

Have your say

Have your say on a Brierly Reserve Community Centre

We are planning a sports and community centre to be located in Brierly Recreation Reserve and we are seeking input as to how the centre can best meet the community's needs.

Consultation will help in the development of a business case which will provide justification for undertaking a construction and landscaping project that includes, at a minimum:

- A sports pavilion with female friendly and accessible change rooms for players and umpires, storage, and shared social space.
- A community hall with kitchen facilities.
- Meeting rooms.

This scope may need to be expanded depending on the outcome of community engagement.
