	<ul> <li>Complete a comprehensive data health check to measure the accuracy and completeness of Council's existing asset data and develop strategy to improve any identified gaps.</li> </ul>	Medium	MIS	Existing with external support	Dec 2020	\$10,000
	<ul> <li>Develop and implement asset management system training for key Council staff to leverage greater benefit from Council's AM data and to ensure data is maintained and improved ongoing.</li> </ul>	Medium	MIS	Existing with external support	June 2020	\$25,000
	<ul> <li>Review asset data structure in Conquest to align with the asset hierarchies documented in Council's Asset Management Plans</li> </ul>	Medium	MIS	Existing	Dec 2020	
9.02	• Establish and document business rules for asset data entry to preserve the accuracy of Council's asset information. This should include using system controls where possible to promote greater consistency in data entry.	Medium	MIS	Existing	Dec 2021	
	<ul> <li>Consider undertaking a comprehensive review of both the asset hierarchies and General Ledger to identify opportunities for greater alignment to improve analysis and reporting of asset costs.</li> </ul>	Medium	MIS	Existing	Dec 2024	
9.03	Formalise condition inspection methodologies in AMPs. Where relevant, make reference to IPWEA Practice Notes or relevant documents which are used for condition assessments for specific asset classes.	High	MIS	Existing	June 2022	
9.04	Establish asset handover process to ensure that asset disposals are captured and reflected in the asset register	High	MFP	Existing	Dec 2020	
9.05	Review AM benchmarking requirements against business needs and best practice	High	MIS	Existing	June 2023	

Ref.	Improvement Opportunities	Priority	By Whom	Resource Implications	By When	Cost (\$)
	<ul> <li>Clarify roles and responsibilities for developing capital works program</li> </ul>	High	EMT	Existing	March 2020	
9.06	<ul> <li>Improve information flow between assets, works, and engineering units in relation to capital works projects and planning to promote greater transparency in decision making</li> </ul>	High	DCI	Existing	March 2020	
	Formalise prioritisation process for renewal programs	High	MIS	Existing	October 2020	
	<ul> <li>Identify system and process improvements required to realise full functionality of Conquest to generate future works programs and cash flows</li> </ul>	Medium	MIS	Existing	June 2021	
9.07	Include relevant renewal costs in Conquest for capital works planning	Medium	MIS/MF	Existing	June 2021	
9.08	Define and document process for CAPEX and OPEX planning in Asset Management Plans	High	MIS	Existing	In line with AMP development	
10	Skills and Processes					
10.01	Include statement within the AM Strategy which explains the document review process and frequency	High	MIS	External	In progress June 2020	Included in action 5.01
	<ul> <li>Prepare (or update) AMP's for all other asset classes (e.g. minor asset classes) and present to Council</li> </ul>	Medium	MIS	Existing with external support	Dec 2024	\$150,000
10.02	<ul> <li>Ensure timeframes, reporting requirements and responsibilities are included in AMP's</li> </ul>	High	MIS	Existing	In line with AMP development	
10.03	Provide linkage from AMP's, strategies and policies to the corporate risk register where required.	High	MRG	Existing	March 2021	
10.04	Document the process for the review and update of asset financial forecasts for input into the Long Term Financial Plan.	Medium	MF	Existing	October 2020	
40.05	<ul> <li>Complete a capability assessment to determine current organisational skills and competencies to perform key asset management functions.</li> </ul>	Medium	AMSC	Existing	March 2022	
10.05	<ul> <li>Develop a staff training and development program</li> </ul>	Medium	AMSC	Existing	March 2022	
	<ul> <li>Seek adequate budget for training needs across the organisation</li> </ul>	Medium	AMSC	Existing	March 2022	

Ref.	Improvement Opportunities	Priority	By Whom	Resource Implications	By When	Cost (\$)
10.07	Reinforce project handover process across Council staff responsible for managing capital works projects	High	MIS	Existing	June 2020	
10.08	Develop and implement a process for the handover of assets to asset custodians	High	MIS	Existing	June 2020	
10.09	Explore opportunities to communicate State of the Assets report to a broader audience	High	DCI	Existing	October 2020	
10.10	Develop a formalised plan or ongoing program to promote good asset management practices across the organisation.	Medium	AMSC	March	2022	
11	Evaluation					
11.01	Develop prioritisation, monitoring and reporting framework for asset management improvement initiatives and incorporate into new AM Strategy.	High	MIS	Existing with external support	In progress June 2020	Included in action 5.01
11.02	Develop levels of service monitoring and reporting framework.	Medium	EMT	Existing with external support	June 2023	Included in action 8.01

## 5.8. ITINERANT TRADING POLICY REVIEW

## PURPOSE:

# This report seeks Council approval to update the Itinerant Trading Policy without change and to extend the review date to 2023.

## EXECUTIVE SUMMARY

- Council adopted the Itinerant Trading Policy in July 2019. The basis for adoption was that the Policy would be trialed for 1 year. Policies are usually reviewed every 4 years.
- As the Policy is due for review in July 2020, this process is following Council's usual review procedure.
- The Policy has been in place for 12 months. During that time there have been 9 itinerant traders registered.
- The Policy has worked well and there has been no reason to amend the Policy content.
- Council adopts the Itinerant Trading Policy without changes and extends the review date to July 2023.

## RECOMMENDATION

That Council adopts the Itinerant Trading Policy without change, with a revised review date of July 2023.

## BACKGROUND

Council adopted the Itinerant Trading Policy in July 2019. The basis for adoption was that the Policy would be trialed for 1 year. Policies are usually reviewed every 4 years.

As the Policy is due for review in July 2020, this process is following Council's usual review procedure.

The policy was developed to allow Council to respond to requests from itinerant traders for trading approval. The policy provides for a balance that recognises the needs and interests of both fixed and itinerant traders.

## ISSUES

The Policy has been in place for 12 months. During that time there have been 9 itinerant traders registered.

Local Laws Officers in their patrols will approach itinerant traders to check that a permit has been issued, and if no itinerant trading permit has been issued, they provide an application form and direct that a permit be obtained.

The Policy has worked well and there has been no reason to amend the Policy content.

## FINANCIAL IMPACT

The cost of reviewing the Policy are covered within the budget of City Amenity.

The income received from itinerant trading for the 2019/2020 financial year is \$2,600.

## LEGISLATION / POLICY / COUNCIL PLAN CONTEXT

This report responds to the following Council Plan initiatives:

# 5 Practice good governance through openness and accountability while balancing aspirations with sound financial management

5.2 Develop policies, strategic plans and processes to address local and regional issues, guide service provision and ensure operational effectiveness

5.3 Ensure financial sustainability through effective use of Council's resources and assets and prudent management of risk

## TIMING

The review date for the Policy is July 2020.

## COMMUNITY IMPACT / CONSULTATION

There is no requirement to consult the community as part of this review as there are no changes to the Policy. The original Policy was consulted widely before adoption by Council for an initial period of 12 months.

## LEGAL RISK / IMPACT

There are no perceived risks associated with this process.

## **OFFICERS' DECLARATION OF INTEREST**

No conflicts of interest were declared.

## CONCLUSION

Council adopts the Itinerant Trading Policy without changes and extends the review date to July 2023.

## 1. INTRODUCTION

#### 1.1 Purpose

To provide a clear, equitable and consistent process for the operation of itinerant trading within the Municipality.

## 1.2 Scope

This Policy applies to all mobile trading on Council owned and managed land within the Municipality. The Policy does not cover events, free community services, promotional activities and trading under a Council Lease or Licence.

#### 1.3 Definitions

Term	Definition
"Events"	One off or temporary events involving the sale of goods, services and or activities, as determined by Council.
"Free Community Services"	Delivery of information or services free of charge, conducted on public land.
"Fundraising"	Raising money with all profits for the benefit of a registered charity.
"Itinerant Trading"	Itinerant trading is defined as the mobile and temporary use of public land for the sale and delivery of goods and services.
"Market Organiser	The organiser of a market with multiple stallholders within a designated location.
"Market Stallholders	A trader operating within the confines of an organised, Council approved market.
"Seasonal Markets"	Held for a limited period of time at a specified time of year.
"One Off Markets"	A market on a single occasion.
"Ongoing Markets"	A market held on multiple occasions throughout the year.

### ITINERANT TRADING POLICY

## 2. POLICY

## 2.1 Policy Objectives

- To allow for the operation of itinerant trading activities in a manner that does not interfere or conflict with the City's established fixed retail and services.
- To ensure that the operation of itinerant trading activities are appropriate for the area and do not cause unreasonable nuisance to the surrounding residents or businesses.
- To ensure the amenity of the area is protected whilst enhancing the area's vibrancy and encouraging patrons to the area.
- The proposed itinerant trading provides a net benefit to the community.
- To ensure itinerant traders and licensees contribute to the cost of maintaining open space, Council assets and extra Council services required as a result of itinerant trading in a designated area.

### 2.2 Policy Principles

- Itinerant trading cannot occur in any public place until a permit has been issued by Council. The issue of a permit is not as of right and the issue of a permit will be at Councils discretion subject to application which will be assessed on its merits.
- In assessing applications for itinerant trading Council will consider:
  - a. Location;
  - b. The impact upon permanent retail and service traders;
  - c. Benefit to the community;
  - d. Ambience created by the trader;
  - e. Safety;
  - f. Amenity;
  - g. The impact upon existing infrastructure and facilities.
  - h. The number of other itinerant traders operating in the surrounding precinct.
- No permanently fixed infrastructure, tables, chairs or excessive amplified sound are permitted.
- All advertising must be fixed to the itinerant trading vehicles unless otherwise approved by Council.
- The itinerant trading area must be maintained at a high level of cleanliness.
- Where Council has to undertake any additional cleaning or tidying of the area, the itinerant trader will be liable to reimburse the Council for costs incurred.
- The permit holder takes full responsibility for the cleanliness, care, appearance, maintenance and operation of their activity area and is responsible for abiding by all legislative requirements and Local Laws relating to the activity.
- Council will monitor the itinerant trading to ensure the amenity, and character of the area is
  protected and permit conditions are adhered to.
- Itinerant traders must maintain public liability insurance of \$20M.

Page 4 of 5

## ITINERANT TRADING POLICY

- All itinerant food traders must comply with all health and food safety aspects as contained within the Food Act 2001 and Food Safety Standards. All itinerant food traders must be registered and be registered on the "Streatrader" website and will also be subject to an inspection from the Environmental Health team.
- Safety of the public must be the primary consideration. Itinerant traders must not compromise the safety of pedestrians or any other road users or any other users of the space.
- Council will encourage itinerant trading to utilise sustainable energy and use of resources.
- Council may refuse, modify or revoke an itinerant trading permit as required.
- The itinerant trading permit is to be carried at all times while trading and produced upon request by an authorised Council representative or Police Officer.
- Applicants for itinerant trading will be required to nominate the trading locations through the application process. The application form is available on Councils website.
- A fee will be charged to conduct itinerant trading as prescribed in Councils fees and charges.
- All applications will be assessed on their merits for consistency with this Policy.
- This Policy does not apply to private property, fundraising for registered charities and market stall holders as part of a Council approved market.
- Market organisers who operate regular ongoing or seasonal markets are required to enter into a licence or lease with Council and pay a licence fee based on patronage and turnover.
- Market organisers of one off markets are required to obtain Council consent and are exempt from itinerant trading fees.

## 3. GOVERNANCE

#### 3.1 Owner

The Director of City Infrastructure is responsible for monitoring the relevance and currency of this policy and for updating it when required.

#### 3.2 Review

The Director of City Infrastructure will review the policy for any necessary amendments no later than three years after its adoption or after the last review.

#### 3.3 Charter of Human Rights Compliance

It is considered that this policy does not impact negatively on any rights identified in the Charter of Human Rights Act (2007).

# 5.9. CYCLING REFERENCE GROUP - APPOINTMENT OF COMMUNITY MEMBERS

# PURPOSE:

# This report presents the new members of the Cycling Reference Group.

# EXECUTIVE SUMMARY

- A Cycling Reference Group (CRG) was established in early 2016, with the CRG confirmed as a formal Council reference group at the 28 November 2016 Ordinary Council meeting.
- Membership of the CRG and the Terms of Reference were confirmed and endorsed by Council at the 5 June 2017 Ordinary Council meeting.
- A revised Terms of reference was endorsed by Council at the 2 December 2019 Ordinary Council meeting.
- There were 14 people apply for 8 positions as community representatives of the Cycling Reference Group. Each nominee was assessed against a set of criteria.
- Council found it difficult to reduce the selection to 8 persons and are therefore recommending an increase to 9 community members for this term.

# RECOMMENDATION

That Council:

- 1. Agree to amend the Terms of Reference for the Cycling Reference Group to allow up to 9 community members
- Appoint the following people to the Cycling Reference Group for the period 1 July 2020 30 June 2022:
  - Helen Ryan
  - Ellen Troitzsch
  - Richard Adams
  - Michael Dean
  - Carla Mills
  - Brendan Donahoo
  - Geraldine Rabie
  - Ian Bodycoat
  - Jason Dart

## BACKGROUND

The Cycling Reference Group (CRG) was established informally in early 2016 as a consultative mechanism to address issues around infrastructure, amenity and opportunity related to cycling in Warrnambool.

The group will typically meet quarterly and have membership up to eight community members, generally one Councillor and at least one member of Council staff. Community members will be appointed for approximately two years from 1 July 2020 – 30 June 2022.

Council invited community members to register their interest in becoming community members of the CRG. Fourteen community members expressed interest in becoming members. To ensure we had a balanced representation of cyclists in Warrnambool each nominee was assessed against:

- 1. reasons for nominating,
- 2. experience,

- 3. understanding of road safety and other challenges,
- 4. Gender; and
- 5. types of cycling they took part in (Recreational, Road Racing, Road Bikes, Mountain Bikes, Commuter, Cycling with Children, Cycling with Youth, Cycling with Older People).

# ISSUES

The adopted term of the community representatives has passed. Accordingly, Council undertook a process to invite community members to lodge their interest in joining the CRG.

The appointment, term arrangements and representation parameters are addressed within the revised Terms of Reference endorsed by Council on 2 December 2019.

In recommending a committee officers found it difficult to reduce the selection to 8 persons and are therefore recommending an increase to 9 community members for this term.

## **FINANCIAL IMPACT**

There will be no direct financial cost to Council, however there is a commitment of officer resources for the duration of the CRG.

# LEGISLATION / POLICY / COUNCIL PLAN CONTEXT

This report responds to the following Council Plan initiatives:

## 1 Sustain, enhance and protect the natural environment

1.5 Educate and partner with the community on Council's sustainability initiatives

## 2 Foster a healthy welcoming City that is socially and culturally rich

- 2.1 Promote healthy lifestyles
- 2.2 Increase participation, connection, equity, access and inclusion
- 2.3 Increase community health and social connections.
- 2.4 Encourage and support participation in sport, recreation and physical activity.

## 3 Maintain and improve the physical places and visual appeal of the City

3.1 Enhance movement in and around the city including better connections for cyclists and pedestrians

- 3.3 Build Infrastructure that best meets current and future community needs.
- 3.4 Maintain and enhance existing Council infrastructure

# 5 Practice good governance through openness and accountability while balancing aspirations with sound financial management

5.1 Provision of opportunities for the community to actively participate in Council's decision-making through effective promotion, communication and engagement

## TIMING

The process for appointing new community representatives to the CRG took approximately three (3) months, however due to the COVID19 event the process was paused over March and April. Council now aims to have the new committee appointment back to Council for endorsement by July 2020.

## COMMUNITY IMPACT / CONSULTATION

Council has invited nominations from the community for appointment to the Cycling Reference Group, which was done via a public notice in the local media.

## LEGAL RISK / IMPACT

There is minimum risk to Council if the CRG continues to operate, however the governance arrangements should be re-established as it is a formal reference group of Council.

## **OFFICERS' DECLARATION OF INTEREST**

No officer declared an interest in the Cycling Reference Group.

## CONCLUSION

To enable the Cycling Reference Group to operate in a correct manner that is recognised as a formal reference group of Council, the governance arrangements need to be re-established through the appointment of new representatives to the committee.

## ATTACHMENTS

1. Updated Terms of Reference\_Cycling Reference Group\_2 December 2019 [**5.9.1** - 2 pages]

#### Warrnambool City Council - Cycling Reference Group

#### **Terms of Reference**

To act on behalf of the broader cycling community in providing feedback, comments and user needs to Council during the development and review of Council policy and practice regarding cycling in Warrnambool.

## **Terms of Reference:**

Members of the Cycling Reference Group:

- Provide feedback to Council on proposed actions and initiatives related to cycling.
- Assist Council in responding to the needs of cyclists.
- Engage with Council on new and emerging issues involving cycling.

#### **Objectives:**

The specific objectives include:

- To provide a forum where experience, specialist knowledge and skills in the area of cycling can be utilised.
- To consider, in conjunction with the concerns of other stakeholders and road users, any issues related to cycling.
- Identify and support external funding opportunities (grants) that benefit cycling in Warrnambool.
- Assist in the development of Policies, Strategies and Plans, through active engagement during the development and preparation of such documents.

## Advisory Committee Structure:

The Reference Group shall be made up of Council Officers and members of the Community.

- Council Officers:
  - Councillor (1)
  - Manager Recreation and Culture (or their delegate).
  - Manager Infrastructure Services (or their delegate).
  - Other Council officers, as co-opted, depending on the agenda, including but not limited to road safety, design and development, assets, community infrastructure and planning, recreation.
- Community Members

Up to 8 members of the community representing the following cycling interests will be considered for the reference group:

- Road & Racing
- Community & Recreational
- Commuter & Schools
- Mountain bikes

Nominations will be sought via public notice and invites to registered clubs to gain community representation. The selection of committee members will consider overall composition of the committee including gender balance.

If more nominees are received than vacant positions, Council will consider all nominees and make a determination of who will be selected to the Committee.

A quorum will consist of the Chair, one (1) Council Officer and three (3) community members, no later than 10 minutes post the nominated meeting start time, for it to be deemed a formal meeting. If a quorum is not reached within this time, the meeting will be recorded as cancelled.

#### Appointment of chair:

The Chair will be elected with majority support by the community committee members at the first meeting following formulation of the committee. The tenure of the Chair will be no greater than a 12 month period, with the new chair to be elected by the community committee members.

#### Meeting frequency:

Up to four (4) times per annum to be held quarterly.

#### Secretariat:

The Strategic Assets unit of Council will act as the secretariat to the reference group.

#### Managing conflict of interest:

Members must be aware of and manage their own conflict (and potential conflict) of interest relating to matters discussed by the reference group, bearing in mind that the group is advisory in nature.

#### **Reporting regime:**

The minutes, supporting reports and associated records of each meeting will be presented to Council at a Council briefing session.

#### Term:

Each committee member will run for a two year term, from 1 July through to 30 June. To ensure continuity of the reference group the term period will be staggered, with up to four (4) positions made available for nomination each year.

In the first year (being 1 July 2019 through to 30 June 2020), four (4) positions will be selected randomly and declared available for nomination. The remaining four (4) positions will remain in place until the expiry of their team being 30 June 2021.

#### 5.10. GLASS COLLECTION TRIAL SURVEY RESULTS AND TRANSITION PLAN TO FOURTH BIN

#### PURPOSE:

### This report provides information on the glass collection trial and seeks Council approval to rollout a glass collection across the Municipality.

#### **EXECUTIVE SUMMARY**

- The glass collection trial commenced on February 3<sup>rd</sup> this year with 3,300 tenements participating in two collection areas.
- On average between 20 and 25 tonnes of glass is being collected per month, with 1,255 households placing their glass bin out for collection every fortnight with an average glass bin presentation rate of around 40% overall. This tonnage extrapolated out across the municipality is equal to 1250 tonnes of glass.
- Approximately 6 tonnes of glass has been collected from the 3 glass banks between March -May.
- To gain feedback a hardcopy survey was delivered to all trial households with an online survey monkey option available. The survey was open between 1/5/20 until 1/6/20.
- 804 responses were received. 707 hardcopies, 74 online responses, 23 hardcopies received (to date) after survey closed. Survey results are attached **refer Attachment 1.**
- The survey results provide evidence that the majority of participants in the trial area support the four bin system and fortnightly garbage collection.
- For Council's interest glass from the trial collection areas has been stockpiled and graded and will be crushed for use in concreting by local concreters. Glass from the glass banks is being used in local road making. The first example is the roadworks at Walsh Road / Raglan Parade intersection.
- Council is currently in the process of planning a complete bin replacement of all garbage and recycling bins through the current contract. The purpose of the bin replacement program is to upgrade the ageing bin fleet and to improve the overall data available to both Council and residents. RFID chips are included in each new bin which links to Councils database and with the GPS tracking and live and recorded camera footage in the trucks.
- The rollout of the purple glass bins will need to need to be staged to avoid confusion and for the practicalities of storing around 90,000 new and returned redundant bins. Redundant bins are required to be recycled.
- Sulo who will be supplying the new glass only and garbage bins offer a bin that has up to 60% recycled plastic content. This is an excellent example of the Circular Economy which Council will be promoting.
- It is intended to commence the rollout of new bins in July beginning with the recycling bins, with the full rollout of new bins taking up to 9 months. Communication with the community about the changes will also be critical to enable a smooth transition.
- The new bin system is a step change in the transition to the ultimate kerbside collection system. As other factors come into play such as the Container Deposit Scheme and new contracts begin other options may become feasible, however this initial system will provide a solid base from which to make further adjustments.
- Council will soon be required to submit a Transition Plan to the Victorian Government in relation to its Recycling Reform Policy. Submission of the Transition Plan will attract some funding (the amount is currently unknown). This funding is anticipated to be modest.

#### RECOMMENDATION

#### That Council

- 1. Notes the results of the glass collection trial survey.
- 2. Resolves to rollout a staged kerbside glass collection service across the Municipality.
- 3. Agrees to transition to a fortnightly kerbside waste collection as the glass collection is introduced.

#### BACKGROUND

In response to the recycling crisis, through an extensive investigative and tender process, it was apparent that separating glass from the recycling collection improved both the value and quality of recyclables.

On 7<sup>th</sup> October 2019, Council resolved:

#### That Council:

- 1. Acknowledges the strong community support for a separate glass only kerbside collection with a fortnightly waste collection;
- 2. Approves a glass only collection trial in 2 collection areas and monitors the progress of the trial;
- 3. Receives a further report on the trial outcomes including recommendations for a broader rollout if applicable; and
- 4. Notes that a recycling processing tender with options for glass processing has been prepared in readiness for advertising.

The glass collection trial commenced on February 3<sup>rd</sup> this year with 3,300 tenements participating in two collection areas.

On average between 20 and 25 tonnes of glass is being collected per month, with 1,255 households placing their glass bin out for collection every fortnight with an average glass bin presentation rate of around 40% overall. This tonnage extrapolated out across the municipality is equal to 1250 tonnes of glass. This is the amount of glass present in our kerbside recycling system.

In addition to the glass collection, Council has deployed 600L glass bottle banks at supermarkets at Dennington, Central Warrnambool and Bunnings in East Warrnambool. All bottle banks are being used to the point where they need weekly collection. The bottle banks are for residents who cannot accommodate a fourth bin for glass and to allow residents outside the trial areas to separate their glass from their recycling if they desire.

To gain feedback a hardcopy survey was delivered to all trial households with an online survey monkey option available. The survey was open for a month between 1/5/20 until 1/6/20.

804 responses were received. 707 hardcopies, 74 online responses, 23 hardcopies received (to date) after survey closed.

The survey results are attached- Refer Attachment 1.

#### ISSUES

A summary of the survey results indicate that a monthly glass collection would suit majority of households. The availability of glass banks provides an accessible option for households who require a more frequent collection. A more detailed analysis is provided in the Community Impact section of this report and in **Attachment 1**.

Currently however, a monthly glass collection is difficult due to contractual obligations. It is however something that Council could investigate further to assess the feasibility and price impacts.

More than half of the survey respondents found the size of the garbage bin satisfactory for fortnightly collections.

Whilst this is a robust percentage, 68 residents provided additional comment requesting a weekly garbage collection or a bigger garbage bin for fortnightly collections. The most common reason provided was that the 140 litre fortnightly garbage collection is not sufficient capacity for larger households of 5+ people. Families with children using disposable nappies are particularly vocal in their objection to fortnightly garbage collections.

More flexibility in the system was another emerging theme, with suggestions for user pays, opt in and opt out and the option of different sized bins for different sized households. In response to this feedback and a solution to the size of the garbage bin for fortnightly collection, an option for a larger garbage bin could be offered to larger households for an extra fee should Council be supportive. This approach would require further discussion and consultation.

It is noteworthy that despite this idea having merit, a key objective of waste management is to reduce waste. Providing a larger bin does not help deliver change and should be carefully considered to see if other alternatives exist such as maximising use of FOGO and recycling services. By adopting a user pays approach for a larger bin is one way to potentially encourage waste reduction.

Support of glass banks is shown through use of existing glass banks and the survey. Therefore, the glass banks should be continued, possibly with increased locations.

For Council's interest glass from the trial has been stockpiled and graded and will be crushed for use in concreting by local concreters. Glass from the glass banks is being used in local road making. The first example in the City is the roadworks at Walsh Road / Raglan Parade intersection.

A small number of people commented that four bins were 'too many' but overall, this did not seem to be a significant theme.

Some comments about the noise of the glass collection at night were also provided.

The collection contractor uses 3 trucks to complete the collection earlier. The collection is usually finished before midnight.

#### FINANCIAL IMPACT

By amortising the cost of the new purple lidded glass bins for the remaining 6 years of the contract, Council can contain the costs within the current waste management charge, and still achieve the service reduction cost proposed as part of the 2020-2021 budget.

All costs for the roll out of this service can be accommodated in the waste program and by substituting a waste collection with a glass collection.

Considering the interest costs, collection and recycling of redundant bins the quoted price is reasonably consistent with the tendered price.

This also means that Council can undertake a staged rollout now rather than paying the full capital cost of purchasing the bins in one hit or prolonging the rollout over several years.

It is worth noting that there is no state government funding available for bins, however all Councils will receive funding upon submission of a Transition plan as per the Recycling Victoria Policy. The amount of funding is yet to be determined but will not cover the entire cost of the new glass bins.

Council could also consider including a charge for upsizing a larger garbage bin to 240l at a proposed additional cost of \$100.00 per tenement to cover the cost of bin supply and extra waste disposal costs.

Council could also consider a fee in next year's fees and charges for a replacement bin which has been deliberately or accidentally destroyed or lost or stolen through negligence. Discretion would apply in the application of such fees.

#### LEGISLATION / POLICY / COUNCIL PLAN CONTEXT

This report responds to the following Council Plan initiatives:

#### 1 Sustain, enhance and protect the natural environment

1.4 Review options for managing waste

### 5 Practice good governance through openness and accountability while balancing aspirations with sound financial management

5.4 Deliver customer-focused, responsive service

The recommendations in this report also align with W2040 Goal 12 and the Green Plan – Zero Waste Warrnambool:

#### 2040 Outcome

- Zero recoverable waste to landfill
- Warrnambool has developed a framework for a closed loop economy.

#### By 2026

- Reduce resource consumption from 8.2 kg to 3 kg per person by 2038 (based on 2015 levels).
- Increase diversion from landfill to 80%

The report responds to the BSWWRRG Regional Implementation Plan:

<u>**Priority Action 3:**</u> Facilitate viable systems to increase recovery rates, including those from mixed loads of waste and bin collection arrangements.

The report recommendations align with the Recycling Victoria Policy:

<u>Goal 3:</u> **RECYCLE:** Reform kerbside collections to generate more value from waste; improve the separation of recyclable materials; develop markets for recyclable materials.

These report recommendations also align with the United Nations Sustainable Development Goals, Goal 8 'promote sustained, inclusive and sustainable economic growth'.

#### TIMING

Council is currently in the process of planning a complete bin replacement of all garbage and recycling bins through the current contract. The purpose of the bin replacement program is to upgrade the ageing bin fleet and to improve the overall data available to both Council and residents. RFID chips are included in each new bin which links to Councils database and with the GPS tracking and live and recorded camera footage in the trucks.

The new landfill and glass bins manufactured by SULO can contain 60% recycled plastic content. This is an excellent example of the Circular Economy which Council will be promoting.

The rollout of the purple glass bins needs to be staged to avoid confusion and for the practicalities of storing around 90,000 new and returned redundant bins. Redundant bins are required to be recycled.

A photo of the recycling bins in storage is attached - Refer Attachment 5.

It is intended to commence the rollout of new bins in July and could take up to 9 months. Community consultation will also be critical to enable a smooth transition.

The new bin system is a step change in the transition to the ultimate kerbside collection system. As other factors come into play such as the Container Deposit Scheme and new contracts begin other options may become feasible, however this initial system will establish a sound basis for these further changes to take place in the future.

#### COMMUNITY IMPACT / CONSULTATION

The survey results indicate 56% of respondents used their glass bin sometimes. 33% for every collection and 11% have not used their glass bin.

Of the 11% who have not used the glass bin 35% reported not using any glass, 8% said they were still putting it in their recycling bin, 10% in a neighbour's glass bin , 4.5% take it to a glass bank, no one uses their rubbish for glass and 42% other. 'Other' included 37 respondents reporting that they don't use glass or don't have enough to fill the bin, some use jars for jam making or take them to the Op Shop for resale.

When asked if the garbage bin was the right size for fortnightly collections, 57% responded that it is 'just right', 27% found it too big and 16%, too small.

A couple of FOGO specific questions were asked to provide an idea of how this service is tracking and if it is front of mind for most residents to use FOGO for all foodwaste. These responses included:

- 86% responded using their FOGO bin for all foodwaste while 14% reported doing the following with foodwaste:
- 68 responses stated that they home composted, of fed foodscraps to worms, chickens or dogs.
- 11 respondents felt that the bags were too small, too hard to tie, leaked, smelt or not enough were provided.
- 10 commented that it was too smelly to place foodwaste in the FOGO bin and it attracted flies, rodents, maggots and mould.
- Some people forgot, found it inconvenient, used an insinkerator and some reported not having any or little foodwaste.
- 96% of respondents reported that the communication material was clear, and 85% of respondents were aware of the Victorian Governments recycling reform.

The option was provided for respondents to make any additional comments, with 396 further comments received. The following themes emerged.

- 89 commented that a monthly glass collection would be sufficient.
- 80 commented postively eg: 'Great job, thanks for doing this'
- **68** wanted a weekly garbage collection or a bigger bin due to a number of reasons including overflowing bins, having to take excess rubbish to the tip as the bin is not big enough for a family of 4+, smell and attracting pests).
- 25 reported that they home compost

- 20 suggested a different size for one of the other bins, wanted to see more options for residents, including opt out and user pays. A number of these respondents reported being single occupant households.
- **19** conveyed that they 'Love FOGO'.
- 16 support a weekly FOGO collection.
- **18** felt the glass collection at night was too noisy and suggested changing it to daytime or early evening.
- **14** comments about too many bins / not enough room to store the 4 bins.
- 14 asked general recycling questions.
- **13** felt that communication and the rollout could be improved.
- 12 supported the idea of glass banks and the Container Deposit Scheme
- **10** negative comments eg: 'Why do you hear only what you want to hear?'

#### LEGAL RISK / IMPACT

The risks involved are mainly reputational. There is an environmental risk of increased recycling going to landfill through glass contamination.

#### **OFFICERS' DECLARATION OF INTEREST**

No conflicts of interest were declared.

#### CONCLUSION

Following a successful glass only collection trial involving 3,300 tenements, and conclusive survey results from 781 analysed responses, it is recommended that Council commences a staged rollout of a glass only collection service.

I have about 12 bottles/jars in my glass bin. I have never put it out as I am waiting until I have a substantial amount of glass in it before putting it 36 May 11 2020 Ckerbside We never received glass bin so used a neighbours to start with then with Covid19 we have just been putting it 37 May 04 2020 C all in the recycle bin

Of the 37 other responses - 25 said don't use glass or don't have enough glass to fill the bin.

4 - use for jam or take to the Op Shop.

6 - never received a glass bin

# Glass recycling trialIs there a reason why you don't put all of your food waste in the FOGO bin?Answered98Skipped689

RespondentsResponse Date Responses 1 Jun 03 2020 0 I put most of my foodwaste in the bin but sometimes forget. 2 Jun 02 2020 0 We use vegetable scraps in our own garden. 3 Jun 02 2020 0 It usually washes down the sink. My neighbour uses my FOGO bin. I put fruit & vegetable scraps in garden compost and meat and bones in the 4 Jun 02 2020 0 garbage. 5 Jun 02 2020 0 smell, flies 6 May 30 2020 1 Any food waste we have go to our chickens. It is great for lawn clippings 7 May 29 2020 (It is not convenient 8 May 28 2020 (Use it for FOGO but lost / mislaid instructions sent at start. 9 May 28 2020 (I use compost bins at home and then it goes on the garden. Attracts vermin, numerous mice inside at bin site. Mice, rats and maggots 10 May 28 2020 (in outside bin. 11 May 28 2020 (I keep forgetting meat etc can go in. 12 May 28 2020 (Collection bags are too small for a big bin inside the house. 13 May 27 2020 (Don't like having another waste bin inside 14 May 27 2020 (worm farm feeds on food scraps 15 May 27 2020 (home compost 16 May 27 2020 (home compost 17 May 27 2020 (home compost 18 May 27 2020 (home compost 19 May 27 2020 (home compost 20 May 27 2020 (not enough to fill bin 21 May 27 2020 (home compost 22 May 27 2020 (little waste, smells 23 May 27 2020 (home compost 24 May 27 2020 ( home compost 25 May 27 2020 (home compost. bags break down, leak and smell 26 May 27 2020 (smelly 27 May 27 2020 1 home compost 28 May 27 2020 1 have chooks 29 May 27 2020 1 too many kinds of waste 30 May 27 2020 1 make seaweed seasol for my garden in the bin and compost my waste 31 May 27 2020 1 meat and dairy- rodents and pests 32 May 27 2020 1 home compost 33 May 27 2020 1 home compost 34 May 27 2020 1 no such waste 35 May 27 2020 1i live alone, not enough to worry about 36 May 27 2020 1 home compost and shredder for waste 37 May 27 2020 1 too smelly

38 May 27 2020 1 don't waste food 39 May 27 2020 1 home compost 40 May 27 2020 1 home compost 41 May 27 2020 1 home compost 42 May 27 2020 1 home compost 43 May 27 2020 1 give food scraps to friends pets 44 May 27 2020 1 smell 45 May 27 2020 1we have a worm farm for food scraps 46 May 27 2020 1 compost what I can 47 May 27 2020 1 we have a compost bin 48 May 27 2020 1 have a sink mulcher 49 May 27 2020 1 not convenient 50 May 27 2020 1 Food waste goes into my compost, fogo is wonderful for green waste 51 May 27 2020 1 it stinks 52 May 21 2020 (we don't have much waste 53 May 21 2020 (only green waste too smelly for food 54 May 21 2020 (compost food scraps except bones and meat 55 May 21 2020 (its not compostable 56 May 21 2020 (have a compost bin 57 May 21 2020 ( compost food scraps 58 May 21 2020 ( compost 59 May 21 2020 (some goes into my worm farm 60 May 21 2020 (feed to birds and compost 61 May 21 2020 1 don't cook use packaged meals- aged 62 May 21 2020 1 compost bin 63 May 21 2020 1 compost bin 64 May 21 2020 1 home compost 65 May 21 2020 1 we make our own compost 66 May 21 2020 1 compost bin 67 May 21 2020 1 compost or feed chooks 68 May 21 2020 1 food waste goes into compost bin 69 May 21 2020 1 we compost . Fogo too large for garden waste 70 May 21 2020 1 compost bin 71 May 21 2020 1 compost bins 72 May 21 2020 1 compost 73 May 21 2020 1 have a worm farm 74 May 21 2020 1 we have a worm farm

Attachment 5.10.3

75 May 21 2020 1 compost bin 76 May 21 2020 1got chooks and compost 77 May 21 2020 1 compost onsite 78 May 21 2020 1 some goes to the worm farm and rest into compost 79 May 21 2020 1 own composting system 80 May 20 2020 1 We compost all organic matter 81 May 19 2020 (sometimes 82 May 19 2020 (Have a compost and worm farm. 83 May 19 2020 (flies and mould 84 May 19 2020 1we compost and have very little waste- meat and dairy. 85 May 19 2020 1 Have a compost bin 86 May 19 2020 1 compost 87 May 19 2020 1 compost it 88 May 09 2020 (Dogs eat waste 89 May 09 2020 1 have a worm farm compost 90 May 08 2020 (Compost ourselves - all garden & food waste composted or mulched We have our own compost for the garden too, so a lot of vegie scraps don't make it into the FOGO. We do love the FOGO bin and do put meat / bones 91 May 06 2020 1/ dairy in. It is usually full by the time our garden waste goes in too. 92 May 05 2020 (Self compost all food waste excluding meat, diary, cooked and oils. I don't put anything at all in my FOGO bin. I give all of my yard waste and all 93 May 04 2020 (food scraps to my chickens and worm farms. 94 May 04 2020 1 Compost most vegetable matter on site. 95 May 04 2020 1 give them either to 4 chooks or my cows! 96 May 04 2020 1We also compost at home 97 May 01 2020 (Not alot of food scrap, inside fogo bin broke. 98 May 01 2020 (Was not aware I could put certain things in it.

Of 98 responses - 68 said they home compost, worm farm or feed foodscraps to chickens, dogs or cows.

- 10 too smelly, attracts flies, pests, rodents, maggots & mould
- 7 none or not much foodwaste
- 4 forget ot didn't know
- 4 not convenient
- 2 insinkerator
- 2 collection bags are too small / leak and smell

#### Glass recycling trial Is there anything else you'd like to tell us about the glass collection trial? Answered 396 Skipped 391

Respondents	Response Date	Responses	Tags
		Q1? Ho many people in house. We have 2 it's working beautifully.	
1	Jun 04 2020 10:54 AM	If users put cardboard & newspapers vertical around the edge and the rest in the middle they would have ample room.	
2	Jun 03 2020 04:18 PM	Monthly glass collection would be sufficient for me.	
		We wish FOGO bin could be picked up EVERY week because we	
3	Jun 02 2020 01:25 PM	have so much green waste.	
4	Jun 02 2020 01:23 PM	I live alone, only use FOGO and glass bin occasionally.	
5	Jun 02 2020 01:19 PM	I don't use a lot of glass, so only put glass bin out monthly.	
6	Jun 02 2020 01:18 PM	Glass bin is far too small so it doesn't work for us.	
7	Jun 02 2020 01:17 PM	I don't have a lot of glass, so put it out monthly.	
8	May 30 2020 11:41 AM	My son would like a blue lid for the next bin sent out.	
9	May 29 2020 05:05 PM	At 84 years old, I give glass to my family for them to put in their bin.	
10	May 29 2020 05:02 PM	Garbage needs to be collected weekly.	
11	May 29 2020 05:01 PM	We put some foodwaste into compost.	
12	May 28 2020 05:17 PM	I intend to use FOGO for meat etc for food waste and stop home composting.	
		Since the start of the trial I have only had 5 glass pieces so my	
13	May 28 2020 05:16 PM	neighbour puts them in her bin. It's not worth putting out for 2 bottles.	
14	May 28 2020 05:06 PM	FOGO bin way too big for single person household. One bin per 3- 4 units would be sufficient.	
15	May 28 2020 05:01 PM	Great initiative if that means our recycling is recycled & not landfilled.	
		I put meant & dairy in the garbage bin. Only use FOGO for garden waste.	
16	May 28 2020 05:00 PM	Unless you drink wine or beer there are very few glass objects to recycle.	
17	May 28 2020 04:57 PM	The brochure was exceptionally clear. I find the new 4 bins system very suitable & efficient.	

Attachment 5.10.4

18	May 27 2020 06:23 PM	Earlier pickup would be better. That way smashing glass is not waking people up
19	May 27 2020 01:50 PM	garbage bin to small for a fortnightly collection.
20	May 27 2020 01:49 PM	night collection of glass is too noisy effects sleep
21	May 27 2020 01:48 PM	for the current bin size garbage collection should be weekly please
22	May 27 2020 01:47 PM	please do not waste money on TV ads
23	May 27 2020 01:45 PM	do metal lids from glass containers go into recycling or rubbish?
24	May 27 2020 01:44 PM	great to see different ways to recycle and minimise waste
25	May 27 2020 01:43 PM	families garbage bins are overflowing encouraging birds to invade bins
26	May 27 2020 01:42 PM	FOGO and glass bins great idea
27	May 27 2020 01:33 PM	community glass collection spots be an alternative and more usefully
28	May 27 2020 01:32 PM	household of 5 , we have reduced a lot of our waste and would be happy if all bins were as small as the glass bin.
29	May 27 2020 01:30 PM	fine for a household of two , larger families may struggle
30	May 27 2020 01:29 PM	no information received on trial, bin lid just appeared changed. Use very little glass. Total fail for me.
31	May 27 2020 01:28 PM	night collection too noisy
	May 27 2020 01:27 PM May 27 2020 01:25 PM	monthly glass waste collection please great job
00	1110 21 2020 01.20 T M	9.00,300
	May 27 2020 01:23 PM	great to see recycling seperated and not going to landfill
	May 27 2020 01:19 PM	thanks, well done.
36	May 27 2020 01:19 PM	garbage weekly, original size bin please
		storing 4 bins is too much in a small yard, glass collection for
37	May 27 2020 01:16 PM	money would be better like in SA and NT
		too small for when family is over for Christmas and Birth days.
	May 27 2020 01:15 PM	Other times okay as we use little glass
39	May 27 2020 01:10 PM	still don't have a purple bin lid
		yellow writing on yellow bin not very visible- too remove lids and
40	May 27 2020 01:09 PM	rinse , could be easily over looked
41	May 27 2020 01:07 PM	glass bin is too small , we are heavy drinkers
42	May 27 2020 01:05 PM	why don't we wrap the papers together to keep seperate from plastics

43	May 27 2020 01:04 PM	does porclean, china terracotta, crockery and tiles go in the glass bin too?
44	May 27 2020 01:03 PM	how are the glass not contaminated in the old bin?
	May 27 2020 01:02 PM May 27 2020 01:01 PM	would like to see a glass deposit like in SA , very successful there garbage to be collected weekly
	May 27 2020 01:00 PM May 27 2020 12:59 PM	waiting to receive phone call on when new bins will arrive- 33 Marfell Road Warrnambool home compost also used
49	May 27 2020 12:58 PM	garbage bin to be collected weekly
	May 27 2020 12:57 PM May 27 2020 12:56 PM	Keep all bins our household waste has been reduced too many bins to store
52	May 27 2020 12:55 PM	two person household, bins are fine, larger households may find it an issue
	May 27 2020 12:54 PM May 27 2020 12:53 PM	We love FOGO and great to have a glass bin. Thank you Best thing ever
55	May 27 2020 12:50 PM	don't use alot of glass, live on my own
56	May 27 2020 12:44 PM	Rubbish collection needs to be weekly or a bigger bin double the size- family of 4 , 2 kids in nappies. we hardly use glass so glass bin doesn't get used.
57	May 27 2020 12:41 PM	night collection is a nightmare with young children- collection to change in the day please
	May 27 2020 12:39 PM May 27 2020 12:38 PM	the online survey questions were totally different ,w as hoping to save WCC a return stamp fee glass bin is good
	May 27 2020 12:37 PM	don't use enough glass for collection have not put glass bin out as yet
62	May 27 2020 12:36 PM May 27 2020 12:36 PM May 27 2020 12:35 PM	should we leave lids on glass containers all good Great work. Thanks
	May 27 2020 12:30 PM	prefer a free glass drop off point rather than 4 bins on my property.
	May 27 2020 12:30 PM	why say anything, the council do there own thing, they all need to be fired
	May 27 2020 12:29 PM	The fogo bin is excellent
67	May 27 2020 12:26 PM	how are all these bins to be stored without it becoming an eye sore
	May 27 2020 12:24 PM May 27 2020 12:22 PM	we combine glass with neighbour as we don't have enough to fill the bin too many bins
70	May 27 2020 12:20 PM	glass bin is handy when there is a breakage. we are not drinkers who need the bin, but are happy with the service

71	May 27 2020 12:18 PM	monthly glass collection instead
70	May 27 2020 12:15 PM	Fogo Bin - is there a product which could go in the bottom of the big fogo bin to soak up liquid to avoid having to wash bin out every fortnight?
12	May 27 2020 12.15 FM	
	May 27 2020 12:13 PM	Didn't receive a glass bin. Lid wasn't changed even though bin was out- 52 Fitzroy Road
74	May 27 2020 12:11 PM	all bins are very good
75	May 27 2020 12:10 PM	garbage bin to small for household of 6
76	May 27 2020 12:09 PM	takes a long time to fill the glass bin
77	May 27 2020 12:08 PM	scheduling for when and what to put out is still hit and miss
78	May 27 2020 12:07 PM	collect during the day. too noisy at night
		I would like the council to have larger skip bins in public areas for aluminium cans and plastic milk bottles . Advanced notice on the glass trial was great as it allowed us to stockpile our glass leading
79	May 27 2020 12:05 PM	up to trial.
	May 27 2020 12:02 PM	both great initiatives by council to reduce landfill
	May 27 2020 12:00 PM May 27 2020 11:56 AM	all is fine did not receive a glass bin
83	May 27 2020 11:54 AM	four bin system works well for us
	May 27 2020 11:53 AM	pick up of glass bin should be 4-6 weeks not fortnightly
	May 27 2020 11:52 AM May 27 2020 11:49 AM	glass bin too big for us
87	May 27 2020 11:08 AM	all good, no more bins please as have no space
88	May 27 2020 11:05 AM	stating that this is trial is a lie becasue we have payed for all this in our rates.
	May 27 2020 11:04 AM	great idea , wish manufactures woud use more glass
03		
		Issue of new bins not communicated, hard to remember which bin to put out when. A weekly collection for garbage and recycling
90	May 27 2020 11:01 AM	would be better.
		recenlty moved from Tasmania- no communication materical
91	May 27 2020 10:58 AM	received as yet. I love Warrnambool and thrilled that it processes local glass
	May 27 2020 10:55 AM	we love our Fogo bin
93	May 27 2020 10:53 AM	great addition to the waste collection
94	May 27 2020 10:52 AM	we use very little glass- a share bin or a monthly collection could be a option
95	May 27 2020 10:50 AM	garbage bin is too small for fortnight rubbish and smelly
96	May 27 2020 10:50 AM	garbage bin too small for a family of 5

97	May 27 2020 10:49 AM	the time of glass collection needs to be earlier as 10-1030 too late and it is too loud
98	May 27 2020 10:44 AM	garbage bin needs to be collected weekly or bin needs to be bigger
99	May 27 2020 10:43 AM	everyone is street now burns waste in firepits becasue waste bin is too small
100	May 27 2020 10:41 AM	glass bin is great, please keep this service
101	May 27 2020 10:38 AM	great idea just alot of bins to get used to
102	May 27 2020 10:38 AM	can we have a detailed list put out for yellow bin, I'm sure more can be recycled that is not
103	May 27 2020 10:37 AM	prefer for garbage to be collected weekly
104	May 27 2020 10:35 AM	the new garbage bin is a awkaard size, fits only what we could fit in the old size and that gets collected weekly
105	May 27 2020 10:33 AM	don't fill bin enough for a fortnightly collection
	May 27 2020 10:32 AM	4 bins are great
107	May 27 2020 10:29 AM	really happy with glass bin
108	May 27 2020 10:27 AM	Glass and recycling collection is loud, glad its not during the night.
109	May 27 2020 10:22 AM	dont have a lid for the purple bin yet. Garbage to be collected weekly please. thanks
110	May 27 2020 10:17 AM	what do we do with broken crockery? thak you
111	May 27 2020 10:16 AM	This is a very good idea, keep it going
	May 27 2020 10:14 AM	thank you great job
	May 27 2020 10:13 AM	fogo bin is great
	May 27 2020 10:11 AM	all bins are great
	May 27 2020 10:08 AM May 27 2020 10:06 AM	fogo bin to be collected weekly we compost what we can
	May 27 2020 10:05 AM	Fogo bin is great
117	May 27 2020 10.007 M	
118	May 27 2020 10:04 AM	we don't have alot of glass so we don't use the bin alot
		The purple lid wasn't changed within the timeframe stated in the
		communication material. The glass collection is extremely noisy
119	May 26 2020 08:43 PM	and not suitable for middle of the night collections.
	May 21 2020 02:35 PM	a very well run service, much appreciated
121	May 21 2020 02:31 PM	alot of things come in plastic
122	May 21 2020 02:29 PM	only 1 old lady, don't drink and get soft drinks in plastic bottles, easy to manage
123	May 21 2020 02:26 PM	glass collection is extremely noisy
124	May 21 2020 02:25 PM	single houshold doesn't need to empty bins as frequently but with fogo it is needed due to blow fies during warm weather

125	May 21 2020 02:22 PM	glass bins have helped alot with our recycling amount. We still have to use the heighbours bins for waste every fortnight - family of 4 with a baby on the way. lots of packaging from aldi
	May 21 2020 02:20 PM May 21 2020 02:19 PM	for a single householder a smaller recycling bin would be okay Keep up the good work
128	May 21 2020 02:18 PM	more information on how and where to dispose of unwanted electrical goods would be helpful please
129	May 21 2020 02:14 PM	glass to be collected monthly
130	May 21 2020 02:13 PM	no problem with system its just a matter of remembering to put bins out
131	May 21 2020 02:12 PM	a weekly garbage collection would be alot more helpful
132	May 21 2020 02:11 PM	agree with glass collection and happy for service top continue
	May 21 2020 02:09 PM	love the fogo bin
	May 21 2020 02:07 PM	why do you hear only what you want to hear
135	May 21 2020 02:03 PM	very good service
		glass bins are too big, they are very noisy when emptied the glass
136	May 21 2020 02:02 PM	smashes to ih the truck so who seperates the glsas into colours?
137	May 21 2020 02:01 PM	Fogo fantastic, glass collection at night noisy.
		Broken bottles on footpaths around kitkens road and fitzroy road are dangerous with elderly people and walking about and workers from abbatoirs walking after dark. We sometimes pick up, but
	May 21 2020 01:59 PM	should we? Bins not big rather bulky.
139	May 21 2020 01:57 PM	weekly fogo bin please
140	May 21 2020 01:56 PM	both new bins area great initiatives
141	May 21 2020 01:55 PM	alot of bins per household now.Need more depots for bottle deposits like bunnings and centro. council doing well in this matter, keep it up
		garabage to be collected weekly , garbage bin to be same size as
142	May 21 2020 01:50 PM	recycling
143	May 21 2020 01:49 PM	garabge to be collected weekly glass collected monthy
144	May 21 2020 01:48 PM	being invalids we rely o family members to travel here and put our bins out
145	May 21 2020 01:44 PM	don't ue enough glass to fill bin but happy to seperate and continue use as necessary
146	May 21 2020 01:42 PM	would prefere a plastics or paper bin sa we don't really use glass bin

147 May 21 2020 01:40 PM 148 May 21 2020 01:39 PM 149 May 21 2020 01:34 PM 150 May 21 2020 01:33 PM	thankyou for this important initiative to help reduce waste to landfill lucky to fill bin once in 3 months glass bins too big- 3 monthly love my fogo bin	
151 May 21 2020 01:06 PM	only one on the street, never got a purple lid - 54 Hoddle street	
152 May 21 2020 01:00 PM 153 May 21 2020 12:59 PM	glass bin far too big for household, hardly use anything in glass containers little glass rarely put it out	
154 May 21 2020 12:58 PM	I would rather use the glass bank and have our household garbage cleared weekly. It smells and brings in mice	
155 May 21 2020 12:57 PM	rarely use glss most items brought are in plastic containers	
156 May 21 2020 12:51 PM	single person household and very little food comes in glass	
157 May 21 2020 12:49 PM	size of fogo bin too big for elderly to move around	
158 May 21 2020 12:48 PM	glass bins to be collected mothly garbage bins to collected weekly	
159 May 21 2020 12:44 PM	the glass bin should be the same size as the garbage bin. We put glass in garbage bin becase glass bin too small	
160 May 21 2020 12:42 PM	too many bins, too much cost and introduction to trial was shambles.	
161 May 21 2020 12:39 PM 162 May 21 2020 12:37 PM	my bin is a quarter full, happy to take out when full keep up the good work	
163 May 21 2020 12:36 PM 164 May 21 2020 12:33 PM	garbage waster to be collected weekly please - too smelly nand if missed its a whole month great idea collect glass less often	
165 May 21 2020 12:33 PM	collect fogo more often	
166 May 21 2020 12:29 PM	average household collection not needed every two weeks- monthly alternative	
167 May 21 2020 12:28 PM	fabulous system. Rubbish bin too big for fortnightly pickup. we have no children so much less rubbish than a family	
168 May 21 2020 12:25 PM	glass bin only ever a quarter full. Please make red and yellow bins a weekly pickup	
169 May 21 2020 12:24 PM	prefer garbage collection weekly, household with babies, nappies find it difficult in warmer weather.	
170 May 21 2020 12:23 PM	I would prefer the glass bin to be the size of the garbage bin	
171 May 21 2020 12:21 PM	good idea providing the collectors do the right thing	
172 May 21 2020 12:19 PM	glass bins should be optional it will take months to fill	

173 May 21 2020 12:17 PM	glass collection should run every week during covid lockdowns
174 May 21 2020 12:15 PM	monthly glass collection would suit me . great service hope it continues
175 May 21 2020 12:14 PM	the red bin needs to be emptied out once a week it is too small.
176 May 21 2020 12:10 PM	once a month collection for glass bin. 3 x larger size for red bin collection per month
177 May 21 2020 12:07 PM	glass collection at night makes alot of noise, maybe a earlier collection time of 1900
178 May 21 2020 12:05 PM	a good system, but the tip in Koriot street is totally inadequate and is a health hazard
179 May 21 2020 12:03 PM	thank you for recycling
180 May 21 2020 12:02 PM	I would like the garbage bin to be collected weekly
181 May 21 2020 12:01 PM 182 May 21 2020 11:59 AM	will not put out glass bin till half full , one person household use glass bin once a month
183 May 21 2020 11:59 AM	more packaging should return to glass
184 May 21 2020 11:57 AM	very satisfactory
185 May 21 2020 11:56 AM	I could easily manage my glass bin monthly rather than fortnightly
186 May 21 2020 11:55 AM	confusing change over from bins- information could be clearer
187 May 21 2020 11:54 AM	why don't we do what the Dutch do, take glass back to huge bins at supermarkets which sort into colours and all rubbish into huge ovens that hear to enormous centregrade to be burnt , no landfill etc. their land size is only half of Tasmania with a population of 20 million plus
188 May 21 2020 11:50 AM	glass bin is great but the noise being emptied at night is terrible, more suitable hours please
189 May 21 2020 11:47 AM	pick up must be befoer 10pm due to noise
190 May 21 2020 11:47 AM	green waste has been a great addition. Thankyou.
191 May 21 2020 11:45 AM	own compost bin for food scraps
192 May 21 2020 11:45 AM	glass bin way too big. Rubbish bin too small for fortnight collection forcing you to go to transfer station and pay twice- rates and transfer station
193 May 21 2020 11:42 AM 194 May 21 2020 11:40 AM	the combination of FOGO and the garbage with the larger bin is perfect for my needs each two weeks.I use the other bins less often. all is well
104 May 21 2020 11.40 AM	

195 May 21 2020 11:39 AM	glass collections very noisy at night
196 May 21 2020 11:38 AM	to fill the glass bin it would take us 6-9 months
197 May 21 2020 11:36 AM	I use a compost and worm farm system for my food scraps
198 May 21 2020 11:35 AM	I have a compost bin for my food waste. The new garbage bin- red lid is too small as is this comments section.
199 May 21 2020 11:34 AM	For us the normal bin (red lid) was a little too small for fortnightly collection but otherwise no problem. For us, the glass bin (purple lid) was only put out for collection once every month or two.
200 May 21 2020 11:33 AM	More communication with the residents of Warnambool and the size, needs of each household.
201 May 21 2020 11:31 AM	make garbage collection at day time not in the middle of the night
202 May 21 2020 11:30 AM	Fogo needs to be every week - glass every two months
203 May 21 2020 11:28 AM	I don't use many glass containers and bottles
204 May 21 2020 11:27 AM	waste bin is not big enough for a family of four even after seperating rubbish to appropriate bins
205 May 21 2020 11:26 AM 206 May 21 2020 11:19 AM	please no more changes. we struggle for room for all four bins. we also have a worm farm for fresh peels. Have confidence in WCC not elected officials. Awaiting to see the promised price saving need a bigger glass bin
207 May 21 2020 11:19 AM	I don't put meat in fogo due to smell. I don't consume much meat and dairy products
208 May 21 2020 11:16 AM 209 May 21 2020 11:14 AM	we love the four bin system. Thank you size of bin too big for us
210 May 21 2020 11:13 AM	would like garbage bin every week, gets smelly
211 May 21 2020 10:55 AM	Both bins are the best, FOGO - so good.
212 May 21 2020 10:52 AM 213 May 21 2020 10:52 AM	very happy with new collections, great. also compost
214 May 21 2020 10:51 AM	I returned my fogo bin as I have not disposed of green waste in over 12 years.
215 May 21 2020 10:49 AM	If garbage bins are not made larger they should be collected weekly

217	May 21 2020 10:48 AM May 21 2020 10:43 AM May 21 2020 10:40 AM	general waste bin on occassion is too small. Not a good idea especially during summer months- health issue. Warrnambool has many large blocks, more green waste so more frequent collections are neccessary or larger or 2 bings for blocks in excess of 2000 square metres would prefer general rubbish collection for every week Fogo bin could get smelly in hot weather if only collected fortnightly
	May 21 2020 10:38 AM	never received bin
210	1112y 21 2020 10:00 / 111	
220	May 21 2020 10:36 AM	I live by myself, the yellow bin is too big for one person
221	May 21 2020 10:35 AM	Some fresh peels we compost. I use alot of Fogo bags, the biodegrade in freezer so I double bag. Also use heaps to pick up dog poo. Not happy about buying bags in between roll out of bags.
222	May 21 2020 10:32 AM	I don't have alot of glass but I do use my fogo it is really handy.
223	May 21 2020 10:31 AM	waiting to fill bin, use little to none glass products
225	May 21 2020 10:29 AM May 21 2020 10:28 AM	Thank you very happy with our recycling system. We use our glass bin every 2nd collection. We compost veggie waste
	May 21 2020 10:27 AM	great initiative, roll out to rest of residents
228	May 21 2020 10:26 AM May 21 2020 10:25 AM May 21 2020 10:23 AM	only a single person residence We use very little glass. Do not put meat in fogo as it smells and I believe it attracts vermin will take me 12 months to fill glass bin as I live alone.
	May 21 2020 10:21 AM	The fogo green bags are not big enough -make extra work and cost too much. I do use glass just not enough to fill bin for collections. I reuse glass jars for jam,
231	May 21 2020 10:17 AM	Fort fogo bin to be picked up weekly from September to April as we always have too much
	May 21 2020 10:15 AM	we don't hsve much glass for recycling
233	May 19 2020 03:07 PM	Use worm farm for some foodwaste. Would be good to have an optional larger glass bin otherwise its been great.
234	May 19 2020 02:06 PM	only 2 people , box for recycle inside so few trips to bin.
		the garbage bin is way too small, would be better at getting empty
235	May 19 2020 01:56 PM	every week.

236 May 19 2020 01:55 PM	Glass bin monthly instead. new garbage bin could be bigger at times
237 May 19 2020 01:54 PM	Are the lids on glass containers recyclable ? Where should they be put?
238 May 19 2020 01:52 PM	glass bin out every second collection
239 May 19 2020 01:51 PM	put glass bank address in Saturday's noticeboard
240 May 19 2020 01:51 PM	I am grateful for the opportunity to comment
241 May 19 2020 01:50 PM	Food scraps go to our compost and chooks
242 May 19 2020 01:49 PM	user pays system pay for collections gathered
	Fornightly garbage collection has been a challenge with full household particuarly during covid-19. Has been necessary to store waste / share bin with neghbour or visit the tip. Suggest option of larger bin if garbage to remain fortnightly collection. Or weekly collection if same size bin. FOGO is great and household is on board. Glass & recyling fortnightly is good. Great service provided. Be good to trial post Covid-19 to compare usage.
243 May 19 2020 01:47 PM	Thanks
244 May 19 2020 01:46 PM	Glad I could participate. Always willing to take the trouble to improve recycling
245 May 19 2020 01:44 PM	we have very little glass, we also have a worm farm so we give the worms the vegie peelings
246 May 19 2020 01:44 PM	Didn't receive a bin at all, therefore cannot comment - 16 Robert Street
247 May 19 2020 01:42 PM	food scraps go to chickens and compost bin
248 May 19 2020 01:41 PM	As a 6 person family we have to pay extra rubbish removal as our garbage bin is too small.
249 May 19 2020 01:40 PM	Garbage bin ok in size for 2 people. Too small for families with children
250 May 19 2020 01:38 PM	I give my food scraps to the chooks.
251 May 19 2020 01:37 PM	I will use the glass bin when I have glass which is not often.

252 May 19 2020 01:36 PM	I used a glass bank in the Netherlands 30 years ago. Please introduce reverse vending machines for recyclable metal cans before 2050, so we can get money for them. we take glass to glass bank at Woolies, can we have a glass bank at Coles central please, handy for bottles when eating out. As the ex rubbish bin is the glass bin, it is filthy and I heard that you cant put water from it down the drain if you clean it?
253 May 19 2020 01:32 PM	food scraps are fed to out pet chickens
254 May 19 2020 01:31 PM	Haven't enough glass to fill bin yet.
255 May 19 2020 01:27 PM	We the residents are sorting our garbage for you, so how about a rates reduction for us?
256 May 19 2020 01:25 PM	communication was not timely or clear. Lid change over was delayed and ours was not done so doesn't always get collected.
257 May 19 2020 01:23 PM	It will probably take me all year to fill glass bin once
258 May 19 2020 01:22 PM	During summer months could it be collected weekly
259 May 19 2020 01:20 PM	no more bins please. glass bin too big, would only need to put out once every 12 months. green waste mainly lawn clippings
260 May 19 2020 01:19 PM	Do not put food scraps in Fogo, too smelly.
261 May 19 2020 01:18 PM	2 weeks for Fogo is stinky. what about weekly 15 litre bin for Fogo instead.
262 May 19 2020 01:16 PM	Love having a bin for everything, but hard to get males in family to do properly.
263 May 19 2020 01:15 PM	new garbage bins too small for families , reduce amount of packaging would help. Green bags for Fogo really good . A container deposit scheme is way overdue.
264 May 19 2020 01:13 PM	fortnightly landfill waste and fogo collection is not sufficient, prefer weekly.
265 May 19 2020 01:12 PM	new garbage bin smells for a fortnightly collection, every week better. Glass once a month
266 May 19 2020 01:11 PM	more 'plastic ' bins why not employ people to do it.
267 May 19 2020 01:10 PM	we separate glass into the right bin but don't put it out for a little bit.
268 May 19 2020 01:08 PM	The Fogo and glass bins are way too big for persons living on their own

260	May 10 2020 01:06 DM	I am fully in favour of separate glass collection .
209	May 19 2020 01:06 PM	
270	May 19 2020 01:05 PM	collection once a month would be sufficient.
		glass bin too small for a fortnight, would a large glass recycle bin
271	May 19 2020 01:03 PM	at the end of each street be a good idea
		If the government mandated packaging we wouldn't need two bins
	May 19 2020 01:02 PM	, let alone 4
273	May 19 2020 01:00 PM	all good
274	May 19 2020 12:59 PM	general waste bin at times is too small.
075	Mar. 40,0000 40.57 DM	enertides Livet destit here a lat of slave
275	May 19 2020 12:57 PM	great idea I just don't have a lot of glass
276	May 19 2020 12:56 PM	I am sure that I could put my glass in my neighbours bin .
277	May 19 2020 12:55 PM	approve program , bins take up space. Compost most food waste
	May 19 2020 12:51 PM	Love the Fogo bin
270	May 19 2020 12:50 PM	Fogo bin waste of money. Bags break, still need to clean bin.
219	Way 19 2020 12.50 FW	r ogo bir waste of money. Dags break, still need to clean bin.
200	May 10 2020 12:20 PM	The green bin needs to possibly be collected weekly to help maintain neater gardens in the city
200	May 19 2020 12:39 PM	
		unfortunately people don't do the right way cause they don't care?
281	May 19 2020 12:18 PM	what a shame
282	May 19 2020 12:16 PM	great idea to have glass seperate
283	May 19 2020 12:15 PM	central glass collection bin would be more practical
205	May 19 2020 12.13 FW	
		We compost and have a worm farm. we don't need a big rubbish
		bin or swap the glass bin size with the general waste bin, we
	May 19 2020 12:13 PM	sometimes use the neighbours glass bin also.
285	May 19 2020 12:12 PM	use compost bin at home also
		we have a worm farm and neighbours have chooks, so food
286	May 19 2020 12:11 PM	scraps go there instead of FOGO bin .
287	May 19 2020 12:08 PM	all is good, we also use a compost bin
	May 19 2020 12:07 PM May 19 2020 12:07 PM	Household rubbish emptied weekly Fogo bin could be smaller
203	10 2020 12.07 T WI	
		empty recycle and house rubbish weekly. Our bins are overflowing
290	May 19 2020 12:06 PM	and smelly
291	May 19 2020 12:02 PM	I prefer to keep glass jars and use bin for bottles which is not alot.
292	May 19 2020 12:01 PM	garbage bin is too small for a fortnight
	May 19 2020 12:01 PM	Job well done
294	May 19 2020 12:00 PM	fogo bin excellent

295	May 19 2020 11:59 AM	use glass bin every 8 weeks. 3 children with nappies bin gets filled with nappies alone. ensuring manufactures to change from glass to plastic better investment first. Glass banks to make us responsible and accountable. collect bins during the day please.
296	May 19 2020 11:56 AM	monthly collection instead would be best for glass and recycling
297	May 19 2020 11:55 AM	we use glass and FOGO bin every fortnight
298	May 19 2020 11:54 AM	garbage bin not big enough for a family of 5 or more
299	May 19 2020 11:53 AM	glass bin has two bottles in it since receiving
301	May 19 2020 11:52 AM May 19 2020 11:51 AM May 19 2020 11:45 AM	used bin once but agree with having the bin as part of waste collection also have my own compost bin glass bins collect once a month
304 305	May 19 2020 11:44 AM May 19 2020 11:43 AM May 19 2020 11:41 AM May 19 2020 11:41 AM	I think family households with children would need more frequent garbage collections Hoodle st Warmambool waste bin too small for 2 weeks I use a compost bin
307	May 19 2020 11:40 AM	It is a good idea. Perhaps have a bigger communal bin per block
308	May 19 2020 11:36 AM	glass collection quarterly. Not much comes in glass 2020.
309	May 19 2020 11:35 AM	could be every second collection. Not enough fogo bin liners provided. Need to seperate coloured glass.
310	May 19 2020 11:34 AM	Do use the bin, just don't have enough to fill. My fogo gets used , but I also have a compost bin
311	May 19 2020 11:31 AM	we don't use much with glass , it is useless, happy to use the ones at safeway
	May 19 2020 11:30 AM	continual education is important I think
313	May 19 2020 11:29 AM	Its a brilliant way for a community to take responsibility for eliminating and recycling waste as much as possible. Lets move to authentic recycling of paper and plastic too. Thank you.
	May 19 2020 11:27 AM May 19 2020 11:26 AM	It's a positive thing. Glass bin would be too heavy if full.
	May 19 2020 11:25 AM	we use the glass bin but only have a few objects in there at the moment.
317	May 19 2020 11:24 AM	I would like a soft plastics bin as well.

318	May 19 2020 11:23 AM	I am 90 years old and putting foo waste into fogo is hard to do.	
319	May 19 2020 11:21 AM	the collection calendar is essential. Very easy to mix up which bin night is which	
320	May 19 2020 11:19 AM	Fogo bin every week. Glass bin once a month	
321	May 19 2020 11:18 AM	I have a mulcher but use fogo for bigger stuff. Go for it , glass bin is great.	
322	May 19 2020 11:17 AM	don't have enough glass for the big bin	
323	May 19 2020 11:15 AM	garbage bin is far too small for a fortnightly collection and contents smelly after a fortnight.	
	May 19 2020 11:14 AM May 19 2020 11:13 AM	never changed lid on glass bin, doesn't get picked up. All good	
326	i May 19 2020 11:12 AM	monthly glass collection as not filling bin at all, most containers are plastic. Fogo used for weeds , compost rest	
327	, May 19 2020 11:08 AM	We put the glass bin out each collection but there is usually not much in it maybe collect monthly.	
		I love recycling and composting . I made enquires about disposal of video tapes and was told everything was going to land fill. Is this	
328	May 19 2020 11:07 AM	so?	
	May 19 2020 11:07 AM May 19 2020 11:07 AM		
329		so?	
329 330 331 332	May 19 2020 11:07 AM	so? Happy with all bins especially fogo	
329 330 331 332 333	May 19 2020 11:07 AM May 19 2020 11:02 AM May 19 2020 11:00 AM May 19 2020 10:58 AM	so? Happy with all bins especially fogo weekly garbage collection please FOGO and recycling we put out each fortnight, general rubbish ( never full) and glass ( never full) probably once a month. Well done WCC	
329 330 331 332 333	May 19 2020 11:07 AM May 19 2020 11:02 AM May 19 2020 11:00 AM May 19 2020 10:58 AM May 19 2020 10:58 AM	so? Happy with all bins especially fogo weekly garbage collection please FOGO and recycling we put out each fortnight, general rubbish ( never full) and glass ( never full) probably once a month. Well done WCC Keep up the good work.	
329 330 331 332 333 334	May 19 2020 11:07 AM May 19 2020 11:02 AM May 19 2020 11:00 AM May 19 2020 10:58 AM May 19 2020 10:58 AM May 19 2020 10:53 AM	so? Happy with all bins especially fogo weekly garbage collection please FOGO and recycling we put out each fortnight, general rubbish ( never full) and glass ( never full) probably once a month. Well done WCC Keep up the good work. fruit and peelings we place in worm farm and compost glass bin - vaguely, some time ago. I have bagged my food waste for 45 years into freezer and put in with garbage bags on a daily basis so this is not a new concept. I tried using compostable bags but impossible to tie them off. I was double bagging to allow for extra length. found it impossible and after a month of trying found

I was double bagging to allow for extra length. found it impossible and after a month of trying found it to be a functional impossibility.	

340 May 19 2020 10:41 AM	I compost most of my food scraps. I live on my own so it will take about 12 months before I fill it, but it is a good idea.
341 May 19 2020 10:37 AM	Don't use fogo for food scraps we have a compost bin. Yellow bin - recycling what number "2" items are allowed in this bin - 0458622864
342 May 10 2020 10:35 AM	The fogo stinks after sitting for 2 weeks full of food scraps. I would like to see FOGO collected weekly or at least alternate week to general waste . Weekly general rubbish and monthly glass would be good.
342 May 19 2020 10:35 AM	
343 May 19 2020 10:33 AM	could not get survey online at this address
344 May 19 2020 10:31 AM	very little glass containers used , don't use this but it is a good idea. Fogo bin - food gets smelly if only collected every 2 weeeks
345 May 19 2020 10:27 AM	Thank you
346 May 19 2020 10:21 AM	love all the bins especially the big green waste bin. well needed.
	We seldom have glass in our house. The bin is really not much
247 May 17 2020 00-20 AM	use to us. Also, our fortnightly collection of our red rubbish bin is proving quite challenging. We use our green waste and recycling bins effectively. Our red bin is always bursting by collection date. We usually have one or two rubbish bags that do not fit!
347 May 17 2020 09:39 AM	Think it's great. We are big users of fogo so ran out of bin liners
348 May 16 2020 04:12 PM	quickly.
349 May 15 2020 04:58 PM	a monthly collection with three garbage collections would likely be more effective for managing my waste. 80 litres of glass a fortnight is a significant amount for most households and really is inefficient as compared to managing waste.
350 May 13 2020 09:25 PM	Having come from a council that does not do this I am very impressed this council is using this service. Well done and hope it continues.
351 May 13 2020 09:15 PM	We are diligent with our bins but are not putting a whole lot into the glass bin and are yet to actually take it out for collection.

	I understand the importance of glass separation re: contamination to other recycling processes.
	However problems exist in current process; - The bins are way too big. - Pick ups are way too often.
	Agree with using old bin as Glass bin. Great to reuse. Not worth cost of new bins for glass. With that in mind with bin being huge, it would be great to move to monthly pick up for glass. Further cost savings for ratepayer and for those with glass overflowing, set up community drop off point.
	The biggest issue not being discussed in survey is the NOISE! Can we do something about the noise please! It is like a groundhog day car crash that goes all night!
352 May 13 2020 10.47 AM	Should you wish to discuss further Phil - 0422791106 - East W'bool.
353 May 13 2020 10:35 AM	Welcomed the introduction of the glass recycling trial and would hope it remains
354 May 12 2020 01:39 PM 355 May 11 2020 08:45 PM	The red bin is not big enough and we are now finding we require a tip run on the fortnight our red bin does not get emptied now that it has swapped to fortnightly pickup Nope
555 May 11 2020 06.45 FW	Nope
356 May 11 2020 07:02 PM	My preference would be to be recycling glass on a monthly basis and reverting to the rubbish bin being place out weekly, as oppose to fortnightly in this trial.
357 May 11 2020 05:54 PM	No
358 May 11 2020 10:45 AM	The new red bin which replaced the old red bin is now only collected fortnightly. This is insufficient for many households and leads to overflowing bins that cause rubbish to collect in the street or neighbours front yards/driveways. Possibly inadequate in summer as well due to smells.
359 May 09 2020 01:28 PM	The normal garbage bins, RED LID, need to be taken WEEKLY not fortnightly. It is not enough fortnightly!

360	May 09 2020 10:24 AM	Please bring general waste collection back to weekly. The red lid bin is too small for a family of 3 to be collected fortnightly and regularly overflows
	May 08 2020 08:00 PM May 08 2020 05:56 PM	Great initiative, thank you! Last few collections the glass trucks were out early in the evening, which was great as the noise didn't bother us then. Good idea - we like it :)
363	May 08 2020 09:16 AM	Bin is to big. I am having trouble storing four bins in my small space as i live in a townhouse
	May 07 2020 02:50 PM May 07 2020 09:10 AM	Large green lid FOGO bin requires regular cleaning to get rid out the foul odour, fortnightly collection possibly too infrequent.
366	May 06 2020 10:18 PM	It was great, but very noisy when bins were being emptied.
367	May 06 2020 03:03 PM	We place all glass in the bin. The amount of waste glass that we generate results in a full bin every 6 weeks.
368	May 06 2020 01:04 PM	<ol> <li>We strongly support anything that helps recycling efficiency, saving the earth and saving money.</li> <li>While our yard is large enough, there are many yards in Warmambool that aren't. I think that people should be able to opt out, and be encouraged take their glass to a depot/ glass bank eg.</li> <li>Our purple lid took several weeks longer (plus a phone call) than our neighbour's to arrive. Not a problem, just letting you know.</li> </ol>
	May 06 2020 10:49 AM May 05 2020 09:18 PM	Monthly collection of glass would be sufficient as we have only put our glass bin out once since the trial commenced. We would prefer household garbage to return weekly. No
371	May 05 2020 08:02 PM	Smaller bins for recycling and garbage,for smaller household (unite dwellers)
372	May 05 2020 06:47 PM	We do use it, but we never fill the bin, maybe a pick up every 4 weeks instead if that would create a good saving?
373	May 05 2020 06:44 PM	Glass collection could be done every 3- 4 weeks.
	May 05 2020 06:42 PM May 05 2020 05:10 PM	It is really good and has reduced our recycling bin significantly. no plain and simple

376 May 05 2020 04:28 PM	Only put it out monthly. Love the FOGO system. The change over was not very smooth as reported in paper. Our rubbish bin had to be left on nature strip for a month to get new lid.
377 May 05 2020 03:37 PM 378 May 05 2020 02:15 PM	I believe we need to follow what Moyne Shire are doing. Glass collection monthly, garbage colllection weekly and recycling/FOGO as is on fornightly alternating. No thanks.
	The glass bin is about the right size, but would prefer it to be
	bigger and landfill bin smaller. The info sent out was good - we weren't aware until then that recycling needs to be rinsed here, or that lids shouldn't be on bottles (we thought as long as they went in same bin they could stay on). Future tips and reminders would be good, also prompts for people to recycle their soft plastics at the supermarket, we've been doing this for a few years now and if more people did it, they'd find they have a lot more space in their bin.
379 May 05 2020 08:00 AM	Would like to see more emphasis on recycling, and more innovations, lots of people do not do the right thing and so many are still under the impression that their efforts would be wasted and it will all go into landfill anyway. More education about where it goes and the impacts of doing the right thing vs wrong thing in the community would be really good.
579 May 05 2020 06.00 AM	
380 May 04 2020 07:11 PM 381 May 04 2020 07:05 PM	These questions are totally different to the questions on the flyer sent to us by Warrnambool City Council. I will still send in my paper response for that reason. I did think I would save my council a return postage fee.

		I don't use very much glass. In the whole time so far I have only
		taken the glass bin out to the curb once, and it was half full. So 40L or so of glass collected in that whole several months period.
		And about a third of that was glass that I noticed in someone
		else's landfill bin and took to put in my glass bin !
		Also, the bigger general rubbish bin being collected fortnightly I
		actually preferred over the small bin weekly. Since I don't generate
		the same amount of waste every week, the bigger bin fortnightly is
	May 04 2020 05:45 PM May 04 2020 04:22 PM	an advantage. No
303	May 04 2020 04.22 PM	
204	May 04 2020 02:55 DM	Our general waste bin is overflowing every time. It's not big
384	May 04 2020 02:55 PM	enough for a family and fortnightly collection
		For a single occupied house, I don't get a lot of glass. I won't fill
	May 04 2020 02:44 PM	the current bin in 6 months.
386	May 04 2020 02:06 PM	Great job, thanks for doing this.
		We use the bin infrequently as we do not have a lot of glass.
	May 04 2020 12:45 PM	sometimes we keep the glass for our own purposes.
	May 04 2020 11:36 AM May 04 2020 10:59 AM	We think it's a great initiative.
	May 03 2020 06:23 PM	Great initiative
		The track him should be collected weakly an pat forthightly our
391	May 03 2020 12:39 PM	The trash bins should be collected weekly an not fortnightly our trash bin is already full to the top.
		havent put it aut vat as we dont use along much as a fair waste of
392	May 03 2020 10:16 AM	havent put it out yet as we dont use glass much so a fair waste of time and money for fortnightly pickup WCC
	May 02 2020 09:45 AM	no
		General rubbish needs to be collected weekly.
394	May 01 2020 08:02 PM	Fortnightly is not working for a standard family of 4.
395	Apr 22 2020 02:29 PM	I love it
	Apr 22 2020 02:28 PM	Love it.
Monthly glass Weekly FOGO	collection (& don't have much gla - 16	SS) - 89
Love FOGO -	19	Positive comments generally about the system -

Love FOGO - 19 Positive comments generally about the system -Weekly garbage ( or bigger bin. Overflowing, smell, not big enough for family of 4 +) - 68 Haven't got a purple lidded bin - 9 I home compost / worm farm - 25 Too many bins (don't have room) - 14 Too noisy / change collection time - 18 Communication could have been better - 13 Education questions - 14 General bin size suggestions, inlcuding more options for residents, opt out and user pays - 20 Glass & Recycling Banks - 12 Communication material was good - 2 Keep glass for ourselves - General FOGO (smelly / vermin) - 9 FOGO bags (not enough or break) - 5 Negatives - 10

# 5.11. CITY CENTRE CAR PARKING COVID-19 RESPONSE

# PURPOSE:

# This report seeks further direction from Council in relation to the free parking period applied to the CBD in response to COVID-19.

# EXECUTIVE SUMMARY

- At a Committee of the Whole Meeting on 23 March 2020, Council resolved to initiate free parking in the CBD until 14 April 2020 in response to the Covid-19 pandemic.
- The 23 March 2020 resolution was made following a request by the Mayor for advice from officers in relation to free parking options as a response to the Covid-19 pandemic, in support of CBD retailers and businesses.
- At its 8 April 2020 Special Meeting, Council further resolved; that Council continue with free parking in the CBD based on relevant time limits until 30 June 2020.
- At its 1 June 2020 Ordinary Meeting Council resolved that it continue with free parking in the CBD based on the relevant signed time limits until 10 July 2020.
- Council has now requested that a further report on car parking be brought to the 6 July Ordinary Meeting.
- Council officers have been patrolling and enforcing time limits in the CBD, however these patrols are much more resource intensive and cannot be done as quickly as those undertaken in a metered environment.
- It is difficult to maintain a strong enforcement regime in a free parking environment unless general revenue is diverted to fund the local laws program.
- The resolution provided in this report will effectively provide free short term parking in off street car parks before 11:00am each weekday.

# RECOMMENDATION

That Council:

- Having noted the increasing demands for car parking in the CBD and having considered the recent increase in complaints related to overstays, direct that the 2 Hour Parking Zones in the Ozone Off Street Car Park, Cramond and Dickson Off Street Car Park, and Parkers Off Street Car Park be converted to 2P Meter Parking from 11:00am – 5:30pm Monday to Friday.
- 2. Return the Ozone Off Street Car Park, Cramond and Dickson Off Street Car Park, and the Parkers Off Street Car Parking areas to pre Covid-19 parking conditions after 31 January 2021.
- 3. Extend the CBD wide free parking response from 10 July 2020 to 18 July 2020.
- 4. Reinstate paid parking (meter) in the CBD from 20 July 2020.
- 5. Direct that officers negotiate for similar parking arrangements, to those detailed in Part 1 of the resolution, to occur in the privately owned Coles Younger parking area.
- 6. Direct that a media campaign advising of the return of paid parking (meter) commence immediately.

# BACKGROUND

Prior to the 23 March 2020 Committee of the Whole meeting, the Mayor sought advice from the CEO in relation to free parking options for the CBD as a response to the Covid-19 pandemic.

At the meeting of the 23 March 2020, Council resolved to provide free parking in the CBD based on the relevant existing signed limits

This resolution was enacted on the day following the Council meeting when parking in the CBD became free.

At its 8 April 2020 Special Meeting, Council further resolved: '*that Council continue with free parking in the CBD based on relevant time limits until 30 June 2020*'.

At its 1 June 2020 Ordinary Meeting Council resolved that it continue with free parking in the CBD based on the relevant signed time limits until 10 July 2020. The intent of this extension was to provide adequate time for Council to assess the parking and demand impacts resulting from Covid-19.

# ISSUES

Council's smarter parking meters which became operational in December 2018 have allowed it to accurately track the number of parking sessions created each day, the duration of stay and a range of other metrics.

Data extracted over the period January 2018 to and inclusive of March 2020 shows that up to 5,900 parking sessions are now regularly occurring in the Central Activities Area each day. A summary of this data is provided as Attachment 1. The interpretation of this data should be read in context of the period in which they occurred as some months and particularly December and April are commonly affected adversely by the number of public holidays that occur. On public holidays parking is free and therefore this can result in a reduced car park count when averaged across the month.

Of the 5,900 parking sessions created each day approximately 8-10% of these are all day parking sessions.

Car parking payment data, as shown in the following graph, shows that cash sessions have reduced dramatically since December 2017. However, most significantly app payments are now almost equal to cash payments by value. The trend data does show a higher use of the app during the cooler winter and early spring months, and a strong cash payment method during holiday periods.

One of the fundamental propositions around metered parking is the need to ensure that turnover exists in retail precincts ensuring that customers are provided parking opportunities near their desired destination.

Parking regimes do exist where parking turnover is controlled through parking restrictions alone, however these are managed through a heavy compliance and infrastructure regime. Many modern parking systems now also include parking sensors in individual bays to monitor duration of stay and as the basis for compliance activities, however these were avoided in Warrnambool due to the capital and ongoing licensing costs.

The Warrnambool parking system is designed to return revenue generated through parking meters to fund Local Laws operations and renewal of City Centre infrastructure through the car parking reserve. Over the next 10 years a significant number of Central Activities Area footpaths are scheduled for renewal and without this revenue these replacements will be delayed.

A 2016 study by O'Brien Traffic and SGS Economics into Geelong's parking (Geelong City Council Agenda 28 March 2017) found in relation to the Economics of On-Street Parking Pricing and Management that:

On-street parking in large commercial centres is a scarce resource. To the extent that demand exceeds supply price is used to encourage efficient use of the resource. In the Geelong CAA Council has sought to balance supply and demand using a combination of paid on-street parking, maximum time limits, selected areas with 'all day' paid parking, and resident parking permit areas. Paid parking in particular encourages more frequent turn-over of well-located parking spaces and provides revenue to Council to operate and maintain the parking facilities. Revenues might also be used by Council to fund other traffic and transport demand management programs.

A significant literate has emerged in recent decades addressing the issues and challenges associated with the provision of free parking in cities. Free parking is never truly free: there are costs associated with the operation and maintenance of parking spaces that fall to the general community (via rates and taxes); and, more significantly, there is an opportunity costs associated with the use of urban land for parking. The conclusions drawn in the Geelong example highlight some of the complexities around parking management and the need for careful consideration of parking controls.

A number of these have been evidenced during the Covid-19 free parking period with numerous complaints received from traders about 'overstays'. This has resulted in complaints that Council are not enforcing time limits. This preface is however incorrect, and Council is undertaking enforcement activity.

The underlying problem with enforcement of free parking is that it is much more resource intensive as it takes longer to establish the infringement and it is more difficult enforce. It also creates a funding conundrum because a heavy enforcement program relies on revenue being generated, however a heavy enforcement program will see compliance improve for a period of time and revenue reduce. Therefore, to maintain a heavy enforcement program a subsidy is often required from general revenue (rates) which will consequently require a rate rise or a reduction in service provision in another area.

A mechanism to encourage patronage in the CBD that is available to Council, is to provide free parking during periods which are generally known to have low occupancy. This approach provides an opportunity for the CBD to become activated across a longer time period. Historically the 2P zones in the off-street car parking areas are not heavily utilised in the early morning periods and amendment of the meter and time limited period commencement from 9:00am to 11:00am could encourage greater utilisation in the morning periods.

# FINANCIAL IMPACT

As part of any change to parking conditions Council could incur costs to alter signage, costs associated with meter reprograming, and costs associated with lost meter revenue.

Pre Covid-19 Council previously generated between \$120,000 and \$170,000 per month from parking revenue.

Car Parking revenue generated through parking meters is used to fund Local Laws operations, renewal of City Centre footpaths and infrastructure, purchase of additional car parking areas, and maintenance and renewal of off street car parking areas.

Approximately 30% or \$350,000 of revenue from Parking Meters is allocated to the parking reserve and a rate levy generates a further \$160,000.

The following table details the estimated costs of providing free parking in the Ozone and Parkers Off Street Car Parking Areas during pervious free parking periods. The table has assumed an 85% occupancy factor which is consistent with that observed during free parking trials and only assesses the occupancy over a temporal profile period of 4.5 hours out of the total 8.5 hours that parking is available. The table assumes absorption from surrounding on-street locations.

Location	Spaces	Occupancy Factor	Temporal Profile Allowance (hrs)	Profile Allowance	
Ozone	146	0.85	4.5	\$1.40	\$203,275
Parkers	103	0.85	4.5	\$1.40	\$143,406

Based on this assessment the last free parking business support package provided in the Ozone Off Street Car Park during the Zone 3 City Centre Renewal Works conservatively reduce the Parking Management Program by \$135,517 (approx 5 months).

Any free car parking proposal would need to be managed through Council's budget. This could potentially impact Council's proposal to relocate the Central Bus Interchange, the upgrade of accessible parking bays, renewal of CBD footpaths or any other service.

The above calculations can be used to determine any proposed car parking reduction once the number of spaces is determined.

It is very difficult to establish the financial impact of the proposed recommendation as it is not known to what effect parking habits will change as a result of the proposal. The financial impacts will be reported to Council on a monthly basis so that it can continue to assess and respond to the circumstances that eventuate.

# LEGISLATION/POLICY/COUNCIL PLAN CONTEXT

This report responds to the following Council Plan initiatives:

## 3 Maintain and improve the physical places and visual appeal of the City

3.1 Enhance movement in and around the city including better connections for cyclists and pedestrians

3.2 Create a more vibrant City through activating high quality public places.

# 4 Develop a smarter economy with diverse and sustainable employment

4.2 Encourage more sustainable local business.

# 5 Practice good governance through openness and accountability while balancing aspirations with sound financial management

5.3 Ensure financial sustainability through effective use of Council's resources and assets and prudent management of risk

# TIMING

Advice from Council prior to the conclusion of current arrangements will provide officers with the necessary time to communicate any decisions and to implement any necessary system changes.

# **COMMUNITY IMPACT/CONSULTATION**

Council is currently developing a car parking strategy which has involved a public consultation process.

No consultation has occurred in relation to this proposal.

#### LEGAL RISK/IMPACT

There is a significant risk that hasty decisions in relation to parking could create unexpected issues or place Council into financial difficulty.

# **OFFICERS' DECLARATION OF INTEREST**

No Officer involved in the preparation of this report has declared a conflict of interest.

# CONCLUSION

Council needs to provide updated direction in relation to its Covid-19 car parking response plan.

# 5.12. LOCAL ROAD & COMMUNITY INFRASTRUCTURE PROGRAM

# PURPOSE:

This report provides Council with details on the recently announced Local Road and Community Infrastructure Program.

## EXECUTIVE SUMMARY

- On 22 May the federal government announced a new \$500 million Local Road and Community Infrastructure Program and the bringing forward of \$1.3 billion of the 2020-21 Financial Assistance Grant payments.
- A copy of the program guidelines are provided as **Attachment 1**.
- Warrnambool City Council has been allocated \$425,024 through the program.
- Council now needs to consider what appropriate projects it has for the program.
- The purpose of this report is to select a priority project which can be put forward for funding through the program.

## RECOMMENDATION

That Council note the list of eligible projects contained in this report and confirms its priority project as the Lake Pertobe Stage 2 Car Parking Area.

## BACKGROUND

On 22 May the federal government announced a new \$500 million Local Road and Community Infrastructure Program and the bringing forward of \$1.3 billion of the 2020-21 Financial Assistance Grant payments.

#### ISSUES

Funding is available for local road and community infrastructure projects that involve the construction, maintenance and/or improvements to council-owned assets (including natural assets) that are generally accessible to the public.

Projects will need to deliver benefits to the community, such as improved accessibility, visual amenity and safety benefits.

Eligible local road projects could include works involving any of the following associated with a road:

- traffic signs
- traffic control equipment
- street lighting equipment
- a bridge or tunnel
- a facility off the road used by heavy vehicles in connection with travel on the road (for example, a rest area or weigh station)
- facilities off the road that support the visitor economy
- road and sidewalk maintenance, where additional to normal capital works schedules.

Eligible community infrastructure projects could include works involving:

- Closed Circuit TV (CCTV)
- bicycle and walking paths
- painting or improvements to community facilities
- repairing and replacing fencing
- improved accessibility of community facilities and areas
- landscaping improvements, such as tree planting and beautification of roundabouts
- picnic shelters or barbeque facilities at community parks
- playgrounds and skateparks (including all ability playgrounds)
- noise and vibration mitigation measures
- off-road car parks (such as those at sporting grounds or parks).

Councils will need to complete all project works by 30 June 2021 to receive their full nominal share of funding.

Councils will also need to demonstrate that projects are additional to their pre-COVID-19 work program for 2020-21. If a project has been brought forward from a future work program it will be eligible for funding.

Project Title	Status	Cost Estimate	Eligibility	30 June Completion	Additional to 2020/2021
Immunisation	Schematic	\$600,000	Improved	Challenging	Yes
Room/Clinic	Design		Community		
			Facility		
Lake Pertobe Stage	Documentation	\$500,000	Off Road Car	Yes	Yes
2 Car Parking Area			Park		
Beach Access	Concept	\$180,000 each	Improved	Challenging	Yes
Upgrades	•		accessibility		
Dog Pound Upgrade	Documentation	Stage 1:	Improved	Challenging	Yes
Stage 1		\$500k, Total	Community		
		Project \$900k	Facility		

# FINANCIAL IMPACT

Council's share of funding has been calculated in a similar way to how the Roads to Recovery Program and the road component of the Financial Assistance Grants works. This formula takes into consideration road length and population and is based on recommendations of Local Government Grants Commissions.

# LEGISLATION / POLICY / COUNCIL PLAN CONTEXT

This report responds to the following Council Plan initiatives:

# 3 Maintain and improve the physical places and visual appeal of the City

- 3.3 Build Infrastructure that best meets current and future community needs.
- 3.4 Maintain and enhance existing Council infrastructure

# 5 Practice good governance through openness and accountability while balancing aspirations with sound financial management

5.1 Provision of opportunities for the community to actively participate in Council's decision-making through effective promotion, communication and engagement

5.3 Ensure financial sustainability through effective use of Council's resources and assets and prudent management of risk

# TIMING

Council is required to complete all project works by 30 June 2021.

# **OFFICERS' DECLARATION OF INTEREST**

No officer involved in the preparation of this report has declared a conflict of interest.

## CONCLUSION

Council should prioritise projects for delivery under this program which are well advanced and can be delivered in a short timeframe.

#### Australian Government

Department of Infrastructure, Transport, Regional Development and Communications

# Local Roads and Community Infrastructure Program

As the closest tier of government to the community, local governments have a critical role in delivering vital services and ensuring the quality of life for communities across Australia. Local governments are now also playing a key role in protecting the community from the impacts of COVID-19.

The Australian Government has committed \$500 million to the Local Road and Community Infrastructure Program (LRCI Program) to support jobs, businesses and the resilience of local economies.

From 1 July 2020, councils will be able to access funding to support delivery of priority local road and community infrastructure projects.

# Who will receive funding?

All local councils will be eligible for funding under the LRCI Program.

State governments and the shires of Christmas Island, Cocos (Keeling) Islands and Norfolk Island and the Lord Howe Island Board that deliver council services to unincorporated areas in their jurisdiction will also be eligible for funding.

In addition, the Northern Territory Government will be eligible for funding for roads in areas which until 2008 were unincorporated and for which responsibility has not been transferred to relevant councils.

# How much funding will each council receive?

Each council will receive a share of funding under the Local Roads and Community Infrastructure Program (see *Local Roads and Community Infrastructure Program: Funding Allocations*).

A council's share of funding has been calculated in a similar way to how the Roads to Recovery Program and the road component of the Financial Assistance Grants works. This formula takes into consideration road length and population and is based on recommendations of Local Government Grants Commissions.

# How can councils apply for funding?

Councils will be able to select the projects to be funded in their community according to priorities at the local level.

Similar to the Roads to Recovery Program, councils will need to submit a Work Schedule that outlines the project(s) they plan to undertake.

As long as these projects are eligible local road or community infrastructure projects, they will receive funding.

# What projects will be eligible for funding?

Funding is available for local road and community infrastructure projects that involve the construction, maintenance and/or improvements to council-owned assets (including natural assets) that are generally accessible to the public.

Projects will need to deliver benefits to the community, such as improved accessibility, visual amenity and safety benefits.

Eligible local road projects could include works involving any of the following associated with a road:

- traffic signs;
- traffic control equipment;
- street lighting equipment;
- a bridge or tunnel;
- a facility off the road used by heavy vehicles in connection with travel on the road (for example, a rest area or weigh station);
- facilities off the road that support the visitor economy; and
- road and sidewalk maintenance, where additional to normal capital works schedules.

Eligible community infrastructure projects could include works involving:

- Closed Circuit TV (CCTV);
- bicycle and walking paths;
- painting or improvements to community facilities;
- repairing and replacing fencing;
- improved accessibility of community facilities and areas;
- landscaping improvements, such as tree planting and beautification of roundabouts;
- picnic shelters or barbeque facilities at community parks;
- playgrounds and skateparks (including all ability playgrounds);
- noise and vibration mitigation measures; and
- off-road car parks (such as those at sporting grounds or parks).

# When will funding be available?

Funding will be available from 1 July 2020.

# Are there any conditions that apply to funding?

Councils will need to complete all project works by 30 June 2021 to receive their full nominal share of funding.

Councils will also need to demonstrate that projects are additional to their pre-COVID-19 work program for 2020-21. If a project has been brought forward from a future work program it will be eligible for funding.

Additional conditions, such as signage requirements, will be outlined in program guidelines, which are currently being finalised.

# What are the next steps?

The Department of Infrastructure, Transport, Regional Development and Communications will be consulting with local government organisations to finalise implementation arrangements for the LRCI Program.

Councils will then be asked to agree to the program arrangements and identify local projects in their area.

# 5.13. REID OVAL REDEVELOPMENT - PROCUREMENT FOR CONSTRUCTION

# PURPOSE:

# This report is provided to confirm support and endorsement for the procurement method associated with the construction of the Reid Oval Redevelopment project.

# EXECUTIVE SUMMARY

- The Reid Oval Redevelopment project includes the construction of a new pavilion, reconstruction of the sporting oval, improvements to the training area, installation of 200lux sports field lighting, upgrade of cricket training nets and improvements to spectator areas.
- Brand Architects were engaged in September 2019 to undertake detailed design and documentation for the Reid Oval Redevelopment project.
- The project has been designed to a budget of \$10.78 million, of which \$10.2 million of funding is confirmed.
- Detailed design has been completed, and documentation for tendering is being finalised, with the aim to advertise tenders on 20 June 2020.
- The tender period and evaluation process will be carried out in line with Council's Procurement Policy, with a recommendation for contract award programmed to go to Council for consideration at the September Ordinary Council meeting.

# RECOMMENDATION

That Council note that the construction tender for the Reid Oval Redevelopment Project, is being conducted as a select tender process which has sought submissions from selected contractors that are pre-registered with the Department of Treasury and Finance.

# BACKGROUND

The Reid Oval Redevelopment project is a high priority within Council and across the Great South Coast region as it aims to provide a regionally significant sports facility through the upgrade and improvements to the current change room facilities, sports oval playing surface, provision of 200 lux sports ground lighting, upgrade cricket training nets and improved spectator amenity.

The project has received significant support from the State Government and Cricket Victoria via project funding, with the total project budget being \$10.72 million.

Brand Architects were engaged to complete detailed design and documentation, including specifications and tender documents, for the construction of all aspects of this project.

The procurement process for the seeking of tender submissions has been reviewed and the project team is seeking confirmation and endorsement from the Executive Management Team to undertake a selective invite tendering process for the construction. The benefits to implementing this process is the is certainty that tender submissions will be provided by suitably experienced construction companies that have the resources and skills to complete all component of the works, and it will ensure the evaluation process is streamlined.

# ISSUES

There are three main options that are available relating to the tendering process for the Reid Oval Redevelopment project being;

- Open tender. This is the traditional method for tendering of projects, where the tender is publicly advertised, and any person or company can lodge a tender submission.
- Expression of Interest and then selective tender by invite. This is a two-step procurement method that enables Council to seek public interest in the project and short list companies based on criteria generally associated with capacity to complete the works, experience in completing like projects, appropriate skills and expertise and past performance. Companies and contractors that are shortlisted are then invited to submit a tender price for the construction works via a closed tendering process. This means that only contractors that have been short listed are invited to submit a tender price. The tenders submitted are then evaluated as per the normal evaluation process.
- Closed or selective tender by invite. This method is available to Council via the use of the ministerial exemptions and enable Council to bypass seeking Expressions of Interest. The benefit to this is the procurement time for projects is reduced by a minimum of 6 weeks.

For large complex projects like Reid Oval that incorporate a number of specialist components to deliver the project, it is not uncommon to seek tender submissions from a selected list of contractors that have the required skills and experience. The reasoning is to reduce the complexity and time taken to evaluate submissions if an open tender process is used, as the range of tender evaluation criteria required needs to be complex and extensive to ensure the right contractor is selected.

By Council utilising the option of a selective tender process, which is available via the ministerial exemptions, it enables Council to significantly reduce the procurement time, without compromising the quality of tender submissions that are received.

Due to the tight timeframes that have been in place with this project, the ability for Council to move to the market with an Expression of Interest prior to the construction tender was not a viable option. This is mainly due to the short timeframe between the completion of the detailed design and the upcoming Council elections that impose a caretaker period for a 6-week period prior to the election occurring.

The Construction Supplier Register is a register that is managed by the State Government where all businesses are able to pre-register for construction works within the public sector. As part of the pre-registration process they are required to prove they have the experience, skills and expertise to undertake large scale commercial building projects within the public sector.

There are two (2) local Warrnambool based businesses that are currently registered for new commercial buildings being BDH Constructions and Bolden Constructions. Bolden Constructions has indicated that it did not want to be included in the selective tender process.

Other contractors that recommended to Council by the design team include and which have also been selected include:

- Rendine Constructions Pty Ltd (Geelong)
- Fairbrother Pty Ltd
- AW Nicholson Pty Ltd
- Melbcon Pty Ltd
- Lloyd Group Pty Ltd
- Hutchinsons Builders (Geelong)

It is considered a very reasonable cross-section to invite these contractors to tender, which would provide up to seven contractors to evaluate.

There is also a suggestion that an expeditious procurement process will allow us to get to market prior to any stimulus package potentially distorting the marketplace.

# FINANCIAL IMPACT

There is no financial impact by implementing a selective invite tendering process to the project. It is noted, that if the requirement is to undertake an open tendering process, there is risk that the evaluation of submissions will become protracted and important project deadlines are not able to be achieved.

# LEGISLATION / POLICY / COUNCIL PLAN CONTEXT

This report responds to the following Council plan initiatives:

# 2 Foster a healthy welcoming City that is socially and culturally rich

- 2.1 Promote healthy lifestyles
- 2.2 Increase participation, connection, equity, access and inclusion
- 2.4 Encourage and support participation in sport, recreation and physical activity.
- 2.8 Increase participation opportunities for disadvantaged members of the community.

# 3 Maintain and improve the physical places and visual appeal of the City

3.3 Build Infrastructure that best meets current and future community needs.

# 5 Practice good governance through openness and accountability while balancing aspirations with sound financial management

5.3 Ensure financial sustainability through effective use of Council's resources and assets and prudent management of risk

# TIMING

There are no changes with timing for the tendering process to undertake selective invite tendering process.

# **COMMUNITY IMPACT / CONSULTATION**

No community consultation has been undertaken, nor is it reasonable as this is a tendering process matter to be considered.

# LEGAL RISK / IMPACT

The option for Council to invite selected companies to tender, via a closed tendering process, is available within the Procurement Policy and within the Local Government Act 1989.

The method that is recommended is supported by the Exemptions from tender requirements via Ministerial approvals, which among others include;

# Ministerial approvals

Ministerial approvals that apply to all councils have been issued. These approvals provide access buying groups and state government arrangements where an alternative competitive process has been undertaken.

These enable councils to access state contracts including:

- State purchase contracts and whole of Victorian Government contracts standing offer agreements for Victorian government common use goods and services, which are established when value for money can best be achieved through aggregating demand
- The construction suppliers register a pre-qualification scheme for building and construction industry consultants and contractors
- The marketing services register a pre-qualification scheme for a range of creative services within advertising and communication

The key risk relating to procurement is the time to undertake and complete the assessment of submissions. If an open tendering process is required, there is increased risk the assessment and evaluation period will be protracted which could result in an evaluation recommendation not being completed in time for Council to award a construction contract prior to the care-taker period. If the award of contract is not provided to Council for consideration by the September Council meeting, the next available opportunity for Council to consider will be December which will significantly impact on the construction timeframes, and potentially shift the construction to September 2021. This will have a number of consequences including additional costs for the procurement of turf for the playing surface and construction escalation costs, but more importantly Council reputational risks with the community due to the delay in construction.

# **OFFICERS' DECLARATION OF INTEREST**

No officers have a declaration of interest in relation to this matter.

# CONCLUSION

The quality and value for money principles for tendering and procuring will not be compromised by using the Construction Suppliers Register to select companies to tender for this project.

ATTACHMENTS Nil

# 5.14. PETITION - INSTALLATION OF A SKATE PARK AT JUBILEE PARK - WURRUMBIT BIRRNG YAAR, WOODFORD

# PURPOSE:

# To receive two petitions which request that Council consider the development of a skate park nearby the playground at Jubilee Park – Wurrumbit Birrng Yaar, Woodford.

# **EXECUTIVE SUMMARY**

- Two petitions have been received with 101 signatures in total (73 3281 postcode, 23 3280 postcode and 5 other postcodes) requesting that Council consider the development of a skate park nearby the playground at Jubilee Park Wurrumbit Birrng Yaar, Woodford.
- In accordance with Local Law L.1 Governance, the petition should be received and referred to the Chief Executive for a report to a future Council meeting.

## RECOMMENDATION

That in accordance with Local Law L1 Governance, the petition be referred to the Chief Executive for a report to a future Council meeting.

Subject:	Petition for a skate park in Woodford
Attachments:	Jack B Skate park Petition.pdf

#### Hello

I am writing on behalf of my seven year old son, Jack. He has had an idea that he would like to propose to the Warrnambool City Council and hopefully secure some funding for this community project.

The play ground at Jubilee Park - Wurrumbit Birrng Yaar, Woodford is fantastic and we thank the council for the upgrades that have been made previously. We have a proposal that was suggested by Jack as another option for kids as they get older.

Jack decided he would like to start a petition for the consideration of a skate park being built alongside the current equipment.

Jack has outlined valid points as to why this would be a good idea and worth consideration for allocation of funding.

Benefits of a skate park as per Jack;

- Helps keep kids active and build confidence as you can make new friends and help each other learn new tricks (resilience building is an added bonus that would come from this interaction)
- Provides a safe place for the kids of Woodford to use their scooters and skateboards (we live where there are no currently formed footpaths)
- Easy access for the Mums and Dads rather than having to drive to Warrnambool close to school so can go after school as well (as a parent having this extra option close by would be a great help to keep kids fit and active in a safe place after school, on weekends and school holidays)
- A different option for kids to have fun as they grow up (this can help encourage outdoor play rather than technology as kids get older if they have suitable options and easy access)

I have attached the petition (there are two different petitions attached) that Jack presented to the kids at Woodford Primary and family/friends - if you could please consider this proposal and write back to Jack with a response it would be kindly appreciated. Master Jack Brown 78 Plummers Hill Rd Woodford VIC 3281 or via this email. We thank you for your time and look forward to hearing from you soon. Kind regards Brooke (on behalf of Jack Brown 7 years old) -

# **PETITION TO:**

# HELP JACK BUILD A SKATEPARK AT JUBILEE PARK IN WOODFORD

BENEFITS OF A SKATEPARK;

- Helps to keep kids active and build confidence

Provides a safe place to use skateboards and scooters

Close for the community rather than have to travel to Warrnambool or Koroit

A different option for kids to have fun than on the playground equipment as they grow older - Builds social skills and resilience and IT's FUN!!!!

# 5.15. WAG INDUSTRY PANEL

# PURPOSE:

# The report presents recommendations of two new members for WAG's Industry Panel.

# EXECUTIVE SUMMARY

 The Industry Panel needs two new members given the departure of two previous representatives.

# RECOMMENDATION

# That Council endorse Dr Paul Venzo and Jason Smith as new members of WAG's Industry Panel.

## BACKGROUND

The WAG Industry Panel (IP) was established in 2014. The terms of reference for the IP are to review and provide advice on:

- Creative programs including collection, exhibition and education programs
- Strategic direction, identity and industry position
- Appropriate and constructive challenges to the assumptions and operations of WAG
- Community engagement for WAG's programs.

A copy of the IP's existing terms of reference is attached as Attachment A.

### **MEMBERSHIP CHANGES**

Due to several vacancies, arising from members leaving the district or changing job roles, representation on the IP needs to be updated, to allow for the next meeting to be convened. Current members of the IP:

- Cr. Kylie Gaston (Councillor representative as Chair, appointed as part of the annual statutory
- process)
- Ann Morris (President, Friends of WAG)
- Peter Watson (Business representative)
- Professor Robyn Sloggett AM (Director, Grimwade Centre for Cultural Materials Conservation)
- Dr Vicki Couzens (Gunditjmara Keerray Woorroong artist)

IP members no longer able to act on the IP are:

- Karen Quinlan (Director, Bendigo Art Gallery)
- Professor Brenda Cherednichenko (Executive Dean, Faculty of Arts and Education, Deakin
- University)
- Following internal discussions, two new members for the IP are proposed:
- Dr Paul Venzo, Deakin University, School of Communication and Creative Arts
- Jason Smith, Geelong Gallery, Director and CEO.

Background information on the two new members is attached as Attachment B.

Council Officers on the IP are:

- Director Community Development
- Manager Recreation and Culture
- Director Warrnambool Art Gallery

## ATTACHMENTS

- 1. WAG Industry Panel Update 2020 A [5.15.1 1 page]
- 2. WAG Industry Panel Update 2020 B [5.15.2 1 page]

#### Wag (Warrnambool Art Gallery) Industry Panel

#### Terms of Reference

#### Purpose of the committee:

- Provide advice to WAG (and Council) on the delivery of its artistic programs and 5 year plan with respect to industry best practice.
- Provide support and advice on strengthening its engagement with the community.

#### Terms of Reference:

- Review and provide advice on WAG's creative programs including collection, and exhibition and education programs.
- Review and provide advice on the strategic direction, identity and industry position of WAG, including WAG's Strategic Service Plan.
- Provide appropriate and constructive challenges to the assumptions and operations of WAG.
- Provide advice on community engagement for WAG's programs.

#### Committee structure:

- A member of the Public Gallery Sector of Victoria
- A prominent business representative
- A representative of the tertiary education sector
- A practicing visual artist
- A representative from the Friends of Warrnambool Art Gallery.

The selection of members will consider overall composition of the committee, including gender balance, and will strive to ensure that there is representation from external stakeholders, the aboriginal community, and local representation.

Nominees for membership must be able to demonstrate experience and expertise in one or more of the following areas:

- Arts and cultural activities
- Business/Finance
- Marketing, communications and promotions
- Fundraising, philanthropy and sponsorship
- Government relations
- Tourism

#### **Council members:**

- Councillor (1) as Chair
- Director Community Development
- Manager Recreation and Culture
- Director Warrnambool Art Gallery

#### Appointment of chair:

By Council

#### **Meeting frequency**

Twice per annum – timing to suit majority of members

#### Managing conflict of interest:

Members must be aware of and manage their own conflict (and potential conflict) of interest relating to matters discussed by the committee, bearing in mind that the committee is advisory in nature.

#### **Reporting regime:**

A report from each meeting will be presented to Council at the next available Council meeting.

**Jason Smith** has been the Director & CEO of Geelong Gallery since April 2016. He was curator of the survey Fred Williams in You Yangs and he was the initiating curator and member of the international curatorial team for the acclaimed touring exhibition Making Modernism: O'Keeffe, Preston & Cossington Smith. He was previously Curatorial Manager of Australian Art at the Queensland Art Gallery / Gallery of Modern Art; Director & CEO of Heide Museum of Modern Art; Director of Monash Gallery of Art; and Curator of Contemporary Art at the National Gallery of Victoria. Since 1995 he has individually and collaboratively curated over 50 solo, group and thematic exhibitions including major surveys of the works of Howard Arkley, Peter Booth, Louise Bourgeois, Gwyn Hanssen Pigott, Stephen Benwell and Kathy Temin. He has written on the works of more than 150 artists for a range of publications. Jason is currently a representative of the Public Galleries Association of Victoria (PGAV) Board and Chair of the Arts, Heritage & Culture Pillar Group of G21 – Geelong Regional Alliance.

**Dr Paul Venzo** has been a staff member at Deakin University, School of Communication and Creative Arts since 2003, at both the Geelong and Warrnambool campuses. His academic background is in media and cinema studies, as well as language, literature, and art history. He convenes Deakin's subject major in Children's Literature, and specialises in teaching writing and literature for young people. His research is focused around representations of identity, and he has published scholarly work on gender and sexuality, the relationship between subjectivity, place and space, and translation. Using Venice as inspiration, Paul's doctoral thesis explored the poetics of subjectivity in poetry in translation. In 2013 his poem "Today, tomorrow, Berlin" was shortlisted for the Melbourne Lord Mayor's Poetry Prize. Paul is co-coordinator of the Literacy Buddies project, which connects Deakin University, the Ardoch Foundation and a Geelong-based primary school, and he recently received a joint Global Partnership Award from Turnitin for his work on promoting academic integrity through teaching and learning online.

### PURPOSE

This report contains the record of one Advisory Committee meeting.

### REPORT

1. Joint Economic Development Advisory Committee and Visitor Economy Advisory Committee meeting – 9 June 2020 – Refer Attachment 1.

### ATTACHMENTS

1. EDAC and VEAC June 9th Minutes [5.16.1 - 4 pages]

### RECOMMENDATION

That the record of the Joint Economic Development Advisory Committee and Visitor Economy Advisory Committee meeting held on 9 June 2020, be received.

Meeting Minutes

#### Joint Economic Development Advisory Committee a n d Visitor Economy Advisory Committee - Minutes Date Tuesday June 9th Time 12.30pm - 2.30pm Location Zoom **Committee Members** Martin Ellul, Dr Helen Scarborough, James Tait, Doreen Power, Dean Luciani, Rob Lane, Cr. Tony Herbert (Chair), Alistair McCosh, Michael Phillips, (VEAC) Andrew Sugget, Natasha Wilkinson, Bob Scarborough, Cr. David Owen Council Officer Invitees Andrew Paton, Helen Sheedy, Eddie Ivermee, Paul Pinkerton, Lauren Edney, Bethany Lewis, Who No What Apologies 1. Chair Cr. David Owen, Dean Luciani, Bob Scarborough, Helen Scarborough, Michael Phillips, Natasha Wilkinson **Covid-19 Roundtable Discussion -**Meeting declared open by chair at 12.35pm with a special welcome to members of the VEAC group who were invited to participate in the online session today. Chair invited all members of committee present in the meeting to share an update of their Covid-19 experiences 2. ALL Key points discussed throughout this time included – \* Hard hit sectors include food, accommodation, hospitality, retail (in parts) with a slow recovery period likely. \* Other sectors such as education, manufacturing, construction and healthcare likely to have suffered a reduction in demand. \* Young people particularly hit hard. \* Support groups have found that loneliness and isolation has adversely affected many people, with the mental well-being of many a concern now and into the future.

WARRNAMBOOL		Meeting Minutes
	<ul> <li>*Big parts of the economy likely to be sluggish for some time yet. However, many businesses across region generally maintaining a positive outlook on future and innovating where possible.</li> <li>*Dairy season has been one of the best so far on recent records with demand high and prices strong.</li> <li>*University sector adversely impacted by the pandemic.</li> <li>* Economic stimulus at Federal and State level has been significant. JobKeeper particularly important to keep workers and employers connected through the crisis and reducing the likelihood that people are stood down without pay or dismissed.</li> <li>* Unemployment rises quickly in recessions but often takes a long time to come down.</li> <li>Committee agreed there is still a long way to go for the recovery phase and the potential remains for further restrictions should the pandemic cases rise once more.</li> </ul>	
	Covid-19 Business Support Plan Presentation	
	Feedback sought on the Warrnambool City Council COVID-19 Business Support Plan (BSP).	
	Broken into three phases the plan focuses on the Response, Recovery and Rebuild areas of support.	
	The project will be Warrnambool wide and includes components of Economic Development and other departmental support.	
3.	Key components of the BSP discussed –	
	<ul> <li>Concierge / One-stop shop service to inform</li> <li>Get Around Warrnambool Campaign</li> <li>Marketing and Mentor Assistance</li> <li>Business Initiative Grants (BIG) program</li> <li>Better Approvals Project</li> <li>Planning Approvals</li> <li>Mentoring and support</li> <li>Consultation with the business community</li> </ul>	

WARRNAMBOOL		Meeting Minutes
	<b>Get Around Warrnambool:</b> Long term campaign aimed at supporting local and encouraging locals to do the same. Includes branding, events and other initiatives under the banner that will stretch to various Council operations.	
	Some activities so far undertaken are TV ads, adverts, collateral for business use and street signage.	
	<b>Business Support:</b> Better approvals project helping streamline new businesses and expansions with council departments. City for living campaign that will continue to encourage new residents to the city. Planning approvals process improvements to get projects underway even quicker where possible. Mentoring sessions. Workshops.	
	<b>City Wide Engagement:</b> Public webinars will be available to businesses to have their say on important projects to them. Survey work to be done locally to gather intel on business confidence and sentiment.	
	<b>Tourism:</b> Campaigns to be undertaken with Great Ocean Road Tourism. Whale promotion and updating of signage at look out and potentially other sites. Storytowns podcast support to continue.	
	Festivals and Events: support planning for future events in the city. Currently online workshops and training are being provided	
	The EDAC and VEAC Committees noted the extensive coverage of the COVID-19 Business Support Plan (including Stage 1 initiatives) and agreed that all spending should have a solid policy rationale and provide good value for money to the local business and residential community.	
	Business Initiative Grant (BIG) Discussion	
4.	Aimed at supporting industries most affected by the Covid-19 crisis the BIG program was launched by Council to support businesses looking to implement long lasting improvements on their business or to encourage cross collaboration between businesses in the town.

	*Local Government actions needs to complement State and Federal government stimulus packages	
5.	* Importance of evidence base – surveying, economic impact analysis.	
	Meeting declared closed at 2.21pm	
	Next meeting TBC	

### 5.17. ASSEMBLY OF COUNCILLORS REPORTS

### PURPOSE

The purpose of this report is to provide the record of any assembly of Councillors, which has been held since the last Council Meeting, so that it can be recorded in the Minutes of the formal Council Meeting.

### BACKGROUND INFORMATION

The Local Government Act provides a definition of an assembly of Councillors where conflicts of interest must be disclosed.

An Assembly of Councillors (however titled) means a meeting of an advisory committee of the Council, if at least one Councillor is present, or a planned or scheduled meeting of at least half of the Councillors and one member of Council staff which considers matters that are intended or likely to be-

a) the subject of a decision of the Council;

or

b) subject to the exercise of a function, duty or power of the Council that has been delegated to a person or committee-

but does not include a meeting of the Council, a special committee of the Council, an audit committee established under section 139, a club, association, peak body, political party or other organization.

The requirement for reporting provides increased transparency, particularly the declarations of conflict of interest.

### REPORT

Section 80A(2) of the Local Government Act 1989 requires the record of an Assembly of Councillors be reported to the next practicable Ordinary Meeting of Council.

The record of the following Assembly of Councillors is enclosed:-

- Tuesday 9 June 2020 refer Attachment 1.
- Monday 15 June 2020 refer **Attachment 2**.
- Monday 29 June 2020 refer Attachment 3.
